

# TUESDAY TALKS

*The Georgia Tech Faculty Speaker Series*

*Research for all of us*

## Music, Science, and Technology

Music and its performance have been part of our inheritance since primitive times. But what is music? How do we produce and hear it? How are popular instruments that we use to perform it, such as the guitar and piano, evolving? These and related questions will be discussed from the standpoint of current science and technology.

**Henry S. Valk, Ph.D.**

Professor Emeritus  
School of Physics

**William Hunt, Ph.D.**

Professor  
School of Electrical and Computer Engineering  
Georgia Institute of Technology

**March 3rd, 2009**

**2 – 3:30 pm**

**Neely Lobby**

**Library and**

**Information Center**

Tuesday Talks is a series of lectures sponsored by the Georgia Tech Library featuring research presented by Georgia Tech Faculty for the rest of us...
