Something like a star...

OLD AS MAN is the admonition, "Hitch your wagon to a star"; young as a child is the impulse "To wish upon a star." For all men, in all time, a star has been the bright kindling point for dreams, fixed moment in time and eternity, beacon in the night and promise of the day to come.

Something like a star is research, because it answers in the world of practical affairs to some eternal spirit in the heart of man—a perpetual restlessness with things as they are, an eternal seeking for a better way, a continual progress towards a better world. And because this thing lives more in the mind and the

spirit than in the world itself, it is perpetual, everlasting, immutable, as eternal in its way as the stars themselves.

More than 60 years ago the General Electric Company first "hitched its wagon" to the bright star of research. In all this time the star has not been extinguished, instead it has gradually grown to be the guiding star of all American industry. Even today, when so large a part

of the total resources of General Electric are employed in the task of making America's defenses strong, it still shines bright.

But General Electric is not "wishing upon a star." Throughout the Company, scientists, engineers, executives, are thinking and planning and working to the end that the tomorrow which stars promise shall not simply come—but that it shall be better than today.

American industry has accepted the responsibility of serving America; is accepting the responsibility of helping to defend America; will accept, tomorrow, the responsibility of helping to build a better America and a better world.

Georgia School of Technology

"A Technical School with A National Reputation"

THE GEORGIA SCHOOL OF TECHNOLOGY offers to young men of ability and ambition a training which will fit them for positions of responsibility and power.

The national reputation of this institution is based not on claims, but on results. Its greatest asset is the record being made by its alumni in the productive work of the world.

Complete courses in MECHANICAL, ELECTRICAL, CIVIL, CHEMICAL, TEXTILE, GENERAL and CERAMIC ENGINEERING, ARCHITECTURE, AERONAUTICAL ENGINEERING, INDUSTRIAL MANAGEMENT AND PUBLIC HEALTH.

COAST ARTILLERY, SIGNAL CORPS, INFANTRY, ORDNANCE, SEAMANSHIP AND NAVIGATION

Homecoming and Reunion Plans

As previously announced, a number of the reunion classes plan to hold several "get togethers" on the day before the Tech-Georgia game and the Homecoming lunch. The program that appears to fit in best for most of the class representatives who have been writing their respective classmates, is published again for your information, as follows:

FRIDAY, NOVEMBER 28

Afternoon—Cocktail parties for the reunion members and their ladies. (To be arranged by the individual classes for their separate reunion groups, as may be desired.)

Evening—Separate class dinners. Ladies and families to visit, dine and entertain among themselves during this period.

Night—Homecoming Dance.

SATURDAY, NOVEMBER 29

12:30 Noon—Home Coming Lunch at the Georgia Tech Dining Hall (Cafeteria Plan). Alumni in general, reunion classes, faculty, seniors, families and dates of all.

Afternoon—Tech - Georgia football game. Grant Field.

Combined Band Feature between halves dedicated to the Georgia Tech and Georgia Alumni in the services of the United States' Army and Navy.

Night—Homecoming Dance.

Decorated chapters and the Tech Y.M.C.A. will hold open house for alumni and guests. Saturday night is left for individual arrangements.

Regents Assure Full Co-operation

Members of the State Board of Regents, empowered with full authority to act for their body, assured an investigating committee of the Southern Association of Colleges and Secondary Schools that the Governor of Georgia agreed not to interfere with the University System of the State; this was publicly announced, following the November third meeting of the Southern College Association Committee, in Atlanta.

The Regents' Committee, Presidents of Colleges and Secondary Schools, throughout the State, prominent Student and Alumni Committees from Georgia, Georgia Tech, and other branches of the University System, were all heard by the investigating group as to "political interference;" and it was evident that everyone who went before the body had the sincerest confidence in the assurances of the Regents, who stated, in addition, at the November fourth hearing, that they would comply with all recommendations for retention of membership in the Association.

All were deeply solicitous and unanimous in their sincere requests for the retention of membership in the Southern Association of Colleges and Secondary Schools which embodies the accredited standing of each branch of the University System.

The hearings in Atlanta were completed on November fourth; however, the investigating committee's recommendations will not be made until the meeting of the entire Southern Association of Colleges at Louisville, Kentucky, on December 1-5.

In view of all the circumstances, it is thought, and certainly sincerely hoped, that the members of the Association will take no steps that will penalize the fine youth of Georgia and their well-deserving preceptors, all of whom have ever upheld the high standards of education; it is axiomatic, of course, that they are not responsible for the mistakes that others have made in the matter, and it is gratifying, in turn, to be assured that such mistakes will not recur.

The following educators served on the committee for the Southern Association of Colleges and Secondary Schools: Dr. O. C. Carmichael, Vanderbilt University, Chairman; Dr. Richard C. Foster, University of Alabama; and Dr. Alex. Guerry, University of the South, Sewanee, Tennessee.

Alumni Board Members Named

A very strong and efficient Alumni Board has been assured by Mr. Robert B. Wilby, President of the Georgia Tech National Alumni Association, by the appointment of the following prominent alumni to the Directorate of the Association:

C. L. Emerson, '09; F. A. Hooper, Jr., '16; F. H. Neely, '04; W. A. Parker, '19, Past President; Albert H. Staton, '22; and Chas. F. Stone, '03.

The foregoing gentlemen with the recently elected outstanding and exceptional officers of the Alumni Association, as announced, will constitute the Executive Board of the Association.

Several strong committees were appointed at the Board meeting on October 23 to handle a number of important matters that came up for discussion and careful consideration, at the time; and a most successful year is being looked forward to by all the members.

Students Show Commendable Attitude

An article in the Georgia Tech Student Council Bulletin of October 28 is indicative of the fine manner in which the students at Tech have been conducting themselves and their publications, with reference to the serious situation that confronts them and the entire University System of Georgia.

It is believed that the unfortunate matter is about to be terminated favorably, upon compliance with such recommendations as may be made by the Southern Association of Colleges and Secondary Schools, and in view of the great work that has been done by the students, college executives, and alumni; and the fair and co-operative stand, in particular, that was taken by the Board of Regents' committee which assured full compliance with the rules of the Association.

The student article, as mentioned, states:

October 27, 1941

"To the Faculty and Students
Georgia School of Technology
Atlanta, Georgia
Gentlemen:

The Student Council of Georgia Tech had a special meeting Monday night, October 24, with the sole purpose of taking further student action on the impending dropping of Georgia Tech (and the entire University System) from the Southern Association of Colleges and Secondary Schools.

The motion by Harry Arthur to have a student mass meeting this week was tabled until the state-wide student conference to be held this week-end in Macon has convened and finished planning a concerted state-wide student effort to remedy the political set-up controlling the University System and the Board of Regents.

Several Tech students, not on the Student Council, have volunteered very valuable suggestions, facts, and plans to be used in Tech's campaign. The council has them under consideration and is only waiting for this State-wide conference before acting.

Tom Hill moved another council meeting be held 5:00 P. M. Friday afternoon, October 31, at the usual place to make final plans for the State Conference. The Georgia Tech delegates are Bill Cromartie, Pres. Student Council; Harry Arthur, V-Pres. Student Council; Bill Garrison, Non-Frat. Pres. of Y.M.C.A.; Tom Hill, Editor of *TECHNIQUE*; Chase Read, Non-Frat. leader and Co-op; Ed Thompson, Student Representative.

The Student Council wants the students to know that definite and determined action is being taken. The Council is going to keep their actions dignified and serious, as the issue affects the career of every Georgia Tech student. Any flippancy or mob action by students will be definitely harmful to the effectiveness of college students' efforts.

Respectfully submitted,

TOM DOZIER, Secretary."

Enrollment Reaches New Record

Dr. Lloyd W. Chapin, Registrar, has announced that a total of 2,834 regular day students have enrolled at Georgia Tech, this term, thus setting an all-time enrollment record.

Applications for admission from many freshmen had to be rejected. Seniors this fall total 468 and the freshman class includes 891 registrants.

Georgia Tech Serves the Nation

Georgia Tech is, as ever, whole-heartedly in the service of its country, and it is a matter of pride to state that the college, its faculty, alumni, students and governing bodies, are all among the principal mainstays of the government.

From its excellent, long established, nationally recognized and government directed Army and Navy R. O. T. C. units, have come scores of well trained men over a period of years, for the various branches of the U. S. service.

Primarily, of course, the studies in engineering and management are directed to the welfare of the individual, his city, state and country, for peaceful pursuits in business and industry, but it may well be added that preparedness is embodied in the very nature of Georgia Tech and it is in position, therefore, to adjust itself immediately in emergencies such as are now upon us and our great nation.

In addition to the work that is being done by the faculty, alumni, and students on engineering and other defense projects, the college is busily engaged in Engineering Defense Training Courses which are given both during the day and at night; these include: Construction Materials Inspection, Engineering Drawing, Textile Testing, Textile Production, Inspection and Supervision, Metals Inspection, Machine Design, Production Supervision, Production Engineering, Explosives and other subjects, information on which may be obtained from the Chairman of Engineering Defense Training at Georgia Tech.

Professor J. E. McDaniel, Head of the Cooperative Department, is Regional Adviser, Engineering Defense Training, National Defense Advisory Commission. He and a number of other faculty members who have gone into the Army and the Navy are among those who are directly contacted with the service.

The State Engineering Experiment Station at Georgia Tech is soliciting and handling discoveries and mechanisms which may be of national defense value; such suggestions, discoveries and inventions to be forwarded by the Station to the National Inventor Council for national defense purposes.

A naval ensign course is being given at Tech under naval direction, separate from regular student training. Flight courses are given to students upon recommendation by the aeronautic department. Flight trainees are also being organized by the school and the alumni association in cooperation with the Army and the Navy; and placement services are offered to all upon the completion of their tour of duty.

1941 Class Contributes to Building

Dr. Brittain's fondest dream has always been to have a Student Union Building on the Tech campus, a place where students can go in their spare time for a little recreation, play and meetings.

A gift of the Class of 1941 was the initial payment on this building. Each senior paid a sum of two dollars, the money being left in the hands of O.D.K. If at the end of two years sufficient progress has not been made, the money is to revert to the Class of 1941, and a committee of 5 members will then decide what is to be done with the money toward a gift. Should the building eventually be built, the Class of 1941 will have its recognition on the corner-stone.

Freshmen Promise Thrilling Game

A game full of thrills and real playing is definitely promised this year by the Freshmen for the annual charity tilt between the Georgia Tech and Georgia Freshmen football teams at Grant Field on Thanksgiving Day, November 27.

Both teams have a number of former high school stars who will be given the opportunity of showing their athletic prowess; and the Tech Freshmen intend to present more of a team this year than individual players, although there are quite a few outstanding performers on the squad.

The game is surely worth the price of \$1.00 for reserved seats, in the sideline stands, and 50 cents for general admission. Every penny of the receipts, without expenses, goes in full to the Scottish Rite Hospital for Crippled Children.

Tickets may be purchased in advance, as heretofore, from the George Muse Store, the Georgia Tech Athletic Department, or from any of the many fine and public-spirited committeemen who are handling the sales. Tickets may also be purchased at the gates on the day of the game but, of course, the advance sales will take the best seats.

An enjoyable and grand Thanksgiving Day will be the very satisfactory and genuine reward of all who participate, in any way whatever, in this truly worthy event.

Each team will do its best to make the contest another great success; and all those rugged, fine characters on both squads will play with the heartfelt satisfaction that they are the fortunate and able ones whose "*Strong legs will run that weak legs may walk.*"

Dean Savant EE Department Head

Pietro Savant, former dean of engineering, was appointed head of the Electrical Engineering Department last February and began his first full year as head of the department this fall. He succeeds Professor Fitzgerald, who died during the last school term.

Professor Savant attended Rose Polytechnic Institute, where he obtained a degree in electrical engineering, and later attended Harvard, where he obtained the degree of M.S. in E.E. He came to Tech in 1922 as an Assistant Professor of Electrical Engineering.

Esquire Lauds Coach Alexander

Although this year, unfortunately, the Yellow Jackets have not been rated among the ten top football teams in the country, Coach "Alex" is listed in the November, 1941, issue of Esquire as one of the nation's ten most outstanding coaches in an article by Curt Reiss entitled "The New Huddle Muddle."

Bill Alexander is quoted by Esquire as "the dean of the Southern coaches. He gets the most out of his material and adapts his style of play very well to the team he happens to have. He's a driver on the field, but his boys worship him."

Ranking with Coach "Alex" the ten top college football coaches are as follows: Bernie Bierman of Minnesota, Bob Neyland of Tennessee, Clark Shaughnessy of Stanford, Bob Zuppke of Illinois, Amos Alonzo Stagg of the College of the Pacific, Carl Snavely of Cornell, Jack Meagher of Auburn, Dana Bible of the University of Texas, and Lynn Waldorf of Northwestern.

Experiment Station Laboratory View

The State Experiment Station has an extremely large laboratory that is filled nearly to capacity by apparatus and workers on the many research programs being conducted there. On the left in the above view of the main laboratory may be seen part of the flax processing pilot plant with bundles of raw flax piled on top of the loft.

Library Receives Carnegie Gifts

The Carnegie Corporation of New York has notified Dr. M. L. Brittain that the trustees of the corporation have given the sum of \$6,000 to the Carnegie Library of Georgia Tech.

According to the letter received by Dr. Brittain the \$6,000 is payable in three annual installments of \$2,000 each. The funds are for the development of Tech's Library through the purchase of books for undergraduate reading and reference.

This information is of interest also because a local Atlanta paper made an erroneous statement recently about Tech's library losing some appropriations.

Along with Georgia Tech, eleven other colleges throughout the nation have received similar bequests. Dr. Brittain wrote the Carnegie Corporation and thanked them for the Georgia School of Technology.

Georgia Tech has also received approximately 450 records, a specially designed electric phonograph, a walnut cabinet for the thirty-six albums, a set of Grove's *Music and Musicians*, and a filing cabinet as a gift on a 50-50 basis from the Carnegie Foundation of New York. The complete set cost eleven hundred ninety-five dollars and Carnegie paid six hundred twenty-five dollars leaving a balance of five hundred seventy dollars to be paid by Tech. The Student Lecture Association gave two hundred dollars and the Student Council gave two hundred fifty dollars. The balance of one hundred twenty-five dollars will be supplied by other Tech organizations.

The records are an anthology of classical music, both ancient and modern and include operas, instrumental, solo and chamber, orchestral, choral, art songs, and national music.

The phonograph will be placed in the room in the northeast corner of the library. This room is being remodeled and sound-proofed now and will be opened in about a month. After the room is finished, students may go in at certain hours and listen to the records. In addition, the main periodical room may be opened for concerts after 9 p.m. and on Saturday and Sunday afternoons if enough students wish it.

Dr. Rosselot Directs Experiment Station

Succeeding the late Dr. Bunker as acting director of the State Engineering Experiment Station at Tech is Dr. G. A. Rosselot, Associate Professor in the Department of Physics. Dr. Rosselot's outstanding record shows that he is well qualified for this important post. He holds M.A. and Ph.D. degrees from Ohio State University and a B.S. degree from Otterbein College.

Dr. Rosselot's teaching experience includes five years in the physics department at Ohio State University and seven years at Georgia Tech. During his time at Tech he has been an instructor in the physics and mathematics departments, Assistant Professor of Physics and, since 1939, Associate Professor of Physics.

His work in many industrial fields shows him to be a very versatile man. He has worked with the State Highway Testing Laboratories at Columbus, Ohio, and the Chemical Division of Procter and Gamble Company, and has been a consultant in engineering physics to other companies, having done considerable work in the design of special X-ray equipment.

He is a member of Sigma XI, national honorary physics society, and the American Physical Society. On the campus he is faculty advisor to the Georgia Tech Radio Club, trustee for the club's station, W4AQL, and an advisory member of Alpha Phi Omega.

Prof. J. L. Daniel Heads Chemistry Dept.

According to information received from the office of the President, Professor John Laurence Daniel has recently been appointed head of the Department of Chemistry and Chemical Engineering at Georgia Tech and Dean of the School of Graduate Studies. He was chosen to succeed Dr. G. H. Boggs, who held both of these posts on the school faculty until his death last summer.

Professor Daniel, a Virginian by birth, was graduated from Hampden-Sidney College with the degree of Bachelor of Arts, and later received a Master of Arts degree from the Graduate School of Washington and Lee University. He came to Tech in 1912 as an instructor, and since that time has served in the Chemistry Department as Assistant Professor, Associate Professor, and Professor of Chemistry.

CPT School Makes Fine Record

The Georgia School of Technology summer program in CPT finished up with a record of 100 per cent. All the men passed their physical exams, soloed, and now have their licenses. Forty men finished this course—thirty finished in primary course and ten finished the secondary course.

Within the past few weeks the first instructor's course was completed. Walter Grace, a Senior M.E. student, and J. D. Gainey just received their instructor's ratings. E. R. Bunnell received his commercial license, which requires 200 solo hours and extended ground training. This commercial license is required before the instructor's rating may be obtained.

Alumni Attain High Positions

Colonel George R. Barker, G.S.C., was promoted to his present rank on October 18 as a result of his general excellence and outstanding work on Lieut. General Walter Krueger's Third Army General Staff in San Antonio, Texas.

Colonel Barker is the operations and training officer of the Third Army—the officer responsible for planning the maneuvers carried out by the General's Third Army. He is a 1917 E.E. graduate of Georgia Tech and has been G-3 of the Third Army for two years.

Robert L. Bidez, T.E. 1912, is Vice President, McGowin-Lyons Hardware Company, Mobile, Ala.

C. B. Blackwell, C.E. 1918, is President of the DeSoto Auto Hotel, Inc., Memphis, Tenn.

D. C. Dawkins, E.E. 1911, is President Dawkins Building Supply Co., Jacksonville, Fla.

George C. Gardner, Gen.Eng. 1925, is District Manager, The Louis Allis Company, Bona-Allen Building, Atlanta.

Charles S. Hammond, M.E. 1913, sales and engineering executive of the Georgia Power Company, Atlanta, was recently commissioned as Lieutenant-Colonel, commanding the newly established engineering section of the State Defense Corps. Colonel Hammond will be in charge of providing bomb shelters, evacuation in danger zones, neutralizing time-bombs or mines and directing in general, the work of safety in case of invasion by air or land.

Russell J. Morton, C.E. 1934, was elected President of the Chattahoochee Valley Rwy. Co., at West Point, Georgia, as effective August 1, 1941. Robert F. Lanier was elected Vice-President. They succeeded George H. Lanier and Harry L. Bailey, respectively, who have resigned.

William T. McCullough, M.E. 1915, is District Manager, The Babcock and Wilcox Co., Chicago, Ill.

W. Lucas Simons, Ch.E. 1909, of Charleston, S. C., was appointed by the Charleston defense council to head the Air Defense of his section, as chief organizer. He will set up organizations to select "spotters" for training to plot enemy plane flights in his district.

As a "filter station," Charleston will be one of the centers in South Carolina for the plane-spotting service.

J. T. Roberts, M.E. 1920, is President of the Southern Boiler and Tank Works, Memphis, Tenn.

Fred W. Thomas, C.E. Co-op. 1934, of Louisa, Va., has been given one year's leave from the TVA Health and Safety Department for duty with a malaria control mission in China in connection with the building of the second "Burma Road." He is one of three health engineers who were selected from the TVA for the work.

J. M. Cutliff, E.E. 1915, is President of the Electrical Equipment Company, Raleigh, N. C., with branches in Richmond, Va., and Augusta, Ga. The home office recently moved into its newly constructed, large, efficient and spacious building at 2526 Hillsboro Street, Raleigh, N. C. The company buys, sells, rents and exchanges electrical equipment; rewinds and rebuilds electric motors, generators, transformers, armatures, all kinds of electrical apparatus, to factory specifications; and stocks the best electrical equipment of every kind.

David W. Davies, a recent student, has gone to England as a member of the Civilian Technical

+ Deaths +

CRENSHAW

On October 9, 1941, Dr. Thomas Crenshaw, Jr., well-known Atlanta dentist, died in an Atlanta hospital. Dr. Crenshaw was a member of the class of 1917.

HAMMOND

Mr. Arthur Hammond died recently of injuries received in an automobile accident. He was a member of the class of 1934.

JAMES

On October 16, 1941, a seaplane was lost from the cruiser St. Louis, causing the loss of Ensign Willard H. James. Ensign James was a graduate from Georgia Tech in 1938, having received his B.S. degree in I.M.

MANDEVILLE

John Appleton Mandeville, Sr., widely known textile operator and President of the Mandeville Mills, died at his residence in Carrollton, Georgia, on October 5, 1941. Mr. Mandeville graduated from Georgia Tech in 1903.

McKOWN

Ensign R. H. McKown, U.S.N.R., a B.S. in Aeronautical Engineering, class of 1937, was reported lost when a navy plane went down on July 3, 1941. He was flying from Newfoundland to Iceland.

+ Births +

DEAN

Mr. and Mrs. Norris Dean announce the birth of a son, Allen Norris, on September 20, 1941. Mr. Dean is a member of the class of 1937.

DIAL

Mr. and Mrs. L. H. Dial of Tulsa, Oklahoma, announce the birth of a son, John Charles Dial, on July 29, 1941. Mr. Dial received his B.S. degree in E.E. in 1930.

EVE

Mr. and Mrs. W. Fred Eve III announce the birth of a daughter, Elizabeth DuBose, on September 7, 1941. Mr. Eve was a member of the class of 1938.

EVANS

On February 18, 1941, a son was born to Mr. and Mrs. Lorenzo B. Evans, Jr. Mr. Evans was graduated with a B.S. degree in Architecture in 1934.

FOSTER

Mr. and Mrs. H. O. Foster announce the birth of a son on September 28, 1941. Mr. Foster received his B.S. degree in E.E. from Georgia Tech in 1929. He is now head instructor in the Tech wood shop.

Alumni Attain High Positions—(Cont'd.)

Corps. The Civilian Technical Corps is a group of skilled American technicians who volunteer to help operate and keep in repair equipment needed by the British army, navy, and air force.

Robert and Company, of Atlanta, New York, and Washington, has recently issued an excellent, highly attractive and timely brochure on "A Series of Advertisements Reprinted from Fortune Magazine, 1941."

Messrs. L. W. Robert, Jr., C. L. Emerson, and Jesse Shelton, who head this nationally known and highly competent firm, are preeminent in engineering work and prominent Georgia Tech alumni.

+ Weddings and Engagements +

BUNGER-SMITH

Miss Dorothy Jane Bunger was recently married to William Gibbs Smith, Jr. Mr. Smith graduated from Georgia Tech in 1939, receiving his B.S. degree in Ch.E.

BARFIELD-MORTON

Mrs. John H. Barfield announces the engagement of her daughter, Miss Susan Louisa Barfield, to James Everett Morton, Jr., the marriage to take place in November. Mr. Morton received his B.S. degree in M.E. from Georgia Tech in 1934.

CROWELL-MAGILL

The marriage of Miss Jeanne Crowell, daughter of Mr. and Mrs. John Crowell of Atlanta, to John Franklin Magill, was beautifully solemnized in Atlanta on November 4. Mr. Magill received his B.S.C. degree from Ga. Tech in the class of 1931.

GILMAN-PIPER

Attracting sincere interest is the announcement by Mr. and Mrs. E. R. Gilman of the engagement of their daughter, Miss Mary Louise Gilman, to James Richard Piper. Mr. Piper graduated from Georgia Tech.

GOODMAN-TOLBERT

On August 29, 1941, Miss Lurline Waring Goodman became the bride of Harmon Scott Tolbert. Mr. Tolbert graduated from Georgia Tech in 1938, receiving his B.S. in G.E. degree.

LAUGHLIN-SHARP

Cordial interest centers in the announcement made by Mr. and Mrs. Buell Stark Turner of the engagement of their daughter, Frances Irene, to James Hervey Sharp.

LEE-MATTINGLY

On November 8, 1941, Miss Sara Elizabeth Lee married Edward Hagen Mattingly. Mr. Mattingly graduated from Tech in 1938, with a B.S. degree in Industrial Management.

MOONEY-JONES

On September 14, 1941, Mrs. Grace Parker Mooney was wed to Julian Jiroud Jones, Jr. Mr. Jones grad-

uated from Georgia Tech in 1932, receiving his B.S. degree in M.E.

SEWELL-GUEST

Of much social interest is the announcement by Mrs. Hampton Haygood Sewell of the engagement of her daughter, Betty Ann, to Lieutenant Jack Wilson Guest. Plans for the wedding will be announced later. Lieutenant Guest received his B.S. degree in T.E. in 1937.

SMITH-LEDBETTER

Miss Mary Gertrude Smith was wed to Lieutenant Selman A. Ledbetter, Jr., on October 18, 1941. Lieutenant Ledbetter graduated in the class of 1940, receiving a B.S. degree in I.M.

STEVENS-BAILEY

Mr. and Mrs. Frank Montfort Stevens announce the engagement of their daughter, Miss Genevieve Eloise Stevens, to Lieutenant Bruce Shaw Bailey. The wedding will take place in November. Lieutenant Bailey graduated from Georgia Tech in 1941, receiving his B.S. degree in Ch.E.

WILLIAMS-AYRES

Mr. and Mrs. Leonard Perkins Williams announce the marriage of their daughter, Janie Lumsden, to Noble Bronson Ayres. The wedding took place in November. Mr. Ayres received his B.S. in E.E. in 1941.

MOORE-KING

Exceptional social interest centers in the announcement of the betrothal of Miss Kathryn Edith Moore to Lieutenant Joseph Henry Lumpkin King III, the wedding to take place in November.

Mr. King graduated from Georgia Tech in 1941, receiving his B.S. degree in M.E.

SAUNDERS-CHILDS

The very interesting information recently reached Georgia Tech of the marriage of Miss Kathleen Saunders to Mr. Williams A. Childs, Jr., on August 31, 1941. Mr. Childs received his B.S. in Ch.E. in 1939 and is now with the St. Joe Paper Company, St. Joe, Florida.

Alumni Prominently Mentioned

Mr. Dwight C. Akers, Jr., B.S. in M.E., class of 1934, is the Lubrication Engineer of the Railway Division of the Texas Company, New York City.

Mr. Gaines Lamar Ball, B.S. in M.E., 1934, M.S. in M.E. 1936, is now the chief engineer of the West Point Foundry and Machine Company, West Point, Georgia.

Mr. Robert L. Bostick, B.S. in M.E., class of 1932, is now the manager of the National Theatre Supply Company, Memphis, Tennessee.

Mr. R. A. Burroughs, B.S. in Architecture, class of 1911, is now working as an Architect in Jacksonville, Florida.

Mr. Hedrick Cheverton, B.S., Georgia Tech, 1939, was awarded the degree of Master of Science in Chemical Engineering at Carnegie Institute of Technology, on June 2, 1941.

Mr. John D. Earle, Jr., B.S. in Chemistry, class of 1938, is now sales manager for the Earle-Chesterfield Mill Company in Asheville, N. C.

Mr. Donald R. Eastman, Jr., B.S. in I.M., class of 1939, is now a member of the National Advisory

Committee for Aeronautics at Langley Field, Virginia.

Mr. Robert Hudson Fetner, B.S. in E.E., class of 1923, is manager of the Firestone Tire and Rubber Export Company in San Juan, Puerto Rico.

Mr. Prentiss E. Findlay, Jr., class of 1927, is general superintendent of the Bibb Manufacturing Company in Porterdales, Georgia.

Mr. James W. Furlow, B.S. in E.E., class of 1931, is a pilot for the Eastern Airlines. He is at the Municipal Airport, Atlanta, Georgia.

Mr. Edward C. Fiss, M.S. in Chemical Engineering, 1938, is the chief chemist for the Duke Power Company in Charlotte, N. C.

Mr. Louis M. Gill, B.S. in Ch.E., class of 1929, is director of sales for the Darco Corporation in New York City, New York.

Mr. Ben Perry Jones, B.S. in I.M., class of 1938, is now production and cost manager, Canton Cotton Mills, Canton, Georgia.

Mr. Berry Grant has returned to Atlanta, where

Alumni Mention—(Cont'd.)

he has become associated with Courts and Company. Mr. Grant graduated from Georgia Tech in 1927.

Mr. Stafford W. Graydon, B.S. in E.E. at Georgia Tech, class of 1926, is director of personnel for the City of Atlanta.

Mr. J. H. Grayson, B.S. in G.E., class of 1926, is a shop inspector in Macon, Georgia.

Mr. Nat J. Greene, B.S. in E.E., class of 1930, is now chief engineer of the National Electric Coil Company. He resides in Worthington, Ohio.

Mr. W. Carey Hansard, Georgia Tech, 1929, is now a consulting ceramic engineer for the Atlanta Industrial Laboratories.

Mr. William Floyd Hamilton, B.S. in Engineering, class of 1926, is the chief engineer of the Ensign-Brickford Company in Simsbury, Conn.

Mr. Albert J. Hill, B.S. in M.E., 1932, is general factory superintendent of the Ciudad Trujillo, Dominican Republic.

Mr. William Gordon Howel, B.S. in M.E. in 1917, is general engineer for the Westinghouse Electric and Manufacturing Company in Lester, Pennsylvania.

Mr. Edward H. Hubert, B.S. in E.E. in 1912, is sales engineer of the L. J. Wing Manufacturing Co., New York, New York.

Mr. Woods W. Huff, B.S. in Ch.E., class of 1933, is treasurer and assistant manager of the Rockwood Mills in Rockwood, Tennessee.

Mr. Thomas James Hughes, B.S. in M.E. in 1939, is industrial representative for Johns-Manville in Birmingham, Alabama.

Mr. Charles P. Hunter, Jr., B.S. in G.E., class of 1927, is manager of the Des Moines Coca-Cola Bottling Company, Des Moines, Iowa.

Mr. Warren Irving, B.S. in M.E. in 1918, is district manager of Wilby-Kincey Theatres in South Carolina.

Mr. Willis Powell Lanier, B.S.C., class of 1927, is district manager of the Buckeye Cotton Oil Company in Atlanta, Georgia.

Mr. Laurence Ellis Mansfield, B.S. in E.E., class of 1916, is Southern sales agent of the International Paper Sales Co. in Atlanta, Georgia.

Dr. Shadburn Marshall, B.S. in Ch.E. in 1933, has accepted a position with the Remington Arms Company in Bridgeport, Conn.

Mr. Sidney T. Pruitt, Jr., B.S. in C.E., class of 1929, is assistant division manager of the Ethyl Gasoline Corp., in Dayton, Ohio.

Mr. George P. Rosser, B.S. in C.E., class of 1925, is assistant division manager of the Ethyl Gasoline Corp. in Atlanta, Georgia.

Mr. Daniel L. Scharff, B.S. in C.E., class of 1919, is secretary-treasurer of Scharff and Jones, Inc., in New Orleans, Louisiana.

Mr. Milton Morton Smith, class of 1923, is an agent for the Travelers Insurance Company, Atlanta, Ga.

Mr. William Parks Stevens, class of 1914, is president of the Atlantic Refractories Company in Macon, Georgia.

Mr. I. W. Summerlin, B.S. in M.E., class of 1916, is president and treasurer of the Carolina Engineering Co. in Durham, N. C.

Mr. Ken Carlton Thomas, B.S. in M.E., 1930, is manager of the Virginia Culvert Corp. in Richmond, Virginia.

Tech 20, Chattanooga 0

Georgia Tech's 1941 football machine, its gears failing to mesh properly, managed to jerk and sputter its way to a 20 to 0 victory over a well co-ordinated and smartly coached Chattanooga eleven.

The Jackets earned a touchdown on the second and third plays of the second period; got one on a pass interception in the early moments of the last period and the third on a 10-yard pass, following another pass interception when but half-a-minute of the game remained.

Johnny Bosch scored the first touchdown, Sophomore Davey Eldredge the other two.

Tech started its second team, not in disdain of the opposition but in order to let a number of untried players experience the baptism of football's zero hour. This team was held on even terms by Coach Moore's scrappy eleven. Shortly before the end of the first period, however, Coach Alex sent in Bosch with a few of the first stringers, and after that the Jackets started moving along very smoothly.

"We were very ragged out there today, but we were expected to be," remarked Head Coach W. A. Alexander, following the 20 to 0 victory of his twenty-second Georgia Tech team over the Chattanooga Moccasins.

"I thought Chattanooga had an unusually well-prepared team. They gave us more than we looked for and we knew that they might be tough."

Baby Jackets Start Well

"Although the number of candidates that reported for duty in the Baby Jacket lineup is small, there are several outstanding players among them who are expected to perform beautifully this year," Coach Roy MacArthur admitted.

The freshmen started training September 1, and have spent much time in scrimmages with the Varsity. During these meets the Baby Jackets showed themselves to have a rather heavy, well-rounded team with not a single weak spot in the lineup.

Here are some of the squad members who are expected to do well for the team this year: Jimmie Luck from Americus, Bill Bailey from Atlanta, and Eddie Prokop from Cleveland, Ohio, will hold down the wingback position. Earl Mann from Chattanooga and Al Burman from Atlanta will compete for the fullback post. Luther Rabun of Atlanta and Jack Faulkner will hold positions of blocking back. At the ends of the line will be Henson from Atlanta, Rabbit Jordan from Anniston, and Marvin Richter, who graduated from Columbia Military Academy. The tackle positions will be held by Ralph Slater from Atlanta, Jim Henry from Chattanooga, and Jene Lennod. Jake Cox, excellent punter, of Atlanta and Byon Morgan of Miami are expected to see service as guards this year. The center position will be filled by John Bell of Kingsport and Buster Beall of Atlanta.

During the year the Baby Jackets are allowed only three games on their schedule. The first of these was played in Jacksonville on October 25 against the Florida freshmen, which the Tech freshmen won by a score of 16 to 13. On November 4 they defeated Auburn's Cubs, 14-0. Thanksgiving Day they are scheduled to play the Georgia Bullpups at Grant Field.

Notre Dame 20, Tech 0

Notre Dame players paid their respects to Georgia Tech Oct. 11, at Grant Field, and when they had finished, Notre Dame had 20 points and the Yellow Jackets had none. The visitors just had more power than the Jackets could stand.

Thirty-one thousand people saw right end Murphy grab a forward pass whizzing from the passing arm of halfback Angelo Bertelli, in the first quarter for a short range touchdown. Then in the second period they saw Steve Juzwik sell out on a tricky reverse and gallop down the east sidelines 67 yards for another touchdown. In the third period, Juzwik said farewell to his fans from Atlanta by smashing the last few yards at the end of a short march for the third counter. Juzwik kicked two of the extra points and there it was.

The Engineers battled in the line with rare spirit and skill. Tackle Charlie Sanders lifted towering punts that were well covered. Davey Eldredge, the sophomore halfback, ran back the Irish kicks well. The Tech punting game well-handled kept the Jackets from being routed. In fact, the Engineers worked their kicking game so well that they had several chances to start a drive inside the Irish 30, but with Johnny Bosch, the star passing threat, injured, the passing was hopeless and the running attack was soon throttled.

In all around defensive play the Engineers looked far ahead of last year's team even with several first-string linemen on the bench and when the offensive—meaning Bosch—gets well they will go somewhere fast. All the sophomores did well in their first big game and certainly will improve.

Tech's running game operated by Dodd, Plaster, and Eldredge was good for 101 yards, but the Engineers, usually a fancy passing outfit, netted only 9 yards by the air.

The first quarter Irish score came from a 45-yard march in 9 plays with Bertelli passing perfectly. The second period counter came from Juzwik's fine run and the third, set-up on the Tech 32 by a recovered fumble, was done in eight plays.

Vanderbilt 14, Tech 7

A powerful, untied, undefeated Vanderbilt eleven upset a hard fighting Georgia Tech team October 18, at Dudley Field in Nashville by a score of 14 to 7.

Fifteen thousand fans sat under rain-soaked skies to see Jack Jenkins lead the Commodores resolutely to a touchdown in the second period on a 77-yard march and another in the third on a short 38-yard spurt. Moore's long, well-aimed punts kept Tech at a respectful distance through three quarters of the game.

The Engineers, with Bobby Sheldon operating in place of Johnny Bosch, swept 57 yards in seven plays in the fading minutes of the game before Sheldon sliced over for his first touchdown as a varsity player.

The Jackets had no chance to score in the first half but four times in the second they threatened inside Vandy's 30 and got over only once. In the third quarter the Engineers put on a 67-yard march with Bosch pitching passes well and Plaster smacking the line, but it died out on Vandy's five when Bosch threw one a bit too high for Webb to reach.

In the fourth, with Hancock sweeping the flanks on reverses and Dodd smacking through the center, the Yellow Jackets went 43 yards to Vandy's 23,

Tech 28, Auburn 14

Georgia Tech got back into harness with true football fighting spirit when the Jackets met Auburn in Atlanta on October 25.

Johnny Bosch, recovered (and how) from the knee injury which caused him to misfire for three weeks, supplied spark and driving power as Tech defeated the Auburn Tigers 28 to 14, while eighteen thousand fans cheered him to the echo.

Bosch tossed two precision passes for the first touchdown in the second period; ran back a punt 59 yards for another in the first playing minute of the third period and balooned a 33-yard aerial to Dave Eldredge on the goal line for the third score just a few minutes later. Mutt Manning, sophomore third-string center, intercepted Buck Jenkins pass on the Tiger 30 and plunged awkwardly but effectively to the Tiger one to set up the final score made by Bobby Dodd on a buck to the weak side. Fullback Ralph Plaster added the first three points after from placement and tackle Jack Helms booted the fourth one between the uprights.

Auburn dropped air bombs on bewildered Tech substitutes for their first score, midway of the final period; then ignored the return of Jacket regulars to key posts to continue the attack by air for the second tally. Inspired by these two scores, the Tigers came close to making a game of it in the last few minutes when Monk Gafford returned a Tech kick 40 yards to the Jacket 15, but on the first play from that point Charlie Finney fumbled and substitute guard Harvey Hardy recovered for the Jackets on his own 17.

The teams sparred spiritedly for all of the first half but the Tigers sagged noticeably after Bosch's brilliant punt return for the second Tech counter.

Charley Finney pounded for 4, being narrowly caught and almost clear. This focused attention of the nervous young Jackets on Tiger foot power and Auburn crossed them up with a pass, Gafford and

(Continued on page 34)

Vanderbilt 14, Tech 7—(Cont'd.)

but an alert Commodore defense intercepted a pass. Tech had a third chance when Harvey Hardy grabbed a Vandy fumble on the 28, but Eldredge fumbled right back.

Bosch, who had played most of the game, was pretty badly used up and out he came leaving direction of the team to Sheldon. And little Sheldon took them home with hard line plunging by Plaster and a 25-yard pass to Eldredge that put the ball on Vandy's 4. From there Sheldon drove off tackle for the marker with a minute left to play.

The starting Engineers were taking a rest in the second quarter when Vandy put on that first scoring drive. Sub ends and backs were in action when Rebrovich hit Baird with a 21-yard pass and then came wide around Tech's left end for 37 yards to Tech's 12. The Tech regulars came in on that gallop but Jenkins tore them apart for the rest of the distance.

Tech's offense showed improvement over what they generated against Notre Dame. They outrushed Vandy 17 first downs to 9 and outrushed Vandy 278 to 243 yards on passing and running plays, but when the goal line was only 20 yards away, they could score just once in 4 chances. Vandy batted 1,000—two for two—and that was the difference.

Positions Available

Be sure to inform the alumni or personnel offices at Georgia Tech should you communicate with any of the concerns listed. Don't hesitate to register with us, either, for future openings.

Positions available at present are:

Atlanta Woolen Mills, 598 Wells Street, S.W., P. N. McGinty, Personnel Director. (Mechanical Engineer in Yarn Mfg. Dept.; Chemical Engineer in Finishing Department).

Bemis Brothers Bag Company, Talladega, Alabama, R. A. Wells, Manager. (Young textile graduate for place in mill; Asst. Engineer specializing in E. E.)

Briggs Clarifier Company, 3262 K Street, N. W., Washington, D. C., Walter C. Bauer. (Mechanical Engineer—field lubrication work and design of lubrication machines.)

Brooks-Fisher Insulating Company, 686 Greenwood Ave., N. E., Atlanta, Ga., W. L. Markert. (Draftsman—to take off pipe line drawings.)

Callaway Mills, LaGrange, Georgia, R. E. McTigue, Personnel Director. (4 or 5 men for time study work.)

Charleston Shipbuilding and Dry Dock Company, P. O. Box 141, Charleston, South Carolina, Lieut. B. H. Bush. (Asst. Naval Architect—design and specifications; Associate Engineer—design and specification.)

Civilian Personnel Division, Southwestern Proving Ground, Hope, Arkansas, Harry L. Fox, Chief. (Electrical Engineers—War Department.)

The Coca-Cola Company, Bottlers' Service Department, P. O. Drawer 1734, Atlanta, Georgia, A. C. Johnson. (Chemist, Chemical, Mechanical, and General Engineers—traveling production survey.)

Cosco Products Company, Mayson Ave. and LaFrance Street, Atlanta, Georgia, J. M. Hall, Vice President. (Civil, Mechanical engineers, and Engineer with experience in detailing reinforcing bars.)

The Dellenbarger Machine Company, 3600-3608 Crawford Street, Philadelphia, Pennsylvania, L. Eric Jones, President. (Mechanical Engineer, detail drafting work and design of special machinery.)

E. I. DuPont De Nemours & Co., Inc., Niagara Falls, New York, Dr. P. M. Paulson. (Chemical engineer with experience.)

E. I. DuPont De Nemours & Co., Inc., Spruance Plant, P. O. Box 1477, Richmond, Virginia, F. T. Richards, Personnel Supervisor. (Mechanical and Chemical Engineers.)

E. I. DuPont De Nemours & Co., Inc., Wilmington, Delaware, George S. Long, Personnel Division. (Electrical Engineers.)

Federal Power Commission, Washington, D. C., H. M. Thomas, Division of Personnel. (Electrical, Civil and Mechanical Engineers.)

International Business Machine Corporation, 293 Peachtree St., N.E., Atlanta, Georgia, H. A. Campbell. (Electrical and Mechanical Engineers.)

International Paper Company, Southern Kraft Division, Springhill, Louisiana, F. C. Runnels. (Draftsman.)

Kendall Mills, Paw Creek, N. C., Richard P. Calhoon. (Mechanical Engineer with 3 to 5 years' experience. Traveling job in North Carolina.)

Kershaw Butler Engineers, Ltd., Huntsville, Alabama, Personnel Department. (Architectural Draftsmen; Mechanical Engineers.)

Louis Allis Company, 427 East Stewart Ave., Milwaukee, Wisconsin, H. L. Smith, Chief Engineer. (Mechanical Engineer for Electrical Motors. Design and application.)

Medley Manufacturing Company, Columbus, Georgia, J. R. Whitehurst. (Textile Engineer—drafting.)

Minneapolis-Honeywell Regulator Company, Minneapolis, Minnesota, G. B. Benton, Personnel Manager. (Electrical Engineer—electronics.)

The Monitor Controller Company, Baltimore, Maryland, C. R. Durling, Jr., Sales Manager. (Electrical and Mechanical Engineers—drafting and lay-out.)

Monsanto Chemical Company, St. Louis, Missouri, R. B. Semple, Asst. Development Director. (Chemical and Mechanical Engineers.)

Naval Research Laboratory, Anacostia Station, Washington, D. C., A. Hoyt Taylor, Supt. Radio Division. (Electrical Engineers for general radio work.)

Office of Price Administration and Civilian Supply, Washington, D. C., Joel Dean, Price Executive in Charge of Industrial and Agricultural Machinery. (Industrial Management, Electrical and Mechanical Engineers.)

The name Creo-pine on Creosoted Southern Pine is more than a trade mark. It is a pledge of honest, accurate manufacture and rigid inspection from standing tree to finished product. Back of it are 34 years of wood preserving experience. Specify Creo-pine products for long life and lowest cost per year of service.

Creo-pine Products Include:

Poles	Floor Blocks
Piling	Subflooring
Conduit	Bridge Timbers
Cross Ties	Structural Timbers
Cross Arms	Guard Rail, etc.

Office of Production Management, Division of Civilian Supply, Washington, D. C., Norris B. Gaddess, Acting Executive Officer. (Industrial Engineers—management and production.)

Pittsburgh Metallurgical Company, Niagara Falls, New York, J. E. Barry, General Supt. (Mech., Elec., Chem., and Gen. Engrs.—ferro alloy business at Niagara Falls or Charleston, S. C.)

Plantation Pipe Line Company, 1032 Healey Building, Atlanta, Georgia, H. B. Britton. (Elec. Engr., drafting.)

Pure Oil Company, Construction Division, 735 Forsyth Building, Atlanta, Georgia, C. A. Peterson. (Draftsmen—lay-out for pipes, floor plan, with no elevation. Civil Engr., Architect.)

RCA Manufacturing Company, Inc., 501 N. LaSalle St., Indianapolis, Indiana, L. M. Decker, Personnel Division. (Mechanical and Electrical Engrs.)

Savannah Machinery & Foundry Co., Shipbuilding Dept., Box 590, Savannah, Ga., W. L. Mingledorff (Tech 1933), Vice-Pres., wants to employ several fairly recent engineering graduates, M.E.'s and E.E.'s, preferred, for drafting and estimating. Good salary.

Southeastern Pipe Line Company, 714 Forsyth Building, Atlanta, Georgia, John Waters. (Senior Engineer, Electrical Engineer, design equipment, machinery for Pump Stations; Mechanical Engineer, drawing and drafting.)

Southern Cotton Oil Company, P. O. Box 280, Savannah, Georgia, H. D. Royce, Research Department. (Chemist, Chemical Engineers, for work beginning in November.)

W. D. Taulman, 179 Spring St., S. W., Atlanta, Georgia. (Mechanical Engineer—sales engineering in pipes, valves, etc.; Civil Engineer—general sales contact work and design in sewage disposal.)

Trojan Powder Company, Allentown, Pennsylvania, D. G. Williams, Chief Engineer. (Chemists and Chem. Engrs.)

Union Bag & Paper Corporation, P. O. Box 570, Savannah, Georgia, R. R. Read. (Mech. Engr.—machine design.)

Virginia Smelting Company, West Norfolk, Virginia, A. K. Scribner, Asst. Mgr. (Chemical Engineers.)

Westinghouse Electric and Manufacturing Company, Westinghouse Lamp Division, 426 Marietta Street, C. A. Conklin, Manager. (Electrical Engineers, or Electrical background. Contact man to serve as engineer in lighting problems—speaking ability and good personality.)

Duke 14, Tech 0

Duke's Blue Devils snatched two touchdowns out of the air Saturday, November 1, at Grant Field, to gain a 14-0 victory over a hard-fighting team of Tech Engineers, to place themselves among the leading contenders for a bid to Pasadena's Rose Bowl on New Year's Day.

The Yellow Jackets stepped into their fifth game with a solid wall of defense, a lightning running attack, and a much improved aerial game.

It was not until Tech gave those big boys from Durham plenty of worry that Duke was able to connect a long pass from Davis to Lach to chalk up a score in the closing seconds of the first half. In the third period of the game Davis completed another aerial and gleaned another score by passing to Bob Gantt, the behemoth sophomore end.

Although the Blue Devils managed to come out on the heavy side of the score, they were trailing far behind Tech's well balanced team in every department except the passing. The Engineers rushed through a heavy Blue Devil line for a distance of more than twice the length of the field. Nineteen times the head linesman had to wave the first down marker closer to the goal defended by the Blue Devils. Duke was able to retaliate with but 12 of these markers.

To attempt to pick out the most outstanding Yellow Jacket player during Saturday's tilt would be difficult indeed. Every man on the squad played with a spirit and determination that has always been a part of Tech.

Johnny Bosch entered the game in fine shape, but a twist of his knee soon sent him off the field over the shoulder of Claude Bonds. Duke realized that this break removed some of the sting of the Yellow Jacket attack. It also served, however, to let Bobby Sheldon play a major part of the game. In the minds of the fans who flocked to the stadium, it was Sheldon's game all the way. He passed, blocked, and ran in a manner that seemed almost beyond his best. Tech suffered by having Bosch on the bench, but they were relieved in having Sheldon to fill his shoes.

Little Davey Eldredge played heads-up football from start to finish, his shifty feet accounting for many of the 201 yards that Tech gained over the turf. The whole forward wall of the Engineers' squad was as tight as the bulkhead of a battleship. They withstood a terrific barrage of heft and rarely gave an inch.

It is not to be said that the Dukes failed to put up the fight that an unbeaten team should. Davis and his tall receivers, Gantt and Lach, put on a beautiful show of air power. The fact that the Blue Devils had considerable trouble in staying ahead of their persistent opponents should only serve to show that Tech has an able ball club that is undoubtedly on the way to the top.

Wycoff Added to Coaching Staff

Doug Wycoff, one of Tech's few four-lettermen, has been added to the Yellow Jacket football scouting staff.

The husky ex-fullback will help Roy McArthur and Norris Dean with the scouting this season. Wycoff, who played professional football several years, knows plenty about the game.

He is the second addition this season to the Tech athletic staff, Hawk Cavette, last year's captain, being the other.

Tech 20, Kentucky 13

Georgia Tech started off with a rush against Kentucky in Atlanta, on November 8, and built up an early 13-point lead, but the Wildcats were out for the game and Tech was never comfortable, although the team stayed ahead throughout the contest.

The first score went to the Yellow Jackets when a 43-yard reverse by speed merchant Pat McHugh and a brilliant end-around by Harry Arthur set the scenes for Bobby Dodd's second line buck to pay dirt. Ralph Plaster, called into the game for the try, missed the point after touchdown. The score at the end of the first quarter was 6-0 for the White and Gold.

The second Tech drive occurred in the second quarter when Johnny Bosch safe-caught Mullin's kick on the Tech 45. Using all the offensive power they could muster—short sweeps by little Dave Eldredge, spins through the line by Bosch, and power through the courtesy of Plaster and company, the roving Engineers hove up on the Kentucky 4. A couple of smashes through the line by our boy Plaster and the Wildcats were perfectly willing to concede the six points. Just to top things off, Mr. Plaster kicked for point—good this time, and left the score 13-0 Tech, deep into the second period.

In one of the wackiest plays yet seen, the Wildcats tallied just before half time. Phil Cutchin, seeing time before half for only one more play, sat back behind a line that gave him all the time he needed and uncorked a beautiful pass. The starter's gun went off while this pass was in the air, but it failed to scare the Wildcats out of their first score, and at the half time: Kentucky 7, Tech 13.

Little Bob Sheldon started the ball rolling for the third Tech touchdown when he clipped off 25 yards on a return of a hurried Wildcat punt. Just six plays and thirty-five yards later Bosch went over standing up for the third tally. The point was added, putting the score at 20-7, Tech.

Getting started a little late, Ermal Allen and his boys drove 65 yards for the second mark of the Wildcats. The drive was highlighted by brilliant runs of Mullins and Allen, and topped by a pass, Allen to Carl Althans, which put the pigskin right down on the Tech 4. The touchdown clicked, the point after misfired, and the final score was Tech 20, Kentucky 13, with the Jackets again on the march at the final gun.

Tech 28, Auburn 14—(Cont'd. from page 32)

Finney for 11. Gafford faked a pass and slanted for 4 and followed this up with a 13-yard toss to Billy Barton, which put the ball on the Tech 21. Fans looked to Head Coach Alexander in anticipation of the return of the Tech regulars, but all occupants of the Tech bench remained seated. Gafford again fooled the subs by faking a pass and ran 17 yards to the Tech 4 and still no line-up changes were ordered by Alexander, made smug and comfortable by his team's lead of 28 points and possibly anxious too, to see what the untried lads would do in the matter of a goal-line-stand. He saw them split wide as Jim Reynolds sliced through the weak side for the touchdown.

Tech's ends, Arthur, Webb, Burroughs and Marshall, played magnificent defensive games. Theirs was the job of turning Auburn's backs and not once during the game did they allow a ball carrier to get outside.

Georgia Tech Alumni in the Army and Navy

It is considered important again to state that the alumni survey, covering those who are now on active duty, is being assiduously continued and the assistance of all alumni and other friends, particularly those in the service, is urgently requested for information on all Georgia Tech men in the service on whom we have no record to date, or on whom our present records are incomplete or incorrect.

Including the 1941 class, some 1,550 reserve commissions have been granted in the Army R. O. T. C. alone at Georgia Tech, since the granting of the department's first army reserve commissions in 1920.

Likewise, some 402 Naval R. O. T. C. commissions have been granted since 1930, when reserve commissions in the Navy were first granted at Tech. This does not take in account those who have received permanent commissions in the Navy supply corps and the Marine corps, nor the

eight Navy seniors this year who were named to the Navy supply corps for permanent commissions.

In all, there are 1,961 and more who have earned their reserve commissions in the excellent Army and Navy R. O. T. C. units at Georgia Tech, and it is safe to assume that all of them, as physically fit, are now in their respective branches of the service.

The foregoing total of 1,952 and more doesn't complete the figures by any means for, as may readily be seen, large numbers on the comprehensive list as published below and those yet to be published were not in the R. O. T. C. branches, or in the full-time reserve courses, while at Georgia Tech.

More lists are to be shown in subsequent issues of the Alumnus. A partial roll, however, of those now in the service is continued as follows:

Army

Colonel G. R. Barker, G.S.C., Headquarters Third Army, Smith-Young Tower, San Antonio, Texas.

Lieutenant Colonel C. S. Johnson, 90 Church St., New York, N. Y.

Major Charles B. Bottoms, (B.S. '23), U.S.A., 179 Field Artillery, Camp Blanding, Fla.

Major Andral Bratton, QMC, Fort Amador, Canal Zone.

Major Joseph H. Chaille, (G.S.C. '27), Post Headquarters, Pine Camp, N. Y.

Major K. J. Fielder, U.S. War Dept., Washington, D. C.

Major Don C. Keller, (Station not given.)

Major Frank Marshall, Fort Barrancas, Fla.

Major Ronald N. Schartle, Fort Barrancas, Fla.

Captain Charles Bean, C.A.C., Porto Rico.

Captain Nathan A. Brown, (Comm. '23), U.S.A., Office of Asst. Chief of Staff for Military Intelligence, Quarry Heights, Panama Canal Zone.

Captain R. M. Fickett, III, (Station not given.)

Captain Marvin H. Floyd, (Ch.E. '32), C.A.C. Unit, Georgia Tech, Atlanta, Ga.

Captain Garnett J. Giesler, (E.E. '32), Ordnance Unit, Georgia Tech, Atlanta, Ga.

Captain John S. Gruell, S.C. R., Fort Knox, Ky.

Captain H. G. Hascel (C.E. '31), C.A.C., Calif.

Captain Louis A. Hawkins, Jr., Finance Dept., U.S.A., Camp Forrest, Tenn.

Captain Harold N. Hill, Ordnance Dept., 700 Frank Nelson Bldg., Birmingham, Ala.

Captain "Red" Hunter, (Station not given.)

Captain Thomas F. Lundy, Jr., Corps Area Ordnance Office, 90 Church St., New York, N. Y.

Captain Edward S. Mathes, (M.E. '32), 96th Coast Artillery (AA), Camp Davis, N. C.

Captain Stewart A. Morton, (Station not given.)

ATLANTA

NEW YORK

WASHINGTON

An organization with a Nationwide Scope, Serving Clients in Thirty States

Here come life lines of national defense

Additional telephone lines speed defense everywhere.

Army camps must have plenty of telephone lines.

On ship and shore the Navy relies on telephone lines.

Industry requires, and obtains, more telephone lines.

Telephone lines are life lines. They carry the communications so vital to our expanding defense program.

The photograph shows wires being made into a telephone cable. Such cable—containing billions of feet of this wire—is being rushed by Western Electric to meet the urgent telephone needs of the armed forces and of industry.

So too, in vastly increased quantities, are being sped telephones and switchboards—and radio apparatus for the air forces and the Signal Corps.

The efficiency of Bell Telephone service is more than ever essential to government and business, and now as always Western Electric can be counted on to supply the life lines.

Western Electric

*... is back of your
Bell Telephone service*

Refresh yourself

Pause at the familiar red cooler for ice-cold Coca-Cola. Its life, sparkle and delicious taste will give you the real meaning of *refreshment*.
