Report on Service Provided Service Contract D40148 John A. Kelly, Project Director February 12, 1985

Services were provided for conducting the following tasks:

A. Data Analysis

- 1. Pre-test Data Recording by Video Camera.
- 2. Pre-test Data Analysis by Computer.
- 3. Recording of all Test Data by Computer.
- 4. Data take off from Written Data Sheets.
- 5. Complilation of all Test Data.
- 6. Preliminary Statistical Analysis of Test Data using Frequencies and means analysis.
- 7. Summary of the Results of the Preliminary Analysis.

B. Video Documentation

Two video cameras, four quartz lights, mounting hardware and two special wide angle lenses were used to record all pre-test and tesing activities. Video Data were numerically recorded and then statistically analyzed. Video scenes were edited as needed both for data analysis and for use in promotional films that were used to recruit subjects.

Data analysis and video documentation services were provided through September 30, 1984. All work associated with this service has been completed and the results provided to Pascal Malassigne.
