"TECH DAY" PLANS ANNOUNCED

ELEVEN MEN ELECTED TO 1935-36 STUDENT COUNCIL POSITIONS

Honor Day, Anak Field Day,
O.D.K. Tours to Be Featured

ELABORATE PLANS FORMULATED FOR TECH DAY

One of the biggest events of the school year is scheduled to take place Tuesday, April 23, in a combination of Honor Day, Anak Field Day, and Parent Day.

This unusual combination of events unites to form Tech Day, the first such day in the history of the school, and elaborate plans have been formulated to make Tech Day a red letter event on the school calendar.

The morning of April 23 will be filled with the Honor Day part of the ceremonies, with awards, in the form of scholarships, scholarship cups, the President's Gold "T," and numerous other scholastic recognitions being given to outstanding students.

The Inter-fraternity Council will also present a loving cup to the fraternity making the best scholastic record for the past year.

Parent Day will follow the Honor Day exercises. O.D.K. and the Freebody Club have made arrangements to conduct a tour of the campus and the various departmental buildings for the parents of the students who are in attendance. Letters have been sent to the parents of the students by these societies, and it is expected that a large number will be present. A very interesting day is promised for all those in attendance.

The annual Anak Field Day will hold forth during the afternoon, at which time competitive athletic games and track meets among individuals and representatives from the various campus honorary, professional, and social fraternities. Prizes will be given to the winning competitors, among which is a loving cup that will be presented to the organization aggregating the most points.

CO-OPS REPORT AMPLE PART-TIME JOBS

Mechanical Engineers from railway machine shops, Civil Engineers from surveying jobs, and Textile Engineers from the great southern cloth mills were among the co-operative students who returned to Tech Monday, March 25, from their three months' labor in industrial plants and technological industries throughout the United States. Approximately the same number left Tech the previous Saturday to take the jobs their fellows have been working at for the last thirteen weeks. Atlantic Coast Line Railway, Central of Georgia Railway, DuPont Chemical Co., and Georgia and Florida road departments are among those cooperating with Georgia Tech in helping Tech boys pay their way through school while securing a practical education in the field they intend to carry on for a life's work.

Tech's Co-op department, one of the few in the country, was established in 1912. The five-year courses, alternating three months study and three months work, enable many boys to receive engineering degrees who would not get them otherwise. The courses are arranged in order to furnish practical experience in the subjects which have been studied in theory at school. The work periods sometimes eliminate the period of engineering apprenticeships which most regular students have to go through and often gives the Co-op student a running start in the race for big pay engineering jobs.

NOTICE

Due to the Easter holidays, there will be no issue of The Technique next week-end. The next issue will be Friday, April 26.

Ferd Kaufman Awarded Orchid For Loyalty to Georgia Tech

In tribute to his unselfish and public-spirited work, The Georgian, the Florists' Telegraph Delivery Association, and Walter Winchell presented to Ferd J. Kaufman, Atlanta business man and civic leader, an orchid, for his unswerving loyalty to Georgia Tech, his Alma Mater.

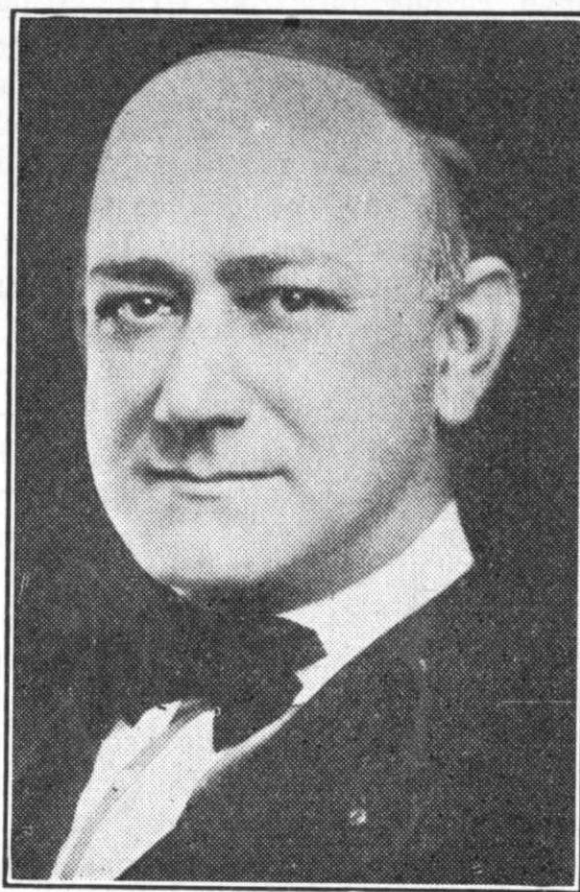

Mr. Kaufman played football on one of Tech's first teams. Since his graduation, he has been one of Georgia Tech's most ardent supporters. In all the years since his graduation from Tech, he has seldom missed a chance to accompany the Golden Tornado on its trips to foreign stadiums. He has frequently officiated at games as head linesman. He has always been one of the most active members of the Alumni Association and has willingly contributed his time and influence for the betterment of his Alma Mater.

Recognizing the need for a new Armory on the Tech campus, Mr. Kaufman made a most generous gift toward the construction of such a building. In addition to this gift, Mr. Kaufman lent his influence, without which the construction would have probably been impossible.

Early last spring, construction on the Armory was started. By February the structure was completed, in time for the Mid-term Dances. It stands today a tribute to the unswerving loyalty and devotion of a true son of Tech to his Alma Mater.

This orchid, a visible symbol of praise for unselfish work, was presented in the name of Walter Winchell who originated the custom of "orchid tossing" in his famous column. In the minds of loyal Tech men, however, Mr. Kaufman has long ago earned his orchid.

Scabbard and Blade Taps Seventeen ROTC Juniors

Advanced Military and Naval Juniors Named at Annual Ball.

"M" Company of Scabbard and Blade, national honorary military and naval fraternity, honored seventeen advanced military juniors at the fraternity's spring military ball at the Biltmore Hotel last Friday night.

The men "tapped" in the unique exercises include:

Infantry—Charles K. Bautz, of Atlanta; Rudolph A. Seigel, of Richmond, Va.; J. F. Darby, of Vidalia, Ga., and J. B. Lindsey, of Irwington, Georgia.

Coast Artillery—S. S. Tomlin, G. A. Smith, L. H. Robertson and E. W. McLain, of Atlanta, and W. I. Rosamond, of Memphis, Tenn.

Signal Corps—W. E. Spaulding, of Charleston, S. C.; L. D. Wall, Jr., of Monroe, Ga.; E. W. Jordahn, of West Palm Beach, Fla., and J. J. Hill, of New Smyrna, Fla.

Navy—Allen Morris, Dan Holsenbeck, Billy Ginn, and James Rankin, of Atlanta.

A breakfast in honor of the new men followed the dance and the initiation took place at sunrise Saturday morning.

Membership to Scabbard and Blade is based on the military records of the men during their R. O. T. C. training course. Leadership, efficiency at drill, and general scholastic ratings are all considered in the selection of new members.

SPECIAL ANNOUNCEMENT!

No longer will two Tech men stare at one another with the questionable glare—"Is he a fellow Tech student?" Every Tech man is now asked to pull up a bit of his school spirit and purchase a new Tech Recognition Pin. Drop in the Student Supply and purchase your pin for 50c.

This move is being sponsored by the Yellow Jacket Club and has been wholeheartedly approved by the Administrative Officers of the school and the Student Council. This is a BIG MOVEMENT FOR A BIGGER AND BETTER TECH!

Excellent Selections Made In Student Council Election

VARSITY DEBATE TEAM ON COLLEGE TOUR

Both the varsity and freshman teams of the M. L. Brittain Debating Society are passing through their period of greatest activity for the season. Ray Kytte, Sam Gibson, Bill Darden, and Hoke Simpson composed the varsity squad that left last Monday for the most important trip of the year. They will return on Saturday after having participated in debates with the University of South Carolina, Winthrop College, Davidson, the University of North Carolina, Wake Forest, and Asheville Normal. The team is debating on two subjects, "International Embargo on the Shipment of Arms," and "The Justice of Recognizing a 'Monroe Doctrine' in the Far East."

Tuesday, April 16, is the date set for the next debate on Tech's own campus. W. J. Ellison and S. L. Steele will meet Tulane for a tussle over the munitions question. In line with the methods instituted by Professors Glenn Rainey and Edward Folk, faculty advisers of the society, it will be a non-decision affair.

A number of interesting debates have just been completed by the Tech teams. On April 4, Joe Tomerlin and Louis Merlin opposed Brenau in Gainesville on the subject of federal grants to equalize educational opportunities in all of the states. Tech was represented by E. C. MacQueen and W. A. Snellgrove in a debate on April 5 against Birmingham-Southern. Two young ladies from Agnes Scott, Betty Mathis and Lillian Sairly, met two freshmen, Joe Brasfield and Boots Halman, last Monday night on Tech's own territory.

NOTICE

Don't forget the regular Anak Saturday Night Benefit Dances at the Armory from 9 'til 12. Admission 40c, individual or couple.

NEW MEMBERS WILL TAKE OFFICES NEXT FALL

Eleven men were selected at the polls for positions on the 1935-36 Student Council in the final election held in the classrooms Monday. Five men were elected from the present junior class, while four were named to represent the present sophomore class and two from the present freshman class.

The junior class elected Dan Holsenbeck, Culver Kidd, Mason Williams, Frank Chapman, and James Rankin. All are outstanding men and should prove a great asset as senior members of the next year's Council.

The sophomore class selected Dick Beard, Lawrence Hays, Harry Appleby, and Vernon Skiles. Beard, Hays, and Appleby are excellent football players. Skiles is an outstanding student in the General Science Department.

The freshmen named as their representatives Jack Nixon, captain of the freshman football team, and Ed Fambrough, stellar track man and member of the band.

The newly elected members attended a banquet at the Tech dining hall Tuesday evening, where they were officially welcomed into the Student Council. They will attend the remaining meetings of the year, but they will not have a vote until next year.

With these men as members of the Student Council, the students are assured of the same efficiency that the body has executed in the past.

In order to avoid all possibilities of any unfairness in the counting of the ballots, the committee was selected from men not on the ballot, and the votes were counted under the supervision of Dean Skiles and Mrs. Taylor in the Dean's office. The signatures on each ballot were checked against the school roll to prohibit double or illegal voting.

Yellow Jacket Club Elects Officers and New Members

At its annual meeting on Wednesday, March 27, the active members of the Yellow Jacket Club elected and installed Johnny Williams as president; Freddie Fuchs, vice-president; Ed McLain, secretary; and Rip Thomas, treasurer, as officers for next year. These officers are already active in their new work. Professor Fred B. Wenn was re-elected faculty adviser. He was one of the original founders and has done much to promote the club's activities.

The men who were selected from the Junior group and who will form the Senior group of the Club for next year are: Johnny Williams, Freddie Fuchs, Francis Dale, Bill Eichbaum, Ed McLain, Bill Finch, Rip Thomas, and Ed Haley.

The eight men who were selected from the pledge group and who will comprise the Junior group for next year are Barney Abbott, Gerald Johnson, L. J. O'Callaghan, Oren Link, Bill

DeMeritt, Chet Russell, Jim Ramage and Joe Crocker.

Of importance to all present freshmen is the news that the present officers hope to have application blanks ready for them to fill out within the next two weeks. Sixteen new members will be elected into the pledge group, considering their interest shown in school activities and the promotion of school spirit. Any freshman is eligible for membership to this club. The blanks may be secured from Miss Hiers at the "Y" desk, any member of the Yellow Jacket Club, or from the president of each fraternity.

Also, the club will soon make the selection of the new cheer leaders for next year. Try-outs are now being held as has been announced, and the club will soon vote on new selections.

The purpose of the club is to promote school spirit and to advertise Georgia Tech through its support of

We're Agin' It!

In view of the fact that the Non-Fraternity Organization is obviously on its last legs, The Technique wishes to extend the use of its columns, possibly for the last time, to the N.F.O. to clear up a matter which the N.F.O. seems to have taken as a basis of its operations.

The following letter is presented at the request of the Executive Committee of the Non-Fraternity Organization:

Atlanta, Georgia
April 8, 1935

E. Dillon Kalkhurst, Editor-in-Chief
The Technique,
Georgia School of Technology,
Atlanta, Georgia.

Dear Sir:

Your editorial "Dirty Pool" in The Technique of Friday, April 5, 1935, clearly demonstrates that you and perhaps other members of the student body do not fully understand the purposes of the Non-Fraternity Organization. Therefore, in this OPEN letter we take the opportunity to reiterate our aims and further acquaint the student body with a few very pertinent facts.

Inasmuch as the large majority of students are not affiliated with any social fraternity, the Non-Fraternity Organization was established last year with the intent to encourage and foster a more active participation in campus activities by these students.

The necessity of fair representation of non-fraternity men in the student governing body was made obvious last fall by the outrages perpetrated by the Student Council in the election of Senior Class officers. To be specific, a non-fraternity student was deprived of the presidency of his class through illegal counting of the primary ballots and fraudulent voting in the final election. THE STUDENT COUNCIL HAS NEVER DENIED THESE PROVEN CHARGES, but in answer to a formal protest drawn up by the Non-Fraternity Organization, this body voted to let the election stand, thereby giving official sanction to these tactics. This action left us with no recourse but to secure an adequate representation on this governing body to guarantee fair play and equal opportunity to non-fraternity men.

It is logical to contend that among the thousand students unaffiliated with fraternities there are many who are capable of representing their fellow students on the Student Council. However, in spite of this, the nominations drawn up by the Council for the primary election last Monday included among the forty-three candidates only two who were not fraternity men.

The mimeographed sheet of which your article speaks was hastily prepared in an attempt to prevent manifest injustice. The men recommended for nomination were chosen because of their previous work to benefit the student body at large and the non-fraternity men in particular. The anonymity of the sheet, which caused you such concern, was due to our reasonable assumption that everyone would know the authorship. The sheets were prepared and distributed by members of the Executive Committee, which is made up of men chosen by all non-fraternity students sufficiently interested to cast their ballots.

Your unfair and inaccurate editorial, the effect of which happily has been to win a great deal of additional support for the non-fraternity movement, we choose to believe was inspired by a burst of mistaken righteousness; we do agree with you, however, that HONESTY IS THE BEST POLICY.

Very truly yours,
THE EXECUTIVE COMMITTEE,
NON-FRATERNITY ORGANIZATION.

Last week's editorial, "Dirty Pool," has aroused much comment from various sources of campus life. The above letter states, "Your unfair and inaccurate editorial, the effect of which happily has been to win a great deal of additional support for the non-fraternity movement, we choose to believe was inspired by a burst of mistaken righteousness." Permit us to quote from a letter tendered to the Non-Fraternity Organization by J. G. Commins, its president, and one of its founders. Mr. Commins states: "I ask that you consider and accept my resignation from the Non-Fraternity Executive Committee and from the office which I hold." He further states that "this action is compulsory on my part, for I cannot conscientiously continue my affiliation with a dictatorial political organization which is detrimental to general school activity."

Is this not sufficient evidence that the N.F.O. holds for its main objective the attainment of political power? E. V. Johnson, the outstanding non-fraternity man on the campus, and leader of the founders of the Non-Fraternity Organization, stated when interviewed by a Technique super-reporter, "I have had no affiliation with the political aspirations of the Non-Fraternity Organization, and because of their recent activities along this line, I have tendered my resignation to the group." Mr. Johnson was also a member of the senior advisory council of the organization. Immediately following this, Mr. E. L. Pearson, another founder, tendered his resignation to the remnants of the executive committee. When the founders and leaders of an organization admit its failure, what more is there to say?

It is to be admitted and regretted that last week's editorial was of such a nature as to cast possible aspersions on the character of some men other than those directly back of the attempted "election swinging." Specifically, we refer to those men whose names appeared on the posted notices who offered their services at the request of the executive committee of the N.F.O. To these innocent men The Technique wishes to offer its apologies. The Technique has taken the trouble to interview several of these men, and has arrived at the conclusion that at least a part of them are free of guilt.

It is needless to say that continued activity on the part of the N.F.O. at its present status would not only be detrimental to Georgia Tech, but probably would lead to the migration of numerous radicals to the Tech campus. Such an excellent brand of "clay" will most certainly not be overlooked for long by sculptors of "Utopian" governments.

AND STILL DANCES—Galore are the lot of the engineer, The Pi Pi milkmaids (wonder what brand of milk) held last night at Peachtree Gardens. Friday Phi Kappa Sigma holds sway at a tea dance at Peachtree Gardens and Alpha Chi Sigma holds sway the same night at the same place. Saturday afternoon Theta Chi holds forth at Peachtree Gardens and the usual Anak Dance at the Armory completes the bill. Augmenting this is the Pi Kappa Phi Oglethorpe dance at the gym last night and the high school Kappa Delta dance Friday night at Druid Hills. Kappa Delta of Oglethorpe announces their formal for May 1. With the final dances coming up and much merriment in the meantime, the engineer will have no chance to be a dull lad, perchance many lads will have an additional year amongst us for this self same reason.

THE MIGRATION OF THE—SYT from Atlanta seems to be about as large at Athens this year. However we note that most of the officers picked SYT's from other clines, maybe they are getting wise at last. We will admit that the Anne Grey-Sala affair was beyond our slightest dream however, we were correct in the prediction that the Oster element was just another one night stand so to speak. The Stevenson-Barton affair was another surprise, well the parents were surprised and why shouldn't we be likewise? Seems that Eula Miller and George Swanson are not so much that way about each other as it might seem. Well one of them isn't at any rate.

FUNNY HOW DIFFERENT—Persons react about the same dance. Most of the gents that attended the Scabbard and Blade affair had a swell time, while the dames say that it was plenty sticky. We did see a local babe take over ten steps with the same gent, maybe their five-step conversation, if it can be labeled that was taxed to capacity in the few moments that they were with the same break before the other break happened along. Well we suppose if there wasn't any of this that there would be no horse races. Seems that the

Yellow Jacket Club Elects Officers, Men

(Continued from Page 1)
athletics. It is the only organization on the campus invested with the authority to control and punish freshmen for lack of school spirit or not holding up Tech's traditions.

This club, which did its work so well last year under the capable leadership of Al Johnson, is planning for an even more successful season next year. The present seniors who are leaving are Commins, Kodel, Erdin, Stendera, Meehan, Lucas, Askins, and Johnson.

Lucas-Fugitt affair is the real McCoy and that the Montgomery affair from the tarheel state is another of those big brother events we are told by reliable sources.

NEXT WEEK—We hope to present the guest columnist we had hoped to present this week. After that a SYCG and after that yours truly will return for the rest of the year. May the Bunny be all that he is supposed to be during this easter vacation.

Dunay Wins Tech 'Y' Pool Tournament

The Tech "Y" Pool Tournament, open to all Tech students, was brought to a close this week after being in progress for nearly two months. A. L. Dunay took the first prize, which was a three months' membership in the Atlanta Y. M. C. A. H. B. Overton won a Geo. Muse tie as second prize, and J. E. Carmack won third prize, "Zachary's Latest for Men."

The whole tournament was a fine exhibition of skill. In the semi-finals, Overton defeated Carmack 111 to 0, and Dunay also defeated Carmack 111 to 0. In the finals, Dunay defeated Overton 111 to 11.

"ATLANTA'S BEST"

Georgia School of Technology

"A Technical School With a National Reputation"

THE GEORGIA SCHOOL OF TECHNOLOGY offers to young men of ability and ambition a training which will fit them for positions of responsibility and power. The national reputation of this institution is based not on claims, but on results. Its greatest asset is the record which its alumni are making in the productive work of the world. Georgia Tech graduates succeed because they have been trained both to think scientifically and to work efficiently.

COLLEGE COMMENTS

By JACK MCKINNON

For Freshmen Only
Things not to tell the one-and-only when you take her out:
1. "Gee, aren't you dressed up!"
2. "Why, you look so good I didn't recognize you."
3. "Mother used to have the prettiest dress, just like that."
4. "How do you manage to have such odd looking jewelry?"
5. "You look like someone I've met; but it didn't make much impression. I can't think who it was."
6. "I see you washed your hair."
—Georgetown.

This Week's Best Story
A Texas U. student made an "A" for the first time in his career. He immediately wired the folks about it, and decided to add that he had suffered a nervous breakdown as a result. Four hours later, a dust-covered auto rushed up to his fraternity and stopped, disgorging the lad's two parents. His "stopless" telegram had read "Offspring Gets A Nervous Breakdown May Recover."

A columnist at Auburn says that things are getting so bad here in Georgia that the Chattahoochee River runs only two days a week.

I'm thankful that the sun and moon
Are both hung up so high
That no presumptuous hand can reach
And pluck them from the sky.
For were they not, I have no doubt
That some reforming ass
Would recommend to take them down,
And light the world by gas.

Statistics show that Yale graduates have 1.4 children, while Vassar graduates have 1.8 children, which proves that women have more children than men.

Davidson students recently discovered a pay 'phone that returned all money deposited in it, and took advantage of the situation. All went well until everybody began to make long distance calls, and the telephone company investigated the sudden boom in business at that particular 'phone. Imagine the chagrin of the guy who called Hollywood and his dough failed to come back!

Bulldog Club Elects
Fifteen New Members

The Bulldog Club, general activity and spirit promoting society, elected a total of fifteen men from the sophomore and junior classes at the club's annual spring election held last Wednesday night.

The new members, selected on the merit of their interest in the promotion of school spirit and the maintaining of traditions in the various classes, are as follows: Pop Siegel, Allen Morris, Harvey West, Sam Harrison, George Smith, Leo Spencer, Tech Fincher, John Tufts, Carl Paulson, Chet Russell, Fred Ragland, Dave Long, Bruce Avery, Lawrence Hays, and Mitt Fitzsimmons.

TRACKSTERS BEAT CLEMSON

Dean Scores 19 Points in Close Victory Over Clemson

In one of the most exciting track meets ever staged at Grant Field, one in which the lead changed hands six times, Tech defeated the Clemson team last Saturday, 67½ to 63½. The mile relay, the final race of the meet, was the deciding event. Clemson was leading Tech by one point when this race was run.

The Tech team seems weakest in the short dashes. McKinley was the only Tech man to place in the 100-yard and 220-yard dashes. The Jackets are also weak in the high jump, not even placing in this event.

Norris Dean was high scorer of the meet, taking first places in the 120-yard high hurdles, the 200-yard low hurdles, the shot put; second place in the discus throw; and he ran on the relay team, making a total of 19¼ points.

Harvey West, in the mile, and Jim Davenport, in the half mile, made good time in their events. Each man of the mile relay team gained several yards on his opponent, and the Jackets won this deciding event by a big margin in the fast time of 3:28.

Tomorrow the Tech team will go to Tuscaloosa to meet a very strong Alabama team. Last week the Tide completely swamped Tulane and this meet will really test the Tech team.

Swim Season Complete With Victory Over Ga.

The Yellow Jacket swimming team wound up a fairly successful season by trouncing the Georgia tankmen 58 to 26 in Athens last Saturday. Tech took every first place in the nine events.

Gordon Catts, captain of the Tech team, captured three first places for the individual high score. Catts has consistently been winning the 100-yard free style and the 220-yard free style events all season. In this meet he also won the 60-yard free style event.

Richardson and Plage also have been outstanding on this year's team. Richardson was a consistent winner in the breast stroke and he made excellent time last Saturday. Plage captured many points in the backstroke. They both swam on the very successful medley relay team.

Although the only meet Tech lost was the one to Clemson, by a few points, this season was not very successful compared to former years. The Jackets had previously gone several years without a defeat.

Jacket Team Defeats Atlanta Fencing Club

Saturday, April 6, the Georgia Tech fencing team won a match with the Atlanta Fencing Club. The match showed that the Tech fencers are strong with the foil, but weak with the sabre and the epee. The greater experience of the Atlanta Fencing Club men was the main reason for Tech's defeat in these two classes.

Final Scores				
	Foils	Sabre	Epee	Total
Tech	7	1	1	9
A.F.C.	2	3	3	8

Some time in the near future Georgia Tech will send a team to William and Mary College for an intercollegiate fencing tournament. North Carolina, V.M.I., Alabama teams will also compete. From the pre-season records William and Mary seem to have the strongest team, but George Swanson of Tech has a good chance for the individual championship with the foil and the sabre. Tech's team will be composed of G. W. Swanson, Freeman Williams, and either N. O. Mallo or R. H. Fagan with foils; R. H. Fagan and M. O. Mallo with the epee, and George Swanson and R. H. Fagan with the sabre. M. O. Mallo has a good chance for the epee championship. Captain Swanson has a bad foot but Coach Morenus hopes that he will be well enough to fence in the intercollegiate match.

Baseball Practice Shows Improvement in All Positions

Sigma Chi Wins Finals In Bowling League

The final round in the Bulldog Bowling Tournament was held last Friday, the Sigma Chis clinching first place by virtue of a forfeit by the Kappa Alphas. The tournament held its share of popularity during its nine weeks of duration, and gives promise of becoming an annual affair. Other results from last Friday were: S.A.E. won 3-0 from Kappa Sigma; Chi Phi 2, Betas 1; Phi Sigs 3, Delta Sigs 0; Pi Kappa Phi 2, Phi Deltas 1.

	Won	Lost
Sigma Chi	22	5
Delta Sigma Phi	17	10
Phi Delta Theta	15	12
Pi Kappa Phi	16	11
Phi Sigma Kappa	17	10
Chi Phi	16	11
Kappa Sigma	7	20
Beta Theta Pi	11	16
Sigma Alpha Epsilon	12	15
Kappa Alpha	2	25

The sons of swat have begun their schedule now and although handicapped by a lack of pitchers and too much rain, have given Alabama and Clemson a good scrap.

Waite and Carpenter are the varsity right-handers while Thomas is the portside. Hyder, a sophomore, is doing well and is fast improving in college competition.

The weather has been unkind to the boys during the past few weeks and they have found it virtually impossible to get in practice.

Soon the Georgia game will be rolling around; by then the boys will be set. The days are getting milder now and we should have plenty of good practice sessions. This seems to be all the boys need, since they are improving rapidly in every game.

In the first game our bats spoke quite well but against Clemson the boys went up against superior pitching and our bats were silenced. The fellows are getting the old eyes peeled now and soon they'll be outslugging them all.

Golfers Overwhelm Furman; Yates Stars in Augusta

While Charlie Yates, captain and No. 1 man of the Tech golf team, was making a name for himself as a master of golf in the Masters' Invitation Tournament at Augusta, the remainder of his teammates took an overwhelming victory at the expense of Furman Saturday morning by the score of 17½ to ½.

Charlie Dannals, Jr., played par golf on the No. 2 East Lake course for the best score of the match, which incidentally was a 71. Berrien Moore also played excellent golf to end up

only one point behind Dannals.

Dall and Ferguson tied, with two 75's, for the best two scores of the Furman team. These same two accounted for Furman's half point by halving the first nine holes in a four-some with Moore and Dannals.

Charlie Yates made an excellent showing for himself and for Tech in the tournament at Augusta. He played four good rounds of 75-70-73-70, and is in third place among the amateurs.

TECH STUDENT AWARDED 11-WEEK AFRICAN TRIP

Freeman Williams, Tech senior, won the first prize, an eleven weeks' trip to Africa, for the best "thrill letter" entered in the Georgian-Fox Theatre contest, held in connection with the showing of the Martin Johnson African picture, "Baboona."

In his winning letter, Williams described his thrilling experience in escaping from sharks off the beach of Waikiki, Honolulu.

Williams' letter follows:

"This vividly harrowing experience occurred while at Honolulu on a naval R.O.T.C. cruise last summer. For three hours I had been vainly trying to make my surfboard ride the Waikiki waves in proper form.

"Tiring of this, I left the crowd, lay flat on my board and, using my hands as paddles, struggled out the two miles to the forbidden coral reefs just to see why no one ever ventured out.

"Soon I found out—a black fin cut the water, then another.

"Sharks—giants seven feet from fin to tail.

"Panic choked me as I lay flat on my board, keeping well out of the water, and by short, quick, splashing strokes headed for the distant beach. The big fellows circled, but seemed uneasy due to the commotion of my paddling, shouting and constant beating on the board with my palms.

"For a tormenting half hour they circled, as I struggled to keep my board balanced in the gentle swells, expecting every moment to be in swimming with the grim monsters.

"After an eternity, 'we' were well away from the reef, and a native outrigger canoe, attracted by my shouting, came out and hauled me aboard."

I'm your best friend

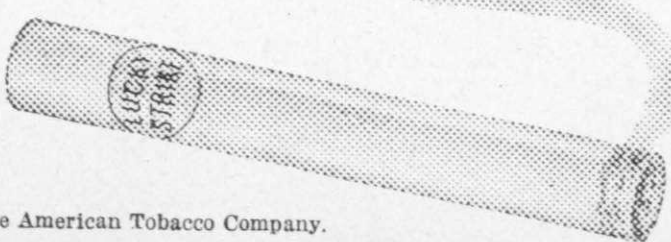

I am your **Lucky Strike**

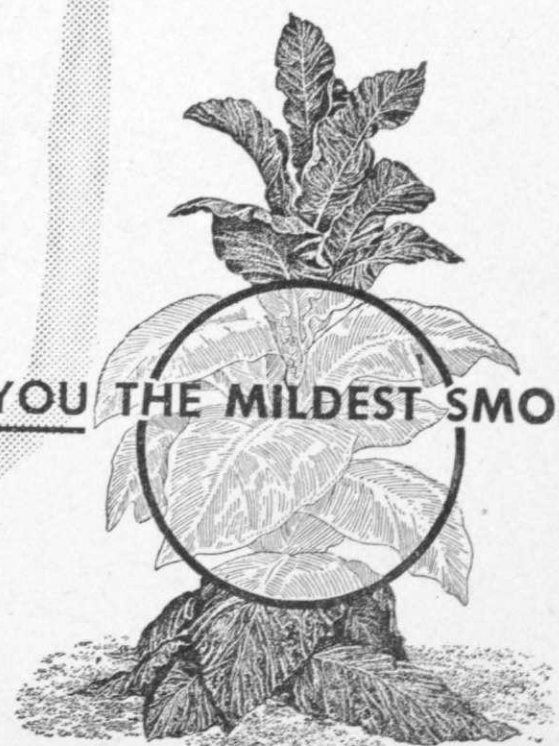

Never a bitter, undeveloped top leaf in me. Never a grimy, tough bottom leaf. I use only the fragrant, mellow, expensive center

leaves . . . the leaves that give you the mildest, best-tasting smoke. I do not irritate your throat. No wonder I'm your best friend.

LUCKIES USE ONLY THE CENTER LEAVES . . . CENTER LEAVES GIVE YOU THE MILDEST SMOKE

They Taste Better

Major Evans, Lt. Maier Transferred from Tech

Major Evans and Lieutenant Maier have been ordered away from Georgia Tech; Major Evans at the completion of this school year, and Lieutenant Maier at a date previous to the end of the year. Replacements for these officers have not yet been announced.

Major Evans is well known to the Coast Artillery students, especially to those who went to camp last summer. The juniors will be interested in knowing that he is going on camp again this year. Major Evans will go on leave after camp until he is due to report at the Command and General Staff School at Fort Leavenworth, Kansas.

Lieutenant Maier has been very popular with the Signal Corps Co-ops for the past four years. He has been ordered to California Tech for a post graduate course in meteorology.

In spite of the many hours of hard work we have suffered at their hands, we are sure to miss them. Since Major Evans has not completed his tour, we hope to have him back soon. Both Major Evans and Lieutenant Maier have been good friends to us, and we wish them the best of luck.

Eleven Men Initiated By Alpha Chi Sigma

On Friday, April 5, eleven men were initiated into Alpha Chi Sigma, national professional fraternity. The new initiates, who are numbered among the leading students of senior, junior and sophomore classes of the Chemical Engineering Department, are as follows: Fred Holloway, Harvey Fell, Leon Kaniecki, Jake Anderson, Louie Wall, Buck Layton, J. D. Earle, M. R. McClatchey, John Clegg, Bob Johnston, and Irwin Hulbert. Following the initiation, the new men were entertained by a banquet at the Atlanta Athletic Club.

Oil Can Club Honors Eleven Juniors

Eleven members of the junior class were honored by election to the Oil Can Club. The juniors so honored were Jim Rankin, Walter Ward, Jim Mays, Dewitt Worrell, Larry Montague, Donald Sargent, Sterling Moorhead, Haran Bullard, Frank Tate, Red Felton, and Dick Hudson. The initiation, which was held on Saturday,

March 30, followed a spaghetti supper given by the club in honor of the members-elect. Present also at the supper and initiation was Professor N. C. Ebaugh, faculty adviser of the club.

**HATS that are
air minded
The Stetson Bantam
The Stetson Playboy**

\$5

They're so stripped of excess weight that you hardly know you're wearing a hat.

As rakishly smart as a scout plane—and rugged enough to bear up nobly under the stress of knockabout wear.

Stetson hats are
priced at \$6.50
(unlined \$8) and up

The PLAYBOY and the
BANTAM, air-light Stet-
sons, are \$5.

Perhaps you're not the best-dressed-man-on-the-campus.
Or perhaps you are. At any rate, with Spring in the air,
isn't it about time for a new hat? The nearest Stetson
store has some bright, brisk styles that will put some Spring
(no pun intended) in your appearance.

JOHN B. STETSON COMPANY

—so far as we know tobacco was
first used about 400 years ago

—throughout the years what one thing has
given so much pleasure..so much satisfaction

It was a matter of
pride with a host in
Colonial days that his
guests should smoke
tobacco grown on his
own plantation.

Today the Governor of North Carolina
says to the Governor of South Carolina—

“Have a cigarette”

TODAY people all over the world use
tobacco in one form or another.

They chew it, they smoke it in pipes,
they smoke cigars and cigarettes, and here
is what an eminent physician said about
cigarettes:

*“I have been something of a student
of cigarettes, and it is my belief that
they offer the mildest and purest form
in which tobacco is used.”*

Yes, nowadays the cigarette is the most
popular form in which tobacco is used. A
good cigarette certainly gives men and
women a lot of pleasure.

Have a Chesterfield—

For one thing—they're milder.

For another thing—they taste better.
