Increase Is Authorized In Contract ROTC Quota

By Harvey Hochman

Captain Hugh J. Martin U.S.N., Professor of Naval Science at the Georgia Institute of Technology, has been authorized by the Navy Department to enroll a portion of the quota of new NROTC Contract students at the beginning of the summer quarter. In past year it was the policy of the Navy Department only to accept new Contract students at the beginning of the fall quarter. However, most colleges and universities are admitting new incoming freshmen at the beginning of the summer quarter due to present world conditions. Therefore, the Navy Department saw fit to inaugurate this new policy.

Enrollment Limited

Professors of Naval Science are authorized to enroll Contract students only at the entering freshman level, unless they qualify under one of the following:

- (1) Have completed only one year of a five year course.
- (2) Have previous Military or Naval Service which is considered to be equivalent to certain Naval Science Courses. In every case, advanced standing given by the Professor of Naval Science must correspond to that given by college authorities. In other words, the student is expected to complete his Naval Science Courses at the same time he completes his other college work.
- (3) Be of outstanding character and ability and satisfy the Professor of Naval Science that he can complete the prescribed Naval Science Courses and cruise requirements during the time he plans to remain at the institution, including time to be spent in graduate school.

The new Contract students that

will be enrolled this summer will be unable to start their naval science courses until the beginning of the fall quarter. This is due to the fact that no naval science courses are given during the summer months.

Largest Increase

During next quarter and the fall quarter 3837 new freshmen Contract students will be enrolled in the 52 different NROTC colleges and universities around the United States. Of all these colleges and universities, which includes the largest and most well known in the United States, Georgia Tech was awarded the largest quota of new Contract students for 1951. Next year Georgia Tech will be able to enroll 120 new freshmen Contracts.

Perspective freshmen who are interested in becoming Contract students should obtain a NROTC bulletin, which contains all the requirements for becoming a Contract or Regular NROTC students. These bulletins can be obtained at the Naval Armory Georgia Institute of Technology or the Navy Department.

Two CerE Students Given Recognition By National Society

Two ceramic engineering students at the Georgia Institute of Technology were recognized by the American Ceramic Society at its recent annual meeting in Chicago, Ill.

Paul C. Gaertner, Jr., 57 Woodcrest Ave., N. W., Atlanta, Ga., a March graduate of the institute now in the U.S. Navy, received fourth prize for his paper entitled "An Investigation of the Use of the Semi-conducting Porcelain Enamel as a Means of Producing Copper-Copper Oxide Rectifiers."

George E. Spring, Honolulu, T.H., senior ceramic engineering student, won second prize in the society's speaking contest for his address on "Liquid Honing of Glass Molds."

Dr. Lane Mitchell, director of the School of Ceramic Engineering at Georgia Tech, also attending the meeting.

Anak Society Taps Nine At IFC Informal Dance

Notice

All seniors and graduate students who expect to complete the requirements for their degrees as of December 15, 1951, are urged to attend a meeting in the Georgia Tech YMCA Auditorium at 11 o'clock Tuesday, May 15.

This meeting is an organizational meeting for placement, and at this meeting an explanation of the placement system will be given, and the qualification records will be explained. It is therefore very important that all December 1951 seniors and graduate students attend this meeting.

Whether or not a job has already been obtained, whether or not plans for graduate study are being considered, and whether or not the above students are involved with a draft, reserve, or ROTC status, all are urged to attend this meeting.

If it is impossible to attend this meeting, the above named students are asked to see me personally at 12 noon on any day after May 15, but not later than May 22.

Your cooperation with us in this program will be sincerely appreciated.

Fred W. Ajax,
Associate Dean of Students

Roane Beard Named As Acting Secretary For National Alumni

W. Roane Beard, a native of Atlanta, Ga., an industrial management graduate of Georgia Tech in 1940, and formerly alumni activities manager of the Georgia Tech National Alumni Association, was named this week by the board of directors of the association as acting executive secretary. He replaces W. Howard Ector, who resigned to accept a position with Westbrook Motors Ltd. of East Point, Ga.

As a student at Georgia Tech Mr. Beard played football, served as president of the freshman class and vice-president of the senior class, and held membership in ANAK, ODK, Interfraternity Council, Scabbard and Blade, Industrial Management Society, Bulldog Club, and Phi Delta Theta. He earned his varsity letters in football and track.

After graduation, Mr. Beard was employed by Eastern Air Lines in the traffic department. With the coming of World War II, he saw active duty with the army in Puerto Rico and the Southwest Pacific with the coast artillery and the psychological warfare branch. He was separated in the rank of major.

After demobilization, Major Beard served as territory salesman in North Carolina, South Carolina and East Tennessee for Scripto, Inc. He returned to Georgia Tech in July 1947 as alumni activities manager.

He is married to Peggy Boyd of Atlanta. They have three children, Ellen Beard, Andrew Roane Beard and Jeffery Boyd Beard.

Students Recognized For Service and Achievements

By Barry Christophine

Last Friday night nine of Georgia Tech's most outstanding leaders were accorded the highest honor that can come to a Tech man—that of membership in Anak Society, senior honorary society. In the impressive tapping ceremony held on the Peter's Park tennis courts during the informal IFC dance, Barry Blemker, Elliott Dunwoody, "Fuzzy" Fields, Roy Harris, Clyde Kennedy, Bill Kennedy, John Steedley, "Teeter" Umstead and Bill Winsemann were officially tapped by Bruce Sams, president of the organization. Also in attendance were George Schnabel, vice-president; Ken Brown, secretary; Mickey Sermerheim, treasurer; John Huskisson and Buddy Shields, present members of Anak.

Outstanding Students

Organized on January 1, 1908, the purpose of Anak is to honor select men from the senior class who are outstanding among their fellow students by their achievements and services to Georgia Tech. Since then the society has taken an active part in founding many of the other organizations now existing on the Tech campus. From its membership have come men who have become leaders of national prominence.

Barry Blemker, a senior in the School of Industrial Engineering is a member of Phi Delta Theta social fraternity, Scabbard and Blade, Alpha Pi Mu, Phi Eta Sigma and the Student Council. He is treasurer of the Bulldog Club, secretary of the "T" Club and vice-president of S.A.M. Barry, who is well-known for his own on the basketball court, is also listed in Who's Who in American Colleges and Universities.

Koseme President

Secretary of the Student Council Bill Kennedy is an Industrial Engineering junior. He is a member of the Ramblin' Reck Club and Sigma Alpha Epsilon social fraternity. He is also president of Koseme and chairman of the NSA committee.

John Steedley, a senior in Mechanical Engineering is the editor of the Engineer and president of Pi Tau Sigma. He is vice-president of Tau Beta Pi, ASME and Alpha Tau Omega social fraternity. Also a member of Pi Delta Epsilon, he was voted the outstanding ME senior as well as the outstanding ATO senior.

A junior in the School of Architect-

Dan V. Guy Receives Certificate of Merit

The National Office of the Kappa Sigma fraternity has recently awarded a "Certificate of Merit," to Dan V. Guy, president of the local chapter. Every year the National Office awards these certificates to the outstanding juniors and the 123 chapters in recognition of their achievements in the fields of scholarship, leadership, and extra-curricular activities. Dan is beginning his senior year in the School of Electrical Engineering and is from Jackson, Miss. Guy also holds offices in the Koseme Society and the IFC and is a past president of Phi Eta Sigma and past treasurer of the chapter.

ture, Elliott Dunwoody is a member of the Ramblin' Reck Club, Kappa Alpha social fraternity and the Student Council. He is secretary of Koseme and has been chairman of Freshman Orientation Week and the Academic committee of the student.

"Fuzzy" Fields is a Civil Engineering senior and president of Sigma Alpha Epsilon fraternity. He is also vice-president of ODK and business manager of the Yellow Jacket. A member of Koseme, Pi Delta Epsilon and Scabbard and Blade, he is also listed in Who's Who in American Colleges and Universities.

Engineer Editor

Clyde Kennedy, a junior in the school of Civil Engineering, is a member of Tau Beta Pi, Phi Eta Sigma, Pi Delta Epsilon, Chi Epsilon, Scabbard and Blade and Beta Theta Pi social fraternity. He is the managing editor of the Engineer and the editor-elect for that publication next year.

Roy Harris, who is president of the Georgia Tech YMCA, is a member of Tau Beta Pi, Eta Kappa Nu, Phi Kappa Phi, ODK, and Lambda Chi Alpha social fraternity. He has been on the track and cross country teams and is a member of the "T" Club and the Spiked Shoe Club. He is also on the Georgia Tech World Service Fund committee.

Basketball Captain

An Industrial Management junior, "Teeter" Umstead is a member of the "T" Club, Sigma Chi social fraternity and the Koseme society. He is also captain of the basketball team and secretary-treasurer of the Ramblin' Reck Club.

Bill Winsemann is a senior in the School of Civil Engineering. He was this year's president of the St. Patrick's Council. He is president of Alpha Tau Omega social fraternity and Chi Epsilon and vice-president of SAME. The assistant editor of the 1950 Blue Print, he is also a member of Pi Delta Epsilon. He is a member of ASCE and Scabbard and Blade and is a Lt. Col. in the ROTC.

Notice Seniors

Beginning Friday, May 4, and continuing each Friday through the remainder of the quarter, the Division of Engineering Drawing and Mechanics will return drawings to graduating Seniors between 2-5 p.m. Come to Room 301, Engineering Drawing and Mechanics building during the hours designated if you wish your drawings.

Housing Notice

The Housing Office, 108 Knowles, is now accepting dormitory applications for the summer and fall quarters. All students who are not attending summer school and who desire dormitory accommodations for the fall quarter, must make application before June 9.

Those students who are not living in dormitories at present, but desire accommodations for the summer quarter must submit applications before May 19.

C. A. Wynn,
Director of Housing.

Tech Newman Club Announces Mother's Day Program Plans

On Sunday, May 13, the Georgia Tech Newman Club will hold its annual Mother's Day program, the yearly highlight of Catholic activities on the campus. Mass will be celebrated in the gymnasium at 8:30 a.m., with a breakfast immediately following in the T-Room of Brittain Dining Hall.

The club has been very fortunate to obtain for principal speaker at the breakfast Mr. Eugene W. O'Brien, outstanding Atlanta Catholic and engineer. A vice-president and director of W. R. C. Smith Publishing Company, Atlanta, since 1936, Mr. O'Brien served in the highly honored position of national president of the American Society of Mechanical Engineers for the year 1946-47.

He was born at West Warwick, Rhode Island, where he received his early education. Later he entered Brown University, from which he was graduated in 1919 with the degree of B.S. in electrical engineering. Two years later the degree of Sc.M. in mechanical engineering was conferred upon him by the same university; and in 1925 the degree of M.E. by Yale University.

Mr. O'Brien has served as a member of the faculty of both Brown and Yale. Since leaving the teaching profession, he has spent much of his time as consulting engineering and in the technical publications field as editor-in-chief and later managing director of the Southern Power Journal.

Among his many other honors are membership in AIEE, Pi Tau Sigma,

Tau Beta Pi, Sigma Xi, and charter membership in the Georgia Engineering Society.

Mothers of members in good standing will be guests of the club. Invited guests include President and Mrs. Blake R. Van Leer, Dean and Mrs. George C. Griffin, Mr. and Mrs. Lewis F. Gordon (he founded the Tech chapter in 1928), and Mr. and Mrs. Furman H. Smith. Mr. Smith is a prominent Atlanta Catholic convert layman and attorney, who was on the agenda of speakers during this year's Resources for Living Council Week.

Colonel Leslie F. Zsuffa, director of public relations at Tech and vigorous faculty advisor of the Newman Club, will attend the celebration for the last time until he returns from a recall to active military service sometime this month.

All Catholics at Georgia Tech, whether members of the club or not, are cordially invited to attend the Mass on the campus next Sunday in honor of their mothers. Tickets to the breakfast may be obtained for one dollar from members of the Newman Club or in Room 201, Administration building.

Two Local Textile Executives Honored by Phi Psi Society

Two of Georgia's outstanding textile mill executives were honored on Friday evening, April 27, at the Georgia Institute of Technology with the award of honorary memberships in the Georgia Tech chapter of Phi Psi, national honorary textile engineering fraternity.

Those honored were Samuel H. Swint, president of Graniteville Mills, Augusta, Ga., and John LaFayette Hutcheson Jr., president of Peerless Woolen Mills, Rossville, Ga. They were elected for the 1951 awards because of their many contributions to the textile industry of the South.

The initiation ceremonies were held

in the Hightower Textile Engineering building at Georgia Tech. It was followed by a banquet in Brittain Dining Hall.

Mr. Swint was born near Fredonia, Alabama, on July 20, 1896. After working for the Atlanta, Birmingham & Atlantic Railroad, he enlisted in the Army during World War I. After his service, he went into the cotton mill business with the International Cotton Mills, LaGrange, Georgia, leaving there to work in mills in New York, Boston, and Providence. He came back to the South in 1926 to join the Graniteville Mills, Graniteville, Alabama, as treasurer, and currently is serving as president and director of the company, which also operates plants in Augusta, Ga. He holds positions as a director or a trustee of banks, railroads, manufacturing companies and a foundation.

Mr. Hutcheson was born December

Band Concert

The Georgia Tech Band will give a concert on Sunday, May 13, at 3:00 p. m. in the gym. All students and faculty of Tech are cordially invited. Admission will be free.

Two Faculty Members Recognized for Work

Each year the Sigma Xi Club of the Georgia Institute of Technology awards two prizes for outstanding research work published by faculty members during the period March 15 to March 15. These awards are made possible through the generosity of Mr. M. A. Ferst. This year the first prize, \$300, has been awarded to Professor M. A. Honnell and Mr. M. D. Prince, School of Electrical Engineering, for their paper "Television Image Reproduction by the Use of Velocity-Modulation Principles," Proc. I.R.E., Vol. 39, pp. 265-68, March, 1951. The second prize amounting to \$100 is to be divided jointly between Dr. W. H. Eberhardt, School of Chemistry, for his paper "Slit-Width Effects in Spectrophotometry," J. Opt. Soc. Am., Vol. 50, pp. 172-76 (1950) and Dr. Jack Hine and Mr. Donald E. Lee, School of Chemistry, for their paper "The Effect of Halogen Atoms on the EN1 Reactivity of Other Halogen Atoms Attached to the Same Carbon Atom," which appeared in the January, 1951, issue of the Journal of the American Chemical Society.

In addition, the following faculty members have received honorable mention for papers published during the past year: Dr. R. S. Ingols, Engineering Experiment Station; Dr. R. D. Teasdale, School of Electrical Engineering; and Professor C. E. Kindsvater, School of Civil Engineering.

The research award winners will be publicly honored at a dinner on June 5 in the ODK room of the Brittain Dining Hall. Professor Honnell will make the annual Sigma Xi Research Award address as part of the ceremonies.

The Georgia Tech Sigma Xi Club is an affiliate of the national Society of Sigma Xi which has for its object the encouragement of original investigation in pure and applied science.

2, 1904. He has spent his entire business life in connection with the Peerless Woolen Mills, Rossville, Georgia, which his father founded in 1907. For many years, he has been the general manager and wool buyer of the company, and in 1947 he was elected president. Mr. Hutcheson has served for many years on the board of directors of the National Association of Wool Manufacturers, and is now vice-president of that organization. Also, he is a member of the Woolen and Worsted Advisory Committees of the National Production Authority and of the Economic Stabilization Authority in Washington, D. C.

CHANGES IN CAMPUS TELEPHONE NUMBERS—The Controller may now be reached on Extension 214. Extension 283 is for the Payroll Department and Cashier's Office, and 285 for the Purchasing Agent. The night number of the Library (after 5 p.m.) is Atwood 6337. Please make these changes in your campus telephone directory.

GRANTS-IN-AID TO GEORGIA TECH FACULTY MEMBERS—T. W. KETHLEY, Research Associate Professor, has received a grant from the National Institutes of Public Health for continuing the work on the effect of low temperatures on the survival of microorganisms. This is a renewal of a previous grant by the institute for this work. . . JAMES H. GRADY, Associate Professor of Architecture, and JOSEPH J. MODER, Associate Professor of Industrial Engineering, are recipients of Carnegie Grants-in-Aid through the University Center in Georgia. L. MALCOM McAfee, Assistant Professor of Social Sciences, was also given a University Center research grant. The titles of their research projects are as follows: "The Architecture of Charles Rennie Mackintosh and Its Relationship to American Architecture of the Same Period" (Prof. Grady); "Study of the Sensitivity of the Statistical Analysis of Variance in Detecting Known Main Effects and Interactions Associated with a Factorially Designed Experiment" (Prof. Moder); and "Social Control in an Industrial Institution" (Prof. McAfee).

LECTURE AT EMORY UNIVERSITY—An invitation has been extended to the faculty and students of Georgia Tech to attend a lecture by Dr. Scott Buchanan to be given on Tuesday, May 8, at 8:15 p.m., in the Emory University Hospital Auditorium. The title of Dr. Buchanan's talk will be "The Poetic Foundations of Medicine." Dr. Buchanan is former Dean of St. John's College at Annapolis, Maryland and one of America's leading philosophers.

FACULTY NOTES—GEORGE F. SOWERS, civil engineering, presented a paper entitled "Engineering Properties of Georgia Soils" before the Annual Meeting of the Georgia Academy of Science at Athens, Ga., on April 27. . . R. E. STIEMKE, director of the School of Civil Engineering, and RICHARD KING, civil engineering, attended the Annual Meeting of the Southern States Coastal Erosion Control Association and the American Shore and Beach Preservation Association in Mobile, Ala., on April 27 and 28. At the meeting Mr. Stiemke was moderator for, and Mr. King a member of the panel, to discuss "Pollution of Coastal Waters—South Atlantic and (Continued on page 8)

The Technique WORLD EVENTS

By Thomas W. Quinn

Irrefutably, General Douglas MacArthur has committed a military crime violating the first commandment of a soldier; the commandment which Tennyson so aptly describes in the *Charge of the Light Brigade*:

"Theirs not to make reply,
Theirs not to reason why,
Theirs, but to do and die."

A civilian, certainly not a service man, may pretentiously assert "What about his freedom of speech?" Upon further thought he would reason out that, in order to have any kind of coordination and cooperation to insure the carrying out of an order or policy, each and every subordinate cannot be given the time or right to think out and decide what in his mind is the right thing to do.

The President of the United States advised by the members of the Joint Chiefs of Staff determined a Far Eastern Policy, a significant part of our world policy, which, supposedly, represented the wishes of the majority of people in the United States. The civilian government had decided on a policy and it was up to the military to carry it out unquestioned.

That policy which MacArthur disagreed with not only had the backing of our highest positioned statesmen, the Joint Chiefs of Staff; but, of England and France, our closest allies; and General Eisenhower, the masses idol. It is both appalling and pathetic to see the disgruntled minds of some people jump to condemn an action because they had a bone to pick with the person who had to carry out that action.

Idealistically, politics have no place in a matter so grave as the question at hand. Yet, when it came to cases "ours(?)" politicians broke right down the line with very few exceptions; Democrats for Truman and Republicans for MacArthur.

What do we have thrown at us? "MacArthur fired," "Impeach Truman," "old soldiers never die; they just fade away," "I now close my military career and just fade away, an old soldier who tried to do his duty as God gave him the light to see that duty. Goodbye." Anything and everything to arouse us into a tumult of confusion and anger; a play for that good old American sympathy for the underdog—petty, shameful, selfish interest, befuddling the issue.

MacArthur is, without a doubt, one of the greatest American heroes of our time, based on his leadership during both World Wars and his unparalleled democratization of Japan. However, this fact should have little bearing on one's judgment of his present advocated policy. General Custer was and is considered a great American hero, too. Yet his military strategy that led to his defeat was condemned as wrong.

Let's look into the two controversial policies and the consequences of each. MacArthur and his followers would have us support the Chinese Nationalist in Formosa in a land attack of Red China. Estimates of their (Continued on page 8)

Omicron Delta Kappa Sends Two Members To Their Convention

By John Langford

Two members of Omicron Delta Kappa, national men's honorary society, from the Georgia Tech chapter, attended ODK's annual convention April 12, 13 and 14 in St. Louis, Mo. The convention was held at the Hotel Chase and on the campus of Washington University.

Delegates from approximately 70 American colleges and universities with ODK chapters heard Dr. H. M. Trytten, director of the Office of Scientific Personnel, National Academy of Science, Washington, D. C., and an expert on manpower problems, deliver the keynote address.

Other convention speakers included Dr. Arthur H. Compton, Nobel Prize-winning physicist and chancellor of Washington University, who welcomed the delegates; Bishop William Scarlett of the Episcopal Diocese of Missouri, who delivered the invocation; and Dr. Paul S. Weaver, dean of religious life at Stephens College, Columbia, Mo.

Convention activities included a model initiation of new members from the Washington U., Westminster and Drury colleges and University of Missouri ODK chapters in Graham Memorial Chapel at Washington U.; a tour of the campus; a reception and buffet at the Hotel Chase; the convention dinner and a dance in the Tiari Room of the Park Plaza Hotel. The Washington U. chapter was host of the convention.

Plenary sessions, a round-table discussion, election and installation of the new officers and a sightseeing tour of St. Louis were among other events on the convention schedule. Dean Marten Hoer of the University of Alabama, national ODK president, presided at the sessions.

Delegates from Tech attending the convention were Donald M. Judd, and Professor Fred Wenn of the I.M. department, who was elected national vice-president and awarded a Meritorious Service Certificate.

Travel Reservation

Representatives from Eastern, Delta, Southern and Capital Air lines will be at the Information desk, Administration building, on Wednesday, May 16, 10:30 a. m. to 3:00 p. m., to assist students in making travel reservations for between quarters holidays.

Thespians of Georgia Tech Presents "Boy Meets Girls"

By Bob Bonner

DramaTech's spring production, "Boy Meets Girl," will be presented this coming Friday and Saturday nights at 8:30 in the Spring Street School. Tickets are seventy-five cents and will be on sale for the remainder of the week at the desk in the Administration building.

The play concerns the events which ensue when a baby is made into a movie star. Before this young man is washed up in pictures at the age of six months he is responsible for the firing of two top script writers, the resignation of one of the cowboy stars, and general confusion all over the lot.

In the play are a number of veteran actors including the club's president, Dave Cumming, as well as Dan Santacroce, Frank Taylor, and Bob Hutton. Also in the cast are a number of newcomers to the DramaTech stage. Ruth Hutton, Bob's wife, makes her first appearance at Suzie, the girl of "Boy Meets Girl."

Another new actor is Tony Burton. Tony is an exchange student under the World Student Fund. Originally from Birmingham, England, Tony is over here on a one year scholarship to study at Tech. Previously he graduated from the University of Birmingham where he received a degree in chemical engineering. He hopes to receive his Master of Science this June before he returns home. He tells us that this is the first play that he has appeared in since he was in high

school. The part which he plays is most appropriate, since it is that of a young English nobleman who comes to the United States and then to Hollywood in the hopes that he will succeed as an actor.

This is DramaTech's final production of the '50-'51 season and it appears as though it will be the best. The play is a fast moving comedy that played on Broadway for a long run and was on the road for a good many months afterward. Later it was made into a movie which starred Marie Wilson in the part of Suzie.

Netters Gainesville Bound for Annual Conference Tournament

By Wilfred Smith

This Wednesday the Tech tennis squad, under the coaching of Earle Bortell, travels down to Gainesville, Florida, to participate in the Southeastern Conference tournament.

The tourney is so arranged that participants play as individuals rather than as a team. Netters of each squad play the men of opposing teams that ranked in the same position during regular season competition.

Winners of each match will be awarded one point. The team with the greatest collective score at the end will be crowned champs.

Gators Tops In 1950

Florida nabbed last year's title, with Tulane and Tennessee deadlocked for runner-up position. The Greenies' Jack Tuero has been in-

dividual champ the past two years, and is considered the man to beat again this year.

Georgia Tech has won the championship twice since its inauguration in 1936. The Yellow Jackets were victorious in 1938 and again in 1946. Tech's Russell Bobbitt stole the individual championship in '38, the only player from the Flats to accomplish the feat.

Avenge Bulldog Loss

Last Wednesday over in Athens, Coach Bortell's boys avenged an earlier season loss to the Bulldogs by tripping the Athensmen 5 to 4. Georgia took a 6-3 decision in Peters Park April 18 by sweeping the doubles after a 3-3 tie at the end of singles play.

Then Saturday the Techmen drop-

(Continued on page 7)

N.C. Trackmen Top Tech, 88½-42½, After Jackets Surge to Early Lead

By Ray Savage

In the early afternoon of Saturday, May 5, in Chapel Hill, N. C., a great "wrecking crew" from Georgia Tech set out to wreck a team of great Tar Heels. The light rain the night before the meet had put the track in perfect condition for the spiked shoes of both gallant teams.

Things started off well for the Engineers with Buddy Fowlkes' long broad jump, Ed Baskin's winning javelin toss, Ralston's high pole vault, and Knox's placing third in the shot and discus throw and his tie for second in the high jump.

Thrilling Mile

Tech was still "in the money" when the running events started. Star distance man, Red Smith, lined up against Carolina's best, Byrd. The Tarheel ace started out like a "madman" with a 65 second first quarter, but Smith was only a spike's distance behind. Red matched Byrd's

2:15 first half with a 2:15.3. Smith expected Byrd to run a speedy third lap, but his time for the three quarter mark was only 3:25, Smith still trailing with a 3:25.3. About 60 yards before the finish, Smith pulled along side the speedy Tarheel and went on to win in a thrilling finish with a 4:29.3; Smith's last lap was a burning 65 seconds.

Fowlkes Wins the 100

But despite the Engineers' commanding lead, the Tarheels were steadily gathering up points on second and third places. Buddy Fowlkes brought in more points for Tech by defeating Carolina's ace sprinter in a 9.9 second 100 yard dash, but Carolina took second and third places in that event.

Then the Tar Heels began to surge ahead. Although Bobo Glover ran his best 880 of the season, a speedy 2:01, he failed to place. Jim Shiver won second in the high hurdles, but the Tar Heels won first and third places. Dixon failed to win the 440, but he managed to take a third place.

Jim Shiver later covered the low hurdles to win in 24 seconds, and Buddy Fowlkes breezed through the 220 in 21.6 to win, but the margin of points between the two teams was slanted too much toward the Tar Heels' favor.

Coach Dean held Smith out of the two mile race due to this fact, but he sent two capable runners, Don Paulk and Earl Gilbreath to challenge the Carolinians. Although neither placed, they both ran fine races and never gave up.

As the sun sank low over the green hills of Chapel Hill, N. C., the Tar Heels found themselves on the long end of a 88½-42½ score.

This defeat did not discourage the mighty Engineers; a cry from deep in their hearts came out, "Bring on Auburn!"

Frosh Readying Too

The track at Tech saw no rest while the varsity was at Chapel Hill. The Baby Jacket distance men worked on over distance while the sprinters worked on the sprinting. The distance men consist of Orhh, Rentz, Trapnal, and Savage. The sprinters are Tannehill, Smith, Cady, Hodges, Teas, Berman. The work done is in preparation for the Auburn meet to be held in Auburn Thursday.

Kent Morris Sets New Record In Winning ROTC Rifle Match

By Norman S. Tarlin

During the latter half of the second quarter, three rifle teams representing the Army, Navy and Air Force ROTC units met at the Army ROTC Rifle Range for the purpose of qualifying for block T's. Each team, consisting of approximately ten men, represented the finest shots from each of the three services.

During the run off match, Kent B. Morris smashed the old range record by making a total score of 196 out of a possible 200. This was a five-shot per position match with a time limit of one minute per shot. Since Kent has never racked up such a high score in the past, it was evident that he did his very best firing under pressure.

Kent began his career in firing

while he was enrolled at Decatur Boys High. During his three years at that school he participated in many rifle matches and finally won his way to the William Randolph Hearst Rifle Championships. During his high school career, Kent won three championships.

Kent is very active in various extra-curricular organizations here on the Georgia Tech campus. At present he serves as President of Alpha Chi Sigma (Chemical Engineering Honorary Society); President of Keramos (Honorary Society of Ceramic Engineers); a member of Scabbard and Blade (Military) and The American Ceramics Society. Kent also serves as Keeper of Annuals for that well known social fraternity Alpha Tau Omega.

Let us hope that in the very near future some enterprising young "Sgt. York" will smash this amazing score of 196 out of a possible 200. This will come true if more students participate in the activities of the rifle teams. All "experts" with the rifle are hereby urged to join any one of the teams now forming.

BELIEVE IN YOURSELF!

Don't test one brand alone
...compare them all!

Unlike others, we never ask you to test our brand alone. We say...
compare PHILIP MORRIS...match PHILIP MORRIS...judge PHILIP MORRIS against any other cigarette!

Then make your own choice!

TRY THIS TEST!

Take a PHILIP MORRIS—and any other cigarette. Then, here's all you do:

1 Light up either cigarette. Take a puff—don't inhale—and s-l-o-w-l-y let the smoke come through your nose.

2 Now do exactly the same thing with the other cigarette.

NOTICE THAT PHILIP MORRIS IS DEFINITELY LESS IRRITATING, DEFINITELY MILDER!

Sporting Around

with Gene Lorenz

We've Got A McArthur Story, Too

While "Dugout Doug" has been frying in the national firelight the past week, we at Tech have had our own McArthur story. Around campus last Tuesday morning, shortly after the news had broken, came the frequent query: "Hey, did you see? Coach McArthur has resigned!" It came as a surprise to many, for even after the gaunt Georgian had relinquished his varsity basketball reins, it was felt Roy McArthur would remain at the Flats for gridiron duty, especially in the scouting field.

Spring football drills came—and five weeks later went. No McArthur had been seen at Rose Bowl during that period. It was a period of wonderment to those who indulge in sporting around. Was he going to be retained on a full-time basis just for scouting in the fall. Hardly probable. What then?

Coach Mac himself provided the solution to the question in the minds of not a few. Through many sleepless nights he pondered the answer to which fork he should take in the road of duty.

"It hurt me," he drawled in a soft, unmodulated tone as he sat perched in the noonday sun on the steps of the AA building. There was every bit of sincerity as he continued. "It's one of the hardest decisions I've made in my whole life, but I think it will be the best for all concerned. My friends have asked me to reconsider, but there's no chance of that happening."

After More Than Two Decades

And his usually expressionless, square-jawed face came alive and added further credence to his statements. "I'm through coaching. I've never wanted to coach any place but Tech, so I guess this is it. One man has called already and offered me a coaching job, but I told him I wasn't interested."

Of course, we can't tell for certain whether the coach will ever tutor sports at any other institution, but from outward signs it appears Coach McArthur won't seek a job in the collegiate field at least. A bachelor, he has been able to save enough to live comfortably for a good long while and think over the future.

The past season was a physical killer for him. While his Jacket cagers compiled a shoddy 8-19 overall record, the former head hoop mentor suffered no slight decline in health. Pressure mounted and mounted—an inevitable effect of a losing record. A severe attack of influenza kept him off the court while Tech dropped a 69-67 thriller to Vanderbilt here in Atlanta. After the SEC Tournament the first three days in March he motored to the sunny climes of Gatorland, and upon returning to Atlanta has spent as much as 18-20 hours a day in bed resting. His self-administered treatment has meant complete recovery, we're glad to report.

Twenty-two years under the banner of White and Gold has endeared him to many people far and wide. Coach Mac relates that most of his friends are here in Atlanta and it's here he's going to stay. Whatever his course after he leaves the Flats on July 1, we extend on behalf of the student body deep appreciation for his ever-loyal service to Georgia Tech, and wish Coach Roy B. McArthur good luck in his future undertakings.

Disa n' Data Column

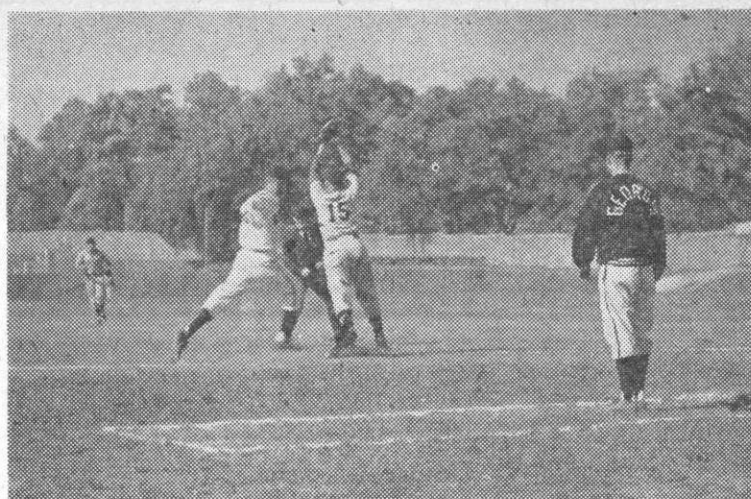

Easing up a bit after spring drills, head coach Bobby Dodd and line coach Ray Graves enjoyed a five day sojourn at their fishing hideaway in Florida . . . Frosh coach Lewis Woodruff was spotted in knee length shorts one sunny afternoon last week, much to the amusement of other members of the coaching staff. He claims they're just the thing for golfing—latest style . . . Looks like some of Tech's future engineers are forsaking their Mech homework to play softball under the lights in the City League . . . Saw a number of them at Piedmont Park last Monday eve.

Bobby North, Bob Lusk, and Red Childress just did make it in time for the Georgia baseball game at Rose Bowl Saturday afternoon. They were scurrying around the 9-hole Candler Park layout at noon—only got in 4 holes though. Must be some attraction to the game . . . Bussey Barnes, presently swinging in the school's intramural golf program, is a brother of Tommy Barnes, Atlanta's famous simon-pure links ace and finalist in the recent Dogwood Tournament.

Intramural softball always seems to draw a lot of enthusiasm and interest. In Independent competition the Newman Club is way out front again this year with an undefeated record and only one game remaining . . . Sigma Chi and ATO are repeating powerhouses in frat play.

A few weeks ago we were sitting alongside an exuberant student fan at a Tech baseball game. He was full of more chatter than both teams afield. Scanning the sparse number in attendance he blurted out, "Ya know, people just don't go for the national sport in college!" Incidentally, that was the contest in which 25 runs were scored on 11 hits and 30 walks! Any wonder?

Georgia's baseball team already has a pair of victories under their belts in the scheduled four-game series . . . Last year the Yellow Jackets won 2 out of 3, losing the third game in extra innings . . . Lou Andrews, Tech first sacker, cracked a booming inside-the-park homer to score the Jackets only run in the fifth frame here Saturday. After he chugged across plate just ahead of the throw in from right center, he dropped alongside the scorer in the dugout and excitedly exclaimed, "You didn't score an error on that, did you?" The ball had been momentarily bobbled in the outfield before the peg to home plate. The scorer nodded in a negative fashion. Andrews sighed with relief. "That's the first homer I ever got in my life and I didn't want it to be on an error!" . . . Rival Tech and Georgia baseball coaches Pittard and Richardson will have another chance to battle it out after the Jacket-Bulldog series is completed next week-end. They have been chosen to manage rival squads in the high school all-star game at Ponce de Leon June 1.

Technique Staff Photo.

Out number three in the fourth inning as second baseman Chappell Rhino whips in to Lou Andrews at first in time to nip the runner. Georgia went on to win 6-4 for its second victory out of two contests. The Jackets and Bulldogs play a home-and-home engagement again this week-end. Last year Tech won two out of three.

Bulldogs Top Jackets Twice By 7-6, 6-4 Diamond Decisions

Razor margins have decided the last seven baseball games between Tech and Georgia. A revolving affair Friday accounted for the eighth, which Georgia won 7-6. Four games in 1949, there in 1950 and one, so far, in 1951 were won by one-run edges. The score swapped back and forth until in the ninth with two out and a man on second, Jim Umbricht rapped a single that scored the winning run.

Young Turns Tables

Johnny Clifton led the Bulldogs at bat, by getting three hits in five trips to the plate. For Tech, Lusk was again the Jackets' stick man. Lusk collected two for four.

Dick Dozier was the winning pitcher and Clyde Young was the losing pitcher for Tech. Both boys are from Dawson, Georgia. Dozier, known as a great pick-off specialist, knew how it felt as Young pulled a switch and picked him off first.

Friday's Boxscore

TECH	ab	h	po	a	GA.	ab	h	po	a
Rhino, 2b	4	1	3	2	Williams, 2b	4	1	3	2
North, rf-2b	5	2	2	0	Rob'ts, 3b, 1b	1	1	2	1
McCoy, cf	3	1	5	0	Babcock, cf	3	1	2	0
Lusk, 3b	4	2	1	0	Dykes, rf	4	0	2	0
Harvin, lf	5	2	0	1	Clifton, lf	5	3	3	0
Sheffers, ss	4	1	1	1	Umbricht, ss	5	2	3	4
Andrews, lb	5	2	7	1	D. Dozier, c	4	1	6	0
Walton, c	5	1	7	1	Turner, lb	3	0	6	1
Young, p	3	0	0	2	bParr	1	0	0	0
Bradshaw, p	1	0	0	2	Gilbert, 3b	0	0	0	1
Childress, rf	0	0	0	0	Dozier, p	3	2	0	1

Drop Second Tilt

Saturday afternoon Tech fell into a first inning hole four runs deep and never scrambled completely out. Georgia won its second game in as many days over the Jackets, 6-4.

Charley Kell, Bulldog captain, took the hill for the winners and went the distance for the victory, allowing nine hits. The victory gave both Georgia and Kell a .500 record for the season; for the team 12-12 and 4-4 for Charlie. Tech has won eight and lost 11.

For Georgia Babcock and Dykes each got 2 for 4. Clifton drove in three runs with an inside the park homer which sailed over Bob McCoy's head 400 feet out in center field. Rhino and North each collected 2 for 5.

Lou Andrews, Tech first-sacker, matched Clifton's inside the park

Tennis—

(Continued from page 6)

ped a match to the University of Tennessee squad by 7 to 2 score. John Gaddis won for Tech in the singles, and the Gaddis-Ed Van Winkle combination took the other match point.

Probable Tech entries are the following six men who have played regularly during the season: Jack Ransohoff, Lowry Bell, Bob Tyson, John Gaddis, Ed Van Winkle, and either Clark Hunt or Phil Rothholz.

Georgia Tech players have reached the finals in doubles competition seven times in the twelve years that event has been held. Morrell-Boulware in 1936 and Bobbitt-Moore in 1938 were the winning Tech duos. The Jacket pair of McCall-Millsap tied with Tulane in 1946 when the match was called on account of rain.

Tech 'Y' Committee Plans Another Party

By Joe Palmer

Since their last dance-party was such a huge success, the Saturday Nite-Life Committee of the Georgia Tech YMCA has announced their second social event of the term. This dance party will be held on Saturday, May 12, and will be held at Herch Hall of Grady Hospital. This dance-party will be held with the vivacious nurses of Grady Hospital and the gala evening will start at 8:00 p. m., eight bells or 2000 hours.

All Georgia Tech students are cordially invited to sign up for this dance-party at the main desk of the Tech YMCA as soon as possible. After enough students sign up, invitations will be sent out. Since there was a large demand for invitations at the last dance-party, the committee wishes to urge all those who are really interested to sign up early and assure themselves of invitations.

The Saturday Nite-Life Committee was founded for the purpose of providing entertainment for the student body on Saturday evenings.

Letter by Colonel Van Leer Praising Buildings—Grounds

April 24, 1951.

Mr. J. R. Jenkins
Buildings & Grounds Department
Campus

Dear Mr. Jenkins:

Last night at a meeting of the Women's Chamber of Commerce of Atlanta, I was given a certificate of award on behalf of the Georgia Institute of Technology as a winner in the college class of the 1951 Clean up—Paint up—Fire Prevention program. I am enclosing the certificate. Will you please display this on your bulletin board and then preserve it as a part of the permanent records of your department.

I want to congratulate you and the members of your department on this award. Without the constant attention and hard work of everyone connected with the Buildings and Grounds Department, it would not have been possible. Each year I believe we are making more progress toward having a beautiful and outstanding campus. It is gratifying that the ladies of Atlanta who are experts in matters of this kind are pleased that we are making progress which justifies this recognition.

Yours sincerely,
Blake R. Van Leer,
President.

World Events—

(Continued from page 5)

forces have been judged at between 600,000 and 800,000 men, one-half of which are in the navy or air force. It is inconceivable that the Nationalists would be of much avail against the Red forces without considerable manpower supplied from other sources. In effect, they would have us start a general war in China, contending that with quick decisive defeat of China we will put an end to our Korean and other Asiatic troubles, thereby preserving a Western front.

If we entered into a war against Red China, the ominous question still remains, "Would Russia enter into that war?" They have a defensive military alliance with Red China. Analogously, if Russia invaded Canada, would we enter into that war? There's not much room for debate on the answer to that question.

On the other hand, we have the U.N., Truman, and his followers who feel that a general war in the Far East is not desirable at this time; that a small scale war in Korea with the possibility of a settlement in the near future is the answer. By devoting a minimum of effort in the Far East, we can devote a maximum of effort in Europe under the leadership of General Eisenhower. Many feel that it would be to our advantage to fight a general war (which seems to be inevitable from both arguments) protecting Europe where the inhabitants are in sympathy with the U.N. or at least opposed to Russian aggression. Many U.N. sympathizers doubt that we could complete a war in the Far East with an effective ending.

Only future history will give evidence to which policy was right. It's up to the people of the United States to determine which policy and in whose favor that history will fall.
