No. 20

Tech Interfraternity Council to be Host to Undergraduate Interfraternity Conference Of Fraternity Men from Southeast

Conference To Discuss Problems Of Various Chapters In Two Day Meeting

Friday, March 22, thru Saturday, March 23, Georgia Tech will be host to the Undergraduate Interfraternity Conference, sponsored by the National Interfraternity Conference for the Southeastern region, and directed by Dean Floyd Field of Georgia Tech.

This Conference is the first of its type in this region and includes the nine states of the Southeast. In this area there are over 30 institutions each having from half-a-dozen to 30 fraternity chapters. In Georgia alone there are over 60 chapters. As a result of this year's Conference it is hoped that the event will become an annual affair, meeting at a different institution each year.

In accordance with the Fraternity Criteria adopted by Fraternities through the National Interfraternity Conference, the objectives of this Southeastern Conference is to instruct the new officers of next year as to their obligations as Fraternity Leaders, to discuss the problems already met by Fraternities, and how to cope with future problems and ones to be presented at this Conference. Therefore, each Fraternity is asked to send as representatives the men who will fill the position next year of President, Rush Chairman, and Pledge Training Leader.

Interesting Program

A very interesting and worthwhile program has been prepared for the conference. Dr. M. L. Brittain, K. A.; Dean J. O. Moseley, S. A. E.; and Dr. W. A. Smart, D. K. E.; are among the speakers. Included in the registration fee of \$5.00 for each delegate, to be paid by their fraternity, is a banquet and a dance to be held at the Atlanta Athletic Club Friday evening.

The main Conference adjourns Saturday noon leaving the afternoon open for each Tech Fraternity to take advantage of this opportunity to have an individual meeting or open house for the many visiting representatives of their chapter. It is expected that these individual Fraternity meetings will accomplish much to consolidate Interfraternity relationships in the Southeast, and to give individual Chapters a chance to know each other better and to discuss their common problems and activities. Tech Fraternities are expected to provide lodging for visiting delegates.

English Students Get Rigid Checking On Dormitory Attendance

Syracuse, N. Y.—(ACP)—“English universities are more concerned about students' ‘nights of residence’ than about their ‘days of attendance.’”

So says Dr. A. McKinley Terhune of the Syracuse University English department, who recently returned from a year in Cambridge, England.

Class attendance is not required, and no records are kept, but rules fixing students' night hours are rigid, he said. Gates of the colleges are closed at 10 p. m. and lodging house doors and windows locked at the same hour. Cambridge and Oxford students are then fined for infraction of the rule.

While the American university is a comprehensible series of departmental units known as colleges, the two English universities as corporate bodies are as “elusive as smoke,” Dr. Terhune stated.

A central office to dispense information is non-existent in English uni-

Advanced Course To Be Offered To C.A.A. Pilots

Additional Instruction In Advanced Type Aircraft

Professor Weems, of the Aeronautics Department, made it known this week that the Civil Aeronautics Authorities have announced an advanced flying course which is open to all students who have completed the primary course and are able to pass the requirements for the advanced course.

This course is to include 146 hours, which are to be spent on several subjects such as the study of engines, aerodynamics, and navigation. This will also include forty hours of flying in advanced types of aircraft which are larger, faster, and are equipped with much better instruments than the ships used in the primary course. Professor Weems says that this will be an excellent opportunity for the students who have already had the basic course to further their training.

The Tech students who have already passed the requirements for the advanced training and are now enrolled are Jack Carran, M. B. Fannon, Jack Ivey, Charlie McKinnon, Dave Thompson, and Jimmy Tubbs.

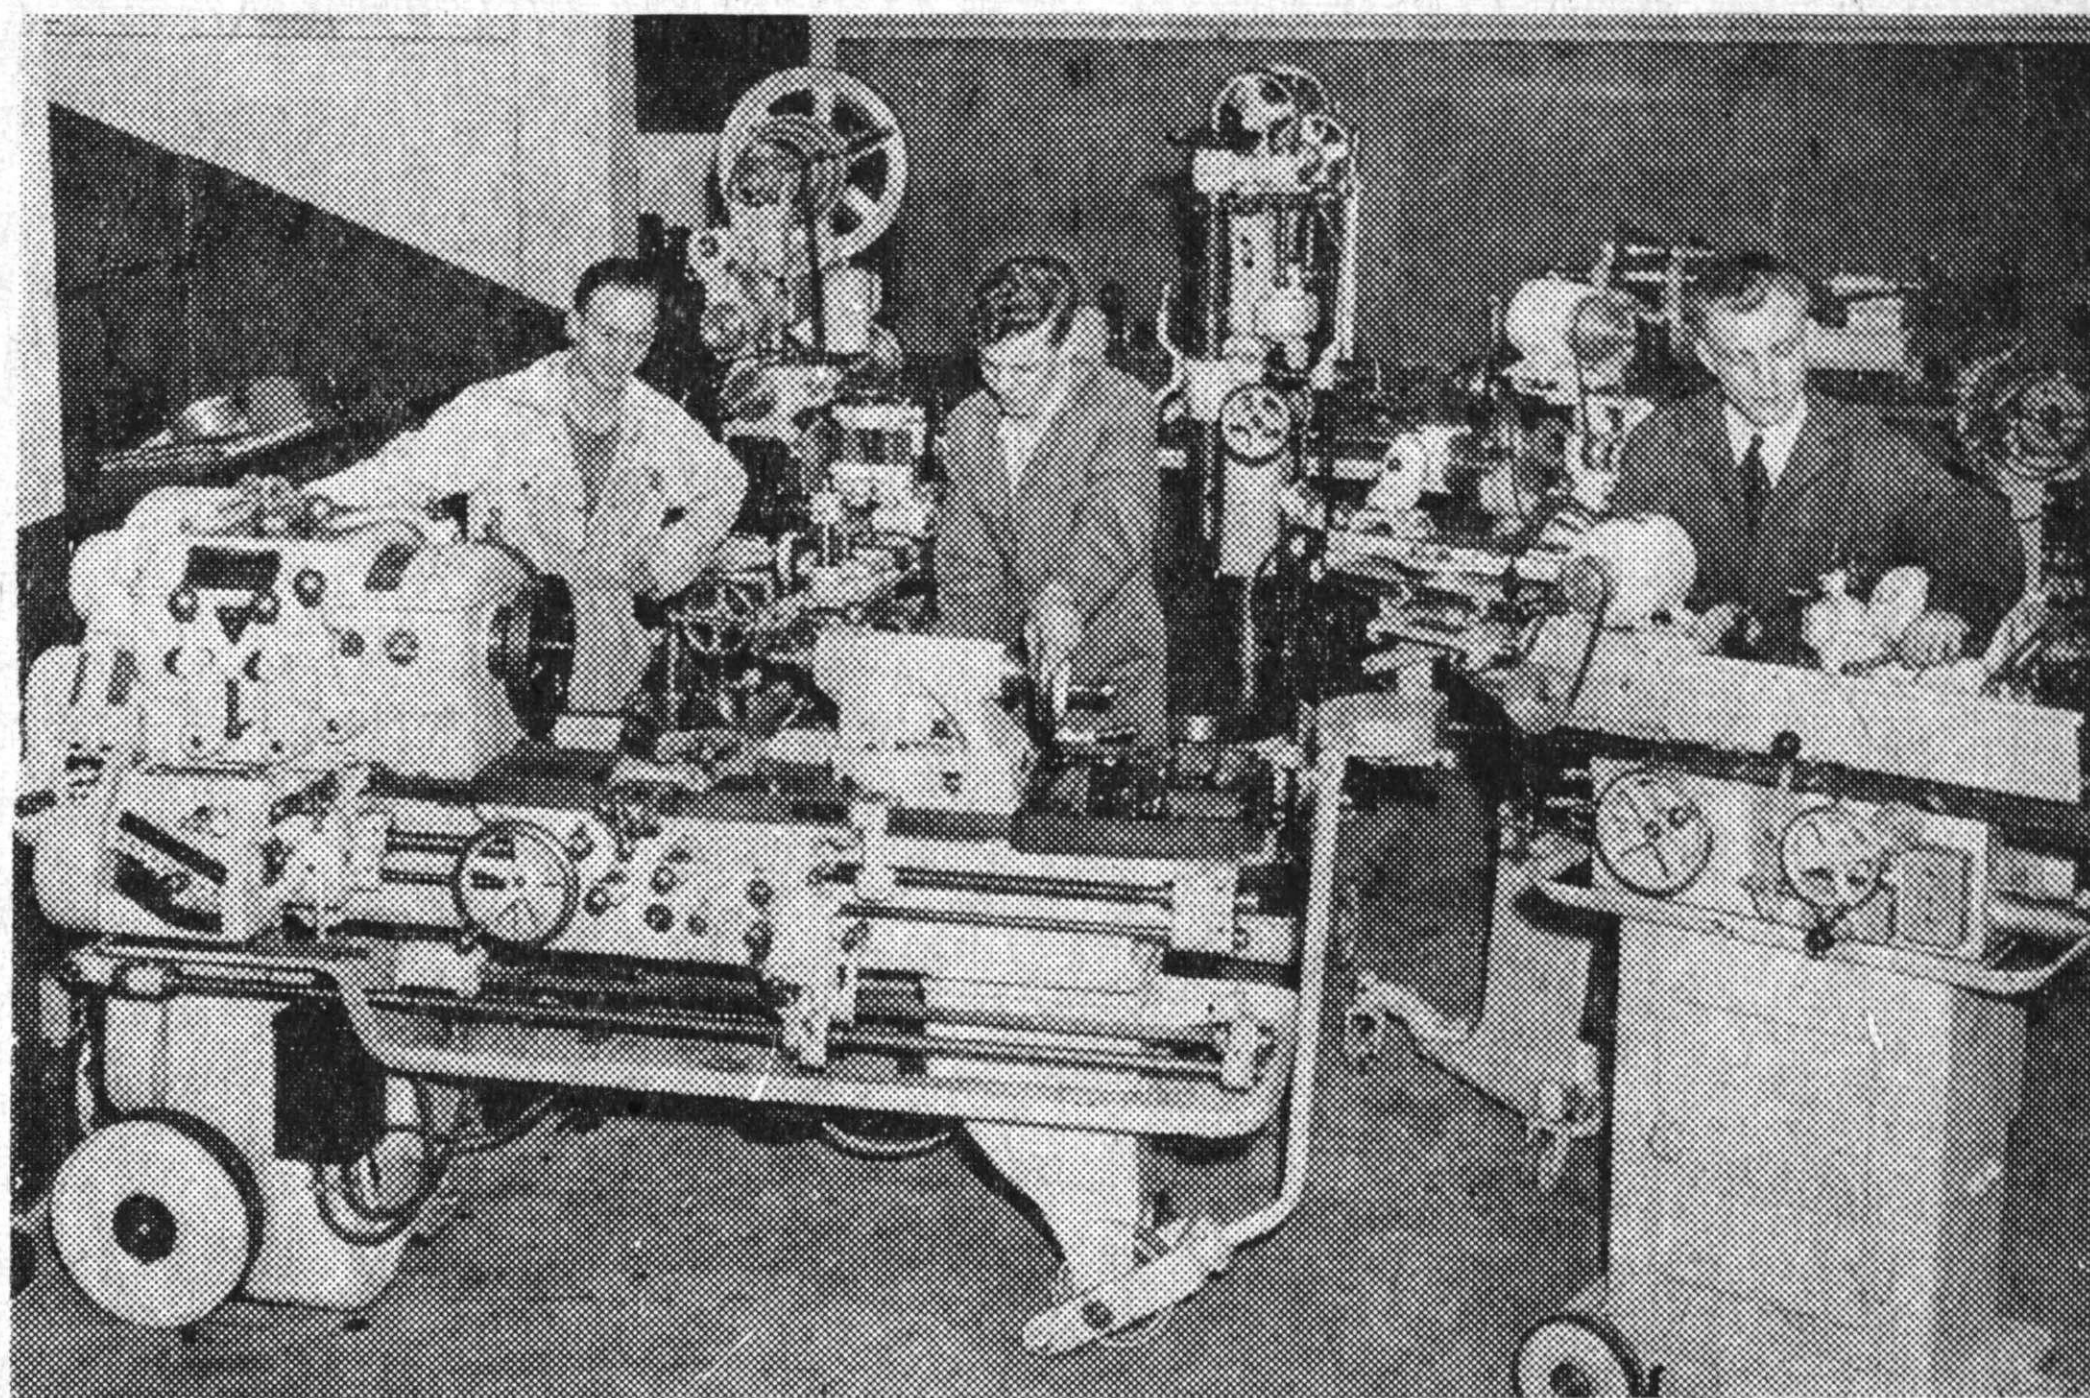

versities. The only source of information is the university calendar, whose contents have so accumulated through the years as to present a confused mass of data which Mr. Terhune calls “as helpful as an unabridged dictionary.”

The English course of study is only three years. The college year is divided into three semesters, each consisting of approximately 10 weeks, known as Michaelmas, Lent, and May semesters.

Students take only one subject, although brilliant students may take two. A student hands in a weekly

Dr. Fisher Lectures On Solar System, Einstein's Theory

Lectures Made More Interesting With Movie Slides

Last Thursday and Friday night, Dr. Clyde Fisher, curator in chief of the world-famous Hayden Planetarium, presented two lectures.

“Exploring the Heavens,” his topic for Thursday evening, was a quick but fascinating trip through the solar system, visiting all the important planets and the moon along with various comets and meteorites. Dr. Fisher made the startling statement that astronomers all now agree that the planet Mars has an atmosphere containing enough heat and oxygen to support forms of life that exist upon the earth.

Friday evening he immeasurably helped the Tech physics department by his non-technical lecture on Dr. Einstein's Theory of Relativity. Probably the only trouble the physics department will have this year on the subject of relativity is to unravel some of the students' theories on Dr. Einstein's theory.

Each lecture was accompanied by slides and moving pictures which did much to clarify the discussions. Perhaps the most interesting part of each lecture was when the audience would start asking questions, such as: “How fast is the sun disintegrating?” and “What causes a comet's tail?”

The student body is much indebted to Dr. Fisher and the Entertainment Committee for the type and value of the lecture series being given, and hope they will continue to be as popular and worthwhile.

Phi Eta Sigma Hospital Visits

The following Phi Eta Sigma men will visit the hospital on the designated days: Kestler, E. J., March 9; Richards, J. F., March 10; Hainlin, A. W., March 11; Michalczewski, F. W., March 12; Vanden-Heuvel, T. R., March 13; Walters, W. G., March 14.

Briaerean Society Elects Officers; R. C. Cheek Elected President

Society Makes Plans To Become Nation Wide In Scope

Last Wednesday night, February 28, the Briaerean Society, Co-operative honorary organization, had the last meeting of their section and elected new officers who are: President—R. C. Cheek, Vice-President—Francis Brannen, Secretary—E. A. D'Amico, and Treasurer—J. C. Funderburk.

Freshman Council Of 'Y' To Have Guest Speaker

Philip M. Colbert To Make Interesting Talk

The Freshman Council of the Y. M. C. A. will have as its speaker next week Mr. Philip M. Colbert, General Secretary of the Central Y. M. C. A.

Mr. Colbert has chosen as his subject “Christian Courage,” in which he will attempt to show how religious fanaticism on the one hand, and uncompromising academic viewpoint of Christian faith on the other hand, are both equally undesirable. Somewhere between these points is found a living Christian faith that will face all situations and help the individual in making his decisions.

The meeting starts Tuesday at 7:00 P. M. and is open to all Freshmen.

Free Movie To Be Shown Monday At 'Y'

“The Middleton Family at the World's Fair” is the title of the picture to be shown next Monday at 7:00 P. M. at the “Y.” It is the story of a typical American family spending a day at the big exhibition in New York.

It revolves around a beautiful girl who is in love with an artist at the Fair. Their romance has trials and tribulations and results in the hometown boy winning out.

This is a technicolor film distributed by Westinghouse and is said to be one of the best industrial films yet released.

The Briaerean Society has been one of the most active organizations on the campus this year and deserves great commendation for their participation and contributions to National and Campus life since their founding at Tech in 1922. Sometimes the regular students fail to realize the values and contributions the Co-op department brings to Tech. However, it is evident that continued extra curricular activity as started by the first section will serve to integrate the Co-ops more firmly into the school's mind and program.

The major activity of the Briaerean Society this year has been the establishment of another chapter at Auburn, thereby making the Society national in scope. Furthering their national influence, correspondence with the Co-operative departments of the Armour Institute Of Technology in Chicago and the University of Cincinnati brings assurance of installing chapters in these two schools in the future.

A temporary national executive council planned in cooperation with the new Auburn Chapter is functioning until both Co-op sections have elected permanent representatives.

Out-going officers for this section are: John Drew, Howard Duncan, Francis Brannen, and Gordon Cagle.

Band Members Must Practice

Faculty Concert To Be Held Soon

Members of the band who want to stay in the band must come to practice every afternoon. Members who do not attend will be dropped from the rolls.

The band is now practicing for the faculty concert to be held in the near future; therefore, the members of the band must practice for this concert.

A Collegiate Party

By A. C. P.

With Republican clubs springing up on many college and university campuses in all sections of the nation, interest in the Grand Old Party's future is growing steadily among U. S. collegians.

Although seemingly anxious to see the Republicans come out on top in the coming battle of ballots, collegiate editorial writers do not like the methods or the men that are being proposed as weapons for the war. Here is a review of collegiate comment on the party's activities:

From the University of Iowa Daily Iowan: "Because the split in the Democratic ranks would be an unfortunate upheaval distressing in times when there are important problems to solve, we are hopeful that the concerted efforts to revive the full strength of the G. O. P. will be a success. The normal functioning of our party system, without the split in Democratic ranks, should result when the Republicans succeed finally, as they appear to be doing, in their revival."

From the Auburn Polytechnic Institute Plainsman: "Out of all the presidential boomlets for favorite sons, dark horses, and duds, one clearcut fact emerges. The Democrats have no one except Roosevelt. The Republicans have no one. Dewey is the only Republican who isn't as colorless as a dead herring, and he hasn't cut his political eye-teeth yet."

From the Washburn College Review: "William Allen White, hell, or high water notwithstanding, nobody has ever been genius enough to reconcile the Republican party with liberalism. Not even Teddy Roosevelt could do that. The Republican party has no political crutch to stand on except conservatism."

On the other hand, the Jambar of Youngstown College says: "Granted that Roosevelt and his ilk know the ins and outs of every major political maneuver, they are overlooking one factor—the people are beginning to think. Thinking people naturally side with a leader who has their best interests at heart, one who is progressive, yet can keep the machinery of government in constant check."

So you see, collegiate editorialists are watching carefully the coming campaign and platform of the Republican party—and many are hoping there will be something they can honestly support and still maintain the collegian's traditional liberal viewpoint.

Tech's Navy Must Make Him Mad

From the Associated Collegiate Press also comes the following comment:

Harvard and Yale naval R. O. T. C. students aren't as tough as they ought to be, in the opinion of one member of Congress—and he thinks something ought to be done about it.

At a recent House hearing on navy department appropriations, Representative C. A. Plumley (Norwich '96) told the committee: "I can tell you something that you do not know about the R. O. T. C. at Harvard and Yale. They are gentlemen's clubs, and they do not get the hard-boiled training that the navy needs."

Must be that the Congressman is tired of seeing the Tech unit walk off with all the honors, as they have for the last eleven years.

This 'N That

By Hugh Fleming

It seems that not so long ago the Red and Gory, the U. of G.'s feeble effort at journalism, came out with a story about a bed in the Tri Delta sorority house that is jinxed. It seems that everyone that slept in that bed came down with appendicitis. A reporter from one of the Atlanta newspapers was sent to investigate. He brought back the story, and two days later was sent to the hospital with appendicitis.

CONTRIBUTION

The Failure

If I should flunk, think only this of me:
That there's some corner of a sophomore class
That is forever mine: there shall be
In that dull room a duller mind concealed;
A mind whom science bored, shaped, made un-
aware;

Gave once, her labs to smell, her corridors to roam;
A body of torment breathing filthy air,
Washed by the showers, blest by the sunny South;
And think, this soul all knowledge shed away,
A pulse in the eternal mind no less
Gives somewhere back the thoughts by science
given.

Her sights and sounds, unhappy dreams of day;
And laughter learnt of profs, and foolishness;
In hearts uneasy, under a Georgia heaven.

Apologies to Rupert Brooke

By Edgar Horwood

LOST AND FOUND

Lost—One heel to shoe in stable at Driving Club—
Finder may keep.

In a football game in which one of the teams had a number of colored players, a stalwart half-back rushed down the field with the ball. Needless to say, the opposing team was a southern outfit. Trying to tackle this stalwart southerner was one of the sepia linesmen. With a neat stiff arm he disposed of that gentleman. Then another and another and another chocolate drop got in the way of the onrushing halfback, but with the dexterity of a dancer he evaded them all and rushed on toward the goal. Just as he was about to cross the goal line a white player came at him. With a gasp of surprise, he stopped, stuck out his hand and said, "Doctor Livingston, I presume!"

FRUITY TUTY

A guy had just gotten back from Paris, and wishing to be quite the latest in style, had brought back one of these French berets—a cap that looks something like a lady's tam—. As soon as he disembarked from the ship he started to walk down the street. He noticed a cab kept following him, so he signaled that he did not desire a cab. But the cab kept following him, and so becoming a little exasperated, he called out to the driver, "I say, my man, I don't desire a cab."

"Oh, that's all right," said the driver, "I just wanted to hear you talk."

YOU DONE SPOKE DE TRUFF

A darkey was ambling along a highway, hugging a pint of gin, concealed beneath his arm, in his coat pocket. Suddenly a car came out of nowhere, crashed into him, and catapulted him into a ditch. Picking himself up, the darkey appeared to be unhurt, but a warm, moist feeling under his coat caused a rueful expression to cover his face. "Lawdy me," he said aloud, "Ah shore hopes dat's blood!"

The G. O. P. is just about ready for the big putsch of 1940. All it needs (a) a platform, (b) an issue, (c) a candidate, (d) and twenty million more Republicans.

NEWS FLASH

Boys, have you heard about the new Bollo game that is spreading about the campus. If not, ask your room-mate.

Poverty (American definition): The state of being able to buy only what one needs.

PARTING THOUGHT

IF AT FIRST YOU DON'T SUCCEED, REMEMBER THAT ALL WOMEN ARE NOT ALIKE. S'LONG TIL NEXT WEEK.

RAMBLIN' WRECKONINGS

By Maxwell L. Shatzen, Jr.

Because the Atlanta newspapers appear daily instead of weekly, they scooped the TECHNIQUE in reporting that Frank Allcorn left last Friday to attend the S. A. E. formal in Athens. Hm-m-m-m! Friday, Saturday, Sunday, Monday—well, has anyone seen little Frankie around? One imitation Sherlock Holmes suggests that they look beneath the ping-pong table at the S. A. E. hotel in Athens and tell Frank that his presence in classes here at Tech is urgently requested.

Techmen make news and news makes a column. For instance, reconnoitering about "Northwest Passage" over the week-end, your columnist saw dateless Joe Albert and his compatriot Alex Pupulidy as well as "Shirley Temple" Murphy and Dillard Munford (WITH dates, of course).

"Old Mr. Boston" Hafley was on hand also—and a very embarrassed escort he became. His flushed cheeks resulted from being seen with one of those prettier Pi Pi lassies when his REAL "Queen of Hearts" is on location at the High Museum. Knowing as he does, that all "artistes" are highly temperamental (with the accent on the temper) Bruce became a little apprehensive over the matter. He later confided that the future Rosa Bonheur would DEFINITELY NOT like it if she heard about it and offered your scribe lolly-pops, chewing gum, a jackknife or any other valuable gift if he'd just forget about the whole affair. But it preyed on your old scribe's mind, so—he just had to tell somebody.

Can it be that Jack Beals and his blonde charmer were "playing house"? They were seen several nights in a row, at the Launderers' Convention at the City Auditorium where washing machines, electric irons, and such were on display. Maybe for the little "dream home"—eh, Jack? Well, anyhow—the little cutie was REALLY cute!

One Mr. Turk Kirstein has discovered the value of being more circumspect since his shock of last Friday. Much as usual, the I. M. hecklers were gathered on the lawn of Brown Dormitory holding informal conversations with everything female that happened to pass. Presently, a

very gorgeous hunk of pulchritude came along pushing a baby carriage, and as she passed in review, little Turk gurgled, "Hello, baby—you're cute!"

"Which one of us?" smiled the pretty lady.

O-o-o-o-o-o-o, you should have seen Turk's face!

Some say it's a lot of Bosch, but still there is considerable Muerth connected with the rumor. Little Johnnie Bosch and "Red" Muerth have been attending the Paramount with the precise certainty they would attend announced quizzes. The reason? Well, the diminutive Johnathan knows the blonde temptress on the left. After each performance they scurry from their front row orchestra seats like someone had yelled "FIRE" and rush backstage. "Stage Door" Johnnie remarks that it's just like the La Paloma Club in Miami. He's Johnnie on the spot when it comes to footballs and blondes.

Lochinvar Reisman drove his puddle-jumper down to Montgomery last Friday, though mentally he traveled by air, for he was in the seventh heaven of delight. (That, dear public, is just this side of Professor Piccard's play ground.) Records of the State Troopers along Carl's route report that he made better time than the telephone. Carl always HAS argued that he, who hesitates is lost. GLORIA Hallelujah! Carl—is it just another spring or is it genuine love, this time?

This Collegiate World

(By Associated Collegiate Press)

The men have been waiting for a statement like this for a long time, but they never believed it would be made.

When a man was reported to have entered a University of Pennsylvania women's dormitory, that institution's dean of women allayed the fears of gals and cops with the following:

"The man had more to fear than the girls—because 150 women are their own protection."

Impossible !!**'Uncle Billie' Van Houten Has Attended Every Graduation In Tech's History****End Of Present School Term Will Mark Fifty-First Year Of Service**

By HAROLD COUCH

How would you like to have seen every student who ever received a diploma from Georgia Tech? There is only one man on the campus who can claim that distinction. He is Mr. William ("Uncle Billie") Van Houten, foreman of the foundry. He began work here February 21, 1889, very soon after he graduated from high school. He has attended every graduating exercise in those 51 years. The school was actually less than five months old then, even though it was founded in 1885.

Every Freshman and Sophomore was required to do 200 hours of lab work in those days, because classroom facilities and text books were inadequate for even the single course then offered at Tech, Mechanical Engineering. Foundry was then one of the most important labs on the campus for the school was supported in part by the sale, to local industry, of castings made to order in the foundry. "Uncle Billie" can tell you the story of the casting of everything from school equipment to the beams which support Loew's Grand Theatre.

"Uncle Billie" still has in the scrap pile a wheel which was cast the day that the shops burned down. The shops and the mold burned from around the casting but the latter is still in good shape. The foundry then was just west of the Administration Building. Its next home was just south of the hospital, which has since housed the woodshop and now is a W.P.A. workshop. Civil War breastworks were once where the hospital is now and many an old cannon ball has been dug up there and put into a casting made in the Georgia Tech Foundry.

"Uncle Billie" can tell you of the time when rabbits and other small game could be killed upon the location of the present foundry. The school literally grew out of the forests in which it was first located.

Mr. Van Houten's record of service to the Georgia School of Technology might well become an ideal of and an inspiration to every present and future student here.

Evanston, Ill. — (ACP) — Good sportsmanship is what players and spectators make it—and the Northwestern University Daily Northwestern has a code of its own for the spectators.

Here is the program as recently promulgated for those who attend Wildcat basketball games:

1. Opposing players deserve the same treatment as our own players.
2. Officials may make mistakes, but they certainly deserve fair and courteous treatment.
3. Heckling of opposing players about to attempt free throws simply must not occur.
4. Good sportsmanship is as necessary in the stands as it is on the playing floor.

Tommy Dorsey And His Orchestra Open Limited Stand At Meadowbrook**Famous Trombonist Has New Band; Bunny Berrigan Back On Trumpet**

Tommy Dorsey, the famous "Sentimental Gentleman of Swing," and his orchestra began a limited engagement at the Meadowbrook last Tuesday. The well-known trombonist band-leader is culminating a tour, which took him throughout the South and Midwest.

T. DORSEY

Dorsey's new swing-classic arrangements have created a sensation in popular music circles. The classics adapted by the "Sentimental Gentleman of Swing," to swing rhythms include "Song of India," "Blue Danube," "Dark Eyes," "Loch Lomond" and others.

Dorsey's fame has also been enhanced by several national radio hook-ups, sponsored by big manufacturers—Ford, Kool and Raleigh Cigarettes programs.

Featured by Tommy Dorsey is Frank Sinatra, formerly with Harry James, and Jo Stafford, a newcomer to the realm of songstresses.

Are You A 'Platter-Bug'?

Anyone who is interested in collecting swing records is invited to join the Platter-Bug Club and to go down to Station WATL at 8:30 every Monday night for a half-hour of fun.

If anyone is interested call Johnny Bozeman at the Delta Sigma Phi house.

Pi Kappa Alpha Black And White Ball To Be Held In 'Mosque' Tomorrow Night

Ceremony Marks Mechanics Ball

The Co-op Club's Mechanics Ball, which was held at the Shrine Mosque last Saturday night, brought out the "Ramblin' Wrecks" in their natural coloration.

Coveralls and gingham dresses gave the dance an atmosphere of informality and gaiety which is found much too seldom in campus affairs.

The dates of the Co-op Club members were given miniature brass anvils as favors. During the lead-out a large anvil which stood on the band stand gave an effective spark as it was beat to the music of the Anvil Chorus.

A novel plan of the dance was to include the time of the no-breaks in the dance programs. This was greatly appreciated by those who so often miss a no-break by stepping outside

Traditional Color Scheme To Be Followed In Annual Affair

Alpha Delta chapter of Pi Kappa Alpha will be host at its annual Black and White Ball Saturday Night, March 9, in the Shrine Mosque. The leadout will be featured by the black and white motif carried out by the dress of the members of the fraternity and their dates. Local alumni of the fraternity and members of the college set have been invited to attend.

The ball will follow a private tea dance in the afternoon and a banquet in the early evening given in conjunction with the Founder's Day celebration of the fraternity.

Officers of the fraternity and their dates are President George Holladay, Jane Harris; Vice-President, Tom Kell, Louise Musser; Secretary, Walter Penney, Louisa Barnett; Treasurer, Harry Shamhart, Christine Howard.

Members and dates to be presented are Ed Braun, Carolyn Talley; T. O. Day, Barbara Brown; Bobby Dickson, Billie Hatchett; Harold Couch, Jane Cunningham; Paul Decker, Mrs. Paul Decker; Bill Forsythe, Marsa Watkins; Jack Falks, Virginia McCauley, Herb Frank, Mrs. Herb Frank; Durwood

Harris, Norma Echols; Gordon Hicks, Ann Gellerstedt; Harry Higham, Margaret Mellons; Frank Hudson, Mary Anderson; Joe League, Harriet Edwards; Chester Link, Becky Allen; Dick Parks, Marynelle Murrelle; Jim Piper, Katherine Sanders; Clifton Savage, Betty Sutherland; Thornton Savage, Shirley Gately; Warren Taylor, Angelyn Collins; Tommy Thomson, Lilla Mae Dukes; Wilder Woods, Margaret Solomons; Bud Zemek, Mary Conkle; Michael Scavens, Jennie Duke; Len Clark, Dot Stevens; Bob Krieger, Marge Simms; Jim Moyer, Marian Carmichael; Jack Willis, Lovy Nebo; and Mr. and Mrs. Dick Ahern. Other members to attend will be Al Hawkins, Tom O'Barr, Lee Covey, Bill McLain, Ed Parks, Knox McKamy, Ed Richardson, Blanton Haskell, Jerry Fogle, Don Chapman, Clay Griffin, Bob Smith, Bill Gaines, Bob Stevens, Alden Zamborsky, King Chamlee, Bud Stuart, Pete Roberson and Vic Baran.

Chaperones will be Mr. and Mrs. Elbert P. Tuttle, Mr. and Mrs. Horace S. Smith, and Mr. Larry Lawrence and Miss Louise Jeanes.

RIGHT OR WRONG?

A 2-minute test for telephone users

1. It's impossible for you to telephone to people in two different cities at the same time.

RIGHT ☐ WRONG ☐

2. Police Radio Telephone made by Western Electric is an outgrowth of research at Bell Telephone Laboratories.

RIGHT ☐ WRONG ☐

3. About 75% of the Bell System's 85 million miles of telephone wire is contained in cable.

RIGHT ☐ WRONG ☐

4. Lowest telephone rates to most out-of-town points are available every night after 7 P. M. and all day Sunday.

RIGHT ☐ WRONG ☐

ANSWERS:

1. Wrong. Telephone Conference Service enables you to talk simultaneously with as many as five other people.
2. Right. And that's true also of broadcasting equipment, aviation radio telephone and marine radio telephone.
3. Wrong. Over 95% is now protected by cable — nearly 2% of which is underground.
4. Right. Why not telephone home oftener? Your family will enjoy it — so will you!

AN M. G. M. PICTURE

SOCIALLY SPEAKING

By BILL KELLY

Another gay and glorious week-end has passed and all that remains are the memories of what made it as it was. Two young ladies that will remember it are **Marjorie Gregory** and **Frances Butt** who attracted quite a bit of attention and not just from **Bob Crossfield** and **Pat Singer**. The Chi Psi's must be congratulated upon such an excellent function and the beautiful scenery, namely **Sally Curry**, **Ann Hilsman**, **Cliff Hardesty**, **Harriet Coyle**, and **Rebecca Kellam**.

At the bowling alley Saturday **Roane Beard**, **Bob Ison**, **Sam Adams** and many others trying to out-bowl each other for monetary reimbursement, or was it just for fun!!?

Could it be that cute blonde from Brenau, **Betty Almacker**, that broke up your romance with **Eva Morrison**, **Red Sortore**, or is the love affair on the mend by now? With this charming triangle on the Skull & Key hayride Saturday night were **Warren Taylor** and **Angelique Collins**, **Sergio Ponce** and **Mary Anne Atkins** and who was the glamorous auburn-haired lassie with you, **Luke Neas**?

Since the California Sigma Nu's have chosen **Alysia**, Queen of the Undressers, for their sponsors at the annual campus circus they have aroused quite some interest. Which reminds us that the Tech "Snakes" might be planning to start their famous swimming parties soon. How about it, boys!!

We can't say that we appreciate **Emmy Martin's** patronage of the peroxide counter even though the effect matches the sea-foam decorations at The Anchorage. Other frequent visitors to this popular rendezvous are **Marion Barber**, **Laura Lanier**, **Bob Weatherford**, **Bob Cooper**, and **Louise Runge**.

Even though **Patty Mohun** did apply for first aid after running through the woods on a Sigma Pi of Emory hayride last Saturday night, we still choose her as our "girl of the week."

Who was it that told her date on the Skull and Key hayride that she could "smell every word he said"? What do you need, "Pete," tips or Listerine??!!

Glenn Miller—\$2500?

University of Georgia authorities have limited to \$2,500 the price that can be paid for an orchestra for a student dance.

Skull And Key To Elect New Men Hayride Held, Dance Planned

The Skull and Key, honorary sophomore organization, entertained members and their dates with a hayride to North Fulton Park last Saturday night. Among the members present were **Red Sortore**, **Ellis Davis**, **Warren Taylor**, **Tom Hill**, **Fred Dendy**, **Frank Bristol**, **Gordon Hicks**, **Roy Lang**, **Dan Pardue**, "Cuban Pete" **Ponce**, **H. Carlson** and **Bill Kelly** (alumnus).

Among the organization's plans for the future is the election of spring initiates to be held within the next two weeks. The organization is also planning its annual "Skull and Key Day" to be held in the early part of April. This day is to be the high point in the year's program and will include a tea dance in the afternoon.

Frosh Lay Smoke Screen Over Battle—Scarred Chemistry Lab Don't Get Excited, For Where There's Smoke, There's Frosh!

By RAT GRAHAM

"Say, fire-eater, put a cover on that smudge pot — whatcha tryin' a-do, smoke us out?"

Through the ensuing black-out come the muffled groans and unrestrained opinions of the numerous casualties.

Air raid? Nope, just this year's crop of freshies rasslin' with their nine o'clock Chem lab, and no holds barred!

A gallant savior hits upon the timely idea of cracking a port, and as the smoke of battle is wafted gently from the scarred work benches, and familiar outlines are once more in their proper places, peace reigns—as only peace can reign in a Freshman lab. Silence. Sticky silence, faintly perfumed with sweet essence of hydrogen sulfide; silence that keeps one ever mindful of the aromatic qualities of ammonium hydroxide. Silence, and peace.

"Say . . . Joe . . ." "Huh? . . ." " . . . Uh, how much of that white stuff didja get when you heated that funny colored stuff in the brown bottle? . . ." "Uh . . . huh? . . ." "Aw, nuthin' . . ."

The old gent who said "Experimentation is Knowledge" didn't know the half of it. When Freddy Frosh gets cut loose in a Chemistry lab anything can happen, and a lot of things do. Funny things that you wouldn't think would happen if you had never seen Dr. Brittain's future alchemists in action. They make the "Mad Chemist" of dime novel fame look like a tea-sipping sissy when they get to brewing up the witches' stew on Monday morning. They take inhuman pleasure in concocting curious conglomerations from the many mixtures in the pretty

Tough Course! Golf, Dancing, Tennis, Riding

Drake 'Scholars' Follow Difficult Co-ed Courses

DES MOINES, Iowa—(ACP)—There is something new under the sun!

Co-educational physical education has been inaugurated at Drake University, and for the first time men and women will compete together at the fieldhouse, in the women's gymnasium and on the golf course as well as in the classroom.

Last semester two golf classes and three social dancing classes were offered for credit to both men and women. "There is no question about the success of these classes," Ruby Ana Holton, head of the women's physical education department, said. The classes are larger this year than ever before.

This semester it is planned to add badminton, bowling, horseback riding, archery and casting (for fish fans) to the schedule of courses. A future program, which probably will be enacted next year, may include canoeing, swimming and boating.

No official statistics are available on the number of educational institutions offering credit for co-educational physical education courses, but Noel H. Petree, head of the men's department, and Miss Holton say there are only "a few."

Lead Artist's Ball Tonight

Miss Lula George, left, and Miss Jean Evans, who will be escorted tonight by John Fullenlove, Delta Vice-President, and Harry Flemister, chapter secretary.

Artists And Models, Short And Tall To Play At Delta's Artists Ball In Costumes They'll Be A Nice Sight To See

The Delta Tau Delta Frat will hold its well known Artists' Ball tonight at the Brookhaven Country Club. Music will be furnished by the Emory Aces and dancing will last from 10 'till 2.

Highlight of the evening will be the judging of the costumes to select the most outstanding and original one, for which a prize will be given.

colored bottles that sit so defenselessly in the back part of each room.

Believe it or not, the seeming bedlam of the lab is really under complete control—control, in fact, which at times approaches autocracy! The "autocrats" are, of course, the bored looking gentlemen who get the gleam in their eye when they bellow "Quiz on Exercise 20!" But all told, we'll hail the Freshman lab as a creator of geniuses—and sophomores, sometimes!

Freshman Basketball Team Ends Undefeated Season with One Point Victory over Fighting Monroe Ags

Point-a-Minute Team Claims Championship Of Southeastern And Southern Conferences

By R. A. BROACH

The Tech Freshman Basketball Team closed their season in a blaze of glory by defeating the valiant and under-rated Monroe Aggies, 47-46. The Aggies' lightning attack, sparked by "Rat" Lesco, 5' 3" forward, refused to be stopped by the Baby Jackets' frantic defensive tactics.

Aggies Lead at Half

The fireworks began when the whistle blew; Monroe scored spasmodically but ended up in the lead at the end of the first quarter, 9-8. At the half the score was still in favor of the Aggies, 19-18. Lesco had been running wild, swishing the cords from all angles, stealing the ball from the Techsters, who had been playing only mediocre ball up to that time of the game, and in general making himself a nuisance to the Tech team.

Playing Not Up to Par

The Freshmen, who were evidently suffering from a bad case of overconfidence, only showed sparks of their previous excellent teamwork. However, in the second half they were able to score enough points to be leading at the end of the third period, 34-33. At the end of the game the Jackets, no longer cocky, were only too glad to retreat from the court with their slim victory. The Freshman team managed to keep their point-a-minute record clean and ended their season with one of the best records ever turned in by a first-year Tech basketball team.

Lesco played the best game on the court, scoring 16 of his team's points, besides playing a fine defensive game. Tech had no stand-out player, as they were all off their game; however, "Flash" Crosby gathered in 13 points,

Baby Jacket Fencers Chalk Up Victory Over Savannah, 5-4

Baby Jacket fencers turned up their noses to Savannah High School last Saturday at the Armory, and walked out of the match with a score of 5-4.

Winkelman, Hard, Bagwell, Burg, and Graham were the members of the winning freshman team.

These fencers will find Boys' High facing them March 16 in their next encounter.

Tech Tankers Beat Tennessee Vols In Out-Of-Town Meet

Score Six First Places Out Of Possible Nine For Year's First Win

On Saturday, March 2, the Yellow Jacket swimming team met and overcame the Tennessee Volunteers by a score of 44 to 31.

Bates of Tech, although swimming much slower than usual, took both the 50 yard free style and the 100 yard free style. Elmore, of Tennessee, unbeaten all year, was defeated by Duncan of Tech in the diving event. The 440 yard free style was the outstanding race of the evening. All four of the contestants finished within five feet of each other.

Summaries

300 Yard—Medley (Tech): Speed Hutchinson, and Monsport. Time—3:27.9.
220 Yard Free Style—Webb (Tennessee), first; Hutchins (Tech), second; Anderson (Tech), third. Time, 2:42.2.

Hearn got 12, Davis his usual 9, Anderson 8, and Stein 5.

Hail the New Champs

The Freshmen are now claiming the championship of the Southern and Southeastern Conferences. They beat the Tech varsity, who beat Kentucky, Southeastern champs, and Duke, South-eastern Conference leaders.

400 Yard Relay—Tennessee; Ashley, Elmore, Broke, and Delaney. Time, 4:08.

Hofstra College's feminine basketball team recently blanked Long Island University's co-ed cage squad, 45 to 0.

On a recent visit to Dallas, Texas, Walter Hagen was asked about his showmanship by an admirer. So Walter explained one of his old tricks thus: "I learned a long time ago how to make an easy shot look difficult. Take one of those little runup shots just off the green. By walking up to the cup and surveying the green, then switching clubs once or twice before playing you impart the idea to the gallery you are faced with a difficult shot while in reality you have an easy one. After all the deliberation and a few frowns thrown in you roll the ball up dead to the pin and the crowd gasps, 'Gosh, how that man can play!'"

Baseball Season Officially Started; Prospects Brighten By Addition Of Several Sophomores

Billy Gibson, Captain And Shortstop Of 1939 Team, Declared Ineligible This Year

By JOHN ROGGE

Last Monday afternoon Georgia Tech's varsity baseball season was officially opened by Roy Mundorff, the varsity coach. The prospects for a winning team are rather bright, especially with the addition of several talented sophomores.

The varsity's biggest setback was the loss, due to ineligibility, of Billy Gibson, last year's captain and shortstop. Although a candidate for graduation this year, Gibson has already had three varsity years behind him.

Nine Lettermen Return

Coach Mundorff is expected to use Shaw, Oliver, Cavette, Corbett, Burpo, Perkerson, Wheby, Ector, and Wilkins, as a nucleus for this year's team. All of the above-mentioned players are lettermen and have had at least one year of varsity experience.

Third base and pitcher appear to be the two weakest positions on the team. Red Oliver is the only successful starting pitcher returning from last year

BASEBALL SCHEDULE FOR 1940

Mar. 29-30	Presbyterian at Atlanta
April 5-6	Auburn at Atlanta
April 8-9	Tennessee at Atlanta
April 12-13	Florida at Gainesville
April 19-20	Auburn at Auburn
April 26-27	Vanderbilt at Atlanta
May 3	Georgia at Athens
May 4	Georgia at Atlanta
May 6-7	Florida at Atlanta
May 10	Georgia at Atlanta
May 11	Georgia at Athens
May 17-18	Vanderbilt at Nashville

and is expected to be even better than last year. Hawk Cavette and Jim Corbett were bothered by sore arms all last year and so were used mainly as relief hurlers. The most promising sophomore prospect is Brock, a boy with a fairly fast ball, and good control. Coach Mundorff has had these boys working out daily for a month now and hopes that this pre-season training will have them in mid-summer form by April.

Lewis Probable Choice

The other weak position to be filled is third base. Carlton Lewis is expected to be transferred from first base to fill this spot. Tommy Bridges, who played third base for last year's frosh team, is an excellent fielder but does not possess Lewis' batting ability.

The rest of the infield will probably line up as follows: Burpo at first, Bosch at second, and McNenney at shortstop. Burpo is an experienced first baseman and has already had one year of varsity experience. Bosch and McNenney were

First Time Trials Of Season Held For Track Team

Large Squad Continues To Report; Exercises Take Much Of Training

Runners, javelin, and discus throwers, hurdlers, and what have you are in abundance on Grant Field these days. Candidates for track are still coming out for practice in large numbers.

On Saturday time trials were held for the boys who had been practicing since the beginning of the season. There were sprint time trials for the short distance men, and the distance men ran a half-mile. As a whole the boys looked very good. The boys who are planning to run the 440 yard dash ran 300 yards in the time trials, and those planning to run the 100 or 220 yard dashes had to run 160 yards.

If Coach Norris Dean continues to give exercises, a few Charlie Belchers may be created. He gives very rigorous exercises, but there will be many good track men developed by this method.

The sparkplugs of last year's frosh team, and formed a very efficient combination around the keystone sack.

Shaw May Not Play

Buck Shaw's value to the team as a catcher will not be known until later on in the season because of a recent knee operation. However, there will be three sophomores out for this position: Owens, Plaster, and Korycinski.

From last year's varsity, Wheby, Perkerson, Ector, and Wilkins have returned to the outfield. These boys saw a lot of service last year and will be valuable players this year. Vanden Heuvel, Olcott, and Quigg are three

Tech Fencers Tie Kentucky And Win Again Over Vandy

Team Will Fence Benning Officers Here In Return Match Saturday P. M.

The strong Yellow Jacket's fighting fencers spent March 1 and 2 worrying Kentucky and Vanderbilt, respectively, in two bitter meets. Kentucky's Wildcats met Tech in Lexington, while Vanderbilt engaged the Jacket swordsmen in Nashville.

The Commodores, defeated on the mats in a previous encounter, again fell to Tech's foil artists with the score 10-6, Tech on the heavy side. Talley, a product of the Engineers, flashed in the matches, winning all of his bouts. Davis also sparkled in the onslaught. Though Tech won four more bouts than its opponents; only 64 points were amassed as compared to Vandy's 62.

The individual scorings were as follows:

Ivey of Tech beat Moore 5-4, and Foster 5-4, but slipped to long 4-5 and Goldsby 2-5. Talley beat Moore 5-2, Edwards 5-4, Long 5-3, and Goldsby, 5-2. Davis defeated Moore of Vandy 5-4, Edwards 5-4, Long 5-1, but bowed to Goldsby, 3-5. Haggart of Tech lost to Moore 3-5, Long 2-5, and Goldsby 0-5. Bartha beat Johnston of Vandy 5-4.

Wildcats Have Good Team

Tech anticipated a difficult meet with Kentucky, and such was the case. The tourney, long and hard, ended with a tie score on the record. The Jackets lost the foils match with 5 out of 9 bouts going to Kentucky. Jones of the Wildcats provided much of the force behind Kentucky's team.

The bouts were as follows:

SABER:	
Barth (T) 5	Bailey (V) 2
Haggart (T) 5	Bryant (V) 3
Bryant (V) 5	Bartha (T) 4
Henry (V) 5	Ivey (T) 3
EPEE:	
Bartha (T) 2	Hammersby (V) 1
Bartha (T) 2	Carson (V) 0
Carson (V) 2	Ivey (T) 1
Ivey (T) 2	Hammersby (V) 1
Ivey (T) 2	Carson (V) 0
FOILS:	
Bartha (T) 5	Riley (V) 3
Bartha (T) 5	Triplet (V) 4
Talley (T) 5	Riley (V) 4
Davis (T) 5	Triplet (V) 2
Jones (V) 5	Bartha (T) 4
Jones (V) 5	Talley (T) 4
Riley (V) 5	Davis (T) 1
Triplet (V) 5	Davis (T) 4
Triplet (V) 5	Talley (T) 4

good outfielders coming up from last year's freshman team.

The schedule that has been compiled is a stiff one. The only new opponent this year is Tennessee. Incidentally, the Tennessee game will be a renewal of athletic relations with that school, which may spread to other sports in a few years.

By CRAIG DAVIS

TECH TEAMS DELUGE TENNESSEE

There was no lack of Tech athletes in Tennessee this past weekend. The basketball team was there, of course, for the tournament, and in addition the swimming team was having a meet with the University of Tennessee, and the fencers were engaged in a match with Vanderbilt. Out of the three contests the Jackets brought back a score of two wins and a hard-fought defeat, which isn't at all bad.

FINAL OBITUARY OF BASKETBALL SEASON

Of course, the outcome of the cage tournament is ancient history, and there is little use in rehashing Tech's contribution to the affair. Suffice it to say that the boys played a good game against a good team. Their offense was clicking, and if their defense had been a bit better, the outcome would have been a different story. And to close the season with the usual remark: "Watch next year's team."

BLUE GRASS FENCERS BEST OPPONENTS YET

The fencing team came through with an easy 10-6 victory over Vanderbilt, which followed an 8½-8½ tie with the University of Kentucky. The match with Vanderbilt was a return engagement, the Jackets having won a previous bout in Atlanta by a 13-3 score. Of the college teams fenced so far this year, Kentucky undoubtedly has the best. Their coach is a two-times Olympic foils champion, Dr. Scott Breckenridge, who is well-known in fencing circles.

Tech's fencing team is rapidly gaining recognition as being one of the top teams in the South, and will be one of the favored teams in the All-Southern Tournament to be held at North Carolina in April. Coach Morenus is planning on entering a three-man team in each of the three weapons. Twenty southern schools have been invited to send teams to the tournament, which promises to be the largest yet held in this section of the country.

AND THE SWIMMERS CONTINUE IMPROVING

The swimming team chalked up their first conference victory when they outscored the Tennessee Volunteers 44-31. The Jackets have been gradually improving during the season, and a few more dual meets remain before the conference meet, which will give the team further experience and conditioning. Duncan and Bates are expected to show up well, and several of the other men are showing up better as the final contest approaches.

Johnson, Adams Take First Prize In Bowling Doubles

Pair Roll Ten-Game Score of 1,298 In First Tournament Of Series

Johnson and Adams paced the field with a ten game total of 1298 to win the first doubles bowling tournament sponsored by Blick's Bowling Alley. Johnson and Adams were spotted 120 pins.

Dodson and Pace were second with a score of 1255 including a spot of 105 pins, while Weaver and Griffin were third with a total of 1217, which counted a spot of 135 pins.

This tournament is the first of a new series of double tournaments to be held for Tech doubles teams.

The prizes were given by Mr. Blick and were \$7.50 to the first place team, \$5.00 to the second placers, and \$2.50 to the third place team.

There were twenty-two entries in this week's doubles tournament, and it is hoped that more doubles teams will be formed to bowl in another tournament in the near future.

HAZARDS AND BUNKERS

Golf is in the air once more, and once again the fairways are hearkening regularly to the groans of anguish and the sounds of satisfaction as the little white ball is hooked or takes a long, straight flight toward the green. Interest in golf is growing rapidly in the colleges, and some surprising figures have been estimated concerning the popularity of the game. One estimate states that 50 students now play golf to one who plays baseball, and that 88 play golf for every student who plays tennis. There is no way of checking up on these figures, but they were obtained from an article distributed by the National Collegiate Athletic Association.

SOUTHERN TEAMS IMPROVE

The N. C. A. A. is now conducting a campaign to increase the interest in golf among college students. National Intercollegiate are held every year, and while in the past the title has usually gone to a student in an Eastern university, other sections of the country are yearly offering more and more competition at the tournaments.

Ooze There!

Pedestrians Amazed By Marked Resemblance Of 'Jellies' To Humans

Innocent Professor Victim Of 'Pink' Escapade

By PERRY BLACKSHEAR

There were three sedans, two coupes and a Ford parked in the T.'s driveway when Mrs. T. tried to get the car out Sunday afternoon. She blew the horn for about five minutes until a slow stream of Jelly came oozing out of the front door. While Mrs. Tift, well used to this sight by now, was not perturbed by what she saw, several passers-by were amazed and stepped over to get a better view. On closer inspection they found the stream to be composed of male human beings of varying sizes and shapes who sluggishly approached and flowed into the cars, blocking the now sleeping Mrs. Tift's way, and moved them momentarily into the street, only to return to their original places when Mrs. T. had gone.

Professor Knose N. Brown, who happened to be passing at the time, was caught in the returning mass and carried into the house, where he was deposited on a divan and completely ignored by everyone present.

Seeing himself in one of those uncontrollable circumstances, he decided to study the creatures around him. His attention first rested on the only girl in the room, a little blonde who was in the midst of giving a detailed description of absolutely nothing at all, and all the males listening intently. It was then that Professor Brown decided that the rest of the people were the "Jellies," those mysterious beings that he had heard so much about, and set about inspecting them one at a time. The one nearest to the girl was a tall, handsome fellow wearing a '43

Tech sweater. "Who is the good-looking boy?" thought Professor Brown as he noticed the adoring way in which he looked at her. Then the prof's eyes came to rest on a rather obese-looking child who reminded him somewhat of a rabbit, but he could not stare long, for his gaze was soon attracted to a dirty-looking fellow slinking in from the kitchen with some food in his mouth and a satisfied look in his eyes, as if he had just made a hole in one—then he spied an elegantly dressed young gentleman who sat on the edge of his chair and spoke of the wonderful course in Milton he was taking at the Emory school for ladies and gentlemen.

Professor Brown was so interested in the study of these strange people that he wished he could stay and observe longer, but above the chatter still coming in a never ending stream from the girl's lips could be heard the distant wail of a horn. Mrs. T. had returned! So out of the door flowed the occupants of the room, including Prof. Brown, who was lost in the rush and was never able to report his findings.

Leaders Hard-Pressed To Hold Positions In Interfraternity Bowling Leagues

The Beta Kappa fraternity is still leading the five o'clock White League in the Interfraternity Bowling Tournament, and Phi Delta Theta and Delta Tau Delta are tied for first place in the seven o'clock Gold League. Hogan of Alpha Tau Omega led the White League bowlers with a high-game score of 140, and Dye of Phi Kappa Phi led the Gold League with a score of 126 pins.

Results of Saturday's matches are:

Five O'Clock League			
Alpha Tau Omega	478	530	515
Delta Sigma Phi	506	491	543
Beta Kappa	516	493	476
Phi Kappa Sigma	488	508	516
Beta Theta Pi	483	479	511
Sigma Phi Epsilon	502	475	489
Kappa Sigma	479	504	491
Pi Kappa Alpha	502	439	485
Chi Phi	470	467	456
Tau Epsilon Phi		Forfeit	

Seven O'Clock League			
Chi Phi	525	516	490
Sigma Alpha Epsilon	503	502	522
Phi Sigma Kappa	432	440	440
Phi Epsilon Pi	450	461	448
Kappa Alpha	498	503	509
Pi Kappa Phi	471	456	508

The Standings Five O'Clock League

English Students

(Continued from page 1)

paper to his tutor, who discusses it with him. Examinations are confined to one at the end of each year, the first two being merely "warm-ups," with the third year's known as the "trapos," being the most difficult and important of all.

In contrast to the American procedure, English universities have jurisdiction solely over academic matters, the "colleges" roughly controlling the social life of the students, he said.

Town ordinances do not apply to students, and the universities maintain their own police systems to deal

with lawbreakers, Dr. Terhune mentioned.

"Students must wear caps and gowns at all university appointments, including dinner, and after dark to distinguish them from townspeople," he stated in pointing out the contrast in formality of dress in English institutions.

When questioned about the place of women in English universities, Dr. Terhune said that their status is inferior to the position occupied by men. Although the amount of work requisite to a degree is the same for both sexes, women's degrees are not so highly credited as men's.

Goucher College has a "Chubby Club" and its members have as their chief purpose the loss of 10 pounds in weight each week.

For a Louisiana State University stage production, one student wrote 30 songs in 27 days.

Dancing lessons were a regular part of the University of Virginia's curriculum as early as 1830.

During the fall quarter, Colorado State College of Education students spent 2,500 hours playing ping pong.

VIVIAN BOSWELL, operator at the busy switchboard of Chicago's Stevens Hotel, largest in the world, takes time out to enjoy a Chesterfield.

CHESTERFIELD is America's Busiest Cigarette because it's Cooler-Smoking, Better-Tasting and Definitely Milder.

Get a line
on America's
Busiest Cigarette

ASK FOR CHESTERFIELD
Today's Definitely Milder
COOLER-SMOKING
BETTER-TASTING CIGARETTE

Call for all the good things you want in a cigarette... Chesterfield has them.

COOLNESS... Chesterfields are Cooler
MILDNESS... Chesterfields are Definitely Milder
TASTE... Chesterfields Taste Better

In size, in shape, in the way they burn, everything about Chesterfield makes it the cigarette that satisfies. You can't buy a better cigarette.
