

S P E C I A L W O R K.

Friday, October 16th, 1914. Report of Opr. #115.

FULTON BAG & COTTON MILLS.

I learned on good authority to-day that Goulden was at work on a report on the Atlanta situation, to present to the Committee for their consideration. From what I gather, I believe that they are disgusted with the way things are down there, but are compelled to hold on as best they can, as they cannot drop the strike as some of them would like to do.

Some of them are in favor of sending Conboy back, and some are wanting to drop the whole thing at once, but Goulden will not consider it that way.

I presume the whole matter will be taken up on Monday or Tuesday, and some action taken.

Will leave here on Sunday for Scranton. Convention opens on Tuesday morning.
