YOUNG PEOPLE MEET AT Y. M. C. A.

"Y" Nominations and Elections To Be Held in Near Future

Committee to Investigate Eligibility of Candidates

On or before the first day of April the student President, with the advice of the General Secretary, shall appoint a nominating committee who shall nominate candidates for election as student officers to succeed J. W. (Chick) Meehan, Jr., President; Ray Kytte, Jr., Vice-President, and R. V. Richard, Secretary. Names of these candidates shall be submitted for approval to the Board of Directors on or before its April meeting.

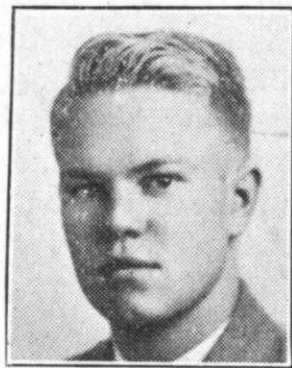

The Chairman of the Board of Directors shall appoint two members of the Board, who, with himself, shall act as a committee on election. The duties of the committee shall be to investigate the eligibility and qualifications of candidates, and to present such information to the Board of Directors for approval of such candidates by the Board; to set the day which the election shall be held; to publish in the student paper not less than seven days before the day of election, the names of candidates nominated by the nominating committee; and to publish the names and qualifications of all before the first day of election.

Only members of the Y. M. C. A. Cabinet are eligible to be nominated and elected officers of the Tech Y.M.C.A. See the President of the "Y" or the General Secretary and become a member of one of the "Y" Committees.

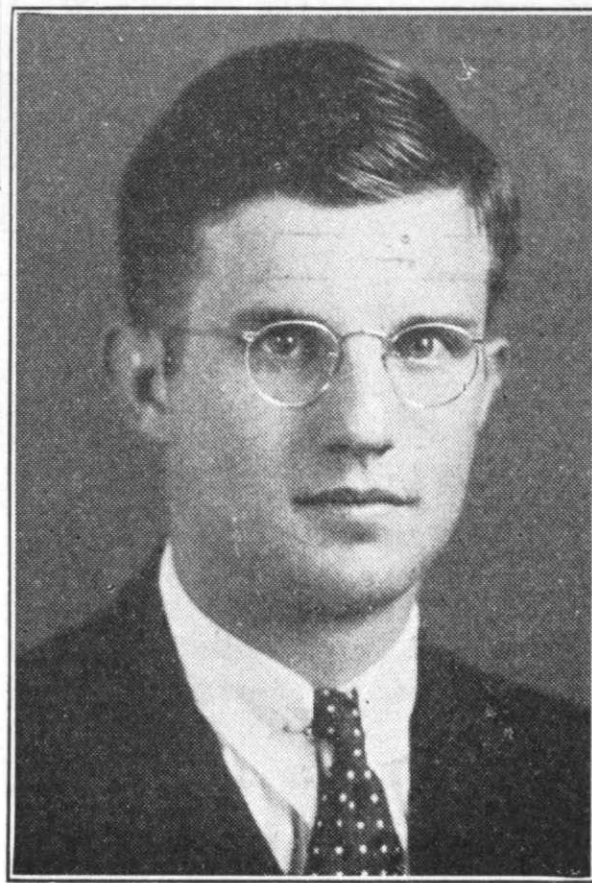

Additional nominations shall be submitted to the President of the Board of Directors on petition by one hundred members of the Association in less than nine days before the first day of election. Candidates so nominated shall be investigated as to eligibility and qualifications by the committee on elections, and shall be approved by the Board of Directors in less than five days before the first day of election, in the same manner as candidates nominated by the nominating committee.

The election shall be held on the date fixed by the committee on elections. In the case of each office, the candidate receiving the largest number of votes shall be elected.

Dr. Brittain and Prof. Jones in Accident

Dr. M. L. Brittain, president of Georgia Tech, and Professor C. A. Jones, head of the Textile department, were injured Sunday, December 30, in an automobile accident a short distance below Forsyth, Ga., while on their way to Homosassa, Fla. Dr. Brittain and Professor Jones were planning a short vacation in Homosassa during the latter part of the Christmas holidays.

The accident occurred when an automobile driven by a Mr. Murphy, of Berea, Kentucky, while attempting to pass two other cars, crashed into the car of Professor Jones. Dr. Brittain received a severe blow on the head and cuts about the face. Professor Jones' left leg was broken below the knee. He also had two ribs fractured and received several cuts on his head.

The progress of both, Dr. Brittain and Professor Jones is satisfactory. Professor Jones plans to move to the Tech hospital from his home in order to be available to students and faculty members who may need his advice. Dr. Brittain returned to his office for a short time last Tuesday. He anticipates no further difficulty.

The sincere sympathy and best wishes of the student body for a speedy recovery are extended to Dr. Brittain and Professor Jones.

Dr. Harlow Speaks at "Y" Cabinet Meeting

Dr. S. Ralph Harlow will address the "Y" Cabinet on Wednesday evening, January 23, at 6:30. This talk will be one of the most instructive and inspirational to be heard on the Tech campus this year.

Dr. Harlow has visited colleges and schools in Egypt, India, China, and Japan, as a delegate from the Near East to the World Student Christian Federation meetings in Peking. During the World War he served with the American Expeditionary Force and the New Zealand division of the British Army in France. Dr. Harlow served as a missionary of the American Board of Foreign Missions for eleven years, during which time he was head of the Department of Religion and Sociology at International College in Smyrna, Turkey. At present, Dr. Harlow is professor of Religion and Biblical Literature at Smith College.

For many years Dr. Harlow has tried to help students solve their religious problems. He has spoken in more than one hundred American schools and colleges and held personal conferences with hundreds of students on religious matters.

This is only one of the excellent speakers who have addressed the members of the "Y" Cabinet during the school year. Membership to the Cabinet is open to all of the upperclassmen who have shown an interest in the work and progress of the Tech "Y."

Members of the "Y" Cabinet are urged to be present, as this will be one of the finest meetings of the year.

PICTURE SHOW AT THE "Y" TONIGHT

The Ford Plant and all the manufacturing processes of this famous machine. Also speed and climbing contests at Pike's Peak. Two reels of the Chicago World's Fair, and short subjects.

Alpha Chi Sigma will present a demonstration on Liquid Air, by Dr. Elliott James, a noted lecturer, who performed at the World's Fair. It will be given on Thursday, January 17, at 7:00 o'clock in the Tech Y.M.C.A.

Boys and Girls Hold First in Series of Meetings Sun. at 6:30

Interesting and Varied Program to Be Presented

Beginning Sunday night, January 13, the young people's societies of the churches in the Tech area will begin a series of joint, monthly meetings in the Tech "Y." Boys and girls from the following churches will participate in these meetings: First Baptist Church, All Saints Episcopal, North Avenue Presbyterian, Peachtree Christian, Saint Mark Methodist, and the Newman Club of Georgia Tech. has been planned. The Tech "Y" Sing-

An interesting and varied program will give several numbers. A program planned by representatives of each church will be followed by refreshments served by the Tech Y.M.C.A. Those who have other engagements may then leave, but the "Y" will then show "The Sign of the Cross" for the benefit of those who care to stay.

All Tech men, their parents, friends, guests, and especially their dates are cordially invited to attend.

Considerable comment has been caused by the "Y's" plan to hold meetings of this nature to which Tech men may bring their dates for a very interesting, instructive, and entertaining evening. The purpose of the "Y" in planning these meetings is two-fold:

First, the "Y" hopes that these meetings will give new impetus to the work of the churches and Sunday schools which are interested in the students of Georgia Tech.

Second, these meetings will help promote a feeling of friendship and understanding between the students and town-people.

Complete Program follows:
Presiding—Jim Simmons, Chm. Religious Activities Com.

Welcome—Chick Meehan, President Georgia Tech Y.M.C.A.

Songs—Tech "Y" Singers.
Topic: "Taking Jesus Seriously."
Scripture—Ed Sack, All Saints' Church.

Prayer—Jimmy Skinner, North Ave. Presby. Church.

Talk: "Relations of Jesus to College Students" (Continued on Page 6)

Bible Class Council Continues To Encourage Large Attendance

Though cooperation with the Y.M.C.A. a council composed of the student officers of the Association, the presidents of the various Tech Bible Classes and their teachers, has been meeting since the beginning of school to formulate plans and discuss ideas. As a result the attendance at the various Tech classes has shown marked improvements over last year. The teachers of the various classes have been able through these meetings to find interesting and worth-while subjects for their classes.

This Council was responsible for the Tech-to-Church Campaign which took place recently, and which met favorably with the student body. The gold buttons on which was stamped the white "T" were distributed among the students advertising the campaign. Plans are now being developed whereby a special Mother's Day program can be arranged, in which every Tech student away from home will be given

a rose and invited to attend the church of his choice.

The members of the various Bible classes have also been enjoying themselves socially in that open houses and various socials have been given by them. The classes invite all Tech students to meet with them and enjoy with them the wholesome and worth-while enjoyment of religious fellowship.

Tech Bible Classes for the following denominations are located as follows:

Presbyterian—North Ave. & Peachtree Streets, Dr. Richard Orme Flinn, Pastor; Methodist—Peachtree at 5th Street, Dr. J. W. Johnson, Pastor; Baptist—Peachtree at Fourth Street, Dr. Ellis A. Fuller, Pastor; Catholic (Newman Club)—Peachtree and Ivy Streets, Rev. Father Dagneau; Christian—Peachtree and Spring Streets, Rev. Robert Burns, Pastor; Jewish—Spring and Peachtree Streets, David Marx, Rabbi.

Inter-Fraternity Council Forms Dance Plans for Mid-Terms

The Interfraternity Council announced at its meeting last Sunday the final plans for the mid-term dances.

Kay Kyser will bring his orchestra from the Black Hawk Restaurant in Chicago, to play for one of the finest sets of dances ever offered to the Tech fraternity men.

There will be five dances, as announced, including three night dances and two tea dances. They will be as follows: Thursday night, Feb. 7, nine 'til one, the junior prom, informal, Friday afternoon, Feb. 8, from 6 'til 8, the freshman tea dance, informal, Friday night, Feb. 8, the Pan-Hellenic, from 10 'til 2, formal; Saturday afternoon, Feb. 8, the Sophomore tea dance, from 5 'til 7, informal; Saturday night, the senior hop, from 9 'til 12, formal.

All of the dances will be held in the new Naval Armory, and decorations will be furnished by an expert

decorator. The new Armory will offer an excellent place for the dances as it is really a part of Tech as much as are the dances. The decorations will make the already beautiful armory more beautiful.

President John Ridley and Treasurer Wright Paulk announced the prices as follow: Pan-Hellenic, including freshmen tea dance, \$3.25; exchange of Pan-Hellenic for block ticket, \$2.25; Block tickets without exchange, \$5.50. Single tickets, including tax are priced as below: Freshman tea dance, 55c; Junior Prom, \$2.00; Pan-Hellenic, \$3.58; Sophomore Tea Dance, 75c; Senior Hop, \$1.65.

Students are cautioned that a sure check up will be made preventing the transference of tickets. Pan-Hellenic tickets will have to be signed on the back by the members that they are issued to before they can be exchanged for blocks or before they will be accepted. (Continued on Page 5)

A Long-Felt Need at Georgia Tech

By Jim Simmons

Young men entering Tech have rather definite moral and religious conceptions. What happens to these convictions during four years of college life depends to a large extent upon the student's daily contacts and his opportunities for meeting men who are leaders in the field of religious education.

These opportunities are too few on the Tech campus. A real and vital need for a weekly, voluntary assembly of the students at which they may hear outstanding men express and explain their convictions upon moral and spiritual matters is obviously needed.

There are definite benefits to be derived from such a meeting. Tech students would be aided in forming intelligent opinions upon subjects which they now have neither the information nor the opportunity to obtain. Valuable character building material could be presented by the faculty. An opportunity for the more serious minded students to exchange ideas and opinions would be provided.

This plan is perfectly feasible. A time at which these meetings might be held could be designated by the faculty. At that time those students desiring to attend might be excused from classes. As they entered the main chapel each would be given a card upon which to write his name and the class which he was missing. These cards would then be placed in the professors' boxes as excuses for the particular class from which each was absent.

THANKS

To the Technique staff the "Y" wishes to extend a hand of appreciation. Through their efforts and advice the editing of this paper was made possible.

The "Y," recognizing the Technique as the best means of putting before the student body the work of the "Y," has endeavored to keep up, in this issue, the high standard which the Technique holds among college newspapers.

Quotations Worth Knowing

"He that findeth his life, shall lose it; and he that loseth his life for my sake, shall find it."—Matthew 10:39.

"He that is not with me is against me; and he that gathereth not with me scattereth."—Luke 11:23.

"I can do all things through Christ who strengtheneth me."—Philippians 3:13.

"If ye love me, keep my commandments."—John 14:15.

"Hear instruction, and be wise, and refuse it not."—Proverbs 8:33.

"Honor thy father and thy mother; that thy days may be long upon the land the Lord thy God giveth thee."—Exodus 20:12.

"God is our refuge and strength, a very present help in trouble."—Psalms 46:1.

"Remember the Sabbath day to keep it holy."—Exodus 20:8.

"Search the scriptures."—John 5:39.

"Walk with wise men, and thou shalt be wise; but the companion of fools shall smart for it."

"A good name is rather to be chosen than great riches; and loving favour rather than silver and gold."

"A merry heart is a good medicine; but a broken spirit drieth up the bones."

"Cleanliness is next to Godliness."—Wesley.

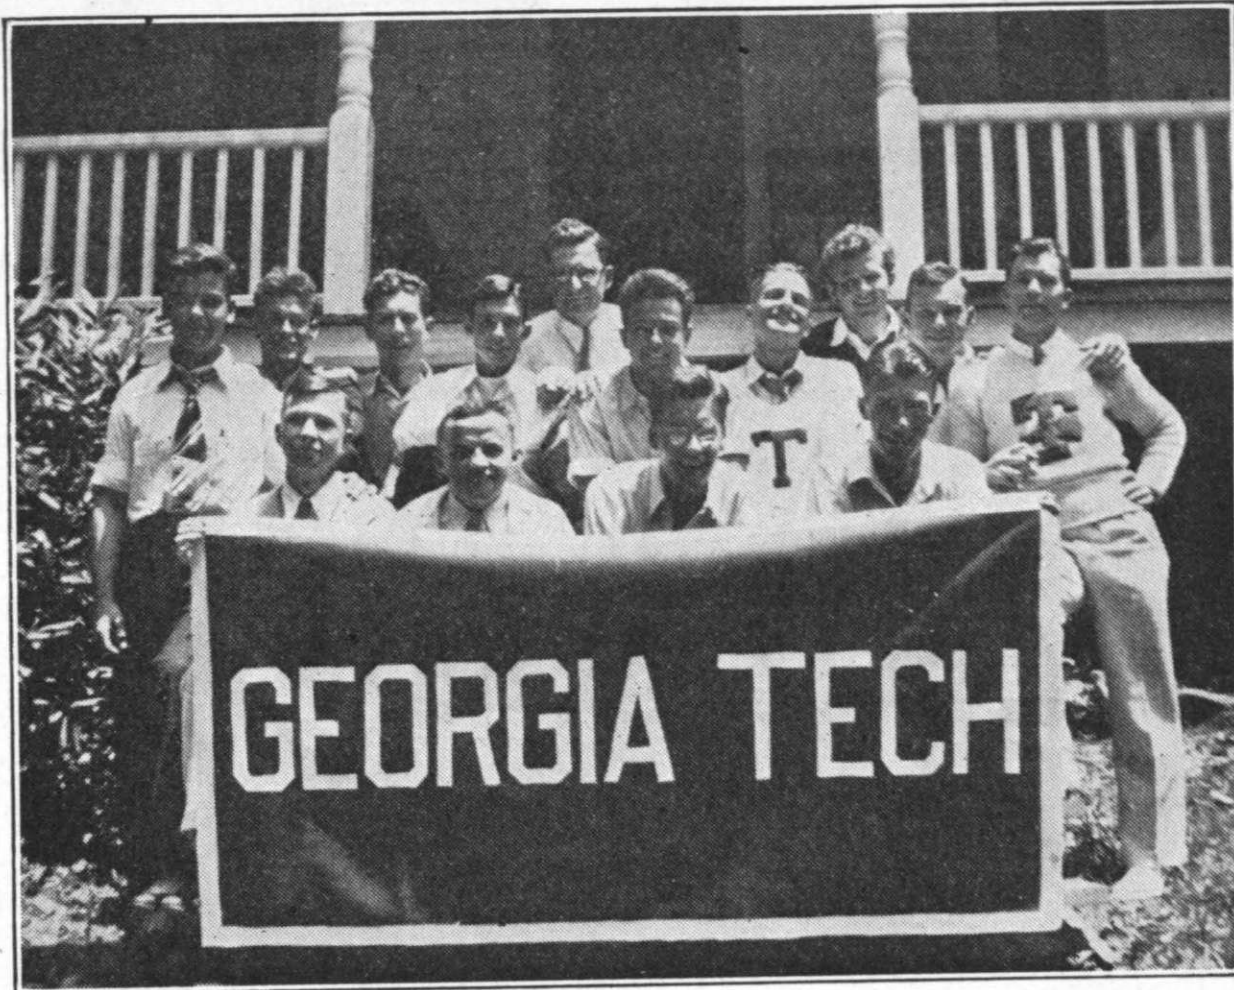

"They conquer who believe they can."—Virgil.

"Virtue is its own reward."—Prior.

"Content is more than a kingdom."—Shakespeare.

"What doth God require of thee but to do justly; to love kindness; and to walk humbly with thy God."—Micah 6:8.

Delegates Relate Interesting Events of Blue Ridge Meet

Thirteen delegates from the Tech "Y" encamped at Blue Ridge, N. C., on June 8 of last summer for a ten day combined conference of the Y.M.—Y.W.C.A.

Located fourteen miles from Asheville, N. C., and in "the land of the sky," Blue Ridge offered an ideal site for this gathering of over four hundred college students, representing sixty-seven southern institutions of higher learning.

The routine of the conference offered a varied and well directed program. The morning sessions were devoted to seminars and round-table discussions. The students were allowed the entire afternoon for a well organized recreational schedule. Each night the entire conference gathered in the assembly hall for a lecture from one of the many prominent speakers who were present.

The morning seminars and the evening lectures were directed by such nationally prominent men as Dr. McNeill Potat, Kirby Page, and Dr. William Foster. The subjects which were discussed were numerous ranging from such topics as the present economic problems of the United States; socialism and inter-racial problems, to others such as campus politics and problems of the Y.M.—Y.W.C.A. on the campus, as well as Bible study.

Tennis, hiking, swimming, soft-ball, boating, basket-ball, volley-ball, archery and marksmanship had many devotees during the afternoon recreational period. The Tech delegation won practically all of the competitive athletic events, carrying off many honors in soft-ball, basket-ball, swimming, and marksmanship. For the Tech delegation the high spot of the conference was the finals of the soft-ball tournament, when the Tech delegates teamed up with feminine representatives from Wesleyan and F.S.W.C., to defeat the University of Georgia 6 to 5 in the ninth inning.

The Georgia Tech delegation was composed of Dillon Kalkhurst, Francis Dale, Ray Seifert, Culver Kidd, Mitchell Allen, E. J. Benton, Billy DeMerit, Ralph Thomas, Reynolds Hudson, Angel Arsuaga, Johnny Williams, Dan Holsenbeck, John Harris and Mr. Proctor.

The Southern Student Y.M.—Y.W.C.A. Conference this year will again be held at Blue Ridge beginning the second week in June. A varied and interesting program is being arranged. No doubt there will be a large delegation of students from Tech to attend.

IN THIS ISSUE—The first after the holidays we pay homage to the Tech "Y." Among the outstanding social events of the "Y" is the joint meeting of the Sunday School Leagues of the city once each month. Each meeting promises to be a social event as well as a well worth while religious meet. Refreshments and plenty of good looking dames are in the offing which should make the "Y" the place to be this Sunday Night as well as the future events of this kind.

DURING THE HOLIDAYS—It seems that everyone of the dames in the City Hi Hoed to work at the various Department stores. It made shopping a bit better, no doubt, the mistakes they doubtless made was more than repaid by the friends that they had purchase presents from them. All well and good however we can't help but wonder how many homes were bleek and bare, even foodless as a result so that many SYTS could have luxuries. We are not socialists by far, just wondering that's all. It's a com-

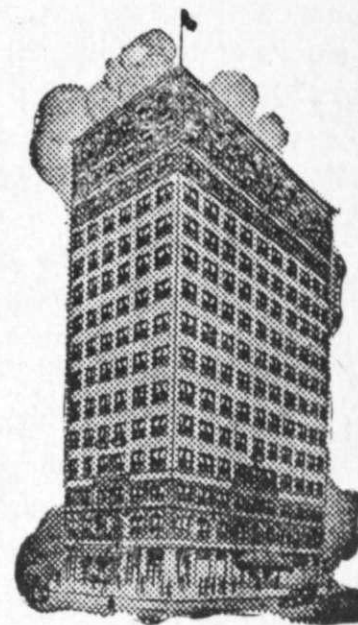

plex world at its best after all.

AND THE DAMES FROM THE SEMINARY—At least the Sororities have ventured into the field of the dance and will hold sway every Saturday Night in the Pompeiann Room of the Biltmore with Jimmy Stringer and his Orchestra. A revival of the dances so to speak. The ante is fifty and tax.

Georgia School of Technology

"A Technical School With a National Reputation"

THE GEORGIA SCHOOL OF TECHNOLOGY offers to young men of ability and ambition a training which will fit them for positions of responsibility and power. The national reputation of this institution is based not on claims, but on results. Its greatest asset is the record which its alumni are making in the productive work of the world. Georgia Tech graduates succeed because they have been trained both to think scientifically and to work efficiently.

Courses in Civil, Electrical, Mechanical, Textile, General, Ceramic, Chemical, and Aeronautical Engineering, Architecture Industrial Education, and General Science

COLLEGE COMMENTS

By JACK McKINNON

More than one-third of all the students at Texas Tech are bearing part or all of their College expenses. 687 men and 242 women are regularly employed, and of these, FERA has provided jobs for only about 200.

* * *

While talking about college expenses according to the "Armour Tech News," the minimum cost of attendance at M.I.T. is \$1,080 per year.

* * *

Two other interesting paragraphs from the Tech News are:

"At Southern California when a man catches another cheating, he begins to stomp his feet. The whole class begins to stomp until the cheater stops his foul tactics."

"Pug Lund, great Minnesota half-back will end his football career this year with a missing finger on one hand, a broken thumb on the other, a hip badly battered, a lacerated knee, and five upper teeth missing."

* * *

Notre Dame won 105 games, lost twelve, and tied five under the super coaching of Knute Rockne.

* * *

Last December Tulane flew the American Flag on its campus at half mast in honor of a negro for the first time. He was a negro janitor, seventy years old and for thirty-four years had tended the building of the Engineering College.

* * *

Among a group of the University of Penn. students, who were asked, "Who is the vice-president of the U.S.A." were three seniors, who had not the slightest idea. One said he knew it wasn't Roosevelt, another thought it might be a guy named Robinson."

—Tulane Hullabaloo.

* * *

The Law students of the University of Texas do not wear the usual cap and gown at graduation. They wear Linen suits with sun flowers in the lapels because the tradition begun in the '90's by the professor of law. He suggested—"Just as the sunflower takes in impurities and gives off purity, as it turns its head toward the sun, so we want our lawyers to be fair and square, to turn to the light, and bring justice to all people everywhere."

* * *

At a meeting of the Big Ten editorial association, Huey Long was condemned for "Political Meddling in Educational Affairs," because of his actions in connection with "The Reveille," the college newspaper, lately. After passing the resolution a wire was sent to the senator explaining their move.

Tech Students Head Bible Classes

Tech students have taken an active and interesting part in the various religious societies near the campus this year:

Newman Club (Sacred Heart):
Vincent McMahon, President.
Rene Martin, Vice-President.
Charles Bautz, Secretary.
Dillon Kalkhurst, Historian.

St. Mark's Methodist Church:
Bill Morrison, President Tech Class.
Ray Kytte, Vice-President Tech Class.

Ralph Cole, Secretary Tech Class.
Marvin Kilgo, President Young People's Union.

North Avenue Presbyterian:
James Skinner, President.
Robert Bowen, Vice-President.
Bill Crichton, Secretary.

All Saints' Episcopal:
Ed Sack, President

Jewish Temple:
Herb Kanter.

First Baptist:
S. S. Neister, President Tech Class.
Roy Richards, Vice President Tech Class.

Emory McGinty, Secretary Tech Class.
Maurice Sowell, President B.Y.P.U.

Peachtree Christian:
Jim Simmons, President Christian Endeavor Society.
First Presbyterian:
James Doom.
Jack McKinnon.

Dr. Brittain Receives Novel Gavel

At the first faculty meeting in 1935, Dr. Brittain will call the assembly to order by rapping on the table with a gavel shaped from a piece of Georgia oak taken from the historical old vessel, *Constitution*, which played such an important part in early American naval warfare.

The block of wood from which the gavel was carved was obtained from Boston, the port at which the frigate, *Old Ironsides*, was launched in 1797, through the efforts of Captain J. J. London, former commandant of the Georgia Tech Naval R.O.T.C. unit.

Commander Mark C. Bowman, present Commandant of the Tech Naval unit, and Professor J. H. Henika, affectionately known to Tech students as Uncle Heinie, decided that a gavel should be made from the timber. Uncle Heinie immediately began work and produced a highly finished gavel with a metal bearing an inscription of its origin and significance.

A world bridge olympic will soon be carried out through the mail by the National Bridge Association of New York.

SPECIAL NOTICE, SENIORS

Identification on Senior pictures for the 1935 Blue Print will be posted on the Academic Building bulletin board Monday, Tuesday and Wednesday of next week. Please check this for correct name and picture at once. Report mistakes to the editor or at the Blue Print office Monday through Wednesday between 4:00 and 4:30 P. M.

BIBLE CLASS, NOTICE!

United States District Attorney Lawrence Camp will teach the Gene Turner Bible Class at the First Baptist Church next Sunday morning. This is one of the Tech classes. All Tech students are invited.

State Conference To Be Held Soon

By Johnnie Williams

Wesleyan College will be the place in about two months from now for the annual meeting of the State Student Y.M. and Y.W.C.A. Conference. The program this year as planned by the state officers is to follow more closely than ever the work of the "Y" on the campus. Many interesting speakers are to be present to discuss the "Y's" program.

A program of recreation will follow along with the program of the conference. Last year the Tech delegation tied the Georgia delegation in softball and this year hopes to break that tie in Tech's favor.

The delegates to this conference have benefit of Wesleyan's fine gym and social rooms. The conference occurs during the school's spring holidays, but many of Wesleyan's fair remain over to help entertain.

The conference this year is planned to be a better and more beneficial one than those preceding. It is hoped that each school will have a large delegation to learn more of the "Y's" work.

Wirephoto Executive Addresses Seniors

This morning at 11:00 o'clock the senior class of Electrical Engineering students were given a most interesting and educational talk on the latest move toward a greater advancement in the field of journalism—wirephoto.

The students were addressed by one of the executives of the wirephoto (Continued on Page 6)

Glenn and Perkerson Report N.S.F.A. Meet

Billy Glenn and Jerry Perkerson returned from the tenth annual Congress of the National Student Federation of America in Boston with tales of a very interesting and successful meeting.

The Convention lasted from December 28 through January 1 at the Parker House Hotel in Boston. 184 delegates representing 123 member colleges and 17 observers were present to discuss the position of the American student in relation to his collegiate life as well as to express student opinion concerning national and international politics.

Wesley D. Osborne acted as Congress Chairman and had as his principal assistants Norman S. Atwood as Vice-Chairman, Palmer D. Scammell in charge of finance, Mildred E. Peterson as social hostess, Catherine Coughlan in charge of the general staff and Samuel A. Bornstein in charge of publicity. This committee, all Boston University seniors, were responsible for the mechanical success of the Congress and the arrangement of the program.

In a telegram to NSFA President John A. Lang, President Franklin D. Roosevelt said, "I send greetings to the student leaders of America and wish for your meeting every success in clarifying your problems and in deepening your determination to solve them in the spirit of devotion to that high idealism characteristic of youth."

"This administration has been ingrossed preface in the problems of economic recovery. I am fully aware, however, that economic recovery is ultimately to be appraised in terms of the enrichment it makes possible in

human lives. Human resources are above physical resources. The purposes which inspire the college youth of today will determine largely the value of the human resources of tomorrow. Your opportunity and your responsibility are great."

Dr. Henry Noble MacCracken, President of Vassar College, sounded the keynote of the Congress at the first plenary session with a plea for unconditional free speech and collective bargaining between students and administrations in our colleges.

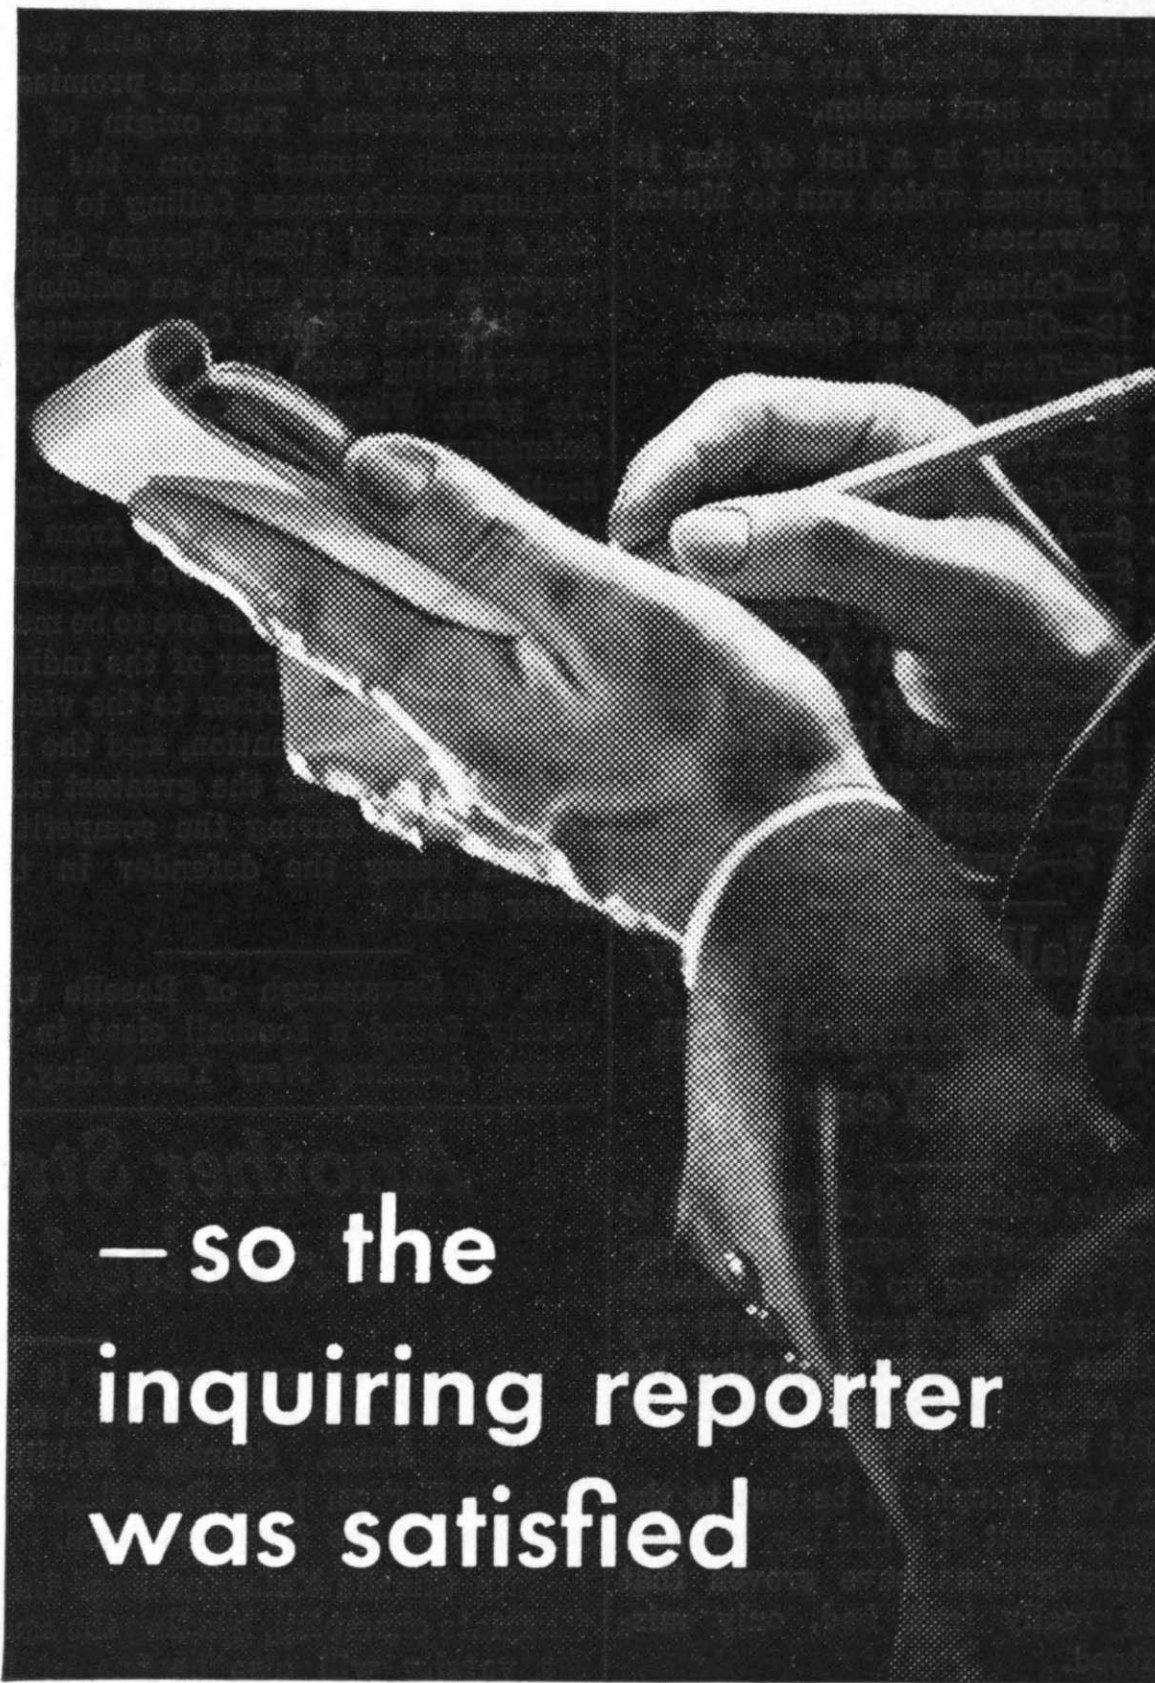

"I propose, first," he said, "that the student body through their constituent society be granted the right of collective bargaining with the trustees of their college. All plans affecting the welfare of students, the endowments for scholarships and housing conditions, the expansion or contraction of college services, should come before this body."

"I propose, second, that through a student commission on the course of study, under-graduates should have the right of free expression of opinion in all requirements for degrees, as to hours of study, number of courses, standards of work. They should have the right not only of criticizing poor teaching but of seeking redress when (Continued on Page 6)

CAGE SCHEDULE COMPLETED

Fifteen Games Make '35 Basketball Scheme

The Yellow Jackets of 1935 opened their regular schedule last Wednesday night with the New York Celtics, the outstanding professional team in the country for the last several years, at the City Auditorium. During the past week, however, Tech has also played two practice games with Fort McPherson and the Calvary winning both with a safe margin.

The Engineers travel to Clemson tomorrow night for their first trip and opening college game of the season. Coach Mundorff has scheduled the usual three game series with Tech's old rivals, the Georgia Bulldogs. Two of the games are to be played in Athens and the third at the Auditorium. The only intersectional game is to be played in Cincinnati with the St. Xavier five as Tech's opponents. Although that is the only college game scheduled outside of the southeastern conference, the Jackets will make several trips. These include jaunts to Nashville, Lexington, Macon and Knoxville.

The Southeastern Conference Tournament which proved fairly successful last season, will not be held this year, but officials are aiming to have it here next season.

The following is a list of the 15 scheduled games which run to March 2nd, at Sewanee:

- Jan. 9—Celtics, here.
- Jan. 12—Clemson, at Clemson.
- Jan. 16—Tenn, here.
- Jan. 19—Georgia, at Athens.
- Jan. 25—Vanderbilt, here.
- Feb. 2—Georgia, here.
- Feb. 6—Auburn, here.
- Feb. 8—Vanderbilt, Nashville.
- Feb. 9—Kentucky, at Lexington.
- Feb. 12—Auburn, at Auburn.
- Feb. 16—St. Xavier, at Cincinnati.
- Feb. 18—Tenn., at Knoxville.
- Feb. 22—Mercer, at Macon.
- Feb. 23—Georgia, at Athens.
- March 2—Sewanee, at Sewanee.

Woodall and Stacy Expect Competition this Year

With the addition of Kitty Katz to the Tech basketball squad, things appear to be looking up a bit, although Coach Mundorff refuses to make any predictions whatsoever regarding his opinion as to the ultimate outcome of the 1935 basketball season.

Katz was thought to be lost to the team on account of a bad leg, but several investigations have proven that the leg really isn't bad, only misunderstood.

The 1935 squad, consisting of Glenn, Hyder, Kidd, Woodall, Bouleware, Stacy, Hays, Tharpe, Ponder, Davis, Crawford, and Katz, have shown up fairly well in practice, with possible emphasis on the sophomore and junior members of the squad. These are the lads who have taken it upon themselves to replace Center, Poole, Van Houten and Slocum of the '34 edition of the Tech basket sinkers.

Woodall and Stacy, high scorers of yesteryear, are determined to hold their distinctions, but are looking forward to a bit of trouble from Kidd, Hyder, and several others.

Although it is regrettable that the games still have to be played at the Atlanta Auditorium, some progress has been made in acquiring the Naval Armory for a practice floor. Of course next year will see a modern gym with all the conveniences a college gymnasium should have. This year, however, we still have to make the trek in the rain (it always rains on Friday) to the Auditorium.

Second Annual Tennis Meet Planned for May

The dates of the second annual Southern Intercollegiate tennis tournament were announced last week, and all indications are that more College tennis stars will be at hand for it than have ever gathered in Atlanta before.

The tournament as last year, will be sponsored by George Griffin, and will continue from Thursday, May 16 through Saturday, May 18.

Last year, as its first trial, the tournament met with such approval and enthusiastic support from contestants and Atlanta officials, it was agreed it should become an annual affair. In the 1933 meet, nine colleges were entered, and was won by Billy Reese, captain of the Georgia Tech team.

Teams from North Carolina, Duke, Davidson, Tulane, and at least sixteen other leading colleges of the South are expected to be entered in the 1935 contests. The increased entrance list is due to the fact that last year the dates were so late in being diverged that most of the teams had completed their schedules.

It will be a real event for the tennis fans of the city to be able to see such an array of stars, as promise to appear, perform. The origin of the tournament comes from the two southern conferences failing to sponsor a meet in 1934. George Griffin, however, together with an official of the Biltmore Tennis Club, succeeded in arranging such an event early in the year. Players attending schools belonging to either the southern or southeastern conferences are eligible to enter, as are contestants from colleges in neither of the two leagues.

Three special awards are to be made. The first to the winner of the individual competition, another to the victorious doubles combination, and the last to the team scoring the greatest number of points during the competition—Tech being the defender in this latter field.

A. J. Cavanaugh of Roselle University found a football cleat in his turkey dressing New Year's day.

Another Strong Golf Team Promised Tech Rooters

Another great golf team is in the making at Georgia Tech as such stars as Ben Jones, Stanley Holditch, Tommy Barnes, Paul Reynolds, seek positions on the freshmen team.

With Charlie Yates, national intercollegiate champion, heading the squad the varsity will also be one of the strongest teams in the South. The returning nucleus besides Yates includes Charlie Dannals, Berrien Moore, Jr., Bill Carver, John Ridley and possibly Bruce Morgan.

The varsity will be coached by Professor H. L. Dennison, who turned out the successful team of last season.

Ga. Tech Basketeers Make Good Showing Against Celtics

The Tech Basketeers made a fine showing against those wandering experts of the hardwood floor, the Celtics, last Wednesday night at the Atlanta Auditorium in the opening home game of the Tech squad. The present squad consists of Woodall, Bouleware, Hyder, Glenn, Hays, Stacy, Kidd, Katz, Crawford, Davis and Ponder.

At the end of the first half, the Celtics were leading by a score of 23-7. Coach Mundorff decided that something should be done so he up and put in Bouleware, Katz, and Kidd to start the second half. The final score tells the good points of this move. The substitutes not only rang up 18 of Tech's points, but played excellent defensive ball to keep the size of the Celtic score for the second half down to five hard earned points.

However, the Celtics, recognized as world champions last year, seemed more interested in giving the fans a good show in passing and ball handling than in running up a big score against the Tech lads. They always seem to win by a small margin, and yet they never lose.

Kidd, a junior, coming in at the second half, led in scoring for the Jackets with eight points, all tallied up in the closing five minutes of the game. Woodall and Hyder came second with four each. The exceptionally clean ball played by both teams was proven by the lack of free throw points. The Celtics tallied two while Tech was satisfied with one lonely point.

The Celtics naturally are confident after so long a series of victories. Each man seemed to have his own little act to put on and did it with perfection. Tall Joe Lapchick delighted in palming the ball in either of his massive hands and passing in almost any direction without looking. David Banks, the smallest of the Celtic men, concentrated his applause arousing efforts on shooting the ball through

Freshman Basketball Outlook Promising

After barely outscoring the Fulton Bag and Cotton Mill in their first game of the season on December 19, the freshman basketball team trimmed these same opponents by the score of 59-21 in the naval armory January 5. In this second game the freshmen completely outclassed the Fulton Bag team which was unable to score a field goal until near the end of the first half. While the freshmen were thoroughly checking the opposition, their offense was piling up a huge score.

Ben Jones and Ed Jones at forward, Jordan at center, and Sims at guard were the high point men in this scoring spree. Due to an inquiry, "Bo" Johnston, of whom much has been expected, was unable to play in this game.

The freshmen have been steadily improving, and Coach Mundorff hopes to develop an excellent team. He says also that there are several very fine prospects among this group.

The freshmen are also scheduled to meet the following teams: Marist, January 7; Wells Turner High School, January 9; Lanier High School, at Macon, January, 19; Lanier High School at Atlanta, January 26; Canton High School at Canton, February 5; West Georgia College at Genola, Ga., Feb. 9.

Games are pending with teams from Chicopee Mills, Eastonlee High School, Darlington Prep, Canton High School at Atlanta, and the Atlanta High Schools.

In their 1st exhibition game, the Freshmen succeeded in defeating Marist College of Atlanta, 53-20. Ben Jones and Joel Tierce led the Jackets in their attack.

some Tech guard's legs or tossing it backward over his head to the ever-waiting Dehnert.

Pete Barry, with his twenty-odd years on the basketball floor, led the opponents in scoring with eleven points.

The new Naval Armory is now used as a basketball practice court. This eliminates the trip every day down and back from the Atlanta Athletic Club, where practice has been held for the past three years. Coach Mun-

Clemson Replaced By P. C. on Revised Schedule

Atlanta Sport fans will have an opportunity to watch the Georgia Tech football team perform seven times in Grant Field next year. The Tech eleven will only leave the home field three times for games. First they travel to Lexington for the Kentucky game, then several weeks later to Chapel Hill for the Carolina scrap, and finally to Birmingham for the Alabama tussle.

The final schedule replaces Clemson with Presbyterian College as the initial combat, with Sewanee as the second game. Thus the Jackets will have plenty of time before meeting the tougher rivals.

However, the Clemson game will be back on the schedule in 1936.

Presbyterian, coached by Walter Johnson is a fast, hard working outfit that will be very helpful to Coach Alex in rounding the team in shape.

In 1936 many of the contracts with our so-called "deadly" rivals will expire, but there will be immediate renewals. What is a football season without the Tech-Duke squabble, or the annual Alabama-Jacket meeting?

Tornado supporters are promised that in the future there will be no more topheavy schedules such as we suffered with last year. Therefore our team will have a better chance next year, and we will again boast a winning outfit on Grant Field.

The 1936 schedule:

- September 27 — Presbyterian at Grant field.
- October 5—Sewanee at Grant field.
- October 12—Kentucky at Lexington.
- October 19—Duke at Grant field.
- October 26—North Carolina U. at Chapel Hill.
- November 2—Vanderbilt at Grant field.
- November 9—Auburn at Grant field.
- November 16—Alabama at Birmingham.
- November 23—Florida at Grant field.
- November 30—Georgia at Grant field.

dorff says that this court should help develop new material and seems to be concentrating his efforts on a championship team in 1936.

Freshman "Y" Club Plans Program

A varied program consisting of a spring retreat, a freshman dance, and several lectures, is being planned by the Freshman "Y" Club, which has been meeting once a week during the school year. This Club offers to freshmen the opportunity to work themselves in on future activities of the "Y." It is the only club on the campus whose membership is limited to freshmen, and any number of the freshmen class is eligible to become a member. The club offers splendid opportunities in the way of campus activities. It furnishes recreation for its members, and its social functions are always well attended and enjoyed.

This club also offers to its members a religious and Christian atmosphere which is very beneficial. Many interesting speakers come to talk and lead discussions on religious topics. Some of these who have spoken during this year are Professor Rainey, Dr. Herod, and Mr. Proctor.

The club welcomes any new members to come and enjoy with them their varied and worth-while program. An invitation and welcome is extended to all freshmen.

Final Plans For Dances Announced

(Continued from Page 1)

cepted at the door for admission to the Pan-Hellenic or the Tea Dance, Friday; This is very important, and it will be appreciated if all of the members will cooperate and sign these tickets before presenting them for admission or exchange, it was announced by the dance committee.

Tickets may be secured from the treasurers of the various fraternities. Block tickets may be obtained at the Student Supply or from any member of the dance committee.

"Y" Motion Pictures Prove Very Popular

More than twenty-five different subjects have already been shown on the screen since this feature of the Y.M.C.A. program was introduced. The outstanding picture was "The Sign of the Cross." This production will be shown again next Sunday evening at a young people's meeting at eight o'clock.

The Y.M.C.A. is attempting to show not only the best religious pictures, but the outstanding scientific and historical subjects as well. The following subjects are some of those which have already been shown. Any of these will be repeated if there is sufficient demand on the part of the students:

- "The Sign of the Cross."
- "The Arrangement of Atoms and Molecules in Crystals."
- "Constitutions and Transformations of the Elements."
- "Business in Great Waters."
- "Sky Harbor."
- "Oil Films on Water."
- "A Trip from New York to San Francisco aboard the new All-Electric Liner Virginia."
- "The Arteries of Industry."
- "Magic versus Science."
- "Romance of the Reaper."
- "The Life of Thomas A. Edison."
- "A Modern Knight."
- "A 'P.B.X.' Prescription."
- "Sky Harbor."
- "Net Work Broadcasting."
- "The Gateway to the World."
- "New Voice Highways."
- "Making the Grade."
- "Finding His Voice."
- "Switchboards, Old and New."
- "Krakatoa."

The show for tonight, Friday, January 11, at 7:00 P. M. in the Tech "Y" auditorium is "A Trip to the Ford Automobile Plant," showing the manufacturing processes of automobiles in mass production. Also several reels on "The World's Fair," in addition to two reels on "Speed and Endurance in climbing Pike's Peak." At all shows there are a few short comedy subjects.

The "Y" is trying to arrange to bring other interesting topics in the field of electricity, chemistry, geology and biology. Notices will be placed on the bulletin boards on the day before the regular showings, on Tuesday and Friday, for the information of students.

"Y" Sponsors Series of Tournaments

The Ping Pong Tournament sponsored by the Y.M.C.A. swings into the final matches next Tuesday afternoon, January 15, at four o'clock. Sixty students have taken part in this double elimination tournament to find our ping pong champion. At the appointed time a ping pong table will have been placed in the "Y" lobby and there will be ample room for a large number of students to witness the final matches.

All ping pong enthusiasts are invited to come and see the following: C. J. Grossi, Jos. Taddio, L. E. Carpenter and H. B. Sanders demonstrate the ping pong prowess and skill which has enabled them to remain undefeated in the tournament. All of the above are certain to get one of the prizes offered.

The students and the Y.M.C.A. are very grateful to the merchants who have added much to the tournament by donating the following awards:

First prize, a school pennant (The Tech College Inn).

Second prize, a sweater (The Tech Shop).

Third prize, a box of school stationery (Standard Pharmacy).

Fourth prize, a box of school stationery (Standard Pharmacy).

The awards will be made after the final game. The results of this tournament encourage the Y.M.C.A. to promote other tournaments.

Tournaments in chess, checkers, billiards and pool are being planned, and awards will be secured. Watch "Y" bulletin board for appointed date to sign up.

Scientists Prefer Blondes for New Humidity Tests

Miss Anita Loos, in her excellent book proved that "Gentlemen Prefer Blondes"—but it was only very recently that a research assistant in the department of meteorology at M.I.T., one Athelstan F. Spilhouse, by name, proved that "Scientists Prefer Blondes." As to whether our Mr. Spilhouse, in defense of his profession, merely proved that scientists are gentlemen, and substituted (with apologies to our high school Geometries) "equals for equals" we cannot say.

It has long been known that the human hair acts peculiarly in the presence of water vapor. When there is considerable water vapor in the air, hair elongates. Conversely, it contracts when the air is dry.

Thus by measuring the amount of elongation of the hair with very delicate instruments, experts can calculate the humidity of the air. Difficulty is encountered because the hair does not immediately respond to differences in humidity, but exhibits a certain "lag."

"Lag" or no "lag," however, our Mr. Spilhouse has found that blond hair performs best in his hygrometers since its co-efficient of linear thermal expansion is greatest. Black, Brown, or red hair simply won't stretch as much as blond—and peroxide won't help. We suggest this method for ascertaining whether or not the little lady's golden locks are the real thing.

Mr. Spilhouse is at present investigating the effect of dandruff on the stretch of a hair and expects by 1943 to have his data in the form of an hypothesis. But don't suffer with dandruff until 1943—just remember "A dash of ——— will cure that touch of dandruff."

"Y" Nominations and Elections to be Held Soon

(Continued from Page 1)

ber of votes shall be declared elected. In the case of a tie, the Chairman of the Board of Directors shall cast the deciding vote.

Newly elected officers shall assume their duties at the last regular meeting of the scholastic year. This meeting shall be called by the President for the purpose of reading his yearly report and for the installation of new officers.

International Relations Club Meets to Discuss Books

The International Relations Club will meet Sunday, January 13, at 4:00 P. M., in the social room of the Tech Y.M.C.A. Several books from the Club's own shelf in the library will be discussed. These are "The Air Menace and the Answer"; "Crisis Government," and "The Heritage of Freedom." In the months before the holidays the Club held three meetings, the first of these was for the purpose of organization. At the second meeting Professor Rainey spoke on the effect of the World War on international alignments. The speaker at the third meeting was Dr. Ross H. McLean, Professor of European History at Emory University; his subject was "The Rise of Hitlerism." For this address the Club met jointly with Sigma Gamma and the Cosmopolitan Club.

This Club, sponsored by the Carnegie foundation, is unlike the majority of the clubs found on the campus, in that it has its main objective the enlightening of students on national and international subjects. The Club meets once a month to discuss subjects of particular interest. Membership is open to all interested students.

The Club plans to have at some time in the spring a conference on some important and interesting topic, at which time members of various outside organizations will speak and lead discussions. It is hoped that the colleges in Atlanta and surrounding territory can be invited to attend.

Rifle Team Expects Successful Season

The Ga. Tech Rifle Team held its second meeting of the year January 3, at which an election of officers was held. J. W. Lucas was elected Captain of the team as well as the Senior class representative. H.H. Rogers was elected representative of the Sophomore class, and J. R. Childs, representative of the Freshmen class and also Captain of the Freshmen team. Men in their respective classes who are interested in the Rifle Team and who are desirous of trying their skill should see their class representative.

Greater interest has been shown this year than ever before with thirty men now on the team. The Rifle Team is supervised by Captain Fred B. Waters of the C.A.C. who is very enthusiastic and active.

The Rifle Team like other competitive teams suffer from graduation. Returning this year some of the outstanding shots are J.H. Mulder, twice a competitor in National matches at Camp Perry, Ohio, B. J. Harrison, H. H. Rogers, and C. M. Lokey. The Freshmen class also offer some very fine shots.

This year's schedule of competition includes matches with fifty of the outstanding college rifle teams of the country and also two "shoulder to shoulder" matches with the University of Ga. and Auburn.

The team will practice every Monday, Tuesday and Thursday under supervision of Captain Waters.

Frosh Scholarship Cup to be Presented

At the annual Honor Day Exercises to be held this Spring, Phi Eta Sigma, National Honorary Freshmen Fraternity, will present a handsome silver cup to the freshman with the highest average during his first semester at Georgia Tech. This trophy is given as a reward for the hard study, the concentration, and the careful, diligent work expanded to attain such good scholarship. It is the highest scholastic honor available to any first year man.

In previous years the presentation of this award has been keenly looked forward to, and the competition among the students to win the trophy has done much to stimulate scholarship in the Freshman class. Last year the cup was won by John W. Clegg, who attained an average of 4.6 during his first semester.

During these same exercises recognition and honor will be bestowed on all Freshmen who make an average of 3.5 or better and are to be initiated into Phi Eta Sigma.

Harvard has arranged what has been termed a "Suicide" schedule for the '35 football season. They will play consecutively Amherst, Brown, Army, Dartmouth, Princeton, Virginia, Navy, and Yale.

We Repair all Makes of Radios

Turner's Radio Service

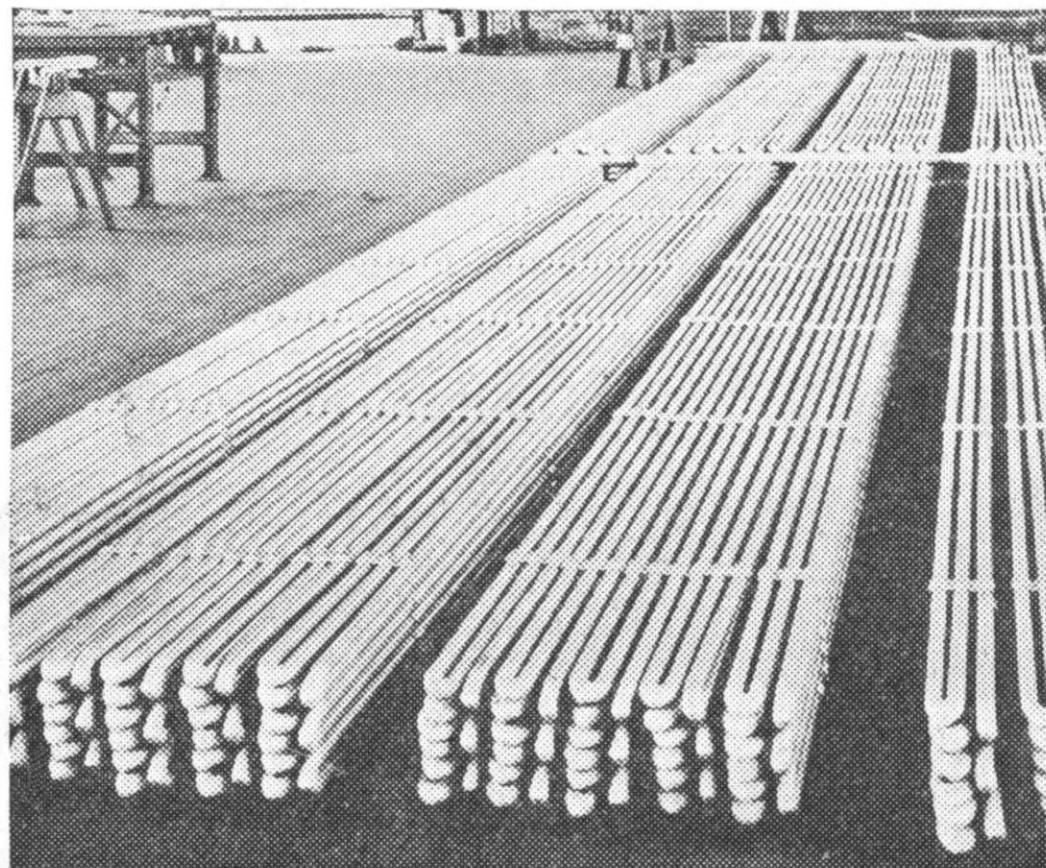

602 Spring St., N. W. HE. 3007

For Jointless Strength and Safety

Products fabricated by welding are jointless, leakproof, permanent and safe. Improved methods of testing make it possible to tell exactly what stresses or loads a jointless welded assembly can take. Metals of different compositions, providing the most suitable material for the service it is to perform, can be welded into sound unified assemblies forever free from any of the losses which occur from joint failures.

Specialized Welding Assistance

To utilize the new alloys and metals fully, the advice of competent engineers in welded design is advisable. The Linde Air Products Company, a unit of Union Carbide and Carbon Corporation, has for many years specialized in the development of new ways to use oxy-acetylene welding. Linde Engineers will gladly consult with you without obligation, and help you use welding and

SEVEN HUNDRED WELDS—were needed to make this assembly of aluminum piping.

New Metals Emphasize Desirability of Jointless Design

Welding Preferred Method for Fabricating Jointless Designs from New Materials

By H. E. ROCKEFELLER*

Welding is an important aid in securing the full benefit of the newer light weight alloys, corrosion- and stain-resistant steels and other ferrous and non-ferrous metals. Jointless welded designs in these new metals make the finished product attractive in appearance, efficient and economical to use and enable it to be priced salably.

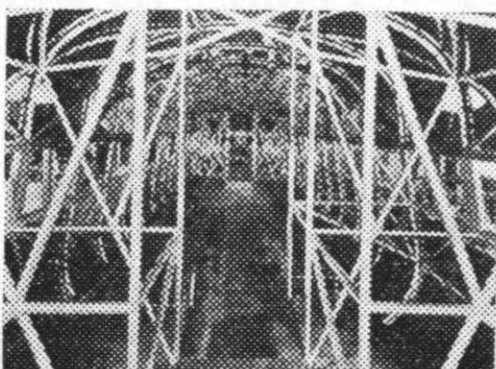

In All Industries

Fabrication by welding can be undertaken without heavy capital expenditures and carried out at low cost. Welding is used in every industry for maintenance, for construction and for the fab-

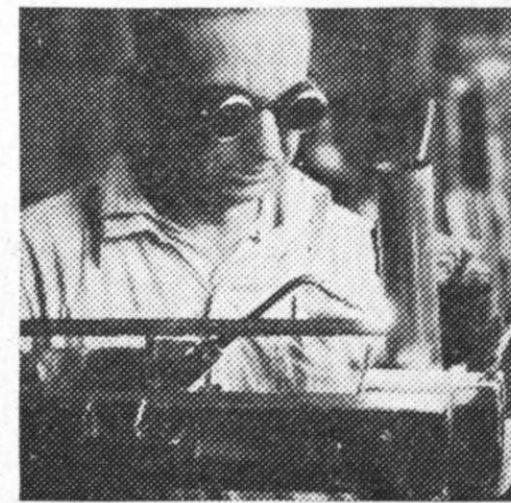

rication of many products. The welding of mechanical refrigerators and gas ranges is typical of its production applications. Other typical applications include welding of chromium steel for resistance to sea water corrosion on seaplane pontoons, welding aluminum fuel tanks for airplanes, welding of the frame work of alloy steel on the new high speed railroad trains, welding of stainless steel beer barrels and innumerable other familiar products.

Welding is Simple Production Tool

Welding is the preferred method of fabricating almost every design in modern metals. Jointless welding can be done rapidly with a minimum of preparation of the pieces to be joined. Under procedure control providing jigs for positioning pieces, production can be as rapid and as free from rejections as any highly developed factory process. From the plant equipment standpoint it is easy to adopt welding. From the personnel standpoint the welding technique is quickly acquired through instruction by competent engineers.

HERE'S HOW—the framework of the light weight, streamlined rail cars for high speed is Linde-welded from chrome-molybdenum steel tubing.

IN JIG TIME—using jigs, welded joints can be made quickly in any commercial metal or alloy.

organize for welding production. This assistance can be secured by a telephone call to any Linde Sales Office. They are located at Atlanta—Baltimore, Birmingham, Boston, Buffalo, Butte—Chicago, Cleveland—Dallas, Denver, Detroit—El Paso—Houston—Indianapolis—Kansas City—Los Angeles—Memphis, Milwaukee, Minneapolis—New Orleans, New York—Philadelphia, Phoenix, Pittsburgh, Portland, Ore.—St. Louis, Salt Lake City, San Francisco, Seattle, Spokane and Tulsa.

Everything for oxy-acetylene welding and cutting—including Linde Oxygen, Prest-O-Lite Acetylene, Union Carbide and Ox-weld Apparatus and Supplies—is available from Linde through producing plants and warehouse stocks in all industrial centers.

Engineer, Development Section, The Linde Air Products Company, Unit of Union Carbide and Carbon Corporation.

Socially Speaking

(Continued from Page 2)

football squad goes and gets himself all balled and chained up to the home town true love during the holidays best luck Mr. and Mrs. "Fergie." Seems that Frances is bearing the Cross of Sigma Chi Diamonds and all, and that's no Kidd-ing either. Seems that at a recent dinner dance there was a reason for all the hard looks of one Rayford Kytte after all, a date is a date. Seems that Cheer Leader Freddie Fuchs is deversity itself spending the vacation or at least a major part of them in the Pent House of a former Atlantan that is now a star in Life begins at Eight Forty, and at the same time takes it on the Chin down Florida way when Annabelle Graves the A D Pi Femme almost gets hooked up with a widower. Yep a junior and all.

* * *

MORE RUMBLINGS—Try this on the old Tonsils, Sara T du Bignon Glabier, its the name of a babe so elp me. One of the more attractive of the budding architects at Auburn to be exact. And is she secretive, talks to herself all the time and what a complexion but they help. The Betty Fugitt Bob Montgomery affair seems to be getting to the Torrid stage fast. Seems that by a two column picture in the picture we see that Marion Fugitt is a member of the student body of Oglethorpe. Well dame we can't compete with this so so long glad to have known you.

* * *

JOHN RIDLEY and Co. are indeed to be congratulated on the selection of the band for the mid-term dances. Kay and his boys when they went into the Black Hawk filled one of the toughest spots that a band has been called on

Young People Meet at Y.M.C.A.

lege Life," Maurice Sowell, First Baptist Church.

Song: "At The Cross"—Tech "Y" Singers.

Talk: "Jesus and Good Will"—Ray Kytte, St. Mark's Church.

Song: "God Be With You Till We Meet Again."

Closing Prayer: Jim Simmons Peachtree Christian Church.

Refreshments.

Show: "The Sign of the Cross."

to fill in a long time. However he replaced the popular Hal Kemp and has made good. "Sully" Mason, "Art" Wilson, and Bill Stoker are featured vocalists together with a Glee Club in which practically every man in the orchestra sings. Kay is a Southern Boy from the University of North Carolina and understands just the kind of music Tech wants for the Mid Term dances. In fact, he played for the Finals in 1927 at the flats.

* * *

HERE AND THERE WE FIND—That altho Oscar Thompson had a date with Rosemary Manry for the Phi Pi Dance recently the casual observer would never have guessed it and would have sworn he was with Mary Elizabeth Barge, the Athlete of yesteryear holding hands in dark corners and what have you. While on the subject of the big sweat shirt men it seems that the Williams-Early combination is more than a passing fancy. The Pounds-Phillips affair is the real McCoy we are positive, while the little dynamo frequents Decatur and "Soups On" Earthman is way up on the list.

Glenn and Perkerson Report N.S.F.A. Meet

(Continued from Page 3)

such teaching interferes with their profitable use of time and money."

Regarding student suspensions and expulsions he said: "Too often in America teachers who ought to be dismissed for negligence in their own speculations take compensation in arbitrary disciplining of a student."

The present system of college administration, he declared, which denies to student government all authority except over the most trivial aspects of student life, is a "training in petty tyranny."

The new America, he held, which is likely to be governed far more than formerly, "by bureaus of government officials recruited from the ranks of college graduates," needs the laboratory of student self-government.

Dr. Robert L. Kelly, secretary of the Association of American Colleges, asked for similar student-faculty-administration cooperation especially in matters involving academic freedom. In reference to student government, he said: "On behalf of the most alert colleges of the country, there is no student interest which is rightly outside the province of student government. In numerous colleges students are participating cooperatively in the educational program, in committees on building and grounds, and in many other ways are attempting to work out a general standard of civilized life on the campus."

Progress of plans for a Federal Youth Service to aid in the solution of the problems of 7,000,000 jobless young people between the ages of 16 and 25 was described by Dr. Frederick J. Kelly of the United States Office of Education. This Service, originally

outlined to the Department of the Interior by NSFA President John A. Lang, has according to Dr. Kelly, received the support of officials in the Office of Education. He explained that "the recommended budget provides for the employment of sixteen specialists in guidance, adjustment, education, leisure-time and community organization. They would establish a central clearing house of information on youth needs and programs and show communities how to develop services in which each youth-serving agency would play its part with greatest effectiveness and least interference."

With a prophesy of gradual and steady recovery Henry I. Harriman, president of the United States Chamber of Commerce, sounded the most optimistic note of the Congress.

"Stressing economic security of the individual as basic in any recovery program, he suggested a seven point plan, including home ownership, gradual steps toward unemployment and disability insurance, legal safeguarding of investments, revision of the

Wirephoto Executive Addresses E.E. Seniors

(Continued from Page 3)

department of The Atlanta Journal. The Journal is the only newspaper in Atlanta that handles wirephoto pictures, having the exclusive right to bring to the people of Atlanta and Georgia the latest news in pictures.

The technical side of wirephoto was thoroughly explained to the electrical seniors, and the possibilities of further development in this and other fields was explained.

It was pointed out that a picture can be sent by the new process in a remarkably short time, and the difference between a wirephoto and an original photograph can hardly be distinguished.

NRA and AAA toward a greater self-government of business, coordination of all forms of transportation, and the readministering of relief to become a stepping stone to jobs."
