MONOGRAPH_FINAL.pdf - main narrative of study in PDF
SUPPLEMENTARY_FINAL.pdf - supplementary bibliography and queries in PDF
README.pdf

Location where data were collected

Gainesville, VA

Time period during which data were collected

April 2017 - January 2018

Data source - Resources, such as books, articles, serials, and/or data files, if any, that served as source of this data collection

Data were retrieved from major medical databases: PubMed, Thomson-Medline, Thomson SCIE, as well as biomedical texts

Method(s) –Describe the methods for collecting, creating, or compiling the submitted data, as well as the methods for processing data, if data other than raw data are being contributed

Data were retrieved from major medical databases: PubMed, Thomson-Medline, Thomson SCIE
Data were analyzed with Vantage Point, CLUTO, and Concordance software, in that order

Software – List any software (including version number) used to produce, prepare, render, compress, analyze and/or needed to read the dataset, if applicable

Data were analyzed with Vantage Point, CLUTO, and AntConc 3.5.0 Concordance software, in that order

Limitations to reuse - Known problems or caveats that would limit reuse of the data or other caveats (e.g., uncertainty, sampling problems, blanks, QC samples) that future users should know

None, as long as proper citations are given

Date dataset was last modified

1/21/2018
