

## Dance That They May Walk

Tonight the Student Council will sponsor a campus-wide dance in the gym for the benefit of the Infantile Paralysis Fund. For it to be a success, and for Tech to be able to say it contributed its share, the students must come and support it.

There should be no necessity of an appeal for such a cause. We should be glad to give what we can, and be thankful for the opportunity to help fight infantile paralysis by merely enjoying ourselves.

If you have a date so much the better, but if you don't, come anyway. Support your Student Council and its effort to provide entertainment for you, and give a little so that others may dance some day too.

## Housing Office Ready To Receive Applications For New Apartments

The Housing Office located in Knowles, Room 106, is now ready to receive applications for apartments in the Burge (North Avenue) and Callaway (Tenth Street) Apartment Buildings, according to Robert Strite, Comptroller.

It is expected that the Callaway Apartments will be ready for occupancy about July 1 and the Burge Apartments about September 1.

Units are of varying size ranging from efficiency units consisting of one room with a roll-a-way bed, kitchen and bath, to three bedrooms, combination living-dining room, kitchen and bath.

All apartments will have electric ranges and electric refrigerators. All utilities (except telephone) are included in the rent.

Most of the units will be furnished with basic furniture, but some will be available unfurnished.

Rents furnished will be as listed below. The unfurnished apartments will be somewhat lower, but the exact amount has not been determined.

Efficiency	\$45.00
3 Room (1 Bedroom)	67.50
4 Room (2 Bedroom)	78.00
5 Room (3 Bedroom)	85.00

The three room unit has a roll-a-way bed in the living room, in addition to the bedroom.

There will be no provision for adjusting these rents downward on a basis of low income as is done at Marietta. Any occupant terminating his connection with Tech will be required to vacate.

The purpose of the present request for applications is to develop information as to the probable demand for units of various sizes so that a plan of assignment can be developed that will result in the most effective use of Tech's housing facilities for the benefit of all those at Tech.

No determination has been made as yet as to the number of these units that will be available for faculty or

(Continued on page 2)

## IRC Scheduled To Reorganize Tuesday Night

**Prof. Max L. Hibbs Leads Reorganizing**

A reorganization meeting of the Georgia Tech Chapter of the International Relations Club will be held Tuesday, February 4, at 7:00 p. m. in room 206 of Swann Hall, it was announced by Professor Max L. Hibbs, faculty advisor for the organization.

At this, the first meeting of the current quarter, officers will be elected and installed to serve for the remainder of the school year. In addition, plans will be begun for the club's activities and programs for the present quarter.

Professor Hibbs also announced that a Southeastern IRC Conference will be held sometime during the last of March. As yet, the site and final plans for this conference have not been made definite.

The International Relations Club, created on the Tech campus for the purpose of stimulating students' interest in current international events, extends a cordial interest to all students, both old members and those unfamiliar with the organization, to attend the initial meeting of the current quarter and all other meetings to be held every other week throughout the term.

Students who would like to join the IRC but will not be able to attend the reorganization meeting can secure membership by contacting Professor M. L. Hibbs of the Economics and Social Science Department in Swann Hall.

## Captain Briggs, Tech NROTC Head, To Command Carrier

Captain Josephus Asa Briggs, USN, commanding officer of the Tech Naval ROTC unit since June, 1946, has been ordered to assume command of the USS Tarawa, an aircraft carrier, on or about February 15.

Commander Holmshaw will act as commandant until another is appointed.

Captain Briggs served as chief of staff to the Naval Air Technical Training Command from July, 1943, to November, 1944. For approximately a year thereafter he commanded the USS Hoggatt Bay, an escort carrier, which participated in operations around the Philippines and at Okinawa, and in the occupation of Japan.

During the earlier part of World War II, Captain Briggs commanded a seaplane tender, the USS Varngat, which took part in Russian convoy operations. He participated in the first African invasion in November, 1942, and became commanding officer of the Naval Air Station, Port Lyautey, French West Morocco.

## Student Council Charity Dance Tonight Features Johnny Mack

Chris Hadley is appearing tonight at the March of Dimes dance with Johnny Mack and his orchestra. Chris is a former Power's model turned songbird and a welcome addition to the Johnny Mack aggregation.

## Proceeds Go To March of Dimes

By Tom Crossley

Tonight from eight to twelve Johnny Mack and his orchestra will play for the Student Council's charity dance in the auditorium-gymnasium. Price will be a dollar eighty, stag or drag.

Johnny Mack's orchestra is now making its bid for national acclaim, having played in some of the nation's best entertainment places. Johnny played a season's engagement aboard the S.S. Capitol, going from New Orleans to Duluth, and another season aboard the S.S. President, on the same route.

His orchestra consists of nine pieces and a girl vocalist, Chris Hadley. There are three saxophones doubling clarinets, three trumpets, a piano, bass, and drums.

### Two Vocalists, a Pianist

One of the features on Johnny's program is Don Angelo, the orchestra's top pianist. His repertoire consists of both boogie woogie and the classics. Chris Hadley, the songstress for the group, and former Powers model will be on hand to dish out the lyrics, as will Ralph Sanzo, the top trumpeteer of the outfit and the male vocalist.

Johnny and his orchestra hail from New Jersey. Most of their work, however, has been in the southeastern area. Some of the other places that have billed the group are: LaSalle Hotel, Battle Creek, Michigan; Surf Room, Savannah Beach, Georgia; and night spots in Jacksonville, Richmond, and Birmingham.

### Proceeds To March of Dimes

Proceeds from the dance will be contributed by the Student Council to the March of Dimes fund. This is the fund started by Franklin Roosevelt in 1938 for the Americans who are stricken by infantile paralysis. This campaign of 1947 started January 16 and will continue through January 31. Leaders of the foundation hope to raise \$100,000 in Georgia alone. The figure for the national goal is twenty-four million dollars.

Last year was the nation's second worst year in paralysis, over 25,000

(Continued on page 2)

## Pi Delta Epsilon Elects Love President for '47

At a recent meeting of Pi Delta Epsilon, national honorary journalistic society, Erskine Love was elected to serve as president for the remaining part of the school year. Other officers elected were Al Newton, vice-president; and Tom Crossley, secretary-treasurer. Niles Millsap, editor of the TECHNIQUE, is the retiring president.

Thirteen members of Tech's four different publications were elected to membership in the society. Only those students who, by their work on and interest in the publications of Georgia Tech, have demonstrated a sincere desire to aid the furthering of journalism are eligible for election.

Plans for this quarter and the next include monthly dinner meetings with prominent journalists as guest speakers.

Initiation for the new members will be held Monday, February 10, and a banquet will be held on Saturday, February 22.

The new members elected recently are as follows: Mark Brabant, Fred Wolf, Joe Torcassi, Hank Caulkins, Jim Williford, Dick Miller, Wally Buchanan, George Klinefelter, Dick Athley, Len Murrans, Tom Elfe, Bob Rabun, and Jimmy Elsinger.

## U. S. C. G. to Interview Interested Candidates

A representative of the U.S. Coast Guard will be at the Naval Armory on February 7 at 8 p. m. to interview candidates interested in taking the competitive examination for appointment to the Coast Guard Academy.

## BETWEEN QUARTER HOLIDAY EXTENDED FOR TWO DAYS

Registration for the Spring Quarter has been extended for two days. Students may register on March 24 or 25, and classes will begin March 26.

This was decided by the Administrative Council which met Wednesday.

This move has the effect of lengthening holidays between quarters for two days. The Student Council made this request. The Council also asked that the holidays between spring and summer quarters be extended, but as yet nothing has been heard on this matter.

## Air Station Student Wounded by Pistol

A Tech student residing at the Naval Air Station was shot through both legs last week when a .45 calibre pistol was accidentally discharged while being examined by several of the students. The bullet passed through both legs of the student, breaking the bone in one leg. He was taken to the veterans's hospital, and he was operated on Saturday morning. The last report from the hospital stated that his condition was not serious.

Dean Phil B. Narmore, in commenting on the incident, stated that all students must remember that possession of fire-arms in any school-owned dormitory or apartment is a shipping offense.

## Briefs

Co-op freshmen at NAS are urged to attend a meeting to be held 8:00 p. m. in Building 13, Monday, February 3.

\* \* \*

There will be an important meeting of the IM Society Wednesday, February 5, at 4 p. m. in room 217 of Swann Hall. All members please be present.

\* \* \*

There will be a meeting of the Tech chapter of American Association of Textile Chemists and Colorists in the Textile Building Tuesday, February 4, at 4 p. m. All textile students are urged to attend.

\* \* \*

There will be a meeting of the Georgia Tech Chapter of the American Veterans Committee on Monday, February 3, at 7:00 p. m. in room 5 of the Tech YMCA. All members and their friends are invited to attend. Members who have not yet picked up their pins can do so at this meeting.

## Movie Production of Henry V Endorsed From All Quarters

Henry V, English movie of Shakespeare's play, will begin its run at the Peachtree Art Theater January 31. Tickets at reduced prices have been placed on sale at the information booth in the Administration Building.

Tech's English Department has endorsed this movie. In a recent meeting of movie critics and authorities, Henry V was voted the outstanding foreign motion picture of the year.

## Dramatic Group Begins Work On First Production

The dramatics group has begun work on their first production of the year. The parts have been cast and rehearsals are scheduled to start the first of next week. The first production, consisting of a bill of one act plays, is to be presented early in March.

There will be a meeting of the dramatics group Tuesday, 5:00 p. m. at the YMCA. All members are urged to be present. All other students interested in such work are also invited to attend.

## Apartments—

(Continued from page 1)

employees, or as to what priorities, if any, will be given. These decisions will be made following the receipt of the applications now being requested.

Definite assignments will not be made until the completion date of the various units is more accurately known, and probably not until about May 1.

Plans may be seen at the housing office.

## Council Dance—

(Continued from page 1)

people being stricken. The worst year was 1916. At present the Georgia division of the foundation is spending some eighteen thousand dollars each month for the upkeep of the hospitals over the state, including the Warm Springs Foundation, in Warm Springs, Georgia, where Roosevelt found relief for his illness.

The national President of the Foundation is Basil O'Connor, one of Roosevelt's law partners before he was elected Governor of New York, and a constant friend of the late President. Mr. O'Connor is also President of the American Red Cross.

### W. K. Jenkins Heads Georgia

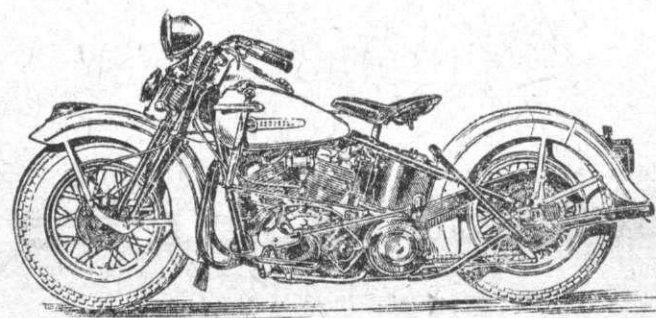

Georgia leader of the campaign is William K. Jenkins, of the Georgia Theater Company. A note here is that about one-third of the proceeds for the fund over the entire nation is donated by theater audiences.

An infantile paralysis clinic is now located in Henry Grady Hospital here in Atlanta. Another is in Savannah.

Last year epidemics hit North Carolina and Florida, and Georgia health authorities were forced to place everyone coming from Florida to Georgia under quarantine. Ga. Tech students were caught in this situation, and many could not go home because of the relatively short vacation they were allowed. The quarantine here in Georgia would have killed most of their time.

Last year Emory University was granted 160,000 dollars for research in physical medicine. The grant was made by the Infantile Paralysis Foundation.

## Omicron Delta Kappa Plans For Student Union Building

Money is being raised by the Georgia Tech Chapter of ODK to finance plans and specifications for a new student union building on the Tech campus. This building will contain offices for all the school publications and have conference rooms in which various campus organizations will hold meetings.

ODK hopes to raise ten thousand dollars to finance these plans. Several weeks ago they sponsored a play at the Erlanger theater. A portion of the proceeds was set aside for ODK. Another money making program to be sponsored is the publication and sale of post card folders depicting scenes on the Tech campus. These

folders will sell for twenty-five cents.

After this original money is raised a committee will be appointed to study methods of financing the construction of the building.

Tech's ODK chapter is promoting other projects at the present time. Several bids have been received by them concerning the air conditioning of the ODK banquet hall.

A committee is also working on a revision of the point-merit system for admission into ODK. This revision was necessitated by the change-over from the semester system to the quarter system. Nothing definite has been decided as yet although several plans have been submitted.

In three or four weeks this revision will be completed but won't be used until approximately the middle of the spring quarter when election of new members will take place.

## Employment Assistance Given Grads By School

On January 2, 1947, the job replacement service which is offered to all graduate students and seniors of March 21, 1947, June 11, 1947, and August 31, 1947, by Georgia Tech was reopened, according to Mr. F. W. Ajax, Associate Dean of Students. This service is offered to help the men in contacting companies that are best suited to the individual's qualifications and desires in the line of employment.

In December of 1946, the Office of Dean of Students contacted over one thousand companies and informed them of the number of students that were to be graduating and of the fields of these men. These institutions were invited to send representatives to the Tech campus to interview these students.

At the same time all seniors and graduate students were contacted and informed of this service. They were instructed that from time to time there would be notices regarding employment opportunities and interviews sent to them by way of their Tech post office boxes.

### Interviews

Upon receipt of these lists any student interested in an interview by one or more of these companies listed is to circle those companies and write his name, degree, and post office box number on the list and turn it in to the Office of Dean of Students. With this list a qualification record is to be made out for each company by which the person desires to be interviewed. Each qualification record must be accompanied by one 2 1/2 x 2 1/2 photograph.

After this is done the student is then notified of the date and time of the group interview. At this time all men who designated that they are interested assemble and the representative of the company concerned gives an outline of the positions open and answers general questions. After this talk, those students who are no longer interested are dismissed. Those who are still interested are scheduled for an individual interview.

### Personal Aid

If the student does not find the name or type of company that he is particularly interested in, or if he needs assistance in following an individual lead, the student should go by the Office of Dean of Students for personal help in correspondence or contact with the organization concerned. Naturally, the Office encourages personal initiative on the part of individuals to secure their own positions.

It is hoped that this service conjugated with prompt cooperation of the students will lead to an expansion of the school's employment service and thus lead to putting Georgia Tech graduates in key positions of all national industries.

## Textile Students Activate Phi Psi, Honorary Group

The National Honorary Textile Engineering Fraternity, Phi Psi, has been inactive during the war years. Recently it has been reactivated, however, and shall soon function in the strength of its pre-war days. The requirements in the past have been:

1. At least a sophomore in the Textile Department.
  2. A minimum point average of 2.0.
- The object of this organization has been to advance the work of textiles

right here in the A. French Textile School and to prepare a display of textile work for the Annual National Convention. There are, in all, nine other chapters of this Fraternity throughout the country.

### A.A.T.C.C.

The student chapter of the American Association of Textile Chemists and Colorists is now functioning in the Textile Engineering Department. The purpose of this Organization is:

1. To promote increase of knowl-

## Bridge Tournament To Be Held Feb. 7-8

The campus-wide bridge competition will be held the week-end of February 7 and 8. This date was set in view of the pending regional play-off of the Southern Zone which must be held on February 12, 13, or 14, in accordance with the rules of the National Bridge Tournament Committee.

The four winning teams of the local contest will present Georgia Tech in the Southern Zone playoff to be held here.

Registration for all entries closes February 1, 1947.

edge of the application of dyes and chemicals in the Textile Industry.

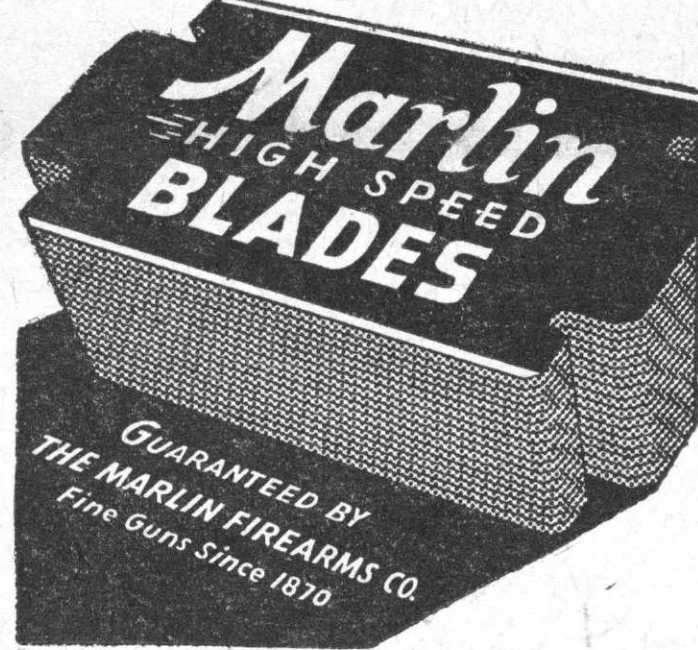

2. To encourage in any practical way, research work of importance to the Textile Industry.

3. To establish for the members channels by which the interchange of professional knowledge among them may be increased.

This organization attains its objectives by having distinguished men in the Textile field speak about contemporary advances in the Industry, by having motion pictures on various processes, and by having planned trips to mills and other points of interest in the Textile Field; as well as having informal student discussions.

The requirements for student membership consist only of being interested in the field of Textiles or Textile Chemistry, and paying the Student Membership fee of \$2.50.

## IRE Plans Broadcast Institute For Radio Men During April

In view of the many new developments in radio broadcasting and television during the past few years, the Georgia Association of Broadcasters and the Georgia Chapter of the Institute of Radio Engineers in cooperation with Georgia Tech are sponsoring a Radio Broadcast Engineering Institute in Atlanta, Georgia, April 14-18, 1947. Professor M. A. Honnell, who is in charge of the communications and electronics section of the Department of Electrical Engineering at Georgia Tech, has been selected by the sponsoring agencies as general chairman of the Institute.

Patterned after the Ohio State University national conference, which will not be held this year, the Georgia Tech Institute plans to have the outstanding experts in the various fields

or radio broadcasting cover the latest developments in studio design and equipment, antennas, recording and reproducing, frequency modulation systems, facsimile broadcasting, and television studios, studio equipment, transmitters and receivers. The committee expects an attendance of more than 250 chief engineers, operating engineers, managers, and others from southern radio stations.

Arrangements are being made to provide space wherein manufacturers can exhibit and demonstrate the latest types of radio broadcasting and television equipment. Participants in the meeting will also have an opportunity to visit the studios and transmitters of the five Atlanta radio stations as well as the modern F.M. transmitter at Georgia Tech.

## 5,175 Students Rejected By Tech During 1946; Enrollments Reach 5,620

During 1946 the school was forced to reject more than 5,000 applicants from out of state, but accepted all applicants from the State of Georgia except 175, of whom 125 have been accepted for the Spring Quarter starting in March, 1947, and 50 were rejected because of failure in meeting the school's entrance requirements.

A record enrollment of 5,620 students has been enrolled for this quarter.

## Twenty-One Instructors Added To Match Record Enrollment

Twenty-one full-time and part-time instructors and consultants were added to the faculty last week with the approval of the Board of Regents.

Dr. Robert S. Ingols, Newark, N. J., with degrees from Rutgers University, Columbia University and Bucknell University, has joined the chemistry department as a research associate. Dr. Raymond S. Crispell, Kingston, N. Y., a graduate of Cornell University, has been named consultant in neuropsychiatry. The Department of Public Health Engineering has obtained as consultant and part-time associate professor of biology; Dr. Emory G. Lower, New Virginia, Iowa, with degrees from Missouri Wesleyan College and the University of Tennessee. The Chemical Engineering Department has been augmented with the addition of Frank Ford, Augusta, Ga.

Dr. Homer S. Weber, head of the Department of Mechanical Engineering, has added two outstanding engineers to his staff. They are Joe L. Morris, Savanna, Okla., University of Washington, as associate professor, and Frank W. Stopinski, Jr., Middlesboro, Ky., Georgia Tech, as an instructor. Professor H. E. Dennison, head of the Department of Economics and Social Science, reports two additions, Morris J. Hardwick, Osceola, Ky., Teacher's College (Bowling Green, Ky.) and Peabody College, as assistant professor, and Vincent H. Anderson, Sececa, S. C., University of North Carolina, Yale University,

and University of Richmond, as an instructor.

The staff of the Department of Industrial Engineering has been increased with an instructor, Bruce M. Smith, Portland, Ind., Purdue University. M. J. Moody, a native of Mullins, S. C., and a graduate of Wofford College, became an instructor in the English Department.

The Department of Engineering Drawing and Mechanics has been augmented with four instructors. They are James H. Whitfield, Atlanta, Ga., Georgia Tech; Henry F. Gaydos, New York, N. Y., Georgia Tech; Bennett A. Hutchinson, Jr., Atlanta, Ga., Georgia Tech (part-time); and George W. Rogers, Ocilla, Ga., Georgia Tech (part-time).

In order to take care of the great number of freshmen taking mathematics, the department head, Dr. D. M. Smith, has increased his staff to 43 with seven part-time instructors. They include D. P. Anderson, Atlanta, Ga.; T. L. Brownley, Portsmouth, Va.; S. N. Chasen, Richmond, Va.; E. H. Covington, Americus, Ga.; N. R. Henry, Stockbridge, Ga.; A. E. Joens, Manilla, Iowa; and Charles B. Moore, Amory, Miss. In addition to teaching, these men are also studying at Georgia Tech, in many cases for advanced degrees.

### Dr. Paty, Chancellor

Dr. Raymond Ross Paty, new chancellor of the University System of Georgia, was a guest of the Administrative Council Wednesday, January 29.

## Athletic Tests Thwart Jackets In First Trial

### Try Only Eight Of Fifteen Tests

Georgia Tech gridders found the going a little too rough Thursday in tryouts for the national honorary athletic fraternity Sigma Delta Psi, and not a one of the Jackets could qualify for membership.

Lyle Wesler, head of the Tech chapter of Sigma Delta Psi, was in charge of the tests and he laid down the rigid rules required by the organization. Of the fifteen tests required for membership, the Tech boys attempted only eight. Two of the tests, the rope climb and handstand test stopped the whole group, not a single player passing.

Some of the hapless Jackets who participated in the tests were George Brodnax, Jack Griffin, Dinky Bowen, Clay Mathews, Johnny McIntosh, Walter Jerkins and Bob Davis. These men, all holding letters in Ga. Tech sports will be allowed to substitute one varsity letter for one of the 15 requirements.

The players will attempt the tests again on February 7.

Here are the requirements for membership in the organization, as stated by Lyle B. Welser, associate professor of physical training and chairman of the Tech chapter:

1. 100-yard dash—11 3/5 seconds

## Zeta of Alpha Epsilon Pi Initiated Nine Members Last Saturday, Jan. 18

The Zeta chapter of Alpha Epsilon Pi fraternity held an initiation for nine new members at the Center on Saturday night the eighteenth of January. The initiation was followed by a party in their honor with dancing and charades furnishing the entertainment.

The initiates were: Richard Lazar, Marvin Lazarus, Julian Schoenberg, Norman Sturm, Milton Bach, Paul Diamond, Aaron B. Rosenthal, Bernard Mazelsky, Perrin Taylor.

Of these, Rosenthal, Mazelsky and Taylor were former members of Sigma Gamma, the local fraternity that became an A.E.Pi chapter here. A.E.Pi also announces the pledging of two men, Ben Loewinsohn and Harry Sager.

2. 120-yard low hurdles—16 seconds
3. Running high jump—5 feet
4. Running broad jump—17 feet
5. 16-pound shot put—30 feet
6. 20-foot rope climb—12 seconds
7. Baseball throw—250 feet or javelin throw—130 feet
8. Football punt—120 feet
9. 100-yard swim—1 min, 45 seconds
10. 1-mile run—6 minutes
11. Front handspring, landing on feet
12. Handstand—10 seconds
13. Fence vault—chin high
14. Good posture—Standard B (H.B.M.)
15. Scholarship—Eligible for varsity competition.

## Student Council Minutes

January 28, 1947

The meeting was called to order at 7:30 p. m. by President Turner. Twenty members were present, and absent were J. Bain, A. Ingram, and R. Davis.

The College Unit Plan of the American Red Cross was outlined by Mr. Gates, and his discussion included a summary of the work such a College Unit would do on the campus. Discussions were opened on the ability of Tech to sponsor a chapter and the Service Committee of the Council was appointed to report its findings at the next meeting.

R. Bridges was introduced to the Council as a temporary member to serve for the duration of C. Cooper's leave of absence.

The Dance Committee reports by D. Johnson gave the details of the Student Council Dance to be held February 1, 1947. Tickets for the dance go on sale Thursday, January 30.

A temporary committee of M. Hochmuth and R. Barnes was appointed by President Turner to investigate the distribution of new housing facilities now under construction.

E. Holcombe presented the results of the drive to remove the screen doors of the College Inn and alleviate traffic through the post office.

A report on the dining hall was given by J. Gilliam.

The following changes in committees were made: J. Faulkner to serve on Constitution Committee; H. Westbrook to serve on Service Committee; A. Joens and R. Davis to serve on Dance Committee.

R. Wilhelm presented for ODK the estimates on air conditioning units for the ODK Banquet Hall. The motion by D. Mader that the Student Council appropriate \$700 to the ODK Banquet Hall, to be withheld until sufficient funds to cover the balance and installation costs have been appropriated by the faculty, was tabled until the next meeting.

Discussion was opened on the delivery of telegrams and what could be done to improve the present situation.

J. Faulkner announced that the proposed plan for a campus-wide public address system would be presented to the faculty at their next meeting.

The meeting was adjourned at 9:00 p. m.

Respectfully submitted,  
JOE S. GILLIAM, Secretary.

# Olivier Brings History to Life In Screen Version of Henry V

by Dr. William G. Perry

"May we cram  
Within this wooden O the very  
casques  
That did affright the air at  
Agincourt?"

Such was the apology and complaint that Shakespeare made to his Londoners at the Globe Theater three and a half centuries ago. And such is the problem which ever since has fronted every would-be producer of "Henry V." I recall a production by William Faversham, a good many years ago now. Faversham was a brilliant actor; his show was a rich and stirring thing—until it came to the Battle of Agincourt. Then the best the New York stage could give was a tableau. It was a picture as gorgeous in color, as tense in poised motion as a Delacroix canvas; but it was something for the art museum and not for the playhouse. It remained for Laurence Olivier and the new medium of the film to solve the problem. As he presents "Henry V", it is no mere picture of a battle flashed on the screen; the Battle of Agincourt itself storms across the vision—Agincourt, where the English yeomen humbled the mailed chivalry of France and the twanging strings of their longbows sounded a requiem to feudal warfare.

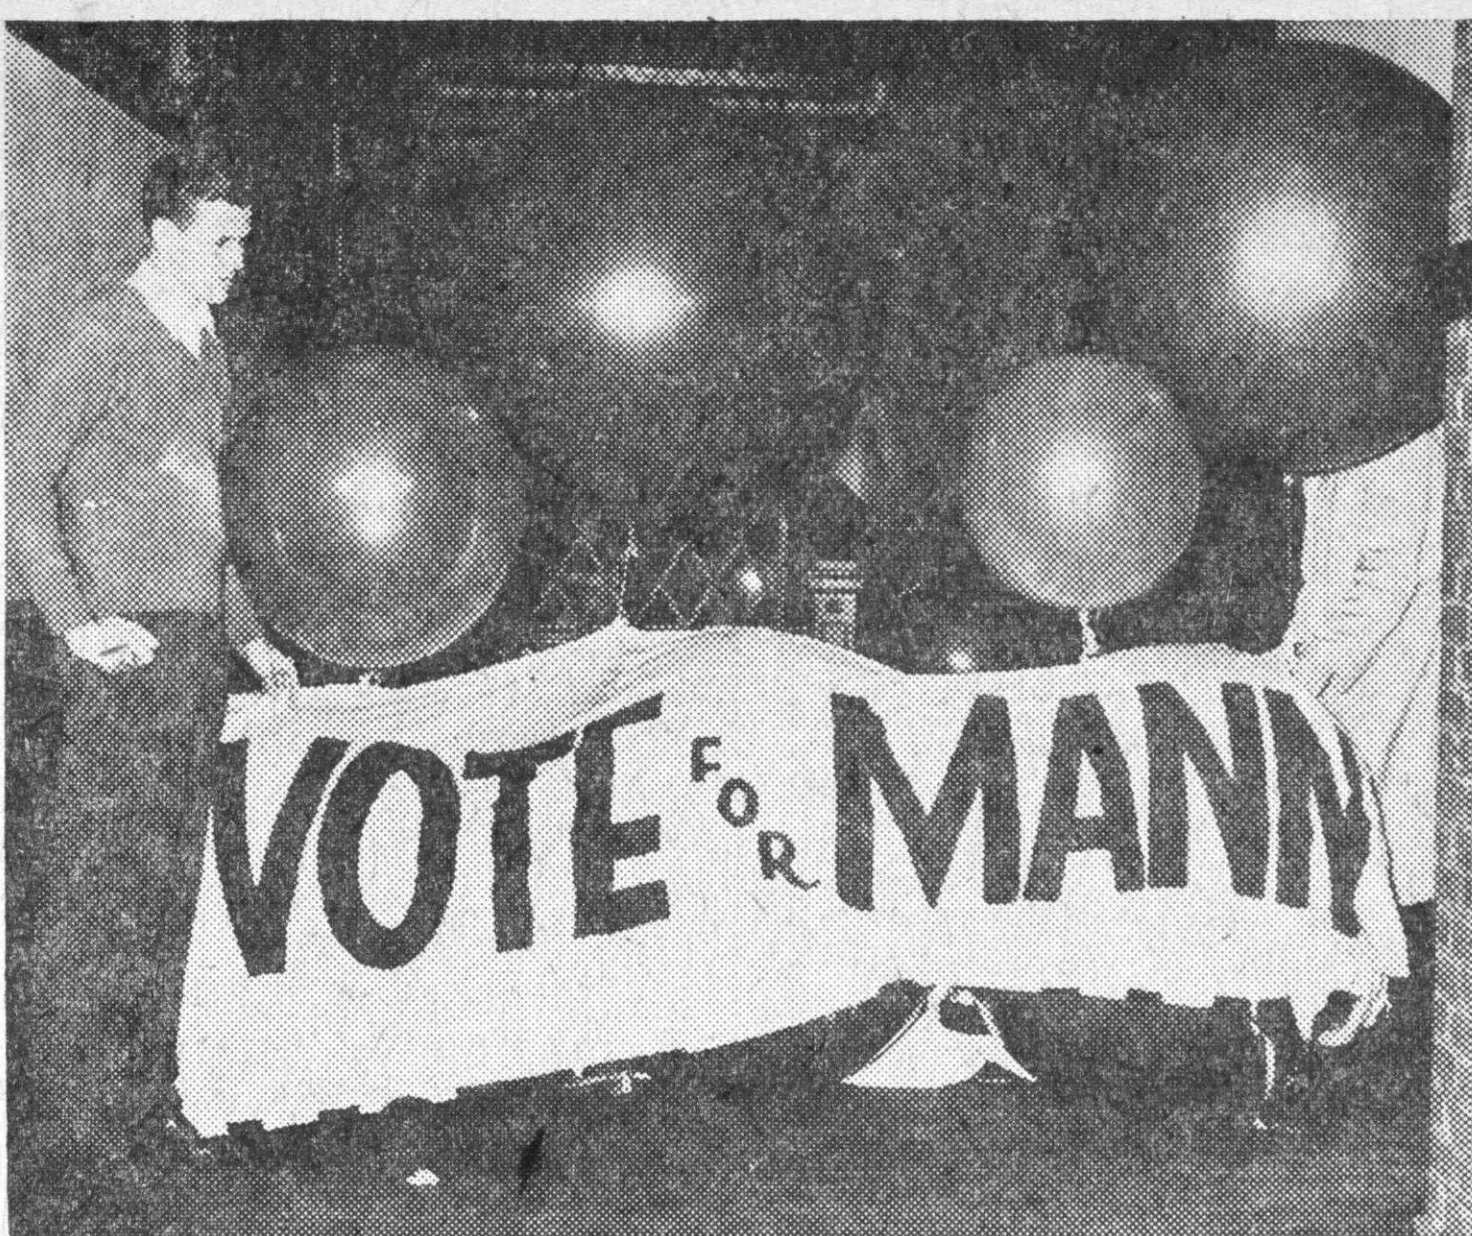

Throbbing though it is with vigorous action, "Henry V" is not notable for its story. But the "story" was not what Shakespeare cared for, or what we care for, about the play. What matters is King Henry, that broadly human great monarch whose unfolding Shakespeare traces with such loving care through the two parts of "Henry IV" and brings to a culmination in "Henry V". Here Henry is at the apex of his splendid career. The wanton days of his youth are well past; he is now king—every inch a king. A great military leader, a wise statesman, he is a man of deeds, not words, not too finely tempered to be in touch with his people. For all his princely dignity, he has not forgot how to jest. He can be stern; but there is a depth of tenderness in the man too, and a bedrock of moral consciousness.

Olivier is rarely fitted to interpret the character: he has the intelligence to understand the King and the physical qualities convincingly to portray him. Comely to look at in face and form, he has a voice of rich and lovely resonance. One will not easily forget Olivier's reading of that deeply moving "Into the breach" address before Harfleur or that even more thrilling Saint Crispin's Day speech just before Agincourt. I think, however, that Olivier loves most of all that noble soliloquy on the night before the battle—"Upon the king! let us our lives . . ."

Nor in this play has Shakespeare forgot his groundlings (and our groundlings) who like to laugh—good, broad, vulgar comedy. And the "love interest"! After Harfleur and Agincourt the critical reader may find the Princess Katherine scenes a trifle

thin, or even a bit silly. Not so in the playing. There these scenes come to life; and Henry becomes the great lover as he is the great soldier and the great ruler. He jests his way into the heart of his lady-love and wins her with a laugh. Yet never, even in these scenes, do we forget that he is the great prince.

To those of us who are interested in the ways of our forbears—and who of us is not?—I think the most interesting part of Olivier's screen play is the first two reels. There we see the London of Shakespeare's day; we become one of the motley audience of the Globe; we watch the play unfold on the crude platform stage as those seventeenth worthies saw it. After that revealing of the past the movie becomes normal cinema. But those twenty-or-so minutes afford more knowledge, and a more vivid knowledge, of the real nature and quality of the Shakespearian drama that can be gathered from all the talking and all the reading that I have experienced in the classroom. I do not at all suggest that the school room has been brought into the theater. But I do wish it were in some way possible to bring such bits of the theater into the school room. Then, I suspect, the school room might become a somewhat cheerier place.

## Hot Air Aids Any Campaign

By T. Green

Following the usual custom, the various candidates for the class officers in the election last Monday used every means known to man and several unknown to lure the unsuspecting voter into casting their ballot for the "right" man.

Circulars were passed out by hand in front of the administration building. But the most unusual campaigning was done by Bill Mann, candidate

for senior.

It was large balloons carrying the sign *Vote for Mann*; Mann planned to float this oddity in front of the administration building. Filled with hot air it rose to a height of about thirty-five feet but the rains from the past week's monsoon soon brought the venture to untimely conclusion.

## Campus Peeks

by Jim Pearce

Poor Sideways . . . last Saturday night she wandered into a fraternity house mortally wounded. She was wearing a huge swab of red paint. Such a low-down, dastardly trick!

\* \* \*

And you can tear up that pledge, fellows . . . that WAS a green cat you saw on the campus last Monday. Seems that there's a pet shoppe in town that dyes the bloomin' things any shade you might desire . . . to match your fingernails, your chapeau, your negligee, or your bloodshot eyes!

\* \* \*

But the Peek of the Week goes to the dozing veteran who explained to his math prof. . . "If you had to get up for a four-thirty feeding you'd be sleepy too—!"

## A New Face Planned for Tech In Expensive Beauty Treatment

If the building program for 1947, considered necessary by the Board of Regents is passed by the State Legislature, approximately \$2,875,000 will be put into new buildings at Georgia Tech this year.

### Three Projects

As a state institution, Georgia Tech is dependent upon the State Legislature for much of its funds to carry through its program of necessary construction. Out of the \$2,875,000 that is being requested there are to be three main projects. They are for immediate construction of the following buildings:

- (1) Classroom Building to house the Department of English, Mathematics and Economics.
- (2) New Textile Building.
- (3) Architectural Building.

### Modern Replacements

As is evident, there are quite a few buildings on the campus which are unfit for use and constitute dangerous firetraps. These buildings will be torn down and replaced with modern buildings at the earliest possible time.

### A New Face

There is a blueprint of the proposed building plan posted on the bulletin board in the Administration Building on which all of the construction work to be done on the campus during the program is shown. Much of the work of clearance has already been completed, and the new dorms are nearly finished. In a few years Tech will have a completely new face.

Somewhat I guess that it won't seem quite like Tech without the Old Shop Building standing there to greet us on Friday mornings before the fatal

## Our Campus Cop—He's Seen All At Tech for Twenty Long Years

by Hazen Short

Among the institutions of Tech, its old guard, which has been with it through its development and seen it grow during the past two decades, is our campus cop, Mr. A. L. Allgood. We have all seen him around the campus where he makes his daily rounds—more of us should stop and chat with him. For twenty years now Mr. Allgood has been at Tech, eighteen years as a night watchman and about two years as a daytime policeman.

### He's Seen It All

Through his eyes have passed the panorama of Tech's development—the period of depression which seems to have a permanent effect on the college spirit at Tech, the new buildings that have sprung up since Federal funds became available, and the war years when the Army, Navy, and Marines held sway on the flats.

### Prohibition Scenes

At the present time, according to Mr. Allgood, the main trouble is with traffic and parking on the campus, and not much nocturnal activity. However in years past much has happened on our factory-campus. During prohibition it was not uncommon to find town bums and other characters meandering or sprawled in various stages of intoxication. With the repeal of prohibition these disappeared. Perchance they got elected to the Georgia legislature.

### Couples, That Is

The campus has often been a trying place for lovers. When en-

countered these couples (most of them are couples) have the standard line that they are about to be married, which is the reason for their dalliance.

### The Word

Another type of raider not unknown to Tech is the student who gets to school early on the morning of a quiz—i. e. about two o'clock—and endeavors to increase his knowledge by locating the quiz in the professor's office. One dark night during the war Mr. Allgood accosted two G. I.'s who were trying to get into the tool room. They said they were merely trying to borrow a crowbar for a short time. What for? They needed it to get into Dr. \_\_\_\_\_'s office to get that quiz or it was back to basic for them. Ah, such thirst for learning.

It is also rumored that the Navy boys in Knowles Dormitory tried to make Tech coed at night school—all night long.

### Phi Delt Fire

Probably the most exciting night in Mr. Allgood's career was the night the Phi Delta Theta house caught fire. Just by chance he had started his

rounds about fifteen minutes early that night, for which a lot of people should be thankful, and passed by the house as the first smoke and flames got started. By immediately shooting his revolver into the air he awakened some of the occupants, whom he directed to call the fire department and arouse the rest of the sleepers. He then put a ladder up to one of the porch roofs so that the sailors could get down. It was indeed unfortunate that one boy was overcome and could not be found by his mates in time. Mr. Allgood's prompt action at this fire no doubt aided materially in keeping the toll of life to a minimum.

### Of Course!

These are but a few of the many incidents that have made Mr. Allgood's time at Tech interesting and enabled him to serve the school in such a fine manner. The remarkable thing is that throughout all these years and having seen so many thousands of students he has the firm belief that Tech boys are really a fine bunch of fellows. Of course he's right.

# Yellow Jacket Swimmers Clash With Georgia Feb. 8

Idle this week, after swimming four meets on two consecutive week-ends, the Georgia Tech swimming team will tackle the tankmen of Georgia in Athenstown next Saturday afternoon. The swimmers are fresh from a double win last week against Clemson and the University of Tennessee.

## Record Set

The Clemson Tigers were the target for Friday night, January 29. Tech swamped the Carolina swimmers to the tune of 56 to 19, not allowing the visitors a single first place. The highlights of the evening were the bettering of two varsity records by Johnny Hiles. In the 220 yard swim, Hiles smashed the old record by 3.2 seconds, and in winning the 440 yard event, he bettered the previous record held by Rial Rolfe of 5:23.5 by eight seconds.

On Saturday night the defeat of the Volunteers from up Knoxville way was similar to the Clemson trouncing. Tech was on the long end of a 57 to 18 score. Tennessee had a game, although inexperienced crew, and did put up a good fight. Out to break the record for the 100 yard freestyle event, Captain Herb McAuley out-touched Johnny Hiles in a very exciting race, with McAuley coming within one tenth of a second of the record.

## Duke Here

The Tech mermen will return to the Tech pool on Saturday night, February 15th, to play hosts to the Duke Blue Devils. This meet shapes up to be the most outstanding one to be held at the Tech pool this season. Faculty members are requested to obtain reserved seat tickets in advance from Coach Lanoue in his office. Students will be admitted on a first come first served basis. There are a limited number of seats available, so students are advised to get there by 7:30 for good seats. Don't forget the date; February 15th, at the Tech pool; Georgia Tech Versus Duke.

The results of the meets against Clemson and Tennessee are as follows:

GEORGIA TECH (56) VS. CLEMSON (19)  
300 yard medley relay—Georgia Tech (Avery, Edleson, Topp); time—3:16.4  
\*200 yard freestyle—Hiles (T), Williford (T), Holtzendorf (C); time—2:19.3  
50 yard freestyle—McAuley (T), Walker (C), Rolfe (T); time—23.8  
Diving—Brantley (T), Hirshberg (C), Brisdine (C)  
100 yard freestyle—Chapman (T), Martin (C), Curlin (T); time—60.5  
150 yard backstroke—Swanson (T), Topp (T), Truscott (C); time—2:04.0  
200 yard breaststroke—Owen (T), Holtzendorf (C), Bultman (C); time—2:54.7  
\*440 yard freestyle—Hiles (T), Hirshberg (C), Lawrence (T); time—5:15.5  
400 yard freestyle relay—Georgia Tech (Holliday, Best, Levy, Flowers); time—4:15.0  
GA. TECH (57) VS. TENNESSEE (18)  
300 yard medley relay—Georgia Tech (Swanson, Williams, Avery); time—3:26.6

## Felker Leads Jacket Marksmen to Victory

Despite a late start the Tech ROTC rifle team has been rounded into good shape by T/Sgt. B. W. Boatenreiter

and S/Sgt C. N. Coons under the direction of Captain P. B. Irby. Proof of the team's ability was indicated in a postal match just completed with the Clemson ROTC team in which Tech outscores Clemson 3423 to 3363.

J. K. Felker, Jr., of Tech with 362

points had the highest individual score of the match. High scorer for Clemson was J. F. Cox with 353 points. Members of the Tech team participating in the match were as follows: J. K. Felker, Jr., A. H. Flowers, C. L.

(Continued on page 8)

## Jacket Grapplers Meet Blue Devils In Durham

The Yellow Jacket wrestling squad will meet Duke's Blue Devils, last year's Southern Conference co-champs, tonight in Durham, N. C. in the fourth meet of the season for Tech. This year's Blue Devil mat team is rated as one of the best in the conference and the Jackets will go into the mill as underdogs.

### Lose Opener

The Tech team dropped the season's opener to Maryville College, 26-10, last Friday, January 24 in Maryville in what was a debut for most of the

## Sports Week

Sports calendar for Georgia Tech athletic teams for the week beginning February 1 and ending February 8.

### BASKETBALL

Saturday, Feb. 1—Tech vs. Alabama in Tuscaloosa, Ala.

Tuesday, Feb. 4—Tech vs. Georgia in Athens.

Friday, February 1—Tech vs. Tennessee in Knoxville, Tenn.

### SWIMMING

Saturday, Feb. 15—Tech vs. Georgia in Athens.

### WRESTLING

Saturday, Feb. 1—Tech vs. Duke in Durham.

Monday, Feb. 3—Tech vs. Auburn in Atlanta.

Friday, Feb. 7—Tech vs. Chattanooga in Atlanta.

squad. Only a few members of the squad had previous experience in wrestling. Geisler in the 128 pound class and Basset in the unlimited class won their bouts to give Tech their only wins in the meet. Feature battle of the meet was the 155 pound tilt in which Captain Batton lost to his Maryville opponent in a very close match.

### Jackets Win

The next night in Chattanooga, the Jackets met the University of Chattanooga grapplers. Rebounding from the previous night's drubbing, the Tech men handed the Chattanoogaans, who Coach L. A. Moll rates on a par with Maryville, a 19-11 defeat.

Thornbrough in the 121 pound group, Geisler at 128, Kussack at 136, Andrews at 145, and Batton, all of Tech, won their respective bouts to pile up the substantial Tech score.

## Cagers Start Final Road Trip Before Conference Tourney

By Jimmy Wall

Georgia Tech's now hot—now cold basketball team will seek revenge for an early season defeat tonight when they battle Alabama's methodical Crimson Tide in Tuscaloosa, Ala. in the second of a two game road trip. The Jackets played Tulane in New Orleans last night and moved up to the University city today for their second battle of the season with the Tide tonight.

Tech, since losing to Alabama at the Tech gym, has dropped a decision to Kentucky and followed through with wins over Tennessee and Auburn and appear ready to hand the Tide their first loss of the season. To do this, the Jackets big worry will be to stop big Jim Homer, 'Bama's mammoth pivot man, who accounted for 12 points in the previous meeting with Tech. Homer is the backbone of the Tide's offense and defense as he directs play all over the floor.

### Leading Contender

At the present, Alabama, one of the few unbeaten teams in the country, is the leading contender for Kentucky's SEC crown this year. Other starters for the Tide will be J. F. Sharp and Joe Hite at guards, and Carl Schaeffer and Dick Hamner at forwards.

Coach Roy MacArthur has shifted Spider Jim Nolan over from his center position to forward in the latest lineup switch and he will probably start at forward along with Dick Collier. Capt. Herb Bergman will oppose Homer at the center post. Wes Paxson, who has been moved out to guard to take advantage of his deadly set shots, will start at the guard position along with Frank Broyles.

### Wave Friday

The squad left Atlanta Thursday for New Orleans, arriving in that City Friday morning, and playing the Green Waves last night. They will return to Atlanta after the game tonight.

Players making the trip were Freddie Haines, Wes Paxson, Dick Collier, Jim Nolan, Herb Bergman, Frank Broyles, Henry Schoening, Colin Anderson, and Paul Godwin.

### Probable Lineups

Tech		Alabama
Broyles	G	Hite
Paxson	G	Sharp
Bergman	C	Homer
Nolan	F	Hamner
Collier	F	Schaeffer

By Bill Gleason

On next Tuesday night, February 4, over in Athens, Georgia the Yellow Jackets from Georgia Tech will be out to gain their first basketball victory over the University of Georgia since March 1, 1945 when Tech thrashed their arch rivals in the SEC tournament in Louisville, Kentucky, by a 66-49 count. The Jackets are favored to emerge victorious in this tussle, which means absolutely nothing when Tech and Georgia get together in any sort of contest. Last year the Yellow Jackets were established as the favorite in every game with the Bulldogs and lost by scores of 50-40 in Athens, 46-43 in Atlanta, and were upset a third time in the SEC tournament by a 36-30 count.

### Georgia Stars

This year's oft-beaten Georgia five is led by big Bob Healey, who has led Bulldog point makers in nearly every game. He was a sensation in the unsuccessful invasion of the North the Bulldogs made during the Christmas holidays. Also on the list of top Georgia performers is a blond guard by the name of Marvin Harvill, who proved himself as a skillful ball handler and a fine all-around court performer in the Kentucky game which the Red and Black dropped by an 84-45 score. Al Fabian, lanky center, who was a key performer in all of the Georgia wins over Tech last season is also a member of the current Bulldog team.

### Scoring Threats

Georgia Tech's white and gold clad Engineers will be led into battle by Wes Paxson, high scoring right forward, who tallied a total of 40 points against Kentucky and Tennessee; hard-fighting left guard Herb Bergman, whose play on defense this season has been nothing short of a sensation; and carrot-topped Frank Broyles who sank 15 points against Tennessee in Tech's thrilling 48-43 upset win over the Vol powerhouse last week.

## Rifle Team

(Continued from page 7)

Hudson, J. G. Madry, S. A. Roos, E. J. Minton, S. F. Williams, S. Raynes, J. E. Tatum, and J. A. Lewis.

The Tech team has also just completed firing a postal match with the University of Nevada but the results of this match are not yet known. The complete schedule of postal matches to be fired this year are as follows:

University of Mississippi	Feb. 1
Mississippi State	Feb. 8
Virginia Military Institute	Feb. 8
Carnegie Tech	Feb. 14
Johns Hopkins	Feb. 15
Michigan State	Feb. 15
Mass. Inst. of Technology	Feb. 22

# Jackets Regain Stride As Vols, Tigers Fall

By Joe Torcassi

The Georgia Tech Cagers, smarting from the double loss to Alabama and Kentucky, came back strong last week to defeat Auburn and Tennessee by scores of 65-49 and 48-43 respectively.

Coach Roy MacArthur's revamped lineup, spearheaded by forward Wes Paxson, began to click in the Vol fracas and went into high gear against the Tigers last Wednesday night.

## Auburn Loses

Taking the lead at the outset of the Auburn battle the Jackets moved ahead 16-6 after 10 minutes of play and it was all Tech for the remainder of the evening. The Tigers managed to get within 6 points of the local team at the middle of the first half but a brace of four consecutive field goals by Colin Anderson combined with several long shots by Paxson and Frank Broyles gave the Techsters a commanding 31-19 half-time lead.

Captain Herb Bergman, whose admirable handling of the ball has set up score after score throughout the season, was at his usual best. Bergman's brilliant play under the basket plus Paxson's 16 point donation toward high scoring honors were the highlights of the game. Alvin Miller, substitute Auburn forward, was runner-up in the scoring department with 12 points.

## Tennessee Stopped

In last Saturday's battle, a determined Jacket five stopped the repeated efforts of a favored Tennessee quintet to gain their third conference victory. A capacity crowd witnessed the two teams vie for an edge on the other throughout the game.

An evenly matched contest all the way; the two teams left the floor at half-time with Tech leading 21-20. Last moment desperation attempts by the Vols, in order to catch up to a 3 point Jacket lead, were capitalized upon by the local lads to widen the scoring margin to 48-43 at the final whistle.

Paxson again paced the Techsters to victory with a total of 20 points. Dick Mehen, ace Tennessee center followed up with 18. Frank Broyles placed a close third with 15 points.

## Felker Elected

Cadet Captain J. K. Felker, Jr. has been named team captain and Cadet J. T. Stanton will act as team manager of the Rifle Team.

## Track Workouts Swing Into High

The Tech Track squad is practicing in full swing now and Coach Norris Dean reports that most of his boys are in fine shape. Coach Dean says that the team will be stronger in the running events but that it is developing in other events.

In the shot put and discus throwing division, Bobby Davis and Herb Bergman, of football and basketball fame, respectively, are the leading candidates. Al Lansing, Calvin Houston, and Buddy Folks are the big guns for the team in the quarter mile. Hugo Hiedenrich, who won the Southeastern AAU low hurdles last year, is back with the team this season.

Jim Nolan, lanky member of the basketball squad, is the coach's choice to win the Southeastern Conference championship with his javelin throwing. Nolan took second place in the Conference last year in this event.

The Jackets are weakened in the broad jump and sprint divisions by the loss of freshman Buddy Tanner who is out for this year due to a knee operation. Tanner won the state high school championship for the broad jump last year in Mississippi and had been counted on for great things at Tech this season.

Georgia monsoon season seems to be over and, since opening practice, the squad has been favored by good weather allowing them to practice outside every day thus far.

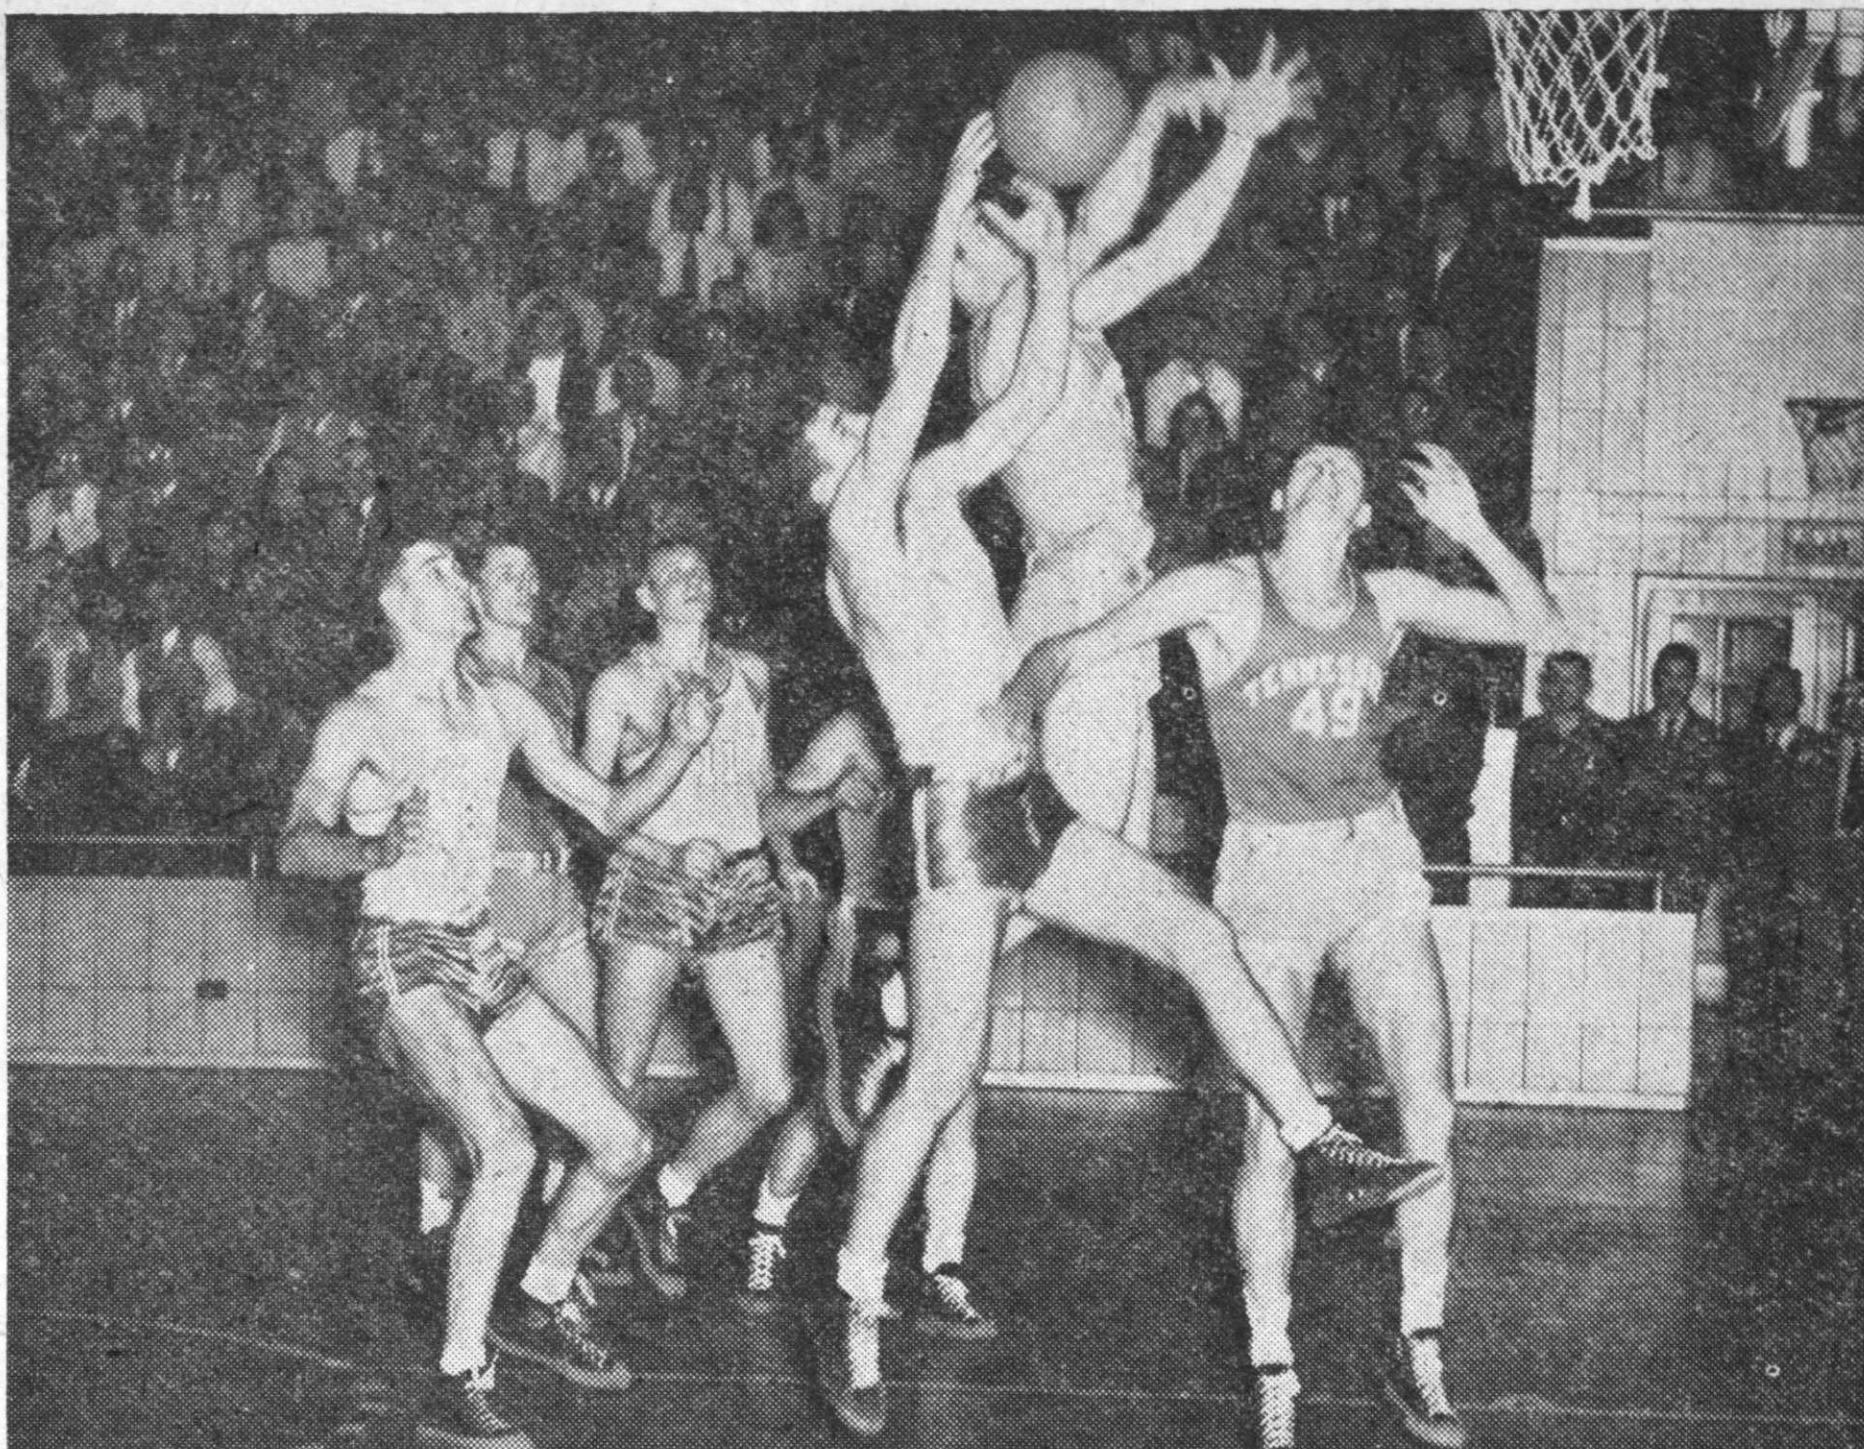

Their first meet is an indoor one on March 1st at Chapel Hill, N. C. Coach Dean plans to take a full team along.

## Swim Meet

(Continued from page 7)

50 yard freestyle—Chapman (T), Tilton (V), Curlin (T); time—25.7  
Diving—Brantley (T), Kirk (T), Mitchell (V)  
100 yard freestyle—McAuley (T), Hiles (T), Smith (V); time—54.3  
150 yard backstroke—Flowers (T), Silva (V), Silva (V); time—1:46.7  
200 yard breaststroke—Owen (T), Love (V), Best (T); time—2:55.5  
440 yard freestyle—Edleson (T), Levy (T), Nowling (V); time 6:06.6  
400 yard freestyle relay—Georgia Tech (Rolf, Avery, McAuley, Hiles); time—3:45.8

\* Denotes varsity record.

Colin Anderson (center), Jacket guard, shoots over the arms of a Tennessee defender as he breaks down the middle in a fast bit of action from Saturday night's battle with Tennessee in the Tech gym. Looking up under the basket is Vol center Dick Mehen. Behind Anderson, Jim Nolan (8) and Freddie Haines (11) wait tensely.

## SAE, Pi Kappa Sigma, ATO, Lambda Chi Alpha, Lead IFC

After completing two weeks of league play, the SAE and Phi Kappa Sig fives lead in their respective loops in the IFC basketball conference while Lamba Chi and ATO are knotted up for the Tornado League lead.

In last week's games, Hank Klosterman, former varsity squad member, paced SAE to a decisive victory over Phi KA by sinking 25 points. Phi Kappa Sig romped to an easy win over a weaker Delta Sigma Phi quintet.

### LEAGUE STANDINGS

GOLD LEAGUE					
Team	W	L	Team	W	L
SAE	3	0	Chi Phi	1	2
Kappa S	2	0	Pikes	1	3
Chi P	2	0	AEPhi	0	2
KA	2	1	Phi K Phi	0	3
WHITE LEAGUE					
Team	W	L	Team	W	L
PhiKSig	2	0	Theta Chi	1	0
Delt T Delt	1	0	Phi Oams	0	2
Sig Chi	1	0	Delta Sig P	0	2
PhiD T	1	0	Phi K T	0	2

# Your Dollars Help Them

These Scenes Are Representative of the Conditions Which Students Must Struggle Against in their Pursuit of Learning.

## Who Needs It—?

The \$2,000,000 that the World Student Service Fund hopes to collect from this and the other more prosperous nations of the world will be used to help the more urgent needs of some 4 hundred thousand students. With this sum in mind it is hard, very hard, to visualize the actual desperateness of the need each of the students must first face every day before he can study. That they need clothing is not half so impressive as knowing that the student who is lucky has on the average only these articles of clothing: 1 pair of very old shoes, 1 pair of trousers, 1 shirt and a dicky or scarf to wear instead of a shirt whenever possible, 1 jacket, 1 pair of pajamas (which are worn in the house during the day time), and no hat, handkerchief or underclothing.

Most of these students must find their own accommodations in cities crowded with homeless refugees and swarming with a population double its 1939 size. Some find accommodations in railroad stations, or on the counter of a store. Some are even afraid to say where they sleep.

These people have an average daily calorie consumption of 1000 compared to our 3300. At one of the larger universities in China a WSSF representative reports that a student eats "a few balls of bread, some corn meal loaves and watery soup with cabbage in it." In Vienna he eats "a plate of dry noodles and potatoes with a bit of lettuce."

These facts, like statistics, seem rather cold and impersonal. From several letters which Ga. Tech's WSSF committee has received from students there is one in particular which is not cold. The story of this student's struggle against the vicissitudes of life are typical of the very same struggles which 399,999 of his fellow students have made and are making.

Twenty-three-year old Stefan Strzemiecki of Warsaw, Poland, writes "I come from a laborer's family which in happy pre-war days consisted of six persons. My parents were unable to provide an education for all their children so they chose me as the most keen on learning.

"In the fatal September of 1939, my father was disabled and to save the family from starvation, my brother Ryssard and I had to begin earning money.

"Finally in September of 1944, I was arrested by the Germans and sent to a concentration camp in Germany. It is too difficult to describe what I lived through in the camp. After 7 months' torment the few lucky ones who escaped being burnt in crematories were liberated. I returned to Warsaw to find that of my family only my parents and sister had survived. Our home, with all my books and instruments, had been burnt down.

"I am now studying and working at the same time. Half of my day is sacrificed to earning money. I must study, attend classes, and sleep during the other 12 hours.

"I am so thankful for the help I have received that I don't know how to say it, but if my letter and my person make a favorable impression on an unknown-to-me person in the U.S.A., I could use a few more things. I can wear old and shabby clothes, I can save on food, if only I am able to study. This is the most important thing for me."

## W. S. S. F.

**I thought I was abused  
Because I had no shoes  
Until I met a man  
Who had no feet!**

This year from students and professors in the United States, the World Student Service Fund expects to raise one million dollars for the relief, rehabilitation, and benefit of students and professors in the war-devastated and sub-standard areas of the world. The money will be used to help needy students secure educational advantages. Specifically, the money will supply books, scholarships, transportation, food, clothing, medical care, and other material needs.

Many nations are reconstructing; America is reconverting. Some nations have runaway inflation; Americans are buying more than ever before. China has thirty thousand college students; Columbia University alone has more. Many people are starving; last year America spent over sixty dollars per person for tobacco and alcohol products.

Out of America's bounty some of the needs of the less fortunate must be met. The Ga. Tech World Student Service Fund Committee is not asking for the richly-battered bread of a hundred dollar gift. It asks only for the dry crust. It asks that you give a dollar a man or more if you can.

Every dollar that you give will be forwarded to the World Student Service Fund Headquarters; no part of your gift will be used to defray expenses for the printing, publicity, etc., incurred in the drive here on the campus. Try to give at least a dollar to be sent as your personal ambassador of goodwill and generosity. Help someone to help himself that all of us may be strong together. Give up a luxury that someone may have a necessity. Give according to your thankfulness that that you can live in comfort while other people barely exist.

## Investment In Peace

By Prof. Edward Foster

Did a wicked little man with a mustache cause World War II? Possibly. A better answer is that I and another half-billion like me caused that war by wanting peace and doing practically nothing about it.

I remember my classmates of 1920. Some of us were veterans of World War I; all of us knew much about war and wanted no more of it. Tepidly, we talked about pacifism; tepidly, we deplored U. S. isolationism. We did a lot of talking.

And because peace is a positive and indivisible thing to be made by intelligent and sacrificial action and because we had not made that positive and indivisible thing—you fought in World War II.

You need not repeat our mistakes. You can make peace now by supporting UNO. You can also make peace—in a very direct way—by helping those who will lead Europe and Asia in the future.

These new leaders must be so keen and strong and wise that they will not allow the problems of their own lands to go unsolved, drawing us all into another war. These young men must be given a fair chance to grow; they must be helped to stay in school and college.

Make peace by supporting WSSF, for it is supporting the new leaders of Europe and Asia.

W. S. S. F. Drive at Tech Sponsored by YMCA

## What Is It—?

To help meet the desperate needs of destitute students in war-ravaged countries an organization known as the World Student Service Fund was formed several years ago. It is sponsored and has the hearty endorsement of the religious organizations of this country—Catholic, Jewish and Protestant.

Distinguished American educators with George N. Schuster as their president comprise the officers of the W.S.S.F. Students in fourteen of the more fortunate countries of the world have combined under their leadership to give a helping hand to their less fortunate brothers elsewhere.

It is hoped that two million dollars can be raised this year from the fourteen 'giver' countries to conduct the work of supplying books, food, clothing and other immediate necessities to the students of Europe and Asia. We in the U.S. are asked to give one million dollars. One might reasonably ask why such a tremendous task is being undertaken on such a comparatively small amount of capital. The simple answer is that aid must be planned within the limits of expected income and that probably the one and a half million college students in the U.S. will give no more than one million dollars.

Forty-four percent of the two million dollars total will be used in the Far East; forty-four percent in Europe. Six percent will be used for administration and overhead. Six percent will be kept in reserve for emergencies and other unforeseen contingencies.

## Campus Set-Up

Plans for the present W.S.S.F. drive were first formulated last September. The executive committee of ten men, under the guidance of our 'Y' Secretary, Mr. Charlie Commander, met again and again to discuss and map out the most expedient plan of action. In past years contributions to W.S.S.F. from Tech students were surprisingly generous, but the drives were inefficient. Only a small percentage of the student body contributed, since the number of men who helped in individual solicitation was somewhat small.

This is the plan. Last Fall every organization on the campus—fraternities, religious groups, service organizations—was requested to send in a team of ten men, including a team 'captain'. Each captain has been given a list of the students whom his team members are to contact for individual contributions. Simple, isn't it? No duplication, no omission! No unreasonable amount of work on any one man's shoulders. Rather, a united, cooperative effort, flavored with a bit of friendly competition among the teams.

Each one of the solicitors will do his share by contacting the dozen or so students assigned to him by his team captain. Certainly you would hardly want to be deprived of a part in this effort; and your part is to donate generously whatever you can when you are approached by the student who is assigned to contact you. He will have receipt forms to be filled out for those who make contributions or pledge to contribute at a later date. All the money will be turned in at the 'Y' by the team captain. Should a solicitor be unable to see you, you can give at the 'Y' desk.
