

Parliamentary Course Draws Large Attendance

Dr. Walker Stresses Leadership Points

By Bill LaRoche

The course on Parliamentary Law and Procedure sponsored by the "Y" cabinet has proven to be of prime importance if the results of the first meeting are any indication of the interest shown in the course. Under the direction of Dr. A. J. Walker, a group of fifty-one men representative of all the organization on the campus began an intensive study of what makes a good chairman, and what constitutes an effective meeting. Convening each Monday night at the Tech YMCA, the course is designed to help the average student who may find himself in a position of leadership in one of the many campus groups to aid the organization in expressing its will in an effective manner.

Know Business In Advance

Dr. Walker pointed out in the initial gathering that the secret of good leadership is to be found in knowing in advance what the business of the group will be, and if there are controversial issues, to see that each phase of the issue is presented fairly and correctly. That the purpose of Rule of Order is not to allow a minority to force its will on an unwilling majority was brought out forcibly by Dr. Walker.

He also decried as unnecessary and foolish the mistaken idea that it requires difficult and artificial machinery to achieve success as a chairman. For instance, if it seems likely that there is no objection to a course of action and it is a matter of routine, motions are not necessary. Witness the reading of minutes of previous meetings. They may be adopted by "general consent" unless there is an objection.

Unnecessary and disturbing behavior is reduced markedly when it is a commonly accepted procedure to require each person or group to be

IFC TICKETS ON SALE UNTIL WED., MARCH 3

Tickets to the Interfraternity Council Dances will remain on sale until Wednesday, March 3 at the Information Desk in the Administration Building. All tickets for the Saturday night dance have been sold but there are still tickets available for the Friday night dance and the tea dance. The tea dance will be featured by numbers rendered by local campus entertainers and a door prize will be awarded to one lucky couple.

recognized by the chair or suffer the indignity of being ruled "out of order." Private arguments or discussions are curbed by the practice of addressing all remarks to the chair rather than the opponents.

The most effective leadership is gained through adherence to three principles. First, know previously to the time of meeting the purpose and intentions of the meeting. Secondly, ascertain that thorough discussion precedes voting on points of difference. And third, be courteous, fair and FIRM.

Practical Work Planned

The plan for the remaining three meetings will feature increased student participation so that students will have a chance to actually practice making good motions and also, as chairman, to try to handle difficult business in an efficient and fair manner. It is not too late to participate in these classes—if you are interested.

The next meeting of the group will be at the Tech YMCA, Monday at 7:00 p.m. Preparations for a greatly expanded group are being made because of the tremendous popularity of the subject and the competence of the instruction.

Activity Group OK's Theta Xi Fraternity Here

The Student Activities Committee has approved the colonization of Theta Xi on the campus. Theta Xi, one of the oldest fraternities was founded at Rensselaer Polytechnic Institute, Troy, New York on April 29, 1864. It was originally started as an engineering fraternity and was changed to a social fraternity in 1926.

Theta Xi has chapters located in many of the larger colleges and universities of the East, Mid-West, West and far West. Those situated in the South are at University of Alabama, Mississippi State, L.S.U., U. of Texas, Louisiana Tech and Southwestern Louisiana Institute.

The Theta Xi Executive Secretary visited the campus recently and discussed the fraternity situation with the administration and received its support.

Present officers of the colony are: Alden C. Flint, president; Curtis N. White, vice-president; Henry K. Giles, secretary, and Marvin H. Blaston, treasurer.

Cheerleader Tryouts

The first session of tryouts for the 1948 Cheerleader Squad will be held Tuesday, March 2, at five p.m. in the Gym. All applicants are requested to be there at that time.

SEARS EXECUTIVE EMPHASIZES APPEARANCE DURING INTERVIEW

"Applying For A Job" was the timely subject of a speech given by Mr. K. M. Coggan, Employment Manager of Sears, Roebuck and Company in Atlanta. Speaking before the I.E. Seminar class, Mr. Coggan emphasized personal appearance as a very important part of a personal interview.

He said that commencement means only what it says; the graduate is ready to commence, and that the graduate must not assume a know-it-all attitude to the interviewer. Further on this line he urged interviewees to fill out questionnaires very patiently and completely because all the information was needed to fill out the interviewer's opinion of his prospect.

In addition to personal appearance, he urged all seniors to prepare a

chronology of their previous work experience, this device is very useful in filling out the forms required.

Finding out all the information available on the prospective employer is another point Mr. Coggan brought out. This will include salaries, promotions, labor policies, sick and accident protection and the other features of a job that will be vitally important to the graduate once he has accepted the job.

In closing he said, "The personal interview is the final decision of the employer, and, therefore, anything that aids its success is of positive benefit to the graduate."

The meeting was presided over by Prof. Dwyer and Bob Taylor, president of the student branch of the Society for the Advancement of Management.

Agnes Scott, Ga. Tech Glee Clubs Present The Mikado Tonight

Famous Gilbert And Sullivan Performer Stars In Musical At O'Keefe Auditorium

The second performance of *The Mikado*, a musical comedy by Gilbert and Sullivan, will be presented at O'Keefe Auditorium tonight at 8. Sponsored by the Student Lecture and Concert Series, the musical features Mr. Warren Lee Terry of Broadway, a veteran performer of Gilbert and Sullivan.

All the other singing and acting roles will be handled by members of the Georgia Tech and Agnes Scott Glee Clubs. The glee clubs of both schools have been rehearsing for over two months, and Mr. Terry personally directed the final rehearsals.

Featured from the Georgia Tech Glee Club is Paul Keckle with the romantic lead. Some of the principle roles are handled by Otto Morris, who has entertained at many fraternity parties, Pierce Merry, Lee Roberts, Jim Byrd and Pete Harrow, who plays the title role.

Agnes Scott Singers

Among the singers from Agnes Scott are Mary Beth Little, May Queen at Agnes Scott, and her sister, Nora Anne Little, who play the feminine romantic leads on alternate nights.

The Mikado was originally written as a satire on the English court, although the action is laid in Japan.

The tickets for the performance are available from the Information Desk in the Administration Building.

The only professional actor and singer to perform in "The Mikado" will be Mr. Warren Lee Terry of New York, who is also directing the production.

A native Virginian, Mr. Terry traces his ancestry back to Robert E.

Lee and to the English actress, Helen Terry. Born in Washington an un-stated number of years ago, the actor has been connected with show business is some capacity practically all his life, and has been playing Gilbert and Sullivan roles a majority of this time. He is the owner of the program "Gilbert and Sullivan in Song and Story", which has played to more than two million men and women of the armed forces.

Mr. Terry In Lead

Mr. Terry has a repertoire of fifty-two comic roles in light and grand opera. His keen sense of humor and remarkable stage personality have made him a leader in the field of comic opera, and his pleasant off-stage personality and good nature make him a most likeable person.

When questioned concerning the Tech-Scott performance of the operetta, Mr. Terry expressed pleasure and gratification at the comprehension and capability of the cast. He was particularly pleased with the fact that practically all of the musical difficulties had been mastered before his arrival, leaving him time to polish the dialogue and "stage business" without a large amount of work on the individual songs. Concerning the final presentation of the production, he stated, "I think the students will put on an excellent show—one of which both schools can be proud."

Radio Club to Sponsor Code and Theory Class Starting March 29

The Tech Radio Club in expanding its activities announces plans for forming code and radio theory classes for the purpose of preparing interested students for an amateur radio operator license the first of next quarter. Classes will be held at 10:00 a. m. Monday through Friday in Room 7 of the Military Building beginning March 29.

The club urges students wishing to take the course to keep in mind this time in making out their schedule for next quarter as each class will be limited to 20. However, if more men apply, additional classes will be formed as needed.

Not only students who are interested in radio as a profession but also those who want a worthwhile hobby, those who want an extra-curricular activity that is also fun are requested to apply.

With two transmitters in operation, two others on the way, and plans for some elaborate antenna systems, the club will offer complete facilities for the amateur and all at the small cost of club dues.

"Come one, come all," the club says, "you too can become 'dit happy' from the code, you too can learn of the practical side of that mysterious radio

that spans continents, saves lives, and brings hours of pleasure."

Those interested contact Don Napoli, Box 5377, or come to the next club meeting Monday night at 7, third floor of the EE Building.

Memorial To "Sideways" To Be Dedicated Mar. 11

The monument to "Sideways" has arrived. Roy Barnes, Student Councilman, announced Tuesday night that the marble marker for the grave of Tech's canine mascot reached the campus last week. Plans for appropriate dedication ceremonies are being made to be held March 11 at 11 a.m.

"Sideways," so named for her angular acceleration, was a familiar friend to Tech students until last summer when she suddenly died, apparently from poisoning. She was buried by a group of students in the plot between the Textile Building and the Post Office.

After her death several students decided it would only be fitting to obtain a marker for her grave. Proceedings by the Student Council and a special committee headed by Roy Barnes brought about the donation of a marble stone from the McNeel Marble Company of Marietta. The marker was then sent to Chicago where a stone engraving concern etched a likeness of "Sideways" upon it. It has just returned from there.

She got her name from her strange gait with her head and shoulders about 15 degrees out of phase with her tail section. This was due to an injury received when she was thrown

from a car in front of the "Varsity." In fact, "Sideways" was so seriously injured that she would certainly have died had not it been for the kindness of a neighborhood lady who nursed her back to health.

Her life at Tech was not without excitement. Escapades with the police and dog catchers, interviews with local newspapers, and kidnappings by Georgia students were common to her.

And the job she did as a morale builder for neophyte engineers will long be remembered. May she rest in peace!

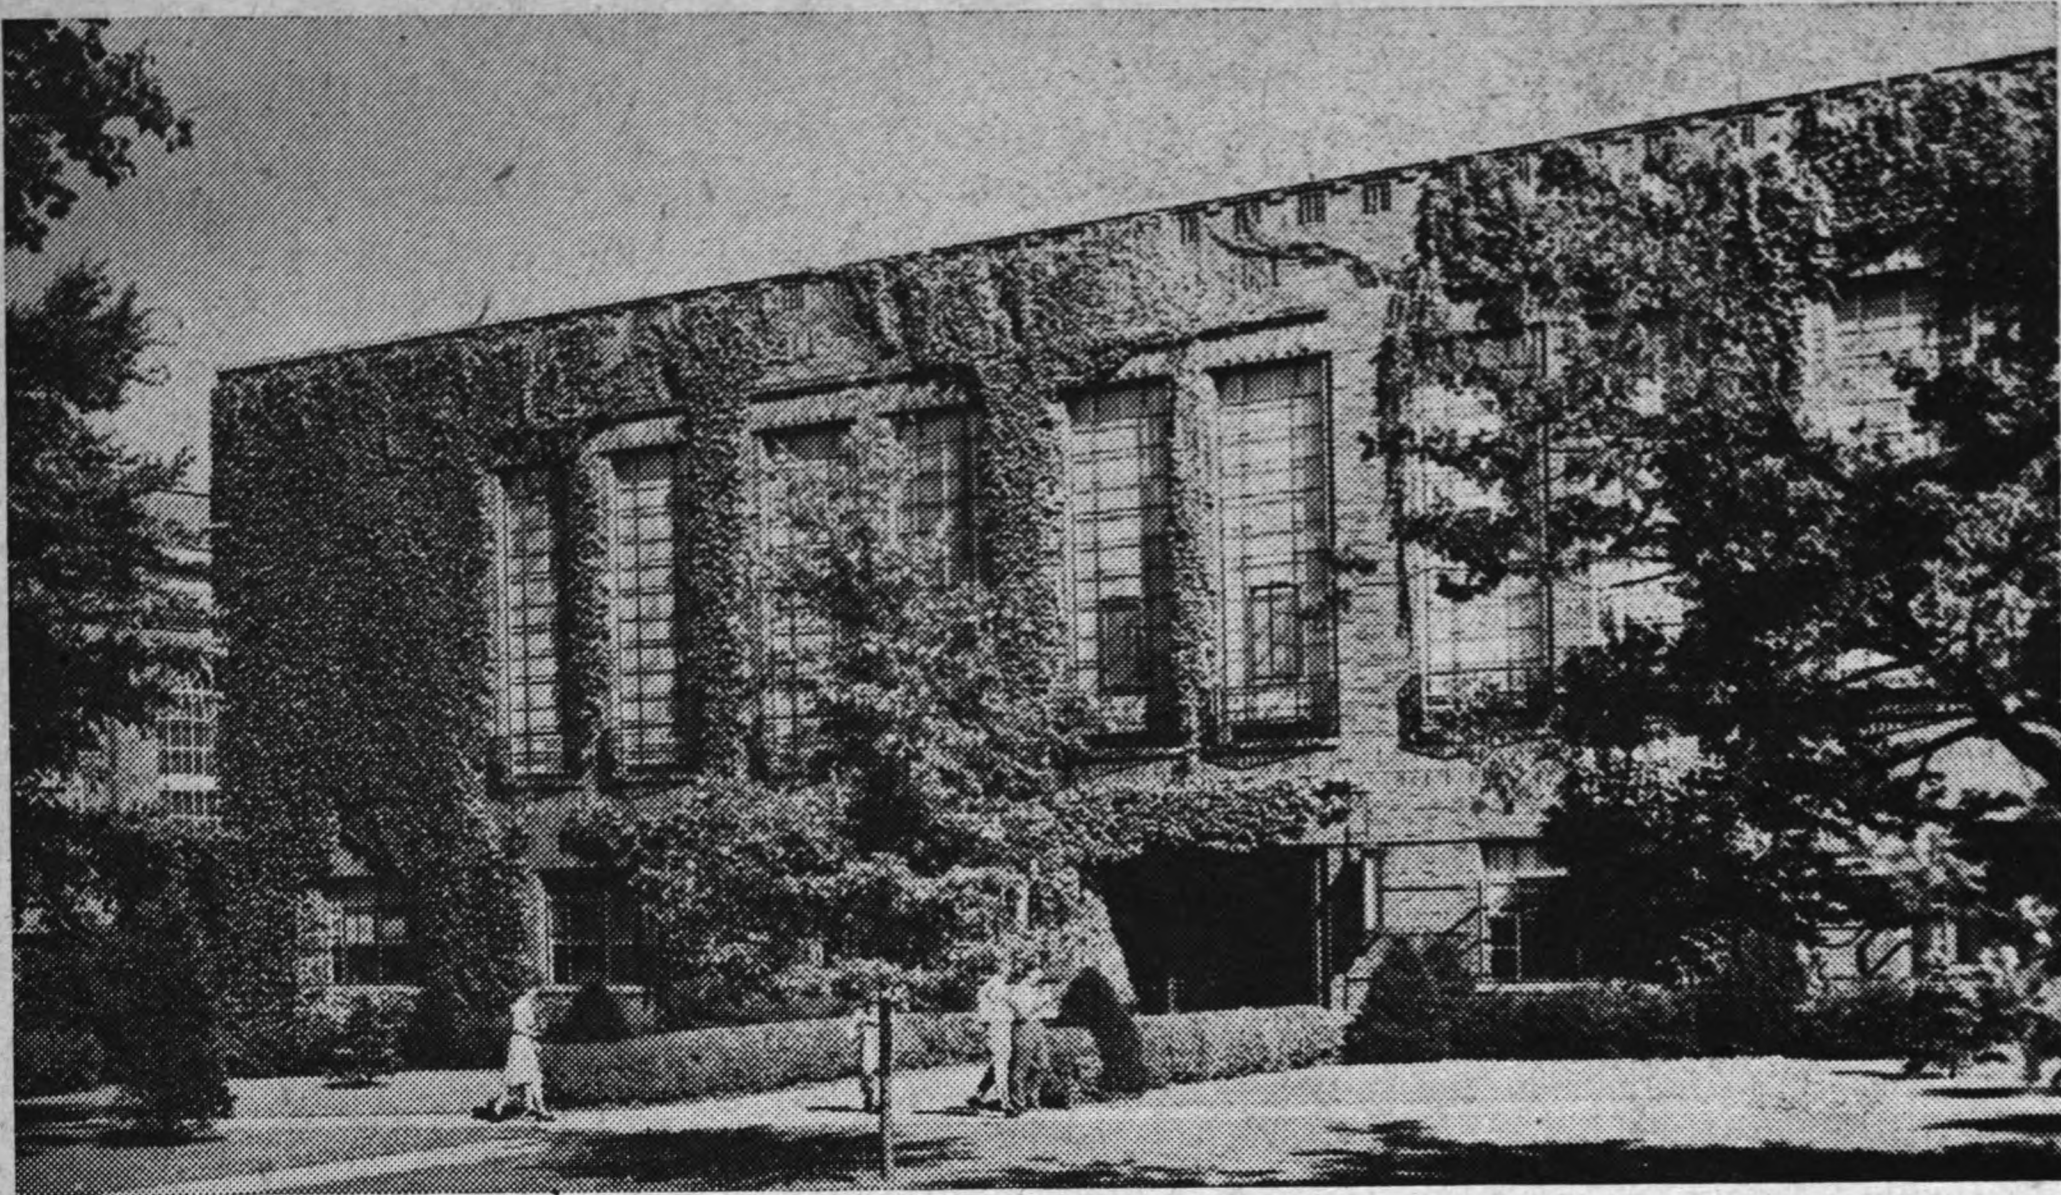

Radio Club Will Meet Next on Mon., March 7

The next meeting of the Ga. Tech Radio Club will be held on the third floor of the EE Building Monday night, March 1.

In addition to the regular business meeting there will be included a short talk and a demonstration of radar by Professor M. A. Honnell.

All amateurs on the campus are especially urged to attend and any students interested are invited.

The door prize, a high-speed keying relay has been donated by Specialty Distributing Co.

Typical Union Building—University of Kentucky

Description of Kentucky Student Union Bldg. Given

"What is a Student Union Building? What purpose has it? What's in it for the students' benefit?" These questions and many others arise on the campus whenever a discussion of a proposed building for Tech takes place.

This is the first in a series of weekly articles on Student Union Buildings at other campuses. Pictures of these buildings will be included each week with the articles in order to arouse the interest of the student body in such a project.

The first Union Building of this series is that at the University of Kentucky at Lexington, Ky. This building consists of a ground floor and two upper floors and has the dimensions of 144 feet by 156 feet.

An air-conditioned ballroom on the top floor which is used for banquets, dances and large meetings is one of the highlights of the University of Kentucky building. A cafeteria, also air-conditioned, is located on the ground floor, in addition to a separate dining room. Also on the ground floor are a barber shop, lounges, and a grill.

Located on the second floor are small meeting rooms, a music room, card room, game room, reading room, YWCA, YMCA, alumni offices, lounges, and conference rooms. The game room includes ping pong, pool, checkers, and chess equipment. Both popular and classical records are in the music room for the students' enjoyment.

The major portion of the top floor consists of the ballroom. Additional conference rooms and lounges are located on this floor, along with a promenade and mezzanine. In addition to stairways, elevator service is provided.

ROTC Summer Camp Locations Announced

According to information recently received by the Military Department, the ROTC summer camp locations for 1948 will be widely scattered over the eastern and southeastern states.

Signal Corps, Fort Monmouth, N. J.
Chemical Corps, Edgewood Arsenal, Md.

Corps of Engineers, Fort Belvoir, Va.

Infantry, Fort Benning, Ga.
Ordnance, Aberdeen Proving Grounds, Md.

Artillery, Fort Bragg, N. C.
Location of the Air ROTC camp has not yet been announced but will probably be at Orlando Air Base, Orlando, Fla.

The duration of all camps will be six weeks. Cadets will report to their respective camps by midnight, June 19, and depart by midnight, July 31. Training will commence on June 21.

Lost Articles Sale To Be Held Monday At Information Desk

On Monday, March 1, at 12 noon, Alpha Phi Omega and the Public Relations Department will hold another Auction Sale of unclaimed articles lost at Georgia Tech.

The Auction Sale held last December brought in over ninety dollars, which was donated to the Student Activities Building Fund. This sale promises to be bigger and better than the last.

All lost and found articles will be turned in to the Information Desk in the Administration Building. So if you have lost anything, claim it before 12 noon, March 1, or forever hold your peace.

HOTEL ORGANIZATION WILL MEET TUESDAY

The newly formed chapter of the Junior Hotel Men of America will meet Tuesday night, March 2, at 7:00 in room 8 of the YMCA.

All members are requested to be present. Discussion of plans for a social function to be held in the near future and other important business are on the agenda.

Proper Use of Army Uniforms Described In 'Military Laws'

In an effort to clarify questions which continue to be asked regarding the proper use of the prescribed uniforms of the respective armed forces, extracts from the "Military Laws of the United States, 1939," with appropriate interpretations are available at the Tech Military Department office on Third Street.

Military Law 2148 reads as follows: "Army uniform; unlawful wearing.—It shall be unlawful for any person not an officer or enlisted man of the United States Army, Navy, or Marine Corps to wear the duly prescribed uniform of the United States Army,

Navy, or Marine Corps or any distinctive part of such uniform, or a uniform, any part of which is similar to a distinctive part of the duly prescribed uniform of the United States Army, Navy, or Marine Corps."

"Any person who offends against the provisions of this section shall, on conviction, be punished by a fine of not exceeding \$300.00, or by imprisonment not exceeding six months, or by both such fine and imprisonment."

In recognition of the current limitations being experienced by our textile (Continued on page 5)
