

The Technique

"The South's Livest College Weekly"

Georgia School of Technology

VOL. XX

THE TECHNIQUE, ATLANTA, GEORGIA, FRIDAY, OCTOBER 17, 1930.

NO. 6

1930 Blue Print Honored By National Association

Chosen from 750 Annuals

The 1930 *Blue Print* brought another honor to Georgia Tech when it received an All-American Honor rating by the National Scholastic Press Association. In the same class of school as Tech is there were 750 annuals entered.

This speaks highly of the type of work which has been one of the outstanding features of the annuals which have been produced here. One noteworthy fact is that all of the art work which is in the book is that of the students of the architectural department.

This definitely places Georgia Tech's *Blue Print* among the leading school publications of the country. The books were classed according to the type of school from which they were entered, and the *Blue Print* was judged one of the best in the first class—that of the larger schools. First rank in their groups was also given to *The Silhouette* of Agnes Scott College, *The Pine Cone* of the Georgia State Woman's College, and *The Clarion* of LaGrange High School.

Tech Naval Unit Will Observe Navy Day

Admiral Rodman to Speak

Observance of Navy Day, the one day set aside annually for acquainting the public generally with the aims, policies and accomplishments of the nation's sea power will take place in Atlanta, as elsewhere throughout the country, on October 27. Participating in the local exercises will be the Georgia Tech Naval R. O. T. C. and the Atlanta battalion of Naval Reserves.

The most eminent figure taking part in the Atlanta program will be Rear Admiral Rodman, who comes to the city expressly for taking part in the local program. The presence of such a high naval personage will be a signal honor to the city and should greatly heighten interest in the Atlanta Navy Day exercises.

During the World War Admiral Rodman commanded the United States division of battleships that served with the British Grand Fleet. As a result of splendid service in this capacity, he was knighted by King George. Since the war he has been commander-in-chief of the Pacific Fleet. These commands, along with other distinguished naval service, make Admiral Rodman an outstanding naval figure.

Georgia Tech in particular and Atlanta in general will be highly honored by the presence of such a notable personage in naval circles.

Language Clubs Formed

Dr. Crenshaw Sponsors

Dr. Crenshaw, head of the modern language department, has just reorganized the French and Spanish Clubs to become active this year. The clubs will meet on alternate weeks in a room of the modern language department. The French club will be presided over by Professors McKee and Ervin, while Professor Campoamor will have charge of the Spanish Club. The first meeting will be announced later on the bulletin board.

These clubs are formed with the idea of bringing the language students closer together in their studies and to bring out and develop their knowledge of the subject. All students interested in a club of this kind, watch out for the announcement on the bulletin board.

CLASS ELECTIONS START WEDNESDAY

Homecoming to Be Dec. 6

Alumni to Gather for Georgia Game

December the sixth, the day of the battle between Georgia and Tech has been selected as homecoming day this year.

Among the events to be held on that day in honor of returning alumni, will be a luncheon to be held at a place yet to be announced. All returning alumni will gather at noon on the above date. An enjoyable program is being arranged so that the entire day will be remembered by these men.

The Anak, Senior honor society, is planning an alumni and active chapter reunion of the various classes. This promises to be an important part of the homecoming celebration. This event is planned for Saturday night after the Tech-Georgia game. It will be in accordance with the President's plans.

More definite information in regard to a complete program for "Home-Coming Day", will be furnishing through these columns at a later date.

Co-Op Pre-Juniors Meet Officers Elected

At the initial meeting of the Pre-Junior Co-Op Class, second section, held in the Academic Building on Tuesday, October 7, the following officers were elected:

President—A. M. Smith.
Vice President—F. S. Dale.
Sec. and Treas.—J. S. Tabb.

All Pre-Juniors were urged to have their pictures made for the *Blue Print* as soon as practicable since by the time the section is again at school it may be too late to get the pictures made at all.

By scoring 236 points in four games, the L. S. U. Tigers have snatched the lead in that respect in Dixie. South Dakota Wesleyan fell, 76-0, La. Tech, 71-0, and Southwestern Louisiana, 85-0. Saturday they fell before the attack of the South Carolina Gamecocks.

Freshmen Elect First

The annual elections of class officers will begin Wednesday, October 22 with the freshman election, and will be held for the other classes on successive Wednesdays. Each election will continue from Wednesday through Saturday in order to give everyone a chance to vote. Ballot boxes will be placed at various points on the campus.

The schedule is as follows:

Oct. 22—Freshman Election.
Oct. 29—Sophomore Election.
Nov. 5—Junior Election.
Nov. 12—Senior Election.

Following these will come the elections to membership in Skull and Key, Koseme, Bulldogs, and O. D. K. Below is a sample ballot.

Freshman Class Officers CHECK THREE MEN

If none of the men nominated suits your taste write in your preference in the blanks.

John Doe _____ ☐
Richard Roe _____ ☐
Herbert Hoover _____ ☐
Calvin Coolidge _____ ☐
Al Smith _____ ☐

Name _____
Class _____
Course _____

The man receiving the highest number of votes will be president; the next highest vice president and the third highest secretary and treasurer.

Be Not Discouraged!

Last Saturday Tech went with a team undeveloped in many ways, a team composed appreciably of sophomores who had never been in a real game before, against one of the best aggregations I have ever seen. We were defeated. But that is no sign that we will be defeated again nor that our team will not rank with the best of them in November. W. A. Alexander.

Tech Students Lead in Earning Power

Report Shows \$120,000

Georgia Tech students led all other Georgia scholars in earning their expenses, according to a report made public on October 6, by William John Cooper, Federal Commissioner of Education.

The report showed of the \$290,000 earned in 1928 by students of 14 Georgia colleges, the Georgia School of Technology earned \$120,000. Of an enrollment of 2,177 men, 1,150 were partly paying their way and 200 men were entirely dependent upon their own efforts.

Earnings for students of other Georgia colleges were: University of Georgia, \$51,300; Emory University, \$33,000; Agnes Scott College, \$15,000; Bessie Tift, \$4,200; Brenau College, \$8,000; Ga. State College for Women, \$12,000; LaGrange College, \$2,348; Mercer University, \$30,000; Piedmont College, no figure given; Shorter College \$400, and Wesleyan College, \$1,241.

Station WGST Program Announced

Professor Stephen P. Duggan, Director of the Institute of International Education, will deliver over a nation wide network of the Columbia Broadcasting System, and through WGST, Georgia Tech, twelve addresses on the general topic, "Our Changing World," on successive Thursdays, beginning October 9, 1930, at 6 P. M., Eastern Standard Time (5 P. M. Central Time.)

Our Changing World

October 9, 1930—England: The Passing of the Aristocratic Tradition.

October 16, 1930—France: The Maintenance of The Bourgeois State.

October 23, 1930—Germany: The Conflict of Political and Social Ideals.

October 30, 1930—Italy: The Fascist Conception of Society.

November 6, 1930—Russia: The Reversal of Social Values.

(Continued on page 6, column 5)

Jackets Meet Plainsmen Tomorrow Afternoon

Auburn Primed for Game

Coach Alexander sent his Yellow Jacket squad through a tremendous pace this past week, that consisted of tackling, blocking and breaking up passes, in preparation for the game with the Auburn Plainsmen this Saturday.

The Jackets displayed a terribly weak defense against Carnegie Tech last Saturday, and must show a much improved one to defeat the Plainsmen. Auburn in past years has always been prime for the Tech encounter.

The lineups will probably be as follows:

Tech	Position	Auburn
Jones	L.E.	Mason
Maree	L.T.	Miller
Brooke	L.G.	Burt
Farmer	C	Harkins
Ezell	R.G.	Jones
Speer	R.T.	Taylor
Herron	R.E.	Grant
Colvin	Q.B.	Parker
Hart	L.H.	Hartfield
Barron	R.H.	Hitchcock
Cain	F.B.	Brown

We feel assured that the Tornado will be out for blood and revenge against her foe Saturday and will open a bag full of new tricks—probably some she learned from the Tartan defeat.

Auburn showed plenty of power last Saturday against the Florida 'Gators.

The Notre Dame system introduced this year at Auburn seems to be working to perfection under the guidance of Coach Wynne, a Notre Dame star of a few years ago. In the game with the 'Gators, they displayed an impenetrable

(Continued on page 4, column 5)

Tech Mechanical Society Hears Editor Speak

Gives Organization's History

Eugene O'Brien, the editor of the Southern Power Journal, addressed the A. S. M. E. at its meeting on October 7. Mr. O'Brien gave a brief outline of the history of the A. S. M. E., his object being to familiarize the members of the student branch with the past operations of the parent organization and its plans for the future. He discussed the work being done by other student branches and pointed out the useful things that such an organization is capable of accomplishing.

The local branch received a great impetus from Mr. O'Brien's talk. All indications point towards the greatest year in the Society's history in the way of accomplishments. Under the leadership of its president, Bill Miller, Tech's branch promises to lead all other student branches of the A. S. M. E.

The A. S. M. E. is the oldest engineering society on the campus, and has been unusually active ever since its installation. The purpose of the organization is to study problems that confront mechanical engineers in the field and to bring the relationships of engineers closer together, thus, by cooperation, greater things may be accomplished. The Tech branch meets weekly, and has a program consisting of talks from various men that are outstanding in their particular line of work, moving pictures of manufacturing processes, or inspection trips to some nearby industrial plant.

what we think of our school and the faith and loyalty we have in our teams.

Carter has been mighty generous to offer us these privileges, so let's show our appreciation and all join in to raise general havoc, BUT, be considerate of the furnishings and the patrons!

HAMM HEADS OMICRON DELTA KAPPA

Glee Club Holds Tryouts

"Pinafore" First Play to Be Presented

Glee club tryouts result in the enrollment of forty-five members. There are many good voices among those enrolled and a better Glee Club than ever before is anticipated. Meetings are being held for those who can attend every afternoon at four o'clock. Mr. Garing, the director, says there will be something doing every afternoon for members of the Club at the "Y" chapel.

The Glee Club has a very competent manager in Bowden Palmer. He states that he and the other officers are working very hard trying to get the faculty to allow the Club to put on a performance at the Capitol Theatre in a few weeks. If they do carry out these plans, the show will be a snappy one and a hilarious time shall be had by all.

The skit that the club is working on now goes by the name of "Pinafore," and if you don't want to miss one of the funniest musicals you can find, don't miss "Pinafore."

Jimmy Beers, the pianist, is alone worth your time to listen to so sneak out some afternoon and come down to (Continued on page 8, column 3)

Fox Offers Stage for Nightshirt Parades

Carter Barron Makes Offer to Students

Carter Barron, idol of Georgia Tech men since the days when he romped wild in many a game for Tech, gives us an interesting bit of information in reference to future nightshirt parades.

Carter has steadily risen in the picture business until he now holds the responsible position of manager of the Fox theater, finest in the south and rendezvous of the whole student body.

Most of us have wanted, sometime in our lives, to run wild and release that suppressed war whoop, to echo and die out in the majestic hush of a church or theater. Carter has made it possible for us to do that very thing, just as long as we refrain from being destructive in our demonstrations. He believes that students should all turn out, in mass, for the nightshirt parades and keep that Tech spirit in its highest pitch.

He has even offered to stop the entire program for ten or fifteen minutes and turn the stage over to the students and the band. He hopes this will help us to show the public, in general, just

A Message from the President.

Sometimes, it is important to examine our purposes and aims in this matter of college training. Kipling has written a classic story of the ship that "found herself." Sometimes young men let themselves drift for long years before they "find what it is all about." Experience and reflection prove that it will be wise for you to have at least three aims plainly in view while preparing yourselves for life.

1. Expert advice comes from a successful Alumnus. He writes as follows: "The ability to speak—and to think clearly while speaking—is essential for success. No matter how much you know, you are 'lost' unless you can tell the other fellow about it. Every student at Tech should join a debating society and read at least one hundred well-selected books from the Classics."

I agree thoroughly with this testimony from one of our most successful graduates, and direct your attention to precision and grace in the use of your mother-tongue as distinguishing marks of an educated man.

2. Gentle manners rank high as evidence of good education and, of course, always indicate a gentleman.

Some college men before they get out of the "cub stage" seem to think that careless, slovenly dress and rowdyism of manner, necessarily accompany youth. *Noblesse oblige* is an expression that marks the falsity of this raw, crude idea. You are picked men and if this cannot be shown by your very appearance and manner, there is a failure in ideals.

3. Efficiency, or the power to do, is certainly an important aim in education.

We are rather proud of this virtue in our Tech men. They have shown it for years in the work of the world. Our training here almost forces a man to be efficient if he will cooperate at all with his instructors. Resolve then to learn to do well and efficiently the work that leads to your degree and you will certainly present the world with conclusive evidence that you are educated men.

M. L. BRITTAIN.

The Black Ball

Have you ever stopped to consider the real meaning and worth of the black ball. It is an asset to an organization in many instances and on the other hand it is more or less of a curse. It will not be long now before many of us will be called upon to vote in some organization on the campus. Then we will have the use of the black

ball to do with it as we see fit.

The black ball is not a dagger for the coward's use nor is it a device with which to settle some petty grudge or personal jealousy. Its real purpose is the protection of the organization against persons who are undeserving and unworthy of the name it bears. Remember when you are in that possibly there was someone who side-stepped a personal dislike to let you in—and give the other fellow the same break that someone gave you. We are all prone at times to harbor petty dislikes and think of them as being paramount. Think twice before denying a person the same privilege that has been given you. If then you are sure go to it and protect the organization to the fullest extent with the medium that was invented for its protection.

If we all will remember this, Tech's organizations will be better and Tech will be a better school because of the presence of its organizations. Be fair minded. Give the other fellow the benefit of the doubt. Discuss the man with your friends. Possibly the things you thought he was unwise in doing were prompted by worthy motives and under the same circumstances you might have acted even more unwisely than you have accused him of acting.

Remember that often times we loathe and detest a person by just knowing them casually. After we learn to know them better they are the best scouts we know. There are times when we are all wrong in our convictions—when we learn that they have been based on erroneous heresays. To admit an error is hard in some instances, but in the end you will find that it always pays.

TECH IT OR LEAVE IT

Let's take our hats off
To those "miners of coal,"
They seemed all at ease
While blasting our goal.
* * *

Famous last words:
"Dean Fields, do you endorse the new type safety razor blades?"
* * *

You should never do business
With one Robert Dane;
He doesn't know enough
To come out of the rain.
* * *

Give the cold shoulder
To Miss Ella I. Schooley;
At all the Tech dances
She's somewhat unruly.
* * *

Antiquated definitions:

Frosh cap:—An odd little ill-fitting cap generally worn by all first year men at collegiate institutions. The practice seems to be rapidly passing away, however, and it is a rare sight to see a meek (they aren't meek any more, though) Frosh wearing a freshman cap. In 1930, at certain places of learning, if a freshman wants to wear his cap, he does; if not, he doesn't. Freshman have asserted themselves. Why shouldn't they? All of which has nothing to do with a definition. Why should it?

CAMPUS CHATTER

X

Freshman class elections start Wednesday. You can read all about them in an article on the front page of this *Technique*. That is, all you're supposed to know. Here's more: Candidates for 1934 class offices are selected from the freshman football team by their fraternity brothers. Of course this affords too many men. Those with initials H. A. (etc.) are given preference. Then the rest of the names are well scrambled and the other candidates are carefully picked by experienced pickers. Their names are printed on ballots with everything there but the X. That's where you come in. The man who is less known wins, naturally. His duties of office are threefold: First he must have his picture taken for the Blue

Print. Second he must select the favored proof. And third he must pay two bits for the privilege. Remember now if your man is not elected it is his own fault.

Pit, Pat

The door slightly opens. A cautious head peers around the corner, the quick black eyes scan the room with swift glances. No one is within. Nothing but silence, and — Pit-pat. The cat-like tread of the intruder is directed toward the half open closet door. Ah! A metallic gleam from the depths of the darkness therein cause a suggestion of a gasp to escape from the parted lips of the master at work. One long steady gathering reach and the spoils are in his hands. Pit-pat, and his get—

Whom, my dear, might you be?
Well, I might be Joan of Arc or I might be Jack Dempsey—we all look alike to Marie.

Has lost her sheik
And you can't tell where to find him.
Leave him alone
And he'll soon phone,
Begging a date to bind him.
* * *

An unusual quietness pervaded the atmosphere around Georgia Tech last Wednesday morning. Even at the first moment of awakening, everyone knew that something drastic had happened.

An old familiar and intimate friend was missing. Was it really true? Was it always to be like this? Nothing but a dull void in the place of that lovable, caressing voice; that voice that brought joy, misery, welcome relief, happiness to all. The faces that day were pale and drawn with anxiety. People wandered around, bewildered and lost, losing account of time, class—

HERE WE ARE

Dear Ma:

Well, Ma, the sting of defeat is over and the eyes of the campus are pointed to victories in the rest of the games of the season. The boys did themselves proud with their never die spirit, the score was made in the first half and fighting against these odds Tech held the Tartans. When a football team blocks punts they are plenty good, however when they can take the ball off of the punter's toe and convert it into a touchdown they are perfect.

While we were being defeated Saturday the Bulldogs of Georgia humbled the Bulldogs of Yale in their own backyard. Congrats, U. of Ga.

We have often envied the radio announcer who gets the best seats at the game and then gets paid for it, however there is one of these stalwart gentlemen that we do not envy and that is the man that broadcasts the Notre Dame-Carnegie Tech game this Saturday. The names of the players on both teams are similar to those that are spelled on the sides of Pullman cars, and never pronounced.

Gee, Ma, it looks like the two letter fraternities must have their tea dances. No football game, no dance, is the slogan of the Chi Phi's; however, the Sigma Chi's differed and they gave a tea dance at their house Saturday. Quite exclusive, too; only the wearers of the cross were there, and what do you know—it is reported that there was actually room to dance. Must have been embarrassing for the boys that had gotten by so far with holding the girls while they danced and being shoved around.

The old saying, "an ounce of precaution is better than a pound of cure," was surely carried out at Tech last week. The cable that brings the current to the school from the power company to be used in case of emergency was out of commission and the fixing was delayed because of our ever dependable power plant. While this was happening a water main burst and without water steam is taboo, and no steam no Tech electricity. So there you are.

Looks as though the he or she that is handling the publicity for the Debutante Club has slipped up or turned traitor. At any rate the young matrons seemed to be able to get a lot of publicity this week. Looks as if it is a hoggish deal, too, because those that have concluded their man hunt are not satisfied with completion but are striving to remain in the lime light. Wonder what the big idea is?

The old saying "you can get the man out of the country but you can't get the country out of the man" was surely at its height this week at Oglethorpe. The sororities—three in number and all nationals—have finished their pledge week. Here's hoping that all of them got some good girls, however, with some of the prep school traditions that they have carried to college it would serve some of them right not to have a single pledge. Petty jealousies and minor technicalities caused them to miss some good girls. Well, they might know what they are doing but we doubt it. After all it is their funeral and incidentally, their sorority's, so go to it girls. I thought that they were going to give the little girls at the Seminary some competition this year, but it seems that the fair co-ed is content with the products of their school, as indicated by their rush dances. If they are we are sure that we are and then, too, we will have fewer obligations for our dances this fall.

Well, Ma, it looks as though I surely was scatter-brained when I wrote last week's article, doesn't it? After all, the world series didn't have anything to do with the flying start of the Chi Phi tea dance any more than Will Rogers would think of my seeing a SYT as being humorous. I know that this seems far fetched and so did my article due to the misplacement of two lines of type. After all, we cannot criticize the printer because we have had the pleasure of sniffing the alluring aroma of printer's ink and know in a small way what they have to contend with. It just goes to show that we all make mistakes (even the best of us—even the pros). No offense, Mr. Printer.

The SYT's at the Seminary are more and more active as the weeks progress and it won't be long before they will know every pledge on the campus. Wonder how they do it? Al-

ready we have had to console several Frosh that bit hook, line and sinker for one of the manuals of the SYT's (After all, didn't we all when we were mere Frosh). Some of them are taking it seriously. However, it won't be long before they will get wise and learn what it is all about. Again they are pledging girls to sororities that have been thrown out of the Seminary. That is against the rules of the school, yet the fond parents are very much pleased that their daughters are being admitted to the charmed circle, that is within itself breaking a school rule.

Looks as if there is a lot to be made in the dance racket inasmuch as the three Saturday nite dances are still going strong. From the unusually large number of the same shaped buttons at the Biltmore Saturday it almost reveals the power behind the throne there. Wonder what dance the SYT's endorse or if they pull the old gag and suck their dates into going to two in the same nite. It has been done to the best of us.

Even though the young matrons did have a tendency to hog the publicity the debts were not entirely out of the running and again a lot of space has gone to the cause of this year's handicap. Party after party and then benefits for sweet charity's sake. After all, such is life.

Your son,
PETER.

Almakary is High Scorer

Almakary, Louisiana State University fullback, sets the pace for the nation's individual football scoring leaders, according to an Associated Press compilation.

Almakary has counted sixty-two points in four games to lead the southern conference and the country. Second place is held by Jimmy Murphy, of Fordham, who leads the east with fifty-four points.

The leader in each of the country's eight major groups or conferences, follow:

Sec. and Player	G.T.P.F.G.
South-Almakary, L. S. U.	499062
East-Murphy, Fordham	290054
Pacific-Kitzmiller, Ore.	367043
Rocky Mt.-Specken, Den.	355138
Southwest-Leland, T. C.	560036
Mis. Val.-Sauselle, W. U.	240024
Big Six-Bausch, Kan.	234022
Big Ten-Yanuskus, Ill.	232020

Hamm Heads Omicron

(Continued from page 1, column 3)

the year:

Ed Hamm, President
Earl Dunlap, Vice President
Ed Davis, Secretary
Randolph Whitfield, Treasurer
Plans for the coming year which were laid at the meeting include the bidding of new men sometime in November as soon as all other campus elections are over. At this time it is probable that other members of the faculty as well as members of the senior class will be taken into the fraternity.

Optional Courses Given Senior Textiles

Professor Busby, head of the Textile department, announces that this year's seniors will be allowed an option on five courses just put in the department. These courses will allow the men to specialize in rayon, dyeing, design, finishing, and research. After this year it will be possible for juniors to make this option but at present it is only for the seniors.

This optional work is in response to a steadily increasing demand for graduates who have specialized in one of the options named above. This makes it necessary however that students entering the Textile department make their decisions as early as possible in order to schedule the proper courses.

During the present year the senior schedule will be an unusually heavy one, but will be relieved considerably when the optional work is spread over the junior year as well.

Motion Pictures to Be Shown to A.S.M.E.

To Run Through Semester

The Georgia Tech branch of the American Society of Mechanical Engineers is beginning to function, and have planned the following schedule of instructive moving pictures to be shown in the Mechanical Building at one o'clock on the following Tuesdays:

Oct. 14—"The Power Within."

Oct. 28—"Making it Tough."

Nov. 11—"Story of Dynamite" and "Story of Sulphur."

Nov. 25—"The Story of Power."

Dec. 9—"Romance of Rayon" and "The Reason Why."

Jan. 6—"The Nation's Market Place" and "Rolling Down to Rio."

Anyone interested in the Society and its aims is cordially invited to attend the showings of the films.

BEAU BRUMMELS

By Peter

DUKE UNIVERSITY (Blue Devils)

Old Trinity College ain't what it used to be, not by a large majority, due to the generous donor, Mr. Duke of tobacco fame who gave millions for endowment. Trinity college as it was known in ye olden days, has blossomed forth from a school of a few hundred to an imposing college with a student body of 2,300 under the new cognomen of Duke University.

The old campus is void of the maie of the species, at least it is supposed to be because the co-eds are now occupying the old campus and the boys are for the first time occupying the new. The campus at Duke when fully completed will be among the foremost in the country, regardless of the section. Duke is a comer and unless we miss our guess badly it won't be long now

before they stack up with the best in the country in every respect.

Duke is located in Durham, N. C., a city of some 50,000, in the northern section of the state, twelve miles from Chapel Hill, where the mountains diverge into hills. The largest hosiery mill in the United States and a factory manufacturing Chesterfield and Fatima cigarettes is located there.

Quite an imposing group of publications add to the news of the well informed Duke supporter. They are: The Chronicle, weekly newspaper, The Archive, monthly literary magazine, and the Chanticleer, the year book.

FROSH DEFEAT MONROE

SPORTS

Jackets Routed By Carnegie Tech 31-0.

Tech Helpless in Face of Powerful Tartan Eleven

Graydon and Dunlap are Both Hurt

Last Saturday the Golden Tornado received what even the best must receive sooner or later, a crushing defeat. Carnegie Tech displayed a supply of power that few football teams could withstand. This strength and power, augmented by much speed and deception, completely took the Jackets off their feet. No one should get the idea that the Jackets didn't fight, for they put everything they had into the game, but they simply ran up against a heavier and more experienced team; one that had that most coveted asset among athletic teams, perfect coordination.

Georgia Tech was unfortunate in losing Dunlap and Graydon in the early part of the game. Both had to be taken out on account of injuries. It took experience to be able to break up Carnegie's air attack, and when Dunlap and Graydon left the field, the old experienced part of the Jacket backfield was out for good.

(Continued on page 7, column 2)

Alabama and Vandy Look Best in Conference

Auburn Holds 'Gators for 7-0 Win

While Tech had a rather hard time at the hands of the Carnegie Tartans, the other favorites in the Southern Conference had a day of it.

It is needless to waste time talking about the spirit of dogged, never say die, persistence which pushed Georgia to the long end of their 18-14 victory over Yale last week. It must be said of them that any kind of a weak-hearted group of boys would have thrown up the sponge when Mott stumbled and fell, right in front of a clear field, but they kept at it with true bulldog tenacity and they got results. A good game may be expected on December the sixth.

The headliner which will oppose Tech tomorrow may be of some interest to the reader. Do not think that this game is to be any kind of a crip. Auburn, under the wonderful coaching of Chet Wynne has grown a new set of talons. The once feared power may once more be feared. They demonstrated untold power last week by hold-

Track Men Asked to Report for Fall Workouts

A call has been issued for more of the varsity track men to report to the fall practice which is now being held. The Jackets' coaches are planning to make track a year round sport at Tech, but they have been unable to get the boys out so far.

Prospects are better this year than they have been in several seasons and the coaches are planning to get an early start.

"Of course," said Ed. Hamm, "it takes a good deal of a fellow's time to practice the year round, but it's worth it in the long run," and Ed. should know.

With quite a few veterans from the last year's squad and with several additions from the frosh cindermen, the Jackets should have a good year on the cinder path.

Several of the varsity track men are busy with football now, but it wouldn't hurt to have the rest of the boys out there keeping the old muscles in shape.

The track team will be divided into two squads this year, one for cross country and the other for the cindermen. Six weeks of fall training is being held for the track team while the cross country activities will be continued throughout the winter.

ing Florida to a 7-0 score, the one tally of the game being scored by Sauls in the last few minutes of play. Proctor added the point.

Vanderbilt is out for meat this season, as they were last fall, and it will take a team like Tech to stop them. They added another feather to their cap last Saturday by taking Virginia Polytechnic for a ride worth 40 points.

(Continued on page 6, column 5)

Rats Show Strength in Brilliant 26-12 Win

Galloway and Davis are Stars

No more worthy foil could possibly have been provided for the testing of the steel in the 1930 Yellow Jacket freshmen than that of the rugged, heavy, alert and courageous Monroe Aggies—and no more finely tempered steel than that with which Coach Clay Saturday made his thrusts has been seen at Tech in several years.

Monroe parried with determined bravery, but the Junior Jackets thrust sharply and surely to win, 26 to 12 in a game replete with thrills and uncertainty of outcome from start to finish.

The two fine drives from about mid-field which the Jackets made early in the second period after the first had been fought to a scoreless deadlock; the two plunges for touchdowns made by Peeler to bring them to a successful end, and the 23-yard cut-back off tackle, with the subsequent nifty bit of side-stepping, with which Galloway accounted for the third score in that period, stand out as the Jacket highlights of the afternoon. Poole's work in blocking Farmer's punt on the Monroe 11-yard line in the final quarter, which, followed by three nice bucks of 1, 5 and 2 yards by Ferguson and two of 2 yards each by Quillian, the first resulting in a first down and the second in a touchdown, also brightened things from a Tech viewpoint.

But the Aggie touchdowns provided the greatest thrills of the day. The first came in the latter part of the second half, when the Aggies launched a passing offensive in the persons of

(Continued on page 7, column 1)

Tigers Encouraged After Holding Florida

(Continued from page 1, column 5)

defense when pushed under the shadow of their goal. They tackled in the typical Irish manner taught them by Coaches Wynne and Roger Kyle. The beautiful punting of Jimmie Hitchcock helped the Tigers to keep the ball out of the danger zone.

Landley Hatfield showed a touch of color when he raced 60 yards to the 'Gators' 17 yard line, but, here, the Tigers lacked the punch to put it across.

The Jackets, in order to come out on the long end of the score, will have to keep their eyes on Jimmie Hitchcock, Auburn's brilliant backfield star, who is termed a real sophomore sensation. He sprang into the limelight when he raced 68 yards for a touchdown against the strong Spring Hill team. Coach Wynne is counting heavily on Hitchcock and Bill Hatfield to carry the brunt of attack against Tech. Erquhart Taylor, right tackle and alternate captain, will probably give Vance Maree a load of trouble. Tom Brown, full back, is being counted on to get the extra yards with his powerful plunging.

Auburn's first string varsity aggregation displayed a powerful running attack in her preparation for the Tech game, but her aerial game was weak, and the Frosh had little trouble in battling down the majority of Hatfield's tosses.

The Auburn sick list contained the names of Captain Dunham Harkins and Will Bassett last week and neither saw action against Florida. Trainer Wilbur Hutsell expects to have them ready to go against the Jackets. The Jackets sustained a few casualties from the Carnegie Tech game, but Trainer Mike Chambers will have them ready for the fray Saturday.

SPORT GLANCES

The Jackets are back in town after a most disastrous week-end up around Pittsburgh way. They are taking on the Auburn Tigers Saturday down on Grant Field and we certainly hope that the Tornado will come into its own again.

Tech teams ought to stay clear of Pittsburgh from now on. Quite a number of years ago, the Jackets used to go visiting up that way, where they met the University of Pittsburgh. Each year they came back on the wrong end of the score and it was hoped that this year they would be able to get some sweet revenge, but instead they took on a little more grounds for revenge.

The Georgia Bulldogs, from over at Athens, certainly did themselves proud up in the Yale Bowl last week. In staging that brilliant comeback which won the game for them in the last minutes of play, the Georgia team won the praise of the entire nation and incidentally put Dixie football just one step higher up the ladder to the top.

Their win even helped to ease the Jacket supporters who were left pretty well shot up by Tech's rout. It's funny how that old Dixie spirit still lives and is stronger than any school spirit on earth.

The Auburn Tigers came very near humiliating the fighting 'Gators from the University of Florida last week.

In fact, they did humiliate them in that they held the sunshine boys to a measly 7-0 win. It would certainly do us good to see the Tigers come from the bottom of the heap after staying there so long, but we certainly do hope they don't pick this Saturday as the day for their comeback.

The Technique announces the addition of a new member to the staff. George A. Tech, well known as the man who made betting on football games a paying proposition, has been obtained at a very nominal sum, in fact, almost nothing, and that's more than he's worth. He will give his expert advice to the Technique readers beginning this week and, if the Tech students will follow his advice, somebody ought to clean up and we don't believe it'll be the Tech students.

Mr. Tech, better known as "Tornado" because following his advice is just like seeing your money blow away, made quite a good deal of cash last season up east where he was affiliated with a large gambling ring. They paid him a large salary to pick the winner and then they bet on the other team, and they made plenty.

"Tornado" picks the following winners this week; so, place your money right and get rich.

Tech vs. Auburn—Auburn (close).
Tulane vs. Birmingham-Southern—Birmingham-Southern (decisive).

Vanderbilt vs. Spring Hill—Spring Hill (decisive).

Georgia Tech vs. California—California (this game will not be played until January 1, 1929).

"After all," questions a fashion item, "where would woman be if it were not for her clothes?"

We don't want to appear squeamish, but we hope—in her bath.

Night football is to be played exclusively this fall by the Wayland College eleven at Plainview, Texas.

Rural teachers in Haiti receive salaries of from four to five dollars a month.

ALMA MATER—LEARN IT

Oh Sons of Tech arise, behold!
The banner as it reigns supreme,
For from on high the White and Gold
Waves in its triumphant gleam.
The spirit of the cheering throng
Resounds with joy revealing
A brotherhood in praise and song,
In the memory of the days gone by.
Oh Scion of the Southland
In our hearts you shall forever fly.

We cherish thoughts so dear for thee,
Oh Alma Mater in our prayer,
We plead for you in victory,
And then in victory we share!
But when the battle seems in vain
Our spirit never falters,
We're ever one in joy or pain,

And our union is a lasting bond,
Oh may we be united
Till the victory of Life is won.

At what store on what campus have you heard these remarks?

"We're all out of them at present. They may be in next week."

"We expected them this morning; they'll probably be in by this afternoon."

"No, we just sold the last one."

"Well, we did have it; I don't know whether we're getting any more or not."

"They'll be in tomorrow."

Etc., etc., etc.

—Temple University News.

Half of you men in college have "ATHLETE'S FOOT"

.... says U. S. report

YOU may call it toe itch, golf itch—the "doc" may call it ringworm—millions of people who catch it, call it "Athlete's Foot"—but all of them are the same. A ringworm parasite, *tinea trichophyton* by name, causes that redness between the toes with i-t-c-h-i-n-g. Tiny blisters or a thick, moist skin condition may be another symptom. Again dryness, with little scales, is a signal.

"At least half of all adults suffer from it at some time," says the U. S. Public Health Service. In universities as far apart as Pennsylvania and California 50% of the men have it. And the co-eds are not immune either.

It lurks in the very places where we all go for cleanliness and health—on the edges of swimming pools and showers—in gymnasiums—on locker- and dressing-room floors. It spite of modern sanitation (you have to boil socks 15 minutes to kill it)

this fungus parasite infects and reinfects bare feet almost any time they come in contact with damp floors.

**Absorbine Jr. kills the germ of
"ATHLETE'S FOOT"**

Tests in a famous New York "lab" have revealed that Absorbine Jr. penetrates flesh-like tissues deeply and that wherever it penetrates, it KILLS the ringworm germ.

It might not be a bad idea to examine your feet tonight. At the first sign of the symptoms mentioned here, douse on Absorbine Jr. And keep a bottle handy in your locker as a preventive. Use it after every exposure of bare feet on damp floors. At all druggists—\$1.25. W. F. Young, Inc., Springfield, Massachusetts.

There's a Silver Lining

in the **Pause**
that refreshes

So many unhappy things can happen to increase that old inferiority complex. Deans and Doctors, Mid-years and Finals, all dedicated to the cause of making life a burden. Coca-Cola was made for times like these. Here's a drink that will quickly invest you with some of its life and sparkle. Give you exceeding joy in its tingling, delicious taste. And leave you with that cool after-sense of refreshment in which a righteous megalomania may wax fat and prosper.

The Coca-Cola Company, Atlanta, Ga.

CW-5

9 MILLION A DAY—IT HAD TO BE GOOD TO GET WHERE IT IS

Students Advised To Drop Conceit

The 200,00 or more men and women who are entering college for the first time this fall were advised to "leave their conceit at home," when Dr. John M. Thomas, president of Rutgers University, addressed them over a nationwide radio hook-up.

Conceit in any society or group is not the way to popularity," he said, "least of all on the college campus. It is better to keep still about one's merits and achievements and better still entirely to forget them.

"In every college one starts from scratch, and it is wise not to scramble to the first row when the freshman picture is taken. Merit, ability and powers of leadership find their just recognition as surely and as properly on an American college campus as in any place in the world.

Ga. Tech Cafeteria and Soda Fountain
Basement Academic Bldg.
THE BEST PLACE TO EAT AND DRINK

LET'S ALL TALK IN THE SAME LANGUAGE

There are twenty-four letters in the Greek alphabet. They are given here, with both the Greek and English pronunciations. This matter of pronunciation is a rather difficult one to settle since there are numerous inconsistencies in the way different Greek names are now pronounced in fraternity circles. The reason of course is that the so-called "modern Greek" is very rarely a student of Greek and does not recognize the fact that Greek letters have both an English and a Greek pronunciation. Consequently we often have the two used in the same fraternity name, because the final effect sounds well. Even the Phi Beta Kappa name, as it is usually pronounced, is such a hybrid.

Letter	Greek	English
Alpha	Alpha	Alpha
Beta	Bayta	Beeta
Gamma	Gahmma	Gamma
Delta	Delta	Delta
Epsilon	Epsilon	Epsilon
Zeta	Zayta	Zeeta
Eta	Ayta	Beta
Theta	Thayta	Theeta
Iota	Iota	Iota
Kappa	Kahppa	Kappa
Lambda	Lahmbda	Lambda
Mu	Mew	Mew

Nu	New	New
Xi	Xee	Zi (eye)
Omicron	Omicron	Omicron
Pi	Pee	Pi (eye)
Rho	Rho	Rho
Sigma	Sigma	Sigma
Tau	Tow (as in owl)	Tawe
Upsilon	Oopsilon	Upsilon
Phi	Phee	Phi (eye)
Chi	Chee	Chi (eye)
Psi	Psee	Psi (eye)
Omega	Omayga	Omegga

To sum up, the difference between the Greek "ah" sound as in Kappa, and the English "a" as in ask, is too trivial to bother about. Fraternity Greeks use the English form in such cases. Beta Zeta, Eta, Theta, Omega, are pronounced with the Greek "e," i.e., the "ay" sound rather than with the English "ee." It is better to follow custom and use the Greek pronunciation here. In the case of Xi, Pi, Phi, Chi, Psi, both the Greek and the English forms are used, but it is wiser to adopt the English sound Zy, Py, etc., and not Zee, Pee, etc. We should, however, be consistent in our pronunciation of the same letter. If we do at times, sanctioned by custom, use two types of pronunciation in the same name, as in Pi Beta Phi, say Pi (eye) Bayta Phee. We all say "Phy Bayta Kappa." To be consistent we should say "Phe Bayta Kahppa" or "Phy Beeta Kappa." But such phonetic correctness is unknown, save to the erudite scholar! So, keep the English "a" sound, the Greek "e," and the English "i," then we'll understand each other.—*The Lamp of Delta Zeta.*

Tech It or Leave It

(Continued from page 2, column 5)

es, lessons—everything; everything but the fact that something vital to Tech was gone. Then the sun shone through, the silver lining of the clouds suddenly appeared. Once more everything was put to rights, and people were happy. The announcement had just been made that on the following day the steam whistle would be in working order once again.

Freshman Hazing is Discussed

All over the world during the past few hectic weeks, the Class of 1934 has found itself alternately paddled and patted on the back. It has been deluged with advice from deans and from seasoned upperclassmen about where to eat and what courses not to take.

A few important facts stand out from the whirl, the first is that there are more freshmen than ever this year. Colleges in the middle west and on the Pacific Coast note that the business depression did not have its expected effect on the enrollment, as the class of 1934 will probably be larger than any previous one.

The attitude toward freshman hazing seems to be changing gradually. At the University of West Virginia, the Student Council has officially abolished hazing, and has provided instead for a Freshman Court to work with the Traditions committee in enforcing freshman customs. Which means that freshman rules are under the charge of a definite group, and not any upperclassman (sophomores being traditionally the most ardent) cares to take a hand. Bucknell has gone still farther, and is attacking not only hazing, but the freshman traditions themselves. In a letter to the editor of the *Bucknellian* of September 18, a freshman declares: "I have not come here to revert to the antics of my pre-school days. . . . My purpose is and has got to be serious." And this attitude is supported in an editorial in the same issue which denounces the time-honored green caps and compulsory acrobatics as "silly and childish."

But hazing is still far from a lost art. At Park College, "originality and humiliation" are still the purpose of the freshman rules. The *Trojan* (University of Southern California) describes "some new and particularly effective ways of making the frosh respect their university," ranging from freshman tree-sitting contests to removing painted remarks from the side-

walks with only "bricks and elbow grease." At Creighton, the freshman wears a green cap with a bright red bill; at the University of Wichita, garters with socks that do not match. The student in Holland who is a candidate for one of the University corps must shave his head and enter his clubroom by the window. The new Corps member, needless to say, is easily recognizable for several months.

An interesting device for helping the bewildered newcomer is the Harvard Crimson's Confidential Guide to Courses, which is a really frank appraisal from the student's viewpoint, of the value and interest of various fields of study. As a *Crimson* editorial puts it, "The faculty is amply represented in the catalogue and the various conferences with instructors. . . . This is a defined undergraduate opinion. It offers a means of ascertaining just how well the various instructors accomplish their aims as teachers." One has a mental picture of the Harvard faculty peering in trepidation at the *Crimson's* very outspoken comments on certain courses; but in spite of its inevitable shortcomings, the Confidential must certainly be helpful to the harrassed freshman facing, as he is often told, "the whole field of knowledge."

—N. S. F. A. News.

'Bama Best in Conference

(Continued from page 4, column 3)

The McGugin turnout played a defensive game for the most part, and took advantage of the breaks shown them.

The crimsoned lads from Tuscaloosa did their part of the week-end's entertainment when they battered a dogged University of the South eleven to the rate of a touchdown a quarter average. Alabama displayed great strength several weeks ago which they failed to again demonstrate, falling down on the passing end rather badly, but they will furnish an hour's good entertainment for any team.

A greatly improved Dodd, and a Hackman more versatile than ever added greatly to the powerful Tennessee eleven when they snowed the Mississippi gridders under a 27-0 score. Their ends considerably weakened by the absence of Hug and Brandt, veteran ends, the Vols lost some few yards to Mississippi on the flanks, but the backs soon put a stop to any such advances. The Mississippi team went down fighting, but the punting and passing of the Dodd-Hackman team was too much for them.

A tireless quarterback, who was here, there, everywhere, who punted, passed, and ran the ball, who was a real sensation, added noticeably to the victory of the Clemson Tigers over North Carolina State, 27-0, last Saturday. Maxey Welch did all of these and while Tech is not scheduled against Clemson, anyone that happens to obtain the opportunity would do well to see this lively ball totter in action.

And the last one we deal with here is the Greenie aggregation from Tulane. These fighting boys forming the formidable Green Wave washed over under, and all around the Texas Aggie bunch in their game last week-end opening the Texas State Fair, 1930. McFadden played a starring game for the losers but all attempts by the Aggies to dent the forward wall of the Wave were futile, and their passing attack was easily broken up. Wop Glover and Jerry Dalrymple played outstanding games for Tulane.

Metal on trial

In the laboratories of scores of foundries and rolling mills, a constant search is being conducted for a metal that is stronger, more resistant to temperature strains, and more economical to produce. Almost as constantly the compounds and alloys so developed are being brought to Crane Co. for trial.

The court that passes on them is composed of the most experienced Crane designers, metallurgists, and engineers. Under its direction bars of the new metals are carefully tested for ductility, reduction of area, elastic limit, and yield and breaking points. Hardness, transverse strength, and torsional strength are measured, behavior under temperature strains is determined by "1000 hour creep tests."

When the findings of all tests are favorable, the metals are made into valves and fittings for trials in the Crane plant that will approximate actual working conditions. Then Crane Co. sends out these new materials to certain engineers who are interested in advancing piping practice. They use them in actual service; observing them over long periods, sending full reports to Crane Co.

Not only do materials thus developed serve all industry. They have contributed to a vast library of engineering data on metals and their capabilities. Much of this is embodied in a book, "Pioneering in Science", a valuable reference manual for students. Let us send it to you.

"BEST ALL 'ROUND ATHLETE"

STRONG muscles and nerves of iron don't come from just will power and exercise. "The best all 'round athlete" of the senior class will be the man who keeps a close watch on his vitamins.

Shredded Wheat saves those who are out for athletic honors, a heap of time and worry. Shredded Wheat con-

tains in a most easily digestible form all the vitamins, proteins, mineral salts and carbohydrates necessary. In training and out, eat a bowl of Shredded Wheat every morning with plenty of whole milk as thousands of other successful athletes do.

THE SHREDDED WHEAT COMPANY

SHREDDED WHEAT

Frosh Defeat Monroe

(Continued from page 4, column 4)

Mock and Carr which resulted in four beautifully completed aerial tosses, and these, interspersed with a 20-yard gallop around left end by Sharpley and a 2-yard line buck by the same gentleman, resulted in a total gain of 70 yards and the first Monroe score. Mock missed the point.

Roy Farmer, Monroe left-halfback, who displayed a football performance of quite college caliber, both offensively and defensively, capped the climax of his work-a-day afternoon by reversing a fine Jacket drive from their own 40-yard line to the Monroe 5-yard marker. Roy, ever on the alert, and ever quick to act when opportunity presented itself, picked a fumble by Black out of mid-air and streaked 95 yards to a touchdown midway in the third quarter for the Aggies' final score.

The work of Wink Davis on both offense and defense augured a brilliant future for the cotton-top. The ferocity of his tackling, its deadly sureness, has undoubtedly never been excelled by a Tech first-year man. The work of Peeler, Galloway, Ferguson and Quillian already has been mentioned and by the results thereof is indicated the fact that it stood out. Peterson ran with fine ability on numerous occasions to round out the starring in the Tech backfield.

The line proved impenetrable to the Monroe thrusts, when it was made up of McCoy and Davidson at ends; Thorpe and Gardner at tackles; Seltenberg and Gravelle at guards; Caralchristie at center and when it was composed of Lackey and Slocum at ends; Hobson and Clingan at tackles; McCallie and Laws at guards and Poole at center. The latter array is a bit the stronger, the former serving as shock troops in the first quarter.

Wofford, the Martin brothers and Carr, the pass-flagging wizard, stood out in the Monroe line, the rugged courage of every unit of which was thoroughly admirable.

Campus Chatter

(Continued from page 2, column 3)

away is done. Gorman the Gyp, has collected six more coathangers.

Gentleman

The management of the Fox recently announced that cooperation would be extended on night shirt parades through that theater this year. We take off our hat to Carter Barron, a Scholar and a Gentleman. There is no reason why this season cannot turn out the best spirit yet, with the Yellow Jacket Club under way, the finest theater in Atlanta cooperating, and about 700 freshmen raring to ride. Work up a little enthusiasm, Frosh, collect a cap or two at the Auburn game, yell a lot louder, and be ready at any time to advertise the fact that Tech is the best school in the world.

Efficiency, By Gad

Hot. Sweltering. The stifling heat of late summer was everywhere visible in trembling waves. The torrid sun unmercifully beat down on—the Tech Navy, attired in "Uniform of the Day." Heavy, dark blue, wool trousers and double breasted coats, thick, itchy, and clinging. The heavily starched, binding collar tightly encircled the sweaty necks, bent low from exhaustion of listening to painfully prolonged lectures on Navigation within the close, humidity of the lecture hall. Roasting alive!

Cold. Bitter. The windswept chill of the barren Parade Ground was pierced by the sound of harshly chattering teeth and hoarse grumblings. The shivering student officers, half dead with exposure, and numb from the biting onslaughts of the wind, moved painfully around in flapping, cold, white, jumpers and loose, duck, wind tunnel trousers. Necks and chests blue from the insufficient protection offered by the baggy "Uniform of the Day" from the frigid blasts of freezing weather.

And yet there is room in the army!

Strike the Band

We think the Tech Band deserves their good stadium seats, a lot more credit, and enough uniforms to go around. In spite of the sarcasm implied in a recent headline "Tech Band Plays New Tune," Music Master Garling has certainly accomplished a lot this year in a few months. No matter what the score may be, let's always have the best band on the field.

Carnegie Crushes Tech

(Continued from page 4, column 1)

Carnegie's irresistible attack was led by Eyth, McCurdy, Kavel, Karkis and Morbito, the last two being more human battering-rams than men. Although these backs chalked up over three hundred yards from scrimmage, they were thrown for losses several times by Speer, Herron, and Dunlap. The lateral passes and spin plays of the Tartans were screened in such a manner that the Jackets could hardly locate the ball. This, of course, is a bad situation to be in as the final score indicated.

During the last quarter, our boys seemed to catch on to the Plaid plays a little better, and kept them from scoring.

Carnegie had a great advantage over the Gold on the punts. They had several good punters and a line that gave them plenty of time to perform that operation in. Doug Graydon is supposed to be the Tornado's best booter and seemed to be so Saturday, but his withdrawal from the fracas left that responsibility on the shoulders of Dunlap, who can do almost anything else on a football field better than punt. He was soon taken from the game and McArthur tried to kick, but was rushed off his feet. Buck Flowers did the kicking for the rest of the game, and managed to keep the coal miners away from the goal during the last quarter.

The first blood was drawn soon after the start of the game. A march down the field ended with a long pass, McCurdy to Cavel, which put the oval across the Jacket line. The second touchdown was a replica of the first. A long drive, then a few short passes and one long and the ball was in position to be rushed over, which McCurdy did immediately. The third tally was the same story over again, Eyth running it over this time. Highberger made the next score for Carnegie by catching a punt just as it left McArthur's toe back of the goal line. Howard Eyth made the last and final touchdown by tearing around end and shedding tacklers by the score to run about twenty-seven yards and over the goal.

The game, of course, was a big disappointment for every Tech supporter, but it is all that can be expected with an inexperienced team running up against one of the best teams in the country in the second game of the year.

Had this game been scheduled several weeks later, after the sophomore reserves had gotten a little practical experience and the whole eleven had learned to get together a little better, it is a sure bet that Carnegie's final score would not have been so disheartening.

By establishing a system of professional training schools, the Federal prison service hopes to attract more college men into that work.

For the first time in ten years the University of Ohio is taking a complete census of its nearly 25,000 graduates.

Beau Brummels

(Continued from page 3, column 5)

cellent aid in giving us the information that has enabled your humble servant to convey the luxuries of Duke to you.

The Blue Devils, as the football team is dubbed, have started a somewhat successful season this year after a bad start with an opener in the form of a defeat at the hands of the University of South Carolina, but they have redeemed themselves with a defeat of both Virginia and Davidson. As we are writing and trying to forget the defeat of the Jackets at the hands of the Tartans, we will bet that the corridors of Duke or resounding with the echos of Yea—Duke The well dressed Devil as he makes his appearance on the Gridiron will not wear the flaming red that typifies satan, but the product of Jimmy DeHart will be clad in white Jerseys with dark numerals on the front and back—another school that like Tech wishes to please the moguls of the conference with the standard regalia. All eyes are upon Wallace Wade the mentor, of the Southern Conference that helped to make Vandy and sent the Crimson Tide to the Rose bowl twice who will take over the reigns of the Devils next year. Watch Duke under the guidance of Wade.

Although football holds the spotlight at the present time it can hardly be called the most important sports at Duke. The Blue Devils have made an enviable record in the Southern Conference with a fast basketball team and an excellent baseball team. Duke really takes baseball and basketball se-

riously and hence the excellent teams. For some unknown reason we believe that in spite of this fact that with one year of football under Wade that Duke too, will place football at the head of the list.

When the student gathers around the "Dope Shop" (That's the name—the Coca Cola officials should look into this) the debonair Don Juan will be found wearing the form fitting two buttoned coat with peaked lapels. They are in the majority but have far from replaced the three-buttoned sack. The blues have it from the powder and blue greys to the conventional darker colors—the latter being in the majority. The Greys ranging from the darker shades of Oxford Greys to the lighter tweeds hold second place. While the browns ranging from rich briar to the tweed and mixtures hold third place. Knickers for the class room seem to be the thing, while a sweater of solid color completes the class room outfit. Shirts of color are replacing the white one to a certain degree, however for evening the whites have it. Ties of solid colors are in a large majority.

Then too, at Duke Betty Co-ed seems to be quite the stuff. The blondes for the larger part are sticking to the various shades of Blue while the Brunettes

are sticking to the conventional shades of brown and grey. The formals bring dresses that are almost dragging the floor. Long white gloves seem to be quite the vogue.

The dances begin in the spring of each year and all of the fraternities at this time give formals at the Washington Duke Hotel. Co-eds and imported "sugars" from all parts of the country add to the scene of much merriment.

Duke is located some 12 miles from Chapel Hill, the home of the University of North Carolina, and hence they are the bitterest of rivals. When the two teams meet in the new stadium at Duke this year (the newness means that until the dedication we will have to be content to dub it the Duke Stadium) there will be much fur flying in a rage of fury. The cold of the December day will be hot plenty on the day of the N. C.-Duke battle.

Chesterfields are the favorite of the Deltas, and incidentally they are the favorites of the entire University—some loyalty to a home town industry, we call it. Camels get second place in the Delta Chapter. Of course the old briar is very popular, naturally to abandon this old custom would be the height of ingratitude.

Next Week—Tulane University.

**AFTER October 25 we will
be located at 51 Forsyth St.
THE EMBLEM SHOP, INC.**

A SALE OF LEATHER COATS

... made of ...

**Genuine Buckskin and Horsehide
in Black, Grey and Tan**

SAFETY SKRIP, SUCCESSOR TO INK, SKRIP-FILLED. 50c to \$10. Carry Safety Skrip in your luggage and to classes. It's leak-proof, practically unbreakable. Saves furniture, clothing, rugs, keeps the fluid fresh, makes all pens write better.

BALANCE
The only Balance[®] pen and pencil is Sheaffer's.

The College World has "gone Sheaffer"*

The plain fact is that among the hundred leading American colleges, each having 1,700 or more students registered, more Sheaffer's are bought than any other make. That's understandable enough, once you're acquainted with Sheaffer's four advantages: (1) individualized pen points, (2) the Balance[®] design that makes for easier, speedier writing, (3) the modern beauty of the Balance[®] contour, (4) the Lifetime[®] guarantee of satisfactory service.

Since all that comes with Sheaffer's Balance[®] Lifetimes[®], why be content with less?

*A recent survey made by a disinterested organization showed Sheaffer's first in fountain pen sales among the 100 leading American colleges having registration of 1,700 or more students. Documents covering this survey are available to anyone.

AT BETTER STORES EVERYWHERE

The ONLY genuine Lifetime[®] pen is Sheaffer's; do not be deceived! All fountain pens are guaranteed against defects, but Sheaffer's Lifetime[®] is guaranteed unconditionally for your life, and other Sheaffer products are forever guaranteed against defect in materials and workmanship. Green or Black Lifetime[®] pens, \$8.75; Ladies', \$8.25. Black-and-Pearl DeLuxe and Marine Green Lifetime[®] pens, \$10; Ladies', \$9.50. Petite Lifetime[®] pens, \$7 up. Golf or Handbag Pencil, \$3. Others lower.

Photographer to Return Later in Year

All men that failed to have their pictures taken by the photographer on his recent visit, will have another opportunity. You owe it to the school, as well as yourself to have your picture in the Blue Print.

The following is a list of organizations which will have individual pictures in the Blue Print: All seniors, all Juniors and Pre-juniors, all Social Fraternity men, Student Council, Inter-fraternity Council, Phi Kappa Phi, Tau Beta Pi, Beta Gamma Sigma, Anak, Omicron Delta Kappa, Bulldogs, Kosame, Skull and Key, Pi Delta Epsilon, Delta Sigma Pi, Alpha Kappa Psi, Alpha Delta Sigma, Kappa Kappa Psi, Phi Psi, Kappa Eta Kappa, Beta Phi, Robert Morris Society, Scabbard and Blade, Briarean Society, Civil Crew, Architectural Society, A. I. E. E. A., S. M. E., A. S. C. E., Charette Club, Scientia Club, Oil Can Club, Free Body Club, Co-op Club, Cosmopolitan Club, Theta Xi Zeta, Venitian Club and Phi Chi Theta.

A whirling mass of humanity, sagging from one side of the street to the other—all trying to get in the same game at the same time.

Yelping freshmen on every corner, letting it be plainly known that their business is peddling programs. And of course we have the "get your colors" man and the little boy with the home-made candy.

Then there's the guy that circles the stadium seven times trying to find a place to park, before he gets disgusted and takes a straight shot for the suburbs where he parks his car and takes a trolley back to the game.

Then the fellow who purchases a ticket for gate twelve in the north stands, but loses his direction while mixed up in the mob chasing from gate to gate, trying to get his bearings and finally turns up at the right gate, ten minutes after the kick-off.

A Blue Suit Can Really Be Very Different

Take for instance a Blue Cheviot by Braeburn.

Here is a suit of out-standing smartness and style which fairly radiates its superiority.

It is not expensive.

\$40
two trousers.

Eiseman's

Tech Band Practicing Hard Daily

The Georgia Tech band looks as if it will even excel last year's record. Reports are that it will be one hundred strong this fall. A. J. Garing, band director, and Tom Wilson, Captain, are giving the candidates stiff workout each afternoon on a vacant lot near Third Street. Strains of "Ramblin' Wreck," "The Old Gray Mare," etc., can be heard for blocks around.

The same uniforms will be used as in the past with the exception of freshmen candidates, who will wear a blue and gold outfit. Competition for

places in the body is so strong that it looks as though Director Garing will have to disappoint several new men.

Personnel of the band includes:
Tom Wilson, Captain.
Buddy Haskell, 1st Lieutenant.
Lib Newton, 2nd Lieutenant.
Rex Gaphart, Manager.
A. J. Garing, Director.

Glee Club Tryouts

(Continued from page 1, column 2)

the Glee Club practice and hear him. That fellow is certainly a wonder on the ivories. He can play anything.

You fellows can do wonders with the Tech Glee Club, so come on and let's give them our whole-hearted support and make it one of the finest Glee Clubs in the South. It can be done. Look who we have for a director, Mr. Garing, who was leader of the Hippodrome in New York for seven years, and is a very noted leader of music. He was also one of Sousa's right hand men, and that certainly means a lot.

We all have great hopes from the faculty and we know that they will agree to the performance at the Capitol Theatre and that they will back the Tech Glee Club to their fullest extent.

When Virginia Polytechnic Institute and the cadets of V. M. I. meet Thanksgiving in their time-honored football classic, the Hoopers, father and son, get plenty of exercise.

Bird Hooper, the son, is the 1930 captain and quarterback of Virginia Poly's big maroon team. He will carry a large part of the burden of the running attack. And when Bird runs his father, Frank B. Hooper, walks.

Last year when Bird played against the Cadets his father took a 200-mile stroll from Richmond to Roanoke to see the fun. This year he expects to make a 300-mile hike from Newport News to the scene of the battle.

Georgia School of Technology

"A Technical School With a National Reputation"

THE GEORGIA SCHOOL OF TECHNOLOGY offers to young men of ability and ambition a training which will fit them for positions of responsibility and power.

The national reputation of this institution is based not on claims, but on results. Its greatest assets is the record which its alumni are making in the productive work of the world. Georgia Tech graduates succeed because they have been trained both to think scientifically and to work efficiently.

Courses in Civil, Electrical, Mechanical, Textile, General, and Ceramic Engineering, Engineering Chemistry, Architecture, Commerce and General Science

Coast Artillery, Signal Corps, Air Service, Infantry, and Ordnance Units of the R. O. T. C.

STEPPING INTO A MODERN WORLD

Scientist and Salesman

THE MODERN PARTNERSHIP

Like every other modern industry, the Bell System requires the combined effort of scientist and salesman. The commercial man has again and again shown the public how to use new products of the telephone laboratory, and how to make new uses of existing apparatus.

Transmitting pictures and typewritten mes-

sages over telephone wires are services right now being actively promoted. Scientific selling by long distance is among many ideas originated to increase the telephone's usefulness.

In short telephony is a *business*, with problems that stimulate commercially minded men and a breadth of opportunity in step with the fast moving world of industry today.

BELL SYSTEM

A NATION-WIDE SYSTEM OF MORE THAN 20,000,000 INTER-CONNECTING TELEPHONES
