

LEWIS C. GREGG'S PAINTING OF JOHN W. HEISMAN, TECH COACH, 1904-19

DEDICATION OF THIS PORTRAIT of former Coach John W. Heisman will take place in the Athletic Association Building Friday at 5:00 p. m. Joe Westbrook, President of the Alumni Association, will be master of ceremonies.

Portrait of Former Coach Will Be Dedicated Friday

Painting By Atlantan Lewis C. Gregg; Colonel Van Leer To Accept For Tech

John W. Heisman, coach at Georgia Tech from 1904 to 1919, will be honored on Friday, February 6, at 5:00 p. m., when several hundred Alumni, past and present football players, and friends of the school, gather at the Athletic Association Office for the unveiling of Lewis C. Gregg's painting of him.

Joe Westbrook, president of the Georgia Tech National Alumni Association and a star of Georgia Tech's Rose Bowl football team, will act as master of ceremonies. Speakers will include Lewis C. Clark, member of the 1903-4-5 football teams; George M. (Pup) Phillips, member of the 1915-16-17 teams, and Athletic Director W. A. Alexander, who succeeded Coach Heisman in 1920. The unveiling will be accomplished by

those football greats of yesteryear, Everett Struppe and J. Canty Alexander. Colonel Van Leer will accept the painting on behalf of the school.

Among those present will be some of the members of the 1905 team, which was the first undefeated football aggregation in Georgia Tech's history. The painting was paid for by donation from Tech Alumni, the Athletic Association, and the Alumni Association.

I.F.C. Will Sponsor Competition in Bridge

Ben Brown, president, announced Wednesday night that the Inter-Fraternity Council has agreed to sponsor the annual duplicate bridge competition to be held here.

Under the proposed plan, offered by William C. Mann, co-chairman of last year's bridge competition, the council tentatively plans to hold preliminary competitions on Saturday, February 14.

Twenty-four of thirty pairs will compete in the semi-final round to be played Friday, February 20.

With the exception of the amount needed to defray the cost of the awards, publicity and minimum operating expenses, all proceeds will be turned over to the ODK Society to be deposited under the account of the "Student Union Building Fund".

First Band Concert Reported A Success

The initial concert of the year by the band was rated a success by all observers. The concert was given for the patients of Lawson Veterans' Hospital Sunday afternoon.

The trumpet trio by Bill Bell, C. J. O'Rear, and Irving Brand received enthusiastic applause as did the "Caribbean Fantasy"; a rhythmic, primitive selection.

A portion of the band will be heard tomorrow night on the Tech radio program over WGST at 6:30. The next full concert is to be Sunday afternoon, February 15 at 3:00, in O'Keefe High School. Tickets for this concert will be on sale tomorrow at the Information Desk, Student tickets will be 36 cents, others 72 cents.

Dick 'Wanderlust' Atchley Decides In Favor Of Tech

By Don Gray

Tech's now nationally famed Dick "Halliburton" Atchley has returned to the scene of his crime. Eight days after his mysterious departure from the home of Professor Groseclose, the once thought of "late Dick Atchley" was back in the fold minus one hundred dollars yet possibly far wiser.

When queried on the reason of his departure Mr. Atchley pleaded, "Vacation; I wanted to do something different!" The real reason for his departure was not disclosed, for the above is strictly for the records. When asked if he had thought that his departure might cause any concern he replied cryptically, "I planned to drop a card from New Mexico on Wednesday."

Atchley's story was somewhat vague in that he told only of the highlights of his already reported wanderings that spanned the continent. The problem of the high cost of living reached a new peak for him when he was forced to decide between buying a clean shirt or a meal—and some think that laundries are expensive!

On Saturday he first saw news of his disappearance in the papers. In a telephone conversation with Hazen Short he was informed of the collection taken up by his fraternity brothers for his return to Tech.

The newsmen in California wanted him to delay his return a few hours to have pictures taken with movie stars bidding him a tender good-bye. However, he restrained himself and departed as planned, arriving in Atlanta Monday night.

Atchley added the closing chapter to the romantic episode by saying, "I'm glad to be back in school again."

Prof. From Harvard Gives Talk At Emory On 'The US-Russia'

"The United States and Russia" was the subject of a talk given by Mrs. Vera Micheles Dean at Emory, last Wednesday night. Mrs. Dean, who was born in Russia, is the only woman to hold a full professorship at Harvard University and her address was on the subject treated in her latest book, "The United States and Russia."

Speaking in the Glenn Memorial Auditorium on the Emory campus, Mrs. Dean outlined a brief history of Russia and told of Russia's problems from the Russian viewpoint. She said "Present relations between these two countries are clouded by doubt and suspicion, making a true picture difficult to see."

After stating that the consensus of intelligent opinion is against a war in the near future, she went on to bring out the differences between ourselves and Russia along their three main lines; that of territorial, political, and economical.

In the territorial aspect of our disagreements, Mrs. Dean showed that Russia has expanded very little when compared with 1941 and that future settlement awaits concessions on both sides.

Speaking on political differences Mrs. Dean said, "Defeat of Russia would not leave the field open for our ideas and ideals. We must learn how to meet this challenge, not fear communism." She said further that, "Britain is on the middle course of socialism, and France, Italy and others may very soon follow suit. The

(Continued on Page 4)

APO Charts Forming, Says McLaughlin; All Organizations Notified

Alpha Phi Omega, national service fraternity, is now in the process of gathering all the information necessary for the proposed organizations chart which they will post soon.

Heath McLaughlin, APO pledge trainer, reports that mimeographed letters have been sent to all the organizations on the campus, requesting pertinent information. This necessary data includes the name of the organization, the day and hour on which it meets, the building and room number in which it meets, the organizational box number, and the average attendance per meeting.

From this information some form of a chart will be made up and posted in a conspicuous place where Tech students will have easy access to it. McLaughlin says, "We hope that our chart will cause more students to become interested in organizations and take an active part in them. We shall appreciate the full cooperation of all organizations in turning the proper information over to us as soon as possible."

Johnson Named To Head New Technical Institute

Lawrence V. Johnson, acting head last year of the Department of Aeronautical Engineering and prior to that a faculty member of Biarritz American University, Biarritz, France, has been named by the Board of Regents of the University System of Georgia as director of The Technical Institute, a unit of the Engineering Extension here, located at the Atlanta Naval Air Station, Chamblee, Ga.

The Technical Institute, according to Professor R. S. Howell, director of the Engineering Extension Division, was established by the Board of Regents upon the recommendation of the state's newspaper editors, educators and industrialists in order to provide two-year technician courses, which are above the high-school but below the four-year-college level. The Navy Department has leased more than \$1,500,000 worth of classrooms, laboratories, dormitories and dining hall at the Atlanta Naval Air Station to the Institute which plans to open its first classes on March 24, 1948.

Now Recruiting A Faculty

Working closely with the education and research committees of the Associated Industries of Georgia, headed by Alfred D. Kennedy of Atlanta, and other agencies, Director Johnson is already engaged in recruiting a faculty and in procuring the latest types of scientific and laboratory equipment and machinery for the Institute.

In assuming his new position, Di-

rector Johnson stated that the high standards of instruction and scholarship at Georgia Tech will also be maintained at The Technical Institute. Although there are about 85 such educational institutes in the United States, he pointed out that The Technical Institute of Georgia will be the first general institution of its type in the South. Special attention will be given to veterans enrolling in The Technical Institute, says Director Johnson, which will make it possible for many of them to finish any of the two-year technology courses in 18 months.

Technicians Requested Often

According to Dean George C. Griffin, who is in charge of placement, industries are requesting five to ten technicians for every engineer placed by him. Many national industrial corporations have stated to him that they would establish Georgia branches if there were a source of trained technicians to operate and supervise such plants.

Five major fields of study are to be offered, including drafting, maintenance and operation, production, construction, and services and sales. Options in these fields will be available in aeronautics, air conditioning, construction, electrical technology, electronics and radio, industrial production and supervision, mechanical technology, safety, surveying and textiles.

Post Office Rush

Each morning at the between-class hours of nine, ten, and eleven o'clock, the campus post office is usually a scene of utter chaos. Few students can push their way in, finally reach their boxes, then stagger out along with the throng without feeling scattered emotions of hate and disgust.

The situation would be alleviated somewhat if students entered by the door marked "entrance" and left by the door marked "exit," thus bringing about a steadier flow of traffic. Those students who loiter in the post office reading their mail should be soundly kicked by students behind them trying to get out.

There are many other ways of lessening this "every morning headache" for Tech students. By breaking up all bull sessions and student congregational meetings in the post office when the whistle blows will go a long way toward preventing other students from getting tardies on their record for following classes.

Each student must remember that he is one in five thousand. He is not the only student in school that wants to check his post office box for mail. By cooperation, by a little consideration for others, by the application of the Golden Rule, we can ease this situation.

The *Technique* proposes the following as a slogan: "Get your mail, and get the hell out of the way!"

THE *Technique*

"The South's Liveliest College Newspaper"

Published semi-weekly by the students of the Georgia School of Technology as an expression of student news and opinions only. Letters to the Editor and signed articles represent the views of their writers and not necessarily those of the editor.

Entered at the postoffice in Atlanta as mail matter of the second class. Accepted for mailing at special rate of postage provided for in Section 1106, Act of October 2, 1917, authorized April 3, 1922.

7. Erection of a Student Union Building.

The *TECHNIQUE* will at all times attempt to represent the best interests of the students in current discussions and controversies.

Guest Editorial:

You, Poindexter, Just Be Quiet!

The name of William H. Poindexter should go down in history. He is a Tech student who proposed, in a letter published January 20 in the *Atlanta Constitution*, that the present subsistence of \$65 per month for single men be dropped to \$40. We assume that he favors cuts for married men too, although he did not mention it.

To say this is a revolutionary proposal in this day of the rising cost of living is putting it mildly. His proposal must have sprung from a very limited study of the field—namely his own personal prosperity. But even as we laugh at his proposal or scorn it—it should serve as check in our thinking about campaigning for a raise.

In the first place, we can't get away from the fact that we, deservedly or not, are riding on the backs of the taxpayers. We should not take this fact lightly, and we should think it over carefully before digging in the spurs. Our letters to our representatives in Congress should be true statements of our needs and not just attempts to jump on a bandwagon because it will mean more spending money.

The unfortunate thing about this subsistence business is that it is impossible to pay each veteran according to his needs. A blanket subsistence rate with a sliding scale for dependents is the only way in which a fair system can be worked out. But some people need more than

others; and, therefore, measured by a common scale, some are more fortunately favored by the subsistence rate than others. There are matters of outside employment, employment of wives, money from home, and savings. Some have all these things—others none.

We at Tech are especially fortunate to be attending a school which is located in a large city where part-time employment is comparatively easy to obtain. Some less fortunate brethren have chosen schools in remote rural villages, and they find the going tough when it comes to supplementing their subsistence allowance.

Mr. Poindexter is evidently of the more fortunate category, and his letter is, of course, a blow to the cause of the veterans who are in need. This category includes especially married men with little shavers.

The important thing is that we consider carefully any demands made upon the people of the U. S. through our representatives in Congress. This is a time of national financial crisis with the inflation spiral mounting higher and higher, and we have no right to add to that inflation except in case of real need.

Men who really need more, write to your Congressmen. And you, Poindexter, just be quiet and put your money in government bonds.

Woody Grice.

Roy Barnes:

Do You Belong?

Recently, a student on this campus was heard to say that he didn't feel as though he belonged. That is, he didn't feel that he was an integral part of the school and its various activities.

No one belongs who makes no reasonable attempt to be friendly and become active among his classmates on the campus.

No one belongs who never spends a single spare moment "shooting the breeze" in the Rob-

bery and elsewhere.

No one belongs who studies every waking minute of his day.

So, if sometimes you get the feeling of "being on the outside looking in" ask yourself this question, "Have I sincerely made an effort to become a part of Georgia Tech and to let Georgia Tech become a part of me?" If the answer is "no," get busy, lad, and give yourself a break.

Book Review:

Stalin Must Have Peace

Russia is incapable of fighting a major aggressive war against the United States.

That is Edgar Snow's conclusion, and here are his reasons. About seven million Russian soldiers were killed in the last war, not to mention many additional millions of civilians murdered by the German Army of Occupation.

Industry, transportation, and agriculture were so badly crippled that recovery to pre-war capacities cannot, even under the most favorable conditions, be attained before 1950. In 1940 Russia did not hope to equal our 1929 output of iron, steel, coal and electric power until 1956. Now the goal looks much further away.

Moreover Russia does not need new territory. A self-sustaining nation, she has vast natural resources; the demand for consumer's goods is unlimited. Her planned economy eliminates fear of overproduction and under-consumption.

Stalin says that no great power can raise a large army to fight another war if the people are unwilling. The Russian people are tired of war. Since they see no understandable objectives

for a new struggle, they won't fight.

Dwarfing all considerations is the fact that we have the atomic bomb. It may be years before Russia gets the know-how. And even when they get it, will they be ready to start an atomic war when they know that even the victor will suffer more than any country did in the last encounter?

According to Mr. Snow, Russia is not a military threat. She needs our food, machinery, and good will; she is not hankering for an assault by rockets and atomic bombs.

This is not the newest book about Russia and Soviet aims and ambitions, yet it is still one of the best. Snow spent enough time in the Soviet to get his facts straight; he is also a skilled observer with no dangerous bias either for or against Russia. And he had the advantage of putting his stuff down before our newspapers had pushed us far along the path to hysteria.

Stalin Must Have Peace is a good book to read now.

W. H. Greene.

Jackets Face Bulldogs In Athens In Attempt To End Losing Streak

Bulldogs Boast Better Record Than Yellow Jacket Quintet

By Lenny Frieden

Georgia Tech's victory hungry cagers will again attempt to break into the win column when they tackle the Bulldogs of Georgia tonight in Athens in the first conference meeting of the two fives this season.

In conference competition thus far this year, Georgia has won three contests and lost five while the Techmen have won only one tilt and lost six. Georgia's overall record for the season stands at 13 wins and five setbacks, and the Jackets have been victorious in only four contests while losing ten.

Georgia lost to Kentucky by a score of 88-51 as compared to Tech's 71-56 loss. The 'Dogs also bowed to Tennessee by a larger margin than the Jackets, losing to the Vols 70-64 while the Jackets held them 59-57. The Athens team has a better record against Alabama, winning 37-34 and losing 47-48 while the Jackets bowed to the Tide 44-31.

Schloss Leads 'Dogs

Heading the Red and Black lineup will be six foot eight inch Bob Schloss, a freshman star who has only recently blossomed into a standout performer. Returning to battle from last year's Bulldog five will be forward Bob Healey and guard Gene Lorendo who are certain to be thorns in the sides of the Jacket courtmen. Georgia ace Joe Jordan may be forced out of action due to an injured shoulder suffered against Mercer last week.

In an effort to bring his charges back into the victory circle, Coach Roy MacArthur will again rely on veteran sharpshooters Jim Nolan and Colin Anderson who have led the Techmen in the scoring column throughout the year.

Flanking these two stars will be the Jackets' freshman trio of forwards Joe Keener and Mel Dold and guard Mickey Sermersheim, the midwestern lads who flashy ball handling has been one of the few bright spots in the performance of the wearers of the White

(Continued on Page 4)

Frosh Quintet Takes 3rd Win

Three up, three down. That is the way Tech's freshman basketball team has treated its last trio of opponents. The Junior Jackets trimmed the independent Culver Kidd quintet from Milledgeville 45-43 in a see-saw battle at the Tech gym last Friday afternoon and thus hung up their third scalp. Next on the books for the frosh cagers is a game with the hoopsters from Fort McPherson slated for Tuesday afternoon at the Tech court at 4:30 p. m.

"Red" Crabbe, Steubenville, Ohio forward, surpassed the usual top performers for the Engineers by amassing 15 points and further by his steady, aggressive court play. Jack Owens and Barry Blemker each looped in 11 scores. Bennie Register's steady, heads-up performance at guard added greatly to the victory. Yost, a forward, topped the visitors with 14 tallies.

The lead changed several times during the thriller, and the local boys gained the advantage by two points only a minute and a half before the final horn. The score stood at 16-14, Tech, at the end of the first frame and 30-27 in favor of Culver Kidd at the halfway mark.

Losses To 'Bama, Auburn Place Tech Near Cellar

By Ralph Day

The Jacket hoopsters' losing streak continued last week as the Techmen lost to Auburn on Friday, 38-31, and bowed to Alabama on Saturday, 44-31. The 'Bama loss was the fifth straight SEC defeat and puts the total at six lost and one won, making the Jackets a strong contender for Vanderbilt's cellar slot.

Tight defensive play was the order of the day in the Auburn tilt as is indicated by the comparatively low 38-31 score. This was also indicated by individual scoring as Auburn's William's took top scoring honors with 10 points, closely followed by Tech's Dold with 9; the next highest score was 6 markers.

Nolan Held Scoreless

Further proof of the closeness of defense was the startling fact that Spider Nolan, always a leading scorer in the Tech offense, was held to a flat zero. Nolan was covered by Auburn's Gene Nixon who equals Nolan's six-foot eight-inch height. Nixon, usually a high scorer himself, eked out a bare three points.

On Saturday night the Techsters were unable to maintain an early lead and were overtaken at the half by the Tide, 24-21. The Jackets again took the lead as the second half opened but as the end of the game neared the 'Bamites tightened down on defense and opened up offensively to outdistance the Techsters 44-31.

Big gun for the Jackets was hard playing forward Colin Anderson who hit the hoop for fifteen markers, only one point less than the combined scores of his teammates.

Frat Cagers Begin Last Half of Play

The second half of interfraternity basketball competition started with a flourish last Thursday night. The leading teams will be hard put to defend their titles as the trailing teams look forward to a second contest with determination.

Thursday night saw real action when the two undefeated teams in the Tornado League, the Lambda Chi Alphas and the Alpha Epsilon Pi's, met. The Lambda Chi's took the lead early in the game, and the AEPI's couldn't close the gap. The contest ended with the Lambda Chi's winning 34-26.

In the other games played, Chi Phi plowed over the underdogs, Sigma Chi, in the Gold League, 35-16. The Phi Deltas and the SAE's put on a scrappy contest in which the Phi Deltas

'Unwilling To Study Marriage' Says 'Y' Lecturer, Dr. Barbee

By Walt Miller

"What would you think if you read in the morning paper that fifty percent of the businesses in Atlanta had failed, or that there were 100,000 cases of serious illness in Atlanta. Do you think you would be surprised? Don't you think that the city would take some action? Yet, we are not at all surprised when we read of the increasing divorce rate, or that 100,000 marriages in the city of Atlanta are failures." These and many other interesting facts were learned during an interview with Dr. James Barbee last Wednesday night.

Dr. Barbee conducts a course of "Preparation for Marriage" every Tuesday afternoon at five at the Tech YMCA. Many students have taken this course and have enjoyed it immensely.

High Divorce Rate

Dr. Barbee pointed out that as students of a Technological college, our chances of getting a divorce after we are married are one out of every three. Yet if we had an adequate course on marriage our chances for divorce would be reduced to such that only two to five percent would be destined for the divorce court. He has done a lot in providing the necessary information, but the job is too big for one man to prepare 6,000 students for marriage.

Preparation for Marriage

We spend four years preparing for our occupation but we don't spend any time studying for marriage. Yet, our chances are much greater that

our marriage will last years longer than we will practice our profession. Dr. Barbee pointed out that we are unwilling to spend the necessary time to study the most important phase of our life. We enter marriage, looking upon it much the same as we play cards. If we lose, we back out and gamble again later.

Why Not Marriage Courses

With such alarming divorce rates, why do not all modern colleges offer courses on marriage? Dr. Barbee pointed out that the answer to this question was that we were unwilling to put marriages on a public basis. We are willing to allow anyone to get married, raise their children in their own particular manner, and then if their off-spring get in trouble we often have to support them in jail for years. Wouldn't it be cheaper and more satisfying to use an ounce of prevention, and train the parents?

What is the basic cause of divorce? Dr. Barbee said that the basic reasons for divorce were those marriages that were not thoroughly planned. Each party of a marriage is really made up of three personalities; the person he thinks he is, the person she thinks he is, and the oftentimes disillusionment of finding out the person that he really is. The same applies for the other party in the marriage. It has been shown that quick marriages are often 75% emotional and 25% rational, while a long courtship means an eventual marriage of 25% emotional and 75% rational.

Georgia Gibbs is the vocal guest on Columbia network's "Jack Smith Show" at 7:15. Earl Sheldon conducts the orchestra.

Apartment building tenants who protest the loud blaring of a dance band program late at night lead to the discovery of the death of Betty Welch, pretty occupant of the apartment, and start an exciting series of clue pursuits by Lensman Casey in the "Music To Die By" episode of CBS' "Crime Photographer" at 9:30. Staats Cotsworth in the title role is supported by Jan Miner, who is heard as reporter Ann Williams.

Cornel Wilde of the movies is heard in a dramatization of "The Case of the Dormitory Thefts" at 10:00 over

Tech Tankmen Suffer Defeat By Speedy N. C. State Teams

By Milton Fivel

Failing to match the speedy relay teams of N. C. State, the Tech Tankmen suffered their first defeat last Saturday night, January 31, in the Tech pool by the score of 44-21.

State started out with a bang by winning the 300-yard medley relay and refused to concede any ground down to the final event. The efforts of Tech's sturdy swimmers, Avery, Flowers, Chapman, and Hiles weren't

enough to win the final relay and give the Jackets the meet.

As usual, the bright spots for Tech were the distance events and the backstroke. Johnny Hiles left contenders far behind as he coasted to victory in the 220 and 440. Team Captain Charley Flowers fared well with a creditable 1:44.6 on the 150-yard backstroke.

For the Wolfpack, Bill Ward and Bill Kelly matched the Tech performances. Ward captured both of the sprints, and Kelly took the breaststroke. They swam third and fourth respectively in the 400-yard relay.

The Results

300-yard medley relay—N. C. State (Mandel, Kelly, and Stafford): 3:07.4
220-yard freestyle—Hiles (T); Despres (NCS); Deynes (NCS): 2:20.2
50-yard freestyle—Ward (NCS); Topp (T); DIVING—Brantley (T); Despres (NCS); Cramer (NCS)
100-yard freestyle—Ward (NCS); Chapman (T); Topp (T): 0:55.1

Journalism Group Elects Williford, Johnston, Patton

Jim Williford was elected president, Howard Johnston vice-president, and Walt Patton secretary and treasurer of the Tech chapter of Pi Delta Epsilon at the last meeting held Monday night. Pi Delta Epsilon is the national honorary collegiate journalism fraternity.

Officers retiring are Tom Crossley, president; Buddy Fiske, vice-president, and Jim Williford, secretary-treasurer.

CBS-WGST's presentation of "Reader's Digest—Radio Edition".

Friday, February 6—

When a middle-aged architect at long last receives his big chance to make plans for a Literal Mansion, and his children begin to suspect romance with the wealthy client's wife, a series of family complications arise in "A House to Live In", the story of CBS' "Aunt Jenny" at 12:15.

Daddy Higgins' emotions are put through the wringer by his irrepressible daughter Snooks, on CBS' "Baby Snooks Show" tonight at 8:00 over CBS-WGST. Fanny Brice stars as the terrible tot, and Hanley Stafford is heard as daddy.

Frat Cagers—

(Continued from Page 3)

won by the narrow margin of 21-20. The Pi Kappa Alphas won 37-23 over Kappa Sigma, the underdogs in the White League, while the undefeated Delta Tau Deltas routed the Betas 40-21. Phi Kappa Sigma and Phi Kappa Tau engaged in an even battle in which the Phi Kappa Tau's came out on the bottom of a 26-25 score.

Russia—

(Continued from Page 1)

United States must never make the fatal mistake of backing reaction all over the world."

In the economic sphere Mrs. Dean said the United States was clearly ahead of Russia, and, in this respect, the Marshal Plan is our best weapon.

At the conclusion of the speech Mrs. Dean answered questions from the audience.

Georgia Game—

(Continued from Page 3)

and Gold. Next Friday night the Jackets will hit the road for Knoxville and a return engagement with the Volunteers of the University of Tennessee. In the first meeting of the two quints in Atlanta, the Vols emerged victorious in the final moments of the contest 59-57.

Leading the lads from Tennessee will be All-American Paul Walther who scored 14 markers in the previous contest and guard Ed Montgomery who hit the meshes for 17 points in addition to sinking the winning two pointer in the last eight seconds of the game.
