

Georgia Tech Research Institute

The Nonprofit Applied Research Arm of Georgia Institute of Technology

“CREATING SOLUTIONS THROUGH INNOVATION”

RESEARCH AND DEVELOPMENT WITH RESULTS

Let Georgia Tech Research Institute (GTRI) bring world-class research and development professionals to your next project. You can benefit from some of the most advanced facilities and leading-edge technology available today, putting them to work for you. GTRI provides the combined strength of an academic-based but business-savvy organization to support your applied R&D needs.

Who Is GTRI?

GTRI is the nonprofit applied research arm of Georgia Institute of Technology with a staff of over 1,100 and a long history of supporting international organizations. Our research professionals collaborate with Georgia Tech's world-class faculty to bring the best team to bear on complex system challenges.

WHAT GTRI CAN PROVIDE

- Customer-focused staff – deliverables and applications oriented
- Usable results
- Integrated systems solutions
- Objective answers – no standard products or production interests
- Leading-edge technologists who bridge academia – industry – government
- Significant facilities and equipment infrastructure that benefit programs
- Mission-oriented professionals

FULL SPECTRUM OF R&D ACTIVITIES

- Concept development and demonstrations
- Feasibility / tradeoff analysis
- Hardware and software development and simulation
- Live fire and system evaluation
- System development / integration / training
- Collaboration with host universities / industry
- Facilitation of multi-national events
- Technology transfer to host country
- Specialized training and short courses

WORLD-CLASS TECHNOLOGIES

- Advanced Logistics
- Aerospace Sciences including UAVs
- Antennas and Electromagnetics
- C4ISR and Electronic Defense
- Counter-terrorism Technologies
- Data Fusion
- Fuel Cells / Batteries
- Human Factors of Defense Systems
- Information Technology
- Integrated Air Defense Systems
- Missiles and Guidance Systems
- Modeling and Simulation
- Sensors (Radar, EO, IR, Acoustic, Chemical, Biological)
- Sonar and Acoustics
- Sustainable and Environmental Technologies
- Telecommunications and Networking

ALL IT TAKES IS A CALL

GTRI is at the cutting edge of technology and knows how to harness this to help create exciting new realities. We are good communicators who have the experience to make successful teamwork happen. GTRI is a unique resource that can solve your complex technology problems. To find out more, a call is all it takes.
