

## Tech Students To Dine To Music Background Beginning Next Tues.

Beginning approximately July 1, Brittain Dining Hall will be provided with instrumental background music to create a more relaxing atmosphere for its patrons at all meals.

The music is reproduced from World Music Company vertical transcriptions at the Dixie Melody Company in the Peachtree Arcade. It is then sent over special telephone lines to Tech where it goes thru a Stromberg-Carlson Amplifier to the loudspeakers in the Dining Hall. The finest quality material is used throughout and the reproduced music is of excellent quality.

The Student Council has financed the initial cost of this system but in order to continue it, the following procedure will be followed. Each patron for the noon meal on each weekday (Mon. thru Fri.) will have one cent added to his bill. The money thus collected will be turned over to Dean Pershing who will pay the bills. This was considered to be the fairest and easiest method of obtaining operating expenses since only the students using the dining hall will be called upon and the charge is too small to dent anyone's budget.

Until the Student Council is paid back, the charge will be made every weekday. After that time the collection will be made only for enough days to get the monthly rental. This will take about one week or so per month.

The sound system includes a microphone and, when financing arrangements can be made, will include two speakers in the ODK Banquet Hall. For public address purposes this system will be far superior to the former feeble efforts.

## Lloyd Walter Chapin, Registrar of Tech, Receives Fellowship

Lloyd Walter Chapin, Georgia Tech registrar, has been awarded the 1947 Traveling Fellowship of the Latin-American Club of Georgia Tech, it was announced by Rogelio Ribas, president of the Club. Mr. Chapin will use his grant for a two weeks' visit this summer to Cuba, where he will study the administration of the University of Havana and of the secondary school system of Cuba.

The fellowship is awarded each year to a faculty member of Georgia Tech in order to promote better relationships between the United States and the Latin-American countries and to enable educators to study some phase of Latin-American life. Mr. Chapin was selected by a Board of Award from a long list of candidates proposed by students and faculty members.

Mr. Chapin is a graduate of Emory University, class of 1923. Upon his graduation he came to Georgia Tech as an instructor in the English Department. Prior to being appointed registrar in 1941, he held the rank of Professor of English. Advanced studies were continued by him at Harvard University, which awarded him the Master of Arts degree in 1929, the University of Chicago, and the University of North Carolina.

## Traffic Course Held At Tech For Two Weeks

Training of city, county and state police officers from the United States and Canada in "modern methods of accident and congestion control" was undertaken in a two-week course in traffic police operations which began Monday, June 16, at Georgia Tech. This course is one of nine being held in conjunction with the Ninth National Institute for Traffic Training, the first time it has been held in the South.

Instructors were from the Northwestern University Traffic Institute, the traffic division of the International Association of Chiefs of Police and other agencies. Lectures and demonstrations under urban and rural conditions were presented, according to Georgia Tech Professor William N. Cox, Jr., coordinator and registrar for the Institute.

The traffic police operations curriculum included traffic police organization, administration and command, accident investigation, law enforcement, records, flow regulation, police training, safety education, engineering legislation, law, public relations and safety organizations.

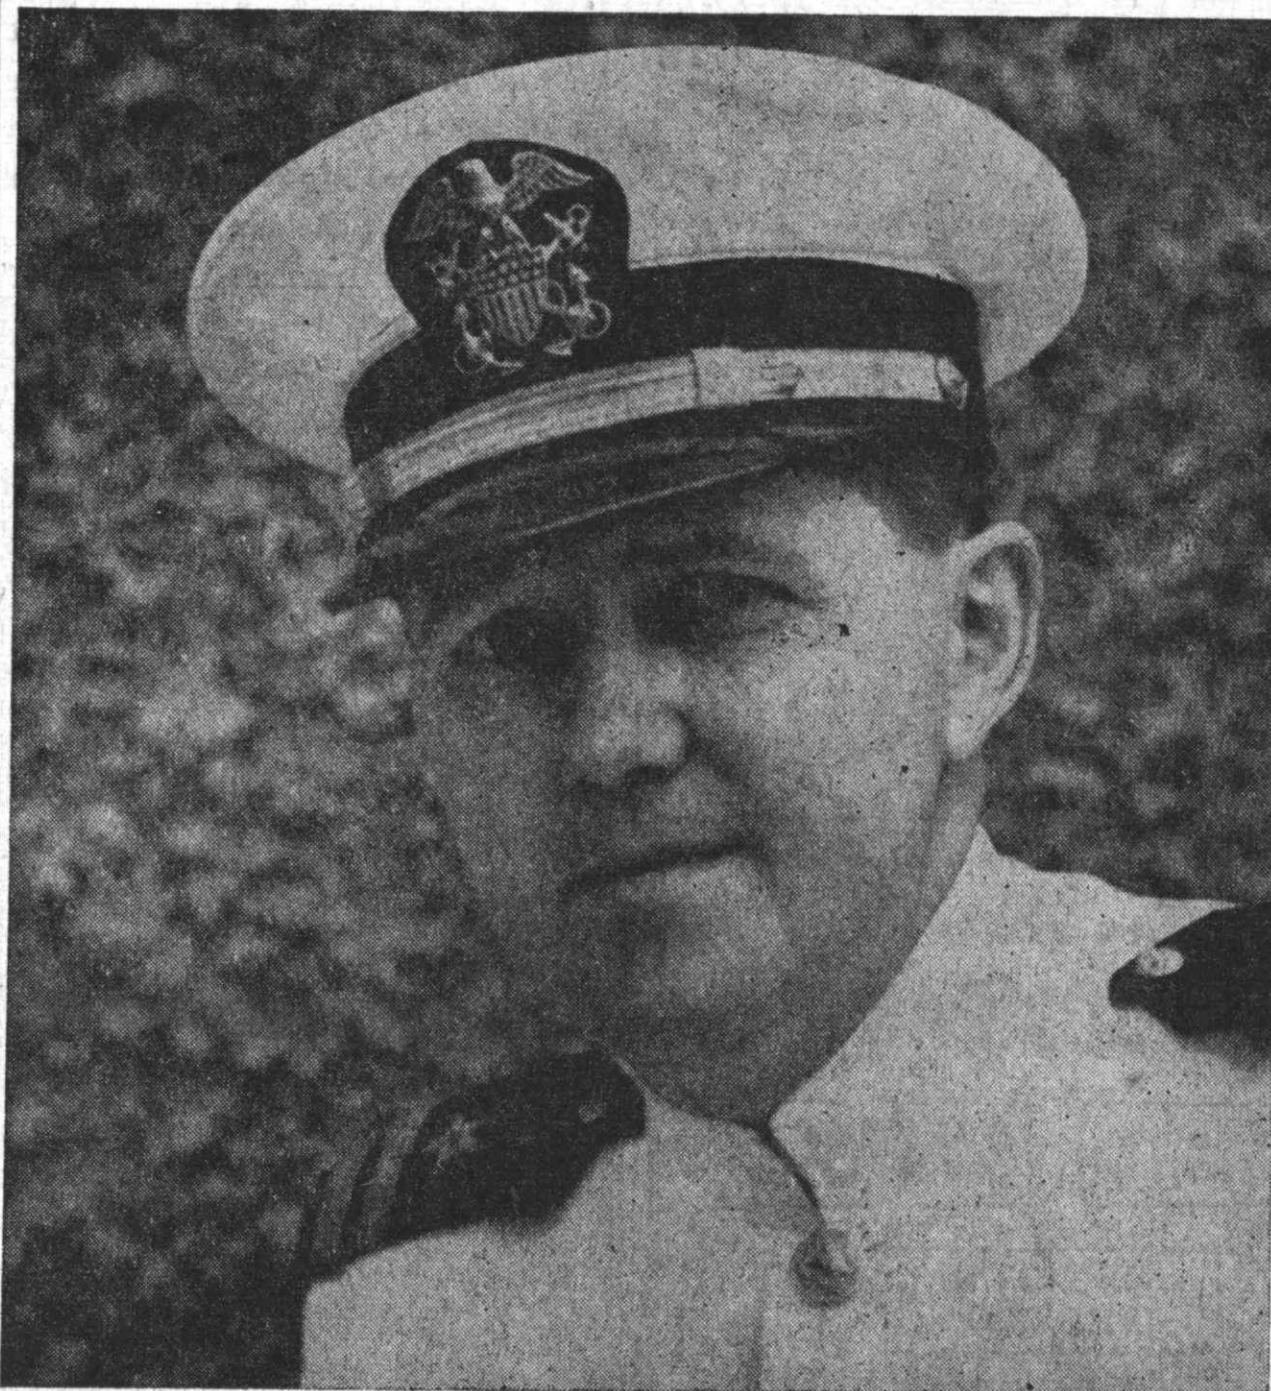

Attendance at the course was opened to police and highway patrol officers who received permission to enroll from their department heads. Entrance examinations and educational prerequisites were not required for enrollment for this or any of the other courses. Tuition for each of the courses was \$15 per week.

Professor Cox said the primary purpose of the police course was "to offer police officials an effective, practicable aid for training qualified officers to plan and execute sound programs of traffic control and accident prevention." It was further stated by him that the program of the Institute was in accordance with the recommendation of the National Committee on Traffic Law Enforcement, the President's Highway Safety Conference, the Automotive Safety Foundation, the American Automobile Association and several other agencies.

## Regulations Released About Overpayment Of Vets' Allowances

Upon receipt of notice that a veteran has failed to make satisfactory arrangements for the re-payment of an overpayment of subsistence allowance under public law 346, as amended, the institution where the veteran was last enrolled will be notified that a question has arisen as to the veteran's further entitlement and that he should not be accepted by the institution for further training under public law 346, as amended, until satisfactory arrangements have been made with the finance division for liquidating the overpayment.

## Regents Elect Commander Moll President of Middle Ga. College

### NAS Director To Leave Tech

Lloyd Alvin Moll, member of the Ga. Tech faculty and director of the Georgia Tech Naval Air Station Campus, was elected president of Middle Georgia College, Cochran, Ga., by the Board of Regents of the University System of Georgia at its meeting in Atlanta on Wednesday, June 11, 1947, it was announced by Chancellor Raymond R. Paty. With more than 20 years of work in the field of education, Mr. Moll will assume his duties at Cochran on July 1, succeeding retiring President Leo H. Browning.

Mr. Moll was born in Berks County, Pennsylvania, on March 8, 1902, and studied at the State Normal School in Kutztown, Pa., and Franklin & Marshall College, received a degree of Bachelor of Arts from the latter college in 1927. He continued his studies at the University of Pennsylvania, receiving the degree of Master of Arts in education administration in 1931, and completing all the requirements for his Doctor of Philosophy degree except his final examination due to his being called to active duty in the U. S. Navy in World War II.

Prior to his service in the U. S. Navy, Mr. Moll taught for five years in the public school system of Pennsylvania, served as school superintendent in the Valley Forge District of Pennsylvania from 1929 to 1938, and just before World War II was completing his fifth year as dean at State Teachers College, Kutztown, Pa. From June 1943 to July 1946, he was assigned as assistant professor of naval science and tactics with the U. S. Navy Unit at Georgia Tech, completing his service there in the rank of Commander, U. S. N. R. Commander Moll helped to establish the Navy Training Program on the campus and served as its academic liaison officer until March 1946. From March to July of that year he was Officer-in-Charge of a Naval Aviation College Training Unit established at the Atlanta Naval Air Station by Georgia Tech. Supplementary to these duties, he served also as liaison officer for the Columbia Theological Seminary in Decatur, Ga.

Immediately upon returning to civilian life, Commander Moll was invited by President Blake R. Van Leer to join the faculty of Georgia Tech and in that capacity to assume the duties of director of the school's Naval Air Station Campus, where more than (Continued on page 3)

### DEAN FIELD HONORED

On June 14 and 15, at the 50th anniversary of the 1897 graduating class of the College of Liberal Arts, Williamette University, Salem, Oregon, Floyd Field, member of that class and retired Dean of Students of Georgia Tech after 40 years of service on the Tech faculty, the last 24 as Dean of Students, received the Matthews Medal and the honorary degree of Doctor of Science from that college.

Dean Field is currently on an extended trip throughout the western part of the country visiting such places of interest as Grand Canyon, Boulder Dam, and Yosemite Valley.

## Dr. Calaway Is Awarded Sigma Xi Research Prize

"Research—The Master Key to Progress" was the subject of the Georgia Tech Sigma Xi Club Research Prize Lecture by Dr. Paul Kenneth Calaway, associate professor of chemistry, given on Tuesday evening, June 10, 1947, at Brittain Dining Hall. Preceding the lecture, Dr. Calaway was awarded the 1947 Prize of \$300 for his winning paper on "The Tolymercaptopropanones and their Condensation with Isatins," which describes a method of preparing organic compounds that can be used in man's fight against malaria and other diseases.

The Sigma Xi Research Prize was made possible through the generosity of M. A. Ferst, an alumnus of Georgia Tech, founder of the Scripto Manufacturing Co., and president of M. A. Ferst, Ltd., of Atlanta, Ga. A graduate in mechanical engineering in the class of 1911, Mr. Ferst has always encouraged research at his alma mater and currently is serving as a member of the Board of Directors of the Georgia Tech National Alumni Association.

Honorable mentions in competition for the 1947 Prize were received by W. Herbert Burrows, Department of Chemistry; John J. Harper, Department of Aeronautical Engineering; and Paul Weber, Department of Chemical Engineering.

In making the announcement of the lecture and award, Dr. James L. Taylor, president of the Georgia Tech Sigma Xi Club, pointed out that more than fifty research articles describing work carried out at Georgia Tech within the last school year have been published. Much of this research work has been carried out in the Georgia Tech Engineering Experiment Station, which is the largest research organization in the South.

### Briefs

President Van Leer has announced that July 4 and 5 have been designated as official school holidays.

\* \* \*

There will be a meeting of the BLUE PRINT business staff Monday night at 7:30 in the basement of the YMCA. All students who would like to work on the staff are requested to be present.

\* \* \*

A meeting of The TECHNIQUE editorial staff will be held Monday evening at seven p. m. in the basement of the YMCA. Students interested in publication work are urged to attend.

\* \* \*

Any student who did not receive his BLUE PRINT during the spring quarter may get it at Knowles Building on Monday, June 30, from 1 p. m. until 5 p. m.

\* \* \*

Students desiring to try out as baseball managers are asked to report to Rose Bowl Field Monday afternoon at four o'clock.

\* \* \*

It was announced this week by Omicron Delta Kappa that a contribution of eleven dollars has been made to the ODK Student Union Building Fund from the Tech Jacket Party. Other groups and organizations on the campus are urged to aid in the drive to obtain funds for the construction of this building.

## Student Council Minutes

June 24, 1946  
The meeting was called to order at 7:40 P.M. by President Batten with thirteen members present.

The roll call was followed by the reading of the minutes which were approved as read.

Discussion was opened on the possibilities of a student dance after the Tennessee football game on Sept. 27, 1947. The motion by A. Newton that the Student Council sponsor an informal dance on September 27th after the Tennessee game, provided the Bulldog Club does not wish to sponsor said dance, was carried.

H. Woodham was appointed chairman of the Dance Committee with T. Edwards, R. Engeman, and A. Newton also serving on the committee.

H. Batten, L. Barnes, and R. Day were elected to represent Georgia Tech at the Georgia-Alabama pre-convention meeting of the National Student Organization to be held at Tech on July 12, 13.

The motion by A. Boissy that Tech send two members to the National Student Organization Constitutional Convention was carried. A. Newton and H. Woodham were elected to represent Georgia Tech at the Constitutional Convention of the National Student Organization to be held at the University of Wisconsin August 30 to September 8.

J. Yarbrough was appointed to investigate the freshman smoker to be held this fall.

Discussion was opened on the distribution of football tickets to the various classes this fall. L. Barnes and J. Yarbrough were appointed to see that the distribution is properly carried out.

There was a discussion on the crowded conditions at the dining hall. An investigation will be made and a report published in the "Technique".

The motion by A. Newton that the Council meet Tuesday, July 8, at 7:00 P. M. and every two weeks thereafter, at the same time, was carried.

With no further business the meeting was adjourned at 8:40 P.M.

Pictured above is that famed creator of "Steve Canyon" and "Terry and the Pirates," Milton Caniff in the Sigma Chi house. Mr. Caniff came to Atlanta to receive an honorary degree as Doctor of Laws, but found time to visit his fraternity's chapter on the Tech campus. He faced a barrage of questions, but answered each one with the fire and enthusiasm of his main character, Canyon.

## Gamma Zeta, Alpha Phi Omega Known As Tech's 'Workhorse'

By Ted Carroll

This is the first in a series of articles designed to give the student a knowledge of the various student organizations on the Tech campus and specific information concerning any in which he might be particularly interested.

Alpha Phi Omega, commonly known

on the campus as APO, is a logical organization to begin this series with for it is the Tech "workhorse". APO is a service fraternity and as such has long taken an active part in the campus life of Georgia Tech. It is responsible for the efficient handling of Tech student elections and various charity drives such as the Red Cross and W.S.S.F.

The local chapter, Gamma Zeta, is the oldest chapter in Georgia and, until the recent installation of chapters at Emory University, Mercer University, and West Georgia Junior College, it was the only chapter in Georgia. The national fraternity was founded about twenty years ago at Lafayette College at Lafayette, Pennsylvania, and has since grown to great strength and now has over one hundred chapters which are located in every section of the country.

The club is planning many important projects for the summer and fall quarter. Some of the more important are: the addition of newer records at the Tech music room, the beautification of the Tech campus, a centralized student directory system, and speedier student elections. Plans have also been discussed for a student blood bank and methods of speedier student registration.

## Faculty Honor Keys Presented To Miss Allen And Mr. Houston

Sixty-nine years of loyal and devoted service to Georgia Tech by Miss Estelle E. Allen, associate registrar, and Frank K. Houston, comptroller, was recognized at a faculty dinner in their honor on Saturday evening, May 31, 1947, at Brittain Dining Hall. Miss Allen, after 38 years at Georgia Tech, and Mr. Houston, after 31 years, are retiring on July 1, 1947.

Dr. M. L. Brittain, president emeritus of Georgia Tech, presented the Faculty Honor Key to Mr. Houston, and Lloyd W. Chapin, registrar, presented her key to Miss Allen. Colonel Blake R. Van Leer, President of Georgia Tech, served as toastmaster for the affair. In addition to more than 200 faculty members and wives, guests included Chancellor and Mrs. Raymond R. Paty. Entertainment was furnished by the Georgia Tech Glee Club Quartet and the Latin-American Orchestra.

## Competence Awards Given Five Georgians For Fluent Tongues

Awards for competence in Spanish and Portuguese to students at Georgia Tech by the Latin-American Club were announced yesterday by Rogelio Ribas, president of the Club. The seven winners include five Georgians.

The winners were selected in competition by faculty members of the Department of Modern Languages. The awards for excellence in Portuguese were made to R. W. Bracewell, 678 Moreland Avenue, N.E., Atlanta, Ga., first prize, and Jorge J. Solis, Managua, Nicaragua, second prize.

First year Spanish awards went to Warren C. Wynn, Avondale Estates, Ga., first prize, and Roger M. Pegram, 420 Ponce de Leon Avenue, Atlanta, Ga., second prize. In second year Spanish, first prize was awarded to Stanley T. Jakubowski, Utica, N. Y. Second prize was divided between two contestants, Robert D. Kelley, 346 N. Highland Avenue, Atlanta, Ga., and F. W. Morgan, Waycross, Ga.

## Moll—

(Continued from page 1)

900 students, who had overflowed from the main campus, were housed, fed, and taught. He also served on the Georgia Tech Administrative Council, Faculty Committee on Rules and Regulations, and on the athletic coaching staff as head coach of wrestling. He has a broad interest in sports, including boxing, tennis, football and baseball, and wrote the rules and regulations for the conduct of wrestling in the high schools of Pennsylvania.

## GA. TECH GLEE CLUB OFFERS POSITIONS

It was announced this week that there are openings in the Georgia Tech Glee Club for men who can qualify. Any person who can, or who thinks that he can sing and is interested in joining the Glee Club is urged to contact T. Costello, secretary, P. O. Box 848, and make arrangements for an audition.

The Glee Club is also seeking the services of a full time student accompanist. The position carries a salary worthy of consideration for a conscientious and capable pianist. Applicants for this job shall also contact Costello.

## Tech Baptists Hold Fellowship Meeting

Tech Baptists are cordially invited to the 'Y' Monday evening at 7:00 p. m. for an hour of fellowship and inspiration. All new students are particularly urged to come and get acquainted with other Baptists on the campus and with the program of the Baptist Student Union.

The feature speaker of the evening will be Sam Hurst of the Architecture Department. Special music will be furnished by the well-known Tabernacle Trio composed of Ruth Abbey, Elma Slyder, and Betty Creech. There will be plenty of group singing and refreshments will be served after the meeting.

Delegations from Emory and the Schools of Nursing at Ga. Baptist, Crawford Long, and Grady Hospitals will be present.

## New Quarter, New Resolutions, But Alas, The Same Old Story

By Walt Miller

Another quarter and another one of Spitzer's robbery kits is upon us. Still fresh in our memory are the pledges that we will start studying early THIS time, never again will the last week find us with a couple of books to read, a term paper to write, and a couple of labs to make up.

This quarter I positively refuse to spend my free afternoons at Duffies and not more than once each day will I venture within the portals of Ye Ole Q Room.

Another think I intend to do this quarter is to do my own work. I refuse to copy Bill's lab book any more. I will never again copy my roommate's homework. If anyone asks me if I want a copy of the coming quiz, my answer will of course be that I wouldn't look at the darn thing even if I actually thought that it was the right word.

I am going down to the library as soon as I finish this article and start reading the books for my book reports.

The midnight oil will be burnt every night above my desk as I study into the wee hours of the morning.

Now that I have written down everything that I should do, and as I look at the large number of homework assignments that are due tomorrow, I will make the classic statement—"Let's go down and get a short beer or two tonight and start this darn foolishness some other quarter; but someday I am actually going to do it."

# Jackets Play Covington Wed.; Brittain Hall Chowlines

## Defeat Dortch Bakery By 8-6 Increase Asymptotically

By Ralph Day

The Yellow Jacket summer diamond squad, with one win under its belt, will meet Covington Mills in the second tilt of the ten game summer schedule on Wednesday, July 2, at Covington.

The freshman studded summer team won the first game of the summer series by handing Dortch Bakery an 8-6 defeat on Rose Bowl Field last

Wednesday.

Despite the fact that six of the nine Jackets were playing their first game for Tech, the Techsters settled down after a period of uneasiness in the early innings and became a smoothly functioning diamond machine.

The three veteran players were Henry "Hank" Lankford, first string left fielder, J. B. "Sunset" Thompson, reserve pitcher during the regular season, and Jack Nolan, reserve second baseman who played his first game at short stop.

Outstanding among the new men was Henry Childress, who played a good game at second and came through with a perfect batting average, four for four, to cinch hitting honors for the day. Sharing hitting honors was Hank Lankford with three hits for four trips to the box. Together Childress and Lankford scored six of the eight Jacket runs.

In the first inning the Dortch team took the offensive and connected with two of Thompson's pitches for a single and a double, scoring one run before being put out by the Jackets. The Bakers connected again in the third frame. After Thompson allowed one man a base on balls, the Dortch boys hit three singles and scored three runs.

The Jackets, going into the last half of the third as 4-0 underdogs, by a combination of two hits and three walks, managed to score three runs.

By virtue of the snappy fielding of the entire Tech team, the Bakers were

retired in short order in the fourth, fifth, sixth and seventh innings. In spite of a pitcher switch in the fourth by Dortch, the Techmen continued to hit and scored one run in the fourth and two in the sixth to take the lead.

Although the Bakers attempted rallies in the eighth and ninth frames, the Jackets maintained their two run lead for a final score of eight to six.

Head Baseball Coach Joe Pittard states that he is highly pleased with his summer squads first performance.

By Murray Spitzer

The line in Brittain Dining Hall is under control now, but it was something to behold the first few days of this quarter.

The management had been expecting a large decrease in patronage during the summer quarter, so they closed the line. That proved to be the biggest mistake since Fred Merkle failed to touch second base.

During the first day the breakfast line reached astronomical proportions.

It wound back on itself three times inside the dining hall, overflowed through the dormitory area, spilled onto North Avenue, turned at West Peachtree, and was last seen headed for North Fulton golf course. It is rumored that a DET in line just this side of Arcturus was frozen to death Monday morning when the heating mechanism of his space suit failed.

About eleven, the last breakfast was served. The noon line had already formed and was beginning to overflow. Oddly, it seemed to be shaped like a spiral of Archimedes, with those unlucky students on the end approaching infinity. Often they found themselves growing infinitely hungry, a singular fact indeed in view of the character of the cuisine.

The line for the evening meal, according to one math major, closely approximated a parabola. Calculations placed the focus just north of the Coca-Cola machine, latus rectum diagonally intersecting the statue of Childe Harold, and asymptotes running down Techwood and Williams to the bus station. The slope of this curve at any point was easily found by differentiating the nearest student, discarding irrational roots, of course.

During the confusion of the first few days, ice cream and sandwich vendors enjoyed a bonanza business. Bonanza salesmen did pretty well for themselves, too.

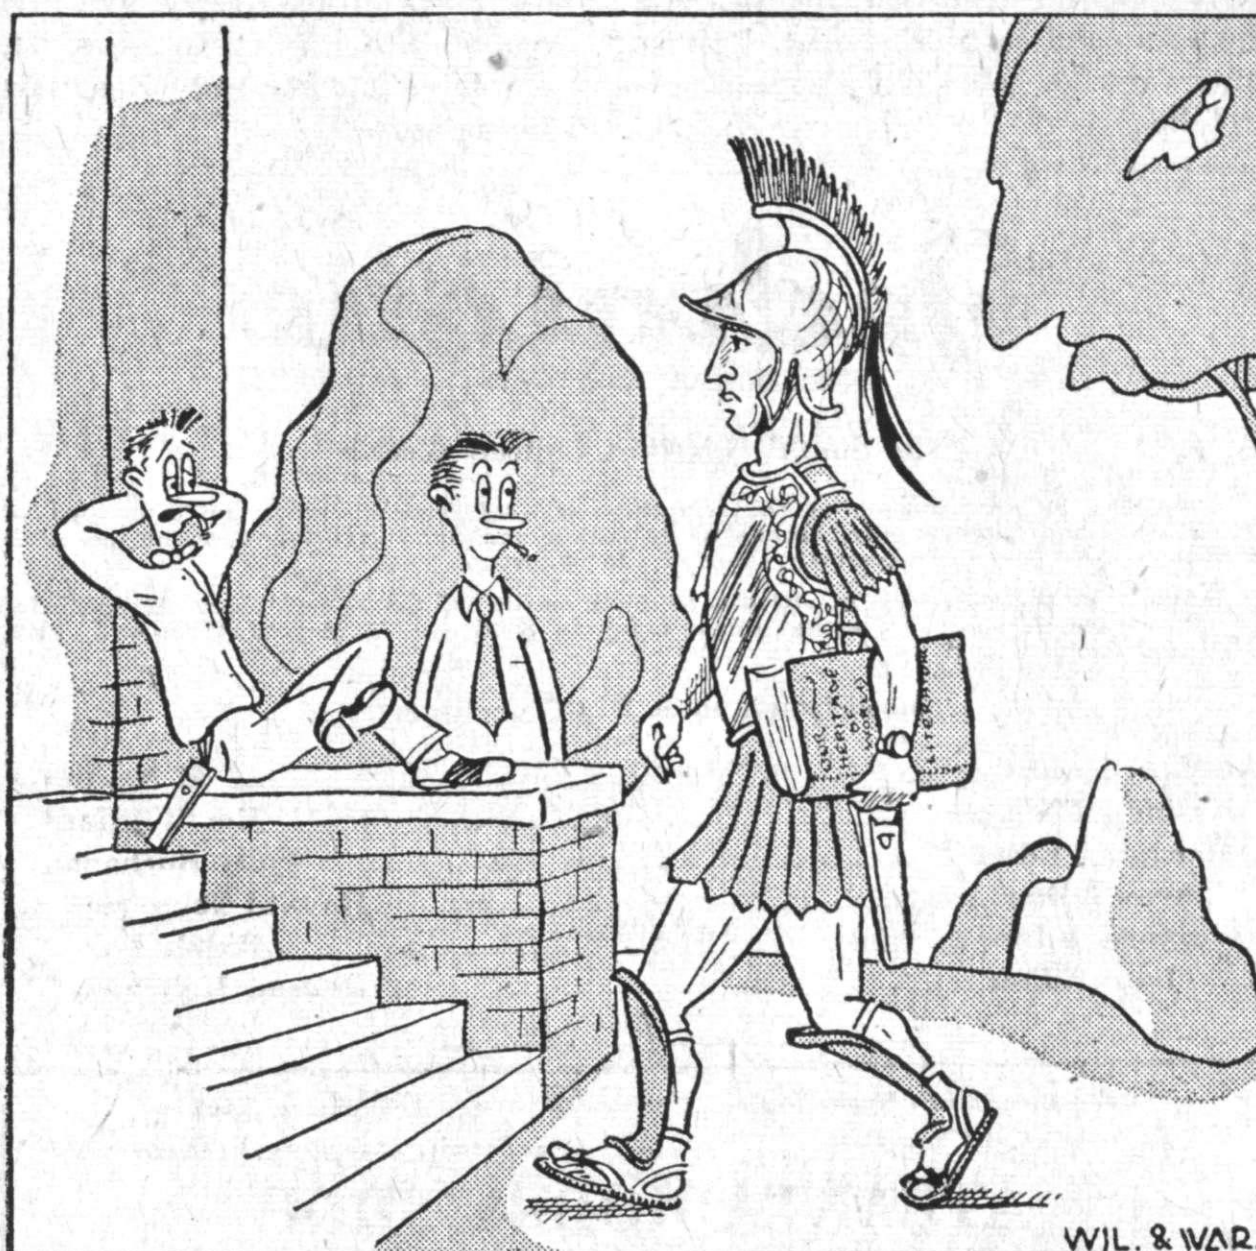

Standing in line once again recalled memories of those glorious, thrilling days of military service to many veterans. There's a somewhat apocryphal tale about an unusually long line at an Army discharge center. Generally, soldiers didn't bother to say much, that close to the end. One private sweated it out for a couple of hours and discovered his former company commander at the other end handing out the discharges.

"Well," beamed the officer, as he gave the soldier his diploma, "I bet that's the longest line you'll ever stand in from now on."

"Second longest," corrected the private.

"Indeed?" inquired the officer. "What do you think will be longer?"

"The line of guys waiting to spit on your grave."

"English 201? For him it's a cinch!"
