Koseme Society Elects Seven Men

To Recognize Leadership Is Purpose of Honorary

By Joe Heard

At a recent election meeting, seven outstanding men were elected to Koseme Society, local junior class leadership honorary society. The men are John R. Harwell, Cab Childress, Oscar V. Hefner, Bobby Elder, Scott Shaw, Fowler Low, and Charles (Chip) Ritchie. The purpose of Koseme is to recognize students who have demonstrated superior qualities of leadership, to encourage these qualities in other students so as to make them better men, and to encourage better faculty-student and inter-student relations. Since its foundation in 1938, one of the best known projects of the organization has been the quarterly publication of course offerings and instructors.

John Harwell

Harwell was secretary-treasurer of his sophomore class, a member of the T Club, a member of Alpha Tau Omega social fraternity, a member of the Ramblin' Reck Club and has played freshmen and varsity basketball for two years.

Cab Childress

A member of Phi Delta Theta social fraternity, Cab Childress is also a member of Scabbard and Blade, Student Council, Tau Beta Pi, Architectural Society, Student Trial Board, and is co-captain of the swimming team.

Oscar Hefner

Hefner's scope of activities cover the Technique, Blue Print, Drama-Tech, Management Club, Marketing Club, University Christian Mission Council, Westminster Fellowship Council, and was a member of the freshmen swimming team. Oscar is a member of Phi Eta Sigma, Delta Tau Delta social fraternity, and the Bulldog Club.

Bobby Elder

Bobby Elder is a member of Alpha Tau Omega social fraternity, a member of the Ramblin' Reck Club, Arnold Air Society, Scabbard and Blade, Tau Beta Pi, treasurer of Phi Eta Sigma, secretary of Eta Kappa Nu, president

of the Institute of Radio Engineers, co-captain of the gym team, executive commander in Air R.O.T.C., a member of the Engineer staff and a varsity cheerleader.

Scott Shaw

Scott Shaw is a member of the Student Council, the Student Trial Board, the Tech Management Club, and is treasurer of Kappa Alpha social fraternity.

Charles Ritchie

Ritchie was vice-president of his freshman class, member of the Student Council, member of the Ramblin' Reck Club, Alpha Phi Omega service fraternity, World Student Service Fund committee,

(Continued on page 4)

Ralph Marterie and his "Down Beat" Orchestra has been chosen to play for the IFC Week-end.

Week-end of April 24-25 Named for Annual Event

The Georgia Tech Interfraternity Council has named April 24 and 25 as the dates of the annual IFC Spring Week-end. Ralph Marterie, a promising bandleader of today, and his orchestra have been contracted to play for Tech fraternity men on the annual event. To entertain Techmen Gini Patton, who is the featured vocalist with Marterie's orchestra, will also be on hand.

The Week-end

As in past years, the dances will be held on Friday and Saturday. There will be an informal dance on Friday night and a formal dance on Saturday night. A highlight of the week-end will be the concert held on Saturday afternoon. The locations for the events will also remain the same as before with the informal dance being held on the tennis courts across the street from the gym, the concert in the gym, and the formal dance in the Atlanta Municipal Auditorium.

Harold McKenzie, President of the Interfraternity Council, appointed Charles Groover and Jerry Lavinsky as co-chairmen of the week-end. The other members of the committee are George Rabstajnek, Cliff McConnell, Bill Perrine, John Alderman, Tom Alnutt, Bob McTyer, Bill Cashin, and Dave Donald. The first committee meeting was held on Tuesday night. Sub-committees were formed for arrangements of the formal, in-

Down Beat

The magazine "Down Beat" recently displayed headlines saying, "Colleges Call Marterie No. 1." The publication chose the "Marterie band to spark nationwide promotion," that will "attempt to bring dancing at the college and high school level back to the heights at once knew." Down Beat further stated that "we have, after making a survey of major schools throughout the country, selected a band which, because of its already great popularity in these schools, will be used as one of the chief instruments in the campaign. The band is the Ralph Marterie orchestra, to be known henceforth as Ralph Marterie and his 'Down Beat' Orchestra."

Last spring Down Beat reviewed the Marterie band and predicted then that by the end of 1952 it would emerge as one of the outstanding new bands of the year. "It has done nothing since to disprove this prediction; the band seems headed in just one direction—up."

Football Ticket Price Raise Announced by Athletic Board

The Athletic Association Board voted unanimously to increase the price of football tickets for the 1953 season Wednesday afternoon. The increase in prices, however, will not affect students, faculty or employee purchasers, said Coach Bobby Dodd.

Price increases will be in effect for all six home games to be played at Grant field. For the first home game with SMU on October 3, East and West stand tickets will sell for \$4.80 and South stand tickets for \$4.30. The same prices will apply for the next home game on October 17 with Auburn, and on November 21, when Tech plays Duke here.

Tickets for the Davidson game will be sold for \$3.50 in the East and West stands, and \$2.50 in the South stands. For the Clemson

game on November 7, prices will be \$4.30 and \$3.60.

The Georgia game, usually a sellout, will be played here November 28; all tickets to this clash will be sold for \$4.80. All of the prices quoted above include tax.

Coach Dodd stated that the increase in prices is due to rising costs of items used by the football team. "Everything connected with football has gone up, but we haven't raised the price of tickets," he said.

The board also voted to start all home games at 2:30 p.m. Local newspapers had requested that the starting time be moved up to 2 p.m., but the board felt that for the good of others concerned, the earlier time was inadvisable.

AFROTC Plays Host To Explorer Scouts For Day On Campus

The Air Force R.O.T.C. is playing host today to a group of 500 Explorer Scouts from Atlanta and surrounding area. During their visit at Tech, the scouts will have the opportunity to see the various exhibits of Engineers' Week and make a complete tour of the campus.

After having lunch at the College Inn, they will hear a welcoming address delivered by Cherry L. Emerson, National Vice-President of the Boy Scouts. Mr.

(Continued on page 4)

Latin American Students To Organize New Group

By Rudy Matzner

The Latin American Students' Club, dormant since the fall of 1951, is now being reorganized and will hold a general meeting Saturday, March 7, at 1:00 p.m. in the Georgia Tech YMCA. The meeting will be open to all Latin American students on the campus. At this time a permanent slate of officers will be chosen and plans will be made for future activities of the club.

Big Plans

A group including provisional officers Felix Garcia, president and Juan Prieto, vice-president have already made plans that include several programs of interest to prospective members. It is hoped that a social function, consisting of a fiesta complete with Latin American music, will be held soon.

The club is also forming soccer teams. Soccer is a favorite sport "south of the border," and is played to some extent in this country, but the nearest team to Tech is at Duke University. The Latin American Club hopes to sponsor a soccer tournament here and eventually to get soccer included in the Georgia Tech sports program.

Purpose

A major purpose of the club will be to foster international cooperation and good will. The club will seek to help Latin American boys orient themselves to student

life at Georgia Tech. There are over a hundred and twenty students from practically every country of Latin America now attending Georgia Tech, and all are eligible for membership in the club.

Before the club was disbanded a year and a half ago, it sent Tech faculty members on trips to Latin American countries each year, in line with the private "Good Neighbor" policy of the club. Organized in 1944, the original Latin American Club owned a house on the campus. The constitution of the club is still in existence, and its revision will be one of the main topics of business at the meeting Saturday, March 7.

Ring Orders

Orders for 1953 rings will be taken at the College Inn Monday, March 2, from 9 a.m. to 3 p.m. This will be the last day to place orders for rings to be delivered before the end of the Spring quarter.

University Christian Mission Will Visit Here In April

Plans for the Georgia Tech Christian Mission are progressing rapidly as the date of the mission, April 26-30, grows closer. An outstanding group of speakers has been selected to put over the theme: "Wanted—A Faith to Live By," and to achieve the objectives of the mission.

Dr. Overman

Typical of the speakers who have agreed to come at the request of an interdenominational council of faculty and students, headed by honorary chairman Col. Blake R. Van Leer, is Dr. Ralph T. Overman. Dr. Overman is at present chairman of the Special Training Division of the Oak Ridge Institute of Nuclear Studies. This post is the culmination of many scientific honors and achievements which he has achieved at the age of 33. In 1945 Dr. Overman joined the staff of the Oak Ridge National Laboratory as senior research chemist in charge of radiochem-

ical measurements and aided in setting up the program for production of radioisotopes. He was then 25 years old. Dr. Overman became Chairman of the Special Training Division of the Oak Ridge Institute of Nuclear Studies in 1948.

Achievements

One of Oak Ridge's best known citizens, the young chemist has been a troop leader in the Boy Scouts, is a trustee of the First Baptist Church, church organist, plays string bass in the Oak Ridge Symphony Orchestra, is a member of the Oak Ridge Athletic Of-

Clarification

More On Proctoring

On February 10 we published an editorial calling attention to a cheating case in the Chemistry department and criticizing the manner in which the offenders were caught. Since that time we've heard numerous comments about the whole affair, and it seems that more should be said in the interest of presenting a more complete picture.

First it must be understood that it is not the policy of Georgia Tech or any department here to use spies to detect cheating. There seems to be general agreement (though not unanimous) that such methods are undesirable.

Concerning this particular case, satisfactory proof exists that the student proctor did not sit in a desk during the quiz and work the problems. But our criticism still seems justifiable since the student was not known to be a proctor to many in the class.

Arriving after the exam had started, the proctor took a post at the rear of the room. Several times he walked to the front of the room and spoke briefly with the instructor, returning each time to the back of the lecture hall. More than a hundred students were present taking the exam.

He did not accompany the instructor to confiscate the paper of the first cheater caught, but pointed out the offender from his post, unseen by some. Shortly thereafter a second student was caught using a "pony."

For his actions, the proctor became known as "The Spy" to that class. The term did not originate with us.

Such circumstances are not good for the school. Our interest here is not for the cheaters' welfare, but for that of the students who play fair and the good name of Georgia Tech.

We favor the use of proctors to prevent cheating, but we maintain that all should be aware of their presence. Fouls are not always intentional; we would urge all student proctors and instructors who use proctors to take care in the performance of their duties.

Council Minutes

February 24, 1953.

The meeting was called to order at 6:55 by President Blitch with George Adams, Dilts, Hull, Shelly, and White absent. Hanner, NSA committee chairman, reported that the heads of each department are being contacted to obtain support and cooperation in the revision of the faculty rating sheets.

Bigger announced the forthcoming "Faculty Fracas" and urged everyone to attend this function. All proceeds will be donated to the World Student Fund.

Ed Adams, Religious committee chairman, reported on the organizational lunch and meeting held to discuss "Religious Emphasis" week. Mr. John Miller was guest speaker.

President Blitch reported that the last meeting of the Concert and Lecture committee was unsuccessful, but that another meeting is scheduled for March 2 at 7 o'clock in the Council lounge.

President Blitch appointed an NSA Regional Leadership Training committee for the Great Southern region. Members appointed are: Tom Newberry, John Hunsinger, Scott Shaw, and Virgil Tedder.

Bennett complained about students flying model airplanes on the campus. The complaint was referred to the Welfare committee.

There being no further business the meeting was adjourned at 7:15 p. m. Respectfully submitted, Lane Middleton, secretary.

Foreign Service Exams Announced By State Dept.

The U. S. Department of State has recently announced the annual examination for appointment as Class 6, Foreign Service Officer. The examination will be held September 14-17, 1953, at eighteen principal cities in the U. S., including Atlanta.

Appointments are made in the \$4,000 to \$5,000 per annum salary range after successful completion of written, oral, and physical examinations. Candidates must be at least 20 and under 31 years of age as of July 1, 1953, a citizen of the United States, and if married, married to an American citizen.

Application forms and additional information may be obtained by writing to the Division of Recruitment, U. S. Department of State, Washington, D. C.

College Morals Subject Of Student Opinion Poll

Collegiate morals are higher than the popular stereotype suggests, according to a recent poll conducted by the Associated Collegiate Press. The poll indicates that the vast majority of college students are against drinking in late hours on dates. The poll also seemed to show more strict morals among female students on these matters than among male students.

When questioned on the subject of drinking in college dormitories, 75 per cent expressed the opinion that it should not be allowed, as apposed to 16 per cent who thought it should be allowed. 6 per cent expressed no opinion, while 3 per cent qualified their answers.

Answers Explained

An engineering freshman at Southeastern Missouri State College thinks dormitory drinking should be allowed, because it "would keep them out of trouble in taverns." The typical co-ed comment seemed to be, "I don't believe in drinking, period." Only 12 per cent of the women questioned are for dorm drinking; 82 per cent are against it.

"The more restrictions that are imposed, the more people will want to break them. College students should be treated like adults," said a business student at Richmond Professional Institute, Va.

Late Dating?

One a.m. appears to be the most popular hour for getting a girl back to her dormitory after a Saturday-night date, with 2 a.m. being a not very close second. Students were asked: "In your opinion, at what hour on a Saturday night should a co-ed be required to get back to her dormitory?" The answers:

By midnight or before	14 per cent
By 1 a.m.	45 per cent
By 2 a.m.	24 per cent
After 2 a.m.	8 per cent
No opinion	4 per cent
Other	5 per cent

Many of the students were care-

ful to qualify their answers with an "except on special occasions," or "unless there's a big dance."

A male junior at the University of the South, Sewanee, Tenn., was quoted as saying, "After 2 a.m., WAY after."

Textile Fraternity Conducts Initiation

Theta chapter of Delta Kappa Phi, national honorary textile fraternity, initiated four new members Thursday evening recently, in ceremonies held in the auditorium of the Harrison Hightower Textile building. The new members are Leonard J. Challain, William A. Murauskas, John M. Miller and William A. Weil.

To be eligible for election to membership in Delta Kappa Phi a student must be a junior, senior, or graduate enrolled in the Textile department, and must have a general point average above 2.5. Eligible candidates are elected to membership on the basis of character, integrity, and leadership qualities. The objects of the fraternity are to promote interest in textile engineering as a profession, and to function as a service organization in assisting the textile students at Tech. Delta Kappa Phi is the oldest honorary textile fraternity in this country, having been established in 1899 and incorporated in 1905.

Following the initiation ceremonies, a dinner dance was held for all members and their guests. The guest speaker for the evening was Dr. James A. Stanfield, Associate Professor in the Chemistry department.

"Most Interesting Spring Practice" Predicted by Coach Bobby Dodd

By Russ McDonough

The most important spring football practice in recent years at Georgia Tech will begin the first day of the Spring quarter, Monday, March 30. In Coach Bobby Dodd's opinion, "It will be the most interesting spring practice of my career here at Tech."

All boys on the team will be required to report for the spring workouts and Coach Dodd says that they will have to work harder than they ever have before. It has been the practice of past seasons to excuse all boys from spring practice who wanted to play another sport, all who would be graduating seniors the following year, and some of the better players who didn't particularly need the workout. But this year things will be different.

The Reason

The reason for this change is that two-platoon ball will no longer be allowed under the new NCAA ruling. Coach Dodd feels that this will hurt Tech more than the average school due to the fact that the Yellow Jackets had used the two platoon system entirely for the past two years. Every player now has to be taught to play both offense and defense. The coaching staff also believes that a team operating from the T-formation, as Tech does, will have more trouble converting under the new rule than will a team that uses the single wing or split-T formations. This is because the T-quarterback has to do very little running and therefore is not as well qualified to play a defensive back's position as is a quarterback under one of the other systems.

Four Weeks

Four weeks of practice from Monday through Friday are on schedule for the footballers with intrasquad games probably twice a week. Dodd feels that this is the best possible way that he can judge a boy's ability to perform under the new ruling. He has seen few of the team play both offense and defense and therefore doesn't know how they will stack up when

in the game with either team on the attack. The final intrasquad game will be held Friday night, April 24, under the lights of Grant Field. The squad will be split into two even teams to make the contest a hard-fought one.

The big problem now appears to be to find offensive backfield men who can satisfactorily handle the defensive backfield chores. With such passers as Zeke Bratkowski in the SEC, the Jackets are indeed concerned about their aerial defenders. The coaches will also be on the look-out for another punter to share the duties with end Dave Davis. The extra pointing will probably be done by quarterback Pepper Rodgers and fullback Glenn Turner.

Who Starts?

When asked to give an idea as to who might be holding down the eleven starting berths Coach Dodd said, "I have no idea who will be starting where. After spring practice I can tell you more about it. Ordinarily I could tell you almost to the last man who would definitely start next year, but not after this rule change." As to whether or not he would get to use his specialists next year he replied, "That's something else that we

don't know about. We will definitely use them some but to what degree I don't know. It will depend partly on how well they can develop into all-around players."

When asked as to who would be the teams to beat in the SEC, Dodd picked Alabama, Tennessee, Georgia, and Ole Miss. "We definitely would have been one of the best teams in the conference in 1953 if the two platoon rule were still in effect but as it is now we will be somewhere among the top four or five teams in the conference."

Tennis Squad Prepares For '53 Campaign

The tennis team of Georgia Tech will begin practice sessions on Monday, March 2 in preparation for the 1953 season, which will open on March 26 in Valdosta, Georgia, with a match with Georgia State College. Professor Earle Bortell of the Physics department, tennis coach, urges anyone interested to come out for the team on Monday at 4 p.m.

Professor Bortell has four men returning to this year's squad: Mack McAllister, Rod Lee, Julian

(Continued on page 4)

Tulane Five Tops Jackets

Tulane's Green Wave rolled to an easy 70-55 victory over the Georgia Tech cagers Monday night in New Orleans. The loss ended the season for the men in Gold and White because the Loyola game scheduled for Friday in Chicago was cancelled this week. Thus Coach Whack Hyder's squad finished the campaign with a record of four Southeastern Conference victories and nine losses. Overall the Ramblin' Recks compiled a five won and 17 lost record.

Scorers

Guard Dick McGowan swished the nets for twenty points to capture the scoring honors in the fray. It was the Greenie player's best effort of the year. Pete Silas once again led the Jackets' offensive attack by pushing 16 points through the hoops. The lanky Miamian was the only Tech man to hit double figures in the game. Howard Snead fired nine points through the baskets while forward Gene Anderson and guard Eric Crake each scored seven points.

The Game

Tulane jumped out in front by a 10-2 margin early in the first

quarter, but the battling Ramblin' Recks (Continued on page 4)

Thinclads Invade Tarheel Country For UNC Meet

The Georgia Tech 1953 track season gets under way Saturday afternoon when Coach Norris Dean's runners travel to Chapel Hill, North Carolina to meet the Tarheels of UNC in an indoor meet. Coach Dean has a small squad this year that lacks experience. There will be eight men who will make the trip to Chapel Hill. Hugh Tannehill and Earl Gilbreath will run the 880, Ray Cooper and Bill Skinner will run the mile, Frank Rust and Cecil Davis the hurdles, Mike Cady the relay and Harry Wright, who has just returned from the national AAU meet in New York, will run the 60-yard dash.

The track team has seven regular meets scheduled and the SEC and AAU meets.

The Schedule

Saturday, February 28—Indoor Meet, Chapel Hill, N. C.
Saturday, March 28—Florida Relays, Gainesville, Fla.
Saturday, April 4—Southern Relays, Birmingham, Ala.
Saturday, April 11—Florida, Atlanta, Ga.
Saturday, April 18—Georgia-FSU, Athens, Ga.
Saturday, May 2—Auburn, Auburn, Ala.
Saturday, May 9—Alabama, Atlanta, Ga.
Saturday, May 16—SEC Meet, Birmingham, Ala.
Saturday, May 23—AAU Meet, Atlanta, Ga.

Debate Squad Visits FSU

The M. L. Brittain Debating Society ran into the strongest debating teams it has met this year in the Great Eastern Tournament at Tallahassee, Florida last weekend.

The Tech team met Miami University, University of Florida, and FSU, who made a clean sweep of the tournament by finishing first, second and third respectively. Tech tied with Emory for fourth place position. However, to give an idea

Air Force—
