Classes for Students

August 28th, 2009 → 2:20 pm @ dhunt

0

Each semester Library faculty teach classes that help students learn new research and technology skills. These classes save students time and frustration by demonstrating how to search effectively for books and journal articles, and how to create bibliographies and format citations easily. Students learn about library resources and services that will benefit them throughout their Georgia Tech career. Some of our class offerings are Library 101, Endnote, Zotero, Dreamweaver, and library orientations in Mandarin for Chinese students. See fall 2009 semester schedule at: http://www.library.gatech.edu/calendar/libclasses.php
