#1 Final

#### High Museum - VALS - Final Report

The High Museum VALS Project involved the development of four multimedia programs designed for the Museum's new Visual Arts Learning Space. The programs covered the areas of Color, Composition, Light and Line. Each program was designed to be easy to use, easy to maintain, and be educational to visitors of all age levels. We installed the programs in the museum in mid-April, and provided a CD-ROM master of all programs as well. We look forward to working with the museum in the future on other programs for this space as well as other aspects of the museum.
