

# Globalization & Innovation & Development

The Sam Nunn School of International Affairs and the Center for International Strategy, Technology, and Policy proudly present the Globalization, Innovation and Development speaker series. This series provides insight into the dynamics of innovation and economic development in a globalizing world. Our aim is to engage Georgia Tech faculty and students with cutting edge research from a multi-disciplinary perspective and encourage new research activities and collaboration. Participants in this series are both leading and promising researchers, and will spend a day at Georgia Tech to meet faculty and students in addition to presenting their current research.

We cordially invite you to join us in this truly exceptional program. Refreshments will be served.
