

Tau Beta Pi Society Elects New Members

By Marvin Gechman

Last Thursday evening, November 8, 1951, the Georgia Tech chapter of Tau Beta Pi, national honorary engineering society, met to elect new members from this year's junior and senior class. Election to Tau Beta Pi is considered one of the highest honors attainable on the campus. Membership to the organization signifies attainment of excellence in scholarship, professional merit, character, loyalty, personality, leadership, and school activities.

The seniors elected to Tau Beta Pi this year are:

Adams, Edgar G.; Avery, Hugh E.; Brantley, Raymond E.; Cooke, Harry J.; Costanza, Joseph; Dinat, Robert M.; Fischer, Dan C.; Hole, Howard D.; Humphrey, Robert E.; Hunt, Clark W.; Kuniansky, Max; Matthes, Carl E.; Muroski, Walter G.; Pullen, L. B.; Richardson, Wayne L.; Rosser, George T.; Rumble, Hollis T.; Slaughter, Robert H.; and Williams, Francis H.

Juniors who were elected to Tau Beta Pi are:

Abner, John R.; Adams, George W.; Austin, M. B.; Blanchard, Elwood P.; Bogue, Donald C.; Bradbury, William D.; Bollock, Ben H.; Carlin, Dennis; Clark, Martin; Davidson, J. Dean; Duke, Donald A.; Feuchtwang, Thomas E.; Fuss, LeRoy; Hawkins, W. R.; Johnson, Richard C.; Kelsey, George S.;

King, J. G.; Lauber, Earl L.; Lentz, Ervin C.; Leveille, Richard R.; McAllister, Jack D.; McLain, Donald R.; Neal, Richard D.; Pegram, Joseph T.; Powers, Sidney

A.; Price, Frank E.; Sebastian, Fred G.; Stancil, Robert T.; Sutton, George L.; Wheeler, Harry A.; and Wood, Freddie H.

The standards of Tau Beta Pi are a measure of proficiency to which all students in the engineering field are compared. Tau Beta Pi was founded in 1885, by Dr. E. H. Williams, at Lehigh University. Since that time it has grown in recognition, and now it is the largest honorary engineering fraternity in the country.

Tau Beta Pi was installed at Georgia Tech on February 6, 1925, and membership is considered one of the highest honors attainable at Georgia Tech. Eligible for membership in the society are those men in the upper one-tenth of the engineering junior class and the upper one-eighth of the engineering senior class.

The organization does not rest on past accomplishments for it is ever active in school life. Its efforts go into many projects. The local chapter of Tau Beta Pi, along with Phi Kappa Phi, the honorary senior fraternity, annually gives a scholarship cup to the senior with the highest four year average in the engineering school.

Civil Service Exam Offered To Supply Engineer Trainees

The U. S. Civil Service Commission has announced a Highway Engineer Trainee examination for filling jobs paying \$3,100 and \$3,825 a year.

The Highway Engineer Trainee program offers an opportunity to qualified persons to participate in special training programs in the Bureau of Public Roads and to become acquainted with the work of the Bureau. To qualify, all applicants must pass a written test. Applicants for jobs paying \$3,100 a year must have complete three-fourths of the total number of credits required for the bachelor's degree in civil engineering; and applicants for jobs paying \$3,825 a year must (a) have completed a 4-year or longer professional

civil engineering curriculum, or (b) have had 4 years of professional civil engineering experience, or (c) show a combination of such education and experience. Applicants will be accepted from college students who expect to complete the required amount of study by September 30, 1952.

Further information and application forms may be obtained from most first- and second-class post offices, from Civil Service regional offices, or from the U. S. Civil Service Commission, Washington 25, D. C. Applications will be accepted by the Commission's Washington office until February 5, 1952.

Most of the positions to be filled from this examination are located in Washington, D. C., and throughout the United States. However, a few positions located in the Territories and possessions of the United States and in foreign countries, may also be filled. Most of the vacancies are in the Bureau of Public Roads of the Department of Commerce. As this Bureau operates throughout the United States, its Territories and possessions, and in several foreign countries, appointments to these positions may involve assignment in any part of this country.

Cheerleaders

All freshmen who are interested in trying out for the freshman cheerleader squad report for practice on the west side of the gymnasium on Monday, Wednesday, and Friday at 3:30 o'clock. Any student who is classified as a freshman is eligible for the squad.

Tech Football Squad Gets Orange Bowl Bid

New Year's Day Classic To Be Tech's Eighth Bowl

By Gene Lorenz

Georgia Tech's football team has been selected by the Orange Bowl committee to be one of the participants in the annual Miami gridiron classic on January 1, 1952. Negotiations were started last Monday. Tuesday the jubilant Jackets secretly screamed their approval. Thursday at a special session the athletic board gave its unanimous official sanction, and the signed contract calling for a \$90,000 consideration was mailed back to the Magic City.

President Blake R. Van Leer, smiling proudly, termed the selection this soon before the end of the season "a great compliment to Tech." Colonel Van Leer stated he was "highly pleased for Tech to have the opportunity to participate." The president added, "we consider the Orange Bowl the most attractive of all the bowls. The wonderful climate in Miami is a most important factor. It will give the team and the students who attend a chance for a really different environment. They will be able to go bathing, boating and swimming—a great change from our own locality in Atlanta."

Dodd Beams

The happiest man of all though is the Chief Engineer of the Rambling Wrecks, Coach Robert Lee Dodd. He could hardly contain himself. His usual joviality broke into a rash, and his ready smile spread literally from ear to ear. "It's a great tribute to Tech. The boys have been playing fine ball and they deserve it," gayly remarked Mr. Dodd.

Charlie Griffin, business manager of athletics, dished out the full particulars about tickets. Tech's allotment is 10,000 ducats in a location as yet undetermined, but Mr. Griffin went to Miami for a conference with Bowl officials yesterday morning and he has given assurance that he will do his utmost to secure the best possible sections for Tech distribution. The allotment is more than twice the number our school received for their 1948 appearance in Miami.

Student Sales

Sale of tickets to students will begin on Wednesday, November 14, at 8:30 a.m. in the athletic office. With an increased number of tickets, the plan is for each student and faculty member to be allowed two tickets each while alumni will be granted four. If sales through these three channels do not absorb the total number, limited distribution will be made to Tech's gridiron friends, the season ticket holders.

Purchases will be made on a special receipt form, similar to the one used in 1947, to eliminate scalping to the greatest possible

degrees. Tickets are \$6.25 each. Either cash or check will be accepted by the AA. The student's I.D. card will be necessary both at the time of sale and at the time of delivery in Miami.

Important Rules

Following is the major excerpt of the student ticket receipt: "Delivery of ticket will be made at the FLAMINGO HOTEL in Miami Beach, Florida, between the hours of 10:00 a.m. and 5:00 p.m. on December 29th and 31st, 1951, and between 8:00 a.m. and 9:30 a.m. on January 1, 1952. All tickets not called for in person will be given away and a refund will not be made."

"Cancellations and a refund will be made at the Athletic Office if this receipt is presented by noon of the 1st day of December, 1951."

"This receipt must be accompanied by I.D. Card. This receipt is Non-transferable and ticket must be called for by the individual whose name appears on this receipt. Any student who sells or transfers this receipt will be subject to action by the Executive Committee of Georgia Tech."

The reason for the December 1 deadline on returns is the requirement from Miami that any unsold portion of Tech's allotment be in Miami by December 5. To avoid any possible disciplinary action by Tech authorities, Mr. Griffin strongly urges that students not purchase tickets unless they intend to use them themselves.

Great Tribute

Georgia Tech's reputation has been solidly bolstered by this unheard-of contracting so far in advance. The Yellow Jackets were signed with four games remaining, two of them with major opponents. It will mark the eighth time the

(Continued on page 2)

Spanish Students

Notice to Spanish speaking students. Spanish speaking students having difficulty with English contact Mr. Frank Brawder, CR. 8486.

Mr. Brawder has lived with Spanish speaking countries for a number of years and if enough are interested he will be glad to organize a class of students desiring such aid.

George C. Griffin,
Dean of Students.

Seniors

All seniors finishing their course at the end of the present quarter who do not have credit for a course in United States Government either by transfer credit or by taking EC 51, EC 323, old catalogue, SS 102, SS 107, SS 323, or SS 324 must take the examination on the United States Constitution.

Arrangements have been made with the Executive Dean to hold these meetings as follows:

Lecture:

Time—4:00 o'clock.

Place—Rooms 207, 208, 211, Swann Hall.

Date—Monday, Nov. 12, 1951.

Examination:

Time—4:00 o'clock.

Place—Rooms 207, 208, 211, Swann Hall.

Date—Tuesday, Nov. 20, 1951.

Tech IRC Group Plans Discussion By German Consul

The International Relations Club of Georgia Tech has just extended an invitation to the students and faculty members to attend a talk and discussion by Dr. George Ahrens. Dr. Ahrens is the First German Consul in Atlanta representing the West-German Republic.

Since the United States officially ended the war with Germany, the West-German Republic opened a German consulate with three consuls in Atlanta. The First Consul, Dr. George Ahrens, accepted an invitation by the International Relations Club of Georgia Tech to speak about "Latest Developments in Germany."

Students and faculty members are cordially invited to participate in the ensuing discussion and thus to give the German consul an opportunity to report to his government on the views and feelings of our academic youth. Dr. Robert Scharf, faculty sponsor of IRC, has announced the meeting with Dr. Ahrens will take place on Tuesday, November 20, at seven o'clock in the Tech YMCA building. As previously mentioned, everyone is cordially invited to attend.

Air Force Commissions Available To Graduates

A university degree and professional experience in the basic sciences — physics, chemistry, biology or mathematics — or in engineering in any of its branches, will now enable men in civil life to apply for an officer's commission in the Air Force, according to an announcement from the First Air Force, at Mitchell Air Force Base, New York.

These "design and development officers," as they will be designated, must have qualifying experience in one or more of the following areas of experience; aeronautical, mechanical, or electrical engineering; physics, chemistry or the biological sciences; armament, guided missiles, propulsion, sero-

mechanisms, aerodynamics, airplane design, wind-tunnel testing, thermodynamics, photographic interpretation, seismology, or hydrology.

Appointments will be made in grades from second lieutenant up to lieutenant colonel, depending on age. Applicants for second-lieutenancies must have a master's degree in one of the specified fields, or a bachelor's degree plus one year of qualifying experience.

Requests for further information should be addressed to Lieut. Col. Charles D. Morat, Jr., Director of Military Personnel Procurement, Headquarters First Air Force, Mitchell Air Force Base, New York.

DramaTech To Present First Play of The Season

By John Langford

With their forthcoming play, "The Live Wire," less than three weeks off, DramaTech is putting the finishing touches on what promises to be an excellent production.

The cast of the "The Live Wire" includes a few new faces in addition to the old DramaTech members who have been in past performances. This group is being assisted by the capable experience of Clare Sears, professional radio and television actress who has performed with such stage notables as James Dunn and Miriam Hopkins.

This season DramaTech is playing at the Woman's Club Theater, site of the Atlanta Civic Theater productions. This is the first season for Techsters at this playhouse. For those who wish to take advantage of the advance sales, tickets for both nights, November 30 and December 1, are now obtainable from DramaTech members from only seventy-five cents.

The following contains a summary of characters and some brief

information about a few of the actors selected to play the parts.

John Tobey.....	Frank Taylor
Horace Lundquist.....	Bob Hutton
Ev Brogan.....	Bob Gold
Leo Mack.....	Tony Pelligrino
Mitchell Mack.....	Bob Cipolat
Rip Hulett.....	Paul Liberman
Sam Crocker.....	Gene Alford
Michael Shannon.....	John Langford
Sol Margolis.....	Dan Santacroze
Granny Schenk.....	Jay Dougall
Ursula Poe.....	Ruth Hutton
Mr. Finch.....	Tom Severinghaus
Dorothy Parrish.....	Nancy Wastler
Liz Fargo.....	Clare Sears
Brian Freer.....	Russ Leverett
Harry Holland.....	Bill Mitchell

Frank Taylor, who plays the "regular guy" role of John Tobey, will play in his sixth DramaTech production. His previous performances were in "Command Decision," "Bishop Misbehaves," "See My Lawyer," "The Traitor," and "Boy Meets Girl." Frank is a Chemical Engineering senior from San Antonio, Texas.

Paul Liberman, who is Rip Hulett in the play, is an Architecture senior from Sao Paulo, Brazil. One of DramaTech's two oldest members, Paul has appeared

(Continued on page 8)

Bowl Bid—

(Continued from page 1)

White and Gold have struck for post season glory, and the fourth time in the Orange Bowl. To date Tech's bowl record stands five won, two lost and none tied.

The 1939 Yellow Jacket team was the first to play in the Miami affair. They came out victorious on New Year's Day of 1940, whipping Missouri 21-7. Tulsa tripped Tech 26-12 in the 1944 game, and the Jackets edged Kansas 20-14 their last time down there in 1948.

Luck Charm Broyles

Backfield coach Frank Broyles has a new nickname. He's now "Bowl" Broyles. Frank played four seasons for Tech and each year the Jackets went to a bowl. Returning to the Flats this season to tutor the offensive backs, Broyles keeps his phenomenal record intact. His first year here Tech was dumped 14-7 by Texas in the Cotton Bowl. In 1943 Tech nipped Tulsa 20-18 in the Sugar Bowl. The following year was the Orange Bowl loss to Tulsa again, and after a service tour, "Bowl" came back to quarterback the Jackets to a 41-19 Oil Bowl rout of St. Mary's.

When Coach Dodd presented the invitation to the football squad at practice Tuesday afternoon, Rose Bowl's concrete walls almost crumbled from the affirmative vocal blast.

Deserving Reward

Though Tech has been in more major bowls the past decade than any other team in the country, no one on the present squad has played in a New Year's tilt. The outcome in Miami on January 1 will be relatively unimportant. But it's surely gratifying to know that the whole team will be rewarded with a perfect vacation journey for their sensational showing this season. Alabama Saturday and Georgia on December 1 are no small obstacles in the road to proving the Orange Bowl committee selection of Tech was a wise one. But with the very able coaching staff of Graves, Woodruff, Broyles, Urban, and Lyle to guide the Daddsmen—and an invaluable B-team under coaches Keith, Pittard, Miller and Bossons to test the varsity—the spirited Yellow Jackets should capture the remaining games and support their enviable position.

Nanette McBurney, "1951-52 Sweetheart of Sigma Chi."

Sweetheart of Sigma Chi Named At Annual Dance

On last Friday night the Beta Psi chapter of the Sigma Chi fraternity held its annual Sweetheart Ball at Peachtree Gardens. At the dance Nanette McBurney was named 1951-52 "Sweetheart of Sigma Chi." She was chosen from a group of twelve candidates by the members of the fraternity.

About one o'clock Friday afternoon the week-end began for most of the members. The house was vacated by the brothers at this time, and their dates were given complete charge of the house. Mr. and Mrs. J. L. Fossett were their chaperons and stayed in the house with the girls.

The dance began at nine o'clock with Bill Clarke and his orchestra supplying the music. The hall echoed with soft music all evening. There was a blend of slow and fast music all evening so that no one became tired of either.

Peachtree Gardens was decorated with the atmosphere of fall. There were "hearts" of red to symbolize the name of the occasion. Behind the band was a large replica of the Sigma Chi Cross through which the candidates walked as they were introduced.

As the candidates for the title of "Sweetheart of Sigma Chi" marched through the cross, they were introduced by Bill Dean and then escorted to the dance floor by their dates. After all the girls were introduced the president of the chapter, Don Bennett, as is the custom, broke on Nanette McBurney and named her "1951-1952 Sweetheart of the Beta Psi Chapter of Sigma Chi." Don presented her with a sweetheart pin from the chapter and with a loving cup having the proper inscription. The

Dean Ajax Heads Job Placements

On November 3, a letter was sent to 6,214 companies throughout the country concerning the Georgia Tech graduating class of 1952. This was the first major step of the Placement Service to get these students jobs when they graduate. The letter tells the number of students graduating at the end of each quarter during the year and invites the companies to come to the campus and interview these men.

In January the representatives will start to come. They will give mass interviews and then individual talks with those students who are interested and considered qualified to work with their company. In 1950 there were 580 companies

represented on the campus who held 15,164 individual interviews.

Behind this is the Placement Service under Dean Ajax which, because of the large number of firms that it is in contact with, is probably the biggest service of its type. Through this office job contacts are made not only for the regular students but for graduate students

and alumni as well.

To aid the students and graduates, the interviews are arranged and information on how to get and hold a job is given. They are also told how to make the best impression during talks with business representatives and how to write the necessary correspondence that goes with getting a job.

For the alumni the service is much the same. Graduates of Tech who need a job can leave a card telling their experience and type

Campus Interviews on Cigarette Tests

No. 27...THE LYNX

This sporty student really teed off on a long tirade when he found himself stymied on the "single puff" and "one sniff" cigarette tests. "They're strictly for the birdies!" said he. He realized that cigarette mildness requires more deliberation than a cursory inhale or exhale. Millions of smokers concur — there's only one true test of mildness and flavor in a cigarette.

It's the sensible test... the 30-Day Camel Mildness Test, which simply asks you to try Camels as your steady smoke on a day-after-day, pack-after-pack basis. No snap judgments! Once you've tried Camels for 30 days in your "T-Zone" (T for Throat, T for Taste), you'll see why...

After all the Mildness Tests...

Camel leads all other brands by billions

HOMEcoming THIEVES

The weekend was marred by malicious student behavior.

For a number of years, the Homecoming week-end has been an event enjoyed by many. This year, however, the week-end was marred for several groups by the thoughtlessness of certain students.

It is fairly well-known around the campus now, that the Kappa Sigma fraternity lost approximately \$200 worth of lumber from the lot on which their new house is being constructed. It was reported that several students were seen carrying the materials from the lot around two o'clock Friday morning.

The various schools in the institution have always cooperated with the students in building their Recks and constructing their displays. This past week, however, it was reported that several very expensive pieces of equipment that were borrowed by the students during the Homecoming week-end are missing.

It is difficult to see why a group of students would steal materials from other students to enter a contest sponsored solely for students. It has been

brought to our attention that some group might have stolen materials rather than buy them, in order that they might stay within the \$35 limit set on the Homecoming display expenses. Although this reason for the existing situation is somewhat doubtful, it should be noted that although the costs of materials for the decorations have increased sharply in recent years, the limit on expenses has remained practically the same.

Of course, this particular problem will not have the opportunity to present itself again until Homecoming next year. We feel, however, that while the last Homecoming is still fresh in everyone's mind, the situation should be recognized by the various organizations participating in the contests.

No real solution can be offered to a problem of this type. Its solution will depend solely on the proper consideration being given to it by the student body before Homecoming next year.

—WmED

Dr. Brittain

... is congratulated by Tech on his eighty-sixth birthday.

The grand old gentleman of Georgia Tech, Dr. Marion Luther Brittain, observed his 86th birthday Sunday.

One of the major items on Dr. Brittain's birthday scheduled was his customary role as teacher of the Men's Bible Class of the Second-Ponce de Leon Baptist Church. A deeply religious man, he has often mentioned that the relationship he enjoys with his Sunday School class is one of the real pleasures of his life.

For his birthday dinner, Dr. Brittain ate of a baked Kentucky ham sent to him last week by one of the thousands of Georgia Tech alumni of whom he is a virtual patron saint.

Dr. Brittain became president emeritus of Georgia Tech in 1944, after twenty-two years as president of the institution. During the past seven years, he has never lost interest in Georgia Tech. He is still very much concerned with the affairs of the institution which owes him so much.

We of The Technique are proud of the privilege of congratulating Dr. Brittain on his birthday. We speak for the entire student body, faculty, and administration of Georgia Tech in wishing for him the happiest of birthdays and hoping that this happiness will last through the years to come.

—WmED

Dollar Shortage

... is universal among students in nearly all colleges.

If there's one almost universal trait among college students, it's the fact that they're always in need of money. Whether it be for more important matters such as tuition and books, or for the relative trivialities such as the Saturday night date, there's always the dollar shortage to contend with. College authorities and an occasional rare alumnus have tried to help the more destitute of us by establishing various loan and scholarship funds to meet just about every type of minor financial scrape we can find ourselves in.

The money's there and so are the people who need it. The only hitch

is that few know where the sundry loan funds are located, and fewer still have ever heard of them. The currency, instead of circulating, is comparatively frozen. We understand Dean Corey (Student Life) is making a survey of the available loan sources for students. It might be advisable if the Department of Student Life could follow along these worthy lines, perhaps extending them a bit to the point of issuing a comprehensive brochure, containing all pertinent scholarship and loan information and directing the student as to the best means of making application for such grants.

—The Campus

Bowl Bid

Tech's Team shows its worth with an early invitation.

Georgia Tech has another honor. The football team has been asked, and is going, to the Orange Bowl in Miami, Florida.

It means a lot to be asked to a Bowl, but it means even more to be asked so early in the season. Tech got a bid last Monday week with four more games left to play. Someone must have been confident in the Yellow Jackets, and well so. We all know our team is good this year. It represents a well-coached group of boys who play their hardest to win. For the coaching we can thank Bobby Dodd and his staff. For the spirit and eagerness to win we can thank and congratulate each player on the team.

Coach Dodd, the players, and the Tech Athletic Association all agree that the Orange Bowl is the one they want to go to. Several reasons are brought forth to back the decision. As ever,

Coach Dodd is thinking of the players and the way they will be treated. He feels that the people are nicer to the boys and are easier to get along with than at any other Bowl. Then too, the students will benefit from the Orange Bowl, for we will be able to buy two tickets for the game. The alumni will have an opportunity to buy four tickets. Ten thousands tickets will be set aside for Tech students, alumni, and fans. You can all see now why the Orange Bowl has been accepted.

We hope that plenty of you students will be able to go to the game and cheer the "Jackets" on to victory January first.

Finally, let us congratulate Coach Dodd, his staff, and the players for such a success this season. It came about only through their relentless efforts. We still have three more games to play, so let's win them all.

—HMO

After College?

Are we building ourselves now to meet life after college?

Are we serious about our plans for our future life after college, or are we just following the line of least resistance in planning for a life's occupation? How can we tell?

We can tell not so much by what we do in class, but best by our activities and by our outside interests along the line of our specific courses of study.

What is your opinion of the science major who is interested in the things of nature around him, sometimes making experiments and studies for his own satisfaction; the English major who is interested in reading and analyzing literary works that are not included in his required classwork, and who tries to improve his vocabulary and grammar; the political science major who takes a great interest in current affairs, both in government and in international problems; or the pre-ministerial student who has a great interest in the religious organizations on the campus (not the one who takes the purpose of

self esteem) and in the spiritual welfare of all?

You can pick out different students on the campus who you are certain are conscientious in their plans for the future, but have you thought about yourself?

If you are the kind of pre-ministerial student who feels that to enjoy life you must have your last big fling before getting under the restrictions of your profession or the type of student who, regardless of whatever field you have chosen, in your leisure time try to get as far away as possible from the subjects you are specializing in and hate anything that reminds you of those subjects, then you probably have started out on the wrong trail.

By thinking it over carefully now, you may save yourself from failure and a lot of misery in your life after you "get out."

—The Indian

TECHNIQUE PLATFORM:

1. Student voice in matters of student interest.
2. Encouragement of school spirit.
3. Better orientation and vocational guidance.
4. More participation in the intramural sports program.
5. Promotion of active campus organizations.

6. Promotion of more interest in Student Government.
 7. Erection of a Student Union building.
 8. Promotion of a successful Trial Board.
- The Technique will at all times attempt to represent the best interest of the students in current discussions and controversies.

PiDE Fraternity Honors Outstanding Journalists

By Bill Ross

Pi Delta Epsilon is Georgia Tech's honorary journalism fraternity, whose membership includes those members of campus publications who have proved themselves worthy of admission. Pi Delta Epsilon here at Georgia Tech is open to members of the business or editorial staffs of The Technique, The Engineer, The Blue Print, and The Yellow Jacket. Applicants for membership in Pi Delta Epsilon must have served six quarters on the staff of their respective publication before they may even be considered for election.

The purposes of Pi Delta Epsilon are to elevate the cause of journalism, to foster the mutual welfare of student publications, to develop the truest fraternal spirit among its members, and to reward journalists for their efforts, services, and accomplishments by admission to membership.

Pi Delta Epsilon sponsors many projects. One of the most successful projects has been the establishment of the faculty rating system, which Pi Delta Epsilon is now trying to extend to quarterly, instead of yearly, operation. Another recent project is Pi Delta Epsilon's attempt to further the circulation of campus publications, particularly to alumni and to the parents of Georgia Tech students.

For next year, Pi Delta Epsilon plans to publish a pamphlet for freshmen concerning the four Georgia Tech publications: The Technique, The Blue Print, The Engineer, and The Yellow Jacket.

This pamphlet will include a short foreword about Pi Delta Epsilon, an explanation of some of the principles of journalism, and a short article about each of the four campus publications, written by their respective editors. Next year Pi Delta Epsilon will also publish the Georgia Tech student directory.

In addition to its local projects, Pi Delta Epsilon also conducts several activities of national scope. Each year there is a national contest for the best news article and the best editorial written for a campus publication. Pi Delta Epsilon offers yearly a medal of merit as an award to the member of a student publication who has made an outstanding contribution to journalism on his campus. In addition, there is an annual Pi Delta Epsilon convention, held usually in the spring, which is attended by representatives from all the chapters throughout the nation.

Here at Georgia Tech there is a banquet every year for members and perspective members, which follows the annual initiation. At this banquet several awards are

Council Minutes

November 6, 1951.

The meeting was called to order at 6:45 by President Dunwoody with McGlosson, Ramsbottom, and Ritchie absent.

Chastain reported for the election committee. He gave the results of the freshman primary elections. Chastain moved that \$10 be appropriated to pay for having the voting machines set up. Tabled.

Jerry Clark reported for the dining hall committee about the possibility of having facilities for music put in the T Room. The Dining Hall committee will look into the hiring of outside help in the dining hall.

Fuller Callaway reported for the Campus Government committee. He presented the constitution of Phi Lambda Upsilon, the new chemistry honor society.

Roland Holt reported for the Athletic committee. A board with the names of the basketball players will be placed in the gym. He explained the student seating plan. Bob Templeton suggested that copies of the Alma Mater be distributed at every game.

Randy Seckman reported that NSA Purchase cards are still on sale at the cashier's office.

Ben Bishop reported for the Academic committee. The committee is working on setting up department committees in every degree-granting department.

Dan Blitch reported for the Welfare committee. The loyalty oath required of students paid by the state is the result of a state law passed by the General Assembly in 1935. Don Hartman asked the welfare committee to investigate why the broken windows in Techwood Dormitory have not been replaced.

Fuller Callaway reported for the Tech-Georgia dance committee.

Don Hartman reported for the Finance committee.

Randy Seckman's motion that the Student Council be in favor of a paid secretary for the Student Trial Board was left on the table.

John McGlosson's motion that the Council appropriate \$100 for NSA national dues was taken from the table and passed. McGlosson's motion that the council appropriate \$19.47 for purchasing 2000 purchase cards was taken from the table and passed.

Emmette Jackson was elected to replace Bill Dean as a representative to the Board of Directors of the International News Center.

Randy Seckman moved that the council pay coach fare for the President of the

PROF. HONNELL SPEAKS AT COLUMBIA—M. A. Honnell, electrical engineering, spoke at a meeting of the Radio Club of America, which was held at Columbia University on Friday, Nov. 9. The subject of his talk was "Fault Location Techniques for Transmission Lines and Controls."

Prof. Honnell outlined the various techniques used for fault location in transmission lines and cables. Included was a discussion of the use of bridges and the pulse technique. A demonstration was given using a simple, portable instrument with which the distance to faults on transmission lines can easily and quickly be located, whether they be a few feet or a few miles away.

FACULTY NOTES—W. T. CLARY, electrical engineering, recently visited the Naval Bureau of Ordnance, Washington, D. C. in regard to a research project on which he is working . . . HOWARD MEHINICK, architecture-city planning, attended the National Conference of American Society of Planning officials, which was held in Pittsburgh, Pa. in October . . . W. DALE JONES, industrial engineering, spoke at the 15th National Time and Motion Study and Management Clinic in Chicago, Ill., October 31-Nov. 2 . . . C. W. BRENNAN, industrial engineering, attended the Jack Lacy Sales Clinic in Atlanta, October 29-Nov. 2 . . . HAROLD BUSH-BROWN, Director of School of Architecture, attended the 9th Ann Arbor Planning Conference at the University of Michigan the latter part of October . . . W. N. COX, JR., safety engineering, delivered a paper recently before the Rutgers University Conference on Occupational Vision at Convention Hall in Atlantic City, N. J. The paper was entitled "Savings Through Accident Control." An audience of 1,500-2,000 industrial representatives attended . . . PAUL WEBER, Director of School of Chemical Engineering, attended a "Teach the Teacher" industry sponsored school for chemical engineering teachers at Wilson Dam, Ala., on Nov. 9 . . . R. L. SWEIGERT, Dean of the Graduate Division, will attend a meeting of the Land Grant Colleges Association in Houston, Texas, Nov. 11-17 . . . BOB ESKEW, short courses and conferences, and RICHARD L. LEACH, social sciences, are proud fathers of new baby boys born during the month of October.

Coach Hyder Revitalizes Cagers For Rebound In SEC Race

By Gene Lorenz

Georgia Tech may be on the road to recovery in basketball fortunes. If the students support the hoop team, and if the lively squad displays the unquenchable spirit of its new head coach, former Techman John C. "Whack" Hyder, there's no telling just how far the White and Gold will rebound in the 1951-52 court race.

After Roy McArthur resigned his basketball post last spring, up on the recommendation of Athletic Director Bobby Dodd the Tech athletic board unanimously agreed to move Hyder, then assistant varsity coach and freshman tutor, to the top spot. Coach Hyder dug into his big duties with all the fire that sparked him during his students days to be one of Tech's two men to letter in four sports.

New Life

Part of the result of Hyder's burning zest to field a worthy competitive quintet is shown at work out every afternoon. It's been going on for six weeks now. Fundamentals, ball handling, passing, shooting, serious scrimmages and free throw practice all come under the careful and wise eye of the new coach.

But the major part of the renovated and rejuvenated Engineer hardwood scene is yet to come. The way the schedule is line up now, Tech meets 20 foes, 16 in conference play and 4 non-league tilts. Half the total number are slated for the local court. Tulane here on January 5 is the first home game.

Coach Hyder has boiled a large turnout of candidates (they numbered 22 one afternoon) down to

an even dozen players at present, with the possibility of some additions from the football squad when the grid season ends.

Umstead Leads

At the helm of Hyder's five man attack is Captain Teefer Umstead, as sturdy a guard as Tech has had in many seasons. Possessing a deadly set and a tricky jump shot, excellent ball-handling abilities, amazing speed, agility and stamina, Teefer is one of only three vets from the last campaign. The other returning regulars are Pete Silas and assistant captain Bill Cline.

Cline will be playing his fourth and final season at the pivot post. Standing halfway between the six and seven foot marks, Bill's outstanding contribution has been his dependable work off the boards, though he is no mean marksman either.

"Pencil Pete," a 6 foot 6 inch who astounded the conference as a sophomore last year, will anchor one of the forward posts for certain. His eye in practice has been exceptionally keen, and with a year of steady duty behind him the genial Miamian may easily surpass his soph record of over 300 points.

Reserves

Then there's big Doug Hill (6-4, 220) and small Eric Crake (5-8, 170), both juniors who saw limited varsity service last year. Bud Witt, an Atlanta boy, is returning after a year's absence from the squad. Bud played on the frosh squad, saw a year on the varsity, but missed out his junior year.

Coach Hyder is putting a lot of hope in newcomer Gene Anderson, a junior college graduate who transferred to Tech with junior standing. He is available for immediate eligibility since JC transfers do not have to abide by the ordinary conference rule which re-

quires a year's wait for any other transfer students. Anderson played two seasons with Brewton-Parker, a small state school located in Mt. Vernon, Ga.

Completing the temporary twelve man aggregation are five players up from a successful freshman squad. The quintet of sophs are Bill Sinnett, Vaughn Dyer, Johnny Harwell, Bobby Barnes and Phil Taylor.

Although the opening encounter is a month off, the cagers are going at it in full force. Umstead, Cline and Silas are virtually assured of starting berths, but the remaining pair plus the rest of a proposed 15-man team are still left to be chosen definitely. With new life injected in the squad, plus a shorter and more attractive schedule, Tech can look to a better outcome than last year.

Schedule

A few more outside games may be added, but to date the 1951-52 Georgia Tech basketball schedule looks like this (Note that the Bulldog series has been cut back to two games instead of the usual three):

December—

- 8 at Parris Island Marines
- 15 at South Carolina

January—

- 2 at Chattanooga
- 5 Tulane
- 9 Auburn
- 12 at Alabama
- 14 Mississippi
- 21 Kentucky
- 26 at Tennessee
- 28 South Carolina
- 30 Mississippi State

February—

- 2 at Vanderbilt
- 4 Louisiana State
- 6 at Georgia
- 9 at Kentucky
- 13 at Auburn
- 16 at Florida
- 18 Vanderbilt
- 20 Tennessee
- 23 Georgia
- 28-29 SEC Tournament

March—

- 1 SEC Tournament

TV Schedule

Next Saturday, November 17 the NCAA program calls for a "regional" arrangement with the Midwest getting the Nebraska-Colorado game; the Eastern region receiving Columbia-Navy and the Southeastern region viewing Maryland-North Carolina State.

Bowl Data

Tech's acceptance to play in the Orange Bowl marks the first time in history that one team has played in the Orange Bowl four times. An SEC school has played in Miami every year since its origin except in 1946 and last year.

With One Eye On Miami— Bowl-Bound Jackets Outdrill Keydets, 34-7

By Wilfred Smith

The Yellow Jackets, clutching an Orange Bowl bid, completed their eighth straight game without a loss by bowling over the keyed up Virginia Military Institute Keydets, 34 to 7. This marked Tech's tenth victory in eleven games with the Keydets. The only VMI victory came last year when the sporting world was surprised beyond belief by a VMI 14 to 13 win over the injury-ridden Jackets.

Keydets Lead

The VMI squad had fire in their eyes when they first came out on the field. The Keydets received the kickoff and were forced to kick on fourth down. On Tech's first play from scrimmage, full back Glenn Turner's fumble was recovered by Buck Boxley, tackle for VMI. The visitors took over the ball on their own 43 and marched the remaining 57 yards in 11 plays, led by the running of George Chumbley and the passing of Bill Brehany. Tommy Birge, who charged over from the 3 for the tally, also kicked the extra point to put VMI in the lead 7 to 0 after 6 minutes and 10 seconds of play.

Hicks Scores

Exactly 1 minute and 30 seconds after the first score of the game, Johnny Hicks caught a thirty yard pass from Darrell Crawford and ran the remaining four yards to pay dirt. This march of 62 yards took 4 plays, one running and three consecutive complete forwards from Crawford. Pepper Rodgers was called in to kick for the PAT which was good, so after 7 minutes 30 seconds of play the scoreboard read Tech 7-VMI 7.

Tech, determined to take the lead before the end of the first quarter, made their own opportunity by jarring the ball loose from Curly Powell and George Morris recovered on the VMI 36. Crawford then called for one running play before hitting Pete Ferris for 16 yards. Crawford then went back again to pass, was boxed in about 15 yards from the line of scrimmage, but then put on his power and turned the possible deficit into a one yard gain. Crawford then passed once more before George Maloof charged over from the 6 to score. Rodgers missed the PAT so after 13 minutes and 30 seconds the score was Tech 13-VMI 7.

Hicks Again

After jockeying back and forth all over the field the first 14 minutes of the second quarter, Jackie Rudolph, minute Tech safetyman, signaled for a fair catch which was unseen or disregarded by VMI's Grumbly and thereby cost VMI fif-

teen yards. This moved the ball to the vicinity of the VMI 30 where Crawford again threw to Johnny Hicks who snared the pigskin on the 45 and sprinted the remaining distance. Pepper Rodgers kicked the extra point, so at half time Tech led 20 to 7.

During the first half, VMI made 11 first downs to Tech's 5, but it is interesting to note that Tech had their hands on the ball for only 21 plays but scored 20 points.

Second Half

After a half-time rest, the Jackets came back and freshman Larry Ruffin ran the kickoff back from the end zone to the 42. Twelve plays, 58 yards, and 5 minutes later Tech scored again, this time with Crawford plunging over. Rodgers kick was good so Tech led 27 to 7.

From this point on out Tech substitutes were freely pouring in and the ball was rocking from one end to the other. The game became increasingly rough and in several instances a small amount of fistuffs took place. Bill Brigman, freshman signal caller, was in directing the team and a nice 33 yard pass to a fellow freshman, Jimmy Morris, put the ball on VMI's five. Then a fourth down fumble recovered by VMI seemed to kill the chances for Tech to score again.

But Cecil Trainer recovered a Keydet fumble on the 11 yard line and an unnecessary roughness penalty put the ball on the 1 yard line. With twelve seconds left in the game, Rodgers pushed across the double stripes and then kicked the extra point to make the final score Tech 34-VMI 7.

This was Tech's tenth straight game without a defeat and since no injuries were incurred but a great deal of experience gained, Tech is in fine form to play Alabama in Birmingham next week.

Davis' Punts

The fine punting in Saturday's game was led by Tech's Dave Davis, who had a 42 yard average for 7 punts. Also in the record column, Curly Crawford threw 15 passes and completed 8, which makes his season totals 105 passes attempted, 61 completed for a .571 average.

Whitey Urban, From Yankeeland, Boasts Fabulous Sports Career

By Leon Sherman

Coach A. G. "Whitey" Urban, defensive line coach for Tech, has had a fabulous athletic history.

He was born in Hartford, Connecticut, where he practically became a "Little Lord Fauntleroy" with his short knee breeches and frills on his shirt. The former white-haired, stocky built coach actually took violin lessons in his early life. When he was a senior at Hartford Public School, the captain of the football team urged and succeeded in getting the young Urban to go out for the team as a center. Thus at 16, weighing only 148 pounds, and having only a few months of football, Coach Urban made the All-City team, second team All-State, and honorable mention on the All-New England team. In high school, he also played independent baseball and was on the wrestling and boxing teams.

His greatest thrill in football came when Hartford's teams was playing Catholic University of Washington. Coach Urban made 8 tackles, blocked a punt, intercepted a pass and blocked an extra point that game.

A Connecticut Yankee

After graduating, he "came South for the ride" and enrolled in the University of Chattanooga. That first year he was "farmed out" at Tennessee Wesleyan for one football season. After returning to the University of Chattanooga, he played three years of varsity ball at center, still weighing around the 150 pound mark. Coach Urban always managed to have his best days against SEC competition. He also played basketball one year and served as student boxing coach during his junior and senior years. Brawn was not all Coach Urban had, for he received the Shire Award for Scholarship one year. It is annually presented to the Chattanooga University athlete with the highest point average.

Coach Urban came to Trion, Georgia, a small mill town of 3,500 after graduating. He coached the first football team that the town had ever had. Being in the heart of the basketball region, only one

On the back is engraved the following: "To Coach A. G. "Whitey" Urban, 1940-47, 74 won, 4 lost, 3 tied. Presented by the Baylor Alumni, January, 1948." That little memento explained completely the feelings of Baylor followers on the swell job he had done with the foot- (Continued on page 8)

J. Paul Sheedy* Switched to Wildroot Cream-Oil
Because He Flunked The Finger-Nail Test

WHENEVER SHEEDY gave a gal the glad ham she turned up her snout. Poor Paul took pen and oink and wrote a litter home: "I'm sty-mied. All the gals think I'm a boar. To get a date is a pig's feat!" His mother wrote back: "Even a dullard like you should know enough to borrow his roommate's Wildroot Cream-Oil! It's non-alcoholic. Contains soothing Lanolin. Removes loose, ugly dandruff. Helps you pass the Finger-Nail Test. Makes your hair look neat and well-groomed." That was the pig-me-up Sheedy needed. Now he's imporkant... hogs and kisses all the girls. Better try Wildroot Cream-Oil yourself. Get it at your favorite drug or toilet goods counter—and ask for professional applications at your barber chop!

ball teams. He also produced 6 Mid-South Wrestling Championship Teams, 9 City Wrestling Championship Teams, 5 City Weight Lifting Championship Teams, 1 City Swimming Championship Team, 1 Mid-South Boxing Championship Team, and 3 City Boxing Championship Teams. In 1947 he coached the first Mid-South Wrestling Team ever invited to the National Prep Wrestling Meet in Bethlehem, Pennsylvania.

In the Spring of 1949, he left Baylor to become head coach at Sewanee Military Academy for two years. He came to Tech in January of 1950. Coach Urban was elected president of the Mid-South Coaches Association for 1951.

Three players who later became All-Americans have been coached by him. They are Joe Steffy, All-American guard at Army in 1947; Clint Bauman, All-American tackle in 1946 at Michigan, and Bill Healy, All-American at tackle for Tech in 1948.

Sweetheart—

(Continued from page 3)
chapter then presented Nanette with a floral replica of the Sigma Chi badge and serenaded her with "The Sweetheart of Sigma Chi." After the dance the brothers and their dates had an early morning breakfast at Mammy's Shanty. A quartet of Sigma Chi's, "The Three Sharps and a Flat," entertained the group while they were being served. Everyone seemed to enjoy the entire evening and especially did the new "Sweetheart of Sigma Chi."

Minutes—
