"The Song of the Shirt"

WITH FINGERS weary and worn,
With eyelids heavy and red,
A woman sat, in unwomanly rags,
Plying her needle and thread.
Stitch—stitch—stitch!
In poverty, hunger, and dirt;
And still with a voice of dolorous pitch
She sang the Song of the Shirt.

"O men with sisters dear!
O men with mothers and wives!
It is not linen you're wearing out,
But human creatures' lives!
Stitch—stitch—stitch!
In poverty, hunger, and dirt—
Sewing at once, with a double thread,
A shroud as well as a shirt!"

—Thomas Hood

ELECTRICITY

—the great emancipator

TOM HOOD'S poem swept the world,
a powerful influence for humane
laws to govern women's labor.

More than half the
homes of the nation
now have electricity.
But hardly any home
is yet allowing this
cheapest servant to
do *all* that it *can* do.
Wherever electricity
is generated or used
you will find electrical
machinery bearing
the initials G-E—
make them your
guide.

But a force still greater than laws is at
work. Electricity is the great eman-
cipator.

With service so cheap and accessible,
no wise husband or factory manager
now leaves to *any* woman *any* task
which a motor will do for a few cents
an hour.

Only Once a Year

This issue of the Alumnus will reach you just a few days prior to the annual meeting of the National Georgia Tech Alumni Association, on Tuesday, May 18, and your officers trust that it will act as an urgent reminder for you to be present at the yearly gathering.

The business session will be held at 12:00 noon, May 18, as stated, in the Biltmore Hotel and will adjourn at 1:00 P. M. so that you may attend luncheon, at your option, with classmates, family and other friends.

It certainly isn't asking too much of you to be present at the meeting, whether you have paid your dues or not for the year 1925-26. One hour only, once a year, at a convenient time, it seems to us should be considered a positive and pleasant duty to your alumni association and your Alma Mater—your answer will be shown by YOUR attendance.

Repeating again that which was stated in the April number—after luncheon those who so desire will make an inspection tour to the campus and will re-assemble at Spillers' Field, formerly Ponce de Leon Park, at 3:00 P. M. to cheer the White and Gold on to victory in the last game of its baseball series with the Red and Black; incidentally, the last game of the season.

Regardless of the results of the May 7th and 8th games in Athens, the outcome of the series will be decided in Atlanta on the 17th and 18th, and it will

be well worth the time of those of you both far and near to attend the games on those days or, at least, the annual meeting and the final game on May 18th.

Special reservations for the alumni will be available at the meeting and the members of the class of 1901 should not miss the opportunity of being the guests of the Athletic Association on the "big day;" tickets will be presented to the individuals of this class in attendance, immediately after the business session.

Together with 1901, the classes of 1906, 1911, 1916 and 1921 are vieing with each other and the alumni in general as to who will have the largest number present at the meeting and the game; here's hoping that all of you will win!

Remember, your association will be as large and as successful as you want it to be and, of course, the converse holds true. You may think that you won't be missed or that you are not needed at the meetings but that is far from so. You are a mighty big cog in our wheel of progress and your spirit is reflected in whatever good your organization has been able to accomplish. Meet and mingle with your college friends, hear the reports of your officers and give them the benefit of your suggestion; do your bit, it will help a lot, if Only Once A Year.

Prominent Alumni Principal Factors In \$100,000,000 Textile Transaction

What is stated to be the greatest textile deal in the world's history was recently consummated through the activities principally of L. W. "Chip" Robert, Jr., '08, of Atlanta and the Hightower interests of Thomaston, Ga.

The transaction entailed the signing of a \$100,000,000 contract for cord tire fabric and was entered into by the B. F. Goodrich Company and the Fisk Rubber Co., of Akron, Ohio, and Mr. R. E. Hightower, Sr., head of the group of mills at Thomaston. It was further announced that a partnership between the Goodrich Company and the Hightowers had been effected by which a three million-dollar mill of 35,000 spindles would be built at once near the vicinity of the other vast mill group; the latter will also be promptly enlarged by 10,000 spindles, making 75,000 spindles in all.

"Chip" Robert, president of Robert & Company, Atlanta, a 1908 graduate of Tech, engineered the giant proposition, and represented all parties concerned in the transaction; his company, one of the largest textile and general engineering concerns in the country, will have complete charge of the plans and buildings of the new mill unit. With this mill and other large projects as recently established, it is shown that within two years the state of Georgia will be producing 60 per cent of the cord fabric used in the United States and 50 per cent of all the cord fabric

used in the world.

Mr. Bertram G. Work, president and chairman of the board of the Goodrich Company, headed the prominent tire men in the transaction while Mr. R. E. Hightower, Sr., acted for his interests; associated with him were his three sons, W. Harrison "Piggy" Hightower, T. E. '09; Robt. E. Hightower, Jr., '12, and Julian T. Hightower, T. E., '19; also A. T. Matthews, another active Tech man and vice-president of the Hightower mills.

It is worth while to note what O. B. Keeler in the Atlanta Journal of April 28th has to say in the concluding paragraph of his very interesting article on the great textile deal. He writes as follows:

"Georgia brains and Georgia training—right out at Georgia Tech—and Georgia money, put right back into Thomaston steadily—that's the Hightower outfit. And now it has landed the biggest textile deal on record, and Chip Robert, whose company will build the new \$3,000,000 mill, is to go with Harrison Hightower to Europe, to make sure that there are no refinements of process, either in England or on the Continent, with which they are not familiar; for both the Goodrich company and the Hightower interests intend that this new mill shall be the most modern and economical in the world."

Fill Out the Ballot and Mail It to the Secretary, National Alumni Association, Georgia School of Technology, Atlanta, Georgia.

ALL ACTIVE MEMBERS ARE REQUESTED TO BALLOT AT ONCE

I hereby cast my vote for the following men:

For President

For 1st Vice-President

For 2nd Vice-President

For Treasurer

For Class Secretary Year

Signed

Ballots due in by June 1st

NOT GOOD UNLESS SIGNED

VOTE NOW

Vote for National Alumni Officers

In accordance with article six of the Constitution of the National Georgia Tech Alumni Association, nominations for National Officers were requested in the April Alumnus, and a ballot was carried in connection with the article so that it would be convenient for all local clubs and individual members to mail in the nominees of their choice for the year 1926-27. We have allowed twenty days for such nominations to reach the secretary and are pleased to advise your selections as follows:

For President: Mr. C. L. Emerson and Mr. Geo. W. McCarty, Jr.

For First Vice-President: Mr. Strother C. Fleming and Mr. Sam N. Hodges.

For Second Vice-President: Mr. Percy C. Brooks, Mr. R. D. Cole, III, and Mr. W. S. Rankin.

For Treasurer: Mr. Ed C. Liddell, unopposed.

Class Secretaries: To be designated on your ballot.

This is a fine choice of men, alumni, so won't all of you active members and active local clubs kindly consider it your duty to vote at once on the ballot at the end of this article and mail it in to the secretary of the National Georgia Tech Alumni Association by June 1, 1926.

A brief summary of the activities of your nominees is as follows:

Mr. C. L. Emerson, '08, Vice-President Robert & Company, Atlanta; President Atlanta Tech Club, 1922; Member National Alumni Association Advisory Board; Former Vice-President National Alumni Association.

Mr. Geo. W. McCarty, Jr., '08, Vice-President Ashcraft-Wilkinson Co., At-

lanta; President National Alumni Association; Alumni Member Georgia Tech Athletic Association Board.

While greatly appreciating your honors Mr. McCarty states that he thinks it inadvisable for the alumni to consider establishing a third term precedent and asks that his name be withheld from your ballots and that your support be tendered unanimously to your other presidential nominee. He assures you that the association and the school will always have his active co-operation.

Mr. Strother C. Fleming, '01, is a member of the firm Clark-Fleming Insurance Co., Atlanta, and on the advisory board of the National Georgia Tech Alumni Association.

Mr. Sam N. Hodges, '13, member firm Griffin-Hodges Construction Co., Atlanta, former officer local Atlanta Tech Club.

Mr. Percy C. Brooks, '91, President Fairbanks-Morse Co., of the U. S., New York, N. Y. Loyal Tech Alumnus.

Mr. R. D. Cole, III, '22, Atlanta Manager David-Lupton Sons Co., Atlanta. Active worker.

Mr. W. S. Rankin, '03, member Haines-Rankin Insurance Co., Savannah, Ga. Loyal and active.

Mr. Ed. C. Liddell, '22, Atlanta and Lowry National Bank, Atlanta. Present National Alumni Treasurer.

It is regretted that you did not, as a whole, send in a greater number of nomination slips as printed in the April Alumnus; however, that is a matter of your own volition; your choices, though, are most representative and you can't go wrong on any of them **SO SEND IN THE BALLOT OPPOSITE AT ONCE.**

Greater Tech Shows Fine Progress

In accordance with its program, the Greater Georgia Tech Expansion Fund has acquired more property and completed a considerable amount of additional construction since its October report.

Necessary property purchases have been made as follows: S. E. Corner Cherry and W. Third for Physics building; N. W. Corner Fowler and W. Third for Ceramics building; W. North avenue and Techwood for Julius Brown Memorial Dormitory; Techwood through from North avenue to Third for Gov. N. E. Harris Dormitory and a part temporarily allotted to new Baseball Field; No. 6 Cherry street, addition in anticipation of new Administration building with Assembly Hall, or similar purpose; 322 Williams and adjacent vacant land; and Kimball and West Third as also bought but as yet unimproved awaiting receipts for further construction. All of these purchases are comparatively large tracts on which payments have been made through April 15, 1926, to the amount of \$67,616.75 with \$16,765.50 outstanding.

The campaign has completed or contributed to the completion of the following: Physics building \$250,000.00 in full with Carnegie Fund Donation of \$150,000.00, which was contingent upon the assurance of \$1,000,000 campaign subscriptions. Chemistry building, new addition, \$108,066.88 in full. Ceramics

building, \$41,000.00 of which \$34,102.50 was contributed additional to the campaign; part of which was subscribed originally, provided such a building would be erected. This latter building was especially made possible through the efforts of Dr. Brittain and interested co-workers. Remodeling Knowles Dormitory, \$11,200.00; Georgia Tech and shop remodeling, \$11,648.56; Gymnasium plans, \$4,000.00. Julius Brown Memorial Dormitory, \$87,000.00, of which \$4,512.98 was contributed by Greater Tech in preparing site in addition to purchasing the land. Appropriation for Textile building additions, \$5,000.00 and for Gov. N. E. Harris Dormitory, \$105,000.00; Swann and Mechanical building conversions between \$10,000.00 and \$15,000.00.

Grant Field, \$22,333.33, which includes the subscriptions of Mr. John Grant and a few others only as specified by them for this purpose alone.

Construction of the N. E. Harris Dormitory is progressing rapidly and will be completed well in advance of September and the new school year.

Commitments have been made and contracts have been let quite in excess to the funds in the treasury so it is imperative that all subscribers meet their installments promptly when due, which will avoid unnecessary overhead expense and will otherwise expedite the fine work that has been undertaken.

Summer School Begins July 20

According to an announcement made by Professor Morton, Dean of the Summer School, the summer term is to begin this year on July 20 and continue until September 9. Registration will take place on July 17, 18 and 19.

The purpose of the Summer School is to offer students in Science, Commerce, Engineering and Modern Language an opportunity to do collegiate work for which full credit is allowed toward a degree. The courses are

open to college students and teachers who wish to advance their standing or make up certain work. Of especial benefit to students who wish to enter the freshman class next fall are the courses in Advanced Algebra, Solid Geometry, and Elementary Physics. Students who have failed to pass up certain subjects during the last term will have a chance to remove their deficiencies before the start of the new term.

Too Many State Colleges in Georgia

Dr. Brittain, speaking before the Country Bankers' Association, on the subject of "Education" discussed the educational system of the state of Georgia and in part said: "Georgia has too many so-called colleges dependent upon the state. The advancement of higher education should be restricted to the State University at Athens, the State College of Agriculture, the Georgia School of Technology and two or three colleges for women."

He deplored and deprecated the tendency ever to establish more so-called colleges at the expense of the state and in this connection declared that he felt no discouragement over defeat of the higher education bond bill in the legislature. He added that he had never been quite sure that the bill had been properly drawn. His speech was greeted with applause by the bankers who agreed with his idea thoroughly.

Dr. Brittain is one of the most widely

known educators in the state and in the South and is thoroughly qualified to speak with authority on the present system in the state of Georgia. His speech strikes one of the most vital points in the system and is one that deserves the consideration of every person in the state. There is probably no one in the state who has a more thorough knowledge of the defects of the present system than Dr. Brittain or who is better qualified to suggest means of improvement.

It certainly seems reasonable that if the state of Georgia would concentrate its resources on four or five of the larger colleges and universities in place of many small ones that there would be a greater development than ever before. It is through the promulgation of theories of this kind and then carrying them out and the close co-operation of the educators of the state that the present educational system will be improved.

Tech Receives Important Naval Appointment

In addition to being one of the leading military colleges of the R. O. T. C. of this country, with an enviable distinguished rating, the Georgia School of Technology has been designated as one of the six outstanding colleges in the United States for the Naval R. O. T. C.

Captain W. D. Puleston, U. S. N., of the bureau of navigation, notified Dr. Brittain of the important assignment on Friday, April 30.

It was said that arrangements will be made immediately for actual acceptance of students along with academic courses for the opening of the school in the fall.

Captain Puleston said that the University of Washington is the only other institution already accepted, although the bureau of navigation at Washington had tentatively offered units at the Uni-

versity of California, Yale, Harvard, Princeton and Leland Stanford.

"The United States government," said Captain Puleston, "has decided on Georgia Tech because of its high standing as a great technical institution, its recognized department of mathematics and interest in the sciences. The school as a training medium is to be the same to the naval reserve officers as Annapolis is to the regular navy."

According to Dean Skiles the naval unit next fall will have the same standing in the academic schedules as the army unit now has. Two naval officers will be in charge, a naval commander and a lieutenant commander with fifty students beginning in the first class which will eventually enlarge to 200 students. Every student in the naval unit will be given practice on a battleship, it was said.

1926 Baseball Wrecking Crew

Bottom row, left to right: Buck Flowers, Manager; Kid Clay, Coach; John Sneed, John Conn, Gus Merkle, Earl Chaisson, Bob Moreland, Bob Reeves, Capt.; Dynamite Wilder, Tom Angley, Bill Fleming.

Top row, left to right: Ed Crowley, Fred Bellinger, Dick Florrid, Sol Yoeman, Hope Tigner, Bob Brankston, Hugh Gaston, Bill Edwards, J. E. Jordan, Harry McCash, J. P. McNeely, Bill Robins, John Brewer, Doug Wycoff, alternate Captain, not shown.

Ball Club Continues Championship March

With an array of good hurlers together with a combination of heavy hitters the Yellow Jackets at this writing have fifteen straight victories to their credit which is a record that has not been paralleled in southern college baseball in many seasons. Leaving in the wake of the onslaught defeats over the best teams in the East and South they will in all probability be the Southern Champions this year.

After the Notre Dame series the Jackets turned their attention to the more serious business of handling the southern colleges. On April 9 and 10 the Tigers from Auburn fell before the heavy hitting of the Jackets to the score of 5-0 for the first game and 13-7 for the second. Both teams indulged in heavy hitting which was climaxed by a homer by Reeves, making his fifth for the season.

Alabama, the conference champions, of last year, likewise fell before the Jackets, and although one game was a tie, the team went to Montgomery for a second series and settled the dispute to the satisfaction of all. In the first game

Bob Reeves lashed out three home runs in the first three times at the bat. The score was 7-5. The second game tied, 8-8, with Tech winning the others, 12-6 and 12-10. One of Wycoff's wallops which fell for a threebagger was declared to be the longest hit ever seen at Crampton Bowl.

In a like manner the Jackets disposed of the Stormy Petrels from Oglethorpe in a two-game series with scores, 8-4 and 7-4 for the city championship.

Continuing their march, the Jackets repelled the invasion of the Vanderbilt team, April 16 and 17, by scores, 13-3 and 10-6. The pitching of Dick Florrid and Johnny Conn and the terrific slugging of Wycoff, Reeves and Angley were the outstanding features of the series.

On their road trip up through North Carolina and Virginia, Coach Clay's team won two games from the University of North Carolina by scores of 10-5 and 11-3; two from North Carolina State, 10-2 and 7-5, and won one, lost one with Virginia, both scores being 7-6.

Place These Game Old-Timers

E. W. Klein, '02 graduate in M. E., at present Southeastern Manager Warren-Webster Co., in Atlanta, has asked the "Alumnus" to place several baseball games to which some good Atlanta paper devoted two and one-half columns about the spring of the year in 1905, is our guess.

Sam Woodward, Craig Day, George Butler, Tommie McMillan or some of the other celebrities in the line-up ought to be able to place the games without any trouble. How about it?

The article in part states:

"While the winds howled and the audience froze stiff in their seats at Exposition park yesterday the Tech team demonstrated the fact that it can play

ball and knows the game from the start to the finish by decisively defeating Alabama in both games of the double-header.

"The Alabama men were outplayed and outbatted at every point in the game. From the very beginning of the first game Tech had the game won and never released her hold.

"'Get into the game, fellows,' said Coach Heisman as the game started, 'and let us get about four scores here.'

"The men did get into the game, and caused woe in Alabamaland. Woodward reached first on an error of shortstop; Gager went out from pitcher to Davidson on first; Ison drew a free pass; Day got a safe hit over third base, and Wood-

ward came in on the trot, with the first score; Butler struck out, and Richards reached first on an error of right field; Ison came in and Day also scored; Poole then picked out a scorching two-bagger, and the last score for the Tech in this inning drifted in. The wind was blowing a gale, and perfect fielding was impossible."

The boxscore:

FIRST GAME.

TECH—	ab.	r.	h.	p.o.	a.	e.
Woodward, c.	5	1	1	9	4	0
Gager, lf.	6	1	1	1	0	0

Score by innings:

Tech	4	1	0	1	3	0	0	0	2	—11
Alabama	1	0	2	1	0	0	0	0	0	—4

The article further states that "In a grandstand finish after nine innings of excruciating excitement, Tech managed to win the last game from the Alabama team by the score of 8 to 3." The lineup was the same with Butler pitching instead of Day—note that the pitchers were fielders and hitters! In this game Butler struck out 7, walked 4 and hit 1.

Score by innings:

Tech	0	0	0	0	0	3	0	0	5	—8
Alabama	0	0	1	0	0	0	2	0	0	—3

All right, step up and name the year.

Team Sets Mark at Grant Field and Penn Relays

Five southern relay records were smashed and three new marks set Saturday afternoon, April 10, when the cream of Southern cinder paths assembled on Grant Field for the Fourth Annual Tech Relay Carnival. The games were the largest ever held and the new marks came as no surprise to officials who had made everything ready for the throng of track stars representing sixty-two schools.

"Papa" Hood, the husky Tech star, opened the meet when he broke the shot put record. The big Texas ranger threw the 16-pound shot 42 feet 7-8 inches to lower the old mark of 41 feet 8 1-2 inches held by Bryant of Vanderbilt.

Two Records Fall

The squad from the University of Indiana thrilled the crowd when the relay quartets smashed two records in rapid succession and won fame for themselves

as the best teams on the track. The first record to fall under the Indiana team was the half-mile for colleges, when Pepper, Stevenson, White and Pope set the new mark at 1 minute and 31.8 seconds. The old record of 1 minute and 32.3 seconds was held by the Mississippi Aggies.

The second Indiana record was made in the distance medley relay, considered the feature event on the program. This time it was Stevenson, White, Sittle and Caine who carried the colors to the tape in the new time of 8 minutes 19.8 seconds, lowering the old mark of 8 minutes 22.4 seconds, held by Clemson.

Jackets Set New Technical Record at Penn Relays

Tech's greatest triumph in the annual Penn Relays marked a new era in track athletics and one which should blossom out into full bloom in years to come.

Southern Record Breakers

Scenes from the Relay Carnival held on Grant Field, April 10

Coach Hal Barron, Bill Cabaniss and the victorious mile quartet of Captain Bill Crowder, Julien Saks, George Wilde and Ernest Kontz, returned from the relay meet with four beautiful gold wrist watches and a big bronze plaque, the reward of winning the mile relay championship of technical colleges.

Having been set back a yard at the start Captain Bill stepped into the lead after the first 100 yards and never again relinquished the lead, running his

quarter in 53 seconds. Julien Saks picked up the lead here and handed it over to George Wilde on the third lap where Ernest Kontz, running as anchor man circled the track in 51 seconds. Wilde and Saks ran their quarter in 53 seconds. The time for the mile was 3 minutes 28 seconds, a new record. Last year Mass. Tech won the race in 3 minutes and 29.2 seconds, establishing the old record. Carnegie Tech finished second to the Jackets, being the only other team entered.

Golf Team Victory Bound

The Tech Golf team of which Watts Gunn, runner-up to Bobby Jones in the last National Amateur Tournament, is a member, won the University of Tennessee annual invitation golf tournament in Knoxville, defeating Sewanee, 15 to 3, under the Nassau scoring system, in the finals. Watts Gunn and Bill Spalding, the captain, established new amateur records of 70 each on the winter greens of Cherokee, one under par.

The team defeated the University of Pennsylvania at Philadelphia, Friday,

April 23, by a 22-21 score, the Pennsylvanians being completely outplayed by the beautiful brand of golf exhibited by the Jackets.

On Saturday the team went over to Princeton where they were handed a surprise in the form of a 12-6 defeat, but came back with a fine victory over the Baltimore, Md., Country Club.

The 1926 Team is composed of Bill Spalding, captain; Watts Gunn, Johnny Bachman and Jo Hi Williams.

Tank Stars Break Southern Records

Under the leadership of "Spec" Hollingsworth, the swimming team has gotten off to a flying start, winning its first two matches by comfortable margins.

In the first meet of the season, which took place on April 13 against Citadel, the Jackets were victorious by the score of 55-56.

The second meet was against Vanderbilt in Nashville. There the Jackets were truly at their best, and besides breaking two Southern records, defeated the Commodores by another large score of 51-20. Captain Hollingsworth broke the record for the 100-yard backstroke. His time was 1-13, which was two seconds better than the old record.

The time for the 100-yard backstroke was lowered by Glenn, who made the distance in 1-21 seconds, four seconds better than the former mark.

On April 23 the Jackets met and defeated the Florida 'Gators by the score of 54-17. With the exception of two events the Tech tankmen won every first place. Tech tied her own southern record when the relay team, composed of Bruce, Noyes, Hollingsworth and Oliver swam the 160-yard relay in 1 minutes 25 seconds.

The members of the team are Hollingsworth, captain; Glover, manager; Noyes, Oliver, Glenn, Bruce, McCutcheon and Race.

Tech Included in \$125,000 Bequest

A fund amounting to \$125,000 has been left the University of Georgia system by the will of the late Dr. Thomas E. Mitchell of Columbus, according to a report received from Athens.

The fund will be used to aid deserving boys and girls to obtain an education and will be divided between the University seat in Athens, Georgia Tech, the State Normal school in Athens, and the State College for Women at Milledgeville. The money will be invested by the trustees and the interest will be used to aid boys

and girls coming within the provisions of the bequest.

Dr. Mitchell, who leaves the university \$125,000, also provided for a similar sum to be given to Vanderbilt University, it was learned.

It is not known definitely how the money will be divided between the schools but if it is divided equally Tech will get as its share about thirty thousand dollars. Full details of the provisions of the bequest will be published as soon as they are made public.

Tennis Team Having Successful Season

The Tennis team led by Berry Grant is keeping pace with the other athletic activities at Tech having started the season by winning two successive victories.

The first match was with Wofford College Saturday, April 10, in which the Jacket outfit made a clean sweep of the entire affair taking all four singles and the double matches.

The second match was with the Bull-

dogs from Athens on the East Lake courts, Friday and Saturday, April 23 and 24, the Bulldogs being defeated 5-2. The Jackets won the entire lot of singles matches and completely out played Georgia in every department of the game.

The team is composed of Berry Grant, captain; Ernest Merry, Walter James, G. B. Strickler, Fred Wagener and Scotty Morton.

Freshman Club Going Strong

Only one defeat mars the record of the freshman baseball team for this season, that defeat being the first game of the season with the freshmen from Oglethorpe. The score was 7-6. The second game had to be called off in the seventh inning because of the weather, both teams had the same number of runs when called off.

Under the coaching of Roy Mundorff the team has won all the other games and it looks as though the Oglethorpe game will be the only defeat of the sea-

son. In the other games the Junior Jackets have made good showings, defeating Red Barron's team from Monroe A. & M. by a 15-1 score in the first game and 8-7 in the second.

Copying after their older brothers, the varsity, the freshmen made a clean sweep of the series with the Auburn Cubs, winning by 16-7 and 4-3 scores. They also defeated the young Bulldogs from Georgia, 4-3, in the first game of the Georgia series.

The Jacket Lacrosse Team

Carter Barron, one of the stars, and Mack Tharpe, Captain

Lacrossers Win Conference Title

The Jackets closed their second Lacrosse season by clinching the Georgia series, thereby winning the southern conference title.

The schedule for this year included six games; two with Fort Benning and four with the University of Georgia. The series with Benning was split, the Jackets winning the first game, 2-0, and the soldiers the second, 2-1. Both games were exceedingly hard fought closely contested throughout. The superior knowledge and experience of the soldiers was responsible for the victory of the second game. For the Jackets the play of Becknell and Getzen featured, while the work of Carter Barron also stood out.

The first series with the Bulldogs, played in Athens, was also split, the first

going to the Jackets with a 7-5 count and the second to the Georgians with the same score reversed. In the first game Tech showed a great deal of superiority and maintained the lead throughout the match, but on the second day the Bulldogs seemed to have gotten a new slant on the Indian game and completely turned the tables.

On the return engagement in Atlanta the Jackets took both games of the series; the first being with a score of 6-3 and the second, 8-2. The experience of the Jackets was too much for the Bulldogs, who were outclassed in every department of the game.

Lacrosse proved to be very popular this season and will no doubt rank in popularity with baseball and basketball within the next few years.

WGST Programs for May

Monday, May 17—The Yellow Jacket Quartette, Ike Williams, second tenor; Webb Brown, bass; Stewart Boyle, first tenor; Arthur Edge, Jr., baritone; "Bill" Walton, pianist. The Mandolin Club, Harry Street, director.

Thursday, May 20—Mr. Charles Carter, baritone, sponsor. Speaker, Prof. J. A. Alfried, of the Textile Department, on "Construction of Wool Suiting."

Monday, May 24—WGST Staff Program. Mr. W. S. Scherffius, elocutionist; Mr. W. W. Merkle, mandolin; Mr. J. H. Persons, cornet; Mr. S. E. Jackson, saxophone; Mr. L. A. Newcomb, saxophone

Thursday, May 27—Miss Caroline Gray, violinist, sponsor. Speaker, Prof.

T. W. Noel, of the Commerce Department, on, "The Co-operative Course in Commerce at Georgia Tech."

Monday, May 31—Mrs. Wm. S. Taylor, pianist, sponsor. Mrs. S. L. Metcalf, mezzo-soprano; Miss Mary Phillips, violinist; Miss Mary Leffingwell, violinist; Miss Rosina Asmus, pianist.

The Monday or Tech Night programs from 9-10 p. m., C. S. T., 270 meters, are furnished by Tech students and faculty; there are no talks, as a rule, given on these nights.

On Thursday nights, 7-8 p. m., C. S. T., 270 meters, the Artist Series programs are given. The short talks at the end of the hour usually by Tech professors, add the only college flavor to these programs.

Positions and Applicants

Mr. R. W. Cook, Division Engineer's Office, S. A. L. Railway, Citizens and Southern Bank Building, Atlanta, Ga., needs a man from the class of 1924 or 1925, for drafting and similar work pertaining to his office.

Mr. W. V. Kingdon, of the firm V. H. Kriegshaber & Son, Office and Warehouse, 153 Greenwood Avenue, Atlanta, wants a Georgia Tech man of good personality to work into his business of building material and supplies. A good opportunity for the right person.

Mr. Taylor, Austin Bros. Bridge Company, Atlanta, wants several structural draftsmen to work into his business. Men with several years' experience preferred.

Professor John W. Moore, Superintendent Florence Public Schools, Florence, S. C., would like to communicate with graduates experienced in teaching manual arts.

Mr. F. W. Freshour, Chief Draftsman, Sou. Engineering Co., P. O. Box 996, Charlotte, N. C., has openings for two experienced structural draftsmen capable of checking shop drawings for fabricating plant. Also, a position is available for a reinforced concrete engineer of several years experience.

Professor J. H. Workman, Principal Pensacola High School, Pensacola, Fla., needs a man of influence and personality to teach Physics and Chemistry.

Weddings and Engagements

Bindewald-Liddell

An announcement of great social interest to their host of friends is the engagement of Miss Rose Bindewald, daughter of Mrs. Ellen Lewis Bindewald, to Mr. Edwin Carey Liddell. The wedding will be solemnized in Atlanta on May 20.

Blanton—Elliott

The marriage of Miss Phenie Blanton, of Atlanta, and Mr. Lucerne Elliott, of Minneapolis, Minn., was recently solemnized at St. George's church, Griffin, Ga.

DeFoor—Brittain

Of widest interest to hosts of friends, personal and inherited, was the marriage of Miss Olive DeFoor to Mr. McDonald Brittain. Dr. Carter Helm Jones, pastor of the Second Baptist church, Atlanta, officiating with a most beautiful marriage service.

DeFoor—Cook

The engagement of Miss Dulien DeFoor, the daughter of Mr. and Mrs. Charles Leonard DeFoor, of Orlando, Fla., and Mr. Marcus A. Cook, Jr., of Orlando, formerly of Columbus, Ga., centers the interest of a host of friends throughout Georgia and Florida.

Gwyn—Hartford

A wedding of great social interest, was that of Miss Carolyn Gwyn, of Zeb-

ulon, Ga., and Mr. William Donald Hartford, of Nashville, Tenn., which was solemnized Wednesday evening, April 28, at the Zebulon Baptist church.

Jones—Harwood

Miss Rose Barry Jones, daughter of Mr. and Mrs. Francis Harwood Jones, recently became the bride of Leauder Newton Trammell, at a pretty ceremony at the home of the bride's parents, Mr. and Mrs. Jones, Atlanta, Ga.

Knox—Powell

An engagement announced of interest to society throughout the South is that of Miss Evelyn Louise Knox to Mr. Cecil Weaver Powell, of Fitzgerald, Ga.

Sink—Weir

A wedding of interest to a large number of people throughout the state occurred on the evening of April the 16th when Miss Eva Lee Sink, of Thomasville, and Mr. William Hugh Weir, of Raleigh, were married at the home of the bride's parents.

Stephens—Hays

Mr. and Mrs. Joseph Edward Stephens, of Woodstock, announce the engagement of their daughter, Lonie Dean, to Mr. Robert Lee Hays, Jr., formerly of Muskogee, Okla., the marriage to be solemnized in June.

Addenda to Directory

As corrections and additions are received to our Directory number, we shall publish them as addenda to the issue under this heading.

In order to keep your Directory up to date, we would suggest that you clip out and paste the names shown in these columns under the proper classes and index, in alphabetical arrangement.

Annual Meeting at 12 Noon
May 18, Biltmore Hotel

WHAT'S AT THE END OF THE ROAD?

WHEN 87,133 college graduates have traveled the same road voluntarily there must be something at the end of that road to make the journey worthwhile.

More and more widely accepted every year as the outstanding post-graduate training in practical business, is the Alexander Hamilton Institute.

Composed partly of university teachers, and partly of men who have won noteworthy success in their respective lines of business, the Course and Service is arranged and conducted in accordance with university practice and ideals.

• • • • •

We don't take credit for the fine records made by our graduates any more than Yale or Princeton or Harvard take credit for the success of theirs. We provide no trick formulas for success; we simply give men the facts they need. If they are big enough to use these facts, they succeed. If they aren't, they would have failed anyway.

You will never find us claiming that every man who enrolls in the Institute becomes a president. (But of the men who have enrolled, 32,000 are presidents.)

You will never find us claiming that every man who enrolls increases his earning power. (But a questionnaire sent to 1,000 enrolled men showed that the average increase in earning power since enrolment had been 80 per cent.)

You will never find us claiming that this Course is a substitute for hard work, or common sense. (We do claim that it contains the best brains and methods of the leaders in business; and that you can put those brains to work for you as your personal servants.)

Like the university, the Institute *urges no man* to accept its training; but, seeking the widest possible field of service, it offers information freely and without obligation.

All the facts about the Modern Business Course and Service are gathered into an 80-page book printed for distribution among business and professional men. This little book answers questions which have doubtless been in your mind; it indicates definitely just how this training can be useful to you in the particular work you are doing and would like to do. If you would care to receive a copy, don't hesitate to ask for it.

Bjorkman Added to Football Staff

It has just been announced that "Hank" Bjorkman, former all-American end and captain in 1924 at Dartmouth, has been added to the Georgia Tech football staff.

Bjorkman will be assistant to Coach Alexander and very likely will aid Bill Fincher with the linemen. He will report to Grant Field in September.

His acquisition gives Georgia Tech unquestionably the biggest and the

greatest staff of coaches in the entire South and a galaxy of tutors that will bow to few, if any, in the United States.

Don Miller, former all-American at Notre Dame, will be in complete charge of the backfield. R. A. Clay will be assistant to Coach Alexander and football scout.

This gives Tech three former all-Americans on the coaching staff—Fincher, Miller and Bjorkman.

This Glass~ This Bottle

This graceful, sterilized
bottle(🍷) and this thin,
clear glass(🍻) are known
everywhere as symbols
of the purest and best
in a beverage ~ ~

It's well to know
when you are thirsty

That Coca-Cola contains
nothing artificial.

That from the caramel
(burnt sugar) whence it
takes its color to its satisfy-
ing blend of fruit flavors,
every ingredient is a pure
product from nature.

That it is, therefore, a bev-
erage with all the whole-
someness of choicest foods.

The Coca-Cola Company, Atlanta, Ga.
