

## Georgia Tech Honors Faculty, Donors

**I**t was payback time for some of Georgia Tech's finest faculty and supporters, who were honored recently by the Georgia Tech Foundation, Inc.

About 150 special guests, including Georgia Tech faculty members who hold 41 chairs and professorships representing an endowment of \$38 million and the donors who made them possible were recognized April 21 at the third annual reception and dinner.

Georgia Tech Foundation President John H. Weitnauer, Jr. served as master of ceremonies.

Georgia Tech President G. Wayne Clough pointed out the hard work accomplished by such distinguished faculty.

"It is your excellence in the classroom and your useful and innovative research that consistently drives Tech higher in national prestige and helps Tech continue to attract students of the highest caliber," he said.

He also pointed out Tech would not have achieved as much without the generosity of its donors.

"Georgia Tech has great aspirations," said Dr. Clough. "We use your funds to support curriculum development, research, and education. It is through your support that our chairholders have the flexible resources that are so vital to pursuing new ideas and new research," he said.

The Georgia Research Alliance (GRA), a partnership of six research universities, state government, and a broad cross section of the high-tech industry, was recognized for having helped fund six GRA Eminent Scholar Chairs at Tech. It was the GRA that facilitated research incorporating distance learning and biomedical

## Inauguration Features High Tech Presentation

**T**wo special multimedia pieces are being produced to help celebrate the Inauguration of President Clough at the Fox Theatre on Friday, May 12.

The first piece showcases the tenures of Tech's first nine presidents, set to the music score entitled "The White and Gold Rhapsody," which was originally commissioned for the Tech Centennial. This presentation is being developed by the College of Architecture's IMAGINE Group and produced by Tech's new Artist-in-Residence James Oliverio.

Photographic and anecdotal contributions for this historic perspective have come from Library Archivist Ruth Hale, coupled with more than 100 vintage images provided by Georgia Tech Tele-Photo. It provides a glimpse of campus life in all of the previous eras, framed in the context of significant events that marked the tenure of each of the first nine presidents. The musical accompaniment will be performed live by the Georgia Tech Symphonic Band, conducted by Bucky Johnson, head of the Music Department.

The second multimedia presentation looks toward the future, integrating a wealth of visual imagery with a new music score written especially for the occasion by composer James Oliverio, who is also serving as producer of the piece. The majority of the visuals for this presentation have been programmed by 3-dimensional computer animation specialists John Cordova and Scott Robertson of the Multi-Media Technology Laboratory, with assistance from students in Richard Braunstein's class in Alias Animation. Actual video and photographs of research being done on the Tech campus were solicited from all departments and laboratories across the campus. Many of the selected images are being incorporated into the body of the piece.

The fundamental concept behind this new piece is the constant interplay between knowledge and imagination. Oliverio likens the five-minute piece to a journey through the collective intellectual network of Georgia Tech. It moves through various centers of knowledge to a level of creativity and imagination that is below the surface. The piece then returns with a new idea or discovery to bring it into reality with design and engineering. The soundtrack for this piece is computer-generated music synchronized with the combined forces of the University Orchestra and the Tech Symphonic Band, and conducted by Professor Ron Mendola.

## FutureNet Voice Phase Begins

by Toni Mills, Media Relations,  
Carla Holoman, FutureNet Voice  
Services (OIT)

**F**utureNet, a project aimed at providing every room on the campus access to a broad range of services — including high-speed data, full motion video and voice, has received state funding and changes are on the way.

"University System Chancellor Stephen Portch, in his budget request, asked for and received

\$4 million for partial funding of FutureNet. Georgia Tech Foundation is providing financing for planning and initial engineering of

FutureNet. Initial construction is jointly supported through a collaboration of Georgia Tech, ACOG (Atlanta Committee for the Olympic Games), and Olympic sponsors BellSouth and AT&T," said John Mullin, FutureNet program manager and director, Operations and Engineering, Georgia Tech's Office of Information Technology (OIT).

"One of the earliest visible signs of the FutureNet activity will be the impending construction. We will work closely with building owners/residents to minimize any disruption to their activities. We will be issuing an ongoing series of communiques to keep the campus informed of the FutureNet plans and progress," explained Mullin.

In addition, several important changes to the current phone service are anticipated, including the changeout of the BellSouth

central office switch that serves Georgia Tech. This changeout, which is currently anticipated for December 1995, will have significant benefits to the Tech community, but also the following impacts.

### Phone Numbers

Georgia Tech currently has numbers assigned to three exchanges, 894, 206, or 853. Most Tech academic and business telephone numbers are in the 894 exchange, while dormitories are in

installed to use the ISDN handsets.

In order to ensure that this change does not adversely affect your service, a station review will be scheduled for each P-phone user so that the new ISDN phone set-up can be tailored to their requirements. This review will essentially be an interview with a representative from OIT, the Department of Administrative Services (DOAS) along with a representative from BellSouth or

AT&T. Orientation and training for the new handsets will be scheduled in November, immediately prior to installation/conversion.

### Benefits

Virtually every building on campus will have additional fiber optic cables installed as a part of the FutureNet fiber agreement. "Meridian" P-phone users will receive upgraded features and equipment free of charge. The move to the AT&T switch will allow for growth and help prepare Georgia Tech for the anticipated implementation of the new Atlanta area code. In addition, a major benefit to the campus will be the implementation of ISDN technology on campus.

### Cost

The majority of the costs associated with this transition will be borne by either OIT or the participating vendors. The customer's monthly costs for the ISDN lines to replace P-phones will be approximately the same. There will be an undetermined associated cost to each affected organization for the replacement of business cards and stationary.

FutureNet Schedule of Events	
Station Reviews for P-phones	April 24 - June 23
Dormitory Cut Over	June 95
Directory Input	Sept. 95
Orientation/Training for P-phone users	Nov. 95
Phone Cut Over	Dec. 95

the 206 exchange. There will be no impact on any phone numbers in either of these exchanges. However, all 853 exchange numbers will change to new 894 exchange numbers. This group of customers (1,380) represents about 10 percent of the numbers assigned on campus. The exact mapping of old numbers to new numbers will be available within the next several weeks.

### Phone Instruments

There will be no change to the phone instruments for the standard analog telephones. Due to compatibility issues with the new switch, all of the proprietary phones (P-phones) on campus with Meridian Handsets will be replaced with upgraded equipment, AT&T 8510 ISDN handsets provided through a grant from AT&T.

New ISDN (Integrated Services digital Network) lines will be

Georgia Tech President Wayne Clough greets former U.S. President Jimmy Carter on campus last Monday.

Carter spoke last week at Tech to a gathering of the 34 University System presidents. He challenged the group to initiate activities with lesser developed nations that would help provide for basic needs like food, shelter and infrastructure.

## Continual Calendar

**Faculty/Staff Toastmasters Club - Techmasters**, Thursday mornings, room 102, Pettit Building, 7:30 - 9:00 a.m. For more information call Richard P. Kenan, 894-4702 or e-mail: dick.kenan@ee.gatech.edu

**Women's Therapy Group**, Female students meet Wednesday to discuss concerns, build support and expand choices, noon - 1:00 p.m., room 238, Student Services Building. Confidentiality stressed. To join or for more information call 894-2575.

## MAY 1

**Career Seminars**, "Job Search Strategies," 11:00 a.m. - noon, President's Suite A, Student Success Center. For more information call 894-2550.

**"Auditing for Software Developers,"** ISO 9000 course offered by Georgia Tech Center for International Standards & Quality (CISQ), through May 3, 8:00 a.m. - 5:00 p.m., Wyndham Garden Hotel, Buckhead. For more information call Donna Ennis at 853-0968.

**"The Shared GCATT Vision,"** speakers, President G. Wayne Clough, Georgia Tech, William Todd, Georgia Research Alliance, John Copeland, director, GCATT, 7:00 p.m., Student Success Center Theatre. A reception immediately follows for \$5.00, faculty and students. Reservations are required no later than noon, April 25. For more information and to place a reservation call at 894-1359.

**Ashton Carey Seminar**, presented by Gregory McRae, 4:00 - 5:00 p.m., room 200, Electrical Engineering Auditorium. For more information call 894-8468.

**Georgia Tech Culture Fest - Planet Tech**, International Film: "Kohinoor," (India), Student Center Theater, 7:00 - 9:00 p.m. For more information call Linda Duckworth at 894-7475.

**Caricature Artists**, 11:05 a.m., free, front of the Student Center. For more information call 894-2805.

**"Trends and Traditions,"** School of Textile and Fiber Engineering, through June 29, Westbrook Gallery, Center for the Arts. For more information call 894-2805.

## MAY 2

**Career Seminars**, "Creating a Professional & Winning Resume," 11:00 a.m. - noon, President's Suite A, Student Success Center. For more information call 894-2550.

**Ashton Carey Seminar**, presented by Dr. Gregory McRae, 11:00 - noon, room 16, College of Computing. For more information call 894-8468.

**Georgia Tech Culture Fest - Planet Tech**, Food Fair, \$3 per person including soda, Student Center Ballroom, 11:30 a.m. - 1:00 p.m. with live music by the GT Jazz Ensemble; International Films: "Dominions II" and "Macross Plus" (Japanese Animation), Student Center Theater, 7:00 - 9:00 p.m. For more information call Linda Duckworth at 894-7475.

## MAY 3

**1995 Spring Programs in Architecture Lecture Series**, "Can We Save the Earth?" speaker, Ray Anderson, chairman, Intertace, Inc., Atlanta, 6:00 p.m., Architecture Auditorium. For more information call Beverly Burton or Pat Austin, 894-4053.

**EduTech Lunch & Learn**, "Creating a Kiosk for the Carlos Museum at Emory," speakers, Ed Price-Multimedia Technology Lab, Carlos Museum Representatives, noon - 1:00 p.m., room 301, Student Center. For more information call Barbara Durham at 894-3807.

**Human Resources Development**, course, "Drug Free Workplace Issues," HRD Training Room, 8:30 a.m. - 12:30 p.m. For more information call Wansley Stallworth at 894-2249.

**Georgia Tech Culture Fest - Planet Tech**, Cultural Displays, Student Center, 11:00 a.m. - 3:00 p.m.; International Film: "Wings of Desire," (Germany), Student Center Theater, 7:00 - 9:00 p.m. For more information call Linda Duckworth at 894-7475.

## MAY 4

**InfoTech monthly meeting**, 10:00 to 11:30 a.m., first floor conference room, GTRI Cobb County Facility. The Office of Human Resources (OHR) in partnership with Payroll and Records Services (PARS) and the Office of Olympic Planning are conducting the monthly meetings in various buildings across campus to share new information and answer questions/concerns from employees.

**"Women in Beijing and Beyond,"** speaker, Gertrude Mongella, Secretary of the United Nations, 12:45 p.m., Student Center Theater. Dessert reception will follow in Richard's Gallery, Center for the Arts. For more information call Wendy Greene at 894-4290.

**GVU Brown Bag Series**, "Providing a Scalable, Interactive Video on Demand Service Using Multicast Communication," speaker, Kevin Almeroth, College of Computing, noon, room 102, Pettit Building. For more information call Elaine Swobe at 894-9392.

**Career Seminars**, "How to Use the Career Library," 11:00 a.m. - noon, room 260, Student Success Center. For more information call 894-2550.

**Georgia Tech Culture Fest - Planet Tech**, Cultural Displays, Student Center, 11:00 a.m. - 3:00 p.m.; International Film: "The Scent of Green Papaya," (Vietnam), Student Center Theater, 7:00 - 9:00 p.m.

**Men's Baseball game**, Georgia Tech vs. Florida State, 7:00 p.m., Russ Chandler Stadium. For more information call 894-5445.

**Human Resources Development course**, "GT Disciplinary Procedures," 8:30 a.m. - 12:30 p.m., HRD Training Room. This course is for supervisory personnel only. For more information call Wansley Stallworth at 894-2249.

**Georgia Tech Culture Fest - Planet Tech**, Culture Break, hosted by the Turkish Students Association, Student Services Building, room 117, and Atrium, 3:00 - 5:00 p.m.; International Film: "Like Water for Chocolate," (Spain), Student Center Theater, 6:00 - 8:00 p.m.; Soccer Tournament, SAC Soccer Field, 6:00 - 9:00 p.m.; International Ballroom dancing, Student Center Ballroom, 8:00 - 11:00 p.m. For more information call Linda Duckworth at 894-7475.

**"Trends and Traditions,"** School of Textile and Fiber Engineering, gallery reception, 5:00 - 7:00 p.m., Westbrook Gallery, Center for the Arts. For more information call 894-2805.

**"Puttin' on the Ritz III,"** 8:00 - 11:00 p.m., Student Center Ballroom, tickets are students/\$2, faculty/staff/\$5, general public/\$10. For more information call 894-9600.

## MAY 6

**Men's Baseball game**, Georgia Tech vs. Florida State, 7:00 p.m., Russ Chandler Stadium. For more information call 894-5445.

**Georgia Tech Culture Fest - Planet Tech**, Soccer Tournament, SAC Soccer Field, 11:30 a.m. - 7:00 p.m.; Cultural Performances Night, 8:00 - 10:00 p.m., Robert Ferst Theater, Center for the Arts, followed by a reception in the Westbrook Gallery. For more information call Linda Duckworth at 894-7475.

## MAY 7

**Men's Baseball game**, Georgia Tech vs. Florida State, 1:30 p.m., Russ Chandler Stadium. For more information call 894-5445.

**Georgia Tech Culture Fest - Planet Tech**, Soccer Tournament finals, Burger Bowl, 9:00 a.m. - noon, sponsored by: Students of Georgia Tech; Georgia Tech Bookstore; Coca-Cola, USA; Student Center Programs Board. For more information call Linda Duckworth at 894-7475.

## MAY 8

**1995 Spring Programs in Architecture Lecture Series**, "City Reforms," speakers, Rene Davids and Christine Killory, of Davids Killory Architects, San Diego, 6:00 p.m., Architecture Auditorium. For more information call Beverly Burton or Pat Austin, 894-4053.

**"Developing & Implementing Environmental Management Systems,"** ISO 9000 course offered by Georgia Tech Center for International Standards & Quality (CISQ), through May 9, 8:00 a.m. - 5:00 p.m., Wyndham Garden Hotel, Buckhead. For more information call Donna Ennis at 853-0968.

**Career Seminars**, "Successful Interviewing Strategies," 3:00 - 4:00 p.m., President's Suite A, Student Success Center. For more information call 894-2550.

## MAY 9

**Men's Baseball game**, Georgia Tech vs. Georgia Southern, 7:00 p.m., Russ Chandler Stadium. For more information call 894-5445.

**Human Resources Development course**, "Humor in the Workplace," 8:30 a.m. - 12:30 p.m., HRD Training Room. For more information call Wansley Stallworth at 894-2249.

**Take-A-Prof Luncheon**, 11:05 a.m. - 1:00 p.m., \$5 for both meals, Richards Gallery, Center for the Arts. For more information call 894-2805.

**Career Seminars**, "Networking/Information Interviewing," 11:00 a.m. - noon, President's Suite A, Student Success Center. For more information call 894-2550.

## MAY 10

**Inaugural event, Masterworks Concert**, The Georgia Tech Symphonic Band, Choral and Vocalities, Jazz Ensemble, and Concert Band, 8:00 p.m., Georgia Tech Center for the Arts. Complimentary tickets available. Call 894-3193 for more information.

# Professors Program Brings Alumni Back to School

Though cut short due to class cancellations, Tech's biannual Guest Professor Program provided students, faculty and Tech alumni with opportunities to learn from one another, thus creating a successful partnership between Tech and industrial and business leaders.

The Guest Professor Program gives Tech faculty and students a chance to meet and learn from prominent Georgia Tech alumni and friends. Twice each year, select alumni and friends are invited to lecture in a class chosen for its relevance to the subject on which the guest will speak.

"The real value of the Guest Professor Program lies in the opportunity it affords our students to gain direct exposure to some of

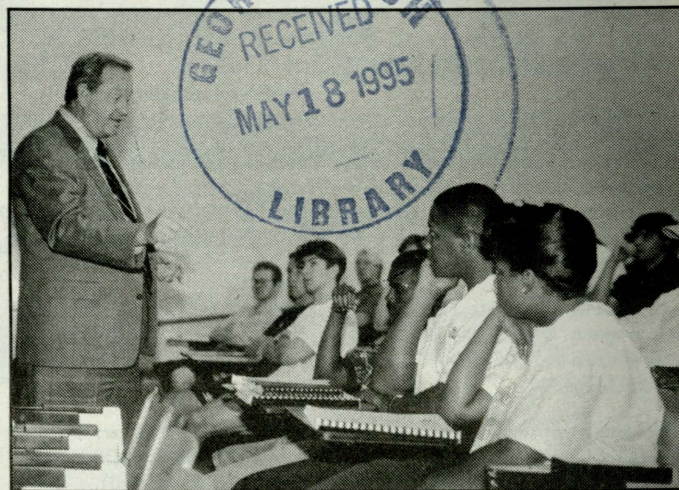

Tech's most successful alumni," said E. Kathleen Neitzel, director of Regional Development and coordinator of the program. "In its third year, the program continues to be popular with both the guest lecturers and the host faculty."

"Faculty who have participated in the program find the direct interaction with the guest very helpful and often continue the relationship even after the program. Students also get a chance to meet some of Tech's most successful alumni. In addition, it allows the Tech community to cultivate a positive relationship with the speaker and strengthen his or her ties with the university," said Neitzel.

This year's program set for April 20 and 21, was cut short on

Friday afternoon, after Governor Miller closed all state agencies and classes were cancelled.

Participants included: Tom Avery, Raymond W. Baker, Laszlo A. Belady, John Butler, Joel Cowan, Dennis Crumpler, Derrick Darby, Marc Dash, Ben Dyer, Edward Ginn, Mike Glad, Ralph Gretzinger III, Charles Henry, Don House, W. Mansfield Jennings, Terry W. Johnson, Said Mohammadioun, Jack Pinkerton, J.C. "Bud" Shaw, Pierre Sovey, Gary Steele, Carter S. Terrell, Brad Urey and Robert A. Yellowlees.

Guest Professor J.C. "Bud" Shaw spoke with textile engineering students about his experiences in the carpeting industry. He is the owner of Shaw Industries in Dalton.

## TORCH TALK

### Campus Visitors Need Passes During Olympic Security Period

**Q. Will deliveries be allowed during the Olympic Security Period? How will I get essential office supplies?**

A. For Tech employees working in the Research Controlled Area, limited deliveries will be possible. For people working in the Village Secure Area, deliveries will be very difficult. The Olympic/Paralympic Planning Office is encouraging all departments to stock up on standard office supply items prior to the Village Secure Period (July 1 - August 10, 1996). Essential deliveries which cannot be made prior to the beginning of the Secure Period must be scheduled and will be subject to a detailed security process.

**Q. How will we service our copy machines and other equipment if it breaks down during the Village Secure Period?**

A. If there are items which will need regular service while the campus is secured, the department should ask that a repair person be accredited to enter the Village.

All routine maintenance should be scheduled outside of the Village Secure Period. If an item breaks down while the campus is secured, a day pass will have to be secured for the repairperson. Departments will be given information on this procedure before the Secure Period begins.

**Q. Will it be possible for research sponsors, potential sponsors or others to come to faculty/staff workspaces during the Olympics?**

A. It will be possible to have off-campus visitors within the Research Controlled Zone via special pass arrangements. Arranging visits within the Village and Venue Security Zones will be more difficult, though not impossible. Day passes for visits within the Village and Venue Security Zones will be possible for legitimate reasons, however, it is requested that only visits which require on-campus presence be held here. Other meetings should be moved to an off-campus site if possible.

### Faculty/Staff Event Celebrates Clough's Homecoming

by Victor Rogers  
Media Relations

The Faculty and Staff Cocktail-Bufferet, one of several events surrounding the inauguration of Georgia Tech President G. Wayne Clough, will bring together the four corners of the state for an elegant evening filled with delectable cuisine, music, dancing and good conversation. The Cocktail-Bufferet will be May 11, from 7:30 to 10:30 p.m. at the Fernbank Museum of Natural History (767 Clifton Road, NE).

Early in the evening President and Mrs. Clough will greet guests in Fernbank's Great Hall. With its 85-foot ceiling and glass enclosed atrium, the hall provides a dramatic backdrop for the event. A 25-foot tall dinosaur, part of "The Great Dinosaurs of China" exhibit, will remain in the center of the hall, with food stations and beverage bars arranged along the perimeter of the main floor as well as on the upper levels.

"Lee Epting Caterers will present 'A Taste of Georgia' by serving cuisine representing four Georgia regions," said Julia Zimmerman, associate director of the Library, who is coordinating the event with Amy Dykeman, also from the Library.

The regions represented are The North Georgia Mountains, The Colonial Coast, The Historic South, and Atlanta — The Capitol City. Menu selections from the four regions include smoked mountain trout with dill sauce, grilled chicken with wild rosemary, roasted beef tenderloin, Savannah shrimp, Tybee

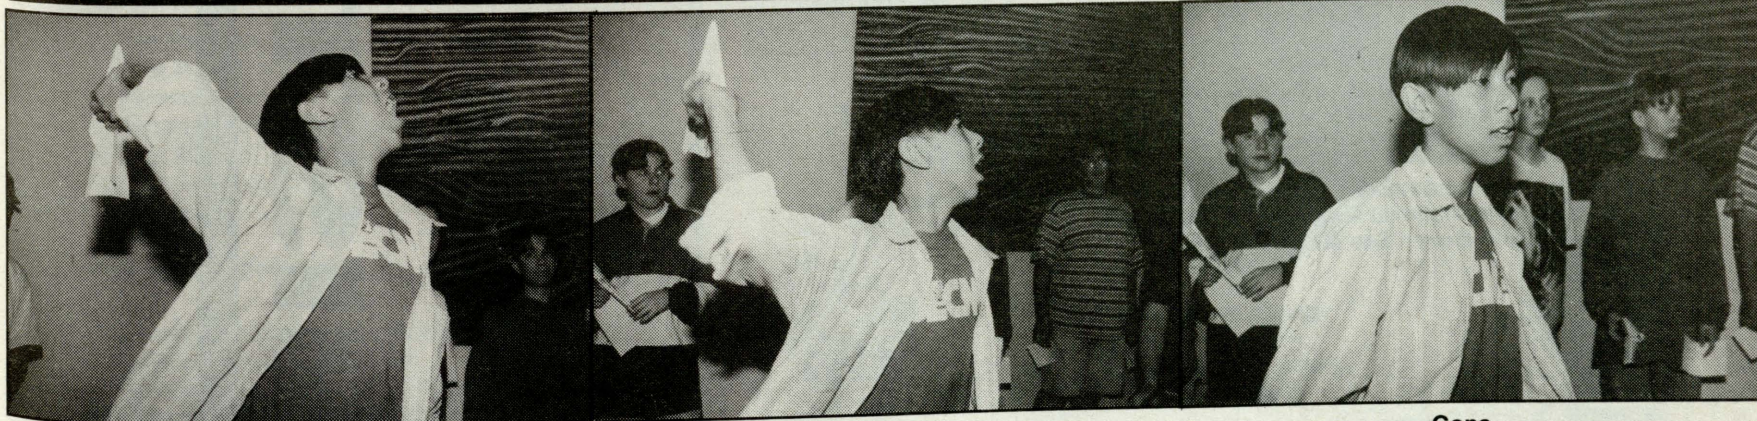

Island stuffed crab, and quail. Fruits and vegetables will be plentiful, including Cornelia salad, collards with homemade chowchow, Vidalia onion souffle, fresh melons and berries. The "Atlanta" station will feature a selection of desserts including Coca-Cola cake. Weather permitting, fresh hot pralines and cappuccino will be served on the terrace.

To help create the feel of the four Georgia regions, the caterer's design will incorporate evergreens, authentic Georgia mountain pottery, antique iron pots and skillets, sea shells, Spanish moss, driftwood, old lace, white columns and heirloom silver.

Cocktail-Bufferet attendees will receive one complimentary cocktail; a cash bar is available for additional cocktails. A four-piece dance band with a vocalist will provide the evening's entertainment.

As an added benefit to the Cocktail-Bufferet attendees, Fernbank's "The Great Dinosaurs of China" exhibit will be open that evening. The exhibit features 75 fossils from the Beijing and Inner Mongolian Museums of Natural History, including 14 complete creatures.

The cost of the Faculty and Staff Cocktail-Bufferet is \$25 per person, and the attire is semi-formal. Complimentary valet parking is provided, and the Great Hall is wheelchair accessible. To reserve your place, please send your name and check (payable to the Georgia Tech Foundation) to Lee Suddath, External Affairs, mail code 0180. The deadline for reservations is Wednesday, May 3. For more information about the Faculty and Staff Cocktail-Bufferet or other inaugural events, please call 894-3551.

#### Going...

Twelve-year-old Luong Nguyen (pictured) from Hapeville, puts all he has into the launch of his paper airplane. Despite his efforts, Jason Cook of Turner Middle School is the Overall Winner of the 38th annual Great American Paper Airplane Contest held recently at Georgia Tech.

As dictated by contest rules, the airplanes were constructed only of paper, with no glue, paint or other stiffeners allowed. One small paperclip was allowed to give the airplane proper balance.

Sixty-five students from nine Atlanta-area middle and high schools entered their aeronautical creations in the competition. The winners in each category received certificates of appreciation and Georgia Tech baseball caps. Cook, the overall winner, also received a \$25 gift certificate from the Georgia Tech Bookstore.

Winners in other categories are:  
- Time aloft (5 seconds): Helen Le (pronounced "lee"), Paul D. West Middle School;

#### Going...

- Range (60 feet): Kio James, Miller Grove Junior High School;  
- Control (30 feet): Brian Houston, Paul D. West Middle School;  
- Largest airplane (the wingspan of the plane squared plus the range): Jamien Woods, Crawford Long Middle School;  
- Smallest airplane (the range of the plane minus the wingspan squared): Matthew Steed, Turner Middle School;

The Georgia Tech chapter of Sigma Gamma Tau, the national honor society in

#### Gone.

aerospace engineering, sponsored the contest. The Tech students hope to interest middle and high school students in aerospace engineering careers.

diagnostic technology that has already put Georgia Tech in the headlines worldwide.

As holder of the David S. Lewis, Jr. Chair and a Regents' Professor, Ben T. Zinn spoke to the group about the benefits of endowed chairs. Zinn is one of 12 active members of the National Academy of Engineering on the Tech faculty.

"The faculty is the engine that drives a university," said Zinn. "A superior faculty serves as a magnet to attract other great faculty, excellent students, and resources to fund educational and research programs."

Zinn emphasized how the funds provided by endowments had been used by several of the

faculty members to leverage their resources. He cited statistics which show that in the School of Mechanical Engineering the average outside support of a chair holder equals six to seven times the amount of funds received from the chair.

Zinn said that chair resources are also used for development of new facilities and modernization of existing facilities to remain competitive.

Activities supported by endowed chairs improve the economic competitiveness of Atlanta and the United States, he said.

Georgia Tech's outstanding faculty, alumni and friends helped the Institute achieve its national standing. Many were honored recently at a reception and dinner. See story page 1.
