

Igor Sikorsky Presents Lecture, Movies Here

Famous Aircraft Builder Will Talk On Helicopters

By Hugh Powell

Igor Sikorsky, a key commander of the Second World War production battle, will lecture at the Georgia Tech Auditorium, March 10, at 8:30 p. m. The public is invited free of charge. A feature of intense interest to engineers and laymen alike are movies of his recent helicopter, some of which will be shown.

First to See Pictures

"Tech is the first college in the country, as far as I know," states Professor Knight of the Aeronautics Department, "to have the privilege of seeing these films." Not a regular lecturer, Sikorsky is coming to Tech on the invitation of the Student Entertainment Series Committee and Professor Knight, to whom credit goes for arranging this unexpected visit.

Formerly seen as a partial successor to the automobile, the helicopter, like the automobile, has been drafted for war use, where it has vast potentialities. Already naval experts are considering the possibility of basing them on merchant ships for convoy and anti-submarine work. Unusual flight properties would enable it to land on a small shipboard platform.

Pioneer Designer

Long a pioneer in aircraft design in general, and helicopters in particular, Sikorsky is a Russian by birth, who entered this country with \$600, no knowledge of English, and a genius for making flying contraptions. He is comparable to Donald McKay, whose drawing pen and board made America sovereign of the merchant lanes a century ago. Recently, Sikorsky, with his multiple motored clippers, was well on the way toward giving America another new empire in the airways, when war clouds forced him to new ceilings.

Aircraft Executive

And now, besides keeping abreast in commercial aircraft, Sikorsky, as Engineering Manager for Vought-Sikorsky Aircraft, is famous for his

(Continued on Page 6)

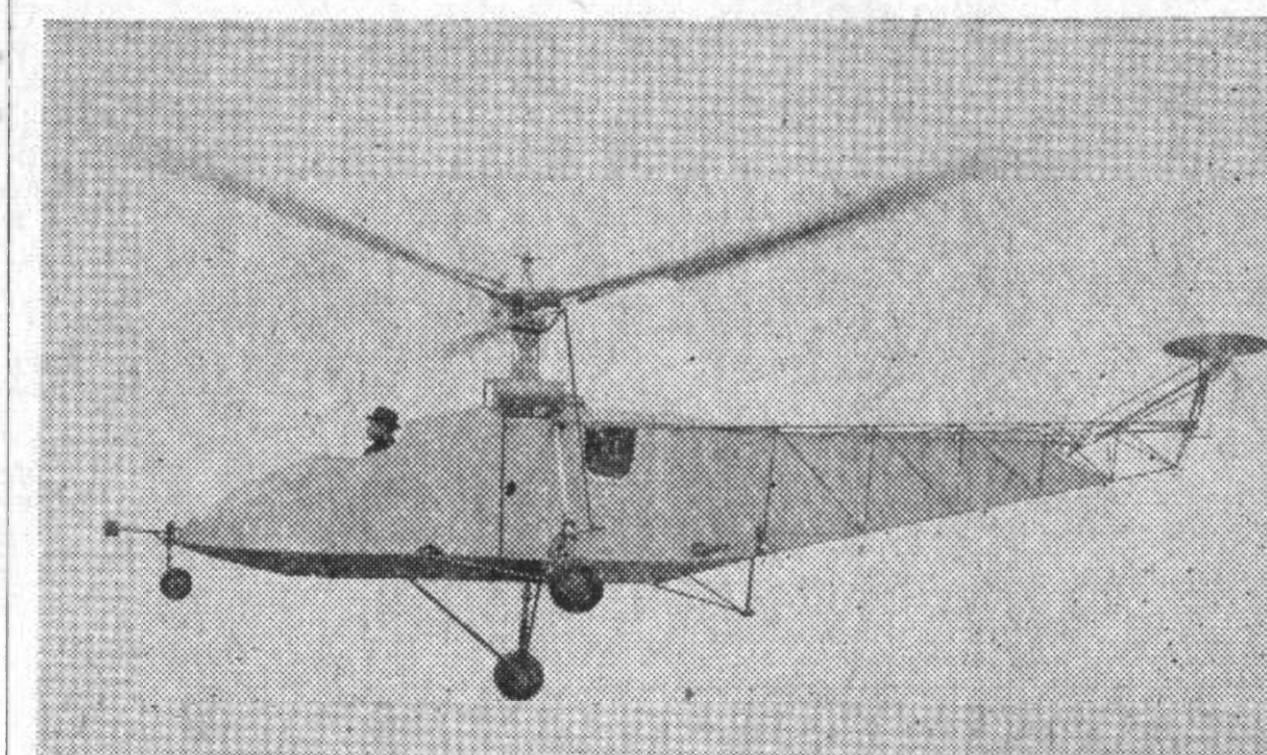

Final Dances Set for May 1

Cost of Four Tickets To Be Lowered to \$5.50

At the last Interfraternity Council meeting, March 1, definite plans were announced for the final dances, which will be held as usual, despite the new three-semester system.

The dates set were May 1 and 2, this being the most convenient weekend open. Students will be glad to hear that, as there was a considerable profit from the recently held mid-term dances, the price of admission will be lowered to \$5.50 per block of four tickets.

There will be two evening dances and two tea dances, and the I. F. C. has expressed the hope that it will be able to make these dances as enjoyable as were the mid-terms by securing as good, if not a better, band than Harry James. Stokes Ramsaur, I. F. C. president, will probably make a trip to New York some time in the near future in an effort to fulfill this hope.

THIS HELICOPTER, one of the many achievements of Igor Sikorsky, a well known war production manager, will be featured by the inventor in a lecture and movie in the auditorium March 10.

'How to Beat the Blackout' or 'Why We Dislike B.O. Wardens'

Wardens Won't Co-operate With Students' Enthusiasm

By Rock Canady

What with all the big build-up about having dates for last Thursday's blackout, and bringing them around to the house for the duration, it was not very surprising to find all the frat houses on the campus as quiet as Willkie the day after election.

The exception, Phi Kappa Sigma, provided enough all-out rioting to make up for the quietness of the rest of the campus and have a good bit left over. When we passed, around nine o'clock, long before the sirens sounded, their blackout was already in progress.

One room had been set aside for blackout purposes and was as dark as the center of a four-foot cube of coal. All the rest of the lights in the house were ablaze.

Lone light left after the signal was the traffic light on West Peachtree and North Ave. Cause was the lack of a key to fit the control box. After a short discussion of possible remedies, five wardens and three Beta Kappas decided against using one of the warden's .30 cal. Enfield (loaded) to put it out. Vote was five to three.

A C S Investigator Calls Tech Short in Chemical Graduates

Georgia Tech was included in a survey of 118 colleges, universities and technical schools which disclosed there is an "appalling shortage" of trained personnel in chemistry and chemical engineering.

The defense committee of the American Chemical Society found that lack of technically trained men for industry is jeopardizing future production.

Greatest demand is for graduates of the doctorate level, most of whom have accepted positions pending receipt of their degrees, the committee learned. Georgia Tech reported that approximately 40 per cent of this year's graduating class in the chemical field would be diverted to combat service through R. O. T. C. and naval training.

(Continued on Page 6)

CPT Doubles Quota In Defense Step-Up; Cites Requirements

Men With Certificates Eligible for 2nd Course Regardless of Credit Hours

Mr. L. V. Johnson, co-ordinator of Civilian Pilot Training for Georgia Tech and Candler Field, announced yesterday that he had just received word from CPT headquarters that, "Due to our past record here, Tech's present CPT quota has been doubled." Thus, many students who were formerly refused training may apply again, and may, this time, be accepted.

Requirements Lowered

Besides increasing its enrollment, the CPT has lowered several of its requirements. Now, only 15 college semester hours are required for those who enroll in the elementary course. Any man who has a private pilot's certificate from CPT is now eligible for the secondary and advanced course, regardless of his credit hours. The present age limit is from 18 to 26 years.

Under the new regulations, advanced ROTC students do not have to sign the affidavit if they can get a letter from their commanding officer stating that flight training would be helpful in their work.

Five Courses Offered

The CPT now offers five courses, as follows: Elementary, Secondary, Cross-country, Instructor, and Instrument. Former CPT students who enter the army or navy air corps regularly receive 30 to 40 hours credit, if they have completed the secondary course.

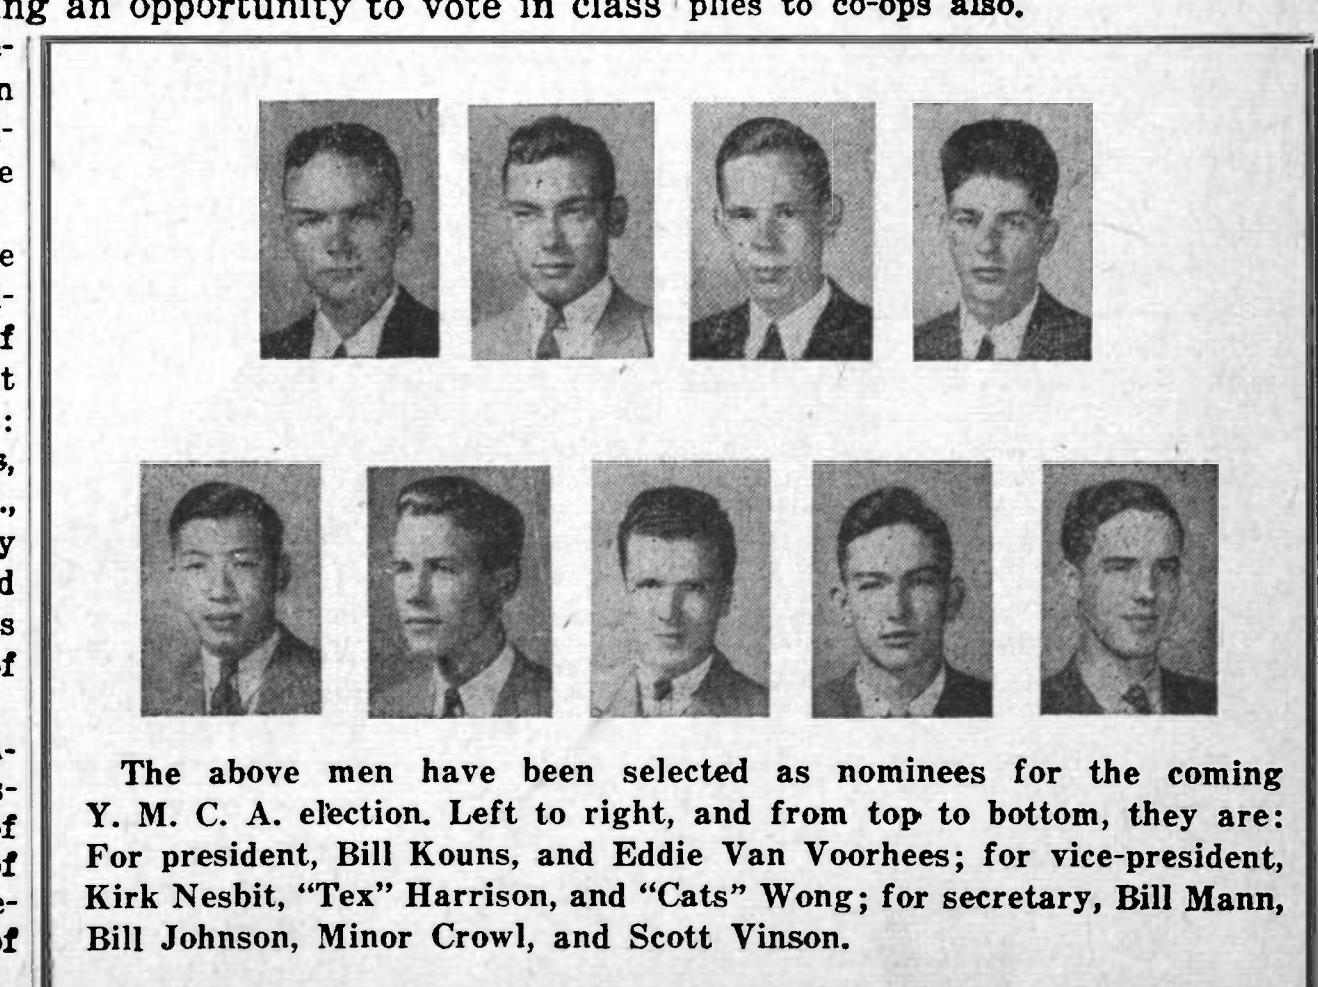

Apply Now

Any student who is interested in any of the courses should turn in his application to the CPT office, room 25, Aeronautics Building. The office is open to receive applications each afternoon from one to five-thirty.

ROTC Camps Now Abolished

For the duration of the war, there will be no summer camps for senior R. O. T. C. students. So far there are no definite plans as to what will serve in place of these camps, but several rumors have been advanced.

According to Colonel Collins, commander of the R. O. T. C. unit at Tech, the most probable of these rumors is that the graduates will be sent to training schools of their particular arm of the service. This applies to co-ops also.

The above men have been selected as nominees for the coming Y. M. C. A. election. Left to right, and from top to bottom, they are: For president, Bill Kouns, and Eddie Van Voorhees; for vice-president, Kirk Nesbit, "Tex" Harrison, and "Cats" Wong; for secretary, Bill Mann, Bill Johnson, Minor Crowl, and Scott Vinson.

Students' Duty Is Here, Don't Desert

College men of today occasionally have the ugly epithet, "slacker," hurled in their faces by well-meaning but short-sighted patriots who consider the armed forces the proper place for all able-bodied young men. As war conditions grow more serious, this condition is very likely to become aggravated into real danger to our ultimate war effort.

No man, especially a free American, likes to be called a coward. For that reason, it is probable that college students will enlist in increasingly large numbers as American troops begin falling to the enemy and the public gets "slacker-conscious."

That is precisely what we must not do. As we have been told before, this war is one of production, the ability of the United Nations to overwhelm the Axis with planes, tanks, and ships. This production effort relies on the ability of American engineers, and Georgia Tech must produce its share of men well-trained in the technical skills.

The first duty of every Techman is to remain in school and get a good technical education as soon as possible. Though the sneering looks may be hard to take, we must heed the advice of our nation's leaders and learn how to produce what Americans must have to fight with.

R. C. E.

Today's Bible Topic

THE TRUTH ABOUT ALCOHOL: Who hath woe? who hath sorrow? who hath contentions? who hath babbling? who hath wounds without cause? who hath redness of eyes? They that tarry long at the wine; they that go to seek mixed wine.—Proverbs 23:29, 30.

On the Hill

By Renan Moreira
NOCTURNE OWLS

"Who's there?"
"Nay, answer me. Stand and unfold yourself!"
"Bernardo?" (Lifting his lantern)
"Long live the Dean!"

No, fellows, this ain't the damn Hamlet, this was a scene in the darkness of the Tech campus and the conversation proceeded, "Well, Renan, to keep up with the college spirit, we have to try everything. Are you expecting to get back in day-school next semester?"

"Hum . . . How about a toast to the future, Alonso?"
So they went to the ROBBERY and got kicked with a couple of milkshakes.

FRIENDSHIP BANQUET

The Georgia Tech foreign students joined all those from the Atlanta colleges to enjoy a delicious meal at the friendship banquet last Monday with which the Rotary Club honored the young people from beyond the frontiers who receive college education in Atlanta. Dr. Perry, head of the Georgia Tech English department, who is also an active Rotarian, introduced every student after his wise speech.

Jorge Mesa, an eminent sophomore from Honduras, Central America, spoke for the Georgia Tech Latin-Americans expressing their gratitude. He also mentioned very brilliantly the importance of the ever-growing political and economical relations between Anglo and Latin-America stressing on the successful results of the Good Neighbor Policy.

Paging Diogenes!

Honest Man Is Found at Last!

Several years ago a young student in an Atlanta college wanted to see a football game. Between halves of a game there at Tech I slipped through the gate without paying. The enclosed check is to pay for that half game.

Very truly yours,

The enclosed check was for the sum of \$1.50 to pay for the half of the game that he witnessed after slipping through the gate.

Who said there wasn't an honest man?

Gentlemen:
When I was a student at _____ I did not have much money and I

By Bill Roberts

New stage shows, musical pictures, and comedies are the specials offered on the movie menu this week. A legitimate stage show is also featured at the Erlanger Theatre on Tuesday and Wednesday.

REMEMBER THE DAY

IS FOX'S NEW OFFER

Claudette Colbert's greatest role is in "Remember the Day." Never has the screen so poignantly delved into a woman's heart of hearts . . . so masterfully portrayed the sweeping tide that drew her back to an affair that should never have been!! John Payne is her leading man in this stirring play. It is the midnight preview Saturday night and starts next Friday at the Fox.

"WE WERE DANCING"

THURSDAY AT GRAND

After a series of dramas Norma Shearer does a turnaround and plays the gayest of farce comedies as a flippant heroine of "We Were Dancing," which starts Thursday at Lowe's Grand.

"THE MAN WHO CAME TO DINNER" STARTS THURSDAY AT PARAMOUNT

The funniest film of the day starts today at the Paramount. It is "The Man Who Came to Dinner," starring Bette Davis, Ann Sheridan, Monty Woolley, and Jimmy Durante, who make this a show not to be missed.

TONY PASTOR AND HIS ORCHESTRA IN PERSON AT CAPITOL MONDAY

"Right to the Heart," with Brenda Joyce, Joe Allen, and Cobina Wright, Jr., is combined with the stage show "Chuckles" which starts today at the

Fraternities Should Save Waste Paper

Several weeks ago, Scabbard and Blade Society sent letters to all fraternities urging that the members save all waste paper in an endeavor to conserve paper for National Defense. Unfortunately, the fraternities as a whole have shown very little effort to cooperate with Scabbard and Blade in this worthy cause, and hundreds of pounds of waste paper are still carelessly being burned or distributed over the landscape.

Perhaps the trouble lies in our failing to see the importance such a simple contribution does have toward furthering the national war effort. The purpose in saving paper is twofold. (1) Waste paper is reprocessed to make not only the constituents of incendiaries and ammunition clip covers, but it is also used in countless other types of war needs. (2) Making new paper from old paper eliminates several steps in the manufacture of paper from raw materials. Thus, this industry's production is hastened by re-using old paper. A saving in paper manufacturing equipment is also effected.

The TECHNIQUE urges that the fraternities and any other organizations use some foresight and, instead of destroying paper, simply throw it into a box provided for that purpose. Each week, the Red Cross or the local Defense Office will have it picked up.

—G. S. K.

Future Awaits Us; We Can Lead South

1942 may be remembered as the year when "opportunity knocked at our door."

We students are too involved with our physics and math to get a long range view. But among our faculty and supporters, with such a view, there is a feeling of hope, suspense, and expectancy.

The South contains no really outstanding technical institute, like the Massachusetts Institute of Technology, or the California Institute of Technology of the North and West. And now in this time of national crisis we alone have the foundation for such a school in the South.

After the war the South will present the greatest field of undeveloped natural resources in the country . . . to the trained.

Whether this training, forged in the heat of war, for peaceful development, will be furnished by Tech or not, remains to be seen.

Ramblin' Wreckonings

By Maxwell L. Shatzen, Jr.

OH, DADDY!

Well, sir, the long-legged bird with the bayonet beak flew into Atlanta last week and deposited two bundles from Heaven. First, he lightened his burden by bringing seven and one-half pounds of Judith Ann to papa and mama Fred Rowland on Thursday, February 26th, and then he went to the George Beaumarriages to delight them with a husky fun-loving son. From latest reports, even the fathers are doing nicely, and the "Robbery" has entirely sold out of cigars.

Added to all of this excitement, Daniel Cupid shot an arrow into the air, and it penetrated the Valentinian heart of Tech's very own Mr. James Tipton, who last week became the blushing groom of a very sweet and charming lady.

SNOW STUFF!

The local weather man has played havoc with Mendelyev's Periodic Table by adding an element that possesses characteristics unlike all the others appearing on the accepted "key board." The element, SNOW, is quite rare in this part of the world, and when it does occur, it exercises strange powers over the human race. To many, it is not merely rejuvenating—it is also intoxicating. Not infrequently it causes staid professors and serious minded students of engineering to cavort like high school freshmen. The element may give rise to sudden accidents, and therefore the more experienced avoid childish indiscretions. Certain highly specialized investigations were carried out by Tech men at Agnes Scott and Washington Seminary during the rare occurrences of this element, and the chief observation drawn from this intriguing research led to the following poetic dictum:

A little snow—a flash of hose;
A noisy squeal—and down she goes!

CONGRATULATIONS, FELLAS!

To all of you freshmen who have weathered the storm of "Hell Week" and who now, by some miracle, find yourselves full-fledged brothers, your columnist extends his hearty congratulations. Well does he recall his youthful exultation at that particular period in his college career. Upon achieving that goal, he felt that he owned everything except Niagara Falls and South Dakota. It is a grand feeling, and from now on, your fraternities will be looking to you to carry on their fine traditions.

Sweethearts of Sigma Chi

SEÑORITAS PAT ALLEN AND MARY RAGAN will lead the Sigma Chi "Spanish Fiesta" Saturday night with their caballeros, Gene Mulling, president, and Bill Simpson, vice-president.

Sigma Chi Holds Costume Ball at Atlanta Athletic Club

Dance Will Have Setting of 'Spanish Fiesta'; Hearn Will Play Both Latin Music and Hits

The Beta Psi Chapter of the Sigma Chi Fraternity will top the week's social activities tomorrow night with its annual Costume Ball at the Atlanta Athletic Club. The setting will be that of a Spanish Fiesta, a sequel to their famous South Sea Island setting of last season.

Tech's own engineers and architects will convert the huge ballroom into an atmosphere as Spanish as Old "Espana" itself. Dancing and gaiety will hold forth between the hours of "nueve y medianoche" (nine and twelve to you Americans). The music, Latin tunes as well as popular hits of the day, apportioned according to the desires of the guests, will be furnished by "Senor Harry Hearn and his band of troubadours."

Wide Variety of Costumes

The costumes, while possibly not as barbarous as those of the South Sea Island Party, promise to be none the less interesting and colorful. Some of Atlanta's most beautiful señoritas will appear in costumes representing everything from the Conga dancer to Carmen Miranda, and Tech's hard-working but fun-loving engineers will play the parts of Gauchos and Gay Caballeros. Such a combination, together with the gaiety and comfortable freedom that always accompany any costume party, promises to make this dance one of the most exciting of the season.

Senors and Señoritas

The officers and their dates are Gene Mulling, of Virginia Beach, president, with Miss Pat Allen, of Atlanta; Bill Simpson, of Brunswick, Georgia, vice-president, with Miss Mary Ragan, of Atlanta; Royster Johnson, of St. Joe, Michigan, and Harry Bell, of Elberton, Georgia, treasurer, with Miss Barbara Lowe, also of Atlanta.

Other members, pledges, and their dates are:

Joe Aizpuru	Isabel Shockley
Evan Taylor	Mary Frances Kilpatrick
Don Metzger	June Reynolds
Lin Flanagan	Dot Hanson

Past President Here

Chaperones for the dance will include past National President Hamilton Douglas, Jr., and wife, of Atlanta; Province Praetor James K. Rankin and wife, of Atlanta; Mr. and Mrs. Charles F. Leifer, of Atlanta; Mr. and Mrs. James Crawford, of Atlanta; Major and Mrs. Gordon Lewis, of Atlanta; and Mr. and Mrs. Waldo Sowell, also of Atlanta.

Glee Club Will Hold Open House Friday

On Friday evening, March 6, Brenau College will present its Choral Club in a concert. The concert will begin promptly at 8:30 in the "Y" auditorium.

Following the concert, the Glee Club will be host at an "open house." Everyone on the campus has been extended a cordial invitation to attend this gala function.

Dancing will be enjoyed in the lobby of the "Y." During the course of the evening, light refreshments will be served. There will be no charge for this entertainment.

Seniors to Continue Student Union Fund For Class Project

By Kenny Sessler

Realizing that the Senior Class gifts to the school for the past few years have been of little importance to the school and student body, the Senior Class of '41 gave a gift that will undoubtedly prove to be one of the most beneficial in the history of the school. Due to the fact that more water fountains and benches would be unnoticed and useless, the class of '41 decided that they would set aside their class funds as a start for a new Student Union building on the Tech campus. This new building will be similar to the Tech Y. M. C. A., but in no manner jeopardize the Y. M. C. A.'s functions. It would provide a housing for such events as meetings, lectures, dances and any other activities that the school or student body might have to offer.

Funds Left With O.D.K.

The class of '41 left their funds in the trust of O. D. K. with the hopes that following classes would continue to increase the fund so that construction of the new building could begin as soon as possible.

\$1,000 In Fund

A committee has been selected by the Alumni Secretary, the Faculty Treasurer of O. D. K. and Dr. P. B. Narmore, to see that the money shall not be idle during its accumulation, but that it shall be of some use to the school, students, or as a deposit for earnings as interest. Suggestions have been made that the money be invested in National Defense Bonds. Others have expressed the opinion that the funds could be used beneficially as well as safely as a backing for a successful repetition of our recent mid-term dances. However it is used, it will be for the best possible results. The fund now amounts to about \$1,000 which was given entirely by the class of '41.

Tech Training Ship Is Sunk

Many former R. O. T. C. students of Georgia Tech, including football stars, will remember the destroyer Jacob Jones, sunk by an enemy submarine off the coast of New Jersey, as the flagship of a destroyer squadron in which they made a training cruise in 1936.

Ralph McGill, executive editor of The Constitution, accompanied the Tech unit. He was aboard the Jacob Jones.

The Tech boys, manning the destroyers Dickerson and Schenck, were on a competitive cruise with R. O. T. C. units from Harvard, Yale and Northwestern.

The Jacob Jones joined the squadron out of New York and steamed with them down the Atlantic seaboard and through the Panama canal.

Dean, Meadow Are Council Nominees

H. G. Dean and F. J. Meadow were nominated in the recent co-op primary elections, March 2, as candidates for a place on the student council.

The final elections will be held on March 9, at which time one of these two men will be elected for a term of one year. The candidates, both of the pre-junior class, were elected by the co-op sophomores and pre-juniors only.

40% of Students Say Allies Fighting To Save Democracy

AUSTIN, Texas.—Four out of every ten college students believe that the United Nations are fighting this war for the same reason usually given for fighting World War I—to preserve democracy, a national sampling of Student Opinion Surveys of America shows.

Battle For Bill of Rights

Taken on college campuses all over the country, the poll reveals that 40 per cent of the students, a group more than twice as large as any other group giving a different answer, believe that World War II is being fought for the continuance of democracy or, as some put it, "for the Bill of Rights," or "for freedom and liberty." Eighteen per cent, the next largest group, think we are fighting primarily to defeat the Axis powers.

Why Are We Fighting?

Without suggesting any possible answers, interviewers were asked, "What would you say we are fighting for in this war?" The complete results, shown in eight different groupings of answers, follow:

To preserve democracy	40%
To defeat the Axis	18
For economic reasons	10
Self-preservation	9
For England	4
Because of Pearl Harbor	4
For a lasting peace	5
Other reasons or no opinion	10

... for industrial research!

In these critical times engineers at Western Electric are at work harder than ever developing advances in the art of manufacture.

These are being applied in producing the latest types of military communications equipment—now being turned out on a large scale for our fighting forces on land, at sea and in the air.

All this is in addition to our greatly increased job as manufacturer, purchaser and distributor for the Bell System. Meeting the abnormal telephone needs of America at war is a tremendous task, complicated by shortages of many materials. Even record-breaking production cannot fill all civilian requirements now, for Uncle Sam comes first!

Jordan Receives Trophy by Proxy

Courtesy of The Atlanta Constitution

The Joe Rhodes football trophy, which is given to the most valuable man on the Tech team each year, is being exhibited to Mrs. James D. Robinson, Jr., and Red Barron by Coach Alex. Wex Jordan was this year's winner of the award but was not present so the coach received it for him.

Fraternity Basketball Nears Finish; Seven Teams Play in Quarter-Finals

For the past two weeks, the basketball teams of the different fraternities have been battling nightly at the Naval Armory. The teams have been divided into two divisions, the "White" and the "Gold" leagues. The Sigma Chi's, the Beta's, the S. A. E.'s, and the K. A.'s are in the quarter finals of the "White" League, while the Sigma Nu's, the Kappa Sig's, and

the Phi Kappa Sig's reached the quarter finals in the "Gold" league.

The final winners will be determined by a round-robin starting March 9th. Four teams will be in the round robin—two from each league, and each team will play three games. The team having the highest percentage of wins in the round robin will win the first prize and the team with the next highest percentage will receive second prize. If one team loses, it does not mean that this team will be out of the running. It will only lower the percentage point of the team. The round robin will be finished on March 12th and the final winners will be announced.

Tech Marksmen Win Hard-Fought Tilt From Georgia Team

The Tech rifle team came from behind last Saturday to nose out the Georgia marksmen 1850 to 1825 in Athens. The match was a shoulder-to-shoulder contest in which four orders of three men each fired five shots per man from each of four positions: prone, sitting, kneeling, and standing. Only the scores of the eight high men on each team counted, however.

Riley and Mason High

Riley and Mason of Tech tied for high score with 189 out of a possible 200 while Symmes of the Bulldogs was a point behind with 188. The scores for the eight high Yellow Jackets are as follows: Riley and Mason, 189; Richards, 182; Kearney, 179; Woodward, 179; Gowen, 178; Baker, 177; and Edelblut, 177.

Shoot Against Georgia

The Athenians will have their chance for revenge tomorrow, however, when they invade Tech for a return match.

Engineer Swim Team Conquers Vols, 44-31

Still Undefeated Swimmers Meet Auburn Tomorrow As Gators Loom As Only Threat

Tech's undefeated swimming team, on their first trip of the season, downed a hard-fighting Tennessee team 44 to 31 at Knoxville last Saturday. The contest was exciting throughout, with Tech winning four events and the relays and Tennessee the other three events. The meet was decided by the final relay.

McAuley Stars

Herb McAuley continued his sparkling record, winning both the 220 and 440 freestyle events and swimming anchor on the final relay. Captain George Stradtman had another big day, as he tied McAuley for high-point man with 11 3/4 points, winning the 50 and 100 freestyle events and swimming on the final relay.

Bill Harris was barely nosed out in the diving by Bill King, and the conference should bring a battle royal between them.

Undefeated Team

The swimmers have the only undefeated Tech team this year and the prospects of remaining so look very bright. They travel down to Auburn this week-end to tangle with the Tigers and are heavy favorites. Next week-end they invade Rollins College and the University of Florida, where their first real threat will be met. The Jackets' average score for 6 meets this year has been 54 points to their opponents' 21.

TECH VS. TENNESSEE

44-31

300 Yr. Medley Relay: Won by Tech (Caldwell, Newman, S. McAuley). 3:22.8.

440 Yd. Freestyle: 1. H. McAuley (T); 2. Ashton (UT); 3. McElroy (UT). 5:36.8.

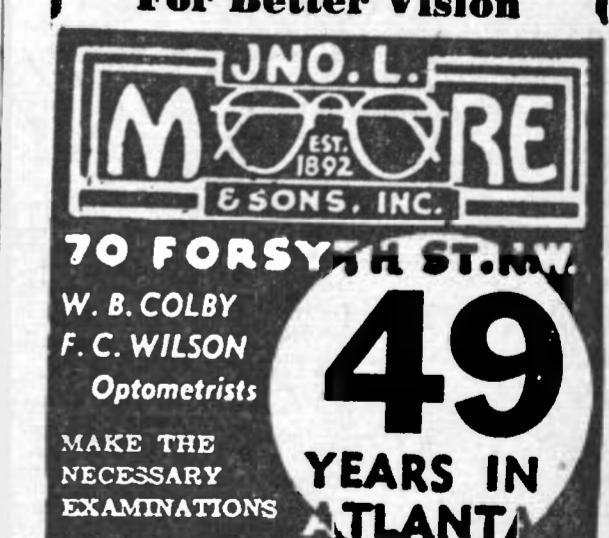

400 Yd. Freestyle Relay: Won by Tech (Demere, Newman, Stradtman, H. McAuley). 3:58.6.

Pranksters!

Unidentified but thorough intruders in Seattle's college's 24,000 book library one night turned the volumes around on their shelves, their ends and titles to the wall.

A half-dozen patient co-eds were busy for several days re-arranging the books. Meantime library business was suspended.

All Students May Engage In Summer Sports Program

Wide Variety of Sports Will Be Taught Undergraduates

By Milton Merts

Coach Alexander has given his promise to the student body that this year's additional semester will not entirely be taken up with lectures on mechanics, math, slide rules, and the like.

The novel situation of the entire student body attending school during the sunny months of the year has given birth to a new summer sports program in which the whole school is invited to participate.

Starts in June

This program will get under way about a week after the start of the new semester. Anyone interested in softball, baseball, swimming, gymnastics, track, wrestling, fencing, tennis, or golf will have ample opportunity to improve his abilities. For those so athletically inclined as to wish to include more than one sport in their afternoon time, the schedules will be well dispersed throughout the week. The classes will be held late in the afternoons so as not to interfere with the regular school program. Each activity will be under the supervision of the coaches connected with that department.

Varsity Football

Coach Alex has stated that, while the varsity football will be in summer practice, this will not interfere with the classes given to the student body. The tennis, golf, baseball, swimming, and track teams will also be in full swing. They will feature matches with other teams in city leagues and schools that have also adopted the summer program.

No Schedules Yet

Definite schedules have not as yet been adopted, but they will be published in THE TECHNIQUE as soon as possible.

Rinksters!

Tech Roller Hockey Six Beat Lakewood In Easy Victory, 7-4

Last Friday night the Rambling 'Recks roller hockey triumphed over the Lakewood six 7-4. This was their third consecutive victory against the purring Tigers. This also was the Hockey Club's sixth win in as many starts and well shows their caliber.

Better Defense

During the first period the 'Recks battered the defense as it had done in previous games, scoring three good tallies. In the second period the Tigers rang the bell four times, but Tech was always one goal ahead and as the last quarter ended led 7-4.

Last Game

This was the last game of the regular season, although some out-of-town games are being scheduled. The 'Recks were at their peak, although some slight injuries were suffered. Red Nichols was high scorer, scoring two goals unassisted and three on passes from the team.

Jeff Breger played an inspired game as goalie. Tony Zagarella alternated left defense and center with Capt. Red Jimmey Withers, veteran of the Tech High squad, turned in a good game at forward.

Jacket Cage Team Bows to 'Bama Five In Thriller, 37-32

Kentucky Wins SEC Title After Battle With 'Bama

Coach Roy Mundorff's basketballers played the game of their life in the last half of their initial appearance in the annual Southeastern Conference tournament last Thursday in Louisville, but it wasn't enough to trip the classy Alabama quintet that went on to snare runner-up honors.

'Bama Stops Vols

The surging Crimson Tide, which the next day swamped the Mehen brothers and nosed out Tennessee in a mighty upset to earn a berth in the finals only to be dropped in turn by Kentucky, was clinging with dear life to a slender five-point lead as the final gun echoed through the overflowing gym, to win a scant 37-32.

Lewis Leading Scorer

It was the Jacket's inability, or, better, the Tide's ability, to control the rebounds that spelled their defeat in the end. This, along with their nice floor game and general heads-up ball, got the 'Bamans off to a flying start and by half time they had built up a 21-12 lead. Despite their uncanny, sensational long shots in the closing stanza, this proved a handicap a bit too difficult for the engineers to surmount.

Captain Carlton Lewis led the Yellow Jacket cause by swishing thirteen points to edge out All-Conference Adair for individual honors.

Tech Men Complete Basic Air Course at Army Flying School

RANDOLPH FIELD, Texas, Feb. 27. Former Georgia School of Technology students, members of the second wartime class of Aviation Cadets and Student Officers at Randolph Field—a class which felt history being made—were militarily "at ease" today, having completed basic flight training here this week.

Still making every flying second count while tapering off for their finale, which will see them shuttled off to any one of a half dozen advanced training bases, were: J. Edwin Heatherly, Atlanta, Ga., '38-'41; and William H. Wilson, Chattanooga, Tenn., '37-'41, B.S.

Known officially as Class 42-D, the group completed the streamlined pilot-training courses in record time.

Extra Points

By MAL MACHT and RAY SADOW

S. C. TOURNEY The Southern Conference cage tourney, scheduled for March 5, 6, 7, is now well under way, with the Blue Devils from Duke as odds on favorites to take the title. A glance at the season's records shows the Dukes with a 19 won, 2 lost record, the two losses coming at the hands of George Washington and Temple. The Devils play Washington and Lee, 8th ranking team, in the first round. If they survive, they will meet either Wake Forest or North Carolina, both of which having caused Duke plenty of trouble during the season. We look for a big upset somewhere along the way.

DEEP IN THE HEART OF TEXAS

The world's tallest basketball team, representing the country's biggest state, is the first team to accept a bid to the New York Inter-Collegiate tournament. West Texas State, of Canyon, Texas, has earned the bid with a season's record of 28 wins and 2 losses, averaging 71 points per game. The two losses were to L. I. U. and Bradley Tech. Most amazing fact of all is that the average height of the squad is 6 foot 6!

FLORIDA BREEZES

The gossips have it that Big Hal Trosky, voluntarily retired from the Cleveland Indians because of migraine headaches, is playing 'possum while waiting for a possible trade to the Yankees. The Yanks could use the big slugger very nicely. They have three possible choices for first base right now: Buddy Hassett, as weak a hitter as draftee Johnny Sturm, Ed Levy, last year's sensation in Kansas City, and Tommy Henrich, long-time threat to give up the outfield for first.

Mel Harder, Joe DiMaggio's old nemesis, is getting another chance with the "Tribe" this year.

Rumors about Ted Williams clutter up the ticker; first he was drafted then deferred by F. D. R. himself; the latest word is that he has departed for Chicago, to join Mickey Cochrane in the Navy.

The Giants are about to bring down the wrath of McGraw on Bill Jurgens, their only holdout. Some think he is merely stalling for time in order to hang around his new bowling alley.

Best looking new pitcher in training is Yanks' Johnny Lindell, fresh from a great season with Newark. His rookie co-star at Newark last season, Fordham Hank Borowy, is also threatening to replace the ageing Yank twirlers.

The Big Leagues are doing their part in national defense by donating bats, balls, and gloves to the service teams; all the Army and Navy want now is a few teams for their men to play. They are asking teams from colleges near training centers to do their best to schedule service teams.

A situation unique in baseball history has arisen out in California. The Chicago Cubs, in training on Catalina Island, are under military rule. No visitors allowed, and all copy by the scribes covering them is censored.

The Detroit Tigers are the hardest hit club in the majors. The loss of Greenberg, Hutchinson, Uhle, Gehringer, and now that sensational outfield find, Pat Mullin, really knocked their chances of even a first division berth into a cocked hat. They don't even know where Buck Newsome stands. After watching Bobo drop twenty games last year, the Tiger management is ready to drop a few figures off of his latest contract. Bobo objects strenuously to such a policy.

SCREWBALL TRADES If you think your favorite team has made some dumb trades lately, listen to these: New Orleans got a pitcher for a sack of oysters; San Francisco bought a first baseman from Memphis for a box of prunes, and gave Oakland a pitcher for NOTHING . . . he must have been good!

ONE MINUTE INTERVIEW WITH ADOLF RUPP

(coach of the Univ. of Kentucky basketball team; winner of 6 S. E. C. tourneys in the last 10 years).

How does Southern basketball compare with mid-western or southwestern ball? Well, good Southern teams are not as numerous as good western teams, but our best squads are every bit as good as their best. We lost to Ohio State and Tennessee this year, and I believe Tennessee is best. Maybe if we can arrange a game with Illinois, Big Ten champs, we might be able to prove my point. Has the game improved during the past few years? Yes, because of the greater emphasis that has been placed on it by the schools, principally through basketball scholarships. Who was the best player I saw this year? The Melch brothers of Tennessee, I think, are about tops.

Dean W. R. Woolrich of the University of Texas College of Engineering estimates Texas defense industries will need 55,000 additional workers in the next few months.

Council Passes Distribution Plan; Starts New Year

At its last meeting the Georgia Tech Student Council finally took action upon the new distribution plan for the profits of THE TECHNIQUE and passed the system, making it become effective the next school year.

The Council refused to pass the new distribution set-up to go into effect this year because the present editor and business manager took their position under the old system expecting that system to continue.

According to statements made at the Council meeting by several members, the new system is expected to help the newspaper considerably by increasing the number of staff members and making it worth while for well qualified students to work on the paper.

Following is the distribution of THE TECHNIQUE profits in percentages under the new system:

Editor	25%
Business Manager	25%
Student Council	20%
Managing Editor	5%
News Editor	4%
Sports Editor	4%
Feature Editor	2%
Business Staff	8%
Editorial Staff	7%

New Army Captain Assigned to Tech

Captain Paul Hayden Gates has been recently assigned to the Georgia Tech Coast Artillery Corps as officer-instructor in the elementary and advanced training courses. He has been ordered here to supplement the staff of the Coast Artillery Unit, which has been depleted by the transfer of Major William J. Burke to New Orleans, Louisiana. Captain Gates was formerly stationed at Camp Davis, North Carolina, anti-aircraft training center.

Captain Gates, prior to World War I, attended the University of Vermont, where he received a three-year military course, similar to the R.O.T.C. course here at Tech. When the United States entered the first World War, Captain Gates was stationed at Fort Monroe, Virginia, as an officer in training. It was here that he received his commission. On completion of his training, Captain Gates was sent overseas, where he was stationed for the duration of the conflict.

MISS CHARLOTTE THOMAS AND MISS PATTY SPELLMAN will head the leadout with their dates, "Sandy" McNeill, President, and Joe Griffin, Vice-President, respectively, at the Chi Psi Formal Dance which will be held tonight in the Georgian Terrace Hotel.

Chi Psi Holds Annual Formal Tonight at Georgian Terrace

Dining Room, Ball Room Will Be Decorated Extensively With Fraternity's Colors

This evening at the Georgian Terrace Ball Room the Chi Psi's will give their well-known formal dance.

Before the dance the members and the pledges will entertain their dates at a dinner. The dining room and ball room will be decorated with the fraternity colors, purple and gold.

Officers and their dates are:

President Hector McNeill and Miss Charlotte Thomas.

Vice-President Joe Griffin and Miss Patricia Spellman, of Savannah, Ga.

Secretary Billy Bergen and Miss Cathleen Budde, of Lexington, Ky.

Treasurer Alf Anderson and Miss Jean Thamas.

Members and their dates are:

Avery, W. H.	Roslyn Ison
Olsen, S. M.	Julia Harvard
McNeill, H. M.	Charlotte Thomas
Harrison, C. W.	Betty Linane
Weeks, W.	Mary Ann Linane
Nowak, J.	LaVerne Curtis
Richmond, C. C.	Mary Alice McDougall
Anderson, A. H.	Jean Thamas
Darrin, W. A.	Vera Freeman
Bergen, W. P.	Kathleen Budde
Hester, E. M.	Jessie Etheridge
Baker, R. F.	Billie Garrett
Mott, F. E.	Kay Worthington
Weeks, S. E.	Betty Lovett
Butler, F. K.	Virginia McCaully
Bourquin, G.	Patsy Baker
Griffin, J. E.	Patricia Spellman
Wilson, Glen A.	Lucille Griser
Hoke, C. L.	Betty Murphy

Chaperones will be Mr. and Mrs. Asbury Green, Mr. and Mrs. Robert Plunkett, and Mr. and Mrs. Keith Osborne.

Sikorsky—

(Continued from Page 1) contributions toward America's military air power, namely the "Corsair" (F4U-1), world's fastest shipboard fighter, and the world's largest patrol bomber. Among his past achievements is the record of having designed the first helicopter in America, first four-motored plane in the world, first two-motored plane in America, the first trans-Atlantic craft, and the famous Atlantic and Pacific Clippers.

This record makes Sikorsky interesting to many types of people. Not only aeronautical students and technicians, but anyone interested in the trend of world affairs today would be interested.

Nominees—

(Continued from Page 1) the Student Council, editor of last year's "T" Book, active in intramural basketball, Camera Club, Tech Band, A.P.O.

VICE-PRESIDENT: S. R. (Tex) Harrison, Tyler, Tex., Sophomore, M.E., Co-op, member of the "Y" Cabinet, social chairman of the Y.M.C.A., member of the Tech Bible Class of the North Avenue Presbyterian Church and Young People's League.

K. N. (Kirk) Nesbit, Savannah, Ga., Sophomore, G.E., present secretary of the Y.M.C.A., vice-president of the Sophomore Class, president of the Tech Bible Class of the North Avenue Presbyterian Church, and active in boys' club work of the "Y," member of A.P.O.

C. A. (Cats) Wong, Hartford, Conn., Sophomore, M.E., member of the Y.M.C.A. Cabinet and active in retreats, boys' club work, intramural basketball, member of Tech Bible Class of First Baptist Church and Tech Glee Club.

SECRETARY: W. S. (Bill) Johnson, Davenport, Iowa, Freshman, president of the Y.M.C.A. Council, active in retreats and delegations, attends North Avenue Presbyterian Church, member of Freshman basketball team.

M. R. (Minor) Crowl, Upper Darby, Pa., Freshman, member of the Y.M.C.A. Council, publicity chairman, active in boys' club work and retreats. Attends Lutheran Church of the Redeemer, member of International Relations Club and sports editor Nautius.

W. C. (Bill) Mann, Marianna, Ark., Freshman Arch., vice-president Freshman Council, has participated in "Y" retreats. Member of Methodist Church, member of Blue Print business staff.

C. S. (Scott) Vinson, Cordele, Ga., Freshman, I.M., secretary Freshman Council, active in Y.M.C.A. retreats.

Technique Needs New Staff Men

Openings Offer Variety Of Jobs to Students

THE TECHNIQUE needs new men! Any Tech students who have ever worked on a school paper, or who have made grades of "B" or better in English 11 and 12, can now find a position on that staff for which they are best-suited.

The jobs are many and varied. There is news writing, sports writing, feature writing, editorial writing, proof-reading, re-write work, and make-up work to be done. Practically any capable man can find a type of work that will please him.

All men who think they would like to work on THE TECHNIQUE should be present at the next editorial staff meeting, which will be held in the basement of the YMCA this Tuesday at 7:30 p.m.

Attends St. Mark Methodist Church.

Any other student on the campus may be nominated for an office by submitting to the committee a petition signed by 100 members of the student body.

Nominations to fill the vacancies on the Board of Directors are: alumni member: Mr. Geo. T. Winship; faculty, Professor Count Gibson; member at large, Dr. S. V. Broyles.

All student candidates for the above offices have signed the following statement: "Inasmuch as the Y.M.C.A. stands for the highest in religious, social, and political life, we request that you as a student select your candidate on the basis of merit and personal qualifications. We ask that you vote according to your own convictions and not as a member of any group or clique. No candidate wishes to hold office as a result of undemocratic action or unethical politics."
