## ANNUAL PI DELT FASHION SHOW PLANNED FOR OCTOBER 26-27

### Sou. Colleges Plan Joint Employment of Orchestras

#### Dean Field Announces Rules to Govern Fraternities

Plans for the Inter-fraternity Councils of several southern colleges to sponsor one of the country's leading dance orchestras on a tour at the time of the Mid-Term dances were reiterated by the Tech council at its first monthly meeting, held last Sunday, and authority to act on the proposed plan was placed in the prerogative of the dance committee, which is composed of the officers of the council.

John Ridley, president of the Inter-fraternity Council, told of a meeting of the Inter-fraternity Council representatives of several southern colleges held in the late summer at Chattanooga to discuss the possibility of sponsoring a tour of one of the leading bands in the country to play for all of the Mid-term and Final dances of the colleges represented. By conducting such a tour, each college will be assured of having a bona-fide orchestra to play for their dances, and a very reasonable price can be given. If the committee finds the plan advisable, there is no doubt that the dances will prove to be a huge success and will be repeated under this arrangement from year to year.

Among the other business discussed at the meeting was the introduction of a new set of rules to govern the fraternities on the Tech campus. Dean Field urged all of the fraternities to secure reservations for their dances (Continued on Page 5)

### Band Accompanies Yellow Jackets to Durham

When Tech kicks off to Duke tomorrow it will be to the old familiar strains of "Ramblin' Wreck," and we hope the support will mean something to the team. Support is what it's going to be because fifty bandmen are to accompany the team to Durham, N. C., and if backing will help the team to win the game then we feel sure that Duke will be taken for that well known ride.

Thanks to the Athletic Association, the Band has been given a fine start this year, and it should work itself up to the point where it will be called the best college band in the south. In addition to the swanky new uniforms the Athletic Association has given the band this trip, and maybe another will be forthcoming in the near future.

Although the band is not as large this year as it has been in the past, it is a much better musical organization due to the fact that there were over a hundred men to pick from. Mr. A. J. Garing, director, was with the immortal John Philip Sousa as a Baritone soloist for sixteen years, and since he is so well versed in the art of music we can rest assured that the fifty members of the band are musicians and not poor excuses.

As is the usual custom when the (Continued on Page 3)

#### NOTICE

Anyone interested in taking advanced Spanish see Dr. Crenshaw or Professor Compomare in Swann Hall immediately. Classes are already being formed and regular credit units will be given.

### Gentlemen of the Press Meet in Chicago

Representing Tech at the Associated Collegiate Press convention in Chicago are; Fred Coward, Business Manager of the Technique, Bill Kirkpatrick, Managing Editor; Jay Cannon, Editor of the Blue Print, and Charles Sumner, Business Manager.

The four fortunates left for the Windy City in the early part of the week in order to be in on the whole session which lasts from October 11-13. The convention, an annual affair, is an integral part of the life of collegiate publication men, and it is attended by representatives from the outstanding colleges in America.

The purpose of having this convention is to bring together the different college publications, compare them and offer ideas for their improvement. This year the Associated Collegiate Press and the National College Press Association are holding a joint convention instead of having the two separate, and during the course of the convention a valuable trophy will be awarded to the newspaper judged (Continued on Page 3)

### Tech "Y" to Sponsor Various Sports

W. J. Proctor, General Secretary of the Tech "Y" announced that the game tournaments as were held during the latter part of last year will be started again in the near future. Last year very successful contests were held in ping pong, billiards, pool and checkers. The tournaments will last for three months and at the end of each successive competition very worthwhile, awards will be made. Last year at billiards over a field of more than sixty-four. More than fifty contestants entered the ping-pong matches which, toward the time that the semi-finals and finals were played, caused a good deal of excited interest.

This year's tournaments will include all of the above games and possibly chess. All of the games will be held in the "Y." The "Y" furnishes all of the necessary equipment for the contests upon application at the desk. The inclusion of chess in the list depends upon the acquisition of the necessary chess men and boards. All men with this equipment will please get in touch with me, Proctor.

All of the arrangements for these games will be described in full in future issues of the Technique. Those (Continued on Page 3)

### A.I.E.E. Formulates Plans for Year

The Tech branch of the American Institute of Electrical Engineers will soon start activities under the leadership of Pres. C. I. Smith, Sec-Tres. E. R. Pearson and Prof. Fitzgerald, faculty advisor. The Tech A. I. E. E. is a branch of the national organization and was founded at Tech in 1915.

Meetings are held once a month and Electrical Engineering and seniors are eligible for membership. An election will be held in the near future. Usually a lecture is given by a prominent engineer, or motion pictures dealing with electrical apparatus are furnished by some of the larger electrical concerns.

Once each year the A. I. E. E. holds a student conference, to which every technical school in the southeast sends a delegate. Technical papers are submitted in a contest and the best paper is awarded a prize of \$30.

### Debating Society Holds Open Forum Session With Five Colleges

The first of a series of Open Forums will be held on Tuesday, November 13 at 8 P. M. in the "Y" Auditorium. The subject, "Liberty and the New Deal," is particularly timely because of the recent formation of the "Liberty League" by Al Smith, Juliette Shouse, and others, which has drawn criticisms from President Roosevelt and his followers.

The fundamental question at issue is whether the New Deal is restricting liberty or furthering its cause. Secretary of Interior Ickes, during his recent radio address given from the Georgia Tech Chapel, made reference to this topic. The Secretary said he was not greatly concerned about the loss of liberty on the part of a small number of great fortune holders, but called for a Liberty League for the masses of under-privileged people of this country.

Five other colleges, Brenau, Agnes Scott, Mercer, Emory, and the University of Georgia have been invited to be represented. Each school will be allowed two delegates, each speaking five minutes. At the close of these addresses, the members of the audience may voice their personal views concerning the matter.

Because of the large success obtained (Continued on Page 6)

### Scabbard and Blade Elects New Cadet Officers

Nine newly appointed cadet officers of the Military and Naval R.O.T.C. Units were elected to membership of Scabbard and Blade, national honorary military fraternity, at their annual fall election held last week in the military building.

The six newly elected students from the Military Unit are: R. S. Albright, Major, C. A. C.; C. C. Corbin, Battalion Adjutant; M. Whitlock, Captain, Infantry; E. T. Preston, Major, Signal Corps; T. H. Mauney and S. C. Steele. Three Naval students were selected: C. A. Hoyt, Lieut. Battalion Adjutant; C. L. Smith, Lieut., 2nd Company, and E. G. Morrison, Commander 1st Company.

Among the eligibility requirements for initiation to Scabbard and Blade are that the cadet must hold a commission of captain or higher in the military department, or lieutenant or higher in the Navy department.

#### NOTICE

The Yellow Jacket will be distributed at the Y.M.C.A. office all day Friday and until 1:00 o'clock on Saturday . . . No charge.

#### STUNT NIGHT

Stunts for the Marionette Stunt Night on October 19, must be in the hands of Freddy Fuchs not later than October 12. Arrangements must be made with him for the rehearsals.

Casting for the three one-act plays, to be presented by the club on November 16, will be held in the "Y" auditorium next Monday at 4:30 o'clock. Everyone interested in dramatics is urged to be present. This casting is not to be restricted to the members of the club but is an opportunity for anyone interested to obtain membership.

### New Yellow Jacket Makes Appearance

The 1934-35 Yellow Jacket that makes its advent on the campus today with the Technique gives Tech Students a new deal in the comic realm of publications. With the publication of the Freshmen issue the Staff is to be congratulated in leaving the beaten paths of its predecessors to attempt a new kind of magazine.

The new cover is the work of M. Blume, the art work in the inner pages are from the pens and brushes of Blume, De Alamar, Morgan, Sanders and Palmer.

With this issue the Business manager has very wisely reduced the price from twenty-five cents an issue to fifteen cents, thereby bidding for a newstand circulation that it has not heretofore enjoyed. It will likewise stimulate circulation, it is hoped, and in the end advertising, so that the Staff can give a bigger and more profusely illustrated issue in the future.

The staff is open and it invites every member of Georgia Tech to contribute to its next issues. The next issue will be the annual football number and should be off press about the middle of November.

### Fraternities Announce Additional Pledges

The announcement made this week by seven additional fraternities of their pledges brings total number of freshmen pledges above the three hundred mark. Due to the fact that many of the freshmen had not heard from their families and others were undecided, an incomplete list was published last week.

The fraternities which did not appear last week are as follows:

#### Pi Kappa Alpha

C. H. Ris, Freeport, N. Y.; C. M. Grotz, Upper Darby, Pa.; R. D. Ballantyne, Atlanta; A. M. Eldridge, Bantsville, Ga.; R. J. Griffin, Atlanta; J. D. Head, Ellsworth, Me.; R. N. Merrill, South Hadley Falls, Mass.; L. R. Ahern, Bridgeport, Conn.; Ed Stauverman, Atlanta; H. N. Tarbutton, Fairfield, Conn.; J. C. Barclay, Cairo, Ga.; M. R. McClure, Atlanta; C. W. Horton, Montgomery, Ala.; H. R. Baker, Plainville, Conn.; J. W. Thomasen, Plainville, Conn.

#### Sigma Chi

Ted Hiller, Jack Pierce, Bill Kay, (Continued on Page 5)

### A.S.M.E. President Addresses Students

Colonel Doty, National President of the American Society of Mechanical Engineers, at a banquet Tuesday, painted a different picture as to the future of Mechanical Engineers. In his most interesting talk, he outlined the fact that if he had it to do all over again, with the knowledge that he now has, he would again take Mechanical Engineering. He outlined that the Mechanical Engineer is again coming into his own.

The speaker was introduced by the National Vice-President-elect of the Society, Mr. O'Brien, editor of the Southern Power Journal, and former instructor at Yale and Brown Universities.

The affairs and this year's program of the Society were also discussed and the trend of the whole meeting was toward an optimistic outlook for the future of Mechanical Engineers.

### Date Change From Spring Considered More Desirable

#### Entertainment Planned; Many Prizes To Be Awarded

In order to introduce to the freshmen the best lines of wearing apparel for college men, the annual Pi Delta Epsilon, National Honorary and Professional Journalistic Fraternity, will hereafter hold its annual fashion show in the fall, the first of these exhibitions of fine clothes, sponsored by the most reliable merchants of Atlanta, being held in the Tech Y. M. C. A. October 26 and 27, the week end of the Tech-Tulane Football game.

The fall fashion shows will be conducted in the same manner as the spring shows have been conducted in the past. The purpose of changing the show to the fall season is to show Tech students the latest styles in men's clothes, and at the same time to introduce to the students a group of dependable and well established Atlanta merchants, who have always been known to cooperate with Tech in every respect.

Prizes will be offered by all of the merchants represented at the show, and awards will be made on purely competitive basis. An entertainment program will be given in the "Y" auditorium Saturday night following the show.

Pi Delta Epsilon is now making arrangements for a grid graph to be placed in the lobby of the "Y" so that the returns of the Tulane game may be presented to the attendants of this excellent show.

In addition to planning the fashion (Continued on Page 6)

### Efficiency Award Is Offered Naval Unit Students

Word has just been received by the Naval R.O.T.C. Unit that the Civilian Military Education Fund, an organization for the furtherment of military attainments in the reserve training schools with its headquarters in Washington, D. C., that two men will be selected from the six Naval R.O.T.C. Units to attend a meeting of the organization in Washington in December.

Annually, the organization invites to Washington outstanding R.O.T.C. and C.M.T.C. trainees, one being invited from each of the nine military Corp Areas in the United States, but this is the first time the Naval Units have been included in the invitation list. All of the expenses of the men selected will be paid by the Fund, and an extensive tour of the national capitol will be arranged.

In addition to having the honor of being selected as the outstanding man in the training unit, the General J. J. Pershing medal for Distinguished Attainment in Military Education is conferred upon each of the men attending.

To be accorded this award and to be the recipient of a trip to Washington under such circumstances is an honor much to be sought.

#### NOTICE

There are only seven more days left to have your BLUE PRINT pictures taken. The photographer is in the "Y" daily. Immediate action on this matter will save waiting later in the week.

## Attention, Mr. Professor

Three weeks of active school work, home work, class recitation, and quizzes. Still books are not available in some departments. The blame lies on the shoulders of the professors and not on the Student Robbery. The Robbery relies on the professors to tell them the number of books needed and orders are usually filled within four days.

Give your students a break, Mr. Professor. They will have plenty of things to do during the next week or two when you are expecting them to catch up on the work they missed on account of your carelessness.

This is not a reprimand, merely a suggestion. Let's be a little more careful in the future. After all, we're paying for an education, and you're being paid to give it to us. We are working to get our money's worth . . . Are you working to be worth what you will receive?

## Tonight at 6:15

Tonight at 6:15 a general assembly will be made in front of the Dining Hall for the purpose of escorting the team to the train. The band is going, too, and of course will be on hand to lend the necessary musical effects to the parting.

For the freshmen especially, this will be an excellent time to show whether one's spirit is all fair weather stuff, or whether it's a real Georgia Tech spirit. For the past few years, although the general spirit of the student body has been good, there has been an obvious undercurrent of fair weather spirit—if the team is going good, hurrah! But if the going is tough, the grippers begin. One out of every five is a gripper. People shun grippers, freshmen. They stand out in a crowd like a sore thumb.

The going is going to be tough for the Jackets at Durham and they'll easily stand a bit of moral support before they leave. They certainly won't get it from Duke tomorrow.

Back up your team, gents, and you'll sleep better tonight. Tomorrow when Tech comes through you can say "Hurrah for me; I did all that is becoming to a freshman and to a gentleman of Georgia Tech."

NO SOONER PLEDGED THAN dated is the cry, and the reasons for lots of Frosh spending late hours Friday and Saturday was their newer "Skirts." Hook, line and sinker already, wow but the dames have started early this year with the better part of the school year still to go.

WONDER WHAT THEY WILL THINK OF NEXT in the way of fashions for women, 1st they stimulate bobbed hair, now a plait to give

the effect of long hair. The "Gent" or the "Dame" that was responsible for the things that they are wearing on their heads this year must have been fashioned after a serious case of DT's we can't think of any other state or frame of mind that would warrant such things that they are prone to call creations. However the "Gent" that fashioned the new evening gowns gets our vote of approval because he was an engineer without a (Continued on Page 6)

## Georgia School of Technology

"A Technical School With a National Reputation"

THE GEORGIA SCHOOL OF TECHNOLOGY offers to young men of ability and ambition a training which will fit them for positions of responsibility and power. The national reputation of this institution is based not on claims, but on results. Its greatest asset is the record which its alumni are making in the productive work of the world. Georgia Tech graduates succeed because they have been trained both to think scientifically and to work efficiently.

Courses in Civil, Electrical, Mechanical, Textile, General, Ceramic, Chemical, and Aeronautical Engineering, Architecture Industrial Education, and General Science

Coast Artillery, Signal Corps, Navy, Infantry, and Ordnance Units of the R. O. T. C.

## Gentlemen of the Press Meet in Chicago

(Continued from Page 1)

most representative of those presented by delegates at the convention. It will be remembered that the Georgia Tech Blue Print has won an all american rating for the best annual in its class for the past several years. Whether it will take the award this year or not remains to be seen, but we feel sure that one of our publications will be honored by the convention.

The universities of Chicago and Illinois are behind the convention, and no stone has been left unturned to assure its success. In addition to an interesting program of work scheduled for the delegates an interesting program of entertainment has been planned. Saturday, October 13, is National College Press day at the Century of Progress; the delegates are to be guests at a night football game between De Pauw and Dayton Universities, and to climax the entertainment is the University Publications Dance in one of Chicago's most attractive ballrooms, either the Trianon or the Aragon.

The headquarters of the convention will be the La Salle hotel, one of the finest in Chicago, and the sessions will be held at the hotel Bismarck.

The only college news reel theatre in the United States has begun its second year at the University of Minnesota and is open every noon to students for the admission price of five cents.

## Staff of Chemistry Department Re-Formed

The Chemistry department of Georgia Tech lost and gained a number of excellent instructors this year.

Those lost are as follows:

Mr. Louis A. Blane, who was an instructor in chemistry has been given fellowship in the Faculty of the University of California, where he is working on his doctor's degree.

Mr. D. M. Mussor is preparing his doctor's degree at Harvard.

Mr. R. W. Sandelin has taken a position at the Atlanta Steel Company here in Atlanta.

Those instructors who have returned are:

Dr. Paul Weber, former instructor here, who has recently completed his doctor's degree at Purdue University.

Mr. Howard W. Waddle, also formerly instructor here has returned from the University of Wisconsin, where he was working on his doctor's degree.

Mr. W. B. Richardson has been doing graduate work at the University of North Carolina.

Messrs. G. S. Kersey and L. D. Yates who graduated from Tech in 1933 have returned as instructors.

Lawrence Camp, Tech graduate, who obtained his master's degree and instructed here has returned.

Professor W. C. Whitley, while working at the University of Wisconsin, discovered two new organic compounds.

## Tech Band Accompanies Yellow Jackets To Durham

(Continued from Page 1)

Band reaches Durham they will make the fact known to the citizens of a parade through the main section of the town, and those Durham-ites who are not familiar with the catchy rhythm of "Ramblin' Wreck," will probably know it by heart before the game starts. Maybe we can get a little out-of-town support that way. At any rate they will learn it sooner or later because the Band has prepared a special stunt featuring "Ramblin' Wreck" during the halves of the game.

Here's to you Bandsmen. Let's give those Yellow Jackets the support they deserve so we can bring home the bacon once more.

## JACKETS ATTACK BLUE DEVILS

### Phillips' Return Adds Needed Scoring Powers

After losing a heartbreaking game last Saturday to the Vanderbilt Commodores, Tech invades Durham tomorrow to battle the Duke Blue Devils in the third game of the season. Although the Jackets enter the contest much the underdogs, they hope to pull another upset similar to last year's when they crushed Duke's hopes for a National Championship team and an invitation to the Rose Bowl. Meanwhile Duke has been pointing for this game and will do all in its power to avenge the defeat.

Both teams have a flashy running attack and a deadly pass combination. In "Corky" Cornelius, Duke boasts of a halfback that is probably the best Tech will meet all season. His two long runs in a few minutes of play against Clemson put game on ice for the Blue Devils and allowed Wallace Wade to use his second and third string teams for a major portion of the game. Jack Alexander at fullback is another threat that Tech must overcome. Alexander is a hard running back and even Wallace Wade reports that he is the finest fullback prospect in recent years. These two combined with Parker at quarter and Ward at right half, form a backfield of unlimited power and developed versatility.

Although Wade will sorely miss the services of the All-American Fred Crawford at Tackle, he has a jam-up player in Gus Lurner, who warmed the bench most of last season as understudy to the famous Freddy. Lurner has promises of being one of the outstanding linemen in the South, and together with Power at the other tackle, Ebie Dunlap at center, Johnston and Jack Dunlap at guards, form a bulwark of a line that is almost an impenetrable defense.

On the other hand Tech will be greatly improved after the game Saturday. With a polished offense and a revised defense to meet the Duke attack, Tech will give a good more trouble to the Blue Devils than is generally believed. Tech has a new spirit and a new power with the return of Jack Phillips to the line-up in good condition. His added bulk in running, tackling, passing and blocking adds new strength and versatility to the Tech offense and greater stability to the defense.

The line play of the Tech team has

### JACKET SPEED

OSCAR THOMPSON  
Nice game last Saturday, Oscar. Keep it up tomorrow. This is Oscar's junior year, so he still has another year to make football history.

### Boxing to Return with Promising Outlook

After two years, boxing is coming back to Tech. Although most of the old crowd is gone, we still have Norris Dean, who held the Southeastern A. A. U. heavyweight title. Mike Chambers also is expecting a lot from "Shorty" Roberts who was featherweight champion of Fort McClellan this summer. The last year boxing was held at Tech, a crowd of 135 turned out, the same is expected this year.

Candidates are to be called out December 1, Elmore Fryer will take charge of the squad during the first few weeks while Mike Chambers is finishing up with the football team. Elmore Fryer held the title of school champion in the 145 lb. class, and twice went to the semi-final rounds of the Olympic team, only losing out by the narrowest of margins. He was also the holder of the Southeastern A. A. U. championship.

been good during the first two games and in spite of the yardage gained by Vanderbilt few gains were made on running plays. If the Tech pass defense should function well after the practice all this week, it is likely that the Duke attack will be repulsed. Tech stands a good chance of repeating their victory of last year.

### Jackets Outplayed by Powerful Vandy; Lose 27-12

Georgia Tech was defeated Saturday by a score of 27-12, the loss being inflicted by Vanderbilt's Commodores, led by Captain Beck, the fullback.

Although every break in the game was to Tech's disadvantage, their opponents outplayed them in every department—with the exception of the last quarter, when the Jackets steadily advanced toward the goal and Shorty Roberts leaped high in the air to snag a pass from Hayes that went for a touchdown. Plasman kicked the extra point.

Vandy's first score came in the first quarter when Pug Boyd batted down Dixon's pass to Plasman and Bobby Oliver caught it. Not slowing down, he eluded a tackler and raced 30 yards for the touchdown. Plasman kicked the extra point.

In the second quarter a batted down pass was again caught, this time a beautiful shoe-string catch by Dubois on Tech's five-yard line. Plasman again made the point after.

Then came the Jackets' chance—when Simpkins fumbled and Tech recovered, Tech failing to make first down by inches, the ball went over on Vandy's 15. Lucas' kick went out of bounds on his own 26. Shorty Roberts gained five, and Ferguson made 18 to the three-yard line. Phillips made two more, and after an incomplete pass Martin went over for the touchdown at right end. The kick for extra point was no good.

Guffee intercepted Bill McKay's pass on Tech's 30 and ran on across the goal line. At the half, the score stood Vanderbilt 21, Tech 6.

By virtue of line plays and short passes, Vandy reached the Jackets' 20-yard stripe. Dixon passed to Geny for another six points. Plasman's kick failed.

A penalty for the Commodores, a long kick by Johnny Ferguson, a pass from Phillips to Hayes for six yards, another from Hays to Roberts for 26, again from McKay to Roberts, put the ball on Vandy's 10. Further drives brought the Jackets to the one-foot line where Ferguson fumbled, Vandy recovering.

Shorty Roberts received the kick on the opponents' 25-yard line and returned to the 20. Five yards by Hays and a beautiful pass from Hays to Roberts accounted for the final touchdown.

### JACKET POWER

"PUG" BOYD  
This is "Pug's" last year with the Jackets. He takes turns with "Shorty" giving orders on the field.

### Navy Rifle Team Holds Tryouts

The Naval R.O.T.C. Unit held its first tryouts for the rifle team yesterday afternoon with some twenty-five students competing, under the direction of Captain W. S. Fellows, U. S. M. C. From this number, a team of fifteen men will be selected to fire on the regular team, and the best shots in this group will be placed on the varsity team.

Matches have been arranged with the various colleges in the United States, and competitive matches with the five other Navy R.O.T.C. Units will be fired throughout the season, leading up to the Annual Hearst Trophy Match, which will include all of the military training units in the country, and a handsome trophy will be awarded to the winning team.

Although this is only the second year of the Navy team, several excellent riflemen were discovered last year and all of them will be back, in addition to a number of freshmen who have had experience in high school rifle competition matches.

### Baby Jackets Exhibit Power in Early Practice

Coach Tharpe has at his Disposal this year seventy-five eager and promising freshmen, all possessed with the idea of becoming gridiron heroes. Rare talent is displayed by some of the candidates, and the prospects for the coming games, and a truly great freshman team are truly "rosy." Edwards, playing at half on the team bids fair to become a second "Shorty" Roberts while "Big Boy" Konnerman is just tearing chunks in the line every time he hits it. On one end the giant Jorden is a tower of strength, while Nixon at center might be called a "natural." Glendenning and Carmack are also above the average run of guards. Reserves are fighting hard for recognition and some of them are getting it, those who show the "stuff." Roberts at tackle bids fair to be another "Pee-Wee" Williams. That flaming thatch of his means fight and he's got it!

The teams got spirit, too. Coach Tharpe hasn't been seen going around with a long face, and occasionally Coach Alex stops over to look at the team. He never ventures to make a remark so we wonder what he thinks. We do know however that the 'varsity' will not lack for want of opposition this year. Not while such gentlemen as Edwards, Sims, Peterson, and Konnerman have anything to say about it. The boys all go into scrimmage with a 'pep' that's great to see.

### Student Body to See Team and Band Off Tonight

Tonight at 6:15 assembly will be held in front of the Dining Hall for a parade to the station where the Jacket team will be taking off for Durham, N. C.

The band will parade with the students and then board the train to give their musical support at the game tomorrow. The band will parade through Durham tomorrow morning to let the homefolks know that Georgia Tech likes to make noise before a game, thereby giving plenty of time after the game for the losers to lament their misfortune.

## W.G.S.T. Announces New Programs

(Continued from Page 2)

Kay Francis and the following week, Edmund Lowe.

**THE MARCH OF TIME**—Every Friday night at 8:00—Dramatising the news events of the week as only the editors of Time can. WGST was singularly honored in being the only station in this section of the country to get this newsy and interesting broadcast.

Every week the Columbia Chain and WGST are doing their utmost to bring you the best that is on the air, both locally and national, as well as international. When tuning in on the old set, see what they have to offer first, otherwise you might miss a good bet. Next week we will announce still more programs that might appeal to your particular fancy.

Every Sunday afternoon from 4:00 to 4:30, Freddy Martin is presented. The program is titled, "Open House with Freddie Martin." Then at 5:00 o'clock on Sundays, a program known as "Music by Gershwin" will be heard. Louis Katzman's orchestra will accompany Gershwin as the latter presides over the ivory keyboard. Lucille Peterson, contralto; Rhoda Arnold, soprano, and Dick Robertson, tenor, will be the featured vocalists.

Beginning Sunday night at 7:00 o'clock, October 7, radio listeners-in will hear the Ford Symphony Orchestra, conducted by Victor Kolar and supported by a mixed chorus of 24 voices . . . with a distinguished guest artist appearing each week.

Another popular program to be heard on Sunday nights will be the out standing American humorist, Will Rogers. He will be the leading character of the Gulf Headliners, to be presented at 8:30 P. M. He will be followed by a cycle of variety programs centering around the laugh-provoking team of Stoopnagle and Budd.

Another great radio night over WGST is Tuesday. At 8:00 o'clock, Bing Crosby, sponsored by the makers of Woodbury Soap, will take the microphone in a half-hour of music. Sharing honors with him will be the ever-popular Boswell Sisters.

At 8:30 on the same night, the Chevrolet show featuring Isham Jones and famous guest-stars will be broadcast over WGST. Also, on Tuesday nights at 9:00, the colorful Camel Caravan will claim the airways . . . featuring the charming songstress, Annette Henshaw . . . and Glen Gray's Casa Loma Orchestra. Next week we will tell you of more of the outstanding programs to be heard over the Georgia Tech station.

## Ex-Jacket Coash Succumbs

Dr. George W. Andrews, Fifty-five, former coach at the Georgia School of Technology and president of the Oklahoma Dentists' Association, died Saturday, October sixth in the home of his sister, Mrs. George Carter, at Scottdale Michigan. Dr. Andrews, whose home is in Tishomingo, Oklahoma, has been Scottville visiting relatives.

His loss is keenly felt by the older graduates of Tech, The Technique and the school extends its sympathy to his family.

Tift, Herman Turner, John Young, Joe Rickett.

### Phi Kappa Tau

J. J. Domingoes, J. M. Wing, L. S. Kanicki, A. J. Tekonen, D. L. Mathews, J. S. Guest, R. A. Genden, H. S. Parks, E. N. de Jaioes.

## Frosh "Y" Club Begins Year

The Freshman "Y" Club is the only club on the Tech campus whose membership is restricted to freshmen, and all freshmen are eligible and invited to join.

Interesting speakers who talk on widely varied subjects are brought before the club at its regular meetings. Social events include a dance just before Christmas, parties, and outings. The club also sponsors entertainments and tournaments at the "Y."

Driving without a license, obstructing traffic, operating without a franchise, and further investigation were the charges filed against students of Colorado School of Mines, arrested while driving a street car plastered with signs as an advertisement of their impending game with Denver.

A bob-cat reared by a University of California biologist has been sent back "to the woods" because he could not be kept tame.

## Southern Colleges Plan Joint Employment of Orchestras

(Continued from Page 1)

during the year 1934-35, in order to assure them of being able to hold their dances without conflicts. A written application must be submitted for the approval of the Dean of Men before each social function, and a written permission must be granted by the Dean.

The Inter-fraternity Cooperative Buying Association was discussed at the meeting, and all of the fraternities not already belonging to the association were urged to join as soon as possible in order to receive the benefit of its economical buying powers. Over half of the fraternities on the campus are buying from the association now and all of them are well satisfied with this new arrangement.

*the Wellman Process*  
*does this —*  
..it makes the  
tobacco milder

In the manufacture  
of Granger Rough Cut Pipe  
Tobacco the Wellman Process  
is used.

The Wellman Process is different from any other process or method and we believe it gives more enjoyment to pipe smokers.

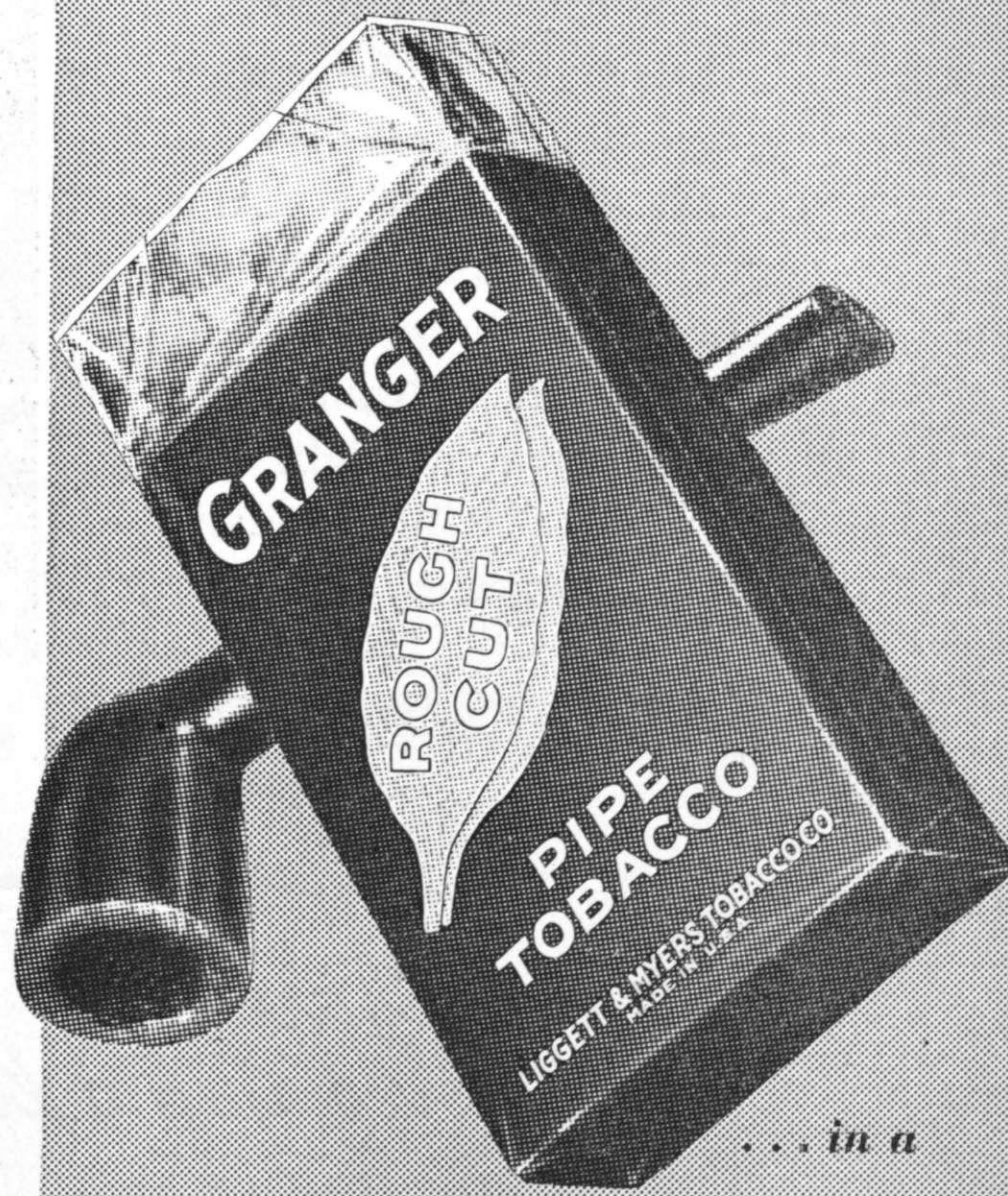

... it gives the tobacco an extra flavor and aroma

... it makes the tobacco act right in a pipe—burn slower and smoke cooler

... it makes the tobacco milder

... it leaves a clean dry ash—no soggy residue or heel in the pipe bowl

LIGGETT & MYERS TOBACCO CO.

... in a  
common-sense  
package—10c

*We wish in some way we could get  
every man who smokes a pipe  
to just try Granger*

# Date Change Considered More Desirable

(Continued from Page 1)  
show, the members of Pi D. E. set Sunday night for the election of new members, and an investigation of eligible men is being made this week. One of the requirements for membership is that the student must have at least two years experience on at least one Tech publication. The initiation will be held the week end before the fashion show.

# Debating Society Holds Open Forum Session

(Continued from Page 1)  
ed from a similiar Open Forum held during the past school session, it was decided to hold more such angagements. The subject last year was "Roosevelt's Policies." This original Forum was participated in by four colleges, Agnes Scott, Brenau, Emory, and Tech, besides many members of the audience. Presenting a more honest and flexible means of considering a subject, Open Forums are welcomed as a relief from the cut-and-dried form of debating.

# Socially Speaking

(Continued from Page 2)  
doubt. It is a streamline job, with knee action, and free wheeling all thrown in.

A FEW ODITIES WE HAVE NOTICED RECENTLY are, that never did we know that there was an inter-fraternity love on the campus until the loving cup presented to Pi Kappa Phi by Sigma Chi was brought to mind. The cup and the contents, well novel me lads novel. That the Sunev one of the better known G.H.S. soriortys is the word Venus backwards, wonder how you would pronounce Esroh. That a Debbie of yesteryear is really serious about her career and Margot Sage, Margarete to us is working with Virginia Dabney as a Lady of the chorus of a cinema, old Chappies, Dabney was a by-word at Tech dances in the past, and Margarete's escapages are still current talk.

APPLE ANNE—That was mentioned in last weeks column as the lady with the smile that swooped on Fratters and relieved them of good money for sour apples, looks equally good in red as in blue, her school is

G.H.S. not N.A.P.S., and for the benefit of the inquiries her cogno is Margarete Mertz, her domicile, 687 Pelham Rd., and her exchange Hemlock and her No. 0164, don't thank us, we are always glad to introduce new talent and unless we miss our guess she will go places fast socially, much to the disgust of a Phi Sigma Kappa Frosh that made the mistake of being so big hearted. College Park gave us Perrin Walker and the track team improved, now Perrin introduces Miss Georgia, none other than Josephine Bolling, at the dances, the judges were right, thanx Perrin. Seems that the Vice President Maner habit is becoming a habit somewhat, well you can mix business and pleasure it seems. Among the Visitors for Vandy game

was a dame with an unusual cognomen, Ann Huckster, but you can peddle your wares here any time Ann, Come back soon.

IT IS SUGGESTED that if you want to completely relax and forget rush week that you might come to the dance at the Biltmore Friday night with Kirk De Vore and his Orchestra or the Saturday Night dance with Jimmy Stringer and his Orchestra. Or if you plan to continue rush week either of the two dances will be a good chance to accomplish your purpose.

... and while we're  
talking about cigarettes

I don't suppose you were ever  
in a warehouse where they were  
storing hogsheds of tobacco. Any-  
way here's something interesting:

Liggett & Myers, the people who  
make Chesterfields, have about  
4½ miles of storage warehouses  
where they age the tobacco.

Down South where they  
grow tobacco folks say ...

It's no wonder so many  
people smoke Chesterfields.  
The tobaccos are mild and  
ripe to start with, and then  
they're aged the right way  
to make a milder, better-  
tasting cigarette.

a good cigarette  
gives you a lot of pleasure—

# Chesterfield
