WSF To Solicit Funds At Tech-Duke Game

By Fred Bennett

Contributions to a venture in world friendship will be sought from fans at the Georgia Tech-Duke Homecoming game November 3 at Grant Field. At halftime the World Student Fund will collect donations by means of cups passed through the football crowd.

Activated with the 1949-50 school year, the Georgia Tech W.S.F. seeks to aid world peace, friendship and professional competence by giving foreign students a chance to study here and by sending Tech students to foreign universities. This year five foreign students are at Tech on W.S.F. scholarships and one Tech student is studying at the Technische Hochschule in Stuttgart, Germany through an agreement between that institution and the W.S.F.

The money collected at Saturday's game will be split three ways among the W.S.F.; the Gene Turner fund, which helps support a project of the Young Men's Christian Association; and the World University Service, which awards scholarships to students on an international scale.

The Georgia Tech W.S.F. derives its funds from two solicitations per year, one made at a football game and one through the dormitories. It awards scholarships to foreign students on a one-year basis, and seeks to obtain for each newcomer a room mate who is particularly interested in helping the visitor become oriented and make the most of the time he spends at this school. Tech fraternities and other organizations cooperate in extending hospitality and service.

These are the five foreign stu-

dents who are studying at Georgia Tech this year under W.S.F. scholarships:

Francois Didier Martzloff, 23, of Sceaux Seine, France. A graduate Electrical Engineer from Ecole Ampere in Paris, Mr. Martzloff is continuing his studies here in the field of Industrial Electricity.

Alpha Tau Omega is Martzloff's host fraternity. Outside his home work shop, Martzloff's hobbies are music and photography, and in sports he leans toward cycling, swimming and basketball.

Torbjorn Arnold Snekenes, 24, comes to Georgia Tech from Oslo, Norway, where the importance of the fishing industry turned his attention to air conditioning and refrigeration systems. With a Bachelor of Science degree in Mechanical Engineering, Mr. Snekenes is preparing for a career in industrial refrigeration.

The Norseman had to leave his fondness for skiing in cold storage when he came to the Southland, but he also enjoys such local endeavors as tennis and swimming. His varied hobbies are classical music, model airplanes and radio construction and history. Snekenes has Sigma Chi as his host fraternity.

Wolfgang Maier, 26, who majored in Mechanical Engineering at

Grid Classic Highlights Homecoming Weekend

Homecoming Events

Friday, November 2, 1951.

Annual business meeting of the Georgia Tech Alumni Association, auditorium, Hightower Textile building, at 5:00 p. m.

Saturday, November 3, 1951.

Guided tours of campus, 9:00 a. m. to 11:30 a. m., from the rear of the Administration building.

Ramblin' Wreck Parade, 10:30 a. m., near new Textile building.

Alumni Luncheon, Noon, in the Tech gym. Admission \$1.00 at gate.

Freshman Cake Race, 12:30, at Rose Bowl Field.

Football Game, 2:30, Grant Field.

Fraternity Open Houses, all afternoon.

Homecoming Dance, 9:00-12:00 p. m., in the Tech Gymnasium.

Drama Tech Group Plans Performance At Fort McPherson

By John Langford

DramaTech, the Georgia Tech dramatics group, has accepted a request to give a performance of their forthcoming play, The Live Wire, for the entertainment of the military personnel stationed at Ft. McPherson, Georgia. The date selected for presentation is Monday, December 1, following their regular week-end performances.

It is interesting to note that DramaTech is the first college drama group to be asked to perform at Fort Mac. This is certainly a commendable achievement for

Welcome Alumni

Festivities Include Dance, Reck Parade, Cake Race

By Alon Miller

Homecoming! The word that means to all graduates of a school that they will once again see their old stomping grounds and old classmates. This year is Georgia Tech's 28th annual Homecoming. As always, gala festivities are planned and everyone is looking forward to seeing everyone else.

The highlight of the week-end will be the Tech-Duke football battle in Grant Field at 2:30 Saturday afternoon. Tech lays its unbeaten string on the line and hopes to make this number nine in a row.

Saturday morning at nine o'clock, tours of the campus will be conducted starting at the Administration Building. Next on the agenda will be the famous "Ramblin' Reck" Parade at ten o'clock followed by the Freshman Cake Race at eleven o'clock.

The annual Alumni Luncheon will begin at noon, and then everyone will turn out for the football game. Georgia Tech President Blake Van Leer, Head Coach Bobby Dodd, and Yellow Jacket Captain Lamar Wheat are scheduled to speak. A dance in the Tech gym will top the day off at 8 p.m. Saturday night.

At the alumni business meeting which is to be in the Harrison Hightower Building, the Alumni Association will hold their annual installation of officers. Retiring President Oscar G. Davis will give

up his gavel to new prexy Price Gilbert. Other new officers are: Charles B. Yates, Vice-President; Henry B. Grady, Treasurer; and Roanne Beard, Executive Secretary.

Fraternity homecoming decorations will be judged tonight. The winning fraternity will be presented a trophy by the Bulldog Club. House decorations will be judged on most original and best mechanical device, and best show and theme. Judges will be Otis O. Rae, Westinghouse Co., R. S. Griffith, General Electric, and D. Findley McRae, Blair Rollins & Co. Fraternity houses will open their doors to alumni all day Saturday.

The dance at the Tech gym will climax the social part of Homecoming. It will last from 8 till 12 and will be sponsored by the Bulldog Club. Music will be by Jesse Duckworth and his orchestra. At intermission, the rambling wreck award and the fraternity decoration award will be presented. The ANAK Society will tap new members at the dance, also.

Georgia Tech Bulldog Club Announces List of Initiates

By Marvin Gechman

The Bulldog Club's 1951 Fall initiation of Bullpups will begin this Saturday morning. At that time the Bullpups, dressed in their unique attire, will officiate the annual freshman cake race and will have the responsibility of directing traffic for the Ramblin' Reck Parade.

During the half time of the Homecoming football game the initiates will participate in a parade, and Saturday night, at the homecoming dance, the Bullpups will serve as ushers. The initiation will continue on Sunday and terminate with an initiation party at the end of the week.

Following is a list of the twenty-nine Bullpups along with the name of the organization they are representatives of:

Charles Beckler, Techwood Dorm; Paul H. Belz, Tau Epsilon Phi; Paul Berg, Phi Epsilon Pi; Robert L. Carroll, Lambda Chi Alpha; E. V. Clarke, Jr., Sigma Phi Epsilon; Thomas A. Comento, Callaway; Chauncey J. Crofoot, Delta Sigma Phi; Richard Ferster,

Sigma Nu; Robert D. Goldberg, Alpha Epsilon Pi; R. H. Henshaw, Chi Phi; John Hicks, Sigma Alpha Epsilon; George Jensen, Pi Kappa Phi; A. D. Little, Alpha Tau Omega; G. M. Martin, Kappa Sigma; A. J. Merkle, Jr., Pi Kappa Alpha; Hugh Middleton, Kappa Alpha; James Patrick, Jr., Towers; Kenneth Plambeck, Tau Kappa Epsilon; Gus Randolph, Delta Tau Delta; Robert Seldomridge, Phi Kappa Sigma; Henry Sellers, Phi Sigma Kappa; B. E. Shepardson, Jr., Beta Theta Pi; Cecil Silas, Phi Delta Theta; and the following five boys who do not represent any particular group: Edward Blanchard, Thomas Brown, Billy Drowhorn, William Noble, and Harold Zell.

Classes Will Be Dismissed Saturday At 10 A. M.

J. Paul Sheedy* Switched to Wildroot Cream-Oil Because He Flunked The Finger-Nail Test

POOR PAUL was eggzasperated because every chick on campus gave him the bird. They told him: "We're all cooped up!" Then one day his roommate said: "The hens avoid you beak-cause your hair's messy, you dumb cluck! I don't know feather you've heard of Wildroot Cream-Oil or not, but you better fry it—er, try it! Contains soothing Lanolin. Relieves dryness. Removes loose, ugly dandruff. Helps you pass the Finger-Nail Test." Paul got Wildroot Cream-Oil—and now the gals think he's a good egg! Better lay down a few poultry cents on the nearest drug or toilet goods counter for a bottle or tube of Wildroot Cream-Oil. And ask for it on your hair at your favorite barber shop. Then the girls'll take off their hatch to you!

Duckworth Band Plays At Homecoming Dance

On Saturday night, November 3, the Georgia Tech gymnasium will be the scene of the annual Homecoming Dance which is sponsored by the Georgia Tech Bulldog Club. The theme of the dance will be "Autumn Festival" with music furnished by Jesse Duckworth and his Orchestra. Duckworth is widely known for his smooth styling; yet variety is offered with plenty of fast pieces for the hep-cats.

Tickets for the occasion are priced at \$1.50, stag or drag, and can be obtained from any member

of the Bulldog Club or from any of the recently elected Bullpups.

The highlight of the dance will be the announcement of the Homecoming Decorations Contest winners. A trophy will be presented by Bulldog president Dan Guy to the first-place organization.

Also spotlighted will be the tapping of new members by ANAK, senior leadership honorary society. Also to be presented will be the winner of the Ugly Man Contest. Alpha Phi Omega, national service fraternity, sponsors the U.M.O.C. contest.

Frosh Cake Race

The annual Freshman Cake Race will also be held Saturday, November 3, on Rose Bowl Field. Starting time is 12:30 p.m. Freshmen are reminded that the roll will be checked. To the winner of the race will be presented a large, tasty layer cake. Several smaller cakes will be awarded to the runners-up.

Georgia Tech's First Graduate

The first graduate of Georgia Tech Mr. Henry L. Smith (right), class of 1890 returns to Georgia Tech with Mr. John Brogdon, class of 1905, for the 1951 Homecoming celebration.

Atlanta Clubs and Hotels Play Host To Alumni

The 1951 Georgia Tech Homecoming marks the fifteenth class reunion for Tech alumni. Classmates from 1901 to 1951 will celebrate homecoming week'end with luncheons, parties and dances.

Many of Atlanta's clubs and hotels will be hosts to the old returning colleges boys, some as far back as 1901. The Standard Club will be the scene for the re-

union of the classes of 1901 and 1911 after Saturday's game with Duke. The class of 1916 will hold their's at the Capital City Club, at 5:30 p. m. also on Saturday. Mr. Jimmy Johnston will open his home to the class of 1921. All Atlanta graduates will act as host to the out of town alumni. The class of 1926 and 1931 will hold their reunion at the American Legion Post seventy-two at 5:30

p. m. Saturday afternoon, while the class of 1941 will use the Standard Club Friday night.

Friday, November 2, a business meeting of the Georgia Tech National Alumni Association will be held in the Textile auditorium at 5 p. m.

Saturday at 11:30 a. m. the alumni luncheon will be held in the Georgia Tech gym. At this time Coach Bobby Dodd and captain of the football team Lamar Wheat will give a talk. Dodd, head coach and athletic director, began his twenty-first season at Georgia Tech this year. The school Glee Club and Band will furnish the entertainment. Plates will be one dollar, payable at the gate; luncheon tables will be set up for the various classes. The newly elected officers of the Georgia Tech National Alumni Association are as follows:

President, Price Gilbert, Jr., 1921. Mr. Gilbert is now retired from active business. He lives in Atlanta.

Vice President, Charles R. Yates, 1935. Southeastern representative for Joshua Bailey Company.

Vice President, Frank B. Williams, 1920, Vice President of the West Point Manufacturing Company, West Point, Georgia.

Treasurer, Henry W. Grady, 1918, Vice President of Robinson Humphrey Company who gave the advice for setting up the financial arrangement for the post-war housing facilities at Georgia Tech.

Homecoming is Celebrated For Twenty-Eight Years

By Alon Miller

Back in the days of the Stanley-Steamer and before the innovation of jet planes and mushroom explosions, there came upon the campus of Georgia Tech, like the squalling of a new-born babe, a brilliant idea. To be exact, Homecoming was conceived and dedicated at the Alumni Reunion on June 9, 1923. At this meeting the Alumni decided that since schools throughout the east and midwest had a special day set aside for Homecoming, a special day would henceforth be set aside for Homecoming at Georgia Tech. And so, twenty-eight years ago, Homecoming was conceived and dedicated to the Alumni and friends of Georgia Tech so that they might have a special time for getting together and looking back to "the good ole days."

Thanksgiving Day, 1923, fell on November 29. It was a dim and drizzly day when, at one o'clock, the old grads and the students of Georgia Tech met in front of the YMCA to march to Grant Field to witness the annual battle between the football teams of Georgia Tech and Auburn. As they marched, they thought back to the night before—to the banquet and rally

where they had heard speeches by Dr. Brittain and Coach Alexander.

This turned out to be a day of many "firsts." It was the first time that Georgia Tech had tied four football games in a single season; it was the first time that a Thanksgiving Day game had ended deadlocked in a zero-zero tie. For the first time, the Georgia Tech Band appeared in their new white and gold uniforms which were purchased through a student fund campaign and with the help of the Athletic Association.

The half-time ceremonies were impressive. The band paraded onto the field, formed a huge "T" and played "Ramblin' Reck." As the band played they turned around slowly so that everyone could hear the music. They then marched around the field to the strains of

(Continued on page 12)

Dr. R. Scharf To Participate On Seminar

For the matter of U. S. Foreign Policy analysis and formulation, The Brookings Institute, Washington, D. C. and the Rockefeller Foundation assembled some 130 scientists and leading government employees for a six days seminar at Asheville, N. C. at the famous Grove Park Inn.

Forty-nine of these have been selected from 49 different universities and colleges, the balance represented department heads of the State Department, the Pentagon and the staff members of the Brookings Institute. Dr. Robert Scharf of the Georgia Tech Social Sciences Department has been selected by Washington to participate on this seminar.

The International Relations Club has asked Dr. Scharf, who is its faculty adviser, to report about this meeting at Asheville. Two particular aspects of our foreign policy have been analyzed, namely the future development of the United Nations Organization and our economic situation in view of Great Britain.

Dr. Scharf will go into the Brookings method of analysis of problems generally and will touch on the difficult problems involved in our foreign policy.

Not only the members of the IRC, but faculty members as well as the interested students are urged to attend this report on the Asheville seminar.

APO Book Exchange Aids Many Students

By Bob Bonner

In the three and a half years that the APO Book Exchange has been operating they have handled about 8500 books for students. It is through this organization that the student is able to sell his old books at his own price through an established group.

The book exchange is located in room 201 of Knowles Building and operates the last four or five days of the quarter and the first four or five days of the next quarter. At the end of the quarter the student may leave his books and set his own sale price on them. In return for the book he gets a stub which he may redeem for the money when the book is sold. At the beginning of the quarter the books are sold. The price is the one set by the student and cannot be changed by anyone else. Several weeks after the sale of books is over the students whose books have been sold are notified to come and collect their money.

For the service of selling the books APO charges only ten percent, which is deducted before payment is made. This fee goes to pay the expenses of publicity and other operational costs. Whatever amount is left over after costs have been met is put into the Student Union Building Fund. There is no profit made by the organization.

Books may be left at the book exchange so long as they are in use at Tech. When the book becomes obsolete its owner is notified during two quarters and if he does not pick up his book by the end of the second quarter that it has gone out of use, the book becomes the property of APO.

The books which come into the

possession of the book exchange are sold about once a year and the entire proceeds of this sale are given to some cause selected by the APO chapter.

There is also the Senior Gift. This consists of books left by seniors when they graduate. These books are sold and all the money is given to the Building Fund. Since the book exchange started about one thousand dollars has been put toward the Student Union Building through the ten percent fee and the Senior Gifts.

WELCOME!

WELCOME ALUMNI

Tech students extend their greetings to returning Techmen.

This issue of The Technique is a special tribute to the old grads who are returning to their Alma Mater—if only for a few days—and we wish to take this opportunity to speak for the student body in extending our heartiest welcome to each of them.

We feel that this weekend will prove to be one of the best Homecomings that Georgia Tech has ever enjoyed, with practically every organization on the campus contributing towards its success. This year, as usual, the high point of the weekend will be the game on Grant Field, when the Yellow Jackets meet the Duke Blue Devils. Added to this will be the other various activities over the campus, which are covered fully on the other pages of this issue of The Technique; however, we would like to touch briefly on a few of the biggest events.

Friday night will find the Homecoming Decorations Contest in full swing, with each fraternity house decked out in decorations centering around Saturday's game. The first-place winner of the contest, which is sponsored by the Bulldog Club, will receive a handsome trophy while the second and third place decorations will earn points for those fraternities toward the IFC trophy.

Classes will be dismissed Saturday morning at 10:00 o'clock in order that everyone might be on hand for the annual Ramblin' Reck Parade, an event which is unique to Georgia Tech. This year, however, these ancient vehicles are expected to receive their rightful bit of publicity. Arrangements have been made with Paramount News to film the parade for their motion picture news service, while other films will be made

for delayed televising. The winner of this contest will, of course, receive the famed gold-plated spittoon, known to all Tech men as The Gibboon.

Of course the football game Saturday afternoon will occupy everyone's attention. According to our latest predictions, Coach Dodd's Yellow Jackets will come out on top by at least two touchdowns. At any rate, we are confident that Georgia Tech students and alumni will leave the game feeling much better than did the Vanderbilt supporters at their Homecoming last week.

Climax of the weekend will be the Homecoming Dance Saturday night. Highlight of the evening will be the tapping of Tech men by ANAK, senior honorary, and the presentation of awards to the winners of the Ramblin' Reck Parade and the Homecoming Decorations Contest.

While you alumni are here at the flats, we hope you will take the opportunity to see the changes that have been made in Tech's physical plant since you were last here. The most outstanding of the many improvements that you will notice, are the newly completed Bradley building and the near-completed Architecture building. Other improvements not quite so near completion include the new library which will be located on Cherry street.

Doubtless, the hand of welcome has been warmly extended to each returning alumnus many times, which would tend to make our welcome superfluous, but The Technique feels that it is impossible to overdo this type of greeting, and therefore add our sincere word of

—WmED

Shortcomings

... of "Who's Who" selections and methods to be investigated.

Last Tuesday, The Technique ran an editorial discussing the publishers of "Who's Who." Perhaps you would like to know exactly how the men are chosen, what we feel is wrong about the methods of the publishers, and what is intended to be done.

For one thing, the publishers of "Who's Who in American Universities and Colleges" do not have a certain standard which a student must attain before he is admitted to membership. They leave the method of selection up to the individual schools. This means that a high standard must be met by students in one school while a person of no importance may be selected from some other school. Also, the maximum number of students chosen is supposed to be one-half of one per cent of the total enrollment. This year thirty men were admitted from Tech but seventeen should have been the limit.

Another complaint against the publishers is that they try to sell items to the parents too forcefully and over a long period of time. The students who are elected and their parents, may not understand all the facts before they are sold the book, keys, and various items.

Something should be done to clear

up these few points, and something is being done. The Student Council has two committees working on solutions to the problem. One committee will try to work out some plan which they will present to the publishers of Who's Who. The plan will include a certain standard for each individual school, the same system of electing, a better way of offering the book for sale, and more strict regulations. The other committee will try to work out the best system for selecting members here on the campus. We feel that the system in use now is not entirely fair since some students who have not done enough to warrant being in "Who's Who" did get in. A method will be worked out which will be fair to all concerned. A minimum standard will be set up which all applicants must reach, yet which will let enough students in.

"Who's Who" is definitely a good thing. When the two committees work out these complaints which have come up, we think it will mean more to the members of the organization, the publishers, and the future members of "Who's Who In American Universities and Colleges."

—HMO

Alma Mater

Seemingly few students know Tech's most important song.

It has been realized for a long time that not many of us students know the Tech Alma Mater. This is a situation which should be changed.

The students are not entirely responsible for remembering the words of the song since there are very few occasions where the student can demonstrate his knowledge. If the Alma Mater were played more at banquets, pep rallies, meetings of all types, and at football games, the students would adapt themselves to the situation and learn the words.

Having the Alma Mater played more often is being looked into and a solution should evolve in the near future. In the meantime, let's learn the words.

—HMO

ALMA MATER

Oh, sons of Tech, arise, behold!
The banner as it reigns supreme,
For from on high the White and Gold
Waves in its triumphant gleam.
The spirit of the cheering throng
Resounds with joy revealing
A brotherhood in praise and song,
In memory of the days gone by.
Oh, Scion of the Southland,
In our hearts you shall forever fly.

We cherish thoughts so dear for thee,
Oh, Alma Mater, in our prayer
We plead for you in victory,
And in the victory we share!
But when the battle seems in vain
Our spirit never falters,
We're ever one in joy or pain,
And our union is a lasting bond.
Oh! may we be united
Till the victory of life is won.

TECHNIQUE PLATFORM:

1. Student voice in matters of student interest.
2. Encouragement of school spirit.
3. Better orientation and vocational guidance.
4. More participation in the intramural sports program.
5. Promotion of active campus organizations.

6. Promotion of more interest in Student Government.
 7. Erection of a Student Union building.
 8. Promotion of a successful Trial Board.
- The Technique will at all times attempt to represent the best interest of the students in current discussions and controversies.

Faculty Bulletin

Issued by the Department of Public Relations

FACULTY MEMBER RECEIVES DOCTORATE—Dr. John B. Hamilton, Department of English, successfully defended his dissertation and completed all requirements for the Ph.D. degree at the University of North Carolina on Friday, October 12.

PRESIDENT VAN LEER VISITS THE WHITE HOUSE—Dr. Blake R. Van Leer was a recent visitor to the White House where he attended an informal discussion of "troubles and problems" confronting the nation's top leaders. A group of more than 100 citizens was invited to talk over these problems with such leaders as President Truman, Charles E. Wilson, Director of Defense Mobilization; Eric Johnston, Economic Stabilization Administrator; Defense Secretary Robert A. Lovett and Gen. Omar Bradley, Chairman of the Joint Chiefs of Staff.

ENGLISH PROFESSOR DELIVERS ADDRESS—Mr. Tom F. Almon, English Department, spoke to the Audio-Visual Aids Division of the Georgia Education Association at the Ninth District Meeting of the Association held in Gainesville, Georgia on October 17. His subject was "Audio-Visual Aids Used in the Reading Training Program at Georgia Tech." He made the same talk at the Fifth District meeting of GEA in Atlanta on October 30.

CIVIL ENGINEERING NOTES—Mr. George F. Sowers has just been appointed as a member of the Soil Mechanics Committee of the Civil Engineering Division, American Society for Engineering Education. The term of his appointment is three years . . . Mr. Carl E. Kindsvater recently attended the conference on Water Resources, dedicating the new Water Resources Building of the Illinois State Water Survey Division, Urbana-Champaign. Prof. Kindsvater on invitation presented a discussion of a paper titled "Hydrology and the Hydraulic Laboratory" by Mr. A. S. Fry, Chief Engineer Hydraulic Data Branch, TVA . . . Mr. George F. Sowers and Mr. J. P. Liebsch attended the annual meeting of the American Society of Civil Engineers in New York City, October 22-26. Mr. Liebsch is a member of the sub-committee on "Factors of Safety, Unit Stresses and Load Factors" and the sub-committee of the National Association for Bridge and Structural Engineering . . . Mr. Robert E. Stiemke attended the annual joint meeting of the Florida Section, American Waterworks Association and the Florida Sewage and Industrial Wastes Association, Daytona Beach, October 29-31. He presented a discussion of a paper titled "State Regulation of Water Utilities" by W. F. Whitney, Commissioner of the Public Service Commission of Wisconsin.

Other Colleges Say —

Purdue Campus Can't See Frosh Un-corduroy Co-eds

By Bill Ross

Up at Purdue University they have senior regulations as well as freshman regulations. Any senior caught wearing corduroy clothing may have it removed by the freshmen, who have the right to do so. Incidentally, this applies to co-eds as well as to the men students. Co-eds, however, may have their "cords" removed only within the dormitories.

—The Iowa State Daily.

* * *

The coach was giving the team a pep talk before Saturday's big game: "And remember, boys, football develops individuality, initiative, and leadership. Now get out there and do exactly what I tell you."

—The Detroit Collegian.

* * *

Take heart, men! The University of Bridgeport once had a sophomore student who hadn't passed a course in four years. He burned

the midnight oil, all right — the wrong kind.

—Technology News.

* * *

1st Co-ed: I've been out with a lot of Tech boys, but I haven't kissed one yet.

2nd Co-ed: Which one is that?

—Technology News.

* * *

Co-ed to her Tech date: "I nearly fainted when the fellow I was out with last night asked me for a kiss."

Tech Man: "Baby, you're going to die when you hear what I have to say." —Technology News.

Coach Roy M. Mundorff Leaves For Directorship

By John Redmond

After almost thirty years of loyal service to Tech as coach and professor, Roy M. Mundorff, who at present is assistant athletic director, director of intramural athletics, and head of the physical department, will leave for the University of Louisville on December 31 of this year, where he will become athletic director.

Coach Mundorff first came to Tech in 1922, after graduating in 1920 from the University of Pennsylvania, where he had played football, baseball, and basketball. He was coach of freshman baseball and basketball and an assistant professor in the math department. In 1924, continuing as freshman baseball coach, he was made head basketball coach and coach of B-team football. He became a close friend of the late

Coach Alexander, scouting for him and assisting him in many administrative duties. In 1935 he introduced at Tech the use of the movie camera in football study and left the football field to work with these cameras. He continued scouting, and in 1937 was appointed head baseball coach. In 1938, he relinquished his duties as assistant professor of mathematics to devote his full time to administrative work in the athletic department, which had grown and expanded. He continued coaching, however, until 1942, when he became a commander in the Navy, serving as training officer in the radar school of Harvard University.

Upon his return to Tech in 1946, Coach Mundorff was made assistant athletic director to Coach Alexander and assistant to the head of the physical training department. During this time he helped organize the extensive and thorough system of intramural athletics that now exists at Tech, a great improvement over any intramural systems that had previously existed. Upon the death of Coach Alexander in April of 1950 he remained assistant athletic director and also became head of

(Continued on page 12)

Fraternity Fanfare

By Tom Jenkins

A couple of months ago, Sigma Chi national announced by letter, that to foster a more competitive spirit, they were awarding to fraternities on different campuses, a trophy for scholarship. This trophy is awarded to the eligible fraternity who maintains the highest scholarship average for both actives and pledges for the three school quarters quarters of 1950 and 1951.

It was announced in IFC meeting last Tuesday night that the Sigma Chi trophy had been won by Beta Theta Pi. The trophy will be awarded to the Betas at a future date. This trophy is about the largest awarded to any fraternity to date. It is insured for five hundred dollars and stands about three and one-half feet high.

Beta will be allowed to keep this trophy until the fall quarter of 1952 when it will again be awarded to the eligible fraternity with the highest over-all point average. It will be kept in the possession of that fraternity for that school year when the process will be repeated the following year.

There have been some additions to the first list of pledges posted by Dean Pershing and published by The Technique. They are:

Phi Kappa Phi

Rodger A. Jones, James H. Powers, V. C. Chew

Kappa Sigma

Aurthur Hubert

Delta Sigma Phi

F. Don Lewis, Charles Samuel Davis

Phi Sigma Kappa

Richard S. Bagwell, Albert C. Thomas

Pi Kappa Alpha

Bruce Kelly, Dan R. Moore

Sigma Nu

William P. Hill

Sigma Chi

Philip Harley Taylor

Phi Epsilon Pi

Paul Lefkoff

If there are any corrections or omissions to the completed list, Dean Pershing or his secretary should be the one to contact. Dean Pershing is in charge of the fraternity affairs this year and is acting as the faculty advisor for the IFC.

In the way of social functions, there haven't been too many planned. Many of the parties seem to be more of a spontaneous nature in that they start with a few brothers and suddenly grow into a fraternity function.

Homecoming this year should be a real homecoming for both the alumni and the victorious football team. Many of the alumni will be visiting the fraternity houses and looking at the homecoming decorations. Much can be done by the brothers of the chapter on campus, to welcome the alumni and make them feel at "home".

The majority of the chapters on campus have been too busy with decorations and "recks" to have many planned functions. If the response received by the contacted fraternities is an indication of the ones planned, then there should be about one-hundred per cent participation in the social "S" of college life this week-end. Phi Delta Theta is having a house party this week-end and a house dance on the nights that their dates will be in the house. The brothers will move out of the house and will turn it over to the girls on Friday afternoon.

Dean Griffin has urged that all fraternities who have planned functions coming up in the present or future, to be sure and check with his secretary and fill out an application and a report, on the party held.

The fraternity men are all urged to submit their candidates for UMOG, Ugly Man On Campus. The letter for application arrived late to some of the chapters and they have not turned in their candidates for this award. This year the UMOG will be given a novel key, on the front will be a cartoon head with the person's name, date and fraternity inscribed on the back.

Criticism of Sororities Rejected By Movie-goers

There are indications that Hollywood fell flat on its face in trying to rouse public sentiment against college fraternity-sorority elements with the Greek-blasting film, "Take Care of My Little Girl."

Falling equally flat was the Interfraternity Research and Advisory Council's chairman who denounced the movie as "Communistically inspired propaganda" which would "give comfort to the enemies of our country."

A recent series of informal interviews in Minneapolis, Minn., seems to indicate that the majority of those who saw the movie were not moved one way or the other in their attitudes toward Greek-letter organizations. And without exception the theater patrons called the "Communist-inspired" charge ridiculous.

Movie-goers interviewed as they left neighborhood theater lobbies included 17 adults who had no college education, three coeds belonging to sororities, two fraternity actives, four non-Greek college students and several high school students.

Except for two elderly ladies, all those questioned said they felt the movie had very much distorted the sorority picture. Commented one 38-year-old family man, "I don't know—I suppose some of it is true. It seemed awfully silly, though. How do they get anyone to join if it's that bad?"

Other opinions: "It was one-sided" . . . "College kids aren't that foolish" . . . "Sororities aren't that bad." An elderly lady declared, "Sororities ought to be eliminated. There's too much heartbreak for those who can't join."

All college students who were interviewed agreed the movie was unfair to the Greeks. Most violent reaction to the film came from a senior in high school. "It wasn't typical of sororities at all," she said. "Sororities are just the thing for a girl who wants to get ahead socially in college . . . Besides, rushing and pledging are fun—

not miserable like in the show."

When asked if the movie had changed their attitudes, most interviewees replied, "I don't know anything about sororities." One sorority girl replied acidly, "Well, I don't think I'll turn in my pin, if that's what you want to know."

But a college senior, who admitted he was definitely anti-Greek, remarked, "No, I'm still convinced the fraternity-sorority arrangement is a good deal—it keeps those screwballs in one section of the campus."

From the standpoint of mere entertainment the movie seems to have fallen short. Fewer than half of those interviewed said they would recommend the movie to their friends. One middle-aged man said he wouldn't have attended it himself, were it not that the inside of his house was being painted and he wanted to get away from the smell. A great many said the show was "all right," but "nothing exceptional."

Sigma Chi members exemplify proper spirit by working to complete Homecoming decorations before judging on Friday night.

Undergraduate Engineers Get Arc Welding Money

The rules and conditions for the fifth annual competition of the Lincoln Arc Welding Foundation's Engineering Undergraduate Award and Scholarship Program are now available in a twenty-four page illustrated booklet. The booklet shows pictures of the design and research projects described in

award papers of previous competition. Brief descriptions of last year's award papers are also presented along with a bibliography of welding texts and references.

This annual program is a competition for undergraduate engineers to encourage them to use imagination and ingenuity in developing an engineering project in their own field. All registered undergraduate engineers are eligible to compete. Awards totaling \$6,570 are made for the best papers on design of machines or structures, or separate components of machines or structures, in which arc welding is the method of fabrication. Welding research and maintenance projects can also be described. The sixty-three awards range from \$25 to \$1,000. Scholarship funds totaling \$1,750 are also awarded to schools for the establishment of scholarships in honor of the main student awards.

Rules booklets may be obtained by writing to The James F. Lincoln Arc Welding Foundation, Cleveland 17, Ohio.

Technique Surveyor

Beginning this year, the athletic association here at Tech devised a new plan for the distribution of student tickets for the football games played here at home. Since this was the first time this system has been tried, there was likely to be some dislike for this method of distribution. In order that the best interest of the students was being upheld, The Technique ran the following Surveyor covering some of the more pertinent points in question. The good response to the surveyor indicated the student interest in questions concerning other students as well as himself.

Of the students answering the Surveyor:

Sr.—27.1%; Jr.—18.7%; Soph.—28.3%; Fresh.—25.9% ;
Veterans—70.6%; Non-Veterans—29.4%.

1. Were you satisfied with the tickets that you got?

	Yes	No	Indifferent
Sr.	85.3%	11.1%	3.6%
Jr.	36.8%	63.2%	.0%
Soph.	60.8%	35.1%	3.5%
Fresh.	88.5%	7.7%	3.8%
All Students	70.1%	26.7%	3.2%

2. Do you approve of the manner in which the tickets were distributed?

	Yes	No	Indifferent
Sr.	57.9%	42.1%	.0%
Jr.	72.8%	7.4%	19.8%
Soph.	64.3%	28.6%	7.1%
Fresh.	92.4%	7.6%	.0%
All Students	73.8%	20.3%	5.9%

3. Do you approve of the "block system" of drawing tickets?

	Yes	No	Indifferent
Sr.	77.8%	11.1%	11.1%
Jr.	78.9%	15.8%	5.3%
Soph.	50.0%	32.1%	17.9%
Fresh.	69.2%	7.7%	23.1%
All Students	68.2%	16.3%	15.5%

4. Had you rather stand in line all night to obtain your tickets and in that manner have a chance of a better choice of ticket?

	Yes	No	Indifferent
Sr.	7.4%	92.6%	.0%
Jr.	15.8%	68.4%	15.8%
Soph.	25.4%	64.3%	10.3%
Fresh.	11.6%	76.8%	11.6%
All Students	14.9%	75.8%	9.3%

5. Do you approve of the freshman seating plan (that is on the track)?

	Yes	No	Indifferent
Sr.	37.6%	14.8%	47.6%
Jr.	63.2%	.0%	36.8%
Soph.	71.4%	10.3%	18.3%
Fresh.	50.8%	18.9%	30.3%
All Students	55.3%	11.6%	33.1%

The results of question one seems to indicate that the majority of the students were very well satisfied with the tickets that they obtained. Most of the students that answered "yes" to this first question were in favor of the manner in which the tickets were distributed. A large number of the students were still in favor of standing in line to obtain their tickets, even though it might mean an all night wait as it has been known to be in the past.

Left End Sid Williams Stars On Jacket Defensive Line

By Rudy Matzner

Take a look at the headlines in Sunday morning's paper. "So And So, Star Quarterback, Passes For Four Touchdowns," "Triple Threat Halfback Paces P. U. To Win," "Running Ace Gains 115 Yards" and so on. The point makers, the big names, they're the ones who get reams and reams of newspaper publicity and the lion's share of public opinion.

But what about the rest of the guys on the football team, the men of the defensive line and others who are out on the field every Saturday but get sparse notice in the sports journals and seldom are the topic of Monday morning quarterback sessions? Do they really play a vital part in the victory? Do they contribute as much as the "stars" of the team?

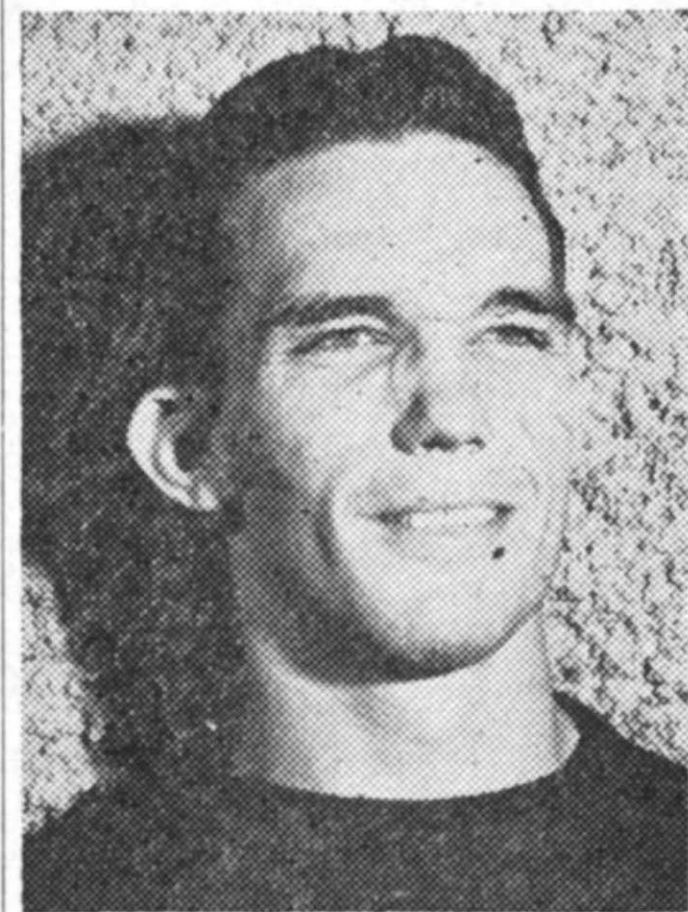

This writer decided to find out. He picked a player and followed him every moment he was on the field during the Auburn game.

The player was Sid Williams who holds down the left flank of the Tech defensive line. A defensive end is one of those guys who seldom gets a chance to make a spectacular play. Williams has not been completely ignored by the press, because he's received public praise from the Tech coaching staff, but Mr. John A. (Average) Phan probably doesn't particularly notice Williams too often. In the TechAuburn game the native Atlantan had at least one pair of eyes trained on him all 68 plays he was in the game.

Williams was rated by the writer in this way: (1) not involved in play, (2) pass defense, (3) rushed punt, (4) missed

tackle, (5) got tackle.

Perhaps these terms need a little clarification. Not involved in play is really misleading, for Williams was involved in every play that he was in the game. His usual job seemed to be to go in a few paces past the line of scrim-

Technique Staff Photo.

mage, size up the play, and try to make the tackle or cut down interference. He was left unmolested on very few plays so at least he was in the game to that extent of having to be blocked by somebody. Nevertheless, this writer gave him a rating of not involved if the play did not come off the left tackle and end, and if

it was not a pass or punt. On some passes, Williams followed a receiver back and this obviously comes under the pass defense category. Rushed punt, missed tackle and get tackle are self-explanatory. Williams was given credit for a tackle whether he shared the kill or got it by himself.

Now for the actual figures. They show that out of the 68 plays, Williams was not involved in 27 of them, went back on pass defense on 18 plays, rushed 12 punts (Auburn didn't actually have this many official kicks; some were called back on penalties), was blocked out of or missed the tackle on 3 plays, and got or shared the tackle on 8 plays.

Only eight tackles out of 68 possibilities. Doesn't look too good at first, does it? But wait a minute! On a strict percentage basis, Williams is responsible for only five single tackles and three shares, and football is not run that way. A backup is supposed to be in on 70 percent of the tackles.

By taking our figures, differentiating, integrating, and applying the Third General Gridiron Equation, one can come out with just this single answer: Williams does his job—and then some—in that to-date-unbeatable Tech forward wall. Any coach will assert that he can take twenty-two men, who'll do their job and have an unbeatable team. Thus, it is the Williamses who contribute as

(Continued on page 10)

Engineer Harriers Meet Strong Maryville Team

By Ray Savage

The Engineer marathons take part in the Homecoming spotlight as they take on a very powerful cross country team from Maryville, Tennessee, at 12:30 p. m., Saturday, November 3. The Maryville team should be great according to Coach Griffin. Three years ago they defeated a mighty Tennessee.

Maryville replaced Georgia on the Engineers' schedule. Coach Griffin said that he didn't know exactly what they had this season, but he further stated that he could guarantee that they would come up with a great team.

Such runners as Guy Jackson, Hugh Tannehill, Frank Handal, and Bailey Dixon are readily improving and coming back into their well known form.

The team will be very much strengthened by the return of a former great letterman Bill Britton who had previously discontinued running.

The Engineers also cast their eyes on the defeat that Auburn gave the cross country team from Florida. Auburn defeated Florida, Tech's last opponent, 26-31. The winning time for the four mile course was 22:42. Auburn meets Tech in Auburn on November 14.

Meanwhile the Frosh Engineers

have been recovering from the defeat handed them by Druid Hills. Druid Hills has a very powerful team as always. There will probably be a return meet soon.

much as anybody to a football team. It takes the best performance of everybody who gets in the game to produce a winner, no matter which of the eleven positions he plays.

Williams' performances shine even brighter when one brings out the vital statistics on this senior who is playing his last year of ball for Tech. Although standing six feet tall, he weighs only 170 pounds, which would be considered light for a lineman on many prep school squads.

Despite The Rain—

Intramural Play Continues

By Wilfred Smith

In spite of a very rainy week, the intramural program continued with very few postponements. The season is now about half over and all the teams are getting prepared for a stretch drive.

In reported fraternity football play this week, Theta Xi show their mastery over the pigskin by beating Chi Psi 32 to 0. This was a game with long runs making the difference. Also Sunday Theta Xi showed their power by beating Pi Kappa Phi 6 to 0 on a very muddy

field. This was a make-up game and was played on the O'Keefe field. Kappa Sigma, in spite of a very muddy field, beat Phi Gamma Delta 20 to 0 with Owens passing for all three touchdowns. Both of the lines played an exceptionally good defensive game. The Newman Club, driving for their second straight independent championship, beat the Latin American Club 44 to 0.

Also on the football scene, Burge Club defeated Techwood ISO unit 13 to 6 in the first meeting of these two teams but the tables were turned in the second game with Techwood coming out on top by a 7 to 6 count. Ray Anderson led Techwood's attack in both games. Techwood also beat the BSU team this past week by a decisive 22-0 score. Pike Sarris led Techwood in this game. In a heated make-up game that was played at Piedmont Park, Pi Kappa Alpha beat Phi Kappa Tau 2 to 0. The lone score of the game came when Ralph Langanke was attempting a pass from his own end zone but was rushed by the PiKA forward wall and tackled behind the double stripes.

Swimming Team Will Be Built

On Newcomers

By Leon Sherman

"The 1952 version of the Georgia Tech varsity swimming team will be built on newcomers," says Coach Fred Lanoue as he looks over his 15 man squad, one of the smallest in many years. The past swimming squads have numbered 60 or more.

"Of course we have back from last year's record breaking 400 yard relay team seniors Jim Thrasher and Oscar Crouch."

These two names bring a twinkle in Coach Lanoue's eye as he refers to them. Oscar Crouch, he relates, is the bright light of the team. In last year's Southeastern Conference Meet he swam a dead heat in the 220 yard free style race, just .4 of a second off the conference record. His time was 2:18.4 minutes. Oscar is also versatile, swimming in whatever event he is needed.

Jim Thrasher, another steady performer, swims both 100 yard and 220 yard sprints. "Moon" McKensie is the star diver of the team. Frank Strickling, a member of last year's freshman team and Cabot Childers are among those mentioned by Coach Lanoue as individual standouts.

Coach Lanoue's past 15 years at Tech have been very successful. He has had many undefeated teams and looks forward to a good season this year.

Yellow Jackets To Battle Duke In Feature Homecoming Event

Freshman Quarterback Generals Blue Devils

By Karl Frankel

Tech's undefeated Yellow Jackets play host to the Blue Devils of Duke University tomorrow afternoon in the feature event of a big homecoming weekend.

Fresh from a muddy victory over Vanderbilt, the Engineers will be trying for win number seven and will be in top physical shape for the encounter with Duke. Not since the opening game against SMU have the Jackets been in such fine physical condition.

Duke Strong

The Blue Devils will bring a strong squad to Atlanta, having won games from South Carolina, Pittsburgh, North Carolina State, and VPI while losing to a very powerful Tennessee team and also to Virginia last weekend. Bill Murray has taken over the head coaching job at Duke this year replacing Wallace Wade who resigned to become the first football commissioner of the Southern Conference. Coach Murray threw Wade's single wing system out and installed the split-T for Duke's offensive thrusts. The game tomorrow will mark the first time this season that Tech has had to face a split-T team.

The Duke offense will be in the hands of freshman quarterback Jerry Barger, who stepped into the first string spot after his fine showings during spring practice and his inspiring leadership during the early part of this season. In the backfield the Devils feature a combination which is considered one of the fastest in the nation. Halfback Herbert "Piney" Field, the fast man on the squad and considered by many to be the swiftest back in America, ran the 100-yard dash in 9.6 seconds during track season and last year

ran a kickoff 92 yards for a touchdown against Virginia Tech.

Earon Again

Up front, end Blaine Earon is playing his final season at Duke. Blaine, well remembered for his outstanding play against the Jackets during the past two campaigns, was selected to a second string All-American berth last year and, in 1949, was named Associated Press "Lineman of the Week" for his devastating play against the Jackets. Playing the opposite flank will be the captain of the Blue Devils, Jim Gibson, who has been a regular on defense for Duke since his freshman year.

James "Tank" Lawrence, a 6 foot, 233 pound tackle from Macon, Georgia will spearhead the line which averages around 200 pounds.

Tech and the Blue Devils have met every year since the initial game of 1933 with Duke holding the upper hand in the series with twelve wins and six losses. Last

season the Engineers took a 21-0 lead in Durham during the first quarter, but were overhauled and beaten by a 30-21 margin.

Passing has played a tremendous part in the Tech victory string and Darrell Crawford's right arm has been the chief weapon used by the Engineers. Against Vandy, Darrell struck six times in ten attempts although he was passing in a driving rain.

Crawford is not alone responsible for Tech's victories. Much assistance has come from backs like George Maloof, Leon Hardeman, Glenn Turner and Johnny Hicks while linemen Ray Beck, Lamar Wheat, Lum Snyder Hal Miller, and the Morris boys have all played outstanding ball. On pass defense Bobby Moorhead, Charlie Brannon and Jakie Rudolph have been the mainstays.

sport shirts

of Galey & Lord's
remarkable

Rifleclub

Something wonderful has gotten into sport shirts — Galey & Lord's Rifleclub fabric! Made of high-grade cotton, it adds a touch of rayon for the luxury feel of fine French flannel. Its medium weight is just right for fall. And it brings plaids, checks and stripes new color brilliance. Won't shrink or fade because it's Sanforized* and vat-dyed.

W. S. F.—

(Continued from page 1)

Technische Hochschule for several years, was prominent here in student activities. His main interests outside his studies are music, sports and world politics. Kappa Alpha is Maier's host fraternity.

Walter Leeman, 26, of Zurich, Switzerland, is continuing his studies of mechanical engineering at Tech. At the Swiss Federal Institute of Technology he obtained his diploma after specializing in studies of water turbines, internal combustion engines and thermal turbo-machines.

The Swiss student is another who found his passion for skiing unfulfilled here, but compensates for the loss by an interest in swimming. Music also occupies his leisure hours. His host fraternity is Alpha Epsilon Pi.

Preparing here for a career of teaching and research in physics and mathematics is Elie Joseph Bagdady, 21, of Zahleh, Lebanon. While earning his bachelor of arts degree in these fields, Bagdady

physical training, which two positions he now holds.

Coach Mundorff wishes to say that he leaves Tech with much regret, that his life has been deeply enriched by his associations with Tech students, faculty, and alumni. The present members of the faculty and the student body join in wishing him the utmost success in his new job at Louisville.

participated in activities of the Students Association of the American University of Beirut, and the British Counsel Hostel Singing Group. He likes football, volleyball and swimming, and the arts which hold his interest are music, portrait drawing, sculpturing and wood carving. Sigma Phi Epsilon is host fraternity for Bagdady.

The Georgia Tech W.S.F. is administered by a committee of six faculty members and twelve students.

Homecoming—

(Continued from page 3)

the favorite songs of the day. They paused briefly to play the Alma Mater and the Star Spangled Banner, and then quietly departed.

The first Homecoming Day at Georgia Tech proved to be a great success, and it was then decided that it would be made an annual affair, but would not be held on Thanksgiving Day. A periodical, THE GEORGIA TECH ALUMNUS, says of the banquet; "Interspersed with the talks came lively strains from 'Warner's Seven Aces', and to complete the bill was the Tech Quartet, singing with the pep that made them famous."

For twenty-eight years Homecoming has been an annual affair. In 1935 there was celebrated, perhaps, Tech's greatest Homecoming. It lasted for three days and there were two football games, a cross-country track meet, and six dances, besides the usual tours and meetings. The Naval Armory and Cloudman Hall were dedicated.

Blue Print Notice

All organizations on the Tech campus who desire to be represented in the 1952 Blue Print and who have not been contacted please call Don Gordon at ATwood 4360 by November 7, 1951. All organizations must express their desire to be in the 1952 Blue Print by this date due to the production schedule.

All organizations who have not cleared up past accounts with the Blue Print must do so before they can be represented in the 1952 Yearbook.

DramaTech—

(Continued from page 1)

a group that is very young in comparison to other local drama groups.

Since its post-war revival, DramaTech has developed into a group that can easily hold its own with any other dramatics organizations in the city of Atlanta. This year promises to be the biggest yet for DramaTech. Judging from the success of past productions such as "Command Decision," "Boy Meets Girl," and numerous others, DramaTech followers can look forward to the highest quality of entertainment from the forthcoming plays.

With an out-of-town engagement as a strong possibility, plans for the coming production, "The Live Wire," are in full swing. The cast for "The Live Wire" includes a professional actress, two young ladies selected from past DramaTech productions, and regular Tech students selected for the male roles.
