"Y" Publishes Nominations For 1941-42 Cabinet Officers

Three to Be Chosen from Group by Students
In School-Wide Election Monday, March 31

Nominees for officers of the Tech Y.M.C.A. have been selected and the date of the election set as Monday, March 31. As usual, ballots will be distributed in all classes.

The three officers are elected from the upperclassmen, the president, a senior; the vice-president, a junior; and the secretary, a sophomore.

Military Seniors Likely to See Service After Graduation

Supply of Reserves
Soon to Be Exhausted

At the present time the chances for employment for the Senior military students upon graduation seem very good. Colonel Gross, Professor of Military Science and Tactics, stated this week that he felt sure that practically all of the Seniors who are to receive reserve commissions will see at least a year of active duty. Although there are still many Infantry reserve officers who have not been called under arms, the Coast Artillery Corps has called into service all of the available reserve lieutenants and captains.

To Get Deferment

The military department has had the Seniors who plan to seek deferment fill out the proper forms which will go to corps area headquarters for consideration. Only those who seek deferment that they may finish work remaining to be completed for graduation have had their applications endorsed by the Tech Military Department. This policy may not be followed by the corps area commanders in permitting deferments. It is believed that the government may not regard as indispensable to industry men without whom industry has functioned these many years, and so this may not be permitted as a sufficient cause for deferment.

Permanent Commissions

Of the graduating Seniors, a few of the ten who have been recommended for permanent commission are likely to receive them. This is because there are many more men applying for permanent commission than there are places to be filled. A few more may be granted permanent commissions at the completion of a year's service under the Thomason Act. The rest of the Seniors will probably see a year or more of service as reserve officers.

The nominees are:

PRESIDENT

W. B. (Bill) Bennet, Cordele, Ga.; chemistry, freshman "Y" Council, Wednesday "Y" meetings, Bible study groups, member and secretary of A.P.O., and member of First Baptist Sunday school.

Chester Crowell, Cordele, Ga.; architecture, freshman, sophomore and junior "Y" experience, deputations, also member of A.P.O. and St. Mark Methodist Sunday school.

W. E. (Bill) Garrison, Covington, Ga.; Mechanical Engineering, Co-op, Freshman Council and upperclass groups. Past president of Young People's League at North Avenue Presbyterian Church.

VICE-PRESIDENT

Ken Greene, Miami, Fla.; Chem. Eng., Co-op, Freshman Council, Wednesday meetings, deputations.

Harry E. Murray, Crewe, Va.; General Engin.; Wednesday meetings, Bible study groups.

Edward Van Voorhees, Nashville, Tenn.; General Engineering, present secretary of Y.M.C.A.; freshman "Y" council, deputations.

SECRETARY

T. R. (Tom) McMurry, New Orleans, La.; A. E.; freshman "Y" council.

Kirk Nesbit, Savannah, Ga.; General Engineering, secretary of "Y" council first semester, president second semester, boys' club work.

Billy Stripling, Albany, Ga.; Electrical Engineering; vice-president freshman "Y" council, second semester.

Countryman Wong, Hartford, Connecticut; Electrical Engineering; secretary freshman "Y" council second semester, boys' club work.

Past NROTC Head Now Commands Destroyer Fleet

Commander H. E. Paddock, former executive officer of the Tech naval unit, is in command of the four destroyers now paying a "good will" visit to Auckland, New Zealand, British island possession in the South Pacific.

Accompanied by two 10,000-ton cruisers, the four new destroyers will remain "down under" for three days before returning to their Pearl Harbor base. The New Zealand visit was interpreted by military experts as a warning to Japan and another demonstration of Anglo-American solidarity.

Before leaving last June, Commander Paddock spent two years here at Tech. From his flagship, the *Case*, he is commanding the destroyer division which is now in New Zealand.

Courtesy of Constitution

IN COMMAND—The former executive officer of Tech's N.R.O.T.C. unit shown on the right is now in command of a U. S. "Good Will" destroyer division docked at Auckland, New Zealand. On the left of Commander H. E. Paddock is Commander Paul R. Coloney, commandant of Tech's Naval Unit.

COUNCIL CALLS MASS MEETING

Student Body to Vote on Change
In Constitution Next Thursday

The Student Council announces that a mass meeting of the entire Georgia Tech student body will be held at 11:00 a.m. on Thursday, March 27, in the Rose Bowl Field stands. All military students will be marched there and all other students are urged to attend this meeting in order to make the required majority that is necessary to vote on the revision of the constitution of the Student Council of the Georgia School of Technology.

For the past several months a council revision committee has been working and the changes recommended were accepted by the council and by the faculty through Dean Vernon Skiles. The changes to be brought before the students are small mostly clearing up details of elections of Co-op council representatives and other minor details. The object is to bring the Constitution up to date and to change the requirement that only mass meetings can amend the Constitution to, voting by classes can amend the Constitution.

Co-ops Elect DuTeil To Student Council

Outstanding Student Is
New Pre-Junior Member

The Student Council announces that last Monday in the Co-op election Claude F. DuTeil was elected as the pre-junior representative of the first Co-op section to the Student Council.

DuTeil is an outstanding member of the C.E. class of '43. He is a member of the Co-op Club, a varsity trackman, was president of the first section Co-op sophomore class, and made Phi Eta Sigma.

Under the new election by-laws recently passed by the Student Council, DuTeil will serve as the first section representative for two years since during that time his section is in school only nine months of the time the regulars are in session. He will become the senior representative automatically in July, 1942.

R.O.T.C. students will report to drill for instruction. Other students should be in Rose Bowl Field as soon as possible in order to complete the business in the allotted time. Military units will vote by companies through their commanding officers, with other students voting by a show of hands.

The *TECHNIQUE* is printing the revised form of the Constitution. Early next week copies will be posted on the campus for further student information and reference.

(Revised Constitution on page 6)

Swimmers from 12 Schools Gather Here for Conference Meet Today

By PAUL PLATZMAN

A horde of over half a hundred crack swimmers hailing from twelve college teams scattered throughout Dixieland will descend on Tech today and Saturday for the fifth annual Southeastern Conference tank meet.

This will be the second time that the Flats have been host to the visiting "Mermen" from such powerful teams as Louisiana State University, Auburn, Georgia, Kentucky, Tennessee, and an invincible Florida.

Hails to the victor will be for the Alligator squad from Gainesville, who have already put in reservations for the first place and the conference crown. The Floridians, undisputed champs, have captured all honors in 48 consecutive dual meets. Louisiana State trailed behind Florida by a scant 4 points in last year's conference tilt and will be paying a visit with essentially the same combination.

Dick Bates, the Yellow Jacket high individual point getter of the season, will set the pace for a sturdy Tech team. Bates will match strokes with Boo Percy, L. S. U.'s conference title holder in the 50- and 100-yard

Frosh 'Y' Council to Hear Lewis Gordon; Outing Is Planned

Mr. Lewis Gordon, vice-president in charge of public relations at the Citizens and Southern National Bank, will address the Freshman "Y" Council next Tuesday night at 6 o'clock in the O. D. K. Banquet Hall. Mr. Gordon will talk on a subject pertaining to vocational opportunities in engineering.

The "Y" Cabinet will hold an outing and picnic supper next Wednesday night at the Wofford Oil Company's Clubhouse. The group will leave at 6 o'clock and the members are invited to bring their dates.

OUR MOST WORTHWHILE TASK

Each of us realizes the effect of the war upon us as we open the morning newspaper, hoping to read of more British and Greek victories. The United States' sudden change of policy from one of appeasement and indifference to one of unlimited aid to Britain has started us thinking.

What will be our future? Am I, as an individual, wasting my time attending college only to find my efforts fruitless? Will I end up under a little white cross bearing the inscription, "Killed in action"? We shudder when we think pessimistically about the future. Our college education is of utmost importance in that we may equip ourselves to best serve our country in whatever capacity necessary.

Industry needs educated men. Companies that are engaged in defense production have positions open to graduates of all engineering fields. So let us realize the urgency of the present world crisis and assume a still more conscientious attitude toward our studies. Upon every one of us rests the welfare of the United States, because we are the government and we must cooperate with the people whom we have selected to represent us.

But what can we, as students, do? Although, at present, we cannot play a vital part in defense production, there is much we can do immediately. We who complacently sit back and think, "Let someone else be concerned, I'm not interested," should abandon this attitude of indifference. The war is an immensely pertinent problem to every person. We must help build up within ourselves the great spirit of America. Face this unprecedented crisis. Don't push the burden to someone else's shoulders.

Last Saturday evening, in a nation-wide broadcast, the President told us that we must be ready at any time not only to make sacrifices but also to tolerate many inconveniences. Let us not be reluctant in

complying with these requests; instead, let us be proud of the chance to help serve America in order that we may live in freedom.

Think in terms of a one-party nation and let the objective of this party be to retain democracy, for without complete unity we are defeated before we even start.

In short, let us think seriously about America and just what it means to us and let us be confident and proud to undertake the most worthwhile task in the world's history.

G. S. K.

Engineers Fight Modern Wars!

There is a story of a young engineer working for an industrial firm during the last war who let his patriotism override his intelligence to the extent that he quit his job and joined the army as a buck private. To his mortification he was soon back in the same plant doing the same job; but he was wearing a uniform, working for Uncle Sam, and receiving army wages.

Is it not more true today than ever before that *engineers are fighting our wars*? Is it not certain that the nation producing the largest quantity of superior war materials fastest is winning the present war? Who disagrees when he hears that well-trained intelligent engineers produced the most deadly war machine ever seen on this earth? And who will dispute that our national technicians will have to produce just such an effective force to resist a ruthless aggression?

It is regrettable, as it is paradoxical, that we have to thank the very sciences that have made civilization what it is; for the impending destruction threatening to blast our present democracies and the world into chaos.

What can we do? That is the question. As students we should study the thoughts of men and the religious philosophies that combat such murderous tendencies in mankind. As yet there has been no effective solution to the problem of mass murder that is war.

As engineers, as men with loved ones and possessions to protect, the manly thing to do is to build ourselves such a powerful war machine that we will be safe from any aggressor or possible combination of aggressors.

This preparation reaches right down to us at Georgia Tech. The best possible way for us to demonstrate our patriotism and to do our duty is to *study!* Have you ever thought of it that way? Do you agree? Well-trained, superior technical men are essential to the future of the United States of America.

T. H.

EDUCATION'S ROLE IN DEFENSE

"For the immediate future and, in my opinion, for years to come, we must all of us, students and professors, recognize that whatever demands the necessities of national defense lay upon us, they are paramount. We must further recognize that in view of the privileges which have been given to us we carry a special responsibility for helping to develop and to carry through plans of national defense as they are determined by the organs of government. Thus the university administration, the faculty and the student body must not merely stand ready to co-operate with government, but as their first duty must hasten the national defense by every means in their power. I believe that the movement can be carried through without serious interference with the intellectual education of our students."

Dr. Charles Seymour, president of Yale University, stresses the importance of the university taking the lead in the resurgence of faith in the American way of life.

Ramblin' Wreckonings

By MAXWELL L. SHATZEN, JR.

SOUTH SEA ISLANDS

Last Sunday was truly a much needed day of rest for those who attended the Sigma Chi frolics on Friday night and the S. P. E. formal 24 hours later. At this time of the year one has to be a superman if he would attend all the lovely dances and yet stay awake in classes the following day. It was a bit difficult getting to sleep after that Sigma Chi dance, which you may recall was one of those "South Sea" affairs. What actually caused the temporary insomnia was a profound concern for the comely little gals semi-clad in flimsy grass skirts or sarongs. Perhaps you wonder what's "sarong" about such attire? The answer is simple. Those engineers dressed as cannibals and quite unhampered by clothing were — ahem — smoking (you know — smoking cigarettes). Grass fires so frequently get out of control, don't cha know. *Life Magazine* thought so much of the colorful affair that they sent a prominent bulb and shutter artist to record the evening of thrills and joys for posterity.

S.P.E. FORMAL

The S. P. E.'s produced one of those strictly formal, very swanky affairs where the boys sparkled from dazzling shoe polish to odoriferous pomade, and the girls were attired in two-piece evening gowns wherein no effort is made to cover the solar plexus, and enormous responsibility is placed on a couple of hooks and eyes in the equatorial region. One can't help but admire such courage, for many a broad-shouldered escort wears both belt and suspenders just to be sure.

"HAD A WONDERFUL TIME"

"Admiral" Ed (a girl in every port) Parks and the "Nucoa Kid" Buck LeCraw (the mayor's young hopeful) were on hand — ah, but in the stag line, mind you! George "Squeaky" Webb, as usual, brought the ever glamorous Rubylove Johnson — a pulchritudinous peach. Because of Mack Conway's lovely dance rhythm, the evening seemed to come to an end much too soon, but to Bobbie Shulze and Ed Thompson, the prexies of Sigma Chi and S. P. E. respectively, Techsters join with your columnist in saying, "Thank you for two lovely evenings."

THE IDEAL PROF.

That smug little smile being displayed by the boys in Professor Sweigert's class has an interesting bit of psychology underlying it. Last Saturday morning the lads entered the classroom in a semi-stupor and

rested their weary heads on the expensive arms of the "greasy sleeve" chairs. Professor Sweigert, the victim of that irksome malady known as laryngitis, entered the room, gazed about, and, being as inarticulate as a swan, seized a trusty stick of chalk and in his best *Spencerian* manner asked the class, "What's wrong? What has happened?" Bobbie Shulze rose to the occasion with masterful oratory. For 10 full minutes, he described the Sigma Chi orgy of the preceding night, which left his classmates a bit groggy from lack of sleep. Again the professor took his eloquent chalk in hand and wrote: "Class dismissed. Go home and sleep it off!" Now, there is a teacher after an engineer's own heart! Do you wonder that his boys smile?

PET RATTLESNAKE

You should have been in Bacteriology Lab a few days ago to witness the feeding of the charming little rattlesnake by Charlie, the janitor, and his two curious colleagues, Buck and Shorty. With extraordinary caution, Charlie raised the cage door whereupon Shorty exclaimed, "B-b-be careful there, boy!" Charlie, after recovering what little poise he could after being so startled, replied, "Sh-sh-sh-shorty, don't EVAH yell at me dat way no mo'! You think I'se in love wit' dis here rep-tile? Brothah, I'se twice as uneasy as you think I is." Presently the rattler disjoined his jaws and gulped the rodent which a few moments before he had put to death with his lethal venom. But, Charlie, Buck and Shorty didn't tarry to observe the reptile's gastro-nomic treat. They fled as from a howling wind in a cemetery, much to the amusement of the congregated young scientists.

RIFLES REPLACE ROLLING PINS

Gone are the days of the flatiron and the rolling pin as the potent weapons of future Texas housewives, for only recently the young ladies attending T.S.C.W. shot the proverbial pants off the rifle team composed of cadets from Texas A. & M. At this early period, it is difficult to state whether the excellent training in marksmanship of the fair ladies is an integral part of the home economics instruction or whether it constitutes a major portion of that mysterious course known as physical education; but it sure looks as though leap years are going to be rather serious periods in the lives of those Lone Star rangers from now on.

Letter To The Editor

"LET US NOT BE TRICKED INTO ANOTHER WAR BY NAZI AND BRITISH PROPAGANDA"

Step by step the United States is being led into another European war. It is becoming more obvious every day that the present administration is determined to try to settle the affairs of self-seeking nations who have a lust for wealth and power. Will we never learn our lesson and realize that we stay out of the intermittent hostilities over there?

The nations of Europe are going to be fighting time and time again; that is, every time a new generation grows up in the defeated country and decides that they were done an inhuman injustice in the peace terms of the last war. They will attempt to avenge themselves. No one can knowingly say which side is morally right in the present British-German conflict. All we have to go by is what we are told by our press. Personally, I have no trust whatsoever in the prejudiced attitude of our newspapers and magazines.

For economic reasons I would like to see Great Britain be victorious. We all admire the courageous fight she is putting up, whether it be for good or for bad. But the important thing is — we must not let our sympathies run away with our common sense. British propagando is no

more to be believed than German, and we must guard against being unduly influenced by it.

The idea that Hitler will come to the Western World with his war machine after defeating England is a mere "pipe dream" and an excuse for our taking the offensive. Even if Germany should win, she would have her hands full in policing the entire continents of Europe and Africa, and would not dare to attack a powerful United States.

We often hear it said that our standard of living would be wrecked if Hitler's barter system prevails. I contend that our high living conditions will last until our indolence and softness get the best of us, as it did France and the ancient Romans. If we can prevent internal political decay and idleness from infesting this country, we need never fear the loss of liberty or economic prestige.

Let's not be tricked into fighting for either one of the covetous nations this time. Let's continue to send supplies to Britain in return for money or bases, but send them in her ships. Let's confine our Monroe Doctrine to the Western Hemisphere and stay in our own back yard.

Deltas Give Annual Artists and Models Ball at Brookhaven

Miss Gloria Bussey to Be Crowned Delta Queen Amid Dance Festivities

Highlight of the annual Delta Tau Delta Artists and Models Ball to be held Friday night, March 21, will be the crowning of the Delta Queen. She is Miss Gloria Bussey of Atlanta and will be presented with the crown by Professor Count D. Gibson of Tech. Taking no small part, however, will be a multitude of short skirts, laughing lips, and original costumes. The dance will be held at the Brookhaven Country Club from ten to two and the music will be furnished by Bill Clarke and his orchestra. Prizes are to be given for the most original costume.

Officers and their dates are: John Fullenlove, president, with Miss Elizabeth Waggener; Jim Griffith, vice-president, with Miss Bobby Kimball; Ed Overstreet, treasurer, with Miss Miriam Glaze; and Ferris Cann, secretary, with Miss Irene Holt.

Members and their dates are: Bill Teague with the Delta Queen, Miss Gloria Bussey; Vernon Shipley with Miss Mary Alice Haynes; Nelson McCaa with Miss Jane Brooks; Tim Clapp with Miss Nancy Robinson; Leibert Bower with Miss Virginia McCauley; Jack Horner with Miss Alice Polack; Dick Brinkman with Miss Frances Whitfield; Jim Andrews with Miss Roslyn Ison; Ed Clapp with Miss Betty Blasingame; Joe High with Miss Mary Beth LaGrand; Louie Latham with Miss Betty Brantley; Harry Morrow with Miss Sis Cooledge; T. Stribling with Miss Becky Andrews; Bill Woodard with Miss Barbara Gwaltney; Joe Trammell with Miss Beverly Braswell; Al Hume with Miss Billie McMillan; Harry Flemister with Miss Jean Evans; Shirley Nichols with Miss Barbara Dillon.

Pledges and their dates are: Jim Weaver with Miss Addavale McDougall; Dan Cosgrove with Miss Jo Jane Godwin; Alex Fant with Miss Matilde Turner; Bill Freeman with Miss Charlotte Powers; Johnny Fornara with Miss Mary Lee Osborn; Bob Harriss with Miss Peggy Bussey; Herb Glass with Miss Betty

DELTA TAU DELTA—Miss Gloria Bussey, of Atlanta, will be crowned Delta Queen at the Delta Tau Delta Fraternity's annual Artist Ball tonight. The dance will be held at the Brookhaven Country Club from ten until two.

Newbanks; Stan LeFevre with Miss Louise McCauley; Archie Johnston with Miss Martha Turner; Jack Lynch with Miss Mina Baxter; Charles Lynch with Miss Virginia Hopkins; John McNeish with Miss Betty Allen; Charlie Smith with Miss Margaret Wooten.

Other actives and pledges are: Bruce Parmenter, V. J. Doyle, Ed Fossas.

NOTICE

Within the next few days a tentative list of men who have made PHETA SIGMA will be posted on the 3rd floor of the Administration Building. Watch for it!

'Y' Movies Feature Aluminum & Rayon

Aluminum and rayon will be the themes of the movies to be shown at the "Y" next Monday night. "Aluminum—Mine to Metal" shows the process of refining bauxite; "Aluminum Fabricating Processes" is the rolling, drawing, casting, and forging of sheet aluminum and "Fashion's Favorite" shows how rayon is made. The first two pictures are shown through the courtesy of the American Aluminum Company, and the last through the courtesy of Dupont.

SOCIALLY SPEAKING

By ADAMS AND LEWIS

Tonight will find all the good artists and their favorite models hobnobbing at the Delta's "Artist Ball," which is always an occasion looked forward to by the sports and sprites of this ole town with much gusto. Okeh, you Socialites, get out and do some doin's for us to write about.

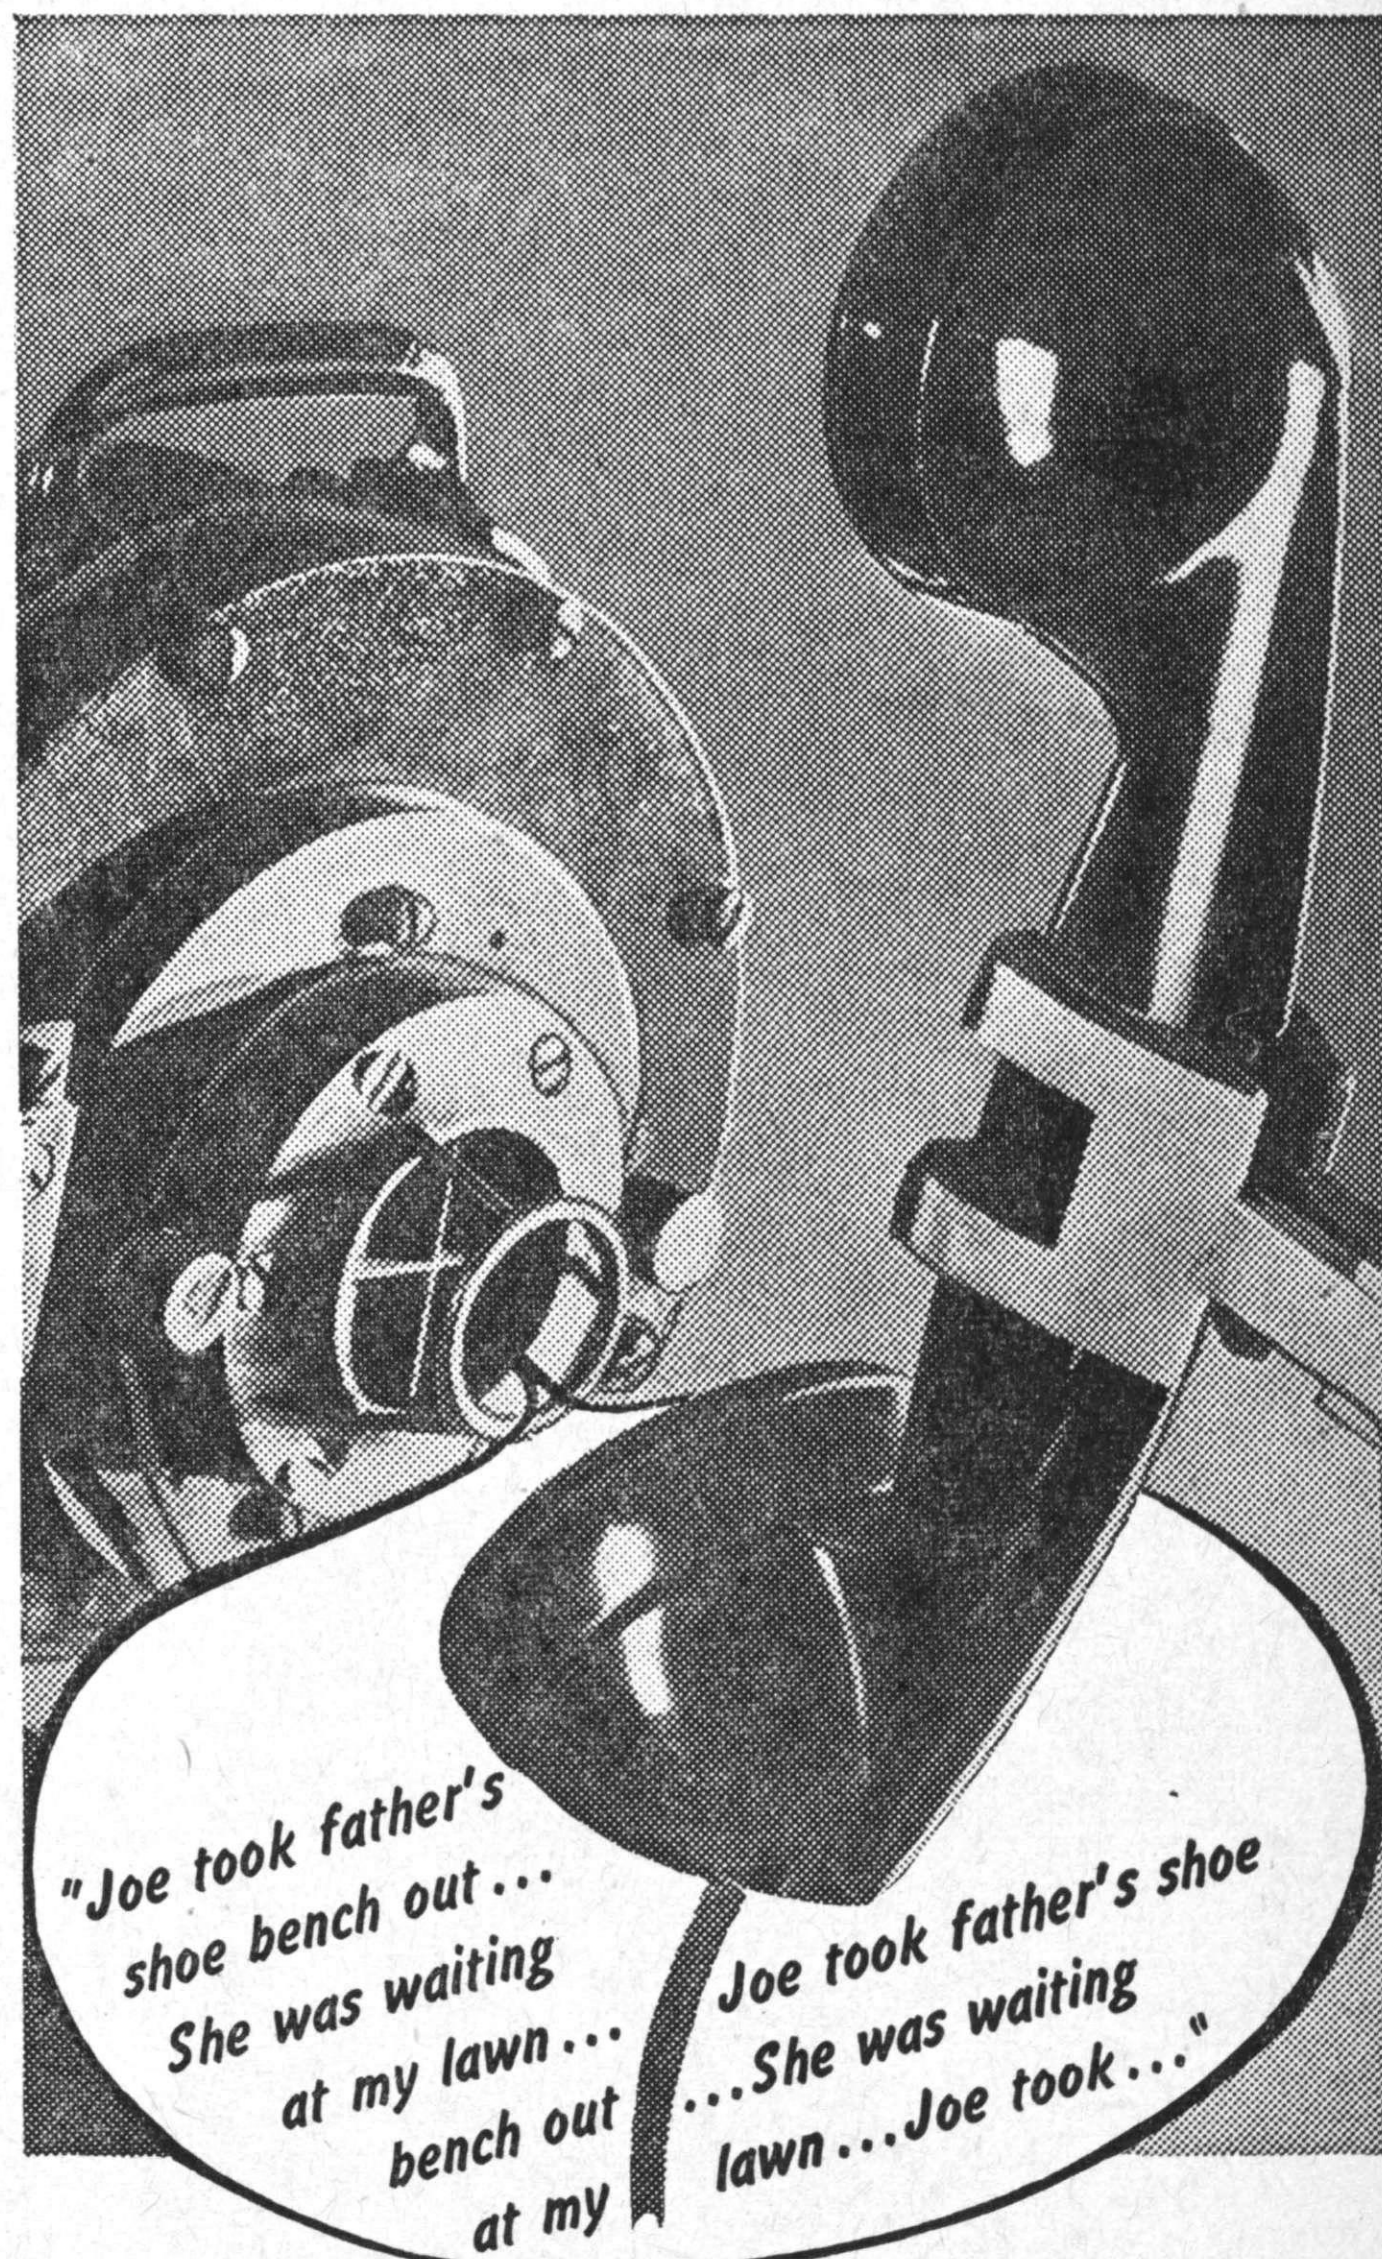

And now, about the low-down from all around last week - - - Although he denies it, the evidence seems to point toward a new love life for Ed Killam, Sophomore vice-prexy. For proof, one has but to stand in front of the Sigma Nu house any day at 12:30 sharp and watch Mary Ann Atkin wave to Ed as she passes by. . . .

Probably one reason why Phil Edge left the S.P.E. shuffle last Saturday eve to journey over to the O.B.X. masquerade was the way in which Milton St. John was hawking on Phil's date, Charlotte Thomas (she calls him "Baby Boo"). What about Milton's interest in Barbara Britton?

As her fingers ran softly through his hair, a slow blush rose to the cheeks of Delta Sig's Roy Lange. "Oh, you bashful stuff" (?) she commented. What about this Margaret . . . ?

. . . "Hawk" Eager must have lost his old technique with the fair sex. He's nicknamed his two latest flames "Electrolux" and "Frigidaire." . . . Wonder why Scottie Talliaferro (Tony the Wop) was looking for Barbara Dillon's back door last Sun-

day? . . . Boy, was Earl Starke's face red when he went home and asked an old girl friend for a date, and she said she was married. . . . Well, those Delt's are playing pass the picture again. It happened like this: Last spring Jimmy Griffith was going strong with Becky Andrews and somehow managed to wrangle a picture from her . . . but, it didn't last and the picture was bequeathed to "T" Stribling who in turn gave it to freshman jim weaver as same admired the portrait. . . . The rifle team seems to have attained the goal of all Tech men. At Miss. State, having no place to stay, the team was lodged in a girls' dormitory. We hear Bill Woodard had quite a time on that trip. . . . This is a "why"—Ralston Woods, erstwhile football player, dubbed "Pinkie" by all his associates and playmates—perfectly obvious. . . . Now we hear that Don Nickell is to invade Ed Scott's territory and court Dot Arnall since Don couldn't do much good with Evelyn Throver.

Final Exam for telephones

THIS electrical mouth at Bell Telephone Laboratories is putting a new telephone to one of its final tests. Over and over, it can repeat these odd sentences without the slightest variation. They contain all the fundamental sounds that contribute to the loudness of sound in our speech. This mouth can also make tests with simple tones of known pitch and intensity.

At the same time other telephones are being steamed, baked, frozen, lifted and dropped into their cradles by tireless machines. All this is part of a carefully planned curriculum that makes every piece of telephone equipment prove it is capable of giving you the best possible service—under any and all conditions.

"AMERICAN JAMBOREE"

Swim Finals Slated For Both Nights

(Continued from page 1)

dashes. Both were classed as foremost collegiate swimmers in last year's All-American selections. The Engineers will place some promising entries into the field with Captain Boo Ward at the helm in the 220, 440-yard events and the 1500 meter race. Newman and Stradtman are scheduled for the 50- and 100-yard dashes, while McCarty will be entered in the 220-yard freestyle and the 150-yard backstroke. Ed Demere is lined up for the 440 and the 1500 meter. Hutchins, Blackshear, Gross and Goodloe will also make an appearance.

Florida Aces

Joe Rood, conference record holder in the 220- and 440-yard freestyle and Florida's ace-in-the-hole, will be here again with Van Clief, present record man for the 200-yard breaststroke, who will try to bring home the bacon once more; Van Haven, starring in the 220, 440-yard and the 1500 meter events, and Sonny Welch with Jack Youngblood are favorites from Florida.

Georgia will bring Sterrett, Barnett and Hudson to manage the backstroke 220, 440-yard and breaststroke, respectively. Destined for a win in the fancy diving event are Stephenson of Kentucky, and King of Tennessee, both of whom made their mark against Tech this season. Auburn's Dave Gammage will make the backstroke and 440 tough going.

Time Given

The finals for all events will be held at 8:30 p.m. on Friday and Saturday, except for the 1500 meter race, which will be conducted at 11:00 a.m. Friday. The heats and time trials will be held 2:00 p.m. today and tomorrow.

The Baby Jackets walloped Tech High 55-11 last Saturday, with McAuley leading the way. McAuley broke two freshman records, setting a new time of 25.9 seconds for the 50 and 59.5 in the 100-yard freestyle.

The Varsity encounters Georgia for a post season swimming engagement Monday.

FLATS FEATS

By FRANK GRAHAM

AH, SPRING! With the official entrance of "robins and redbirds" exactly one day old, and while eager Tech studes await with bated breath the rising of the sap, spring has slipped quietly in upon the sporting front. The quite unscholarly urge to get out the old ball bat and grease up the battered catcher's mit is playing heck with even the most studious gentlemen in residence upon our far-famed "hill."

THAT NATIONAL GAME Simultaneous with the arrival of spring, a well-known group of the genus homo saps has made its long-awaited exit from the annual hibernation. We are speaking of Coach Mundorff's hardy men in gray who are daily now seen chipping the ice off the old Rose Bowl field in order to get in a little early baseball practice.

Little is known of prospects of the team for the coming season, but a winner is certainly needed to revive the waning interest in collegiate baseball. To hear the old-timers of the faculty speak of the great old games which have had their day on the flats strikes a nostalgic note in the hearts of many a ball fan and brings a soulful sigh of "those were the days."

WITH THE GOLFERS Tech's crackerjack golf team is on the verge of another season. The first match, with Tennessee on March 28, should give a pretty good idea of what to expect for the year. On paper the team seems to have the brightest prospects since the great team of Barnes and Holditch, and they will be pointing for the Southern Intercollegiate tournament. This year the tournament will be held in Athens (April 10-12) and Messrs. Yates, Thompson, Florence, Cave, Sargent, Goodloe, et al., will be looking forward to a cut at some handsome trophies. That is, Mr. Goodloe will be with them if he can make up his mind he would rather play on the golf team than the Dean's team!

AND THE FENCERS Roving this week is Tech's traveling band of swordsmen. It's the third trip of the season for them and they're 'way up north in Virginia, suh. Coach Morenus' proteges lost little time in accepting an invitation to the South Atlantic Fencing Tournament at William and Mary College in Williamsburg, and after the swell showing they made last year at the meet great things are expected of them.

1941 Baseball Schedule Given; Team To Play 10 Home Games

The 1941 Varsity baseball schedule consisting of eighteen games has just been released by the Athletic Association.

There will be ten home games played at Rose Bowl Field.

Tennessee opens the season with a series of two games Friday and Saturday, April 4, 5, and Georgia rings down the curtain May 10 in Atlanta. The schedule is as follows:

Friday and Saturday, April 4-5, Tennessee at Atlanta.

April 9-10, Vandy at Nashville.

April 11-12, Ky. at Lexington.

April 16-17, Auburn at Auburn.

April 23-24, Florida at Atlanta.

April 25-26, Vanderbilt at Atlanta.

April 28-29, Auburn at Atlanta.

May 2, Georgia at Atlanta.

May 3, Georgia at Athens.

May 9, Georgia at Athens.

May 10, Georgia at Atlanta.

Tech Fencers Edge Out Atlanta Club in Second Encounter

By ED PRICE

Capitalizing on an early lead piled up in the foil, Tech's fencers were able to hold the Atlanta Fencing Club down sufficiently and ride to a second straight victory over the aggregation of former Tech stars. The final score was 9½ to 7½ and developed into a real battle as the Fencing Club rallied after dropping the foil, 7-2, and took both the epee and saber events. Led by Coach Richard T. Morenus, who did a good job in redeeming himself after receiving a whitewash from his proteges in the first encounter between the two teams, and Bobby Hutchison, former Tech luminary, who came through for victories in both the foil and saber, the Fencing Club came dangerously close to wresting the meet from the Jackets. Morenus was undefeated in the saber and epee.

Tech started off with a bang as Straighton Hard won three foil matches and Arthur Wade and Frank Graham each came through with two. Captain Craig Davis was unable to participate because of his attendance at a convention in Louisiana. Langley and Hutchison divided the Club's two foil matches between them.

Revenge for Morenus

Last week Tech took the saber, 4-0, but this time the Fencing Club was really hot and Morenus took two matches and Hutchison one to beat the Jackets out to the tune of 3-1. Hugh Wright was Tech's only winner in the saber. Tech started off well in the epee, when Ralph Seiferth won his match. However, Morenus took both of his two bouts See Fencers to Nat'l Tourney, page 5

Rifle Team Engages Miss. State, Indiana In Triangle Match

Tech Firing on Home Range Is Favored

Tomorrow afternoon, March 22, the Georgia Tech rifle team will engage in a three-way match with the sharpshooters of Indiana U. and Mississippi State. A shoulder-to-shoulder match was originally scheduled with only Mississippi State, but Indiana U., on tour through the South, did the Tech team the honor of wishing to compete against them and was therefore included in the match.

A ten-man varsity team from each school will fire in four positions: standing, kneeling, sitting, and prone. The Tech riflemen are favored to win the meet, as they will be firing on their home range. Another point in the Yellow Jackets' favor is that they have not dropped a shoulder-to-shoulder match this year, and will be fighting to keep their record untarnished.

The Tech team will be composed of Sanderson, Dillard, Cleckley, Carter, Richards, Welton, Woodard, Kearney, Feagle, and Owen.

Frosh tips off Senior!

"White goes with everything!"

YOU'RE never stuck when you have an Arrow white shirt at your elbow, for whites are correct with every suit. We especially recommend these three extremely popular Arrow white shirts for college men:

Arrow Hitt: whose starchless collar is as crisp at night as it was when you put it on. \$2.

Arrow Gordon: looks sporty for classes and dressy for dates. Fine oxford cloth. \$2.

Arrow Trump: a fine broadcloth with a long wearing soft collar. \$2.

Arrow shirts have the Mitoga, shaped to your torso, fit and every refinement of expert shirt making. Send a frosh out for these today.

Council Minutes

March 11, 1941.

To the Faculty, Georgia School of Technology, Atlanta, Ga. Gentlemen:

The motion made last meeting to appropriate \$200.00 for the publication of the Som-O-Tech was passed. Also passed was the motion to give the Blue Print 10 cents per copy to provide padded covers for the 1940-41 issue.

The ring committee reported that any type of stone contracted for but one can be obtained for the class ring.

It was decided that a mass meeting of the student body will be held March 27 during drill period for the purpose of voting on changes in the Council Constitution. All military students will be present, and all other students are expected to be present at the mass meeting to be held in the Rose Bowl Field.

A motion was made and passed that copies of the revised constitution be made and distributed and an article be put in the TECHNIQUE about same.

The following two motions were made appropriating money: 1. \$15 be given for advancement on the S.F.C.S.P.R. convention. 2. \$225 be given to the Yellow Jacket for a super de luxe special issue during the S.F.C.S.P.R. convention.

A motion was passed to the effect that 15 cents be added to the Student Activity Fee for the Yellow Jacket to be used for engraving and lithographing other than the cover. This is subject to approval by the Administration and Board of Regents.

Warren Gregory was elected to the Student-Faculty Honor Committee

Fraternity Crests To Decorate New ODK Banquet Hall

Putting the finishing touches to the new student banquet hall, the O. D. K. Society is sponsoring a project which it believes will be received favorably by the students. In order that the hall may be given a more personal atmosphere, an attempt is being made to have the insignia of all of the campus organizations placed on the paneled walls of the room. These insignia will be done in gold leaf and will be approximately fourteen inches in diameter.

A standard price of twenty dollars will be charged each organization desiring its crest or insignia in the hall. This amount is slightly higher than cost, and the profit will be used to help pay for the new furnishings of the banquet hall. Several organizations have stated that they will contribute more than twenty dollars, and this extra amount will of course be used to pay for the furnishings.

Although the project has just been started, a great many societies have voted to have their crests included among those on the walls of the banquet room. All organizations that have not considered the matter are urged to take some action as soon as possible. All checks should be made payable to Omicron Delta Kappa.

to replace Earl Cook.

A motion was made and passed that the new publication heads be elected on April 22 of this year.

There being no other business, the meeting closed with Aderhold, Hill, and Woodard being absent.

Respectfully submitted, THOMAS HILL, Secretary.

Fencers Attend National Tourney

(Continued from page 4) and Langley tied Wade, so the event wound up 2½ to 1½.

A capacity crowd was down to view the proceedings as the Jackets closed their regular season. Next Saturday a picked team will be sent to Williamsburg, Virginia, where they will participate in the South Atlantic Fencing Tournament. Last spring their predecessors won second place in the foil and saber, and took championship honors in the epee in a similar tournament held at

Chapel Hill. This year Craig Davis, Arthur Wade, Straighton Hard, and Frank Graham will represent Tech in the foil; Ralph Seiferth, Wade, Davis, and Hard in the epee; and Bob Haggart, Hugh Wright, Jimmy Sturrock, and Graham in the saber.

Several Tech students will leave tomorrow for a "Y" retreat at G. S. C. W. in Milledgeville. Representatives from Agnes Scott, Wesleyan, the University of Georgia, and Georgia Tech will attend this retreat, which will last through Saturday and Sunday. Mr. Henry Ware, regional Y. M. C. A. Secretary, will be the chief speaker.

Tastes good...costs little and swell fun to chew—that's DOUBLEMINT GUM

Yes, chewing delicious DOUBLEMINT GUM is always swell fun . . . at sports events, between classes, while you're studying. DOUBLEMINT'S real-mint flavor refreshes your taste and helps sweeten your breath. And enjoying smooth chewing daily helps brighten your teeth, too. Kind to your budget. Great to enjoy every day. So drop in and buy several packages of DOUBLEMINT GUM today.

NEW STUDENT COUNCIL CONSTITUTION

CONSTITUTION

Of the Student Council of the GEORGIA SCHOOL OF TECHNOLOGY

ARTICLE I—Name

The name of this organization shall be: The Student Council of the Georgia School of Technology.

ARTICLE II—Organization

Section 1. The members of the Student Council shall be: The President of the Senior Class, the President of the Interfraternity Council, the President of the Y. M. C. A., the Editor of the TECHNIQUE, five members elected from the Senior Class, four members elected from the Junior Class, two members elected from the Sophomore Class, two members from the Co-operative Department selected so that a Junior and a Senior will serve at one time, and the following who shall have seats but no votes: the President of the Junior Class, the President of the Sophomore Class, the President of the Freshman Class, the Editor of the Yellow Jacket, the Editor of the Blue Print, and the senior member of the recessed Co-op section.

Section 2. The class representatives, with the exception of first section Co-ops, shall be elected by their respective classes during the month of April. The first section Co-op members shall be elected during the month of March.

Section 3. Members of the Student Council, with the exception of Co-op members, who shall serve for two years, shall be elected for a period of one year, their term of active service beginning with the day following Commencement Day. The newly elected Student Council shall, however, sit with the retiring Student Council from the date of election. The new members may participate in discussions, but shall have no vote.

Section 4. Three-fourths of the voting membership shall constitute a quorum of the Student Council, and no business may be transacted unless a quorum is present.

ARTICLE III—Officers

Section 1. At the last meeting of the Student Council preceding Commencement the members of the newly elected Student Council shall form a temporary organization. At the first meeting after the opening of school in September they shall form a permanent organization, electing officers for the ensuing year.

Section 2. The officers of the Student Council shall be: a President, a

Vice-President, a Secretary, and a Treasurer.

Section 3. The President shall call the meetings of the Council, shall preside at all meetings, and shall perform such other duties as commonly devolve upon his office.

The Vice-President shall, in the absence of the President, assume the duties of the President.

The Secretary shall keep a permanent record of the proceedings of the Council meetings, shall care for all official correspondence of the Council, and shall take charge of all petitions and other communications to the Council. The records of the proceedings of the meetings shall be kept in duplicate, and a copy of these minutes shall, after each meeting, be deposited by the Secretary with the Secretary of the Faculty, for permanent keeping.

The Treasurer shall make reports on the treasury, and shall work with the Dean, who shall take charge of all funds handled by the Student Council, and who shall pay out any part of these funds only by the order of the Student Council. The Treasurer shall, at the beginning and end of his term of office, render to the student body a strict account of his service as Treasurer, a copy of these reports to be included in the Secretary's deposits with the Secretary of the Faculty.

ARTICLE IV—Objects and Duties

The Student Council undertakes to represent the whole student body in matters affecting student interests; to afford a suitable and convenient medium of communication between the students and the school authorities; and,

First—It shall exercise a general supervision over all phases of student activities, except the Y.M.C.A., the student publication, the Engineer, and the direction of athletics. It shall promote other inter-collegi-

ate and campus activities with appropriations and suggestions as how to best carry out this purpose.

Second—It shall take charge of mass meetings called for the consideration of matters affecting the welfare of the school, and shall refer to the student body matters requiring a definite expression of student sentiment.

Third—It shall discipline individual students whose conduct, in the judgment of the Student Council, is injurious to the best interests of the school. Such power of discipline shall include the right to assign offenses, and, in extreme cases, to dismiss offenders from school. Offenses assigned by the Student Council shall be recorded in the school office as separate and distinct from offenses assigned by faculty action, but shall carry like penalty.

Fourth—It shall hold at least one regular meeting each month during the regular nine months session.

Fifth—For specific purposes, a representative of the faculty may, by agreement with the President of the Student Council, meet with the Student Council; and, in like manner, a representative of the Student Council may, by agreement with the Chairman of the Faculty, meet with the faculty. In neither case will this special representative have the power to vote, and he will withdraw before a vote, relative to the question he represents, is taken.

Sixth—It shall promote and supervise the annual elections of class officers and representative members of the Student Council; it shall, itself, supervise all publications, except the

Saturday Meetings At New Clubhouse For Newman Club

Plans Are Being Made For Palm Sunday Picnic

The Tech Newman Club recently adopted a plan whereby informal meetings are held weekly on Saturday afternoons at the Newman Club house. These meetings are led by Father Brady, club chaplain, who gives an informal talk on some phase of Catholic religion, after which a round-table discussion is held by the members.

The club will hold its regular business meeting on Sunday morning, March 23, at which time plans will be made for a picnic on Palm Sunday. Nominations for new officers will be discussed also.

Engineer, and elect before Commencement Day, the Editor of the TECHNIQUE, the Editor of the Yellow Jacket, the Editor of the Blue Print, and the respective Business Managers.

ARTICLE V—Ratification and Amendment

Section 1. This Constitution shall become effective immediately upon being adopted by the faculty and by a majority vote of the student body.

Section 2. This Constitution may be amended by a three-fourths vote of the students. This voting shall be conducted by ballot in the various classrooms. Any amendment to this Constitution must, however, before being submitted to the student body, receive the approval of the faculty.

Section 3. Three-fourths of the voting membership of the Council shall have power to add to or amend the By-Laws.

Bridge Tournament Now in Full Swing Among Fraternities

Interfraternity Council Backs Popular Contest

The Interfraternity Council has at last answered the hue and cry of the pasteboard fiends and sponsored an interfraternity bridge tournament. The tournament began March 5 and will end May 14.

Each fraternity has organized two teams, and will carry on two matches every Wednesday night, as one team will play at home while the other visits. A match consists of three rubbers, and the winner of a rubber is determined by the total score, instead of the number of games won.

Campus bridge sharks are hot after the championship, as I. F. C. is giving a trophy to the team winning the largest total number of rubbers.
