Annual Inter-Frat Banquet Set For Friday At 6:30

MEET AT ATHLETIC CLUB

Southeastern Body To Be With Tech Fraternities

The annual inter-fraternity banquet of the Georgia Tech fraternities will be held Friday night April 19, at 6:30 o'clock, in the Atlanta Athletic Club. It is to be sponsored by the Undergraduate Fraternity Council. Six hundred are expected to attend. The banquet will be over at nine o'clock.

This year, for the first time, the Southeastern Interfraternity Committee, under the direction of the New York Interfraternity Conference, will meet with the Tech fraternities. This Committee consists of representatives from all College fraternity alumni in this locality. The officers of the Southeastern Interfraternity Committee are: Dean Floyd Field, Chairman, Horace Russell, Vice-Chairman, and William L. Beyer, Secretary and Treasurer.

The principal speaker of the evening will be Rt. Rev. H. J. Mikkell who is Bishop of the Episcopal Church and National head of Kappa Alpha. He will speak on fraternity methods and problems.

Every fraternity is requested to have a complete attendance and as many alumni as possible.

Joe High Williams, President of Chi Phi, and also President of the Georgia Tech Interfraternity Council, will preside.

Alumni Meeting At Y.M.C.A. on May 4

The annual business meeting of the Alumni Association of Ga. Tech will be held on Saturday, May 4, in the Tech Y. M. C. A. All active alumni have been especially urged to be present at twelve noon on the above date. Faculty members and Seniors who are interested are invited to attend.

In addition to the general meeting, plans will be made for the fall Home Coming and the official reunion of the classes of 1894, 1899, 1904, 1909, 1914, 1919, 1924, and 1929. Members of the classes just before and after the foregoing will discuss their unofficial home comings with the classes mentioned.

CAMPUS EDITORS ARE NOT CONNECTED WITH THE RAZZBERRY

BLUE PRINT

Owing to unfavorable criticism circulating on the campus concerning the rumored appearance of the infamous "Razzberry", I wish to denounce all connection with this publication.

(Signed) D. M. Heritage
Editor, Blue Print.

YELLOW JACKET

In consideration of the faculty's intolerant attitude toward the proposed issue of the "Razzberry", I deem it necessary to repudiate all connections with this publication.

(Signed) Kent E. Mack, Jr.
Editor, The Yellow Jacket
Pres. Pi Delta Epsilon.

THE TECHNIQUE

As in past years, the formulating of plans for the "Razzberry" has caused criticism this year. Therefore no part of The Technique will have any connection with this annual publication.

(Signed) Burton Cloud
Editor, The Technique

Golf Tournament To Be Started April 22

Due to the rainy weather that prevailed throughout last Monday, the qualifying round for the Georgia Tech golf tournament sponsored by The Technique, will be played off on Monday, April 22nd. If your qualifying round has already been played then turn the score card into the office of The Technique or to the Y. M. C. A. desk. Address and phone number must be written plainly on score card.

After qualifying at Druid Hills the First Flight will be played off on the same course and the remaining flights will be played off on the Piedmont Park golf course.

All that is necessary to enter is to go out to Druid Hills and shoot the qualifying round on the designated day and then turn signed score card into the proper hands. Everyone is eligible to enter and compete for one of the trophies to be awarded. A medal will be presented to the low medalist cup to winner of each flight and trophies to runner-up.

Rushing Rules To Be Revised By Council At Next Meeting

That oft discussed question of fraternity rushing of Freshmen has again been brought before the Inter-Fraternity Council. This time the question is whether to continue with the deferred rushing system as now used, or whether to revert to the old pell-mell, "get-your-man" method.

Although nothing definite to date has been done, at a meeting of the Inter-Fraternity Council Sunday morning, April 14, the question was brought up and discussed to some extent. Because of the incompleteness of the plans, however, it was considered best to investigate the situation more thoroughly at the next meeting.

The objection to date by various fraternities and fraternity men on the Campus is that all of the fraternities are not adhering to the present method, which forces a hardship on those more conscientious chapters. The upholders of delayed rushing, on the other hand, claim that it gives the Freshmen a better chance to decide as to their choice and gives the fraternities a better chance to look over their men.

It may be said, however, that in either case, a man may not be pledged before he has matriculated and, if he has been pledged, this pledge is automatically broken upon matriculation. Although nothing definite has been given out by the Council, definite action has been taken to completely revise the present rules.

Pi Delta Epsilon Drops Publication of Razzberry

At their last meeting Pi Delta Epsilon voted not to publish the annual "Razzberry" this year and probably discontinue this yearly occurrence in the years to come.

This action resulted after many complaints had been issued concerning subjects that were reported to be in the offing this year. The publication of this paper brings about dissension each year but some unknown character started early and has already broadcast over the campus just what he thought would appear, which was wrong in every sense of the word.

Now everyone can relax and wait for school to come to a close without fear of being razzed or panned for actualities.

Col. Pearce Leaves For Duty In The Philippine Islands

Colonel Earle D'Arcy Pearce, commandant of the Tech R. O. T. C. Unit, has been relieved of his present duties by order of the president, and will sail from New York about August 20 for the Philippine Islands for an assignment with the coast artillery corps, it was announced last Friday by the war department.

Colonel Pearce will continue at Tech until it is convenient for him to depart, and he will leave Atlanta probably early in July, he said Friday. He will go by motor to New York state, visiting friends en route, and will arrive in New York city several days before August 20. His daughters, Misses Mary Inman Pearce and Jennie Gray Pearce, will accompany him to his new post.

During his six years at Tech, Colonel Pearce has become widely known and popular in Atlanta, and his departure will mean a distinct loss to the school. He came to Atlanta from Seattle, where he was professor of military science and tactics at the University of Washington. He has already seen one period of service in the Philippines, during the activities of 1898-1900.

Colonel Pearce is a distinguished veteran of the World War, having commanded the 319th field artillery and the 157th field artillery brigade of the 82nd division. He saw active service at St. Mihiel, in the Meuse-Argonne offences and the Marbath sector, and was awarded the distinguished service medal.

Colonel Pearce has been in the service for 36 years. In Atlanta he is a member of the Civitan club, the American Legion, the Forty and Eight society, and the local organization of the Distinguished American Veterans of the World War. He also is active in Boy Scout work.

It is with deep regret that Colonel Pearce leaves Tech. During his stay here he has become endeared to the school, and there is no doubt to the fact that Tech will greatly miss him. All of Atlanta and Tech wish Colonel Pearce a bon voyage and great success in his new field of duties.

SENIORS

Important meeting of the Senior Class in Y. M. C. A. Chapel Tuesday Morning.

Voting For Council Members On Monday

At a recent meeting of the Student Council, it was announced that voting for members of next year's Council would begin on the campus April 22, and will continue throughout the week.

At the same meeting, nominations were made, out of which the members will be taken. Ten juniors were nominated for senior members next year, out of which five will be taken. Four out of eight sophomores for the junior membership, and two out of four freshmen for the sophomore membership were also chosen.

The nominations for senior members were as follows: Ward Grantham, Hobby Law, Warner Mizell, Charlie Witmer, Red Terrell, Dutch Faisst, Sid Goldin, Red Williamson, Cedar Rusk, and Aubrey Hobbs.

Nominations for the junior members were Earl Dunlap, Tom Jones, Moon Corker, Jim Brooke, Ed Herron, Buck Flowers, Fleming Cooper, and Paul Dorn. Nominations for sophomore members were Theo Raines, Duck McKee, Jim Wilkes, and Joe McCutcheon.

The present Council is composed of Frank Waddey, Frank Player, Buster Harris, Wadley Glenn, Ward Grantham, Warner Mizell, Charles Witmer, Earl Dunlap, and Tom Jones. Peter Pund, as the President of the Tech "Y", Burton Cloud, as Editor of the Technique, and Joe High Williams, as President of the Inter-Fraternity Council, are Ex-Officio members.

Council Votes To Change Monday Drill To Tuesday Morning

The military drill on Monday afternoon at 4 o'clock will probably be changed to Tuesday morning at 11 o'clock if a request of the Student Council wins approval of the Faculty. This measure was voted on and passed at the last meeting of the Council.

Orientation will be changed so as not to interfere with the Tuesday morning drill. Arrangements will be made beforehand for all class meetings and special assemblies which call for a meeting at 11 o'clock on Tuesday. The Tuesday morning drill will prove more convenient for students who are not required to attend classes throughout Monday afternoon.

All that is necessary now to make this recommendation by the Council an actuality is the voting of the faculty, which will be held immediately.

Auburn Meets Tech In Two Games On Clay Field

OPEN FRIDAY AFTERNOON

Jordan Likely To Hurl For Jackets In First Game

Today and tomorrow the Auburn Tigers invade Clay Field for a couple of settees with Coach Clay's diamond warriors, a series that so far seems all Auburn.

It is to be remembered that the locals journeyed to Auburn week before last and dropped a couple of mediocre games, the first being in the neighborhood of 23-3. The second game was dropped by a smaller score. From Auburn the Jackets journeyed to Florida. Here the locals split a pair, winning their first game. Last week end the Claymen again split a pair, the series being with Clemson.

One can see by the above that the Techsters seem to be quite under the weather, but as the season goes on that might finally turn into a real battling team.

The team seems to have plenty of power at the bat, but the moundsmen have not been doing their stuff as a majority. There are some promising pitchers in the crowd and it is hoped they will soon hit their stride and turn in some more victories to pull the old average up.

The Auburnites are one of the biggest threats for southern conference honors. They topped the heap last year, and so far this season they seem in a great shape to repeat.

Tech is all set to take the visitors down a peg or two today and tomorrow, during the recent week they have been knocking that agate all over and out of the lot. Tech, as well as Auburn, has a real wrecking crew. During the last series with Auburn the games were really a slugging match, with the Tigers garnering a bag full as compared to the locals. This week end will really settle the supremacy in this sport between these two schools. Last year the Jackets walked away with the series with Auburn, but this was not enough to take the championship away from the Alabama lads. Tomorrow Carter will undoubtedly be on the mound for Auburn, while Jordan will hold down the hurling duties for the Jackets.

R. O. T. C. Summer Camps To Open Early In June

The R. O. T. C. Summer Training Camps for students will be held in different localities during the month of June, July, and August. The camp for Coast Artillery Corps students will be held at Fort Moultrie from June 5 until July 16; for Signal Corps and Ordnance students, at Fort Benning from June 5 until July 16; and for Infantry students, at camp McClellan from June 6 until July 17.

All students are required to be vaccinated and inoculated before arriving at Camp, and are asked to see Doctor White on either April 13, 20, or 27 for this treatment. If the work is done by Dr. White it will not cost the student anything, but if not done by him, the student will have to have the work done at his own expense.

Georgia Tech will be well represented at these camps, having 105 students who will attend them; 23 from Coast Artillery Corps Unit, 8 from the Signal Corps Unit, 38 from the Ordnance Unit, and 36 from the Infantry Unit. These students should take their bathing suits and other athletic equipment as there will be plenty of time for recreation. All who attend these camps will gain valuable knowledge that will help them to get commissions in the R. O. T. C. upon graduation.

A School Is Known By The Spirit It Manifests

A Greater Tech demands a greater display of Spirit!

A national championship team merits cheering by its accomplishments. A mediocre team deserves cheering for the fight it makes. Enough for that team to represent Tech—whether it be with the ball, on the track, with the rifle, on the speaker's stand, or with the blade.

And the benefits of spirit do not stop with the team being supported. Spirit raises the morale of the student body and goes on to the outside world. It forms the invisible being by which the public knows the school. It wins for the Tech graduate that extra ounce of goodwill that means so much.

A spirit worthy of Tech's record can be attained by these measures:

- (1) Attendance at all athletic and literary events.
- (2) Cheering sponsored by some up-and-going campus society.
- (3) Pep meetings or bonfires before every major contest.
- (4) Observance of every Tech tradition.
- (5) Organization of a regular cheering section, the nucleus for yells, songs, cardboard tricks, demonstrations.
- (6) Aid of the administration in giving class hours for pep meetings.
- (7) Aid of the athletic association in seating Tech men opposite the visiting rooters.

It is for every Tech man to feel his responsibility in upholding the name of the school. Cultivate the spirit!

"US ENGINEERS DON'T NEED NO ENGLISH"

Frequently on the Ga. Tech campus, our mother tongue is twisted and deformed out of all semblance to the language as it is spoken among the cultivated portion of humanity, the college usually being regarded as the seat of culture. Most of the vulgarisms are unintentional, some of them arise from true ignorance and all, of them, when practiced in speech continually, will lead to the formation of the most detrimental habit that a young man could possibly form. Speech such as "I ain't going home now" is the despair of the teacher of English. The student may know every rule in grammar, and recognize his errors when called to his attention, but still he continues to make them, principally because of slovenly mental habits formed very early in life.

Practically all engineering positions of higher grade require the formulating and writing of reports, the reputation of the engineer largely depending on the character and value of his report. If one would write clearly and convincingly on any subject, he must first make himself master of that subject. To do so his vocabulary, especially that of the engineer must be out of the ordinary and above the average. Possession of an adequate vocabulary however, will not necessarily qualify one as a writer, as the art of placing words together in pleasing combinations requires not only a good vocabulary, but constant practice. No capable engineer would start to

build a bridge until it has been planned to the last detail. He will often, however, start to write some important document with no plan, no logical arrangement, in mind. He may be a master of his subject, he may know and observe all the rules of grammatical construction, the entire verbal sources of the language may be at his disposal, and yet the result is little better than a hodge-podge.

It is of everyday occurrence for the practicing engineer to be called upon to explain and "sell" his proposition to a group of business men and executives. The man who can clearly and logically set forth his ideas will of course gain more fame and the confidence of his associates, than the man who has excellent ideas but is unable to explain them. Very frequently the following is heard with respect to positions for graduates. "There's a good job for some young graduate, the particular course that he took doesn't matter, and he need not have been an A man in his studies; but he must be able to write a good letter, he must know how to present a proposition, orally or in writing, in an attractive and convincing way. Where am I going to find such a young man?"

If students at Ga. Tech could only realize the vital importance to them of a command of good English, could understand what a large factor it is in nearly every substantial success, and could realize the actual dollars and cents value, they would soon forget the foolish notion, expressed by many a rebellious student, that "Us engineers don't need no English."

TO INCREASE COLLEGE SALARIES

There is now a bill before the Georgia legislature sponsoring the establishment, at Ellijay, Georgia, of a junior college at an estimated first cost of \$30,000. During the past few years the Board of Education has found that the consolidation of rural schools made for greater efficiency. Contrary to the fact that consolidation up to a certain point does make for greater efficiency, Georgia is now on a junior college spree, numerous colleges have already been established and others are proposed everyday to add to the forty-six normal school and agricultural and mechanical schools already in the state. Diversification may be the farmer's salvation, but it is hardly the best thing for the state's educational activities. A junior college in connection with an already established high school as is the case in Augusta and the proposed Junior college in Savannah is on a somewhat different status and more worthy of support.

Salaries in the schools of Georgia are woefully inadequate, especially in the colleges. If the Georgia Legislature would see fit to go slow on the establishment of more junior colleges and increase the niggardly appropriation accorded The Georgia School of Technology and the University of Georgia much more could be accomplished. Money scattered promiscuously in small parcels reaps poor returns. The legislature has watched the expenditure of \$75,000,000 on Georgia roads in the last ten years with very poor results, but thinks that the antiquated appropriations of the two state schools sufficient to carry them along on the increasing standards of education.

By N. D. P. III.

Red hot speed or "what have you" was at its best last Saturday afternoon at the Tech Flats and we got quite a kick out of all the proceedings, especially Fat Elrod and those Grammar School kids, who literally ran their hearts out. Fat had a hard time of it, all the boys wanted to razz him and succeeded to a certain extent, more than ever when he said "foot" instead of feet. Then too, the band father got his goat when they wouldn't stop playing long enough for him to make an announcement. Fat became very angry and waxed eloquent on the subject much to the amusement of all present. Hard life isn't it Fat.

All those star runners with their perfect form, rhythm, and speed didn't trim us half as much as the little fellows who ran for their grammar schools, they certainly gave us a lesson in spirit and gameness that isn't often seen on Grant field. If some of our own athletes would follow their example they and the school would both profit by it. This younger generation isn't so bad after all is it?

For once John Law obeyed the voice of the multitude. At the relays Saturday a big bass voice in the stands boomed "Get the H... off that monument," and midst "Ahs" and "Eys" the copper very hastily withdrew. One would have thought he was in Chicago obeying the voice of a hard boiled gangster instead of a poor little defenseless boy.

And still the dirt flows thick and fast, so fast in fact that we are unable to absorb all of it, and will no doubt miss half of it, but rest assured that we will give you all of the best, rather all of the worst. Here goes, we're off in a cloud of Tomatoes.

Certain men (they shouldn't be called that) had the nerve and crookedness to steal articles of clothing from the P.D.E. fashion show last week. Two pair of trousers, ties, shoes and Victrola records were taken, by these lowly sneaks. P.D.E. has to stand good for all those missing articles (something like Fifty dollars worth) and in turn lose a lot of the good will of the merchants of the city, who help them and the school by entering the

show. We only wish we could discover those men or man (let us hope there is only one of his type in school) they certainly would never graduate from Tech. Oh, yes, we know the ability and brains it takes to be light fingered and lift a lot of clothing from a good will display put on by your classmates and for your benefit. Great spirit, admirable bravery, wonderful intelligence, sure congratulations. We feel a little better after that spiel and might be able to be a little more pleasant from now on.

Hank, our handsome and versatile journalist, is receiving fan mail from a little girl in a nearby college who likes the big, strong, evil-looking type and she wants to meet him. Better be careful Hank—she might lead you astray and we don't want to see THE TECHNIQUE sporting staff go to the dogs. You never can tell about the college girls!

Some very sad news has just come to our ears, and we don't know just what to do about it, probably you, dear readers, had better decide. There will be no "Razzberry" this year for various and sundry reasons, the main one being that members of P.D.E. which edits the paper every year will not publish one because the faculty says "Thou shalt not" write this and write that. P.D.E. seeing good ideas and stories cut, stripped and thrown in the basket comes back and says "We shalt not" publish a "Razzberry." And another of Tech's none too prevalent traditions is discarded, gone by the boards, because of a hard boiled faculty and a headstrong group of young men. It is a shame, a dirty shame that this paper, which causes more fun arguments and good spirit at the close of every school year should be so easily discarded. Can't somebody do something?

And thus the story ends, not so very happily in this case but at least with a good moral. Maybe a lot of funny things will happen next week and we can all get a good laugh and forget about such things as shoplifters and ruined traditions. So long, see you sooner or later in Hades, but don't worry too much about it.

CAMPUS CALENDAR

Friday, April 19:	
Pi Kappa Phi Dance (Biltmore Hotel)	10:00 P.M.
Saturday, April 20:

Here and There

INTERNATIONAL STUDENT CONGRESS TO BE HELD IN BUDAPEST, HUNGARY

This summer an important international student congress will meet in Budapest, Hungary, from August 10th to 24th. This will be the eleventh annual congress of the Confederation Internationale des Etudiants (C. I. E.) of which about thirty-six nations are members through their national unions of students. The National Student Federation of America is a member of this International Confederation of Students and will therefore be represented at the Budapest Congress.

Founded in 1919 at Strasbourg,

France, because of the need for the co-operation of the youth of the world, the Confederation Internationale des Etudiants convenes annually in Congress to discuss concrete means of promoting international student co-operation. It is the belief of this student organization that the best way to further international understanding is through actual co-operative activities in which the students of various countries must work together. Such activities have been to promote student self-help, international students sanatorium, an international Book Bureau, international university games, and student travel. The two weeks of the annual congress are spent, therefore, not in theoretical discussion of peace or politics, but instead in promoting the activities which will create international understanding among the youth of the world.

THE STRANGE DISAPPEARANCE OF MARY YOUNG

Harper & Brothers

By MILTON M. PROPPER

Reviewed by Robert Innes Center, President of the Detective Story Club

Of all the detective stories I have read recently, (over one hundred and twenty-five of them) this book stands out as one of the very finest. The story sets out at a fast pace and races along as speedily as do the cars on "The Thrills in the park," a scenic railway that plays an important part in this book. Never for a minute does it relax, and this swiftness is sustained to the very last page.

Even though this is a first detective story, Mr. Propper shows a remarkable adaptability for this type of fiction. He displays due regard for the rules of detective fiction and only violates them when absolutely necessary or to obtain a required effect. He knows how to create suspense, atmosphere and ingenious situations. The plot contains some new and novel twists and the combination of a disappearance and a murder adds decidedly to its effectiveness. The reader is never lead on false trails without explanations.

The characters in this story are all drawn with a deft hand and there is more keen characterization than appears in the usual detective story. However, this characterization does not interfere with the working out of the plot and does not intrude itself too much.

If Mr. Propper continues writing books of this calibre he will certainly become an excellent addition to the highest ranks of writers in the field of detective fiction.

From the Commerce Evening School

By ALEX LINDHOLM

Spring is well in our midst and brings with it the usual array of social events. It is quite a question as to which of these events takes prestige over the rest, but some bid fair to out-do all records.

The Junior Class entertained at a dance given at the new hall on the Campus last week. Those present reported a very enjoyable occasion.

President Driskall of the Freshmen Class announced a luncheon to be given at the Evening School Building on Friday, the nineteenth. Mr. Chas. V. Rainwater, of the Coca Cola Bottling Company will give a talk and there will be other features. All Freshmen are urged to be present. The time is set at 12 to 1 P.M.

Mr. Driskall also states that the class is giving a banquet on the following Saturday at the Ampico Hall over the S. & W. Cafeteria. The name of the speaker for the occasion will be announced later.

Pi Chapter of Alpha Kappa Psi reports a barbecue given at "No-el-pines", the home of Professor Noel, on April the sixth. Something over thirty were present and the affair proved to be a splendid success.

The Chapter also announces that its annual dance will be given on April the twenty-fourth at the East Lake Country Club. This dance is eagerly looked forward to as a gala event by the Chapter and its friends. Preparations are being made for the silver anniversary of the founding of the Fraternity which will be held at Denver, Colorado this year. Mr. Corker has been named as delegate to represent Pi Chapter.

The fraternity's annual award of a gold scholarship key to the student in Commerce making the years highest grades will be made at the class of this quarter. Excitement runs high as the end of this term draws nearer.

The Venetian Club holds its regular meeting at the Cox-Carlton Hotel on April the twentieth. At this time several newly elected members will be admitted to the society and plans for the Annual Buttermilk Dance will be completed.

Kappa Chapter of Delta Sigma Pi has just sent a delegation of some dozen or more members to Columbia, South Carolina. A new chapter of the Fraternity is being installed at the University of South Carolina and Kappa Chapter has been asked to assist in the installation.

Norman Pettys, head-master announces that final arrangements for the chapters annual formal Dance

RIFLE TEAM WINS FOR FOURTH CONSECUTIVE YEAR

Headquarters Fourth Corps Area
Office of the Corps Area Commander
Fort McPherson, Ga.
April 8, 1929

Dr. M. L. Brittain,
Georgia School of Technology,
Atlanta, Ga.

My Dear Dr. Brittain:

I take great pleasure in informing you that the Senior Division R. O. T. C. Fourth Corps Area Gallery Rifle Competition Trophy has been awarded to the Georgia School of Technology for the current year, as a result of the excellent performance of the Georgia School of Technology Gallery Rifle Team. Your team won this match over thirteen competitor teams, with a score of 3,596 out of a possible 4,000.

I congratulate you upon winning the trophy for the fourth consecutive year.

Sincerely yours,
Richmond P. Davis,
Major General, Commanding.

AT THE THEATERS Next Week

HOWARD

The Management of the Howard takes pride in bringing to you next week what has been acclaimed the "Dramatic Thunderbolt" of the season, "The Letter," starring Jeanne Eagels.

Miss Eagels, renowned by her sensational performance in Somerset Maugham's great stage success, "Rain," established herself as one of the greatest emotional actresses in the history of the American stage.

She now makes her debut on the audible screen in another Maugham play, "The Letter," which has drawn endless praise.

"The Letter" tells the story of a woman, sensitive, selfish and romantic; the discontented wife of a plantation owner in Singapore the land of oppressive heat; of rubber; of Oriental night life. Into this play has been skilfully woven a story of frustrated love, jealousy and passion that builds up to one of the most powerful climaxes seen and heard on the screen.

have been completed and that it will be held at Druid Hills Golf Club on Wednesday, April seventeenth. There will be a large number of the fraternity members and their friends present and its success is assured.

It has been reported, (authenticity of the report has not been investigated) that Judge Meriwether is in the market for a new automobile. Judge what's happened to old "Fiery and untamed?"

Enrollment for the summer session of the Evening School is rapidly mounting up. Those interested should see Dean Sparks within a few days.

CAPITOL

William Haines and Joan Crawford's picture, "The Duke Steps Out" will be shown at the Capital next week. This is a Swift Speedy talking picture of modern youth and with such a popular cast as this picture has it must be good.

The following act will be given on the stage:

1. Casa & Lehn in Dance Poems with Londons Palace Girls.
2. Lydell Higgins in "Nonsense".
3. Dave Gardineer in "Memories of Dave" with Aileen Grenier, Muriel Malone and Frank McCabe.
4. Victor Oliver, "The Aristocrat of Variety."
5. Reck and Rector in "The Society Entertainers."

METROPOLITAN

At the Metropolitan this next week will be "Kid Gloves" with Conrad Nagel, Lois Wilson and Edna Murphy. It is a story of slugging melodrama, which is a very popular picture.

Conrad lives a notorious life, being a high-jack and latter meets the beautiful Lois Wilson who of course cared nothing for a high-jack. He because of her reforms and in the end wins her. He proves to her that he can

be just as good a fellow as he was a high-jack. You can not afford to miss it.

GRAND

Every once in a while a picture comes along that takes us completely out of ourselves and transports us into a new and unfamiliar environment. For a time we live the lives of the players in the story, suffer vicariously, and joy with them in their triumphs.

Such a picture is "The Barker," which opens at the Grand theater Monday April the 22nd. It is a George Fitzmaurice special production for First National, and has Milton Sills in the Title role as the speiler in the little third-rate carnival troupe.

Sills has never given better work to a role. It is shaded so finely, restrained where needed and flamboyant where the characterization demanded expression.

For last three days of the week, Grand presents the master drama of Richard Dix, "Redskin". "Redskin" is the drama of a race of people, clinging to old traditions yet seeking to adapt themselves to the new. It is a struggle of youth against the caution of age; of youth seeking release from the chains of tribal custom.

Richard Dix plays the leading role, with beautiful Gladys Belmont, a newcomer to leading parts, opposite him.

RIALTO

Starting at the Rialto Monday will be Reginald Denny's first talking picture—"Red Hot Speed" with Alice Day. This picture contains one of the funniest stories you have ever seen on the screen.

This is not an automobile racing story as the name might suggest but is the tale of a pretty girl who couldn't drive slowly and became a frequent visitor to the traffic court for speeding, finally being paroled for reforming to the young district attorney (Denny) by a judge with a sense of humor.

The American Legion Community meeting will meet Sunday afternoon between 2 and 7 P. M. at this theater. Invitations can be secured from any member of the American Legion or at the office of the Legion at 201 Boling-Jones Bldg.

Textile Seniors Make Trip To Columbus

The textile seniors are this week visiting Columbus to make an inspection of several of the larger cotton mills located there. Each year the graduating students in this department make this trip or one similar to it. Members of the textile staff who will, accompany the seniors are: H. S. Busby, W. J. Carmichael, and D. E. Philpot.

The students will be the guests of the owners of the Bibb Manufacturing Co., Columbus Manufacturing Co., Swift Spinning Mills, Eagle and Phoenix, and a number of smaller textile concerns located in that city. A study of the mill conditions will be made and a large part of the visit will be devoted to an inspection of the looms and machinery.

The mill owners are to be interviewed and the boys who take advantage of the opportunity will be enabled to get an insight on the work that is actually being carried on in the textile industry.

Georgia School of Technology

"A Technical School With a National Reputation"

THE GEORGIA SCHOOL OF TECHNOLOGY offers to young men of ability and ambition a training which will fit them for positions of responsibility and power.

The national reputation of this institution is based not on claims, but on results. Its greatest asset is the record which its alumni are making in the productive work of the world. Georgia Tech graduates succeed because they have been trained both to think scientifically and to work efficiently.

Courses in Civil, Electrical, Mechanical Textile, General, and Ceramic Engineering, Engineering Chemistry, Architecture, Commerce, and General Science.

SPORTS

TWELVE RECORDS GO DOWN IN SOUTHERN RELAYS

TECH MERMEN WIN STATE SWIM MEET AT A. A. C.

McKinstry, Holleman and Harris Set New Records In Exciting Contest

Every state record and one southern record was broken with the exception of the relay and the backstroke events last Saturday night at the A. A. C. pool in the annual State swimming meet sponsored by Emory University.

The Tech swimmers took every first place, and a good per cent of the second in scoring their most decisive win of the year. The score was Tech 49, Emory 13 and Georgia 6. The meet was very closely contested all the way, The Emory and Georgia teams had a hard fight for second place Emory winning it by taking the place in the relay.

Red Holleman was high point man of the meet, winning both the 100 and the 220 events, and hanging up new records in each event. Capt. McKinstry set a new southern record in the 50 yard dash with the time of 25.1. Buster Harris set a new state record in winning the 100 yard breast stroke race in 1:17.1.

Perhaps the most exciting event was the 100 yard back stroke in which Simpkins of Tech barely beat out Young of Emory in a last des-

(Continued on Page 6)

Sewanee Loses To Tech Golfers

Brilliant Playing Gives Jackets 10½ to 7½ Victory

The Tornado linksmen came through to victory over the Sewanee Tiger golfers Saturday afternoon at the East Lake course, the final count being 10 1-2 to 7 1-2. It was a wonderful day for the match with no wind at all, and consequently, all the scores were low.

Shag Irwin, Jacket leader, led the field with a 74 in the first foursome going out in 35 strokes and coming back in 39. Charlie Brumby followed his teammate closely with a 75, and Williams and Edwards of Sewanee also carded a 75 each. The score was 6 1-2 to 2 1-2 at the end of this foursome with the Jackets leading.

The second foursome was won by Sewanee with Holloway turning in an 81 for low medalist. Scott Hudson of Tech, was 2 strokes worse with an 83 and Leach and Butler followed in order with 84's and 86's respectively.

This win places the Jacket Golf team about third in Conference standing with several hard matches in front of them.

Frosh Nine Take Easy Games From Gordon and Monroe

Duke, Pitches Second Straight Victory of Season

Coach Roy Mundorff's rat nine won their third victory of the season Thursday from Red Barron's Monroe Aggies by the score of 8-3. The Jackets hopped off to an early lead when they pushed over two runs in the first inning. Pullen walked and went to second on English's single, and both of them scored on Farmer's two-bagger. They increased this lead every inning while Strickland was holding the Aggies to seven scattered hits and three runs. In doing this job he fanned eleven men.

On Saturday they won again when "Lefty" Duke twirled his second straight game for a victory, holding the strong Gordon Institute aggregation of Barnesville, Ga., to five hits and four runs. After the third inning not a single Cadet connected with the apple for a square hit. Two blows of the scratch kind were gotten but they did not amount to anything. Duke had only one bad inning, the third, when the Gordon batsmen nicked him for three hits and all four of the runs. Vance walloped out a homer scoring Harris from second after his

(Continued on Page 6)

INDIANA AND LA. STATE LOWER RECORDS IN TWO FAST EVENTS

Tech LaCrosse Team Invades Athens

Engagements Scheduled For Friday and Saturday

"Doc" Crenshaw's LaCrosse warriors have been trekking out to Piedmont park lately for their practices. The Georgia Power Co. busses have been furnishing transportation in coaches with real leather seats, isn't that nice. The boys seemed to enjoy these jaunts out to the park, but now that football practice is over until the fall, they will have no more such jaunts for practice, but will have it all out on Grant Field.

The team seems to be in great shape, and with seven of last year's lettermen back in the ranks, and the added influx of last year's freshmen, the outfit has in its power enough vim, vigor and vitality to make it hot for the opposition they face this year. Of the men who have been going through daily scrimmage, Captain Jimmie Cook, Bob Trammel and Joe Westbrook seem to stack up as the three best players found around these parts. These lads are brilliant players and form a very nice nucleus for a classy twelve, as a LaCrosse team numbers.

The complete schedule up to date (Continued on Page 6)

Beard Shatters Hurdles Mark-Nelson Puts Shot 46 feet 11 3/8 Inches

Twelve relay records were shattered on last Saturday afternoon in the college and freshman events of the seventh annual Southern Relays held on Grant field. New records were established in the distance medley by Indiana, the 120-yard high hurdles by Beard, of Auburn; the half-mile relay for freshmen by North Carolina; the half-mile relay for conference colleges by Florida; the mile relay for conference colleges by Florida; the two-mile relay for conference colleges by L. S. U.; the four-mile relay for conference colleges by Duke; the two-mile run by Leas, of Indiana; the two-mile relay for freshmen by Auburn; the 220-yard low hurdles by Beard, of Auburn; the shot put by Nesom, of L. S. U., and the high jump by Eubanks, of Oglethorpe.

Percy Beard, Auburn flash, proved to be the individual star of the afternoon by setting two new records in the two hurdle races. His new time in the high hurdles was chalked up at 14.8 seconds, bettering the old time of 15 seconds quite a lot; and his time for the low hurdles was one full second better than the previous record, of 25.2. His new time of 24.2 is

Rambling and Rumbling

By Hank

Permit us, if you please, to say something about the so-called professional athletes. In their efforts to prevent professional athletes from becoming members of college and university teams and from competing in college athletics, some of the officials are going to an extreme which may be tantamount to barring from athletics any student who works for a livelihood.

Now, don't misunderstand us. There is no good reason for instance why a bona fide student who happens to be a good athlete should not accept employment in professional athletic circles without being forever debarred from college athletics. On the other hand there is every reason why a professional athlete should be prevented from entering a school merely to play on a team. Between the two points, there is a chasm to be bridged which requires the utmost good sense and discrimination.

For instance it is obviously unfair to the student who has no father to support him and pay his college bills, to place him in a position where he dare not earn vacation money in professional athletics. He is a real student, intent primarily upon getting an education and with him, athletics are secondary. He should, by all rights be allowed to earn money in athletics outside of the school team, if he can do so, and he should not be barred from school athletics on that account. It is probable that a careful scrutiny of each case as it arises is the real solution of the question rather than a sweeping rule barring from college teams all professional athletes and defining a professional as any person who accepts money for services.

Too many colleges are devoting attention to athletics altogether out of keeping with the end which theoretically should be achieved. Many schools are so intent upon building up winning teams of athletes that the bulk of the students are practically eliminated from the athletic field and only the super-athletic students are trained. Coaches are employed at heavy expense to give additional athletic instruction to students already in the pink of physical condition and ath-

letically inclined and muscled. Yet in the same schools, universities especially, are dozens and dozens of young men in dire need of athletic instruction and out-of-door exercise who are given no encouragement on the athletic field. On the contrary they usually are ignored completely. That is one of the wrongs in school athletics in serious need of correction. Then too, some colleges use athletics as a form of advertising to attract students to the institutions. A winning team in this or that meet, is looked upon as so much advertising for the school, certain to bring its returns in increased enrollments the following years.

Realizing the situation, several of

North Carolina After First Conference Dual Track Meet

Tarheels Confident In Winning Distance Events

The cindermen of Tech will engage in a dual track meet with the team of the University of North Carolina on Saturday, April 20, at Grant field. The Tarheels come down to the flats with a record of several wins over strong clubs in and around the Carolinas. Nearly all of their last year's squad returned to school this year and some fine material was obtained from last season's frosh team.

The Jackets will have to step some to send these boys back to Chapel Hill with colors dragging. We did not show any strength at all in the Southern Relays last Saturday and unless somebody goes "right" and pulls a Paavo Nurmi stunt, the Tornado squad will be the losers again. However, George Coffee, Tech's dash man stands a good chance of toting away the honors in the 100-yard sprint and perhaps the 220-dash. The distance relay team also should account for a few points. The loss of Ed Hamm will certainly be felt in the field events because there isn't a single outstanding man to take his place. Also he could be used for points in the dashes.

All the world's a campus

It may appear a vast jungle of smoke-stacks and buildings, blind alleys and not very definite possibilities.

But there are those who say it is as interesting, as colorful, as alive as any college campus. And why shouldn't it be? The world, too, needs men who are

leaders of men. Men who can do new things. Men who can make new records.

In the world's forward-looking industries, a man's horizon is bounded neither by college walls nor by any other walls.

At Western Electric, the student with the inquiring mind may carry his studies beyond the frontiers of knowledge. The man of action has an ever-broadening field of endeavor. To the ultimate scope of any one's activities there are few limits save one's will and ability to do.

FACULTY-MILITARY KOLUMN

Open For Those Who Would Speak

By The Sports Editor

THE PLOT THICKENS

Last Tuesday night we were attacked by a dual enemy and from all sides. Roy Mundorff, manager of the Faculty baseball team which has created such a stir recently accused us of discrimination and partiality in distributing publicity regarding the Military-Faculty game which is to be played Friday morning at 10:00 o'clock, April 26, for charitable contributions.

It seems that there has been lots of discussion because the game has not been given as much publicity in the past as might have been forthcoming. If such is the case, then we apologize to all save three or four. It has been reported that during a recent "skull practice" of the Faculty team the discussion was opened and Doctor William Gilmer Perry declared it would be impossible to get any of the team's publicity printed on our page because Captain H. W. Robinson, Military manager, had been hobnobbing with us, affording himself every opportunity of "sewing up" the print space. This is partially true, for the Military manager has been host to a good feed and like things, all of which must go to his credit in some manner.

And at the same time President Marion L. Brittain, rose up and declared that certain Faculty propaganda had been consigned to the waste basket. Last Wednesday night Dr. Brittain voiced a vigorous protest against this kolumn. But he substantiated his argument and won. To begin with, when the column was dubbed "Military-Faculty Kolumn," there was nothing intentional embodied, but President Brittain declares it was the Faculty Department which instituted the movement and should be entitled to the honor position in the consideration. To add to the weight of his argument, Dr. Brittain included a box of Piggly's chewing gum knowing in advance our dislike for tobacco and intoxicants. Henceforth, its the FACULTY-MILITARY KOLUMN, likewise ball game.

Roy Mundorff's call for practice yesterday was answered by more than a dozen of the prospective defenders of the Faculty honors Memorial Day.

Dean Field, Dean Skiles, Professor Snow, Professor Gibson, Dean Noel, Professor Wenn, Dr. Crenshaw, Professor Armstrong, Professor Sparks, Professor Stamy, Dr. Weriwether, Professor Ervin and several others unlimbered then stiffened again, playing arms. Unaccustomed to cleated shoes and the like, two or three members were forced to hide behind automobile curtains etc., after practice slides and the like.

"Looks like they ruined our chances," declared Professor C. D. Gibson last night. "For not one who practiced yesterday will be able to play next Friday."

TWELVE RECORDS GO DOWN IN SOUTHERN RELAYS

(Continued from Page 4)

but 1.2 seconds behind the world's best time.

The University of Indiana, whose athletes came through by winning four first places, was undoubtedly the outstanding team of the afternoon.

The first event, the distance medley, was taken into camp by Indiana from the Michigan State Borman who won this event in the Illinois relays. The new time of 10 minutes 24 3-5 seconds was turned in for this event.

The second event of the afternoon was the 100-yard dash which the finals went to Gordon of Indiana, in the record-equaling time of 10 seconds. Currie, of Davidson and Brown of L. S. U. came in second and third respectively. Beard, of Auburn won the third event of the afternoon by chalking up his new time in the 120-yard high hurdles. Eubanks, of Oglethorpe who placed second in this event, was neck and neck with the Auburn flash until the eighth hurdle was reached when Beard drew away and won by one yard and a half. Virgin, also of Auburn came third in this event.

The Yellow Jacket Rat relay team were nosed out of the half-mile relay for freshmen by North Carolina in the next event. The Jackets led until the very last lap when Charlie Farmer, Tarheel Rat star, overtook LaForge and passed him to win by several yards. A new time of 1 minute 31.6 seconds was made in this event.

Farmer, the same North Carolina frosh, proved to be the main reason in the Tarheel Frosh's win in the one-mile relay for freshmen. North Carolina won this event in 3 minutes and 30 seconds, winning from Furman. In the half-mile relay for conference colleges, the Florida team swept to victory over Sewanee and Auburn who finished second and third respectively. A new record of 1 minute 31.2 seconds was the time for this event.

The 'Gator relay team also took the mile relay in camp by setting a new time of 3 minutes 25.5 seconds, while the old record was 3 minutes 52.2 seconds. Vandy finished second while Tennessee took third place.

The 'Gator relay team also took the mile relay into camp by setting

a new time of 3 minutes 25.5 seconds, while the old record was 3 minutes 52.2 seconds. Vandy finished second while Tennessee took third place.

The most gruelling race of the afternoon, the four-mile relay, went to the University of North Carolina, who established a new record of 18 minutes and 17.2 seconds.

The two-mile relay saw the quartet representing Georgia Tech lead until the final lap of the race in which all contestants maintained a furious pace. In the final lap, however, L. S. U. edged nearer and nearer, finally passing the Tech runner, but only after record-breaking time of 8 minutes 8.2 seconds had been made, beating the previous record of 8 minutes 9.4 seconds held by the Mississippi Aggies of 1.2 seconds.

Rodney Leas, lanky distance man from Indiana, broke the record in the two-mile run with the time of 9 minutes 38.3 seconds. Bob Young, Georgia star, finished second and Field of Indiana came third.

Calhoun Street School won the quarter-mile relay for grammar school, while the James L. Key school copped first honors in the second of the quarter-mile relays.

The sprint was taken by Indiana with the time of 3 minutes and 40 2-5 seconds, while Clemson finished second and Florida took third.

The 220-yard low hurdles were run off in three heats, Beard of Auburn and Eubanks of Oglethorpe qualifying in the first; Whittle of Davidson and Virgin of Auburn in the second and Newcome of Florida and Hatfield of Indiana in the third. The finals found Beard of Auburn the winner with a new time of 24.2 seconds, while Whittle of Davidson finished second and Virgin of Auburn took third.

In the high jump, Banty Eubanks of Oglethorpe, broke his old record of 5 feet 11 5-8 inches, by clearing the bar at 6 feet 1-2 inch. Gebhardt of Indiana took second place. Nesom of L. S. U. broke his own record in

the shot put by hurling the iron ball 46 feet 11 3-8 inches. He also took first in the discus throw with a heave of 130 feet 11 1-2 inches.

Keener of Georgia and Federick of Mississippi tied for first in the pole vault with 12 feet 1 1-2 inches, while Hogrefe, of Presbyterian College won the broad jump with a leap of 23 feet 1 1-4 inches.

Florida and Tech Racketeers In 3 to 3 Tie

Lewis, Jacket Captain, Beaten For First Time In Straight Sets

The Jacket and University of Florida tennis teams battled to a 3 to 3 tie last Saturday at the East Lake Courts. The teams were fairly evenly matched in singles and doubles.

The Alligator leader, Gus Feur, grabbed the lead for his team when he turned back the strokes of Captain George Lewis, to win 6-0, 7-5. Burr Cabeniss then dropped his match to Polites of Florida by 6-1, 6-3 scores. Red Williamson chalked up the first win for the Jackets when he bested Fisher in straight sets 6-3, 6-3. Sid Goldin followed by taking Salley into camp by 6-4, 3-6, 6-2, in a hard match. Sid was playing for the first time this year and he showed lack of practice.

In the first doubles the Gators won again defeating Lewis and Goldin by 4-6, 8-6, 6-2. Feur and Salley were the men who "done" the dirty work. Williamson and Cabeniss got revenge by repelling Fisher and Polites in successive sets 8-6, 7-5, thus tying up the match.

PAUSE AND REFRESH YOURSELF

IT WON'T BE LONG NOW. AND THE PAUSE THAT'S COMING MAY NOT BE SO REFRESHING AS SOME OTHERS WE KNOW OF.

The moral is to avoid situations where it is impossible to pause and refresh yourself — because whenever you can't is when you most wish you could. Fortunately, in normal affairs there's always a soda fountain or refreshment stand around the corner from anywhere with plenty of ice-cold Coca-Cola ready. And every day in the year 8 million people stop a minute, refresh themselves with this pure drink of natural flavors and are off again with the zest of a fresh start.

OVER

double. And from then on it was just too bad for the home town club, as they going out in one, two, three order until the ninth when Slaydon's grounder took a mean bounce over English's head for a single.

The Gordonites started a short rally in the sixth only to be stopped by a pretty double play, Roberts to English to Preston. The Baby Jackets had several big innings, the third, when they banded in 3 runs, the fifth with 4 markers, and the ninth with 4 more scores. They garnered 19 hits in all with Preston leading the crowd with a triple and two bingles out of four trips to the platter. Everyone got his safe one with the exception of Duke who failed to connect during the afternoon.

RAMBLING AND RUMBLING

(Continued from Page 4)

the more solid educational institutions are beginning quietly to divert the student body from the present athletic tendency and to encourage a more general form of athletic meet in which a greater percentage of the students can participate.

In this connection, military training, which was introduced in many institutions during the late war, has slumped until in some colleges and universities it is a negligible factor. Yet there is no better training for the bulk of the students than the school of the soldier, which flexes the muscles and gives the proper set up and carriage to the body.

It is to be hoped that school athletics will quite generally undergo a change in the coming years and less attention will be paid to winning teams and more to the general physical development of the students with coaches who will instruct and assist those showing the greatest championship possibilities.

We sincerely want to thank the writer of the much enjoyed little note who signs herself E. A. or is it C. A. or perhaps E. R.? Words of praise are always appreciated and we want you to know that you have made us very happy. Yes, we are very anxious to know who you are. Won't you please tell us? We'll assure you that we are not half as bad as some of our beloved professors think we are.

TECH MERMEN WIN STATE SWIM MEET AT A. A. C.

(Continued from Page 4)

perate sprint, which overcame the slight lead that Young had held all the way until the finish. The time of the event was fairly slow being swam in 1:16 flat.

The meet saw the colors of Tech worn on more than one star for the last time. Capt. Dick McKinstry, Red Holloman, Buster Harris and Bill Simpkins swimming their last race for Tech. It will be an almost impossible task to fill the gaps left by these swimmers, who have been such a large factor in the winning of six southern conference championships and two state titles, the sixth conference title coming this year.

Following is a summary of the events Saturday:

50-Yard Free Style—McKinstry (T) first; Hoynes (G), second; Shackelford (T), third; Time, 25 seconds. (New record.)

100-Yard Backstroke — Simpkins (T), first; Young (E), second; Richards (G), third. Time, 1:16.

100-Yard Breaststroke—Harris (T) first; Merrill (E), second; House (T) third. Time, 1:17.1 (New record.)

Diving—Maier (T), first (96.4); Harris (T), second (95); Hodgson (G), third (94.2).

220-Yard Free Style—Holleman (T) first; Simpkins (T), second; Sherman (E), third. Time, 2:30.8 (New record.)

100-Yard Free Style—Holleman (T) first; McKinstry (T), second; Hoynes (G), third. Time, 57 seconds flat. (New Record.)

200-Yard Relay—Tech (Holleman, McKinstry, Pancoast, Shackelford), first; Emory (Eberhart, Ficklen, Sutton, Merrill), second. Time, 1:47.8.

Tech Debaters Meet Florida

On May 8, two Tech debating teams will meet two teams representing the University of Georgia in a determined effort to establish the supremacy of Tech in the field of debating as well as in football. Great interest and enthusiasm is being shown by the debaters of the two colleges, and they are hard at work in preparation.

Two debates on the same subject will be held, one at Georgia, and the other at Tech. The subject is, "Resolved: That the Public should retain ownership of, should operate, and should develop the principal sources of hydro-electric power in the United States."

The team that will go to Athens is composed of C. L. Niehoff, and Stephenson. They will take the negative side.

The team debating at Tech, in the "Y" chapel, on May 8, is composed of R. J. Brooke and Frank Maier. They will take the affirmative side. A large audience is expected to attend both debates.

TECH LACROSSE TEAM

(Continued from Page 4)

for the LaCrosse players is nine games. Two of these games will be played on Grant Field, while the stick weilders will fight out the remaining seven on foreign soil. Friday the team journeys to Athens for a two-game series with the Georgia Bulldogs. They return to Atlanta Sunday for a few days practice, and on Wednesday they leave for a trip through the east, where they will meet

Maryland, Pennsylvania and the Navy.

The balance of the schedule calls for games in Atlanta with the Bulldogs of Georgia as guests on May 10-12, and a two-game series with the Fort Benning soldiers on May 15 and 16.

Coach Crenshaw is expecting a lot from his team this year, and he certainly has need to. LaCrosse seems that it will hit a winning stride for Tech this year.

Closed—the Road to Waste

INDUSTRY of the old school faced Waste as a necessary evil.

But now there is a new school, the modern, which employs new weapons to fight friction, maintain alignment, save power and preserve enduring machine life.

The coming generation of engineers and potential Captains of Industry are provided with the world's greatest weapon against Waste—Timken Bearings.

There is scarcely a single student of applied mechanics and economics who does not know Timken Bearings—and the exclusive combination of Timken tapered construction, Timken POSITIVELY ALIGNED ROLLS and Timken electric steel.

These graduates of the modern school are going out on the Highway of Life. They are going prepared to Close the Road to Waste with Timken Bearings, wherever wheels and shafts turn.
