Newly elected Student Council President Bruce Sams goes over plans with Secretary Ken Brown and Vice President Bob Lee.

Bruce Sams Is New President Of 1950-1951 Student Council By Unanimous Vote of Group

Lee, Brown, Jett Selected To Remaining Cabinet Jobs

By Cooper Morcock

Bruce Sams, Student Council secretary this year, was chosen by acclamation at the council meeting Tuesday night to be president of the Student Council during the coming school year. Also elected to office for the 1950-1951 school year were Bob Lee, vice president; Ken Brown, secretary; and Bill Jett, treasurer.

Sams is a member of ANAK, ODK, the Ramblin' Reck Club, and Sigma Alpha Epsilon social fraternity. He has held office as president of Koseme Society, president of his sophomore class, and secretary of the Student Council.

The incoming vice president, Bob Lee, was president of Kappa Alpha. He is a member of the Ramblin' Reck Club and Institute of Aeronautical Sciences, and this year served as chairman of the Student Council Campus Government and School Spirit Committee.

Ken Brown was chairman of the council Ring Committee and secretary of the Trial Board. He is a member of the World Student Service Fund Committee. He is a member of the Koseme Society, Sigma Chi fraternity, and DramaTech.

Bill Jett, a member of the Student Council for two years, has also been active as secretary of Tau Beta Pi, treasurer of Scabbard and Blade, and as a member of the Georgia Tech Band. He is a member of the SAE fraternity and belongs to Kappa Kappa Psi and Phi Eta Sigma.

The retiring officers are Estes Mann, president; Brian Brown, vice president; and George Nalesnik, treasurer.

At the Tuesday night meeting, the Student Council also elected new men for the Ring Committee. Two rising juniors were chosen, Bill Kennedy and Elliott Dunwoody. Buddy Shields, who is the newly-elected president of the senior class, was also chosen to serve on the committee.

Tech Sigma Xi Club To Present Awards

By Orlando J. Caluff

The Sigma Xi Club of Georgia Tech will present its awards at the club's annual banquet on Tuesday, June 6. Each year, the Georgia Tech Sigma Xi Club sponsors four awards in recognition of research work done at Tech. Two of these awards are to faculty members, one is to a graduate student and one is to an undergraduate student.

This year, the faculty award was won by Mr. T. W. Kethley, Mr. W. B. Cown, and Dr. Frederick Bellinger, joint authors of three publications on the frozen food research program under their direction in the Engineering Experiment Station.

The second faculty award was won by Mr. W. H. Burrows. The award is in recognition of his work on "Graph Papers as Instrument of Calculation," published in the American Journal of Physics. The recipients of the graduate and undergraduate awards have not yet been announced.

The faculty awards consist of a first award of three hundred dollars, (Continued on page 4)

Full Week Is Planned For Graduating Class

Sat., June 3—
Senior classes end.

Tues., June 6—
Sigma Xi lecture at Brittain Hall—7:30.

Fri. and Sat., June 9, 10—
Pick up caps and gowns, banquet tickets, Fox theatre tickets at Treasurer's office.

Sat., June 10—
Reception at President's mansion—3 to 5.
Banquet and dance at Dinkler room, Ansley Hotel—6:30—informal.

Sun., June 11—
Baccalaureate sermon at Grant Field—4:30.

Mon., June 12—
Graduation ceremonies at Grant Field—8:30 a.m.
Reception at Brittain hall—noon.

(Induction into the Alumni Association and presentation of wives' diplomas).

John Carver Wins Scholarship Awarded by Educational Board

The General Education Board has recently announced a new scholarship program deliberately designed to encourage our better graduating seniors to enter the academic field for their life's work. The scholarship is intended to discover persons of exceptional intellect, imagination, training, curiosity, personality, and other qualifications necessary for distinguished academic careers.

John G. Carver, senior student in physics, has been chosen as the recipient of this scholarship for graduate study. It was recently announced by Robert D. Calkins, vice-president of the board.

June Graduate

Carver is a graduate of Hume-Fogg Technical High School in Nashville, Tennessee, and will receive his B.S. in physics in June. He is a member of Sigma Pi Sigma, honorary physics fraternity; Tau Beta Pi, honorary engineering fraternity; Phi Kappa Phi, senior scholastic fraternity; Georgia Tech Masonic Club; American Institute of Radio Engineers. He has chosen to continue his studies at Yale University in the fall of 1950, majoring in the field of physics.

For several years the Board has maintained a fellowship program to provide younger faculty members of selected southern institutions with the opportunity for advanced graduate work. The scholarship aid now inaugurated differs from the fellowship program in several respects.

Faculty Nominates

The scholarships are awarded to graduating seniors for first-year graduate study only. The scholarships are extended solely by invitation to nominees whose names are submitted by faculty committees within the various institutions, and not by the candidates themselves. Nominees are generally considered without their knowledge and no personal applications are received. Each successful candidate is informed of his

ROTC Presents Awards To Outstanding Students

On Saturday, May 20, traditional Honors Day was held on Grant Field to honor the graduating seniors and outstanding students in the ROTC units on the campus. This year Honors Day was held in conjunction with the first Armed Forces Day to be held in the United States.

Making the presentation for their respective branches of the nation's Armed Forces and to accept the review of the Tech Units were Lieutenant General Alvin C. Gillem, Commander of the Third Army; Vice Admiral Robert B. Carney, Commander Second Fleet; and Major General George G. Finch, USNG, chief, Air Division, National Guard Bureau.

Outstanding senior cadets and midshipmen receiving awards were:

Cadet Captain Donald L. Strange-Boston, the A. B. Steele trophy for the best drilled company of the ROTC regiment.

Cadet First Lieutenant Sidney Raymes, the William Randolph Hearst marksmanship medal.

Cadet Lieutenant Colonel Daniel A. Crane, the saber of the Reserve Officers' Association of Atlanta. This is awarded to the most outstanding student in military science and tactics.

Cadet Lieutenant Colonel Carl H. Hudson, the spinning wheel medal of the Daughters of the American Revolution. This award is made to the second year advanced student with the highest standing in military science and tactics.

Cadet Colonel Ewell G. Pope, the medal of the Georgia Society of Colonial Wars, for attaining the highest rating for outstanding leadership.

Cadet Lieutenant Colonel William H. Winsemann, the medal of the Society of American Military Engineers for the most outstanding second year advanced course student in the Engineer unit.

Cadet Captain Earl R. Slider, Jr., the marksmanship trophy, presented by Coach Bobby Dodd, to the captain of the unit intra-ROTC rifle team champions.

Cadet Captain Donald L. Strange-Boston, the Scabbard and Blade trophy presented to the cadet captain of the ROTC company which wins the A. B. Steele trophy.

Cadet Lieutenant Colonel Richard

W. Statham, Cadet Major Jimmie C. Hays, Cadet Major James H. Motz, Jr., Cadet Major Virgil E. Mew, Cadet Captain Hazen R. Lester, Jr., and Cadet Captain Donald L. Strange-Boston, the McGuire medals presented by the Georgia Chapter, Beta Theta Pi fraternity, to members of the senior class for outstanding DMG's of each branch.

Midshipman James N. Moore III, award of the Georgia State Society, U. S. Daughters of 1812, to the senior NROTC student with the highest overall academic average for the senior year.

Midshipmen Samuel G. Green, Jr., and John H. Stemple, the McGuire medals for the outstanding DMG's of regular midshipmen and senior contract midshipmen.

Midshipman John H. Stemple, letter of commendation for the senior regular midshipman with the highest cruise record.

Midshipman Charles D. Quarles, Jr., the medal for membership in the NROTC rifle team.

Cadet Lieutenant Colonel Robert B. Greenbaum, the leadership medal of the Air Reserve Association to the second year advanced student of the Air Force ROTC with an outstanding record in leadership and scholarship in Air Science and Tactics.

Cadet Major Charles L. Ray, Jr., scholarship medal of the Air Reserve Association to the second year advanced Air Force ROTC student with an outstanding record in scholarship.

Cadet Lieutenant Colonel Edwin S. Gothard, the marksmanship award to the team captain exhibiting the greatest skill in marksmanship toward advancement of the Air Force ROTC rifle team.

Cadet Lieutenant William A. Clark, the McGuire medal for the outstanding DMG in the Air Force ROTC.

Juniors Receiving Awards

Cadet Captain Daniel R. Apostolu, Jr., the Infantry medal for the most outstanding junior in the Infantry unit.

Cadet First Sergeant Sidney E. Williams and Cadet Master Sergeant Tom F. Davenport, William Randolph Hearst marksmanship medals.

Cadet Second Lieutenant Herbert Bradshaw, Jr., the U. S. Coast Ar-

Telephone ATwood 9160

Published semi-weekly by the students of the Georgia Institute of Technology, 225 North Ave., N. W., as an expression of student news and opinion only. Letters to the Editor and signed articles represent the views of their writers and not necessarily those of the editor.

Entered at the post office in Atlanta as mail matter of the second class. Accepted for mailing at special rate of postage provided for in Section 1106, Act of October 2, 1917, authorized April 8, 1922.

Subscription rates \$1.00 per quarter

MUCH TO OFFER

It's a little late but here's why we consider The Technique as a good investment as an extra-curricular activity.

The quarter is quickly drawing to a close and with the end of the quarter go Usher, Frieden and their editorializing. But there is one factor with which we have not dealt often enough or strongly enough. That problem is the one of student lack of interest in working on "The South's Liveliest College Newspaper."

Since our institute is a technical one and has no School of Journalism, The Technique has, since its inception, suffered constantly from a shortage of staff members. The fact that the paper has been able to maintain a high rating throughout is more than mildly amazing. Largely the work has rested on the shoulders of the few students in the top positions. It's pretty late to apply now, but we would like to give our reasons as to why we consider The Technique as a good investment as an extra-curricular activity.

We feel that The Technique has much to offer men who are willing to work. For those who enjoy the pleasure of putting thoughts and facts down in print, the field is wide open. The composition of news, feature, sports or world events stories offers untold advantages in the training of a man. A good writer develops a number of traits necessary in living with his fellow men. He develops industry because there is a certain amount of "leg work" which must be done to get stories. He develops self-discipline for deadlines must be met.

The very important characteristic of ability to present ideas comes to him. He accumulates the courage required to buckle down and write a necessary story when quizzes are staring him in the face. He picks up resourcefulness for not all stories are cut and dried. Ability to make decisions must be acquired. He develops the proper

personality to get along with the people whom he must contact to get his stories. The neophyte writer is not expected to possess all of these qualifications. They come with time, experience and work.

The chance for advancement to higher positions is good. The higher positions are frequently held by seniors and consequently the turnover rate is high. All that is required for advancement is ability and willingness to work. Then, of course, the remuneration angle is important to many men who work on the paper.

There is another important fact which demands clarification. Many students are of the opinion that they have no chance on the paper because they consider the publications as being fraternity-monopolized.

It is true that fraternity men do hold most of the important posts on all four of Tech's publications. But we violently deny that any discrimination against non-fraternity men is shown in Publication Board elections or in staff appointments. Every man has the same opportunity for advancement with the only criteria being ability and length of time on the publication.

Why is it that fraternity men usually get the jobs? The reason is that they are the men who come out for the paper their freshman year and then stick with it. There is always an influx of staff members during the fall quarter immediately following pledging. The fraternities really get behind their men and urge them to be active in extra-curricular activities. The Independent Student Organization can do the same thing; individuals must rely on personal initiative and ambition.

The Technique has plenty to offer. How about it?

—DWU.

It Costs Nothing

Powell suggests a painless plan for providing a nice class gift.

Dear Sir:

This year, as in years past, the class of '50 will be asked for a class gift. Instead of passing the hat among you for this, a simpler way has been suggested.

The suggested plan will cost you nothing, help your fellow students and make our class gift the largest ever. Sounds simple, doesn't it? Well, all it requires is for you to turn in your old text books to the Alpha Phi Omega Book Exchange as a Senior Gift. These books will be reasonably priced, marked as a class gift, and the money received from them will be turned in directly to the Student Union Building Fund as your class gift.

Even old books are of use to the Book Exchange as these will be sold to other

school exchanges or those for which there is no use at all will be shipped to help stock the bombed-out libraries of the Philippines.

On June 9 and 10 when you pick up your caps and gowns, a member of APO will be on hand to collect your books. Many of you will not need your freshman, sophomore and elective books. Turn them in June 9 and 10; help yourself, help your fellow students, and help make our class gift the largest ever!

Sincerely,

Jeff Powell

Class of 50.

P. S. If every graduating Senior turns in one book that is still in use at Tech, then our class gift will amount to almost \$2000. How about it?

Epithet's Jaw

Reader Ayers wants the professors' pictures in the Blue Print.

Dear Editor:

I just got my copy of the Blue Print and thumbed through it. I am thoroughly displeased with the fact that Mr. Staff does not have his picture among the ranks of the faculty.

Through the years these gems of photography have been guiding lights for the rough and untutored who have lingered after registration without "the word." Must we now be deprived of one of the most valuable bits of appear between the covers

of the Blue Print? There are some visages among the faculty whose memory only death can erase, but how are we going to describe the cut of epithet's jaw to the future generations?

So much for the lighter vein. I think the whole faculty should have its picture in each annual, either in segments or as a body. There must be the little and the big to run the school. Without the little, there can be no big.

Archie C. Ayers, Jr.

TECHNIQUE PLATFORM:

1. Student voice in matters of student interest.
2. Encouragement of school spirit.
3. Better orientation and vocational guidance.
4. More participation in the intramural sports program.
5. Promotion of active campus organizations.
6. Erection of an adequate library.
7. Erection of a Student Union Building.

The Technique will at all times attempt to represent the best interest of the students in current discussions and controversies.

Jacket Linksters Close Season; Dennison Calls Year Successful

By Bob Kimzey

Last week's two matches with Kentucky ended the season for Georgia Tech's hard working golf team. This aggregation, all closely grouped in ability yet lacking in much college competition, could have been a coach's headache. However, Coach Hubert Dennison said that he was proud of his team that won five, lost five and tied one match and he named the season highly creditable.

Dennison pointed out the lack of experience as the main reason for the defeats, stating that many of them were very close. He is exceedingly happy over the fact that seven of the eight squad members will be back next season.

Team Brand New

The team for the most part was brand new this season with Scott Howell, Paddy Laclair and Jay Milam the only men who played any last year. These three are now juniors and will return to the links for the White and Gold next Spring.

Howell, a Montgomery, Alabama, lad, got his golfing experience at Sidney Lanier High School in Montgomery where he was captain of his team in his senior year. Last year he teamed with Duck Swan, Tom Green and Bill Pritchett to take the Southeastern Conference team trophy at Athens. Last summer Howell was co-medalist in the Selma, Alabama, Invitation Tournament and was runner-up in the Alabama State Junior Tournament in 1946. In 1948 he won the Evergreen Alabama Tourney.

Tourney Veteran

Another tournament veteran is Tom Bachman. Bachman, now a resident of Atlanta, hails from Charlotte, North Carolina, where he played on the Central High team for two years. He plays left-handed and this year competed on the Jacket team for the first time.

Tom's high school team won the N. C. State and the North and South Carolina championships for two straight years. In 1946 he was the Carolinas Junior Champion. Tom was low man for Tech in the recent medal play collegiate tourney at Athens.

Prep Star

Charlie Harrison, also a sophomore this year, prepped at Marist here in Atlanta, and played on the Cadet links squad. The Atlanta City Junior Championship in 1947 was won by Harrison and last season he teamed with Jere Pound, former Tech golfer, to win the National Junior Four-ball Tournament in Charlotte.

Charlie pulled the surprise of the season last Friday when he led the Jackets to victory over Kentucky by defeating Johnny Owen, this year's SEC champ.

Birmingham Stalwarts

Both Paddy Laclair and Jay Milam come from Birmingham, Alabama, where golf is not a regular high school sport. They each have played for several years and saw action on last year's Jacket squad.

Another Georgia lad on the team is Ed Barnes, who saw four year's service on the Russell High squad in East Point. Ed also has two more years of eligibility with the White and Gold. He was an Atlanta City Junior finalist in 1948 and medalist in the Black Rock Country Club's

tourney that same year.

The other sophomore returning next season will be Noble Arnold. Arnold played in the number one spot on his Durham, North Carolina, high school team.

Rounding out this 1950 squad was Bill Jones, a senior, who played his first year of college golf this season.

Newmanites Annex Base League Title By Win Over Navy

Newman Club annexed the Base League championship playoff last Monday afternoon on a slippery field by nosing out Navy, 2-1. Each of the teams had a 9-1 record in regular season competition.

In this tight contest, only one error apiece was committed by the teams. Bill Nicolini, star of Newman's potent pitching staff, hurled the whole game and tallied his team's winning run. Karl Meschke was the losing pitcher.

Centerfielder Frank "Cat" Walter put Newman Club out in front in the second inning by slamming an outfield hit, stealing second, advancing to third on a single by "Chick" Wills, and crossing the plate on a long fly ball.

In the first half of the fifth frame, Nicolini rapped out a base hit and moved around to third on Dick Balardi's single. Balardi stole second. With the squeeze play on, Clem Grella came through with a perfect bunt down the first base line, and Nicolini raced home with what turned out to be the winning run.

Navy got their marker in the bottom of the fifth. With men on first and third, the Navy player on first headed for second on the pitcher's delivery. Newman's catcher picked off the attempted steal to second, but the runner on third crossed the plate.

Intramural Playoffs Slated By Bulldogs

The schedule for intramural softball playoffs has been announced by the Bulldog club as listed below. These games must be played as scheduled. The Tenth street diamonds will be utilized, and only one game is scheduled on any field each day. This will allow plenty of time for extra innings and brief holdups. The playing teams are required to provide the officials as was done during the regular season.

	Field	1	2	3
May 27, 2:00 p.m.	WG	TY	BI	
May 28, 2:00 p.m.	BI	WT	GY	
May 29, 4:30 p.m.	GT	BI	WY	
	W—PIKA	Y—Theta Xi		
	G—ATO	B—Newman Club		
	T—SPE	I—Rebels		

The independent leagues will play the best two games out of three. The fraternity leagues will play all games scheduled and the winner will be decided by percentages.

SC, SEC to Clash Here In Second Annual Meet

Tomorrow night Grant Field will be the scene of the second annual Southern-Southeastern Interconference track meet. The stars from both conferences will be on hand to get activities under way at 8:00 p. m., when the field events get started.

On the basis of the results of the respective conference meets, the Southern Conference boys will be slight favorites to take the crown from the SEC at this meet, but comparative records do not mean the meet.

Last Saturday, both conferences held their annual meets, and up in the Southern Conference affair, Bill Albans ran off with a good number of honors. Tomorrow night he will represent his conference in both hurdle events, the broad jump, and the high jump. Last week, the comparative scores in the hurdle events were 14.7 for the SEC and 14.2 for the Southern in the high hurdles and 23.7 for the SEC and 22.9 for the Southern in the lows.

Comparative Scores

Other comparative scores for the various events are as follows, with the SEC record being given first: 1-mile run, 4:20.5 and 4:22.2; 440-yd. dash, 48.7 and 48.6; 100-yd. dash, 9.8 and 9.9; 880-yd. run, 1:55.9 and 1:55.6; 220-yd. dash, 21.1 and 21.6; 2-mile run, 9:51.7 and 9:31.4. The relay, which is the only other running event, will be run by all-star teams for each conference, and no time comparison can be drawn for this event.

This year, Tech will only have two representatives wearing SEC colors, which is not unexpected, due to the showing of the Jackets last Saturday at Birmingham. Johnny Stowers and Jim Shiver will be the only Techmen running tomorrow night.

In addition to Albans, Tommy Woodlee, who hails from Chicamauga, Georgia, will be a threat for the Southern Conference in the dash events, while Whitey Overton, Auburn's

stellar distance man, will be the standout for the SEC.

The field events are scheduled to begin at 8:00, while the running events commence at 8:30. The last event on the program will be the 1-mile relay, which is slated to start at 10:30. This year fans will be seated in the East stands of Grant Field, and admission will be \$1.20. This admission fee is set by the two conferences, and no student rates will be granted.

Awards to be made include medals for first, second, and third places in each event, except the relay. In the relay four gold medals will be awarded the winners.

White and Gold

There will be a meeting of the White and Gold club at 4:00 Monday in room 201, Knowles.

Pipes and Lighters Repaired

Cut Systems Are Investigated; Bucknell Has Downright Utopia

The Cavalier Daily of the University of Virginia has completed a check on the "cut" systems of sixteen colleges and universities throughout the nation. Information was first obtained from the administrative officials of the colleges and then from the editors of the schools' publications to determine to what extent the rules are carried out. In the majority of the selected colleges the amount of cuts permitted is a matter left to the discretion of the student and his instructor, with no interference on the part of the administration. Most of the systems are similar to Georgia Tech's. Only a few are more lenient than the one here, and that is when all juniors and seniors are allowed unlimited cuts.

A student at Bucknell University describes a college utopia. First he considers the question of the undesirable tests. Since the students run

the school, the tests are eliminated. Since there are no tests, there is less incentive to study. So nobody studies. Therefore, they are never prepared for class. So they never go to class. This is possible under the unlimited cut system that all students dream about. The school, following the policy of the students, naturally puts an end to all classes. The school is nearing perfection. There is just one more little item to be taken care of. The professors. There are no tests and no classes, so there is no cause for the professors running around with nothing to do. So the professors are removed from the pay roll. Great is their misery and unhappiness, because now—at last—they have to settle down and go to work.

Student Council Minutes

The meeting was called to order at 6:45 p. m. by President Estes Mann. Those absent were John Lay, David McBrayer, Bill Schroeder, Leroy Vanover, Johnny Hicks, and Ben Bishop.

Dean Griffin made a short talk in which he congratulated the council on its work during the past year and welcomed the newly elected council members.

The new members were introduced to the council.

Estes Mann read a letter from the council to the department heads asking them to continue the alternate day method of giving quizzes during the final week.

Bruce Sams reported on the result of the towel survey.

The constitution of the Am. Vet. Post No. 5 was brought before the council to be read. Ray Rast and Ellis Gurry were elected to the Student Concert and Lecture Committee.

Elliot Dunwoody gave the plans for the council banquet and moved that \$83.65 be appropriated to cover costs of the banquet. Motion tabled.

The officers and committee chairmen presented their reports for the year.

Ed Gothard moved that \$15.00 be paid Mr. A. P. Cantrell of the Fulton County Registrar's office for setting up the voting machines.

The meeting was adjourned at 8:15 p. m. Respectfully submitted, Bruce Sams, Secretary.

Sigma Xi—

(Continued from page 1)

and a second prize of one hundred dollars. Those awards are given to the faculty members who, in the opinion of the judging committee, have published the most outstanding research contributions from work done at Tech in the fields of science and engineering during the year. Nominations are received from any faculty member until March 15.

The two student awards, one for a graduate student, and the other for an undergraduate student, consist of a sum of money not exceeding twenty-five dollars for the graduate award, and not exceeding fifteen dollars for the undergraduate award. This money will be spent by the Sigma Xi Club in the purchase of books of the recipients' choice. Any registered student of the Georgia Institute of Tech-

Midshipman Everett E. Frizzell, a letter of commendation to the contract student with the highest cruise record.

Midshipmen Alvin Lowi, Jr., John E. Clegg, and Ernest R. Tims, Jr., medals for the NROTC rifle team.

Cadet Sergeant Major Richard A. Dutton, the Air Force Association medal to the first year advanced student showing outstanding leadership and scholarship in Air Science and Tactics.

Cadet First Sergeant Robert E. Vaughn, the PMS and T's medal to the advanced course student making the

nology is eligible for the prize.

The award will be based on a report written by the student on a research problem completed by him during the academic year, and submitted to the judging committee along with a note of recommendation by the faculty member supervising the research.

outstanding contribution to the overall program.

Awards to Sophomores

Cadet Charles E. Gearing, the Scabbard and Blade bronze medal for the third best drilled basic course cadet.

Cadet Staff Sergeant Tom W. Hagler, Jr., and Cadet Warren E. Lind, William Randolph Hearst marksmanship medals.

Cadet Staff Sergeant Tom W. Hagler, Jr., the marksmanship trophy for the highest average score for the year.

Midshipman William D. Shippen, the award of the Reserve Officers of Naval Service, Atlanta Chapter, to the sophomore NROTC student with the greatest proficiency in Ordnance Gunnery and Fire Control.

Midshipman William D. Skipper, an NROTC rifle team medal.

Freshman Award Winners

Cadet James D. Stultz, the gold medal award of the Scabbard and Blade to the best drilled basic course cadet.

Cadet Myers R. Loveless, the silver medal of the Scabbard and Blade.

Cadets Henry P. Dozier, William B. Green, Raymond V. Guyton, John G. Jackson, Myers R. Loveless, and James D. Stultz, ANAK Society medals to the first year basic student in each branch with the highest rating in Military Science and Tactics.

Midshipman Roy M. Mundorff, Jr., the ANAK award for the first year basic NROTC student showing the greatest proficiency in Naval science subjects.

Midshipmen Richard L. Clement, Anthony J. Drago, Leonard Goldner, and Neil A. Layton, medals for the NROTC rifle team.

Cadets George L. Rice and Maurice H. Werness, ANAK Society medals to the first year basic students with the highest standing in Air science and tactics.

Engineer Meets

Anyone interested in obtaining experience in applied technical writing or in applied business is urged to attend an organizational meeting of next year's Engineer staff. This meeting will be held in the basement of the Tech YMCA on Monday, May 29, beginning at 7:00 p. m.
