## BENEFIT FOOTBALL GAME WILL BE PLAYED TOMORROW AT GRANT FIELD

### Glenn Selected Outstanding Naval ROTC Student in East

#### ACHIEVEMENTS BRING RECOGNITION TO TECH UNIT

Medal to be Presented by General Pershing in Recognition of Prominence as R.O.T.C. Student.

W. H. Glenn, Jr., cadet commander of the Naval R.O.T.C. battalion, has been designated by the Civilian Military Education Fund, with headquarters in Washington, D. C., as the outstanding member of the Naval Reserve Officers Training Corps units in the East, and has been awarded a trip to Washington at the expense of the Fund.

In the course of this trip he, with other representatives from military and naval units, will be presented a medal by General Pershing, in recognition of the outstanding military and naval qualities.

Trips to historic and interesting points in Washington and Annapolis have been arranged.

Glenn, a member of the senior class, has among his outstanding achievements, president of the Student Council, president of Omicron Delta Kappa, member of Anak, Phi Kappa Phi, Bulldog, Inter-fraternity Council, Scabbard and Blade, Scientia Club, and numerous other honorary campus organizations. He is captain of the basketball team.

Glenn will leave for Washington the last of April or the first of May, and stay in the Capitol City several days.

The appointment of Glenn to represent the Naval R.O.T.C. units of the east is a signal honor to the school as well as to himself.

#### HONORED

Billy Glenn

Selected as outstanding N.R.O.T.C. Student in the East. High grade, Billy!

### Sigma Chi Leads in Bowling League

The Sigma Chi fraternity gained undisputed lead of Georgia Tech's Bulldog Bowling League by virtue of a 3-0 victory over the Chi Phi fraternity Friday night. Including these games, the Sigma Chis have a splendid record of 13 games won and only two lost.

Second place is held by Phi Delta Theta, with 12 games won and three lost. They won from Kappa Alpha by a forfeit. Delta Sigma Phi defeated the strong S.A.E. fraternity 2-1, maintaining third place, with an average of 10 games won to five lost. Fourth place in the League is in dispute, with a tie between Chi Phi and Pi Kappa Phi, both having won eight and lost seven.

### ARMY CHAPLAIN TO ADDRESS YOUNG PEOPLE AT "Y"

Interesting and Varied Program in Offing at Sunday Night Meeting.

Rev. Cannon Wm. S. Turner, of the Episcopal Pro-Cathedral, Chaplain of the U. S. Army Reserve Corps, will address the young people's gathering Sunday night at the Tech "Y." He will present what, in his opinion, is the Christian attitude on war. In the last war the ministers blessed the soldier boys and their guns so they might fight better and shoot straighter than the enemy. Now the world is full of militarists, pacifists, disarmamentists, propagandists, anti-capitalists, pro-capitalists, and many other "ists." In case of another war, in which group would you be? Will our ministers bless us to go forth and kill the enemy faster than they can kill us, or will they accept Lloyd George's challenge of 1914; that is, "If the Christian Churches will, they can prevent the war?"

You should take this opportunity to hear one who has made an extensive study of the subject and is very fair-minded and frank in his interpretation of the "Christian attitude on war."

Following the meeting refreshments will be served, after which the "Y" will present "The Modern Ten Commandments," by Cecil B. DeMille, a talking picture.

The picture is a marvelous contrast to the life at the time of Moses, when he received the Ten Commandments. (Continued on Page 3)

### GLENN, MEEHAN, AND MORRIS APPOINTED S.F.C.S. DELEGATES

Nomination Committee Appointed for Ensuing Council Election.

Billy Glenn, president of the Student Council, and Allen Morris, associate editor of The Technique, were delegated by the Student Council at its meeting last Tuesday night to represent Tech at the fourteenth annual convention of the Southern Federation of College Students and the Southern College Press Association, which will meet in conjunction with the Southern and Southeastern Regions of the National Student Federation of America in New Orleans, April 11, 12, and 13.

Chick Meehan will attend the convention by virtue of being president of the Southern Federation of College Students. Dillon Kalkhurst, editor-in-chief of The Technique, and Dan Holsenbeck, president of the Junior Class, were selected as alternates for Glenn and Morris.

Reservations have already been made. (Continued on Page 5)

#### NOTICE TO NON-FRATERNITY FRESHMEN

The election of the five freshmen of the Non-Fraternity Executive Committee will be held next Monday. The polls will be at or near the Administration Building. All Non-Fraternity freshmen are eligible to vote.

### Small Admission Fee Will be Given to Spring Sports Fund

#### COACH

Coach Alexander

Come on out, fellows, for a fine afternoon. Tech's going to win!

### Ga. Science Academy Holds Annual Meeting

The Georgia Academy of Science, of which Dr. A. V. Henry of Georgia Tech is president, will hold its annual meeting at Agnes Scott on March 22 and 23. Simultaneously there will be meetings of the Georgia Section of the American Chemical Society, Southern Section of the American Physical Society and the Southeastern Section of the Mathematical Association of America. The faculty and students of Georgia Tech are invited to attend.

Of particular interest will be a lecture by Dr. Alexander Silverman on the subject "Glass, an Indispensable Factor in Modern Civilization." Dr. Silverman is not only one of the country's most noted authorities on glass but is a very popular lecturer. His (Continued on Page 6)

### WELL TRAINED SQUADS PROMISE EXCITING GRID BATTLE

Coach Alex' Green Team Will Battle Dodd and Tharpe's Gold Team to Benefit Spring Sports Fund.

Students, alumni, and friends will have the opportunity to witness an official football game between two teams composed of members of the Tech squad tomorrow afternoon at 2:00 P. M. at Grant Field. The admission fee will be 50 cents per person with no reserved seats.

The proceeds will go toward increasing the Spring Sports Fund. Under ordinary circumstances this game would be free to students and alumni, but this year it is being played as a benefit in order to carry on with the spring sports.

Two teams have been selected, Coach Alexander announced, one to be called the "Gold Team," coached by Bobby Dodd and Mack Tharpe, the other to be called the "Green Team," coached by Roy MacArthur and W. A. Alexander.

The probable lineup, with numbers and positions of players, as announced by Coach Alex appears as follows:

"Gold"	"Green"
Jones (16)	L.E. Allen (30)
Chance (28)	L.G. Roney (16)
Wilcox (30)	L.G. Carmack (2)
Preston (34)	C. Collins (30)
Fitzsimmons (31)	R.G. Carr (27)
Eubanks (36)	R.T. Roberts
Jordan (30)	R.E. Stacy (18)
Appleby (20)	Q.B. Johnson (13)
Street (25)	F.B. Hackett (24)
Edwards (9)	L.H. Moore (11)
Sims (24)	R.H. Calley (24)

(Continued on Page 3)

### A. C. Todd Wins A.S.M.E. Award In Technical Essay Contest

A. C. Todd won the first prize of five dollars offered by the Tech chapter of the American Society of Mechanical Engineers for the best scientific essay. His paper on "Economic Aspects of Stream-lining as Related to Automobiles" was chosen by the society from the numerous entrants. The second prize of a Brashear Biography was awarded to G. R. Catts' paper on "Binary Fluid Cycle for Power Generator."

Todd, by virtue of winning the local contest, will be the official Tech delegate at the regional meeting of the student A.S.M.E. at the University of Tennessee on March 25, 26, and will present his paper in competition with representatives from thirteen Southern colleges for a grand prize of fifty dollars. A large number of Junior and Senior members of the Tech chapter of A.S.M.E. will also attend the convention. Professor N. S. Ebaugh, honorary chairman, will attend the convention also.

An extensive program has been arranged for all attending the conclave at University of Tennessee. Inspection tours will be conducted to the Norris Dam project, one of the famous Tennessee Valley Authority undertakings, and to several of the huge industries around Knoxville.

### 'Y' Board Approves Office Nominees

At its March meeting last Tuesday afternoon the Y. M. C. A. Board of Directors approved the list of nominees for the student "Y" officers for next year. The Cabinet committee, composed of E. V. Johnson, chairman; W. H. Morrison, R. W. Nauman, and Oscar Saurez, had presented this list to the Board at its February meeting. In the meantime a Board committee had been considering the list, to which they expressed their approval and presented to the Board.

The election will be held on Monday, March 25. The candidates for president are: Ray Kytte, Jim Simmons, Johnny Williams, and Jack Rountree. For vice-president: E. I. Hulbert, F. W. Evans, W. M. DeMeritt, and J. McKinnon. For secretary: D. D. Hammond, Will James, Albert Howard, and Claxton Ray.

#### NOTICE

Fencing team will meet V.M.I. in Armory tomorrow immediately after the football game. Admission ten cents.

### Navy R.O.T.C. Unit Announces Plans for Summer Cruise

#### Fencing Team to Meet V.M.I. After Game Sat.

The Tech fencing team will meet V.M.I. in the Naval Armory tomorrow afternoon following the benefit football game. The admission price will be the nominal sum of ten cents.

The reason for having to charge admission for these matches is that the fencing team is entirely self-supporting and has been since its formation on the campus several years ago.

The team has made an admirable record, taking several trips to other schools and entertaining visiting teams from the gate proceeds.

This year's team has won four of the six matches entered with southern colleges, and the members, developed under the coaching of Professor Morenus, promise to offer an excellent exhibition tomorrow.

All students and their friends are urged to be present and lend their support to a self-supporting sport.

#### NOTICE

All freshmen interested in cheerleading report to "Y" on Tuesdays and Thursdays at 7:00 P. M., for work-outs and trials.

Georgia Tech Naval Unit will embark on its annual summer cruise from Charleston, S. C., on June 12, for a voyage of 24 days. Three destroyers will carry 82 members of the Tech Naval Unit and 70 members of the Naval Unit at Northwestern University on this cruise.

The following itinerary has been tentatively set and will probably be followed. After leaving Charleston on the 12th, the destroyers will sail to Washington, D. C., where the members of the Northwestern unit will be picked up. Then on the 16th of June the entire contingent will embark for San Juan, Porto Rico. Next the unit will visit Saint Thomas in the Virgin Islands and then set sail for Guantauamo, Cuba. Here the students will be given gun practice and recreation. They will leave Guantauamo in time to return to Charleston for disembarkation on July 6.

This annual summer cruise of the Naval units is looked forward to most eagerly by the members of the respective units. In addition to the sightseeing which they enjoy, the students are given long liberties, or leaves of absences, in every port to take in the entertainment that particular locality might offer.

## What, No Coat Hangers?

Do you wear a hat or a coat? If so, where do you put it when you eat at the Dining Hall? On the floor? On a table? What a pity that there are no coat hangers available. What a shame that the builders neglected to provide accommodations for coats and hats that can't very well be worn while one is eating.

The Technique would like to mildly suggest that some sort of arrangements be made. The wood shops could, and probably would be glad to turn out the necessary equipment if requested to by the proper authorities.

Nothing fancy would be needed. Merely several hundred hooks attached to boards that could be fastened to the walls would be quite sufficient.

This is merely a suggestion, made with the hope that the proper authorities will take it up and see what can be done about it.

## They Need YOUR Cooperation!

The Spring Sports are depending upon the students, alumni, and friends of Georgia Tech for their support this season. The Athletic Association, the Coaching Staff and Anak Society are doing everything in their power to make the spring sport teams come out on top this year.

This objective cannot be obtained without the cooperation of each and every student of Tech.

But these organizations are making cooperation easy.

The Anak dances offer a most enjoyable Saturday evening for Tech students and alumni for the modest sum of forty cents, and, at the same time afford a delightful evening for one's date.

The Athletic Association and the coaching staffs are presenting another inducing offer—a chance for everyone to see the making of one of the South's outstanding grid teams work out under official rules and under the strain which goes hand in hand with competitive football. A regulation football game for fifty cents for any seat in the stadium.

The day is tomorrow. The time is two o'clock. And the admission price is only fifty cents, all of which will go to fill the coffers of the Spring Sport Fund.

Two teams have been selected, the Gold and the Green, the former being coached by Bobby Dodd and Mack Tharpe, and the latter by Roy MacArthur and Head Coach Alexander. An exciting afternoon is promised for all.

Everyone is urged to cooperate with the Athletic Association in this worthy move. Let's give the Spring Sports the backing that they have so nobly earned.

## The "Y" Movies

Have you ever attended one of the weekly movies presented at the Tech Y.M.C.A. Did you know that 350 students crowded the "Y" auditorium last Tuesday night to witness a showing of a scientific picture showing the origin of life?

At first these pictures were experiments. Now it is known what the student body wants in the way of combining learning and pleasure through attending movies.

Watch for the announcements of new shows. There's a good one Sunday night, "The Modern Ten Commandments." Get there early so you will be assured a good seat.

EDITOR'S NOTE—  
Beginning next week and continuing for the next several weeks, Socially Speaking will introduce several guest columnists. Campus journalists of this and other campuses combined with professional talent will conduct the column in conjunction with Socially Speaking. This should give a broader field for the readers of the column.

AND AGAIN THE ANAK DANCES introduce the new Georgia Tech Ramblers for the Saturday night dances this together with the restriction on the persons attending with all members of the Inter-fraternity Council bringing dates, should improve the dances greatly. With the ideal dance for 40 cents, and at the same time a worthy cause being helped. Let's have a swell time, fellers, at the best dance on the campus, or in Atlanta, for that matter. Tomorrow the game at Grant Field is given in behalf of the same cause; get a line on how the Tornado will stack up next year, have a swell time, bring a date and her parents; a beautiful gesture that will mean lots.

ONE OF THE NEWEST PLACES for the Engineer to carry the dame after the dances is the new Drive Inn of the Fraternity Grill, located at Spring and Fifth Streets. Instant service, clean food, plenty of parking space. The Grill is operated by former Tech men and warrants the support of Tech men. They advertise

in Tech publications, so therefore your food dollar buys more when it is spent at the Grill. Meet the gang at the Grill after the dances.

ABOUT THE Campus we find that Scott Poer of Phi Delt fame is entering new fields with his selection of feminine something or other. A PWG has replaced the OBX of long standing. Pop Siegel, erstwhile Inter-frat representative of the Pi Kappas, seems to have found the OAO over the week-end. Grace Archer is the name and since the events of the week-end Pop has had only one week date; yea, a continuous date with said Archer. While at the domain of the Pi Kapp we might mention that Harris McClannahan is getting more and more that-a-way about one Mildred Ewing. Bebe, it seems, has taken on the role of being the sweetheart of Pi Kappa Phi. Gray Commins seems to be quite that way about the Decatur flash, Rosaline Richards. Al Johnson must have been plenty busy of late, because reports have it that he hasn't gotten around to the date that he planned with Agnes Scott Wilder yet. We are pleased to report that Virginia Hart is up and at 'em again none the worse for the operation. Glad to see it, Va. Missed you at the affairs when you were sick. Get well quick so that we can have your presence again at the dances. The Eve-Vallebuona affair seems to have struck a snag recently. Ho, hum! We suppose that true love, after all, doesn't run smooth. Tab, Kibler and Frances seem to be closer to Tech of late as far as some persons are concerned, than Agnes Scott or any of the environs of Atlanta.

## Fraternities Turn Out En Masse To Make Anak Dance Success

The fraternities and students of Tech showed fine spirit and cooperation by attending the Anak dance last Saturday night. The Phi Sigma Kappas in particular should be commended for turnin gout in force. Some of the other groups might try this idea of meeting and going to the dance together. The students who go become better acquainted with each other and also meet those for whom Georgia is famed.

Charlie Yates, president of Anak, announced the re-signing of a new band, the "Tech Ramblers." The

"Ramblers" are well known to Tech students, and their smooth music, combined with the even smoother voice of beautiful Louise Wilmot, their "torch singer," should make the Saturday night Anak dances even more successful.

The admission is still forty cents to those with athletic pass books, and \$1.10 to others.

Fellows, let's turn out for these dances and make them all a big success. Everybody come so we can show the alumni of Tech that the Tech spirit still exists. Remember, there is no charge for your date!

## Georgia School of Technology

"A Technical School With a National Reputation"

THE GEORGIA SCHOOL OF TECHNOLOGY offers to young men of ability and ambition a training which will fit them for positions of responsibility and power. The national reputation of this institution is based not on claims, but on results. Its greatest asset is the record which its alumni are making in the productive work of the world. Georgia Tech graduates succeed because they have been trained both to think scientifically and to work efficiently.

Courses in Civil, Electrical, Mechanical, Textile, General, Ceramic, Chemical, and Aeronautical Engineering, Architecture  
Industrial Education, and General Science

## COLLEGE COMMENTS

By JACK McKINNON

No matter how young a prune may be It's always full of wrinkles; We may get them on our face But prunes get them every place. Nothing ever worries them, Their life's an open book; Yet even the very youngest prune Wears a worried look.

—Purdue.

Two fraternity athletes of Northwestern U. lacked the necessary cash to purchase flowers for a formal function. A violent storm was raging, so they prevailed upon a brother to call their dates, informing them that this was the florist, and that the flowers could not be delivered because of the storm. Then the gentlemen arrived and expressed their deep indignation at the lack of flowers.—Maryland.

A fraternity at Texas U. has a dog named Dammit Scram.—L.A.J.C.

A "Who's Who" of the collegiate world will be published in April. It will consist of the most prominent students in American colleges and universities, the number being limited to one percent in each school.

Students will be judged according to character, scholarship, leadership in politics and athletics, and possibility for future prominence.

A V.P.I. student hitch-hiked 100 miles to see his girl friend at a neighboring college. He arrived at 10:57 P. M., just in time to say "hello" before the matron showed him the door at closing time, eleven o'clock.

### Wise Words

Every man has his price, every co-ed her figure.

The old-fashioned girl was a clinging vine. The modern girl is a ram-bler.

We were wretched, we had quarreled, Jane and I, best pals for years: Life to me was shattered, broken, Jane seemed on the verge of tears.

"Monster! You shall go this instant! With tonight acquaintance ends! I shall hate you always, always, We can never more be friends." Nervous, fearful, on the sofa There I sat, nor did I stir; "Can't you hear me?" Jane was crying "I despise you, loath you, sir!"

Then I answered, voice a-quiver, "You've no mercy on a chap; But if I must truly leave you, Jane dear, please get off my lap!" —V.P.I.

### It's a Fact

At Ohio State a machine for grading exams has been invented.

The average student does his best studying when he has a radio beside him.

Forty-two per cent of students' worries is due to grades; 30 per cent to finance, and only nine per cent to love affairs.

One million women are overweight, says one physician.

Thirty-three per cent of the women students at Ingersol University marry their instructors—the total co-ed enrollment has a grand total of three.

When President Roosevelt visited Harvard recently to attend his son's initiation into a society, 400 secret service men were hired for two weeks to check all homes along the route (making records of each person), all roads for a block on each side of the route roped off, history files made of every waiter at the banquet, and operatives put in the crowd to watch for bombs, guns, etc. The expense ran into five figures.

And President Conant of Harvard was not there to greet the President—he gave as his excuse, "Busy in New York."—Minn.

### Turner Speaks at "Y" on Christian Attitude on War

(Continued from Page 1) ments from the Lord on Mt. Sinai, to the present time. For the present, a family composed of a mother and two sons is used as the example. One brother is an humble Christian carpenter, the other becomes a great civil engineer. The comparison of their lives, and the outcome, is very powerful. You have for years admired Cecil DeMille—his Sign of the Cross, King of Kings, Cleopatra, but until you have seen "The Ten Commandments," you have missed his masterpiece.

The tentative program is:

1. Introduction—Jim Simmons.
2. Scripture passage—Ray Kytte.
3. Congregational singing.
4. Special music.
5. Rev. Cannon W. S. Turner.
6. Congregational singing.
7. Refreshments.
8. "The Modern Ten Commandments."

## Old Gold Sponsors Contest With Many Prizes

OPEN TO ALL—WIN A PRIZE IN OLD GOLD CIGARETTE CONTEST MARCH 15 TO MAY 1, 1935.

First Prize—Ping Pong Table and Set (complete).

Second Prize—Bridge Table and Four Chairs.

Third Prize—One Circular Lamp (by Chase Brass & Copper Co.)

First prize to be given to the fraternity placing the largest number of empty Old Gold Cigarette packages in ballot boxes provided for the same in Georgia Tech College Inn and Tech Commissary.

Second prize to be given to the fraternity placing the second largest number of empty Old Gold Cigarette packages in above mentioned ballot boxes.

Third prize to be given to the fraternity placing the third largest number of empty Old Gold Cigarette packages in above mentioned ballot boxes.

\$10.00 cash prize will be given to the individual man not having any fraternity affiliations, who places the greatest number of packages in the ballot boxes mentioned above.

### Rules of Contest

This contest is open to all students of Georgia Tech, who are desirous of winning the above prizes for their favorite fraternity houses.

The name of the fraternity you desire to win must be written plainly on the inside wrapper of the empty packages and deposited in the ballot boxes provided for this purpose.

The name of the man not having fraternity affiliation and contesting for the \$10.00 cash prize, must be written on the inside wrapper of the package and deposited in the ballot boxes mentioned above.

Countings to be made each week by George F. Herrin, graduate manager of the College Inn and students appointed by The Technique, and at the close of the contest, May 1, 1935.

No empty packages will be accepted

## Non-Fraternity Club Sponsors Soft-Ball Tournament

At the last meeting of the Non-Fraternity Organization, the first of a large series of proposed events was set into motion. A committee was appointed to start a soft ball tournament. In this tournament a novel feature has been introduced—each department at Tech will be represented by a team. Coach Alexander has promised his fullest co-operation. All the games will be played at the Rose Bowl, and the necessary equipment will be supplied. H. V. Lamberti was appointed chairman of the committee.

A sub-chairman has been nominated for each department, who will see that a team composed of the non-fraternity students in his department is on the Rose Bowl field at the appointed time.

This program is the first of many which will be introduced upon the Tech campus by the Non-Fraternity Organization. It is expected that the competition between the individual departments will arouse a great interest among the students of Georgia Tech.

Those interested can be given more information by Prof. Rainey, of the English Department, or by H. V. Lamberti.

The Non-Fraternity Organization wishes the student body to realize that any group of non-fraternity students can get together and form a team to compete in this league. They are cordially invited and every aid will be extended to them. The Non-Fraternity soft ball tournament is open to all non-fraternity men.

after midnight, April 30, 1935.

See the prizes on display at the College Inn on the campus.

## Benefit Football Game Tomorrow at 2 P. M.

(Continued from Page 1)

The available substitutes of the Gold team are: Guards, Nixon and Glendinning; Center, Lyons; Tackles, Brittain and Lindsey; Ends, Gibson and Thompson, and Halfbacks, McKinley and Hays. Those for the Green team are: Guards, Miller and Adams; Ends, Chivington, Morgan, Bailey, and McClure; Tackle, Jenkins; Fullback, Tharpe; Halfbacks, Raine and Rogers; Center, Hood, and Quarterback, McIntire.

The officials will be: Buck Cheeves, referee; Pop Phillips, umpire; Jack Adair, head linesman, and Tom Slate, field judge.

COACH ALEX.

## BASKETBALL LETTERS AWARDED

### Last Scrimmage Held Prior to Tomorrow's Final

Taking part in their last hard scrimmage before the spring practice wind-up tomorrow, the varsity football candidates mixed it rather enthusiastically last Saturday afternoon. The members of the two squads were announced by Coach Alexander, and the newly appointed teams ran signals up and down the field. One—in charge of Coach Alec, and consisting largely of freshmen and ex-Grey Devils, was to be pitted against a more experienced group, but containing seven freshmen, coached by Mac Tharpe and Bobby Dodd. At around three o'clock the boys were given a chance to work together a little, as the order for a scrimmage was given. Coach Alec's team was outfitted with green jerseys and their opponents with gold. The greens kicked off, regained the ball, and began a drive featured by a couple of good runs by Moore, but were stopped twice on the 20-yard line. Here, with Edwards holding the ball, Moore stepped up and kicked a 30-yard field goal, and put his team in the lead 3-0. Later, however, George "Scrappy" Edwards made some beautiful runs and climaxed them by sprinting over the goal from the 35-yard marker. Sims kicked the extra point and the Gold led 7-3. Sims made the second Gold touchdown on a line plunge, converted the point, acquiring a 14-3 lead for his team. Toward the end of the session Oscar Thompson scored on an end around play, Jones missed the point after, but the Gold led 20-3. Soon after a halt was called and most of the squad ordered in. It can hardly serve as any prediction as to how tomorrow's game will end, however, because the Greens are endowed with a large amount of courage and will, as well as their share of ability, and it would not be far out of line should they offer a close game. They have exceptionally good men in Collins, Morgan, Tharpe, Moore, Stacey and Johnson. There were two injuries occurring during Saturday's scrimmage—that of Street, who received a blow on the head and kept him dizzy the remainder of the afternoon; and that of Freshman Rogers, who had his elbow dislocated and was forced to retire from the field. Neither of the boys were seriously enough injured, however, to warrant keeping them out of tomorrow's encounter.

Harry Appleby attracted a good deal of attention by several good runs, as did Lawrence Hays—both came very near getting away, only to be dropped by the last of the defense. Hays also looked good from the passing position, throwing several long ones that were perfectly timed.

### Swimming Stars Win Three-Way Meet

The Georgia Tech swimming team began the '35 season last Saturday by capturing a triangular meet from the University of Tennessee and Maryville College. The Yellow Jackets scored 53 points, with the Vols in second place with 34 and Maryville third with 27. Tech took six first places out of nine events.

Even though Tech won by such a decided margin, Coach Thrash said that he was not satisfied with the times which the team turned in. The only really outstanding performance of the evening was the 440-yard swim in 5:55 by Lee of Tennessee. Gordon Catts was the individual star of the meet, taking first places in the 100- and 220-yard dashes. Just before the meet began the Tech swimmers elected Catts as their captain. Several of the men on the team turned in faster times last year, and the time trials at home were better than many of the events in this meet.

Coach Thrash wishes to thank the U. of Tennessee for making the visit to Knoxville so pleasant for the Tech team.

Tomorrow the Tech swimming team will meet Clemson at Clemson. This will most likely be Tech's toughest meet this season. Clemson has already won several meets this year, and they recently won the Southern Conference meet. If the team comes

### Nine Fraternities Unbeaten in Cage Loop

This year's Inter-fraternity basketball tournament has proven to be the most popular and successful ever held at this school. All fraternities and fraternity men have shown such a great interest in this tournament that there has been only one defaulted game.

All favorites have come through the first two rounds, which ended last Friday, without a defeat. The games between these teams and between the winners of the four leagues should be closer and more interesting than those that have already been played. The results of the first two rounds are:

First League		W.	L.
Phi Delta Theta		2	0
Beta Theta Pi		2	0
Phi Kappa Sigma		1	1
Pi Kappa Alpha		1	1
Beta Kappa		0	2
Kappa Alpha		0	2
Second League		W.	L.
Delta Sigma Phi		2	0
Alpha Tau Omega		2	0
Theta Chi		1	1
Phi Epsilon Phi		1	1
Phi Epsilon Phi		1	1

(Continued on Page 5)

through this meet successfully they will probably be able to add another year to their long record of undefeated seasons.

### Net Team Opens With Ft. Benning March 28

Georgia Tech's tennis team has swung into action on what promises to be one of the best seasons in the history of the school. Prof. E. E. Bortell, coach for the team, said that the material for this year's team holds the best prospects that he has seen in the fourteen years that he has been here, and probably will develop into the best tennis team in the history of Tech.

This brilliant array of talent is headed by Captain Billy Reese, who rated fifth in the national intercollegiate ratings last year. He is one of the most prominent figures in Southern tennis, and is known throughout the nation for his excellent form and technique. And it is reported that his game has steadily improved during the winter and he is ready to attain still greater heights this season.

The other members of this all-star ensemble are Mac Keiser, Henry Crawford, Tom Tumlin, and Fernandez Morrell. They are all netmen of outstanding ability. Three lettermen, Maynard, Rivers, and West, were lost from last year's most successful team by graduation, but these will be very capably replaced by some shining sophomores. Chief among these is Burtz Boulware, who displayed a great game with last year's freshman team. Swift and Silva are the other two

### Seven Men Win Varsity Awards From "T" Club

The following men have earned their varsity basketball letters under the rules of the "T" Club: Boulware, H. B.; Glenn, W. H.; Hays, L. C.; Hyder, J. C.; Kidd, E. C.; Stacy, G. T. The "T" Club also awarded a letter to H. G. Crawford on the recommendation of Coach Mundorff.

The freshman basketball team has completed a very successful season. They scored over 50 points in every game but one; in that they scored 40. The members of the team awarded numerals were: Aldridge, R. P.; Hackett, A. W.; Johnston, W. B.; Jones, B. P.; Jones, E. A.; Jordan, W. H.; Sims, T. F., and Trask, C. W.

The following attained the manager's award: Chapman, W. S., and Lucas, J. W.

The team played a hard schedule away from home and certainly gave the much-touted Georgia outfit a run for their money. For this alone the

## TECH SIDE LINES

By JIM WATKINS

Tomorrow afternoon at 2:30, two rival football teams which will go to make up the 1935 Golden Tornado, will meet on Grant Field in a regular game, with officials, rival coaches and different uniforms, with numbers so that the players can be followed.

The teams will be known as the Gold and Green squads. The rival coaches will be Coaches Mack Tharpe and Bobby Dodd on one side and Coaches Alexander and Roy McArthur on the other.

The admission will be one half of a buck to everybody. The money will go to help out the spring sports program. From the word going around and the enthusiasm from the Tech fans, several thousand spectators are expected to turn out to see the pre-view of the team which will represent Tech next season.

From all indications, so far the spring practice has been highly successful, with hopes looking up for a big season next fall. The excellent freshman team of last year seems to have made progress and some of them will probably be in the starting line-ups when Fall comes. The Green team is made up largely of the old freshman team.

This game on Saturday will be much more thrilling and interesting than any other form of amusement that has been here in several days. It will be well worth the time any money.

Coach Dennison of the golf team believes that the Tech golfers will win the team championship this season at the National Intercollegiate meet. He is planning to take a six-man team to Washington, D. C., instead of the four-man team he took to the meet last year. Last season the team was pushed out of first place by only three strokes and would have won if hard luck had not followed one of the players who got mixed up on his holes.

Charlie Yates will be under pressure to win the individual championship again. But, if he keeps up shooting as he has been playing and "gets hot" in the meet, he will repeat. He and Berrin Moore shot a 68 and 69 respectively last week in a practice round.

The freshmen golfers are nearly on par with the varsity. Some of their members have made fine records in tournaments over the state. They boast of such players as Ben Jones, Dan Holdwitch, and Tommy Barnes, who are almost veterans in the meets around here.

The Tech fencing team really came through last week to defeat the Alabama fencers. Three of the fencers defeated Captain Bakst of the 'Bama team, who is considered one of the finer fencers in the South. George Swanson,

(Continued from Page 4)

sophs who will battle with other aspirants for a berth on the team. This battle is taking place in the form of an elimination tournament which started this week. The results of this tournament will determine the eight men who will compose the varsity team.

After a week of practicing together the mighty eight will head for Fort Benning on March 23 to open an exceptionally hard schedule. They will meet eleven teams, then take part in the Southeastern Invitation Tournament at the Biltmore Tennis Club on May 16-17-18. In addition, Reese, and possibly several others will enter the National Intercollegiate Tournament, to be played at Northwestern University.

All candidates for the freshman team are invited to meet at the varsity courts on Wednesday, March 20, rain or shine. They will play a tournament, and the four semi-finalists will compose the frosh team.

### Student Council Appoints Delegates to S.F.C.S. Meet

(Continued from Page 1)

made at the Roosevelt Hotel in New Orleans, where the delegates from southern and southeastern colleges will stay during the convention. Prominent men in college activities will deliver addresses and conduct meetings at which points of major interest for the betterment of college education and publications will be discussed. Further information concerning the conclave will be published in an early issue of The Technique.

Committees were appointed for nominating the outstanding men in the freshman, sophomore and junior classes for positions on the 1935-36 Student Council. John Ridley and Jack Nixon were elected to select men from the freshman class; Culver Kidd and Dan Holsenbeck, the sophomore class; and Dillon Kalkhurst, Marion Moody, and John Wilcox, the junior class.

The nominations will be announced in The Technique as soon as they have

I'm your best friend

I am your Lucky Strike

I give you the mildest, best-tasting smoke—because I am made of center leaves only. The top leaves are unripe, bitter, biting. The bottom leaves are coarse, sandy, harsh. The center leaves are the choice leaves. They are mildest, mellowest, yet richest in fine tobacco flavor. And I offer you the fragrant, expensive center leaves exclusively. I do not irritate your throat. That's why I dare to say, "I'm your best friend."

LUCKIES USE ONLY THE CENTER LEAVES . . . CENTER LEAVES GIVE YOU THE MILDEST SMOKE

They Taste Better

## Naval Rifle Team Wins Three Matches

The final returns from the postal rifle match between Georgia Tech Naval Unit and Harvard Naval Unit show another victory for the Tech team with a total of 945 points to Harvard's 886. This Tech Naval R.O.T.C. team has been remarkably successful this year, having won every match. The scores are as follows:

University of Washington, 922; Tech, 938.

Northwestern University, 877; Tech 938.

Harvard University, 866; Tech 945.

Four targets were shot in prone, sitting, kneeling and standing positions, with a possible total score of two hundred.

The individual scores of the team members were: Lokey, 193; Morris, 189; Morrison, 189; Burks, 190; Long, 185; Waite, 183.

The Tech Navy team will enter a postal rifle match starting on March 18 and ending March 23, for the coveted Hearst Trophy. The squad, under the able guidance of Captain Fellers, is practicing steadily for this important match.

## Debaters Argue On Munitions Embargo

W. A. Darden and Lewis Blanks, members of Tech's debating team, met Albert Stutz and Harold Suggs, of Davidson College, Friday, March 8, on the question, "Resolved: That the Nations Should Agree to Prevent International Shipment of Arms and Munitions." The visitors argued the affirmative side of the question, while Darden and Blanks upheld the negative. Both teams capably handled their ends of this timely question, which will be debated again and again by college debaters in the United States this year.

Tech's team attacked the feasibility and the worth of such a plan to limit arms shipments. It was claimed that it could never succeed for there is no existent power capable of enforcing it. It was contended that arms would be smuggled from country to country, establishing a permanent source of international friction. The negative contended that international shipment of arms is only an insignificant part of the munitions makers' business, and that it is useless to prohibit shipment of arms which is only 15 per cent of the munitions makers' total

business, while he is allowed to wield an unhealthy influence on international relations with the profits gained from his remaining 85 per cent of trade.

The remainder of March finds Tech debaters meeting teams from other colleges in a steady stream. On March 19, a Tech team meets Brenau on the question of equalizing elementary education by federal grants.

## Seven Men Win Varsity Awards From "T" Club

(Continued from Page 4)

season should be proclaimed a successful one. But notwithstanding this double defeat of the Bulldog our team turned in a commendable record.

With those coming up from the frosh squad the chances for leading the Conference next year look admirable.

## Georgia Science Academy Holds Annual Meeting

(Continued from Page 1)

talk will be at 7:15 P. M., Friday, March 22 in the Agnes Scott Chapel.

Also later in the same evening an opportunity will be given to hear Dr. Arthur H. Compton, the Nobel Prize winner, on the subject, "Cosmic Rays and the Seven Continents."

## TECH SIDE LINES

(Continued from Page 5)

Freeman Williams and Hutchenson won bouts from him.

An interesting feature of the match was the officiating of an Alabama freshman, Mauritz Katz. This is quite unusual to invite a member of a rival school, especially a freshman, to direct and judge an athletic engagement. It takes a keen student of fencing to act in this capacity. Katz ran the meet off with a minimum of delay.

The old duelists who thought fighting with swords a pastime must have had a bloody idea of sportsmanship and upholding one's honor.

The foil was used to run through a man's body. The saber is a slashing weapon and in the modern fencing is the most interesting, while the epee has on its tip three sharp points, which were used to make the duels even more bloody. (Maybe civilization is getting somewhere after all.)

FLASH! FLASH! The only titled sports commentator this side of the East side (far East) has been delayed by a cow getting in front of his private slow freight car and will not be able to prognosticate for you at this time. If he can pull a "One-eyed Connally" he will probably see the Gold-Green game on Saturday and be in a position to comment.
