

README File for Treatment Repurposing using Literature-Related Discovery

Name of contact person

Dr. Ronald N. Kostoff

Email and phone number for contact person

rkostoff@gmail.com; 571-248-2661

Format of data files

Main narrative file - pdf
Figures file - Excel

Location where data were collected

Gainesville, VA

Time period during which data were collected

September-October 2018

File Information - File names, directory structure, and brief description of each file or file type, including where in the research process each data file lies

TREATMENT REPURPOSING MONOGRAPH.pdf - main narrative of study
FIGURE_A3_1_FACTOR_MATRIX.xlsx - figure in Excel spreadsheet
README.pdf

Method(s) –Describe the methods for collecting, creating, or compiling the submitted data, as well as the methods for processing data, if data other than raw data are being contributed

Data were retrieved from major medical databases: Pubmed, Thomson-Medline, Thomson SCIE
Data were analyzed with Vantage Point and CLUTO

Software – List any software (including version number) used to produce, prepare, render, compress, analyze and/or needed to read the dataset, if applicable

Data were analyzed with Vantage Point, CLUTO

Limitations to reuse - Known problems or caveats that would limit reuse of the data or other caveats (e.g., uncertainty, sampling problems, blanks, QC samples) that future users should know

None, as long as proper citations are given.

Date dataset was last modified

10/31/2018

Data source - Resources, such as books, articles, serials, and/or data files, if any, that served as source of this data collection

Data were retrieved from major medical databases: Pubmed, Thomson-Medline, Thomson SCIE, as well as biomedical texts
