## Q&A with Head Coach Alan Drosky

*Last season, both the men's and women's teams showed improvement from the year before, how do you build on that and continue to get better?*

"We did see some improvement last year in both the men and the women, but we still have a lot of work to do. The women were a solid team last season and showed some decent depth. That will be our challenge for the women this year. We have a solid group up front but we'll need two or three women to really step up in a big way if we are going to be a good team. Our preseason South Region ranking is sixth, and I think we can be a little better than that, but we need to be stronger all the way back to our sixth and seventh runners. The men are a vastly improved team but there is still a lot of improvement left. Our roster is much stronger and much deeper than in the last several years. The men did a great job preparing for the season on their own during the summer. Ranked twelfth in the South Region preseason rankings, I think there is great opportunity for the men to surpass that. For both teams, we continue to get better by developing the individuals currently on our roster and by stepping up our efforts in recruiting better cross country athletes."

*Both the men and women enter the season with some senior leadership, what do you expect from these individuals this season?*

"This year we will have very mature and proven individuals leading both squads. It's a group that has improved steadily throughout their careers and we'll look for them to continue getting better. We also need them to play a role in setting an example for our younger student-athletes. On the men's side, David Herren and Cristan Duvall have both had some ups and downs during their careers. David has matured into a steady leader and it's great to see Cristan at this point in his career where he is more focused than ever. For the women, we have four seniors who are very talented and set a great example every day at practice. They are a very motivated and disciplined group and they'll work very hard this year to end their careers on the highest note."

*What are your expectations for the men and women for this season?*

We expect the men to be much more competitive this season. We've been young and inexperienced over the last few years and haven't been able to put our best team on the course. This year we've got a great mix of some veteran leadership and some young developing runners. In the preseason, we're significantly ahead of where we've been in previous years and the attitude of the team is fantastic. We have some good talent up front and much more quality depth. The women have a chance to be a really good team but with much less margin for error. We have good strength up front and some good potential behind that front group. Hopefully throughout the season we'll be able to strengthen the middle part of our line-up.

*What is your outlook on the ACC?*

The ACC has been one of the premier conferences in the NCAA for cross country and I expect this year to be no different. Last year, eight women's teams qualified for the thirty-one team field at the NCAA National Championship. In this year's preseason poll, six conference schools are ranked in the top thirty. While the men's side of the conference has not been as strong overall as the women over the last few years, the conference is still filled with some outstanding programs. So it's a great opportunity for us to be able to line up and compete in the ACC.

# COACHING STAFF

## ALAN DROSKY HEAD COACH

Alan Drosky enters his 17th year as the head coach of the men's and women's cross country teams at Georgia Tech.

In addition, he will be in his 13th year as the head coach of the Georgia Tech women's track and field team, which captured its first-ever Atlantic Coast Conference indoor title in 2002. He also oversees the distance runners for the men's track team.

Drosky was inducted into the Georgia Tech Athletic Hall of Fame in 1996 after a distinguished career as a Yellow Jacket cross country and track and field standout from 1985-87.

Drosky, a two-time All-American and five-time All-ACC track performer, became an assistant coach at the Institute in December of 1990. He served as a graduate assistant in the Tech track and field program from 1987-89, earning a master's degree in management. He received a bachelor of science degree in industrial management in 1987.

During his cross country tenure, Drosky has coached three NCAA All-Americans and six NCAA qualifiers, which represented the first in each category for the Tech program. In addition, he has had 30 All-South Region selections and 10 All-ACC performers. In 1993, Ray Raparelli and Kevin Graham both qualified for the NCAA Cross Country Championships. A year later, Graham earned a return trip to the NCAAs and All-America honors. In 1995, Beth Mallory became the first Yellow Jacket woman to qualify for the NCAA Championships and she earned All-America honors that season. Mallory qualified again in 1996. Current assistant coach Becky Megesi became the second women's athlete to qualify for the NCAAs in 1998. In 2001, Renee Metivier earned All-America honors, finishing second at the NCAA Championships after winning the NCAA South Region title.

Drosky's teams have also had success, after recording the highest ACC and South Regional finishes in Institute history. In 1994, both the men and women's team finished third in the ACC meet. In 2001, both teams made their best showings at the regional level. The women brought home the program's first regional title, while the men placed fourth, just missing a trip to the NCAA Championships. The women's squad made their second consecutive trip to the national championship, placing 26th. The

Jackets finished 31st in their first trip to the meet in 2000.

In 2001, Drosky was named South Region Coach of the Year by the U.S. Track Coaches Association. He also earned ACC Coach of the Year honors for indoor track in 2002.

Drosky is recognized as one of the most outstanding distance performers in Tech history. He competed on the Yellow Jackets' cross country and track and field teams from 1985-87, serving as captain three times.

Drosky earned All-America honors twice at the NCAA Championships, finishing sixth in the indoor mile in 1986 and 12th in the outdoor 1500 meters in '87. He was also crowned 1987 Atlantic Coast Conference champion in the indoor mile.

A native of Riverdale, Ga., and a former Georgia state champion in the mile at Riverdale High School, Drosky is married to the former Kim Bohanon, who ran cross country at Georgia State. The couple has two daughters: Hayley, 15, and Hannah, 12.

## BECKY MEGESI ASSISTANT COACH

One of the top middle distance runners in Tech history, Becky Megesi enters her seventh year as an assistant for the Jackets cross country and track teams. She primarily works with the distance runners as well as the cross country teams for both men and women. Additionally, she handles many administrative functions as well as being in charge of recruiting the women's distance events.

As an athlete, Megesi garnered All-America honors in the 1500 meters, finishing eighth at the 1999 NCAA Outdoor Championships in Boise, Idaho. She again earned All-America honors in 2000, anchoring Tech's distance medley relay to a seventh-place finish at the NCAA Indoor Championships in Fayetteville, Ark. Megesi also qualified for the outdoor NCAA meets in 1999 and 2000 in the 800. In 1998, she became the third Tech individual qualifier for the NCAA Cross Country Championships in Lawrence, Kan. In 2000, Megesi was a qualifier for the U.S. Olympic Trials in the 800 meters.

Megesi won ACC Championships in the 1500 in 1998 and '99, earning All-ACC honors six times during her career. She currently holds school records in the outdoor 800 (2:04.63), the indoor DMR (11:21.48), and the outdoor 4x800m relay (8:56.94).

She earned a Bachelor of Science in Management in 2001.
