- Matt Might's "Illustrated Guide" makes a mighty good point
- zoom into NASA's "Global Selfie" project
- & the especially gorgeous painting is by Samantha Keely Smith

If nature has made any one thing less susceptible than all o action of the thinking power called an idea, which an inder long as he keeps it to himself; but the moment it is divulged of everyone, and the receiver cannot disposess himself that no one possesses the less, because every other po

receives an idea from me, receives instruction himself with

who lights his taper at min without darkening me. That Ideas

another over the globe, for the moral and mutual instructio condition, seems to have been peculiarly and benevolen made them, like fire, expansible over all space, without le and like the air in which we breathe, move, and have

confinement or exclusive appropriation. Inventio

in nature, be a subject of p

an exclusive right to the profits arising from them, as an ideas which may produce utility, but this may or may not i convenience of the society, without claim or complaint from as far as I am informed, that England was, until we copied h ever, by a general law, gave a legal right to the exclusiv countries it is sometimes done, in a great case, and by

generally speaking, other nations have thought that th

produce more embarra advantage to society; and it may to refuse monopolies of invention, are as fruitful as England in
