Briaerean Society Organizes Section At Auburn To Become National

New Chapter Installed By Initiation Committee From Tech Society

The Briaerean Society, honor society for Co-operative students, which was founded at Tech in 1922, took its place among the national honor organizations last installed at Auburn by an initiation committee from the Tech chapter.

The initiation was held at midnight, and six Auburn co-operative students were there charged with the responsibility of carrying on the aims and ideals of the society at that school. Mr. A. O. Taylor, director of co-op courses at Auburn, was made an honorary member at the same ceremony.

This initiation was the culmination of several months of correspondence and negotiation between the Tech organization and the Auburn co-operative department.

Immediately following the initiation, a joint meeting of the two chapters was held, at which plans for a national executive council of the Briaerean Society were discussed.

The society has also been corresponding with the co-operative departments of several other schools, and it is expected that a third chapter will be formed at the Armour Institute of Technology in Chicago in the very near future.

Requirements for admission to the Briaerean Society include a B plus average or better, in addition to outstanding qualities of leadership and personality. Only third, fourth or fifth year men who have spent at least one year in co-operative work are eligible.

John Drew, president of the Tech chapter, led the initiation committee to Auburn. Other members of the committee were: G. B. Cauble, H. E. Spangler, R. C. Cheek, J. A. Hutchinson, and H. R. Perry.

Auburn men initiated were: C. J. Bastien, who was elected president; Jack Joyner, vice-president; Robert Morgan, secretary-treasurer; Ralston Robertson, J. Gurley, and Donald Kirk.

society for Co-operative students, 1922, took its place among the Friday night. A new chapter was

Camera Club To Have Auction Of Equipment

Excellent Chance To Obtain Articles At Low Cost

The Tech Camera Club will have an auction of camera equipment on Thursday night, February 29 at 7:00 P. M. in the Y. M. C. A. The meeting has been planned to give those who have equipment they would like to swap, buy or sell, a chance to do so. There are many students on the campus who have cameras, but do not have such accessory articles as filters, cable releases, sunshades, exposure meters, or the like.

This auction is an excellent opportunity for students to get these articles with minimum cost. The auction will be carried on in much the same manner as any other auction. The selling students will of course reserve the right to state the minimum price that they will take for their article. Any student that desires to sell any photographic article can get in touch with Sid Davis, or bring the article to the auction and sell it himself.

Dr. Beverly Clarke Of Bell Telephone To Give Lecture

Demonstrations Of Equipment To Accompany Talk

Dr. Beverly L. Clarke, of the Bell Telephone Laboratories, will address the Georgia Section of the A.I.E.E. in the Physics Lecture Room at 8:00 P. M. on Friday, February 23rd. The subject will be "Chemistry and the Telephone."

Dr. Clarke is Materials Chemist in charge of Finishes, Materials and Analysis of the Bell Laboratories. He encouraged the development of microchemical analysis technics and this became the first industrial laboratory in America to make extensive use of it. The telephone plant contains an enormous number of small and delicate apparatus elements, and trouble inevitably arises with some of them. Corrosion sets in or tiny electrical contacts fail to function properly. Since the troubles are frequently chemical and the samples available for analysis are almost microscopic in size, it was necessary to develop microchemical technics to diagnose them.

The lecture will be illustrated by some thirty experimental demonstrations of microchemical technic made with the assistance of Mr. H. W. Hermance and Mr. T. F. Egan of the Bell Laboratories microchemical staff. The actual experiments will be made visible to the audience by projection on a screen.

This program will be of interest to all engineering students as well as those specializing in chemical work. The Institute will welcome those who wish to attend.

Student Union To Be Held February 23

Once again, the hand of fellowship is extended to the students of Atlanta, whose homes are not in the United States. This banquet is held annually by the Atlanta Baptist Student Union. It will be held this year at the First Baptist Church, Friday evening, February 23, at 7:30 P. M.

(Continued on page 6)

Hornstein and D'Amico Named In Co-op Primary

Last Monday E. A. D'Amico and J. S. Hornstein were nominated for Co-op Junior representatives to the Student Council. Final election will be held on Monday, February 26.

Alex Nading, Leo Kelly Named By Coach Alex As Senior Managers For 1940 Varsity Football

Claude Bond, Former Southern League Baseball Umpire, Signed As Full-Time Athletic Trainer

Last week, Coach Alexander officially announced the Senior Managers for 1940 varsity football. Alex M. Nading was named financial manager, and Leo W. Kelly was selected as the equipment manager.

Nading and Kelly were selected for their record of hard work during the past three football seasons. They have named their selections of Junior and Sophomore managers for next season.

The Juniors selected were: Ellis Davis, Charles Hach, Bob Sanders, and Roy Lange.

The Sophomores selected were: Ray Broach, Leckie Mattox, C. R. Niedhardt, Sam Ruben, Bill Tutwiler, and Paul Woodruff.

Another important announcement was that Claude Bond, the trainer for the football team for several years, has now given up his baseball umpiring to become the full-time trainer of the varsity. Thus the football team will gain a valuable assistant in the person of Trainer Bond.

SPEAKER

The Rev. Theodore O. Wedel, who is to speak at Student Service at All Saints, February 25.

Reverend Wedel To Speak At Student Service

The Rev. Theodore O. Wedel will be the speaker at the city-wide student service on February 25th at All Saints Parish House at 6:00 P. M.

Dr. Wedel is a nationally known leader of college people. Until recently, he was National Secretary for College Work of the Episcopal Church, and he has just accepted the position of Director of Studies of the College of Preachers, Washington, D. C., and Canon-Chancellor of the Washington Cathedral.

Dr. Wedel has conducted college conferences at practically every one of

Glee Singers To Present Concerts Near Atlanta

Many Performances Planned For Near Future

Under the excellent direction of Mr. Walter Herbert, the Georgia Tech Glee Singers are presenting a series of concerts at various towns and women's colleges near Atlanta. The opening out-of-town concert was held at LaGrange, Ga., and last Friday night the Glee Singers gave a concert at Brenau College, Gainesville. The presentation was followed by a reception given by the Brenau Glee Club.

Friday night, February 23, the singers will have a concert at Rockmart, Ga. Further plans for the coming spring include concerts at Bessie Tift College, Forsyth; Georgia Wesleyan College, Macon; and West Georgia Teachers' College, Carrollton, Ga. The final concert of the year will be given at Tech. In addition, the Glee Singers have been singing for various civic groups in Atlanta.

Mr. Herbert has reorganized the program this year to include a number of solos, quartet numbers, and a skit. The skit is a farce on the opera "Carmen," the characters being portrayed by William Hermes, Vincent Neisus, William Thompson, and Sidney Davis. Miss Evelyn Eddleman, prominent Atlanta soprano, sings several solos, a duet with Richard McClure, and some songs with the entire group of singers. The quartet includes: William Hermes, Paul Rhynes, Bob Carl, and Richard Forest. Miss Marie Barinowski is the accompanist for the Glee Singers.

Dr. Clyde Fisher, Hayden Planetarian, Guest of Entertainment Committee

Brilliant Director Of Planetarium To Give Two Illustrated Lectures

Attention, all you Engineers and I.M.'s! Now is the chance for which you have been waiting. Comes the end of February and the first of March and the Hayden Planetarium in New York will be well and brilliantly represented by Dr. Clyde Fisher who is being brought here to speak to Techmen, their parents and dates, by the entertainment committee. Dr. Fisher will deliver two illustrated lectures. On February 29th, he will speak on "Exploring the Heavens" and on March 1st, "Einstein's Theory of Relativity Simplified."

If any of you students are frightened by the high and mighty sounding names of the topics—don't be, because Dr. Fisher intends to use language that even a Georgia man could understand. You will learn first, where all those illusive planets and stars are and how they got there and why; and second, you can have poured into you by sight, sound and comparison, the Einstein Theory with the aid of movies and lantern slides.

To all you boys who know the merits of the moon, Dr. Fisher should prove

DR. CLYDE FISHER

very entertaining in his explanation of the craters and valleys. Also, you will see close-ups of Venus (Woo-Woo), Mercury, Mars, and all the other notables in our solar system. You will probably be shown by movies, the stars in position at various important historical dates such as Christ's birth, Caesar's death, the World War, etc.

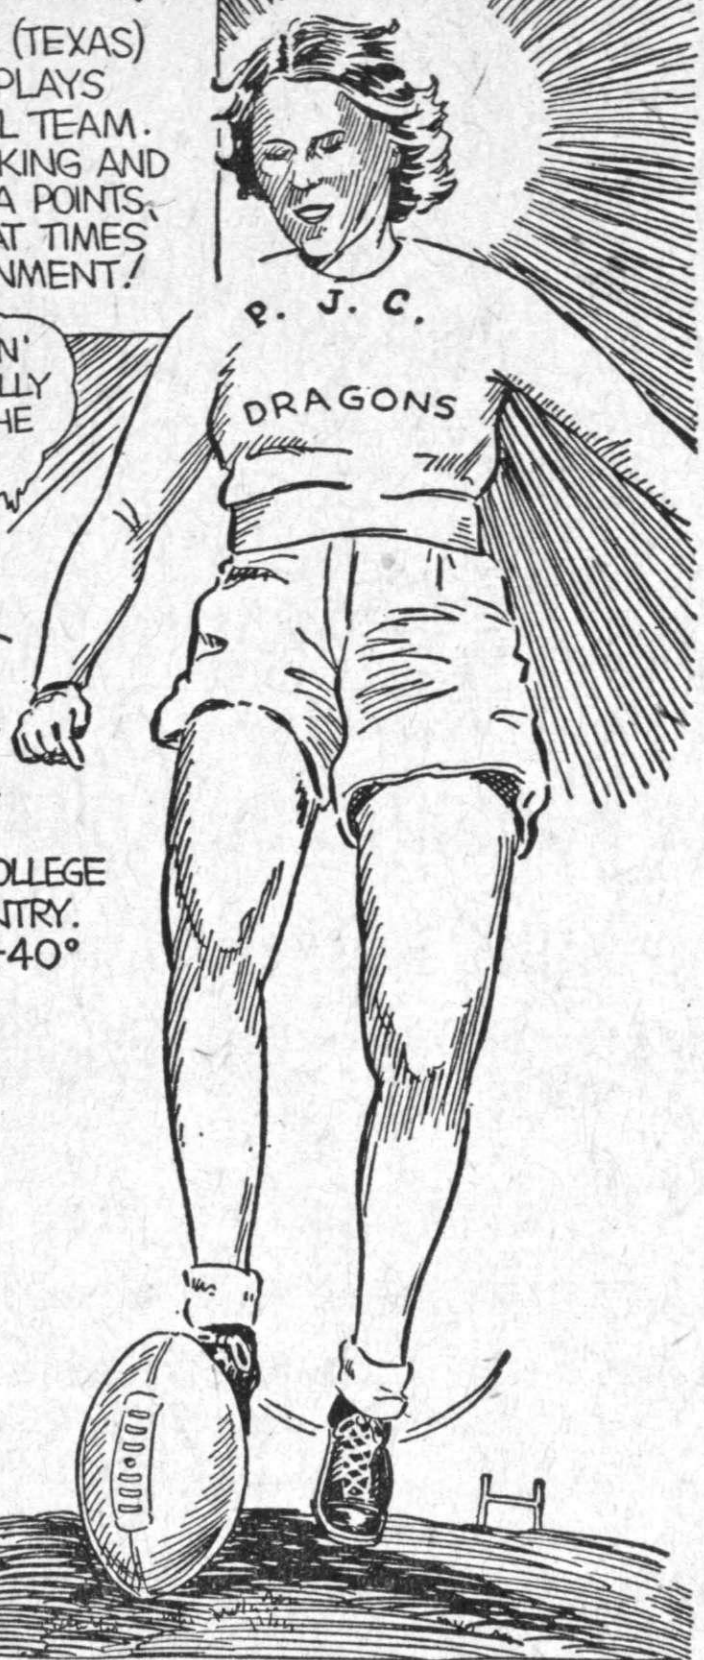

In his lecture on relativity, Dr. Fisher will strive to explain to us

RAMBLIN' WRECKONINGS - -

By Maxwell L. Shatzen, Jr.

When a Tech freshman uses the letter "X", he is probably absorbed in mathematics. When a junior resorts to the use of the 24th letter of the alphabet, he is probably supplying incriminating evidence for a breach-of-promise suit, for a fool and his honey are soon parted. However, since last week's Technique made its appearance, your scribe has been deluged with requests for those names and addresses of the lonely hearts at T.S.C.W. According to GROVER (Ah'm from Texas) WILKINS, those gals out yonder possess curves that would baffle Babe Ruth and they're as soothing to the eye as green goggles.

HEADACHES THAT COME TO AN ASSOCIATE EDITOR:

Warily, your correspondent steals a look into his dusty Post Office box. G-g-gosh, a letter! He tries to remember the combination on the darn thing and after much fumbling—Ah, success! Eagerly, he grasps the lone envelope on which he spies the bold lettering

"CAMPUS MAIL ONLY".

"My Gawd! Are they going to can me now, after three years?" he asks himself. With trembling fingers, he rips open the pale-colored envelope and unfolds the important document. By now, he is in a cold sweat as he devours the message with his eyes. Hm-m. He begins to relax. The letter is merely an assignment from a professor to write an article for Technique on a particular subject. Those "Campus Mail" things will be the death of him yet—he sighs.

Occasionally, an associate editor may receive a phone call at 12 o'clock at night from some proud mamma who thinks it would be nice if Patience's name appeared in this column. On one occasion, a mother asked your reporter to assist her in shrinking her daughter's ego.

With some amusement, your columnist recalls instances when he anticipated getting the low-down on a choice morsel of news only to have some "Toreador" ruin the scoop with, "Nix—don't say nothin'—! There's the bloke dat writes de doit colyum!"

A headache a day
Is the Columnist's pay—
Regardless of diligent prayers.
He tries hard to edit
But gets little credit

And lives on St. Joseph's or Bayer's.

If the damsel who signed her name ALICE O. W. and who sent the 100 word Valentine telegram to George P. Burdell in care of Technique will please step forward and identify herself, she will be presented with one genuine fur-lined straight jacket for being the South's foremost publicity hound. George was highly incensed by being referred to as a freshman, a dear boy, and (of all things) an Engineer! George would have it known that he is now a full-fledged I. M.

LILLA MAE DUKES' older brother, Jimmy, reports that his little sister resented remarks made by this columnist to the effect that she had graduated from "High School Kaydets" to "Col-litch Men." Therefore, this column hastens to correct that false impression by stating that she has NOT graduated...

Well, with the announcement of either 3 or 68 quizzes ringing in his ears, your correspondent reluctantly signs off to hold a rendezvous with those things called text-books.

ALMA, MICH. — (ACP) — Elimination of final examinations at Alma College as an experiment for the next two semesters has been announced by Prof. Roy Hamilton, secretary of the faculty.

In explaining this innovation, Prof. Hamilton said that the change was being made with a view to stimulating students to keep up on their daily work. Frequent tests will be given on the basis of daily work, he said.

This 'N That

By Hugh Fleming

This here week we are going to dispense with all our funny jokes like we been a-primin', and we are going to offer a little advice, both to you fellow sufferers and to the improvement of certain methods of teachin' around the campus.

The first thing that we wish to bring out is mass production in drawing. As it is now, the boys sweat and labor, each trying to figure how and where to draw the next line, each man trying to draw a whole plate just like his neighbor's. Under our plan, things will be just like an automobile assembly line. The first man will put on borders and name plates. The next will put in center lines, and the next will put in lines here and there to start the first view. The plates will pass up and down the room, and the professors, working in relays, will sign their names and put down the grades. Then the plates will be rushed by air express to the welding lab, where they will be turned upside down and used (as at present) for table covers.

Our next brain storm concerns the deplorable blackboard situation here at school. Short professors have a terrible time reaching half way up the board, leaving a whole half of the blackboard unused day after day. We have thought of cutting off the tops of the blackboards and adding them to the tops of the long, lanky professors' boards. However, remembering that the density of slate is something like 2596.3650932, we figured it would take a couple of years to saw through the stuff, so we have devised an elastic blackboard. It is about one foot square, and all the teacher has to do is to write on it and turn a crank, and, presto, the board expands in all four directions, thus giving a blackboard ten feet square. Boy, what a boon to students who draw naughty pictures!

Now that spring is here, it seems that every young man's fancy is turning to lurve or sumpn'. Anyway there has been an amazing amount of flunks over in the electrical engineering department, so your reporter has taken it upon himself to try and help the situation a little. Spending a great amount of work and time, he has finally compiled a few of the essential questions that have been appearing on the quizzes, and he is sure that if the E.E. students will study this sample quiz, they will have no trouble from now on. All these questions and answers were gathered from quizzes taken by honor roll students. So dig in, boys!

1. What is electricity?

Ans. A course of study otherwise known as electrical measurements.

2. What is a current?

Ans. A fruit which resembles blueberries in shape.

3. Define hysteresis.

Ans. Hysteresis is the condition a girl gets in when she loses her platinum fraternity pin at the Freshman Formal.

4. What is a commutator?

Ans. A fellow that gives comments.

5. What is a battery?

Ans. A battery is the pitcher and catcher on a baseball team.

6. What is a brush?

Ans. A brush is a small object used in the process of combing hair.

7. What is an armature?

Ans. A non-professional ball player.

8. What is a floating battery?

Ans. One whose specific gravity is less than one.

9. What is an induction motor?

Ans. A motor which can be induced to work properly.

10. What is the relation between the volt, the ampere, and the ohm?

Ans. The ohm is the amount of potential necessary to send an inductance of one coulomb across a reluctance of one watt. An ampere is the resistance offered when one plug is taken out of an induction coil. A volt is the number of atoms of electricity flowing past a point in one hour.

One more word of advice. We've been around this place long enough to pass this little tip to some of our newer contemporaries. Should a professor, during class, be rude enough to interrupt an interesting conversation you may be holding with a friend, acknowledge the interruption gracefully and show him that you are a gentleman.

S'long 'til nex' week.

For A Better Newspaper

For many years the Technique carried on its mast-head the phrase "The South's Livest College Weekly" as a challenge to the newspapers of other southern colleges. At no time since the first issue of the Technique was it actually the best paper in the South. Tech students lacked the advantage of a Journalism department and the extra time for extra-curricular activities. So, at the beginning of this year, it was decided to drop the claim to the "South's Livest Weekly" until improvements could be made in the paper which would make it a leader of college papers.

Improvement has been difficult and has required much extra time on the part of the staff; but even with half the year remaining, it is believed that definite progress has been made. Further advancement is the ambition for the second semester and it is with this in mind that the Technique has entered into competition with other college papers for a national rating at the end of this year. For the Technique to attain any sort of a rating it will be necessary for every student to give the paper all possible support. So cooperate with us and let's really make it the "South's Livest College Weekly."

This Collegiate World

(By Associate Collegiate Press)

Charles N. Pollack, Harvard senior, has a very, very red face—and here's why:

When the Crimson relay swimming team decided to make a try for a new record in the 800-yard distance, Pollack was chosen to call out the laps to the swimmers from the edge of the pool. The first three mermen turned in excellent times, and the fourth member of the team was well on his way to breaking the established record, when—Caller Pollack became over-excited, fell into the water atop the record-breaker!

He fled from the pool—with the swimmers doing some tall calling of their own in his direction!

Editorialists on the University of Minnesota's Daily have a new and not too complimentary (to themselves) explanation for the current feminine hat fads. Listen to their spouting:

"With a half-dozen exceptions, the girls all buy hats. And it's no use trying to figure out why. What appeals to the ladies is clearly the ludicrous—after all, look at the things they marry."

Hitler — Mussolini — Roosevelt. Those are the three leading "I"-men of the world today, and Pearl Waxman, Syracuse University speech student, has just completed the research to prove it.

The German spell-binder refers to himself once in every 53 words in his public addresses; Mussolini once in 83, and the President once in every 100 words.

At Last!**Northwestern University to Give B.A. Degree In Course Over Radio****Students Can Lay In Bed And Sleep In Real Comfort While Prof. Lectures**

It won't be so long, maybe, till the day when you can get your diploma while lying in bed, by turning on the radio. Northwestern University has announced that part credit in the undergraduate course in Modern Life and Letters will be given students for

listening to CBS Of Men and Books broadcasts by Professor John T. Frederick of the University's Medill School of Journalism.

This is a first step, and a cautious one. In order to receive credit, students must listen to the broadcast in Columbia's Chicago studios, and must stay in the studio for two hours, while Professor Frederick lectures after going on the air. In addition, outside reading is required, and a final exam will be taken after conclusion of the program series in May.

The broadcasts will be an extension of Professor Frederick's regular college course in Modern Life and Letters. Founder and editor of the famous middle Western literary magazine, Midland, until it stopped publication a few years ago, Professor Frederick is recognized as an authority on regional literature. A friend of many of the most important literary figures of our time, he is frequently assisted on his broadcast by the novelists and poets whose books he reviews.

Not pulling any punches, and staying friends with his authors is a trick that few besides Prof. Frederick have mastered.

Newman Club Has Mr. Harrison As Guest Speaker**Arrangements Made For Publication Of Monthly Bulletin**

The Georgia Tech Newman Club had a very unexpected, but very interesting meeting last Sunday. Although the postman failed to deliver any notices about the meeting, nevertheless at least twenty-five members came and were surprised, and pleased, to hear Mr. John Harrison, a prominent Atlanta businessman, address them on the Catholic's place in the business world.

Declining to speak from the platform from which the president, Fred Murphy, was conducting the meeting, he said: "I not only want to be on the same level as you when I speak, but I want you to know that I am on the level." His speech was appreciated by the members not only because of the pointers he gave on what should be their conduct and their ideas once they set out into business, but also and more appreciated because of the spirit in which he spoke. He is deeply proud of the Newman Club at Georgia Tech and does and will do anything for its promotion. It was this sincere interest that Mr. Harrison has in the club that made his brief talk the more interesting.

The meeting was long, but much was accomplished. A tentative date was set for a convention of the Southeast Province, to be held next year here at Tech. Arrangements were made to initiate the publishing of a monthly bulletin to contain the news of the Newman Clubs in the Southeast province. Assignments were made for study club discussions to be given at future meetings.

In the spirit of Religious Emphasis Week there will be another meeting.

Theatre Offering Reward For The Apprehension Of One "Nick Carter"**The Technique Record Review**

By BEN HALL

One of the best Columbia records recently released is Benny Goodman's HONEYSUCKLE ROSE and SPRING SONG. The sextet continues to give a lift with its recordings of MEMORIES OF YOU and SOFT WINDS. These discs are good examples of the fine style representative of Goodman.

Varsity comes through with THE JUKE BOX JUMP and THIS IS ROMANCE, featuring the widely heralded Georgie Auld band, the old Artie Shaw group. These are probably the most important sides the Auld band has made. Royal does its bit in presenting WHOSE THEME SONG, a recording by Richard Himber, in which he imitates the better bands.

Glenn Miller's Bluebird record of CARELESS proves to be one of his best ballad renditions, while Tommy Dorsey's Victor recording of STARLIT HOUR shows his distinctive style.

Famous Detective Story Being Revived

Today, if a boy were asked who the greatest detective in the world is, he would doubtless give one of three answers, depending on his literary (?) background. His choice would be either Dick Tracy, J. Edgar Hoover, or Sherlock Holmes. Forty years ago, the same question put to a fellow could only get one answer, regardless

(Continued on page 8)

Softball Scheduled To Begin March 6

Softball will begin Wednesday, March 6. Four diamonds will be available at Rose Bowl Field, and two diamonds will be laid out on Williams Street, opposite the new Harrison Dormitory.

All fraternities, dormitories, and organizations on the campus planning to enter a team in the school softball program, are requested to select a representative to meet with Coach McArthur at the Naval Armory, Tuesday, February 27 at 4 P. M.

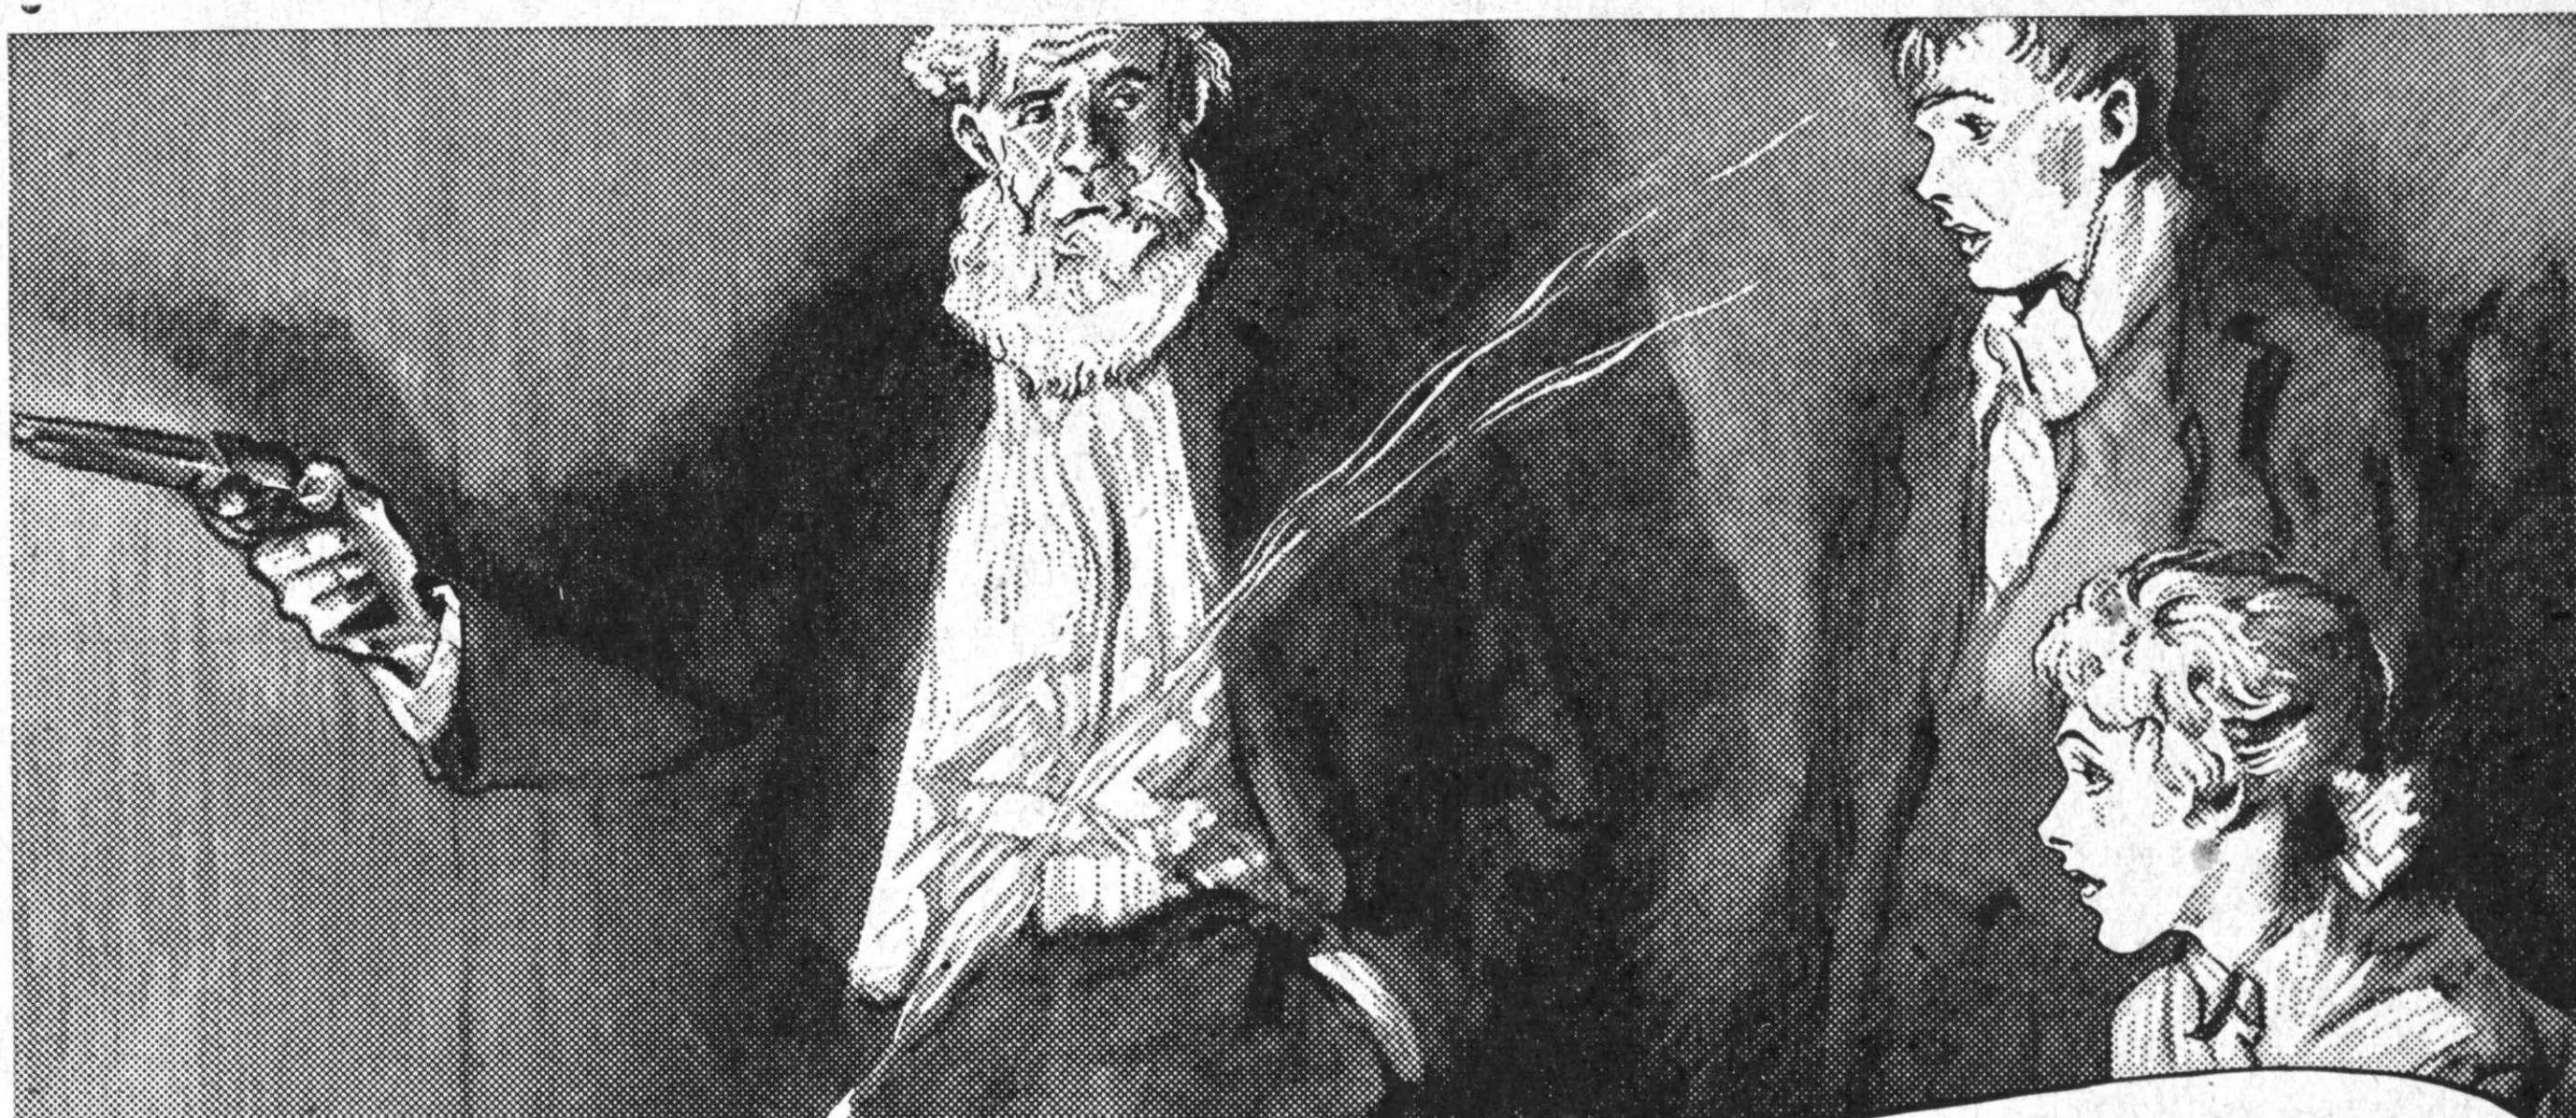

To Seniors Desiring Employment

Your prospective employer requires a photograph of you because he is interested in your appearance and character. A good photograph emphasizes your best characteristics. Don't be "penny wise" and send a cheap photograph. Fully retouched prints at reasonable rates from your BLUE PRINT negatives.

How to tell a creepy story..

Ben Ames Williams in this week's Post writes a yarn to make your hair crawl! A tale for a winter's night, told in the inky blackness of a garret, by an old man with a stocking full of silver... told with every shivery detail, to a young man and his girl, with three murdering men listening outside the door!... Will you hear it? (It comes to you in two installments.)

My Grandmother's Leg by **BEN AMES WILLIAMS**

NEVER HAVE A DAUGHTER! You never know, when she leaves the house, whether she'll come back with a horse, a set of paints, a trombone, or a husband. Push a daughter into this boy-girl business, and you'll be sorry. *Don't* push her, and you'll be sorry. Take the case of Mary... in Gladys Taber's new story, *Letter to the Dean*.

OUR NEXT PRESIDENT WILL BE... Garner? Joe Martin? McNutt? Taft? Wheeler? Dewey? New York's Robert Moses dopes the chances of the current dark and light horses and gives his fellow Republicans an election tip in his Post article, *The Political Olympics*.

WHAT PILOTS NEVER TELL... and what passengers never hear—are the words that fly between pilot and co-pilot on a treacherous night when they're trying to set a giant transport down in a tropical squall. Airline pilot Leland Jamieson cracks out an exciting story of airline flying, in this week's Post, *Co-Pilots Don't Talk Back*.

THE BARBER WHO EARNED HIS FUNERAL. Old William, for private reasons, decided to collect his buryin' money *before* he died. And was double-crossed at his own funeral!... A short story, *Mortgage on the Home*, by Price Day.

DEATH OF A MOUNTAIN CLIMBER. Five people who read this story in manuscript asked, "When did this happen? I didn't see it in the newspapers." This story of a conflict between two men on an icy peak 28,000 feet up is fiction, but it's so realistic you'll swear it actually happened! Read *Top Man*, by James Ramsey Ullman.

SCREWBALL BUSINESS, BUILDING BOMBERS! Do you know why it would be useless for foreign spies to steal the blueprints for a U.S. Army bomber? Why the "simple" business of building bombers drives sane production men mad? Here's what goes on in the factory from Z to A! Read *Bombers by the Pound*.

UNCLE SAM, KEEP HANDS OFF MEXICO! So you think Mexico would be all right if the Communists left it alone? Cross out Communists, says this author, and write in *Uncle Sam*, and you're nearer right. An informed Mexican shows you how Uncle Sam has balled things up by meddling *South of the Border*.

AND... Another installment in Walter D. Edmonds' colorful circus novel, *Red Wheels Rolling*; more of *Dime Store*, the life of Frank W. Woolworth; editorials, Post Scripts, cartoons.

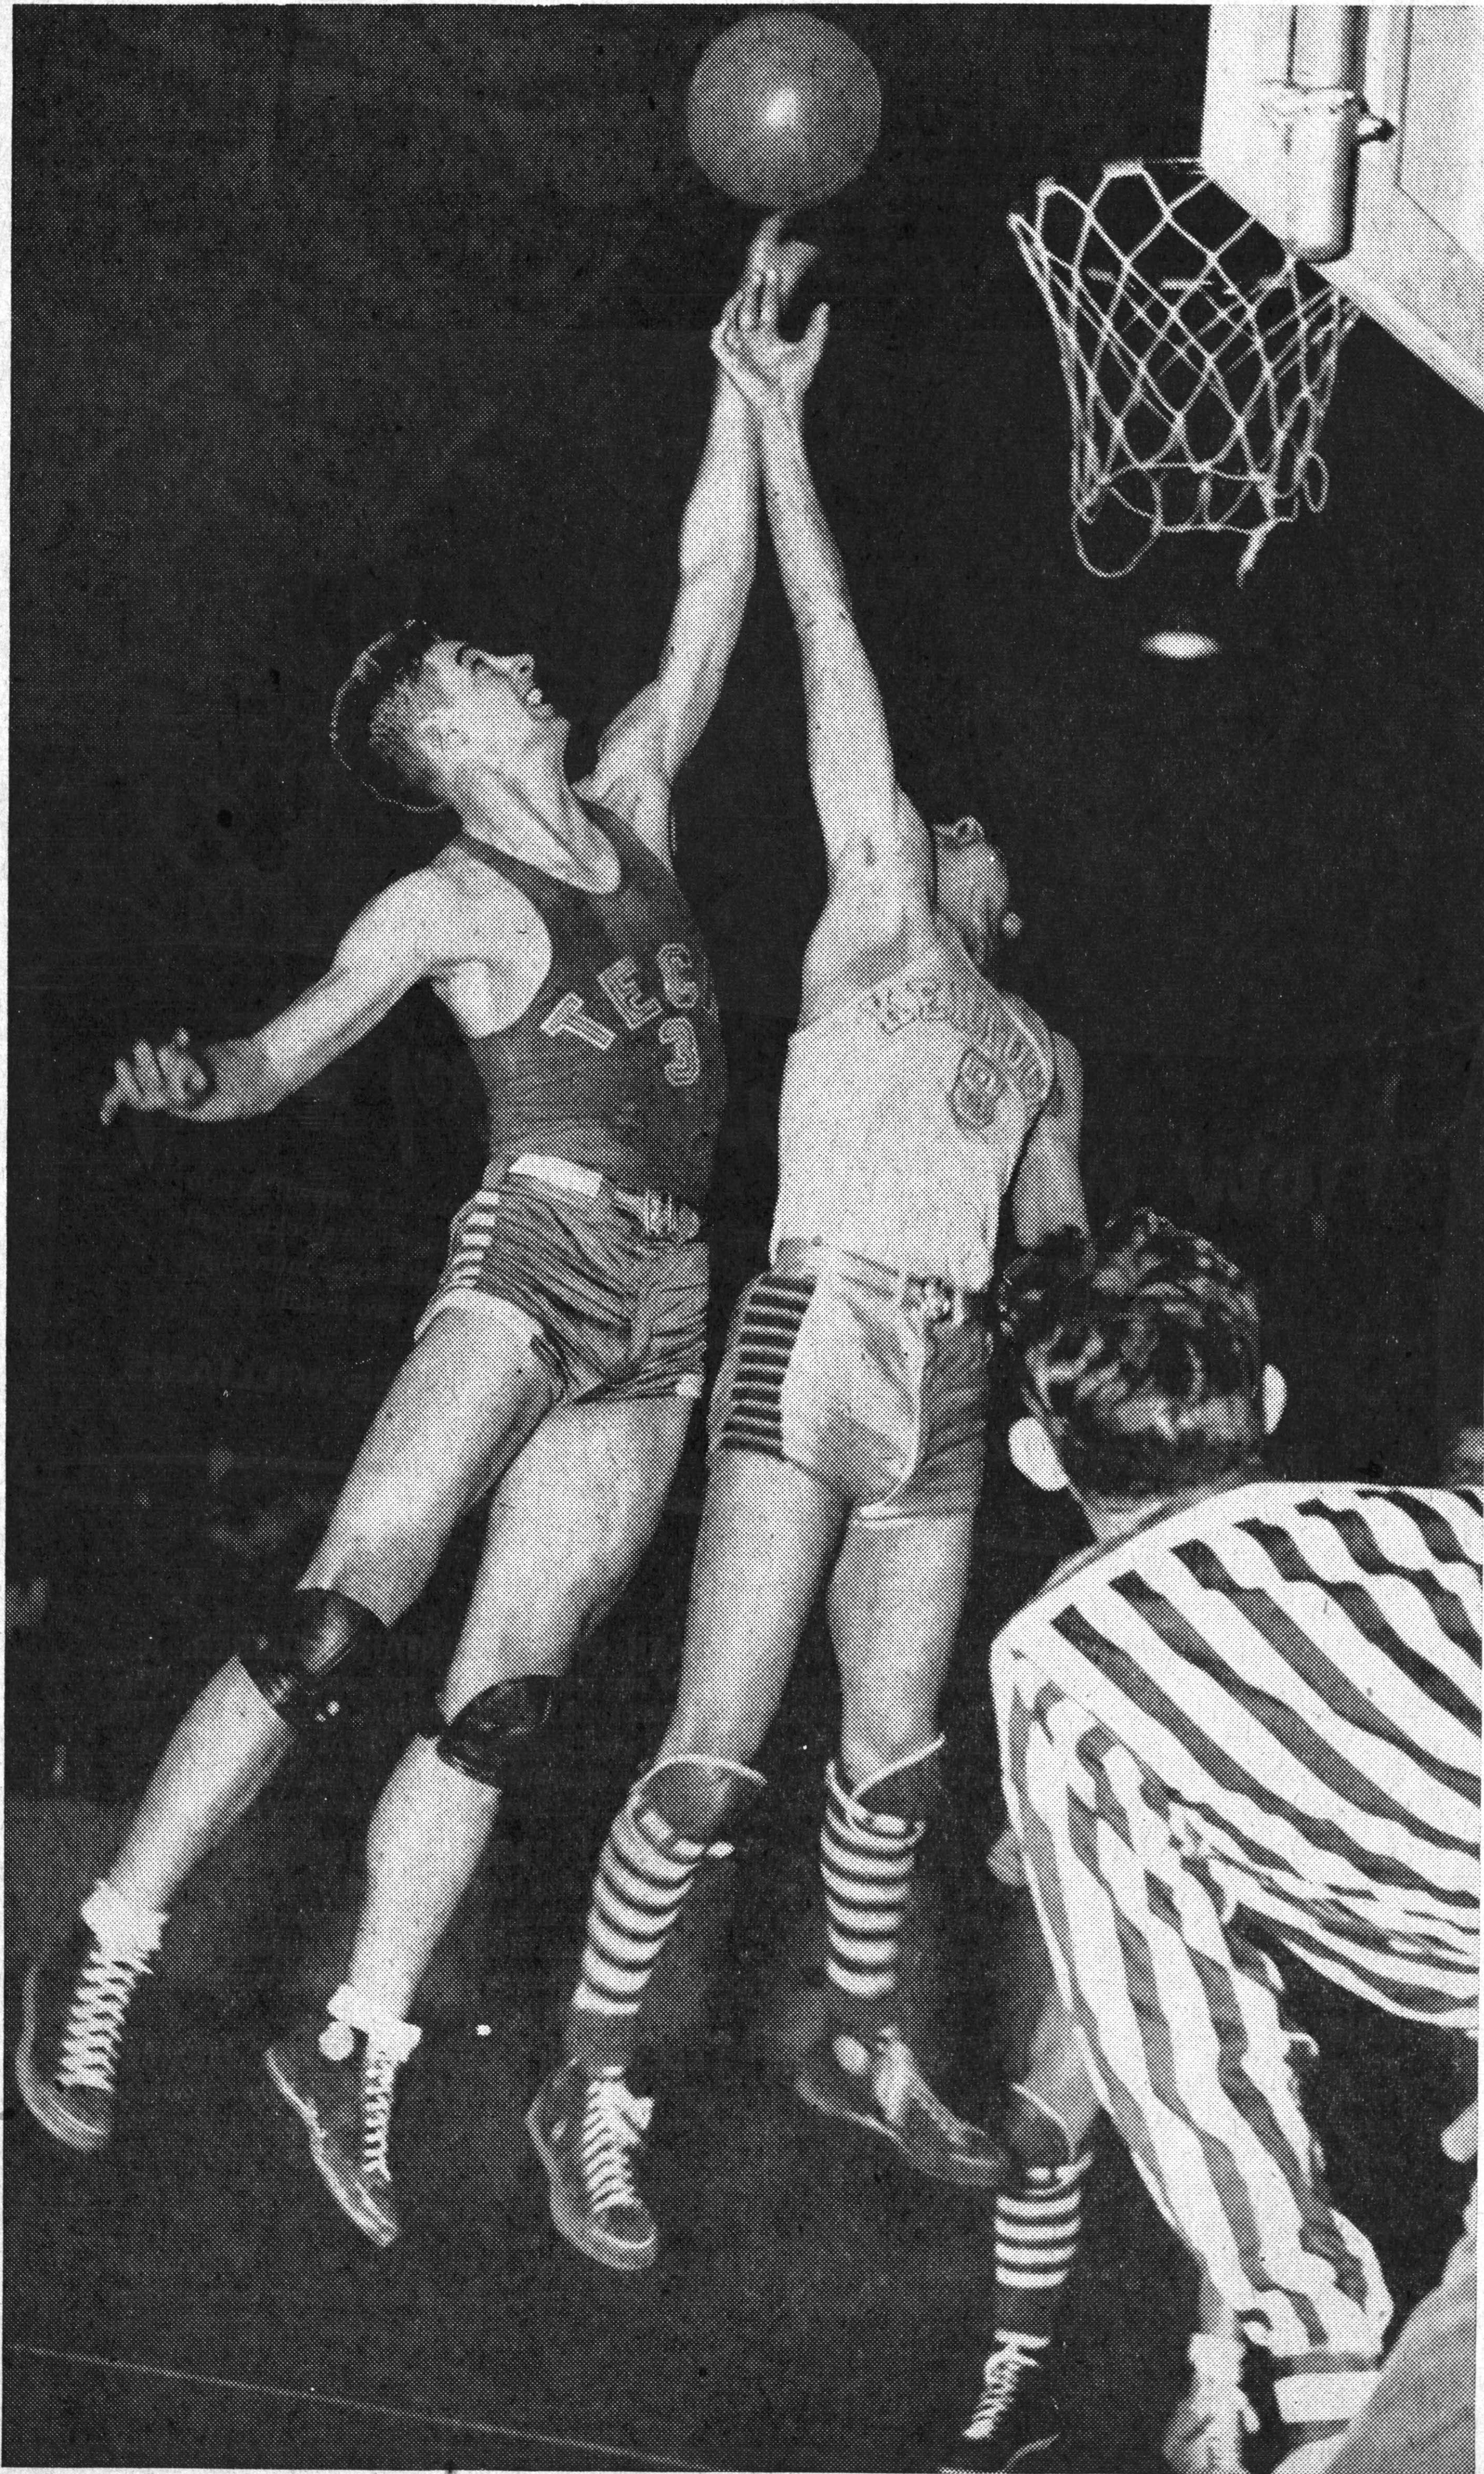

THE SATURDAY EVENING POST

JACKETS SCORE SECOND BIG UPSET OF SEASON

The Technique SPORTS

TAKING IT ON THE REBOUND!

Jim Hughes out-jumps a Kentucky player to ring up two points for Tech. The Kentucky game, last of the home games scheduled for the Jackets, ended in a win for the Jackets, the second upset in as many weeks.

Defeat Of Kentucky Follows Loss To Georgia; Tech Named Dark Horse Of Tournament

By JOHN ROGGE

Tech's fighting Yellow Jackets scored their biggest upset of the season last Monday night, when they defeated Kentucky's Wildcats, 44-39. Indeed, quoting a prominent Atlanta columnist, the Jackets may be designated as the "upset champions of 1940." This victory over Kentucky places Tech in the position of being one of the more prominent dark horses in the coming Southeastern Conference tournament.

Only twice during the game were the Wildcats able to wrestle the lead away from the high flying Jackets, and then only for a few seconds. Tech's fast-breaking offense and the brilliant shooting of Lewis and Johnson kept them about one jump ahead of the Wildcats during the entire game. It was apparent that the Wildcats had no defense for the lightning down-court charges of the Jackets. At times the Wildcats were even frantic in their efforts to stem the tide.

No Substitutions

Lewis, who apparently was vacationing during the Georgia game last Saturday night, was high scorer for the evening with 12 points to his credit. Boneyard Johnson was second high for the Jackets with 11 points. In fact, the play of Lewis and Johnson was the highlight of the game. Farnsley, of Kentucky, was high scorer for his team with 11 points.

Tech's starting five — Haymans, Johnson, Hughes, Burroughs, and Lewis—played the entire game. This combination appears to be the strongest that Coach Mundorf has put on the floor this season. Not one of the Jackets scored less than 7 points, proving again their value of playing as a unit.

Georgia Game Slow

In their second meeting of the season, Georgia's Bulldogs again took the Yellow Jackets of Tech into camp, 41-31. The game was slow and in some spots rather sloppily played. In the first half the play was decidedly Georgia's, while in the second half the Yellow Jackets endeavored to redeem themselves somewhat.

The Bulldog attack was led by Roy Chatham, who garnered 16 points during the evening. This shifty Bulldog guard was the sensation of the game, with his brilliant left-handed shooting. The Bulldogs led at half-time, 31 to 12.

Jackets Close Gap

The second half began rather slow and remained in that state the rest of the evening. In this half, with Hughes leading the way, the Jackets began to close the gap which separated them from the Bulldogs. Tech outscored Georgia in the last half, 19-9.

Besides Chatham's left-handed shooting, the other highlight of the game was Dan Kirkland's guarding of Carlton Lewis, Tech's high scorer. Lewis got four points during the game, but only two points were received when Kirkland was in the game.

Freshman Fencers Win Over Tennessee Military Institute

Tech Freshmen fencers outpointed Tennessee Military Institute 5-4 last Saturday at Sweetwater. A Tech team including Hard, Winkilman, and Graham, showed their strength against Eibanks, Repilado and Maireaco of Tennessee.

This was the Freshmen's second meet of the season. T.M.I. will try for a comeback against the Freshmen this Saturday in the Armory.

Hard defeated Eibanks and Repilado, 5-4 each, and lost to Maireaco, 3-5. Winkilman beat Repilado and Maireaco, 5-4 each, and bowed to Eibanks, 4-5. Graham beat Repilado, 5-3; losing to Eibanks 4-5, and Maireaco, 2-5.

Courtesy The Atlanta Journal

Phi Delta Theta, Beta Kappa Continue As Pace-Setters Of Interfrat Bowling Leagues

Lindsey, Weaver, And Reisman Turn In High Scores Of Evening

At the end of the fourth week in the second half of the Interfraternity Bowling Tournament, it was announced that Phi Delta Theta and Beta Kappa were leading their respective leagues. The Phi Delta Thetas are leading the Eight O'clock League with 10 wins and 2 losses. The Beta Kappas are leading the Five O'clock League with 11 wins and 1 loss.

Among the individual leaders in the "White" and "Gold" Leagues were Lindsay of Pi Kappa Phi, who bowled 143, the highest score, last Saturday. Weaver of Beta Kappa was second with 136, and Reisman of Phi Epsilon Pi was third with 129.

The standings are as follows:

Five O'clock "White" League		
	Won	Lost
Beta Kappa	11	1
Phi Kappa Sigma	7	5
Kappa Sigma	7	5
Pi Kappa Alpha	6	6
Sigma Phi Epsilon	6	6
Delta Sigma Phi	6	6
Beta Theta Pi	3	3
Chi Psi	5	7
Alpha Tau Omega	4	8
Tau Epsilon Phi	0	12

Eight O'clock "Gold" League

Tech Fencers Outpoint Georgia In Third Victory Of Season

Swimming Team Loses To Duke; Duncan, Bates, Take Firsts

On Saturday, February 17, Duke defeated Tech's swimming team, 51-24. Although the Blue Devils led the scoring throughout the meet, Duncan of Tech took first place in the diving event and R. Bates won first place in both the 50- and 100-yard free style.

Summaries

300-yard Medley—Duke (Shepherd, Johnson, and Jenkins). Time, 3:23.5.

200-yard Free Style—Emmett, Duke; Brooks, Duke; Van Arsdale, Tech. Time, 2:25.5.

50-yard Free Style—Bates, Tech; Read, Duke; Stradtman, Tech. Time, 24.6.

Diving—Duncan, Tech; Dickey, Duke; Villagelieu, Tech.

100-yard Free Style—Bates, Tech; Jenkins, Duke; Monsport, Tech. Time, 56.4.

150-yard Back Stroke—Shepherd, Duke; Emmett, Duke; Speed, Tech. Time, 1:56.4.

200-yard Breast Stroke—Moise, Duke; Johnson, Duke; Hutchinson, Tech. Time, 2:44.3.

440-yard Free Style—Emmett, Duke; Smith, Tech; Dwight, Duke. Time, 5:31.1.

400-yard Relay—Duke (Forrester, Shepherd, Read and Jenkins). Time, 4:02.

R.O.T.C. Riflemen Lose To Alabama In Opening Match

The Georgia Tech R.O.T.C. rifle team, coached by Major Lilly, dropped a shoulder-to-shoulder rifle match to the University of Alabama last Saturday, February 17th, by the score of 3,593 to 3,515. Harold Dye, the captain of the Tech team, made a score of 369 out of a possible 400, but this wasn't a good enough score to top the 376 out of a possible 400 made by Alabama's Harold Burkhalter.

During the year the Georgia Tech

Fort Benning Match Next On Schedule

Georgia Tech fencers brought home the bacon again last Saturday, when they forced an inexperienced University of Georgia squad to their knees at the Tech Armory. The Yellow Jacket swordsmen remained virtually unscathed throughout the easy match and came out of the fracas with a top-heavy score of 7-2. Two previous wins over Vanderbilt and the Atlanta Fencing Club leave the way clear for an undefeated year.

In the Tech-Georgia bout Bartha of Tech beat Brown, 5-3. Talley of Tech encountered little resistance in defeating Brown and Clements to the tune of 5-1 for each. Davis of Tech made little of Clements and Maupin, beating them 5-1, 5-0, respectively. Ivey, Tech, beat Maupin 5-3, while Wright of Tech overran Clements, 5-4.

Brown of Georgia stemmed Ivey by the score of 5-4 and Maupin of Georgia beat Wade, 5-4.

The Jackets will encounter plenty of competition Saturday when they face Fort Benning at Columbus. The Benning team includes Lieutenant Kunsig, Olympic saber man; Captain McLaughlin, Olympic epee fencer; Lieutenant Merrill, who was intercollegiate saber champion; and several other ranking swordsmen of the country. The Jackets are basing their chances of winning mainly on the outcome of the foils bouts, in which weapon they have the strongest team. The match will consist of twenty-seven bouts in all—nine in each weapon.

team has scheduled eighty postal matches, and out of the ones they have already had, they have made a pretty good average. If the team can raise the necessary funds, they will travel to Raleigh, N. C., to compete in a shoulder-to-shoulder match with North Carolina State's rifle team on February 24th. Then again on March 16th, the Tech team will venture over to the town of Oxford, Miss., to compete with the University of Alabama, the University of Mississippi, the University of Florida, the University of Tennessee, and the University of Georgia in the National Rifle Association Regional Match.

Freshman Quintet Undeclared Up To Last Game

Georgia Evening School, Notre Dame Prep, Latest Of Casualties

By R. A. BROACH

The past week has again seen the Baby Jackets sweep the floor with all competition. They took the Georgia Evening School into camp last Thursday night by the score of 82 to 17; then, Saturday afternoon Notre Dame of Chattanooga, Tenn., saw the Freshman team ring up 68 points to their own 24.

Both of these games were merely repetitions of the three which had gone before; Anderson was high scorer, Crosby played a flawless defensive game, and Blackwell, Hearn, and Davis played a good all-round game.

The game this past Thursday was a walk-over for the Freshmen, and merely helped to boost their total points and average. Incidentally, after last week's set of games, the Freshmen now have a total of 355 points as compared to 149 for their opponents. This means that the Freshmen have an average of well over a point a minute, 71 points per game as a matter of fact.

The Notre Dame game was slightly more interesting—the stars being Anderson, high scorer, with 16 points, and "Pretty Pat" McHugh, sensational prep school football player of two years back who ruined his gridiron career when he sustained a serious back injury which injured a nerve center in his right shoulder. McHugh scored 16 points, played a fair defensive game, and was the sparkplug of his team's feeble attack.

The Freshmen have only one game remaining on their abbreviated schedule, that with Monroe A. & M. It is in this game that the Baby Jackets expect to meet their sternest competition of the year. The game will in all probability be played Saturday.

Large Squad Reports For First Practice Of Track Season

Track officially got under way on Monday with a good workout which gave the many candidates something to think about. About 150 uniforms were issued on Friday and Monday, but this is not a final counting for quite a few more boys are expected to come out during the course of the week.

Calisthenics played an important part in the workout on Monday, but the boys ran several laps around the track. This sort of exercise will continue for a while, but after the track men get into fairly good shape they will run time trials.

Of course, what the material that has turned out will do cannot be determined as yet, but many of the outstanding cross country harriers have reported for practice.

By CRAIG DAVIS

It seems that Tech's basketball teams, like the football teams, are as unpredictable as they come. One game will run true to form, which usually means, according to the ratings, that Tech loses; and in the next game the Jackets get red hot and beat a team such as Duke, leaders in the Southern Conference. Now that the schedule is finished, Tech's chances in the Conference tournament don't seem to be very promising judging by the season's average; but our opponents are not making the mistake of taking the Jackets' strength too lightly, and we can always console ourselves for not having copped

the title this year by thinking of the team we should have next year. And if the sophomores continue to improve as they have this season, we can look forward to another team like the one of '37-'38—man, what a team that was!

The Freshmen don't seem to be having any trouble this season. All of their games have been won by top-heavy scores, and the team average is now 71 points per game, with an opponents' average of 30 points. Let's hope the boys won't forget how to hit the basket when they graduate to the varsity squad next year.

It will be only a few days until general practice starts for this year's baseball team. Only the batterymen and a few others have done any practicing so far, with the rest of the squad scheduled to start workouts on March 4. Coach Mundorff has his hands full with the basketball squad at present, so trainer Claude Bond is temporarily in charge of candidates who have already reported.

Trainer Bond will henceforth devote all of his time to keeping Tech athletic teams in shape. He was employed as an American Association umpire last season and served in the Southern League for four years before that. He resigned the job this year, however, and has been signed as a full-time Tech employee.

The swimming team just can't seem to get started. Theoretically we should have a bang-up team, but it hasn't come out that way. Bates took two firsts against Duke, and Duncan won the diving event, but the other boys don't seem to be doing as well as they have in past seasons.

The fencers will run into the stiffest opposition they have faced this year when they meet the Fort Benning team tomorrow in Columbus. This team is made up of officers who fenced at the Military Academy, and includes two Olympic men and an intercollegiate champion. The Benning swordsmen specialize in the saber, but are good in all three weapons. The Jackets lost the two matches fenced with Fort Benning last year, but are given a better chance for victory this year. The team so far promises to be the best team put out in the ten years of fencing at Tech, since the three matches held so far this year have been won easily by the Tech squad.

Tech man Charles Belcher placed third in the "Buermyer" 500-yard race last Saturday. The event was one of the features of the annual New York Athletic Club games, held at Madison Square Garden. Belcher graduated from Tech last June, and is one of the best quarter-milers Tech has ever produced.

Roane Beard Takes First Place In Handicap Bowling Tournament

When the smoke of battle cleared away Saturday afternoon, Roane Beard emerged victorious in the Tech Handicap Bowling tournament with a high game score of 140. Beard scattered the pins for a total of 644 to cop first place. Beard started with a handicap of 65 pins.

Bill Schotanus nosed out Rob Ison for second place with a total of 631 to Ison's 627. Schotanus had a handicap of 45, Ison 100.

This tournament, sponsored by Duke Blick, enabled the victors to take home prizes of \$7.50, \$5.00 and \$2.50.

There will be a double handicap tournament March 2, and all interested bowlers are requested to sign up with Boykin Dodson as soon as possible.

High Scores

Beard	644
Schotanus	631
Ison	627
Boor	613
Simms	607
Lalor	601
Longino	593
Jacobs	590

Georgia School of Technology

"A Technical School With a National Reputation"

THE GEORGIA SCHOOL OF TECHNOLOGY offers to young men of ability and ambition a training which will fit them for positions of responsibility and power. The national reputation of this institution is based not on claims, but on results. Its greatest asset is the record which its alumni are making in the productive work of the world. Georgia Tech graduates succeed because they have been trained both to think scientifically and to work efficiently.

Courses in Civil, Electrical, Mechanical, Textile, General, Ceramic, Chemical, Aeronautical, Architectural and Public Health Engineering, Architecture, Chemistry, and Industrial Management

Coast Artillery, Signal Corps, Navy, Infantry, and Ordnance Units of the U. S. Army

For Further Information Address

THE REGISTRAR GEORGIA SCHOOL OF TECHNOLOGY ATLANTA, GA.

Don't Get Excited! It's Only A Fractional Distillation Outfit!

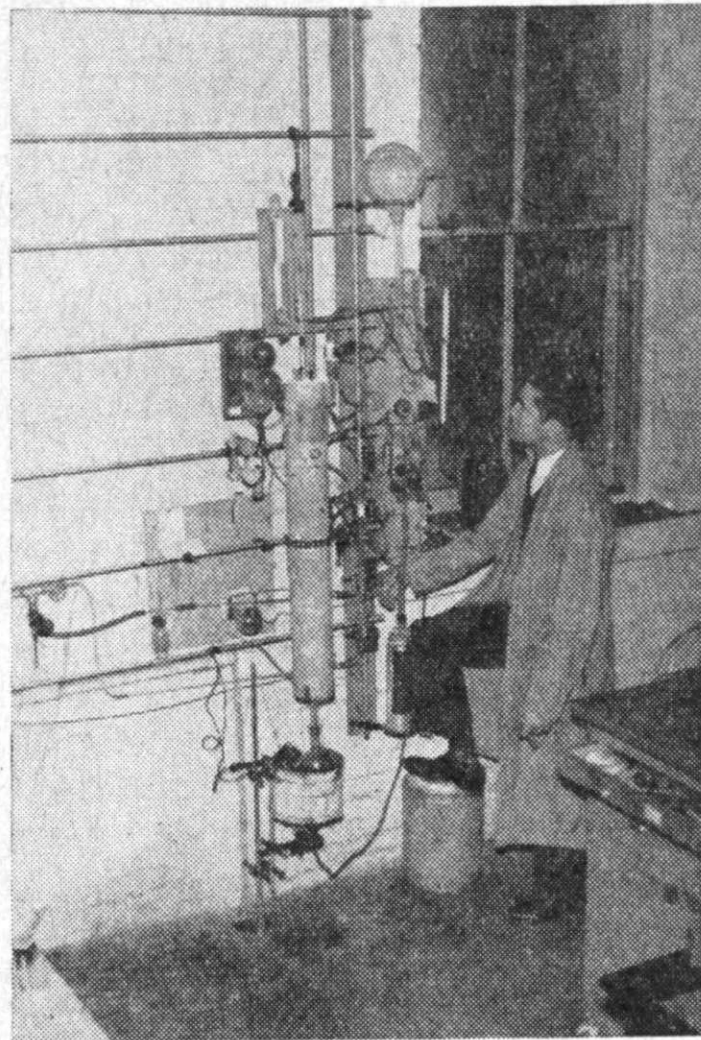

Device Is Product Of Two Tech Engineers, Mr. Gayler and Mr. Weber

Georgia Tech students who wander into the Chemistry Department these days are met with a nightmarish-looking apparatus which remotely resembles an atom-smasher or some other intricate bit of equipment. This funny-looking machine might perhaps be called Confusion, but at any rate it gets results. In the more intellectual circles it is called a fractional distillation machine. Built by Mr. Gayler and Mr. Weber of the Georgia Tech chemistry department, it is one of the few of its kind in the Southern states. The machinery itself is more or less radio controlled. The temperature can be controlled to a reading of plus or minus one degree centigrade. The column which is packed with small glass rings was constructed, or packed, at the University of Wisconsin. The pressure is controlled to a minute degree by a small vacuum pump which is automatically controlled by a circuit-breaker device.

Mr. Gayler, a candidate for the master's degree, is working on new chlorinated ethers which he combined chemically. At different times of the day "cuts" are taken from the machine—the time of the cuts varying with the material coming off.

Those students who are especially interested in the type of work should try in the early future to call on Mr. Gayler and ask him to explain his mechanism to them.

ENGINEER'S DREAM

NO DANGER!

Mr. Gayler, of the Chemistry Department, is not afraid of this simple (?) fractional distillation outfit.

Students Invited To Hear Prominent Architect Tonight

On Friday, February 16, at 8:00 P. M., Mr. John Gray Faron, Jr., will speak on the subject, "Stockholm Builds for the Future." This is an illustrated lecture on housing and town planning. The lecture will be held in the Department of Architecture, Georgia School of Technology. Mr. Faron is sent out by the American-Scandinavian Foundation.

Mr. Faron graduated with a M.F.A. in Architecture from Princeton. He worked in the offices of the Swedish Cooperative Architects' Society in Stockholm in 1937 and was awarded the Fellowship of the American-Scandinavian Foundation in 1939. He worked for several months under Director Albert Lilienberg of the Town Planning Department of the City of Stockholm, where he gained invaluable experience working on designs for new community developments and apartment house units.

There is no charge for this lecture, and all students and the public are cordially invited.

Student Union

(Continued from page 1)

This Student Banquet promises to surpass all past meetings, as it is the only meeting of its kind in the Southeast. Georgia Tech should be particularly interested in this event in that this school has over fifty students whose homes are not in the United States. Other Atlanta schools sending these honor guests include: Agnes Scott, Washington Seminary, Emory, Georgia Military Academy and at least ten other schools have been invited to enjoy this evening of fellowship.

The highlight of the evening will be an address, "International Friendship," by Morgan Blake, of The Atlanta Journal. The program also will include music by Myrtice Trimble and Edith Rodgers, sopranos; Hal Armstrong, accordion; and Robert Harris, violin.

Nervous Techmen Lose To 'Bama As Rifle Team Opens Match Season

Squad To Enter Regional Meet At Mississippi State On March 16

The Yellow Jacket Riflemen were defeated by the gimlet-eyed Crimson Tide Rifle Squad on Saturday, February 17th, in a shoulder-to-shoulder rifle match fired on the Tech Rifle Range. Twelve men from each team fired ten shots in each of four positions with the ten highest scores counting. After the smoke of battle had cleared away it was discovered that the boys from Tuscaloosa had amassed a total of 3593x4000 points while the Techsters were able to garner only 3515x4000.

This was the first shoulder-to-shoulder match of the season for the Yellow Jacket squad and a few cases of the jitters were in evidence. The Alabama squad, who had fired two shoulder-to-shoulder matches previously this season, fired steadily, like the veterans they were. Without question, Alabama has one of the best rifle teams in the South this year, and it was far from being a disgrace to be beaten by their squad. The Yellow Jackets have a few rough edges to polish off and they will be ready for the best of them.

On March 16, Tech's Riflemen will have another chance to try their skill against their talented opponents when both teams fire in the Regional National Rifle Association Shoulder-to-Shoulder Team and Individual Tournament at Mississippi State College. Until that time all efforts will be directed to perfecting the team for the occasion.

High score of the match on Saturday was fired by Burkhalter, Alabama, whose 376x400 topped his team. (Continued on page 8)

Dr. Wedel

(Continued from page 1)

our great universities and colleges. We feel that we are especially privileged in having him speak at the closing meeting of Religious Emphasis Week. He is a dynamic leader whose personality attracts others to the Master's way. Dr. Wedel will discuss questions every thinking Christian must have satisfactorily answered.

Frat Basketball Teams Clash

Second Round Play Opens

Competition became much keener as the Interfraternity Basketball Tournament moved into the second round of play this week.

The scores of the games were closer and a better brand of basketball was displayed than in previous games.

The following scores are results of competition this week:

Winners' League—Division HM

Sigma Chi 30—S.A.E. 21.

Delta Sig 23—Tau Ep 20.

Kappa Alpha 18—Pi K.A. 16.

Losers' League—Division LB

Chi Psi 17—Chi Phi 15.

Phi Sigma Kappa 1—Phi Kappa Sig 0 (Forfeit).

Beta Kappa 1—Phi Ep 0 (Forfeit).

Lineups for the games in the Winners' League are as follows:

Sigma Chi 30	S.A.E. 21
Simpson	Johnson
Whitney	Lewis
Dyke	Molnar
Bobbitt	Warnock
Mulling	Barge
Long—Substitutes	Clark
	Whitlock
	Sanders

(Continued on page 8)

Fisher Speaks

(Continued from page 1)

how Dr. Einstein arrived at his conclusions, how he proved them, and how he put them into practice.

Also, you may see in Dr. Fisher a man who knows so much Math and who can apply it so readily and easily that he may make our own fine Math Department blush with shame.

One ticket will admit you to both lectures and these tickets may be secured at the "Robbery" Monday, Tuesday and Wednesday, February 26, 27, and 28 from 10 A. M. to 2 P. M., and Thursday night at the box office of the auditorium. Don't miss it, fellows. It isn't often one can hear a Star talk about the stars.

Tickets for Lecture available at COLLEGE INN Feb. 26-7-8—10 A. M.—2 P. M. Feb. 29 at Ticket Office

A.T.O. Formal Features Week-End Program Of Fraternity Functions

Tech Social Life At Full Swing After 'Between-Semesters' Lull

By JOHN KING

On Friday evening the Alpha Tau Omega Fraternity will hold its annual formal dance at the Piedmont Driving Club. In the past it has always been one of the outstanding dances of the season and it promises to be no exception this year. The members and their dates will begin the evening by a banquet at the Driving Club at eight o'clock. The dance will follow the dinner and will begin at ten o'clock and last until two o'clock. After the dance the members and their dates will attend a breakfast.

Mrs. W. E. Barber, the house-mother, will be assisted in chaperoning the dance by some of the well known Alpha Tau Omega alumni and some of the prominent Tech professors.

Members and dates include the following: Jack Darby, president, with Miss Anne Wright; Henry Strickland, vice-president, with Miss Marion Barber; Otho Peritt, treasurer, with Miss Keeker Newton; Gene Brooks with Miss Jean Dennison; Bill Seay with Miss Elise Merriam; Hugh Armstrong with Miss Margaret Haskell; Ernest MacManus with Miss Mildred Hammack; Bill Ware with Miss Janet McCrary; Rick Hanner with Miss Susan Cochran; Bob Cochran with Miss Mae Warlick; Paul Wadsworth with Miss Edith Fugit; Harlan Mumma with Miss Winifred Cooledge; Charles Goodman with Miss Frances Davis; Polly Polle with Miss Dottie Groome; David Hamilton with Miss Sarah Copeland; Sidney Gayle with Miss Katherine Moore; Joe King with Miss Genevieve Stevens; Joe Beutell with Miss Suzanne Kaulbach; Crandall Hagan with Miss Louise Woodward; Mac Burroughs with Miss Dot Gay; Frank Lewis with Miss Martha Boyle; Roy Smith with Miss Elta Robinson; Jimmy Venable with Miss Joy Seals; Phelps Ensign with Miss Catherine Hardin; Bowie Adams with Miss Rosalyn Willis; Bob Cooper with Miss Ann Forstner; Swinton Burroughs with Miss Peggy Pair; Clayton Davis with Miss Mary Jane Wilson; Joe Tribble with Miss Perla Hill; Bob Seay with Miss Lulu George; Bill Tutwiler with Miss Jacquelyn Smith; Frank Stovall with Miss Peggy Dut-

Freshmen Give Dance Saturday

Script Affair Open To All

The Freshman Class dance at the Shrine Mosque on Saturday, February 24, will be one of the most important events of the year for Freshmen. Although the Interfraternity Council usually gives several dances every year in honor of the Freshmen, this is the first time in several years that the Freshman Class has given a dance.

The chaperones will be Dr. and Mrs. M. L. Brittain, Dr. and Mrs. E. G. Lower, Dean and Mrs. W. V. Skiles, and Mr. and Mrs. F. B. Wenn.

The class officers and their dates will be: Tom C. Dozier, president, with Miss Beverly Braswell; Jack A. Marshall, vice-president, with Miss Lane Winship; and Leland S. Covey, secretary.

Dinner at the Civic Room at the Hotel Ansley on Saturday night at 8:00 o'clock. There will be delegates from every chapter of Phi Gamma Delta in the country. The dinner will be held for all actives, pledges, and alumni. This promises to be a delightful as well as interesting event for the Phi Gams.

Phi Delt House Dance

Another of the fraternity activities of the week will be a house dance which the actives of Phi Delta Theta will have for their new initiates. The dancing will begin immediately after the formal initiation on Saturday evening. Among those to be present with dates (as usual) will be: Bob Ison with Susan Garrett, and Roane Beard with Ruth Reynolds.

The Sigma Alpha Epsilon boys will enjoy a buffet supper at 6:30 on Sunday.

Also, the Kappa Sigma fraternity will entertain their pledges at a smoker. It will be held at the fraternity house, and refreshments will be served.

S'CUSE US!

Last week's Technique failed to give credit to The Atlanta Journal for the pictures so generously loaned us.

Sigma Chi Dinner

The Sigma Chis will enjoy a dinner at the Clairmont Hotel at 7:00 o'clock on Saturday night. During the first term the fraternity was divided into two parts to carry on a scholastic battle. The side which had the lowest scholastic average is now required to give the other side the dinner which is to be given Saturday night. Congratulations on the idea, Sigma Chis.

Phi Gam "Pig" Affair

The Phi Gamma Deltas will have their annual Frank B. Morris Pig

By BILL KELLY

Seen over at Auburn last Saturday night for the S.P.E. formal were Norman Walton, "Cuban Pete" Ponce, and Bob Kiel, all of whom were having a very big time. Guess Bobby Beers, Howard Ector and Jane Lawless found the Chi Phi dance at Athens much more interesting because they were there hearing Maestro Conway and his band introducing his new theme song, "Dodging the Dean," an old-time favorite recently reborn. The Georgia boys were stunned by that same strapless evening gown that Jane has been displaying to Tech for the last ? years.

Wonder what happened to that prime Friday night when he escorts the Sigma Deltas' sub-buttermilk to her formal. Wonder who that cute Lane Winship is taking!

Wonder if Frank Allcorn will be surprised when he sees Jack Darby in the A.T.O. leadout with Anne Wright, the girl Frank has been telling us about and who hails from Shorter, I believe. Also in the leadout with Bucky Goodman will be Frances Davis, one of the Phi Mu girls from Brenau. Shall I tell them the whole story, Bucky?

The professor wasn't surprised but the boys were curious when Bill Daniel came to his eight o'clock class in a tux. What happened between the Pi Pi breakfast and your first class, Bill? Did Margaret Lockwood go to your head, or was it Jack King's driving?

Ina Dudley couldn't get to Atlanta for the dances because "Sparky" was on a basketball trip so she went to Athens last Saturday to see the Georgia game. It must be wonderful, Mr. Bryon. Eloise Ainsworth got here, though, and derved if Ed Thomas didn't get them to double-date with Gene Ransome, who's reputed to be

"Next to the Varsity"

Nick Carter Rides Again! Bring Him Back Alive And Collect

(Continued from page 3)

of circumstances. Nick Carter was the super-sleuth who captured the fancy of all, from Grandpa down to the eight-year-olds. He was presented to his admiring public in a new and different way, for he was one of the first heroes of the dime novel. These magazines did not repose on the shelves of libraries, but were carefully hidden away in haymows till their owners might peruse them at leisure and in seclusion or in the company of a special buddy. Consequently, very few copies have been preserved for posterity.

Nick Carter has now been modern-

ized and made into a hero of the silver screen. "Nick Carter, Detective," a recent Hollywood production, is now playing at the Rialto. This picture, a remarkably successful attempt on the part of Hollywood to bring to the movie-going public one of the most famous characters of pulp-magazine fiction, makes excellent entertainment.

An interesting sidelight is the contest which is conducted by the management of the Rialto. A substantial monetary reward is offered to anyone who brings in a Nick Carter magazine, and several have been secured. One

of the stories is now being reproduced in The Atlanta Constitution in daily installments.

Between the fact that many of these stories are being repopularized in print and the fact that more pictures about Nick Carter are likely to follow, it is possible that a new idol of the college men is being born, or re-born. Soon Dick Tracy, Ellery Queen, Dan Dunn, and all the rest of the upholders of the law may be forgotten, obscured by the rising star of the idol of our forefathers, one Nick Carter. Who knows?

Chemical Society To Hear Speaker At Banquet

The regular meeting of the American Chemical Society is to be held on February 26, 1940, at Brittain Dining Hall. The members and visitors will be entertained by Dr. W. T. Badger, Consulting Engineer Division Dow Chemical Company. Dr. Badger, who is the author of numerous text books and periodicals, will speak on "The History of Unit Operations."

All students and faculty members are cordially invited to attend and hear a most interesting speaker.

mate, Fitts, by four points. Jackson, Alabama, also fired a nice score, his 370x400 tying the high score fired by Tech.

Captain Harold A. Dye, of Tech, fired the high score for the Yellow Jackets, his 370x400 being substantially higher than the second high Tech score, which was fired by Seay. Seay was the dark horse of the match, his 360x400 being a most welcome addition to the team total.

The Yellow Jacket Riflemen journey to North Carolina State College on Saturday, February 24th, for the purpose of engaging in a match with the Tarheels. It is expected that eight men will make the trip to Raleigh, with all eight firing and the five highest scores counting. Tech gained a decisive decision over the Tarheels last season, and they will undoubtedly be loaded for bear this year.

(Continued from page 7)

carrying a torch for the pretty miss. Tough luck all around, kids.

What's this I hear about the eight-foot super-saturated fellow at the K.A. house in Athens who threatened to lick the next man who walked in the door? They had to hold the young giant to keep him from mauling John "Short Stride" Gilmore.

Why all the secrecy, Bobby Oster? Couldn't you let the fellows know that you were married last October 27th instead of letting your wife walk in un-announced from the north? Also among the newlyweds is Paul Decker, who took the vows last Friday night.

So I close this week, still wondering what Jim Gribble has that gets lip-stick for him and the door for Charlie Bethea when Charlie had a date with Ann Upchurch at the last Tri Delt open house at Brenau. Can't say I didn't warn you, anyway, Charlie!!

Chesterfield presents a
Combination you can count on for

Real
MILDNESS
AND BETTER TASTE

The perfect blend of
the world's best cigarette to-
baccos in Chesterfield gives you
the two things you want and
look for in a cigarette . . . Real
Mildness and Better Taste.

Then, if you add that
Chesterfields are far cooler,
you know you have a ciga-
rette that *really satisfies*.

CLARK GABLE
AND
VIVIEN LEIGH

You can count on the great Combination of
CLARK GABLE and VIVIEN LEIGH
to give you great pleasure in
"GONE WITH THE WIND"

(a Selznick International Picture . . . Produced by
David O. Selznick . . . Metro-Goldwyn-Mayer release)

You can count on the RIGHT COMBINATION
of the world's best cigarette tobaccos in
CHESTERFIELD to give you more smoking
pleasure with their Milder, BETTER TASTE

Chesterfield

The Cooler, Better-Tasting, DEFINITELY Milder Cigarette
