VOLUME 19, NUMBER 25 - MARCH 6, 1995

College of Engineering Honors Young Alumni

Last week Tech's College of Engineering inducted 90 alumni into the founding class of the Council of Outstanding Young Engineering Alumni. Membership is reserved for alumni under 40 years of age who have demonstrated outstanding professional achievements.

"Our inductees are truly on the 'fast-track,'" stated Dr. John A. White, dean of engineering. "They have driven Georgia Tech's Ramblin' Wreck at record speeds; their accomplishments to date demonstrate that Georgia Tech's 'helluva engineer' reputation is in very good hands."

Among the inductees are a general manager from an electronics plant in China, the president of a construction firm in Puerto Rico, a head of design for an Italian automobile company, a principal and a fellow in the White House Office of Science and Technology Policy, an investment banker, a manager for the 1996 Atlanta Paralympic Games, a manager for the Olympic Games, and two presidents of software firms.

The Whistle Available On World Wide Web

One year ago, *The Whistle* became one of a growing number of campus newspapers that decided to augment its circulation with electronic distribution. With the February 15, 1994, issue, *The Whistle* was available as a resource on the Georgia Tech network and remains there today.

The program used to distribute *The Whistle* at that time was called Gopher. With the advance of technology the user can now use the new World Wide Web to browse *The Whistle*. In the past year, the number of organizations using the World Wide Web has grown so fast as to become uncountable. Estimates place the number of servers around 5,000.

The World Wide Web is based on the client/server program model. This means that a user needs a special program, called the client, to access the information, which resides on the server. These programs are available for many platforms including IBM-PC, Macintosh, and UNIX. Users needing to have one of the clients installed on their computers can contact their computer service representative or call HelpDesk at 894-7173.

To access *The Whistle* the address is: gopher://gopher.gatech.edu:2070/1. Computer users wanting to use the World Wide Web without installing it on their computers can use a program called "lynx" on acme. Login to acme and type: lynx gopher://gopher.gatech.edu:2070/1

Light And Life Program Accepting Applications

Do you know an 11th or 12th grader looking for an exciting and challenging summer science experience on the Georgia Tech campus? Introduce them to "Light and Life," a three-week biology mini-course beginning July 10. It will meet weekdays from 9:00 a.m. - 3:00 p.m. during which high school students will participate in daily hands-on laboratory experiments after morning lectures and demonstrations.

The course will be taught by Dr. Edward Yeagers of the School of Biology. It will examine the effects of light and other forms of radiation on living systems at levels from molecular biology to ecology. Both the positive effects of radiation, as in photosynthesis and medical diagnosis, and the negative effects, as produced by nuclear wastes and solar ultraviolet light, will be studied.

The course is being sponsored under the auspices of the Howard Hughes Medical Institute, Georgia Tech's School of Biology, and CEISMC (the Center for Education Integrating Science, Mathematics and Computing).

Applications are encouraged from students historically underrepresented in mathematics and science. Application deadline is March 17.

For more information and application forms, contact Susan Longuepee, School of Biology, 894-3700.

ACC Tournament Coverage Plays On World Wide Web

There's something new on the World-Wide Web, "The ACC Tournament: Wired." "The ACC Tournament: Wired" is the official web site of the Atlantic Coast Conference and the Men's Basketball Championship Tournament.

"The ACC Tournament: Wired" is being put together by the Greensboro, N.C. *News & Record* and InfiNet. The tournament will be played in Greensboro for the next three years.

According to *News & Record* officials, "The ACC Tournament" is the first college sporting event and the third sporting event of any type represented on the Internet. Super Bowl XXIX was the first such site. Coverage began March 1.

"The site will grow every day, to include background and stats on all the ACC teams, highlights of the souvenir program, live chat groups and even an interactive trivia contest with prizes said Dave Stroble manager of *News & Record* Voice Information Services.

"While the tournament is in progress March 9 through 12, the *News & Record* will update the scores on line continuously, and they'll post news accounts of each game soon after the final buzzer, giving Inter-

net surfers an overnight jump on the next day's papers," Stroble said.

The site will remain available on the Web through the month of March and is slated to include: a continuously updated scoreboard, with scores, posted real-time, and commentary about what's happening on the court; a Tournament trivia contest, which guests will enter to compete for prizes; key excerpts from the official souvenir program, which can be ordered on line; a Tournament discussion group, featuring live chat areas; The Souvenir Stand, with official merchandise, also can be ordered on line; background information about the Atlantic Coast Conference; game stories; photographs, play-by-play, coaches' comments and statistics, all filed within minutes of games' conclusions; details of Tournamania, a fan celebration planned in conjunction with the Tournament; and team rosters, season-ending statistics and the history of the Tournament.

"The ACC Tournament: Wired" is located on "Triad Online," the *News & Record*'s electronic information service. The Web address is: <http://www.infi.net/acc>

Georgia Tech President G. Wayne Clough discussed his vision for Georgia Tech's future during his first meeting with the Georgia State Legislature. Clough explained his plan to streamline the administration and position Tech to better carry out its mission in academics and research.

Georgia Tech Hosting State Academic Decathlon

by Arnell Pharr
Media Relations

Eighteen secondary school teams from around the state will square off academically at the ninth annual Georgia Academic Decathlon March 10 - 11 here on the Georgia Tech campus.

Sponsored by the Professional Association of Georgia Educators (PAGE), the decathlon seeks to stimulate the intellectual curiosity of students, broaden their academic horizons and promote their ability to communicate effectively.

"The Decathlon activities provide an opportunity for these young people to realize their true intellectual potential and to appreciate, maybe for the first time, the intrinsic value of academics," said Tom Wommack, director of Leg-

islative Services for PAGE, a non-union, statewide professional association of more than 31,000 teachers, administrators and support personnel members.

Pam Steinberger, administrative director of the Ivan Allen College of Management, Policy and International Affairs, and Milton Stomblor, director of program development for the Center for Education Integrating Science, Mathematics and Computing (CEISMC), are assisting PAGE as campus Decathlon coordinators.

Each Decathlon team is comprised of nine students — three honor students (GPA 3.75 to 4.00); three scholastic students (GPA 3.00 to 3.74); and three varsity students (GPA 0.00 to 2.99). The competition, to be held at various sites across campus,

consists of 10 individual and team events, including the fast-paced "Super Quiz" before a cheering audience.

The winning team will advance to the U.S. Academic Decathlon April 20-23 in Chicago, where it will face off with other teams from around the nation. Georgia Tech is slated to host next year's national competition in April 1996.

Opening ceremonies will be at 8:15 a.m., Saturday, March 11, at the Theater for the Arts. The Super Quiz competition will get under way at 2:30 p.m. at the theater, and the awards banquet will be at 7:30 p.m. in the ballroom of the Renaissance Hotel, 590 W. Peachtree St., N.W.

Continual Calendar

Faculty/Staff Toastmasters Club - Techmasters, Thursday mornings, room 102, Pettit Building, 7:30 - 9:00 a.m. For more information call Richard P. Kenan, 894-4702 or e-mail: dick.kenan@ee.gatech.edu

Women's Therapy Group. Female students meet every Wednesday, to discuss concerns, build support and expand choices, noon - 1:00 p.m., room 238, Student Services Building. Confidentiality stressed. To join or for more information call 894-2575.

MARCH 6

The Jazz Ensemble Winter Concert, 8:00 p.m., Robert Ferst Theater, Center for the Arts. No admission charge. For more information call Bucky Johnson at 894-3193.

SUPERTRAIN Sessions, "CQI-Problem Solving," 8:30 a.m. - 3:30 p.m., room 119, Centennial Research Building. For more information call Denise Daniels at 894-1146.

Women's Tennis, Georgia Tech vs. West Virginia, 2:30 p.m., Bill Moore Tennis Complex. For more information call 894-5445.

Graduate Student Seminars presents Dr. John Uyemura, GT Microelectronics, 3:00 - 4:00 p.m., room C-240, Van Leer Building. For more information call J. Alvin Connelly at 894-2911.

"Promotability Skills," course offered by Human Resources Development, 8:30 a.m. - 12:30 p.m., Custodial Services Building. For more information call Wansley Stallworth at 894-2249.

OIT Seminars, "Internet Exploration Tools, Part I," 2:00 - 5:00 p.m., room 239, Rich Building. For more information call Tony Gilmer at 894-9260.

MARCH 7

The Academic Senate, 3:00 - 4:30 p.m., room 5, SSTC building number 3. For more information call Jane Lee at 894-7769.

"Purchasing/AP Processes," presented by Business and Finance At-A-Glance Sessions for the departments of GTRI and the College of Engineering, 9:00 a.m. - noon, Student

Success Center Auditorium. For more information call Wansley Stallworth at 894-2249.

Men's Baseball game, Georgia Tech vs. Western Carolina, 4:00 p.m., Russ Chandler Stadium. For more information call 894-5445.

1995 Winter Programs in Architecture Lecture Series presents Colin St. John Wilson,

Architect, Wilson Architects, London. His topic, "The Other Tradition," 6:00 p.m., Architecture Auditorium. For more information call Beverly Burton or Pat Austin, 894-4053.

"Detritus & Debris" by artist Rae Adams, The Westbrook Gallery, Center for the Arts, through April 27th. Gallery hours: 2:00 - 7:00 p.m., Tuesday - Thursday. For more information call Boyd Beckwith at 894-2805.

"Quality Customer Service," course, offered by Human Resources Development, 8:30 a.m. - 12:30 p.m., room 119, Centennial Research Building. For more information call Wansley Stallworth at 894-2249.

Munch-O-Mania Pizza, \$1.00 per slice, offered by the Student Center, 8:00 - 10:00 p.m., Student Center, 2nd floor lounge.

OIT Seminars, "Introduction to MS Windows 3.1," 9:00 a.m. - noon, room 239, Rich Building. For more information call Tony Gilmer at 894-9260.

OIT Seminars, "Beyond Basic UNIX," 2:00 - 5:00 p.m., room 239, Rich Building. For more information call Tony Gilmer at 894-9260.

MARCH 8

"Purchasing/AP Processes," presented by Business and Finance At-A-Glance Sessions, 9:00 a.m. - noon, Student Success Center Auditorium. For more information call Wansley Stallworth at 894-2249.

The Concert Band's Winter Concert, 8:00 p.m., Robert Ferst Theater, Center for the Arts. No admission charge. For more information call Bucky Johnson at 894-3193.

Men's Baseball game, Georgia Tech vs. Western Carolina, 4:00 p.m., Russ Chandler Stadium. For more information call 894-5445.

CST/CETL/Edutech Seminars presents Dr. C. Ronald Carroll, Program Director, Graduate Training Program in Conservation Ecology & Sustainable Development, Institute of Ecology, University of Georgia.

Dr. Carroll's topic: "SANREM: Sustainable Agriculture and Natural Resource Management: A New Developmental Paradigm," noon, Richards Gallery, Center for the Arts. For more information call Carol Bartlett at 894 1355.

Women's Tennis, Georgia Tech vs. Old Dominion, 2:30 p.m., Bill Moore Tennis Complex. For more information call 894-5445.

OIT Seminars, "Internet Exploration Tools, Part II," 2:00 - 5:00 p.m., room 239, Rich Building. For more information call Tony Gilmer at 894-9260.

MARCH 9

GVU Brown Bag series presents speaker, Peter Lindstrom, topic: "Virtual 3D GIS Research" noon, room 102, Pettit Building. For more information call Elaine Swobe at 894-9392.

"The Vine," 5:00 p.m., Robert Ferst Theatre, Center for the Arts. For more information call 894-9600.

OIT Seminars, "Introduction to PC Eudora for Windows," 2:00 - 4:00 p.m., room 239, Rich Building. For more information call Tony Gilmer at 894 9260.

InfoTech monthly meeting, 10:00 - 11:30 a.m., President's Suite B, Georgia Tech Student Success Center. The Office of Human Resources (OHR) in partnership with Payroll and Records Services (PARS) and the Office of Olympic Planning are conducting monthly meetings in various buildings across campus to share new information and answer questions/concerns from employees. For more information contact Pat Brook, PARS 894-4614 or Jean Fuller, OHR 894-3200.

"Supervisory Skills IV," offered by Human Resources Development, 8:30 a.m. - 12:30 p.m., room 119, Centennial Research Building. For more information call Wansley Stallworth at 894-2249.

MARCH 10

Men's Baseball game, Georgia Tech vs. Michigan, 4:00 p.m., Russ Chandler Stadium. For more information call 894-5445.

Board of Regents, 8:30 a.m., Richards Gallery, Center for the Arts.

MARCH 11

Women's Tennis, Georgia Tech vs. North Carolina State, 11:00 a.m., Bill Moore Tennis Complex. For more information call 894-5445.

Men's Baseball game, Georgia Tech vs. Michigan, 1:30 p.m., Russ Chandler Stadium. For more information call 894-5445.

MARCH 12

Women's Tennis, Georgia Tech vs. Duke, 11:00 a.m., Bill Moore Tennis Complex. For more information call 894-5445.

Men's Baseball game, Georgia Tech vs. Michigan, 1:30 p.m., Russ Chandler Stadium. For more information call 894-5445.

Georgia Academic Decathlon, 2:00 p.m., Robert Ferst Theatre, Center for the Arts. For more information call 894-9600.

"An Italian Straw Hat," National Theatre for the Deaf, 3:00 p.m., Robert Ferst Theatre, Center for the Arts. For more information call 894-9600.

MARCH 13

Winter Quarter final exams begin.

"Goal Setting and Time Management," offered by Human Resources Development, 8:30 a.m. - 12:30 p.m., Custodial Services Building. For more information call Wansley Stallworth at 894-2249.

Continuing Education Reception, 5:00 p.m., Richards Gallery, Theatre for the Arts. For more information call Bucky Johnson at 894-3193.

MARCH 15

SUPERTRAIN Sessions is offering the course, "Effective Communication Skills I," 8:30 a.m. - 12:30 p.m., Custodial Services Building. For more information call Wansley Stallworth at 894-2249.

"Pre-Retirement I," offered by Human Resources Development, 3:00 - 6:00 p.m., Student Success Center. This course is for employees age 50 and over. For more information call Wansley Stallworth at 894-2249.

MARCH 17

"Music of the Night," a collection of classic show tunes, performed by Mac Frampton, Tom Key and Pamela Myers, 8:00 p.m., Robert Ferst Theatre, Center for the Arts. For ticket information call 894-9600.

SUPERTRAIN Sessions is offering a course, "CQI-For VPs, Deans and Directors,"

8:30 a.m. - 5:00 p.m., Alumni Faculty House. For more information call Denise Daniels at 894-1146.

FSAP (Faculty/Staff Assistance Program) brown bag: "Surviving Your Child's Adolescence," noon - 1:00 p.m., Student Center. For more information call Wansley Stallworth at 894-2249.

MARCH 18

Commencement, 10:00 a.m., Georgia World Congress Center, Shirley Mewborn speaker.

"Music of the Night," a collection of classic show tunes, performed by Mac Frampton, Tom Key and Pamela Myers, 8:00 p.m., Robert Ferst Theatre, Center for the Arts. For ticket information call 894-9600.

Women's Softball game, Georgia Tech vs. Winthrop at 1:00 p.m., Glenn Field. For more information call 894-5445.

ADDRESS CORRECTION REQUESTED
Georgia Tech is a unit of the University System of Georgia

Meet Missy Parmley

Missy Parmley, development research analyst, stands among the several hundreds of files needed to track gift prospects for Georgia Tech development officers.

Full Name: Missy Parmley

Age: 27, almost 28

Occupation: Development Research Analyst

Years At Tech: nearly 10 months

Professional projects: Our office gathers, analyzes and summarizes information about major gift prospects, including: individuals, corporations and foundations. We provide this information for the central and unit development officers to help them raise money for Tech. One of the most important functions of our office is to gauge a prospect's capability for a major gift and also match their interests with specific needs or programs at Tech.

Education: history degree from the University of the South

Marital Status: engaged to Greg Smith

Children: one dog — a nine year old beagle named Meghan

Last book: *Pigs In Heaven*, by Barbara King Solver. It was a good book about coincidence, love and miracles.

Last movie: "Nobody's Fool," It seemed like a "guy's" movie to me, but basically I liked it.

Best advice ever given: "A good sense of humor can get you through it all."

Best advice ever received: "Move to Atlanta."

Pet Peeve: People who have great ideas and aspirations, but do nothing to realize them.

Personal heroine: Wilma Rudolph, she recovered from a serious childhood disease to become a world-class runner. She was an amazing athlete, successful business woman and inspirational speaker.

Few people know that I: have a totally twisted sense of humor.

DID YOU KNOW

Campus Police Announce New Service

For lost or found property the Campus Police Department can be notified by e-mail: lost-found@police.gatech.edu.

For lost property

The message should include, name, e-mail address or phone number, date the property was lost, description of the property. The police will call or reply by e-mail if they have the property.

For found property

Campus police will attempt to contact the owner if they are e-mailed a name or a good description of the property, also include your name, the date the property was found, the location where it was found and how the police can contact you.

To find out what has been lost or found

The campus police will provide the public with information on lost or found property reported to the police through the newsgroup

git.police.lost-found. For help accessing the newsgroup see your computer support representative.

For more information regarding this newsgroup, please call 853-9960.

Tech Students Ace Foreign Service Exam

Four out of eight Georgia Tech students passed the Foreign Service examination recently. It is highly unusual for an academic institution to have half of its Foreign Service examinees pass, said Dr. Linda Brady, academic director of the School of International Affairs.

Some 15,000 people take the exam annually, with only about 1,000 receiving passing scores.

Village Promises 24 Hour Fun For Olympic Athletes, Trainers

by Ashley Gigandet
Olympic/Paralympic Planner

Where will you find your favorite math professor during the summer of 1996? Well, you might just find him or her downstairs in the Skiles Classroom Building dancing the night away to the tunes drifting in from the disco. Skiles, home of the School of Mathematics and others, will be transformed into a dance club when the Olympic athletes come to town.

By the Village opening on July 6, 1996, Georgia Tech must be metamorphasized into a completely sustainable mini-city complete with athlete citizens and a mayor.

The center of campus will see the most change. All surfaces will be decorated to reflect the Olympic look. Colorful banners and flags as well as all sorts of other adornments will combine to create a very festive atmosphere.

In order to accomplish the required 24-hour meal service for all 15,000 athletes, coaches and officials, the School of Management parking lot will be covered with a large tent and outfitted with tables and chairs.

The Skiles Classroom Building will serve two purposes. By day, tables and chairs in the breezeways will help to create the Village Coffee House. At night, the building will become the Village Dance Club, complete with music and an appropriate atmosphere.

The Instructional Center, with its large sloping classrooms, will be the site of the Village Cinemas, showing movies from around the world. The Language Services Center and Sports Information Center will also be housed in the complex.

Peter's Parking Deck will be outfitted with security cages for storage. Each attending country will have a secure location in which to store equipment and other belongings.

The Textiles Engineering building, initially slated to be removed before the Games, will be NBC's broadcasting hub. NBC's "Today Show" will be broadcast live from the site while the Village is open.

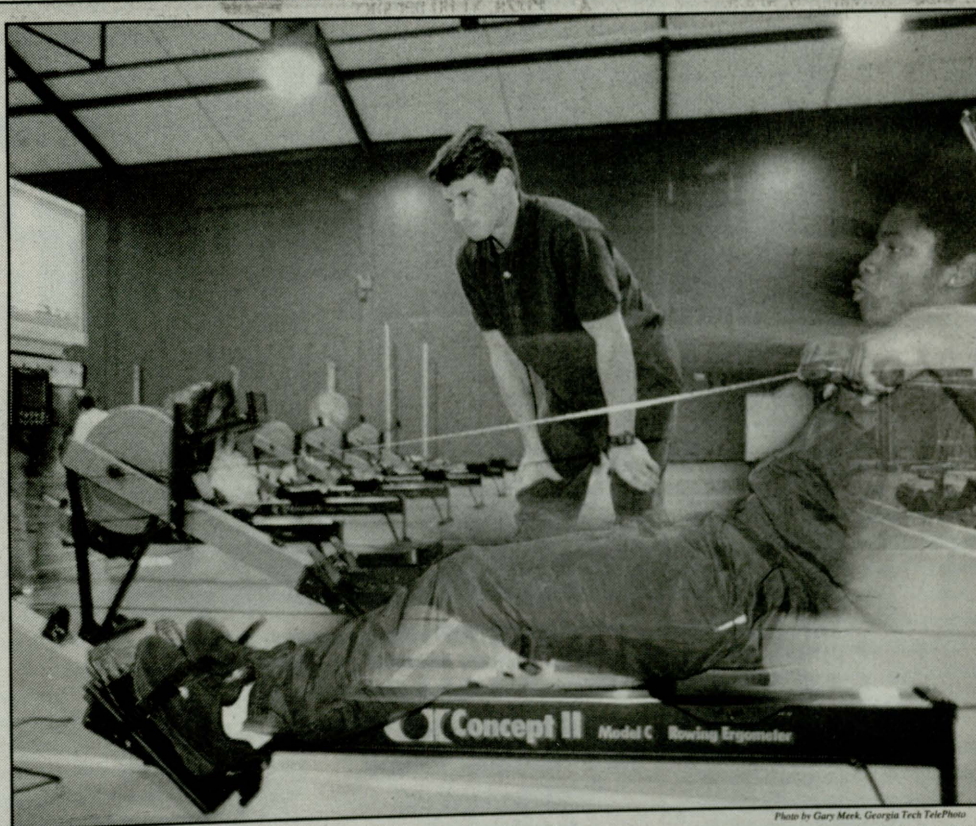

The Student Center, Student Services and the bookstore area is critical to the success of the Village. Some of the existing merchants will be relocated in order to make way for a variety of shops offering everything from flowers to Olympic souvenirs to haircuts. The Student Services Building will become a sort of "City Hall" where Village officials will have offices. Athletes and other visitors will be able to take advantage of Georgia Tech's existing Student Center recreation area as well.

Swimming anyone?

As all members of the Georgia Tech community know, the new Georgia Tech Aquatic Center will host Olympic swimming, diving, synchronized swimming and water polo. However, athletes who want to get a break from the Atlanta heat between competitions can use a recreational pool that will be built into the large grassy area between the Boggs Chemistry Building and the Instructional Center.

Clearly, the campus will be a different place during the summer of 1996. ACOG, of course, is responsible for restoring all landscapes and buildings back to its initial state before fall quarter begins — unfortunate news for those who might like to enjoy a spot of tea, a quick tango, or a dip in the pool during business hours.

ACOG has created a model depicting the campus during the Olympics. The Village model will be on display in the Student Success Center soon.

Recently, students from Atlanta schools were able to "get their feet wet" in a non-traditional sport program, rowing, here at Tech. Georgia Tech coaches and crew members instructed the kids on the basics and plan to get them on the water this summer in a week-long clinic. This effort is a productive partnership between ACOG, the rowing machine company, Concept II, the Carter Center's Atlanta Project, Atlanta City schools and the Georgia Tech crew. Initiated by Patrick Mahoney, director of Constituency Information Systems, and Thomas Hamall, director of University Partnerships, the new program illustrates the positive impact of students and staff working together to help the community. Rob Canavan, with GT Crew, coaches one of the participants.

CLASSIFIED ADS

APPLIANCES

Samsung microwave oven, perfect for dorm room or lounge, \$75. Call Sallylyn at 760-9572.

Whirlpool refrigerator, 18 cubic feet, double doors on top, freezer below, almond color, 12 years old, good condition, \$125. Call 894-5007 (w), or 914-9490 (h).

AUTOMOBILES

1974 VW Beetle, runs well, needs minor body work, a new floor and paint. Excellent restoration potential. Well-kept mechanically and driven regularly, all shop manuals, and the *Idiot's Guide to VW Repair*, \$700. Call 373-9835 or e-mail: allyana@cc.gatech.edu

1965 Ford F-100 pick up, short wheel base, straight shift, 352 cu. in. 2 barrel, all original, \$1,800. Call Vicki 941-3571.

1976 Dodge B-100 work van, slant-six engine, good gas mileage, \$600. Call Vicki 941-3571.

1971 Mercedes 250 4-door sedan, 6-cylinder gas, blue, PS, PB, AT, AC, 160,000 miles, original owner, records, manuals, parts, new paint, well-maintained, very

good condition, \$3,200. Call 894-9329 or e-mail: paul.sanders@cad.gatech.edu

1985 Subaru GL, 5-speed, 122,000 miles, power windows and locks, AM/FM, interior in good condition, body has some dents, \$650. Call Kitty 894-9497 or e-mail: kitty.vogt@gcatt.gatech.edu

1989 Oldsmobile Cutlass Calais, red, sport detailing, sun roof, automatic, AC, sound system. Excellent condition, new battery, recent tune-up, 86,000 miles, asking \$5,000. Call 816-5225.

1987 Chevrolet Spectrum, burgundy, 130,000 miles, good gas mileage, needs some mechanical work, \$450. Call 466-3771 evenings and weekends or e-mail: jennifer.mcqueen@vpea.gatech.edu

1989 Pontiac LeMans, white, 2-door hatchback, 4 cyl., 5-speed, AC, AM/FM cassette, 88,500 miles, \$1,000, must sell. Call Fred, 894-7052(w), or 724-0196(h).

1988 Mitsubishi truck, 5-speed transmission, short bed, regular cab, racing stripes, factory installed sun roof, AM/FM cassette, good mechanical condition, 134,000 miles, asking price \$2,300. Call Geoving Gerard

or Joseph Pierre 894-4439 (w) or 288-8169 (h).

1984 Ford LTD, white w/blue interior, 120,000 miles, mechanically sound, new brakes, power steering, dependable transportation, \$750. Call 466-3771 evenings and weekends or e-mail: jennifer.mcqueen@vpea.gatech.edu

COMPUTER EQUIPMENT

Sharp Wizard (128KB) electronic organizer, with DOS software and interface cabling, all manuals included, \$125. Call Jim Scheer 528-7689, or e-mail: jim.scheer@gttri.gatech.edu.

Mac Classic II 4/80, barely used still in box. Bought new 10 months ago. Make an offer. Call Kevin 853-2995.

Wanted: notebook/laptop 386 or 486, monochrome display. Call Harrie Buswell 894-4017 (w) or 476-0368 (h).

FURNITURE

Oriental reproduction coffee table (40 in. x 40 in., 16 in. ht.) solid two tone wood, curved legs; 4 beveled glass inserts. Good condition, \$300. Call 373-9835 or e-mail: allyana@cc.gatech.edu.

REAL ESTATE

House for sale by owner, Collier Hills, 2 BR, 2 BA, separate DR, LR w/fireplace, 2 dens (one with a stucco fireplace), deck w/ built-in gas grill, private back yard, new kitchen, full basement with garage. Minutes from downtown, Georgia Tech, Bobby Jones golf course and the Arts Center. Call 351-9834 or e-mail: bruno@math.gatech.edu

House for sale, College Park, brick split-level, 3 BR, 2 BA upstairs w/ garage apartment (1 BR/BA) below, totaling 2,300 sq. ft. Also has LR/DR, den w/fireplace, deck and screened-in porch overlooking big back yard, asking \$77,900. Call Bob at 894-8953 (w), 969-8114 (h), or e-mail: bob.utterback@gttri.gatech.edu

Lot for sale, on Lake Hartwell (Georgia side); 80 ft. x 200 ft., near water; nice area, asking \$10,000. Call Larry at 427-2007 (h) after 5:00 p.m., or 894-2284 (w).

MISCELLANEOUS

Beautiful wedding gown, size 10, tailored, chapel length, off-the-shoulder elbow length sleeves, lace applique, \$325 was \$1,300. Call 894-2921.

White Bodyguard stationary bike, two years old, good condition, \$200 or best offer, paid \$350. Call 894-3082 (w) or 244-0728 (h).

Wanted: small refrigerator. Call Sallylyn at 760-9572.

Found: several weeks ago in the College of Architecture parking lot, a bag containing ear phones and other items. Call to identify, 523-8067, day or evening.

Free room and board in exchange for child care: Georgia Tech professor and professional spouse offer room and board in great neighborhood 10 minutes from Tech in exchange for child care from 2:30 - 6:30 p.m. Monday through Friday. Own room, television, stereo, phone. One 5 year-old girl. Start in June for summer, fall/winter/spring possible. Child care experience required. Contact Patrick O'Heffernan 853-0142 (w), or Lynn Gutstadt at 827-1436 (w) or 873-1665 (h).

PEOPLE IN THE NEWS

SCHOOL OF ELECTRICAL AND COMPUTER ENGINEERING

S.B. Wicker, associate professor, was appointed to the post of editor for "Coding and Communications Theory," for the *IEEE Transactions on Communications*.

Rao Tummala, director of the Packaging Research Center, was named by *Industry Week* as one of 50 R&D stars in the U.S. whose achievements are shaping the future of our industrial culture and America's technology policy.

SCHOOL OF MECHANICAL ENGINEERING

Charles Ume, associate professor, has been elected a senior member of the Institute of Electrical and Electronics Engineers, Inc. Senior member is the highest professional

grade for which application may be made and requires experience reflecting professional maturity. Only 8 percent of the 320,000 members have been elected to this level.

Steve Tsai, (l) and Tom Kemp, (r) are strong competitors in Junior's hamburger eating contest. Juniors held the contest to celebrate its first anniversary of operating in its new location on campus.
