

## Pi D E Holds Contest For Student Writers

### Prizes to Be Given for Winning Short Story and News Article

The Tech chapter of Pi Delta Epsilon has just announced plans for a Writers Contest which it will sponsor on the Tech campus. The contest has been divided into two classes—the short story class and the news story class. The writer of the winning story in each class will receive a cash prize of \$7.50, and there will be but one winner in each class.

At the end of the contest, which will last two weeks, the prize-winning news story will be published in THE TECHNIQUE, and the best short story will appear in "The Yellow Jacket." The purpose of the contest, according to the Pi D E contest committee, is to stimulate interest in the campus publications and to discover new journalistic talent at Tech. The rules for the contest, as drawn up by the committee, appear below.

#### General Rules

1. The contest is limited to those Georgia Tech freshmen, sophomores, and juniors who are not connected with the editorial staff of any campus publication.

2. All entries in both classes must be typed and double-spaced on one side only of regular typing paper. Each entry must be labeled either "short story" or "news story" at the top of the first page; the contestant's name must appear in the upper right-hand corner of each page.

3. All entries must be placed in Georgia Tech Post Office box 1245 by 1:00 p.m. Friday, April 10, 1942.

#### Short-Story Rules

1. Short-story must not exceed 1000 words in length.

2. Short-story must be suitable for use in "The Yellow Jacket," and need not necessarily be risqué or funny.

3. The committee of judges for this

(Continued on Page 6)

## News-Story Facts—

(Ed. Note: The following mixed-up facts are to be used in all stories that are entered in the News-Story class of the Pi D E Writers' Contest; they do not relate true happenings.)

The three-story six-flat Rambler Apartment House, located at 209½ North Avenue, burned to the ground at 2:20 this morning. The only persons in the building at the time were Mr. and Mrs. Henry S. Smith and their roomer, George P. Burdell, who lived on the third floor. The other tenants were away on vacation trips.

The fire was discovered by Mrs. Smith at about 2 o'clock. She was awakened by the crying and coughing of her 6-months-old baby, Susan. When she opened her eyes, she found that the room was full of smoke. She awakened her husband, seized the baby, and started for the front door. Mr. Smith shouted to Burdell and followed his wife. When the front door was opened, a cloud of smoke poured into the apartment and overcame Mrs. Smith. While Mr. Smith was trying to resuscitate his wife with cold water, Burdell went to the back room and found the outside stairway in flames. All escape seemed cut off, and Burdell, taking his revolver

## Class of 1942 Votes to Sponsor Senior Dance

### Group to Donate Toward Fund for Student Building

After a very turbulent class meeting Wednesday in the Chapel this year's graduating seniors voted to have a senior class dance, which will be open only to seniors, the night before graduation. Heated discussions over the desirability of having the dance led finally to a vote of 230 pro and 85 con.

#### Voted Assessment

It was moved to assess each senior of the class of '42 \$3.00. One dollar will go towards the senior dance and the remaining two dollars will be each senior's contribution toward this year's class gift. This was passed by acclamation.

This year's contribution from the senior class will be put into the fund started by last year's seniors toward building a student union building. Charlie Sanders, class president, pointed out that the class of '42 would have its name inscribed on the cornerstone of the building when it is built. This was unanimously approved.

#### To Swell Building Fund

Also unanimously passed was a motion to include in this class gift any money left over from the senior (Continued on Page 6)

WILLIAM WYATT, Barbara Connally, Warren Terry are shown in a scene from "Pirates of Penzance," Gilbert and Sullivan opera which will be put on by members of Agnes Scott and Tech Glee Clubs Friday and Saturday nights at Agnes Scott's Presser Hall.

## Tech, Scott Give Opera

The Georgia Tech Glee Singers, in collaboration with the Agnes Scott Glee Club, will present Gilbert and Sullivan's "Pirates of Penzance" tonight, Friday, March 27, and tomorrow night, March 28. The performance, in Presser Hall at Agnes Scott, will start at 8:30 P. M.

Mr. Warren Lee Terry, of the New York stage, will take the leading part; namely, that of the Major General. He has spent the past week directing the final rehearsals. Other principal parts will be sung by students of Agnes Scott and Georgia Tech.

Last year these groups gave "Pianafore," also by Gilbert and Sullivan,

and this year the two choral groups combined to present a Christmas Carol program.

The operetta is one of the major attractions on the Tech Glee Singers' schedule for this year. In preparation for it, both musical organizations have been practicing both separately and jointly since the Christmas holidays. Tickets are on sale at the Tech "Y." The price for reserved seats is 55c and general admission is 40c.

## Clean Up Week Begins April 19

Atlanta's annual "Clean Up, Paint Up, Plant Up, Fire Prevention" campaign will be staged during the week of April 19-25, under the auspices of the Women's Chamber of Commerce of Atlanta.

"This year's campaign, more than ever before, calls for unified cooperation," said Mrs. Seviars, director of the drive, "because the Federal Government has need for all waste paper, old metal and many other types

of materials which can be used in the defense effort."

The city police, fire and sanitary departments have pledged cooperation in this year's drive. Department trucks will pick up and carry away all debris.

A new feature, brought on by the war, will be lectures by fire department officials on dealing with incendiary bombs.

(See Editorial, Page 2)

## 'Stamp Selling Is the Berries,' Scott

### Total Defense Stamp Sales Amount to \$100

According to Scabbard and Blade President Ed Scott, the Defense stamp sale sponsored by Scabbard and Blade did not go over as well as was expected. "However," said Scott, "the sales amounted to approximately \$100.00, which is pretty good for the Tech students in the middle of the month."

The sale was highlighted by the presence of Miss Barbara Dillon and Miss Mary Catherine Timmons, who graciously offered their assistance for the patriotic sale. The main event was the "payoff" when several buyers received kisses as a reward for their purchases. "If everyone had been rewarded in the same manner," said President Scott, "Uncle Sam would have taken in enough money to pay off the national debt."

MISS BARBARA DILLON uses her feminine charms to influence Scabbard and Blade's Captain Ed Scott to buy Defense Stamps.

## Student Council Finalists Given

Next Monday the Student Council election finals will be held in one of the closest political contests seen in many years.

The campaign began last Monday with the primaries, after which twenty-two men remained in the running. The unusual feature of the primary results, and the cause of much speculation, was the even split between the two parties in the finals list.

Of the twenty-two in the finals, half will be eliminated, the other half being divided as follows: five juniors, four sophomores, and two freshmen. While the candidates are members of the above stated classes, they are running for senior, junior, and sophomore positions respectively, in which classes they will be next semester.

The Office of the Dean announces

the following men are in the running for positions in the Student Council. Finals will be held next Monday, March 30.

ALL STUDENTS PARTY	NON-POLITICS PARTY
<b>Juniors</b>	
Bier, J. W.	Bell, H. S.
Burg, G. W.	Dunn, R. O.
Dodd, R. O.	McLendon, S. C.
Stein, W.	Newman, D. R.
Woodard, W. K.	Tharpe, J. B.
<b>Sophomores</b>	
Elder, R. C.	Elderidge, D. C.
Nesbit, K. N.	Fitzgerald, B. D.
Scruggs, C. C.	Harris, W. H.
Woods, R. B.	Sanders, W. J.
<b>Freshmen</b>	
Johnson, W. S.	Sanders, M. J.
Olsen, S. M.	Young, J. L.

## Let's All Take Part In 'Clean-up Week'

In cooperation with Atlanta's annual "clean-up" week, THE TECHNIQUE is asking all Tech students to pay particular attention to the importance of this campaign in relation to the present emergency. Uncle Sam today needs our help more than ever before. Everything we can do toward furthering the war effort, whether it's operating a machine gun or saving old paper, brings us nearer victory.

If each student would make a concerted effort to clean up the campus as well as his fraternity house or dormitory, not only would he improve the appearance of the college, but he would be effectively aiding the defense drive to conserve paper.

Except for a few spots, our campus is little more than a sea of waste paper besprinkled with hundreds of paper cups. The only noticeable addition to the campus is a garbage dump on the east side of Cherry Street.

We hope the student body will take this opportunity to accomplish two jobs in one.

G. S. K.

## National Defense Not A Simple Matter

(By Associated Collegiate Press)

"The task of national defense is not the relatively simple one of accumulating arms, munitions, ships, soldiers, and other means of destruction. It is also one of supplying a steady flow of intelligent, well-educated, conscientious, skilled citizens into the population. The safety of the nation must not be neglected, but full safety even in time of war involves the promotion of the welfare of the civilian population, adequate instruction for our young people, and proper consideration of the problems of a post-war world. To weaken unnecessarily the educational system at this as at any time is to increase definitely and materially the vulnerability of the nation."—President Alexander G. Ruthven of the University of Michigan urges his institution to maintain its teaching standards and keep together its teaching staff.

## Great Men Are Men Aflame with Energy

Great men are men aflame with energy. They are invariably tremendous workers. It is said that in one year dynamic Mussolini granted audiences to 60,000 people—more than 1,000 a week or 150 a day. During the same year he had almost two million papers laid before him by his secretary. And this was only a part of the work he did!

A man's working quotient is a good measuring stick of his ability to achieve. Eight-hour days and success are as far apart as the poles.

Almost every man can do more work than he thinks he can. Walter Pitkin says that the average man can double his efficiency. The scientist tells us that there is more power in an atom than man can measure, and man is made up of billions of atoms. So we have no reason to feel weak or powerless.

What we need to do is awaken our latent powers. The spark that sets these powers aflame is a great ideal, purpose, or aim in life.

## Dirty Politics Shows Poor Sportsmanship

Last Monday morning the primary election of Student Council members was held. The Tech campus was literally covered with signs and posters of many types. These signs, especially the big ones, are expensive, and it takes lot of time to make them. It is very bad sportsmanship to tear them up, since they are put up to give students important information about the candidates.

Some members of one political party tore the pictures off of the opposition party's sign, and in retaliation the opposition party set the other party's sign on fire. Ill bred actions of this type give other students a bad impression of candidates running on the nomination of parties that resort to such tactics.

The TECHNIQUE hopes that acts of this nature will be less frequent in next Monday's election.

## Ramblin' Wreckonings

By MAXWELL L. SHATZEN, JR.

**Free Circus**

Most of you have attended a performance of Ringling Brothers' Circus and you have witnessed clowns and acrobats leaping through the circular hoop of fire. Until recently, your reporter has always felt that such a demonstration was well worth the admission price, but last week, he changed his views, for here on Tech's very own campus he witnessed the identical performance free of charge and from a ring-side seat. It was in Organic Qual. Lab. that the performance came to pass, and it was Chemist Schulherr who was operating an oil heating-bath at 250 degrees Centigrade, when something gave way and hell broke loose. The oil exploded and burst into a perfect and complete circle of fire similar to that which surrounded the fair Brunnehilde. Well, sir, you never saw so many Schulherr's and Stanislaw's performing such agile acrobatics in all your life.

**Long-Hair Looeys**

Of course, you too have probably whistled a couple of exclamation marks as you walked behind an attractive damsel, and you, too, were probably chagrined when she turned around and you observed that she was 15 years older than the Rocky Mountains. Not infrequently, distance lends enchantment and—if you don't believe your scribe, ask Roy Morrison who, between sobs, relates the following sad story.

Music-loving Morrison took Gretna and Barbara Benning to enjoy the efforts of the Cincinnati Symphony Orchestra. Of course, they were enraptured by the music but they both were simply goo-goo about the harpist. So, "Sucker" Morrison took them to the train to see the harpist before he left. The girls were much, much disappointed—(why do harpists have to be so old?) But, at a distance, he

had made their hearts flutter.

But, the Benning chil'un refused to be un-musical so they dated the flutist and the cellist respectively for last night's concert and since poor little Techster Morrison can't play anything but a slide rule, he was left out in the cool spring air.

**Etiquette, Tech Style**

How would you like to be transported by motor car to a strange but fashionable residential section, come to a halt in front of a palatial dwelling, be evicted from the car and ordered to ring the door bell and after forcibly brushing aside the butler, announce that you have come for dinner? Of course, you would be armed with a small white card, on one side of which would appear the name of the embarrassed daughter of the household and on the other the cryptic message: "Introducing Bull Pup ....."

This small but impressive white card would also help to prepare your hostess for your unwritten supplement to Emily Price Post's popular little tome. Her shock at seeing you straddle her brocaded dining room chair like a hobby horse, or eyeing your napkin draped like a baby's bib securely tied behind your neck, would be less severe. The small white card would lessen her anxiety as you devoured your victuals, aided merely by the trusty sterling knife which you found by your elegant dinner plate. But, it is quite doubtful if the little white card plus a whole carton of Murads could sustain her nonchalance when you purposely upset a glass of water on her snowy white linen table cloth; or when you tossed two pennies beside your empty plate in payment for the grub and extracted a rat-trap cheese sandwich from your pocket and assuaged your starvation by devouring the tid-bit before the eyes of your irate hostess.

## Proposed Dropping Of College Football Would Be Unjustified

THE TECHNIQUE would like to take this opportunity to express the undivided opinion of the entire student body regarding the controversy on abolishing inter-collegiate football in the schools in the University System of Georgia.

To us there is no question. Football should not be discontinued. If anything, war has made football more important to students and to the public. It not only affords fine entertainment and diversion for the spectators, but also will supply more men to the service who will know how to take it. With the public giving their jobs that extra punch, and students hitting those studies harder the year around, such entertainment as a big football game is a necessary part of everybody's relaxation.

Inter-collegiate football benefits the school in several ways. It is a source of income. It's good publicity for the school. In fact, we wonder just what would be gained in abolishing this sport. We think there is no argument whatsoever in favor of giving up this sport. In reference to a statement made by a member of the Board of Regents saying the people would have to roller skate to the games, this statement is an example of the numerous hollow arguments set forth against football.

If the Board of Regents wants to act for the welfare of the schools which it heads, it will vote unanimously in favor of keeping intercollegiate football in all of Georgia's schools.

G. S. K.

## 'Taking Sides' Helps To Build Personality

Some natures don't like taking sides. As a rule, they ask: "Why should I take sides? After all, it is something of a nuisance to do so. I don't want to be bothered. If I take sides, I've got to take a stand, and when that is done I subject myself to attack."

Taking sides always means that. Life is that way. No walk in it makes it really practicable for you to take the lone trail. You may think you'll do so, but sooner or later you'll be tripped up. You literally must be for or against.

And, really, there is a great stimulant in taking sides. You may, of course, take the wrong side. Or you may find yourself on the side of a lost cause. Then you find the honey of life. Dullness goes. You become, as the insurance experts say, a first-class life. The mind reacts promptly and generously. Where once it was flabby and uninteresting, it jumps up the high-water mark mark of intellectual standard. It is a great thing to unfurl your flag and wear your favour.—Tit-Bits.

New "Y" Directors  
Are Dr. Broyles,  
Gibson, Winship

Besides the student officers who were elected in the recent Tech Y.M.C.A. election, there was also elected a new board of directors of the "Y". The results of this election have just recently been released.

The three men who were chosen as members of the Tech Y.M.C.A. Board of Directors are as follows:

Winship Re-Elected

Mr. George Winship, who served on last year's board and was re-elected. Mr. Winship, a prominent Tech alumnus, is president of the Morris Plan Bank. He has long been interested in boys' work and is also a member of the Board of Directors of the city Y.M.C.A.

Dr. Broyles Added

Dr. Broyles, pastor of the North Avenue Presbyterian Church, was elected to serve on the board for the first time. He has long been a friend of Tech students and has always shown interest in the Tech "Y". Members of the Tech Y.M.C.A. group have expressed the feeling that "Dr. Broyles is a man who will strengthen the 'Y' work on the campus".

Professor C. D. Gibson, who served on last year's board, was re-elected. Professor Gibson is head of the Tech Geology Department.

Naval Unit Grad  
Decorated for Fine  
Work on Submarine

Recently decorated for extraordinary heroism at Honolulu was Ensign George Schottler, who graduated from the naval unit here at Tech last June. Schottler was a member of the crew of seventy-one of an American submarine that carried out a very dangerous mission in enemy waters.

Lieutenant General Delos C. Emons, new commanding general at Pearl Harbor, decorated the entire group of men. Lieutenant Commander Frank W. Fenno received the Distinguished Service Cross, with the rest of the men being awarded the Silver Star.

In a letter written to one of his fraternity brothers here in Atlanta, Ensign Schottler expressed the hope that the fraternity bowling team would win the cup and declared, "We're trying to win a cup from the Japs, ourselves." George was a member of Sigma Phi Epsilon social fraternity, Kappa Kappa Psi, Bulldog Club, and A.S.M.E., and was secretary of his social fraternity his senior year.

Kappa Alpha Yachting Party  
Will Sail Tonight at Gardens

MISS MARY HILL, MISS BETTY MATTHEWS AND MISS PATTY BARBOUR will lead the Kappa Alpha Yachting Party tonight with their dates respectively: Charlie Turner, retiring president; Doug Kelso, vice-president, and Jack Kouns, president-elect.

Sailor Costumes Will Be  
Featured at Nautical Ball

The Kappa Alpha's will entertain tonight with their annual Yachting Party which will be held at Peachtree Gardens. Dancing will take place amid a gay panorama of nautical flags and costumes. Bill Clark and his band will sound off with "Anchors Aweigh" at nine o'clock and the good ship, K.A., will sail the briny deep for a very merry four hours. All persons reporting aboard the ship are expected to be clad in the uniform of the day (anything nautical).

Buffet Supper

Before the cruise the members and pledges will entertain their dates at a buffet supper, and immediately after dropping anchor all members and their dates will convene at the Ship Ahoy for an early morning snack.

Officers and Dates

Officers and their dates are Charlie Turner, president, with Miss Mary Hill; Doug Kelso, vice-president, with Miss Betty Matthews; and Stokes Ramsaur, secretary, with Miss Eugenia Jones.

Chaperones

Other members and pledges attending are Billy Burns, Barney Chisholm, Joe Edwards, Tommy Frazier, Bill Kouns, Charlie McSween, Herby Smith, Lowrey Stony, Hubert Sullins, Davis Williams, and Hal Yawn.

Chaperones for the dance will include Dr. and Mrs. M. L. Brittain, Prof. and Mrs. Lloyd Chapin, Mr. and Mrs. George McCarty, and Mr. and Mrs. R. T. Speer, all of Atlanta.

Former Techster  
Dies in Crash  
At Flying School

Second Lieutenant William T. Bolton, of Griffin, Ga., former Georgia Tech student, was killed Monday, March 23, in a plane crash while undergoing bombardier training at the Midland Army Flying School, Odessa, Texas.

Lieutenant Bolton left Tech in 1940 to join the Army Air Corps. He had completed training as bombardier and was to leave for active duty in ten days.

Lieutenant Bolton played freshman football in 1938, and later subbed for the varsity. He had to quit football due to an injured knee cartilage.

An elder brother of Bolton, Herbert A. Bolton, former Tech graduate, is now seeing service in Australia as an officer in the Coast Artillery Corps.

Pi Eta Epsilon Sends  
Letters to Students

Pi Eta Epsilon, the Public Health Engineering Society on the Tech campus, is planning to distribute an official letter from the State of Georgia to each new student entering Tech. The letter will contain many of the state laws and city ordinances regulating traffic.

"We're backing them up"

Marching right along with the armed forces of this country are thousands of telephone workers.

They work side by side with the Army and Navy. Wherever the need is communications, you are likely to find telephone men and their trucks and materials.

Day and night the order is for speed and more speed.

They wear no uniforms, these telephone workers, but men in uniform know how much they are putting into the Nation's biggest job. They see it first-hand and they know it is first-rate.

# Tech Swimmers Win Southeastern Conference Title

## Extra Points

By MAL MACHT and RAY SADOW

**ON THE DIAMOND** The opening of Tech's baseball season is just one week away, and we're beginning to wonder just what kind of team the Jackets are going to put on the field this season. Things look none too bright. We've lost all but two of last year's regulars, including some of the best ballplayers that ever dug a cleat into the Rose Bowl turf. Jimmy Hearn, last year's slugging star, now plays for the Cardinal chain. Howard Burpo, pitcher, outfielder and slugger, graduated. Pluto Oliver, our pitching mainstay, and Buck Stevens, star outfielder, are now ineligible. Shortstop Johnny Bosch is in the Army, and Cowboy Shaw, first-string catcher, graduated. Things look pretty bad, but by the time the ump yells play ball, we'll have a team on the field that will look something like this: vet Carl Lewis at first, Bonyai at second, McNinney at short, and third base a toss-up between Stinky Stein and a few other hopefuls. In the outfield, Vanden Heuvel, Scruggs, and Quigg. Battery, Duck Smith and Bill Harper.

On the whole, the team looks plenty green, but Coach Mundorff may turn them into shape before the season is very old, and we'll see some good ball on the Flats.

**GRIDIRON GLEANINGS** Techmen will get a chance to see some really early football tomorrow when Shorty Doyal's Boys' High team plays their alumni at Grant Field. Quite a few members of the Tech Varsity and Freshman squads are past Boys' High stars. Alf Burman, Jack Jordan, Bobbie Sheldon, Red Eaves and Dixie Cohen will all see action under Doyal, and will see action under Coach McArthur Saturday. Last year's Boys' High star, Clint Castleberry, now a member of the Tech freshman squad, will also see action against his old teammates.

**THANK GOODNESS** Whew! We breathe a sigh of relief as we find that a certain resolution to abolish football at Tech has been laughed down by the Board of Regents, and the big shots in general. After the long, hot summer ahead of us, we'll welcome the diversion that football brings all the more.

Tech just wouldn't be the same without the thud of toe on pigskin in the Fall.

**FAREWELL TO BASKETBALL** Those big court tourneys at Kansas City and New York are nearly over. Dartmouth and Stanford meet tomorrow night to decide the collegiate championship. Kentucky, Southern Conference entry, lost to the Indians in the semi's. However, Southern honor on the court is really being upheld in Yankeeland, where it's an all-Southern final in the Garden. West Virginia's Mountaineers really rolled over L.I.U., while underdog West Kentucky State walloped Creighton to make it a Dixie final.

## Play Ball!

### Softball Tourney Sponsored by IFC Will Open in April

Once again the Interfraternity Council will sponsor its annual softball league for the various fraternities. A schedule has been drawn up dividing the fraternities into two leagues, and the season will open on April 1st, lasting until May 8. Each fraternity will receive a bat, ball, and rule-book at the end of this week, and will receive another ball in the middle of the season.

The rules are as follows:

1. Games will be played from Monday through Friday with Saturday reserved for play-offs in case of inclement weather.
  2. If two teams have not played off a game scheduled between them by May 8, the game will count as a game lost by both teams.
  3. A small softball will be used and the bases therefore lengthened fifteen feet.
  4. There will be two referees at each game, each fraternity furnishing one.
  5. The play-offs will consist of a three-game series between the winners of each league. Cups will be given to the first and secondplace winner.
  6. Games will be played under Spaulding softball rules.
  7. Any man that has played varsity or freshman baseball, either last year or this year, is ineligible.
- Scores of all games will be reported to Shirley Nicholls at the Delt house. In case of disagreement over rules, see Shirley Nicholls, Ed Owen, or Harry Bell.

## Mermen End Florida's Monopoly of Crown

Tech's conquest of the Southeastern Conference swimming championship was of dual importance; beside ending Florida's 5-year monopoly of the crown and being the only team to defeat Florida in seven years, it marks the first undefeated Tech swimming team in over a decade. The final score of the meet was Tech, 80; Tennessee, 44; Florida, 40; Auburn, 11; Georgia, 4.

### Tech Fencers Will Face Fort Benning Saturday in Finale

After being idle over the past two weekends, Tech's hard-fighting fencers will don their masks again this Saturday at 7:30 against the Benning soldiers, ringing down the curtain on a very successful season. The Jackets, already victors over the boys from Benning, are anticipating a hard scrap from their opponents, since the margin of victory in the first encounter was relatively small, 15-12.

#### Lineups

Fort Benning will undoubtedly start Captain Merrill, Corporal Bernstein and Private Gordon in all three weapons unless some shift of military tactics prevents them from being present. Tech will have gained in strength since they met Benning before as Straiton Hard is now eligible and probably will start out as No. 1 man in the foil. The rest of the foil team will be drawn from Captain Arthur Wade, Jimmy Sturrock, Dick Schwarcz, Ed Price, Val Winkleman, and Tom McMurry, all of whom have had experience in previous matches and participated in the first defeat of Benning. Wade, Price, and probably Winkleman will take the epee strip, and Sturrock, Schwarcz, and a third position divided between Bob Fry, Lin Flannagan, Hard, and McMurray will prove the nucleus for the saber combat.

#### Saber Tryouts

Saber tryouts have been conducted this past week in order to try to bring the full strength in that weapon into play as well as to decide the personnel of the team to be entered in the South Atlantic tournament at Chapel Hill next weekend.

### Fraternity Keglers Will Finish Season In Next Two Weeks

Interfraternity pin-topplin' on the Tech campus is now in the last frame. The winners of this round will have a playoff with the first round winners, Chi Psi and Sigma Chi, for the championship.

The "Gold" League is scheduled to have finished, but there are many make-up games to be rolled. The Phi Ep keglers are leading with a .667 percentage.

The "White" League has two more weeks to determine their championship team. The Pi Kappa Phi's, S. A. E.'s, and Chi Psi's are very close (Continued on Page 5)

#### Duel in Finals

The meet got off to a powerful start Friday morning as Stanley Ashton of Tennessee paced a field of six through the gruelling 1500 meter swim. That afternoon in the trial heats of the 50 yard freestyles, which were over in the batting of an eye, Captain George Stradtman of Tech and Roger Holmes of Florida won their respective heats, and a duel in the finals between the two looked eminent. It was just that Friday night and "Tiger" Holmes touched Stradtman out by a hair, in the time of :24.7 seconds.

#### McAuley Sets Record

In the 150 backstroke Davis Gammage of Auburn had little trouble in retaining his championship, and Herb McAuley set a new Tech varsity record in the 220 yard freestyle, 2:22.5. Mike Dailey of Tech placed second, beating Tennessee's star, Ashton, in the diving. Billy King, of Tennessee, defeated Bill Harris of Tech, and J. B. Zoll of Florida to successfully defend his title. In the high diving, however, Harris of Tech pulled an upset and beat King by 2 points.

Herb McAuley also won the 440 freestyle after being pushed by Ashton of Tennessee.

#### Exciting Events

The two most exciting events of the meet were the 300 yard medley relay and the 120 yard freestyle. In the medley, Gammage gave Auburn a very good lead on the backstroke leg, then Bill VanClief, Florida's captain, changed the complexion of things and at the end of the breaststroke leg Florida was ahead with Tennessee second and Tech third. Then the fireworks began. On the first length of the final leg Holmes was in front but King of Tennessee was bearing down on him, swimming the entire length without a breath. The tables stayed the same until the final length—Holmes with a slight lead on King and Stradtman moving up fast—then it happened King fell behind, from lack of wind, and Stradtman moved up like greased lightning to take second for the Jackets. Florida won with a time of 3 minutes, 122 seconds.

#### Final Relay Tech's

The 100 yard freestyle was equally exciting. Saturday night all six of the finalists, four Tech men, one Florida man and one Tennessee man, started off in a world of spray and so they stayed till the final length, in a deadlock. Coming out of the last turn King of Tennessee was first and Holmes of Florida was second, then, in the flash of a second, Johnny Ashton of Tech loomed in the lead as King fell back to fourth place. The time was :55.7. Bill Van Clief, Conference 200 yard breaststroke champion, had little trouble retaining his title.

In true championship form Tech wound up the meet by literally walking away with the final relay; Sherry McAuley, Don Newman, John Axton, and Herb McAuley turned in a 3:45.2, a new varsity record.

## Baseball Line-up Complete As Team Prepares for First Game

Team Will Be Further Strengthened If SEC Council Allows Freshmen to Participate in Varsity Games

Those ball slugging sons of Tech will soon be at it again. They've been improving on their game for a month now and will open their schedule when they take to the field against Presbyterian on April 3. It is also probable that the Jackets will stage a few warm-up bouts against teams in leagues around the city.

The placing of men on positions around the diamond is just about complete and the line-up most likely to click is: for catcher, Harper, or Morris, Lewis on first base, Castagnetta or McNenney for second base, Bonyai holding down short stop, Snyder and Crawford alternating at third base, Quigg at left field, Scruggs in center position, Vanden Heuvel in right field, and Forrest Smith, Bocieri, or Brock doing the pitching.

### Won 8 Straight Games

Tech's 1941 squad, you remember, went on a rampage the first part of the season and won eight straight games. Now Bosch, Burpo, Oliver, and several other good ball players have left. Bonyai, Crawford, Harper, Scruggs, and Smith, however, have come up to take their place.

### Freshmen Not Yet Eligible

The general council of the Southeastern Conference will not meet until the middle of April to decide whether or not to adopt a war-time rule allowing freshmen to play on the varsity squads. If this rule is passed the Engineers will be further strengthened by the abilities of Luck, Jordan, Kalb, Grogen, Leach, Burdett, and Conlan.

The 1942 spring schedule, which will continue from April 3 to May 9, will feature many interesting and thrilling bouts. During the season they meet such teams as Kentucky, Auburn, Vanderbilt, a service team from Pensacola, and a four game series with our well known rival, the University of Georgia.

## Tech Netmen Will Open Season With Clemson April 1st

"Tennis Courts in Good Shape" States Bortell

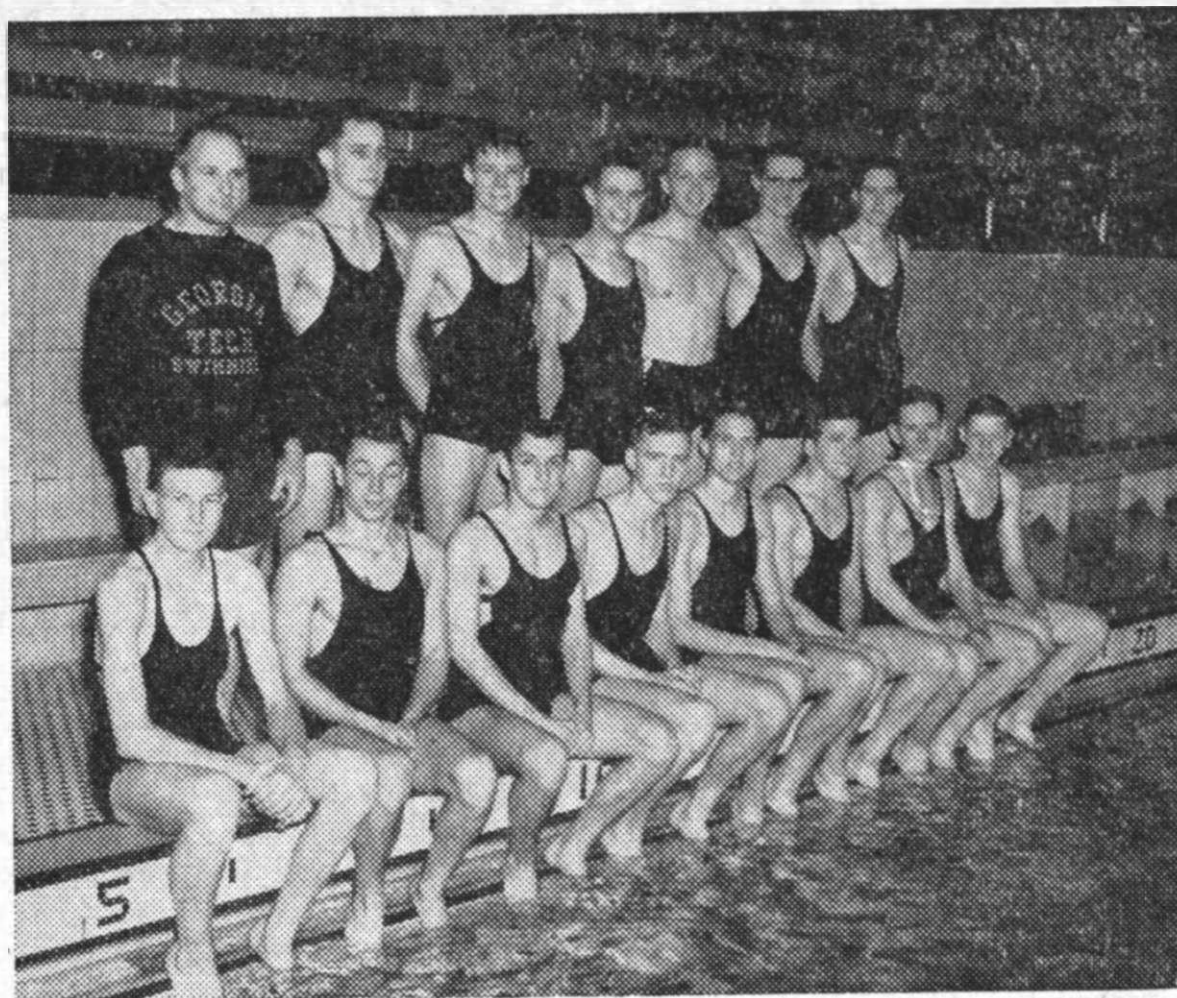

"All tennis enthusiasts at Georgia Tech may now have the use of all eight courts," said Coach Bortell in an interview this week. "Due to bad weather the courts could not be surfaced properly, but they will probably be in shape by the first of next week." This news should be of especial interest to the co-ops, for even though the courts may be occupied during the early part of the afternoon, any student can reserve a court for one hour at some later time during the afternoon; sometimes, even as many as three hundred boys make use of the courts regularly.

### Tennis During Summer

When asked about the tennis program during the summer, Coach Bortell emphatically declared that practice would continue in full swing and that various meets would be scheduled with service clubs and local tennis clubs.

### Presbyterian Tough

In answer to the question of how the 1942 team was shaping up, Mr. Bortell expressed his belief that Tech should have a good team this year and should win a majority of the meets, readily admitting though that Presbyterian would be extremely tough to beat. "The team," he said, "will be built around the only three lettermen—Lindsay, Johnson, and LeCraw—with Wellborn, Abell, Dough-

Pictured above are the members of the first undefeated Tech swimming team in a decade. ty, and Sellers as the probable contenders for the other places.

### Freshmen Prospects Bright

"The freshman team," said Coach Bortell, "has the best prospects of any in several years and should furnish several good varsity players for next year." Among these freshmen are several prep-school champions, and their experience should be invaluable in collegiate competition.

### Varsity Schedule

The varsity schedule is as follows: April 1, Clemson, here; April 4, Mississippi, here; April 6, Presbyterian, here; April 11, Alabama, there; April 17, Vandy, there; April 18, Kentucky, there; April 24, Alabama, here; May 7-8-9, S. E. C. Tournament, New Orleans.

The tentative freshman schedule is as follows: April 1, Clemson; April 4, Kenton H. S.; April 6, Presbyterian; North Georgia College; Emory Academy.

BOWLING GREEN, Ohio.—(ACP) Bowling Green State University has become the first American college to offer a scholarship for horseback riding.

## Picked Members of Jacket Rifle Team Fire in N.R.A. Meet

Tomorrow at the Atlanta Rifle Club range, the National Rifle Association match will be fired. R. E. Dooley, J. F. Mason, W. K. Woodard, M. A. Gowen and H. Riley are the ones chosen from Tech to shoot in this match. E. S. Walton was picked as an alternate.

### National Matches

Starting Thursday, April 2nd, the range will be open only on Thursday and Friday afternoons through April 10th, for the firing of record targets in the National Intercollegiate Pistol Match. The following have been chosen to fire in this match: Carter, W. A., Cooper, W. H., Dooley, R. E., Edleblut, C. M., Francis, W. D., Hammett, C. E., Henry, S. J., Kearney, J. G., Love, E. S., Owen E. P., Richards, J. F., Seay, W. R., Reeve, B., Vida, F. C., and Wood, D. W. This match will be the last activity on the range for this season.

### Awards To Be Made

Announcement of the awards for the rifle team members will be made around the 1st of April.

Some 500 students of Louisiana State University have dropped their studies to enter the nation's armed services.

## NOTICE!

Seniors, check your senior write-ups for the BLUE PRINT on the main bulletin board in the administration building. Cards will be available in Mrs. Taylor's office for correction on Monday and Tuesday, March 30th and 31st.

# Tech Is Host to Statewide Inter-American Affairs Meet

## "How Can We Best Implement The Good Neighbor Policy" Is Subject

This Saturday, March 28, Tech will be host to the other colleges in the State of Georgia at the district conference of the National Extempore-Discussion on Inter-American Affairs. Early this spring similar conferences are being held in most states all under the sponsorship of the Office of Coordinator of Inter-American Affairs.

At two-thirty on Saturday afternoon, in the Tech Y.M.C.A., several round table discussions will commence on the general subject: How can we best implement the Good Neighbor Policy. Selected representatives of the various schools will participate in these forums, covering the general topic in a well-directed manner. Tech speakers are Holton Harris and Edgar Horwood.

The outstanding participants of the afternoon discussions will be invited to give short talks in the evening, starting at eight o'clock in the Y.M.C.A. auditorium. The public is invited to attend both afternoon and evening gatherings, and members of the listening audience are encouraged to participate in the evening forum.

Some of the objectives of the Office of Coordinator of Inter-American Affairs are to promote inter-American friendship and cooperation; to stimulate a nationwide study of inter-American affairs; to inform the general public concerning relations in this area; and to formulate solutions for existing problems.

In endorsing these programs throughout the nation President Roosevelt stated that "Now, under the impact of the defense emergency . . . it is more important than ever that the people, and particularly the students in our colleges and universities, be encouraged to assemble freely to discuss our common problems . . . this is one of the freedoms that we are determined to defend."

# A.S.C.E. Has Firm Executive Speak

The Georgia Tech chapter of A.S.C.E. held their latest meeting on Wednesday, March 18, in the Civil Engineering building. The speaker during the meeting was Mr. Wiedeman, of the engineering firm of Wiedeman and Singleton.

"There will be plenty of engineering jobs open after the war for civil engineering graduates," said Mr. Wiedeman. He also advised young civil engineers to get as much varied experience and to travel as much as possible. In the business meeting, the chapter decided to hold a hayride on April 11.

The honorary civil engineering society, Civil Crew, held its annual banquet and initiation last Tuesday night in the O.D.K. banquet hall. Initiated were E. Owen, F. Rose, A. Zagarella, H. Buck, J. Ross, and C. Shackelford. The speaker for the evening was Doctor Snow, head of the C. E. department.

dance.

The dance committee appointed was: Charlie Sanders, chairman; Stokes Ramsaur, Joe Edwards, Cash Peacock, Joe Hornstein, Chase Reed, and Jim Wright.

The alumni board, it was announced, has proposed to start on alumni-student-activity fund that will be used to back financially any student activity or organization which has no other source of financial support. Half of any profits from such loans would go toward the proposed student union building.

# Writers Contest—

(Continued from Page 1)

class is composed of Mr. Glenn Rainey and Mr. Comer, professors of English, and John Fullenlove, editor of "The Yellow Jacket."

4. Stories will be judged on the basis of originality and interest.

## News-Story Rules

1. News story must not exceed 400 words in length.

2. Story must be written in "straight news," inverted pyramided style, presenting the most important facts first and subordinating the less important facts. The ideal story will be one in which each paragraph is more important than the one which follows it, less important than the one which precedes it. The story should answer specifically all the questions that the reader would ask.

3. All stories in this class must deal with only those facts which are presented in the column adjacent to this article under the heading, "News-Story Facts."

4. Judges for this class will be: Professor John A. Griffin, of the Economics department; Professor D. Mitchell Cox, of the English department; and Tom Hill, editor of THE TECHNIQUE.

5. Stories will be judged on the basis of style and the ability of the story to hold the attention of the reader.

# News-Story Facts—

from his chiffonier, ran to the front room, opened a front window, and fired all six shots into the air from the open window. Then while Smith half carried and half dragged his wife down the front stairs, Burdell rushed ahead through the dense smoke with the baby wrapped tightly in the folds of his bathrobe. He fought his way through the hall and reached the street safely.

Joe Freshman, who lives down the street, in Brown Dormitory, was awakened by the shots, saw the smoke, and telephoned to the fire station. When the firemen arrived, a crowd of students and neighbors had gathered and were trying to keep Burdell from going back into the burning building to rescue Mr. and Mrs. Smith lying on the second landing, overcome by smoke. They were rescued and resuscitated.

The building was completely destroyed—loss \$30,000. The fire is supposed to have been started by spontaneous combustion in a closet in the rear of one of the second-floor apartments.

The federal government is spending \$5,800,000 on college ROTC units for the year ending June 30, 1942.

# SPRING VACATION TRIPS

## COST LESS BY GREYHOUND

Spring Vacation this year is BE-KIND-TO-YOUR-CAR-AND-TIRES-WEEK—in other words, go home by Greyhound. It's your chance to be kind to your pocket-book, too—you don't need a course in higher mathematics to figure out you're way ahead at Greyhound's low fares. The schedules are convenient—the deep-cushioned seats are as rest-provoking as a dull lecture—and the crowd's sure to be a lot of fun. Yes, sir, the right start for this vacation is Greyhound!
