## O. D. K. ELECTS STUDENT LEADERS

FRED STEVENSON

JIM BROOKE

### Alpha Eta Circle Bids Four New Men

Brooke, Corker, Dorn and  
Stevenson are Seniors  
Elected

Four outstanding members of the Senior class were chosen for membership in Omicron Delta Kappa when that national honorary leadership fraternity met last week. These men are Moon Corker, Jim Brooke, Paul Dorn, and Fred Stephenson.

Moon Corker, an Alpha Tau Omega, is outstanding on the campus as senior football manager, president of the Interfraternity Council, and a member of the Student Council. He also belongs to Anak, Bull Dogs, Kosme, Skull and Key, Alpha Kappa Psi, and the Cotillion Club.

Jim Brooke, Sigma Alpha Epsilon, has made his letter in football for three years, is secretary of the Senior Class, and is a member of the Student Council, Anak, Bull Dogs, and Kosme.

Paul Dorn, a member of Sigma Alpha Epsilon, is Editor of the Yellow Jacket and senior basketball manager. He has been on the editorial board of the Technique for two years and is a member of Pi Delta Epsilon, and Alpha Kappa Psi.

Fred Stephenson, Beta Theta Pi, is the editor of the Blue Print, has been a varsity debater for two years, and is a member of Phi Kappa Phi and of Pi Delta Epsilon.

While O. D. K. has only been established on this campus for a year, it has taken the position here that it has long had on many other campuses—that of the foremost honor fraternity for the recognition of all-round student leadership. It is a national fraternity of thirty circles, the Tech circle being designated Alpha Eta. The purpose of the fraternity is threefold:

1. To recognize men who have attained a high standard of efficiency in collegiate activities, and to inspire others to strive for conspicuous attainments along similar lines.
2. To bring together the most representative men in all phases of collegiate life and thus create an organization which will help to mould the sentiment of the institution on questions of local and intercollegiate interest.
3. To bring together members of the faculty and student body of the institution on a basis of mutual interest and understanding.

The active members of the circle are Ed Hamm, Tom Jones, Earl Dunlap, Hobby Law, Randy Whitfield, Ed Davis, Dean W. V. Skiles, Dean Floyd Field, Dr. Frank Reade, Professor Phil Narmore. A number of faculty members were members at other schools.

MOON CORKER

PAUL DORN

### Jackets Face Tough Foe in Florida Thanksgiving

The Yellow Jackets will meet a tough foe in the Florida 'Gators, when they clash at the Flats on Turkey Day.

The 'Gators have shown lots of drive and speed this season, and had little trouble in taking their first two games from Southern and N. C. State, 49 and 27 to 0, respectively.

Against Auburn Coach Bachman started his second string, which was unable to do anything, so he sent in his varsity and they, too, were stopped, until the last five minutes of play, when the 'Gators started a 60 yard drive that ended over the Auburn goal line and won the game 7 to 0.

The week following the Auburn game, the 'Gators journeyed to Chicago, where they met the University of Chicago at Stagg Field. The 'Gators ran wild to win from the Maroons by the decided score of 10 to 0.

Seven days later found the 'Gators striving hard to down a supposedly set-up in the Purple Hurricane from Furman. Furman displayed a tight defense and a hard running offense, that won the game 14 to 13.

The 'Gators rose to great heights to stop the devastating Georgia Bulldog. Twice Florida stopped the best Georgia had within 2 yards of its goal line. The second time, the Georgians had but 2 yards to go in 4 downs and could not make it, thus, demonstrating the prowess of the Florida line. The game ended in a scoreless tie.

Following the Bulldog game, the Alabama Crimson Tide helped the 'Gators dedicate their magnificent stadium by defeating them 20 to 0. Florida fought a hard and desperate battle, but the Tide flowed from one end of the field to the other at will.

Last Saturday the 'Gators exhibited their greatest offensive punch of the season to defeat the Clemson Tiger 27 to 0. The 'Gators had it their way from start to finish, while the Carolinians fought a hard brave battle.

"Red" Bethea and Ed Sauls will lead the Gator attack against the Jack-ets. Bethea is one of the best backs in the Southern Conference. He wrote gridiron history on Stagg Field against Chicago. On a wide swiping end run, he ran 70 yards for a touchdown. He scored again with 5 yard plunges, and put the ball in position for the third marker. When he was taken out of

(Continued on page 4, column 5)

### Thanksgiving Sponsors

The young ladies who will wear the gold and white on the sidelines for Tech in the Thanksgiving day clash between Tech and Florida are Miss Ethel Woodruff of Columbus, and Miss Marguerite Anderson and Miss Louisa Roberts of Atlanta.

### Debating Society Chooses New Officers

At a meeting at the home of Professor Folk, Tuesday, November 11th, the M. L. Brittain Debating Society elected its officers for the coming year. Those honored are as follows: President, John Cochran; Vice President, Russell Brooke; and Secretary and Treasurer, O. D. Lyon.

Although the attendance at the meeting was not as good as usual, due to the inclement weather, the subject was of general interest to those present. The question discussed was: Resolved, That college athletes should be openly subsidized. Many interesting views on this very live question were advanced and some excellent speeches were made by the members. Although no vote was taken, the general opinion was that the negative side had presented the better argument.

The question before the society for the coming week is that concerning free trade for all nation.

### Kappa Eta Kappa Holds Fall Initiation

#### Officers for Year

The Georgia Tech Chapter of the Kappa Eta Kappa National Honorary Electrical Fraternity announces the election of the following men:

Barton Cole  
Wellborn Persons  
Ed Hungerford  
Robert McConnell

These men were duly initiated Wednesday night, November 12th, at the Tech Y. M. C. A.

The officers for the coming year have also been elected. The work of carrying on the scholastic and social activities of the fraternity has been entrusted to the following:

H. W. Sphar, President.  
Vice President, Charlie Fortson.  
Secretary, Bowden Palmer.  
Treasurer, Hatton Howard.

### Dr. Brittain Returns From Cuba

Dr. M. L. Brittain returned the first of the week from a visit of several days in Cuba where he had been on business for the school. While in Havana he was entertained with a dinner by Harry Guggenheim, United States Ambassador to Cuba, at the American Embassy. He was also honored at the Havana Yacht Club by Colonel Eugenio Silva of the Cuban army.

### Mechanical Club Selects Convention Delegate

L. Carl Smith, popular member of the Senior mechanical class, has been chosen to represent the Georgia Tech Student branch of the American Society of Mechanical Engineers at their annual convention to be held in New York City, December 1st to 5th.

Each year a delegate from Georgia Tech is sent to this convention by the Atlanta section of the A. S. M. E. along with their own representatives. The experience has proved to be of great benefit to those who have been fortunate enough to attend in former years, as well as the Student Branch as a whole through the detailed report of their delegate.

The A. S. M. E. in electing Mr. Smith has secured an outstanding student to represent Georgia Tech. His work at the convention should be distinctly advantageous to the A. S. M. E. and the student body as a whole.

### Briaerean Society Has Annual Banquet

#### Faculty Members Speak

The annual fall initiation of new men into the Briaerean Society was held at the Atlanta Athletic Club on Friday evening, November fourteenth.

Those receiving the honor were:

A. L. Brown  
T. F. Decapito  
H. O. Finney,  
J. C. Green,  
D. R. McMillan, Jr.  
W. P. Rocker  
H. P. Shipley  
J. B. Veal.

Following the initiation, a banquet was held, at which short talks by Prof. J. E. McDaniel, Prof. C. E. Coolidge, and Prof. T. B. Narmore, faculty members, were heard.

### N.A.P.S. Present Play At Tech "Y"

"Her Step Husband" is the title of an interesting comedy in three acts to be presented by the Cecilian Dramatic Club of the North Avenue Presbyterian school in the auditorium of the Tech Y. M. C. A., next Tuesday, November 25th, at 8:30 P. M.

The play, uproariously entertaining from start to finish, was written by the great playwright, Larry E. Johnson. It is being put on under the capable direction of Miss Augusta Roberts, member of the faculty of N. A. P. S.

The cast is to be taken entirely by girl students, members of the Cecilian Dramatic Club, who are as follows:

(Continued on page 6, column 3)

### Kappa Kappa Psi Pledges Are Announced

#### Soon to Be Initiated

Iota Chapter of Kappa Kappa Psi, National Honorary Musical Fraternity, located at Georgia Tech, announces the following pledges: G. G. Daniel, W. A. Greene, H. G. Haskell, W. W. Jarrell, R. M. Langford, J. L. Newton, R. J. McCamy, F. Whitley, and J. B. Woods. These men merited selection by their leadership as outstanding musicians of the band. In addition, they all have seen at least two years' service.

Composed of chapters located in the larger colleges and universities of the nation, Kappa Kappa Psi stands pledged to the advancement of music among undergraduates. Its position on the Tech campus is thus unique in that it fosters the cause of a cultural art rarely associated with the education of practical and supposedly un-aesthetic engineers. It is largely due to the efforts of Iota chapter and of Mr. A. J. Garing, bandmaster and honorary member, that the Georgia Tech band has gained in so short a time its name as an outstanding concert organization. Officers and members of the local chapter are: Rex Gephart, president; John Harrison, vice-president; Charles Keiser, secretary; Lewis Barnes, treasurer; D. S. Waldrep, editor; E. S. Jones, H. B. Smith, Mr. Garing.

Admission into Kappa Kappa Psi consists of a secret and a campus initiation, the latter being well remembered throughout school as a discord-

(Continued on page 3, column 1)

### Turnbull Will Represent Phi Eta Sigma

The Georgia Tech Chapter of Phi Eta Sigma, national honorary fraternity for Freshmen, has selected its President, Willard J. Turnbull to represent it at the national convention to be held December 5th and 6th, at De Pauw University, Greencastle, Indiana.

The honor of representing Tech and the Georgia Tech chapter of Phi Eta Sigma could not be given to one more worthy.

On Wednesday, November 19th, five new members underwent the rites of initiation in the chapter room in the Academic Building. They are F. E. Lott, W. R. Rushing, C. E. Hale, A. Hyatt, and W. E. Owens. To achieve this honor these men had to maintain an average in scholastic work for the entire past year of 86 or more.

Upper classmen should make every effort to urge the freshmen to work for this honor.

### BASKETBALL NOTICE

Coach Roy Mundorf announces that all aspirants for this year's varsity basketball team must report to the first practice at the gym next Monday, Nov. 24. Most of the men out for the team have already been doing light practice work for the past few weeks to be in form for the coming season.

The freshmen candidates are to report for practice on Monday, Dec. 8. Coach Mundorf expects a large number of freshmen to be out this year.

## To Improve is Better Than to Change

Somebody gave advice the other day to this effect: Improve your work; don't change it. In other words, if you are dissatisfied with what you have to do, see that you do it better. Don't look for another job.

This rule, of course, has many exceptions. There are times when we find ourselves to be a square peg in a round hole. We don't fit. We must get a place in accordance with our taste and capacities. But the thing to do is to see that all we have to do we are doing well. It is easier to do work better than to change it. Many a man has dissipated all his energies and come to old age a failure simply because he has been constantly looking around for better conditions. Ideal conditions do not exist. The only job that is perfectly satisfactory is the one that somebody else has. When we get to it and get to doing it we find that there are limitations.

If we make up our minds to overcome difficulties and remain where we are, and to make our job a better one by doing it better, we shall as a rule be more content. The art of life after all is one of adjustment. There is no place where a man does not have to alter circumstances to suit himself. Those who are constantly looking about for some job that shall be ideal are disappointed. The discipline called forth in adapting ourselves to our present situation is good for us.

One reason why there are so many unhappy marriages is that men, instead of trying to adapt themselves to the situation, are looking about for a new one. No matter how attractive a woman may be at first, to live with one permanently calls for all of our resources of adjustment.

No man is put in the ideal family. It is rare to find an ideal marriage where everything seems to be in accordance with our wishes, as it is to find a rose without thorns. There are drawbacks to everything. Human life is not ideal. Indeed it is a poor stick whose ideals cannot outrun his conditions. Therefore, if we bend our energies toward making ourselves more adaptable to conditions instead of seeking conditions more adaptable to us, we shall get along better in the long run. Even those who have to contend with a thing as chronic sickness or an incurable disease find that after all a man's

## Why Not Speak?

As long as Tech has existed, there has been displayed a congeniality among the students on the campus that is rarely, if ever seen at other schools. It is a commendable trait, and upon its maintenance hinges to a large extent the growth of our school spirit.

Upperclassmen as well as freshmen, are gradually becoming indifferent to this phase of their life. They are freezing themselves out, and forgetting that their social conduct is the first principle of their education and scholastic training.

We are not opposed to speaking to each other, but it seems that we just do not think it is necessary. It is necessary! And courteous speaking is a proper thing and perhaps may be the unrecognized part that you play in keeping the Georgia Tech Campus up to its rightful standard.

## Tech's Hospitality

One of the favorable gestures made recently and one in which the Georgia Tech student body received wholesale commendation was the provision made for housing several hundred college visitors to the recent south-wide student conference.

The more than a score of Georgia Tech fraternities pledged themselves to care for 100 students to the conference, and then when the Atlanta church people were short in taking care of the visitors the fraternity people absorbed more than fifty more in an emergency.

Through the efforts of the Y. M. C. A. and the Georgia Tech class of the First Baptist church, more than fifty were placed in beds in the dormitories. Also several hundred of the delegates were the guests of the dining hall. The dining hall delegates were seated according to states and their college yells added much to the spirit of the freshmen remaining home while their comrades were in North Carolina.

## CAMPUS CHATTER

What a difference not having a home game makes with ye Techites! When the Yellow Jackets are at home, the stewdents celebrate a victory by getting royally tight and an overwhelming defeat causes them to get roaring drunk. But a game on foreign soil gives an excuse for some visit chapter Zeta Xi and show the brothers how their chapter at Tech can guzzle the gutrot. Those who have to remain at home must comfort themselves with a crying jag because of their misfortunes.

To say the least, we didn't see any notice concerning the excuse of absences to attend the Penn game. Maybe the faculty doesn't care to back-track as it had to do in many cases about the N. C. affair.

The president reports that, while business conditions have been generally depressed, the Tech factory is working on an overtime basis with more orders (for outside required work) than could be filled in triple the time available. Wages (meaning grades), however, are at a new low level with every indication of going ever lower.

We notice that the Carnegie Foundation is about to, is doing, or has just completed another report. Better watch it for your good and our good, William Anderson and Arthur Hammond!

When we mentioned the "T" last week we had not seen a pictorial representation of it in November 9 edition of the Newspaper for People Who Think. We are here to congratulate the Freshmen on the orderly manner

spirit is tested by his power of adaptation.

A girl who was born blind declared that she was perfectly happy. It is easy to inveigh against the limitations of blindness, but the road to happiness consists in adapting one's self to the inevitable.

The inevitable encloses us on all sides in this life as a man is enclosed by walls in his room. It is better to accommodate one's self to those walls than to batter one's head against them.

## BEAU BRUMMELS

By Peter

### UNIVERSITY OF FLORIDA ('Gators)

This week we trek to the southern part of these United States. Geographically speaking Florida is the last Southern State in the Union because when leaving Florida toward the south there isn't any more United States. The University of Florida is located in the State that has become famous in recent years for the boom, the fruit fly, hurricanes and what have you. The University is located in the middle part of the State. The beautiful campus of Florida is made more so by the abundant vegetation that helps to form a haven of natural beauty. Due to the wonderful climate this is green the most part of the year.

Located some 175 miles from Gainesville is Tallahassee, the home of Florida State College for Women. It is only a few miles to most of the students of the University and there is a reason, yea brother, hundreds of them. Gee how we envy Florida on this score. The papers at the University carry columns by the students of this "Paradise on Earth" and then there is hardly an article in either the Alligator or the Blue Gator that does not carry much space devoted to the students of Tallahassee, only one visit to this school and the question, why? will not be in order. Even the Beauty section of the Seminole reeks with the dazzling beauties of this school. Most of the idle time of the University man is spent idling it away in Tallahassee and Ye Gawds, what idling! Oh, how we wish that we could idle thusly.

The poet, prose writer, business man, in fact, everyone that is in the least interested in the art of the press has three excellent outlets for his thoughts. The Seminole, the year book; The Florida Alligator, the weekly newspaper; and the Blue Gator, the comic publication, are all excellent works of

the journalistic art and are a credit to the institution.

This article was made possible by the excellent cooperation of "Whitie" Whitesides, Delta Tau Delta, L'Apache, Pirates, Theta, Scabbard and Blade and Class President (3). Thanks lots "Whitie." Hope that the Technique can be of service to you some time.

Down where the Old 'Gators roam, the thing that is paramount in the mind of the followers of the Orange and Blue is football and the Tech-Florida game Thanksgiving the most discussed of them all. Florida has an excellent team this year and with the exception of the loss to Furman and that unconquerable team from 'Bama they have been undefeated. They were successful in holding the flaming red team from Georgia to a scoreless tie, quite an accomplishment. Then their brilliant victory over Chicago shows that they have a real team this year. Whether they will be in the form that lost to Furman or the form that defeated Chicago still remains to be seen. Regardless of the form you can always count on a good game from the 'Gators against Tech. Here's hoping that we can hang up another 'Gator hide.

The well-dressed charge of Coach Chas. W. Bachman wears the traditional blue with orange numerals. The headgear is the conventional tan. Florida recently dedicated their new stadium with the trouncing from the red team from Alabama. A beautiful stadium and a credit to the University as well as to the State that was so instrumental in its construction.

Whether it is at the College Inn for

a bite to eat or the Glass Drug Store for "The pause that refreshes," the well-dressed 'Gator will be wearing the two buttoned coat with peaked lapel and roped shoulders. The trousers are high waisted and rather wide. The two buttoned notched lapel is second and there is a small sprinkling of the three buttoned sack jacket both with peaked and notched lapels. The lighter colors predominate in the land of sunshine, the tans having the first vote with the light greys taking second place with a large vote. The Oxford grey and the conventional blue are used for evening dress a great deal. In the classrooms knickers and light weight sweaters of solid light colors are worn.

The social life of the man at Florida is quite diversified, and lots of play for fear that Johnnie will become a dull lad is provided. Homecoming is the first of the list of the social events on the Florida calendar. This was held at the time of the dedication of their new stadium. Much merriment was had by all those attending. Florida is very fortunate in having a college orchestra of the calibre of Banzi Currie and his Floridians, to fur an excellent brand of music on such occasions. Then the Easter house parties and dances are looked forward to with much gusto. The February dances are next on the program with house parties and much merry making, then comes the Au Revoir to the Seniors at Commencement. The biggest of all the social events seems to be the week-end trips that come practically every week-end to Tallahassee when the football team is at home, and when the team is away the students make it a point to attend most of the games unless the distance is quite prohibitive. A week-end in that wonderful haven of beauty, Tallahassee, is an event in anyone's young life.

Next Week—University of Georgia.

## STEEL under the microscope

Burnished mirror-bright, etched in an acid-bath, a shiny square of steel is placed in the projector microscope in the metallography room at Crane laboratories.

To the layman, the texture disclosed is surprising as the filigree design of magnified snowflakes. Sometimes it is like a relief map of mountain ranges, sometimes like finely veined marble, sometimes like cumulous clouds.

But to the scientist in metals who judges it with a connoisseur's eye, the surface tells a far wider story. It discloses coarse uneven or beautiful fine grains, tells of disproportions and proportions of constituents in the alloy, speaks volumes concerning malleability, ductility, hardness . . . gives a key to action of the metal in service, all based upon knowledge of the product.

Careful metallographic records of all metals used in Crane valves and fittings, painstaking microscopic examination of all new metals offered for possible use, are a part of the check and double check and triple check which is routine in Crane research and manufacturing.

The full story of Crane application of chemistry and science to metals is told in a fascinating book, "Pioneering in Science." It is a valuable reference book for students. Let us send you one.

## Purpose of O.D.K.

### Extra-Curricular Activities

The last twenty years have seen a remarkable growth in the part which extra-curricular activities play in the life of the American college.

Today athletic and non-athletic activities are almost as important in the training and development of the average college student as scholarship itself, and in fact actually appear sometimes to overbalance scholarship in importance, which they should not be permitted to do. The college has practically a replica of the business world upon its campus in the many and varied activities in the athletic, editorial or administrative field. The student learns much that is invaluable to him in his work after graduation.

The value of these activities is now generally recognized both by the students and alumni and the faculty; and in the majority of colleges extra-curricular activities are regarded with favor and encouraged as a supplement to strict classroom learning. As a result more and more students are striving for success in this line, and such success is much coveted.

### Birth of Honor Societies

This change in the trend of modern education has given birth to a number of honorary fraternities, all patterned to a more or less extent after Phi Beta Kappa, and each one catering to one particular class or division of undergraduate or graduate life. A number of these societies have the encouragement of scholarship in certain lines as their object, still others are devoted to the promotion of interest in definite phases of extra-curricular activities, such as journalism, athletics, debating, and literature. These organizations perform a useful service as far as they go, but they fail to satisfy the rapidly

growing demand for a fraternity, membership in which will be significant of campus leadership as such, regardless of the line of activity in which this leadership is shown.

That there is such demand is proved by the existence of the numerous local societies, one or more of which are on almost every campus in the country. Though the standards of admission in these organizations vary greatly—from social to strictly honorary lines—they all answer to some extent this demand.

It will be noted at once however that in most instances these societies go a step farther, for instead of being strictly honorary, in the majority of cases we find them playing an active and helpful part in the life of the college.

There is only one drawback to this situation. Membership in these local societies, while much sought after and coveted by undergraduates at the college, has little value away from their own campus and is therefore soon forgotten upon graduation. This fact is due to the local character of the organization and the fluctuating and uncertain standards of membership.

### The Need

To those interested in the development of student leadership as a whole rather than by groups and classes; to those who believe that the college can be benefited by bringing together the leaders from all groups into one body and thus creating a truly representative organization capable of deciding all questions to the best interest of the institution, there is only one solution to this drawback—the formation of a national honor society, which would be significant of campus leadership in any and all branches of college activity.

The Omicron Delta Kappa Fraternity was organized for just this purpose.

## Alpha Eta Circle Has Weekly Luncheon

By inaugurating a policy of having weekly meetings O. D. K. has taken a step towards greater activity in school affairs. All problems of student interest will be discussed and it is hoped that through coordinating the efforts of men who are leaders in all the different branches of the schools activities the welfare of the campus as a whole will be promoted.

These meetings will take the form of weekly luncheons which will be held at the Tech Dining Hall at twelve o'clock Thursday of each week.

This organization is the first of any kind at Tech to attempt such a plan of weekly meetings. It is only through such continued and constant activity that the Rotary, Civitan and Kiwanis Clubs are able to have as much influence as they do in the communities in which they exist. Such a policy is followed by the Emory Circle of O. D. K.

Although founded sixteen years ago the foresight and vision of its original members in drawing up its constitution and forming its ideals has rendered it ideally suited for the present situation.

### Membership

The members are selected from the recognized leaders on the campus in the following five classifications—scholarship, athletics, social leadership, including conspicuous service to the institution, non-athletic activities other than publications, and publications. Not more than one-fourth of the members may be selected from any one of these groups and thus the domination of the fraternity by any one group is prevented. There are never more than four active faculty members.

## O.D.K. Has Many Chapters

In 1914, several of the outstanding students and faculty members of Washington and Lee University felt the need of such an organization as Omicron Delta Kappa. The results of founding O. D. K. there in that year were so marked that the University of Pittsburgh, Johns Hopkins University, and Davidson College requested and received circles before 1917. Since then the following institutions have been added to the list: University of Richmond, Centre College, College of William and Mary, University of Akron, University of Alabama, Birmingham-Southern College, Hampden-Sydney College, Emory University, University of Kentucky, Lehigh University, University of Virginia, Millsaps College, Duke University, University of Maryland, Ohio Wesleyan University, Dickinson College, Southwestern University, University of South Carolina, Allegheny College, Alabama Polytechnic Institute at Auburn, University of the South at Sewanee, Drake University, University of Florida, George Washington University, Muhlenberg College, and Georgia School of Technology.

O. D. K. is a member of the National Honor Societies Conference which includes but eight members—Omicron Delta Kappa, Phi Beta Kappa, Phi Kappa Phi and five other outstanding organizations.

## History of Alpha Eta of O.D.K.

Through the efforts of Dean W. V. Skiles and Professor P. B. Narmore, several men, who measured up to the high standards of the national fraternity of O. D. K., were brought together to petition for a circle at Georgia Tech. After several meetings the petition was drawn up and forwarded to the national headquarters.

The petition was favorably acted upon and on May 31st, 1930, Dean Prince of Washington and Lee University installed Alpha Eta Circle at Georgia Tech. Seven alumni, four faculty members, and twelve students were initiated as charter members.

The alumni were Robert Gregg, W. S. Tutwiler, George McCarty, Jack Thieson, George Griffin, Tom Stout, George Marchmont.

The faculty members were Dean W. V. Skiles, Dean Floyd Field, Prof. P. B. Narmore, Dr. Frank Reade.

The students were Ed Hamm, Kent Mack, James Thompson, Hobby Law, Ward Grantham, Sidney Goldin, James Frink, Warner Mizelle, Victor Little, William Terrell, Charles Witmer, and Harold Faisst.

Four juniors were elected and initiated at the installation ceremony. They were Tom Jones, Earl Dunlap, Bandy Whitfield and Ed Davis.

The initiation took place at the Biltmore Hotel and was followed by a banquet. Dr. Brittain, a member of Emory University Circle, attended and welcomed the circle to the campus.

## Qualifications for O.D.K.

In order to become eligible for election to O. D. K., a student must have, from the following list, at least one major and two minors or two majors in different groups.

### Group 1—Scholarship

*Majors*—Phi Kappa Phi.

*Minors*—

Pres. Tau Beta Pi

Pres. Beta Gamma Sigma

Pres. Delta Sigma Pi

Honor Roll two or more years

Pres. Phi Eta Sigma.

### Group 2—Social

*Majors*—

Pres. Student Council

Pres. Interfraternity Council

Pres. Senior Class

Pres. Y. M. C. A.

3 years member Student Council

*Minors*—

Vice Pres. Senior Class

Sec. and Treas. Senior Class

Pres. Scabbard and Blade

Pres. Junior Class

Pres. Kappa Eta Kappa

Pres. Phi Psi

Pres. Alpha Kappa Psi

Member Student Council (minor for each of two years)

Pres. Kappa Kappa Psi

Pres. Pi Delta Epsilon

Pres. Civil Crew

Pres. Charette Club

Pres. Briarean Society

Pres. Beta Phi

### Group 3—Campus Publications

*Majors*—

Editor Technique

Editor Blue Print

Editor Yellow Jacket

ant serenade in front of the Academic Building. These unhappy memories will be violently refreshed shortly when grotesque and tarnished remnants of once splendid uniforms and an inharmonious din make obvious announcement that the Kappa Kap pledges are wooing their art.

## Turnbull Will Represent Phi Eta Sigma

At a meeting held Wednesday, October 29th, the Georgia Tech chapter of Phi Eta Sigma selected its president,

Willard Turnbull, to represent it at the national convention to be held at De Pauw University, Greencastle, Indiana. The convention will be held on December fifth and sixth.

Phi Eta Sigma is a national honorary fraternity for freshmen. Membership is based upon scholarship alone. A freshman making the required average for the first half term of work is eligible, or he may not have the required average for the first half but have it for the entire year and still be eligible for membership.

Turnbull is quite worthy of the honor bestowed upon him. He has served excellently in the office of president of the fraternity and has worked for the advancement of Phi Eta Sigma during its short time on the campus.

## STEPPING INTO A MODERN WORLD

## 6-ton reels of cable distributed with the speed of perishable food

A carload of telephone poles laid down a thousand miles away within 36 hours after getting the order! Rush calls of this sort must frequently be handled by Western Electric, distributors for the Bell System.

But even more remarkable is the regular day by day flow of telephone supplies. The Chicago warehouse—one of 32 in the national system—

fills 100,000 orders a day. In 1929 more than \$400,000,000 worth of equipment and materials was delivered to the telephone companies.

Distribution on so vast a scale presents many interesting problems to Bell System men. The solutions they work out mean much in keeping this industry in step with the times.

*The opportunity is there!*

## Penn. Trounces Golden Tornado 34 to 7

Cherry, Strickland, Hart  
Star in BackfieldMaree, Jones, Brooke Play  
Stellar Games in  
Line

For the second time this year, the Georgia Tech Yellow Jackets wended a sad and woeful way back to the old flats from the Quaker state last weekend. They were sad no doubt, but were not ashamed; they had nothing to be ashamed of, for they had put up a great fight, but were simply outclassed again. Pennsylvania won 34-7 which certainly indicates the stronger team on the whole, but they weren't the stronger all of the game. There was one period in which the Jackets really found themselves, scoring one touchdown, getting within the ten yard line another time, making six first downs to their opponents' one, and generally outplaying them. They played real football that quarter.

The Quakers got away to an early lead. Following a series of bewildering passes, Greene, Penn fullback, skirted right end for five yards and six points, Masters' drop kick making it seven. The Gold secondary could not gain and Tech was forced to take to the defensive almost entirely. On a long punt from Vance Maree a little later in the game, Perina, Penn safety man, behind splendid interference, ran from his own 45-yard line where he received the punt, 55 yards for the second marker, and Masters again added the point. Penn's third touchdown was the result of a long and furious journey from the center of the field to Tech's four yard line, where Greene rammed center for the necessary yardage. The Jackets got mad and, assisted by penalties against the Pennsylvanians, commenced a drive which was killed by a fumble shortly before the half ended.

During the half, Coach Alex said his customary magic words, and true to form, the Tornado came back on the field a different team. With Bob Strickland, Ben Cherry, and Jap Hart totin' the pigskin, the Jackets began a drive from near midfield that couldn't be stopped. They were aided by a 15 yard penalty for the Red and Blue. Jap Hart, the boy who got our only score when the Tornado tied the Tarheels, slipped inside his own right tackle, dodged the Pennsylvania secondary and crossed the goal line. Ed Herron promptly added the extra point. They set out immediately to duplicate the feat and looked for a while as if they might but fumble within striking distance of the goal just after the third quarter ended, put a stop to the Tor-

Undefeated Frosh Will  
Battle Baby 'Gators  
TomorrowFlorida Has Powerful  
Freshman Crew

The madly cheering throngs which flock to witness intercollegiate gridiron contests haven't passed through the massive portals of Grant Field since the Vanderbilt game on Nov. 8, due to the absence of Tech's Golden Tornado from its native haunts.

The next clash on Grant Field will occur between the baby Jackets and the Florida freshman eleven. This prelude to the turkey day contest between the Tech-Florida varsity teams should be a most interesting affair, judging from the past performances of both teams. Little information is available as to the merits of Florida's baby 'Gators, but the impressive record established by the Tech frosh team assures an extremely interesting contest—if the Florida rats provide any competition at all. And they certainly will, if they perform as their predecessors have in the past.

Coach Clay's charges have had a perfect season thus far. They hit their winning stride in their first game, and have not only maintained their initial power and aggressiveness, but have shown all-round improvement. After their first victory over 5th District A. 6—TECHNIQUE & M., they marched through the Furman freshman eleven, and then swamped the Auburn rats, who had so decisively whipped the Georgia frosh team a few days previously.

Taking into consideration the above statements, no doubts should arise in the minds of prospective spectators as to the intensity of the forthcoming clash between the infant 'Gators of Florida and Georgia Tech's devastating baby Tornado.

nado's threat for good. The boys had put forth their best and had failed. Penn took over initiative and kept it for the remainder of the struggle.

The Quakers got two touchdowns during the last quarter. The first was the result of a bad break for the Gold and White. Pat Barron, in an attempt to let a punt roll over the goal, accidentally let it touch his leg. This, as you know, makes it anybody's ball. A Penn man pounced on it on the four yard line. First down for Penn on Tech's 4-yard line. The line held valiantly for three downs yielding only three yards. On the fourth down, the

Freshman Harriers Show  
Heels to Tech High to  
Win 68 to 37

On Saturday, November the eighth, a confident pack of "Baby Jacket" Harriers matched strides with the Tech High cross-country team, and showed the Smithies more legs than a thousand-legged spider. Lassetter and Captain Whitfield who finished third and seventh respectively, were the only Tech High runners who successfully kept pace with the "Freshies." The score was 37 to 68.

Franklin Akins, grizzly little freshman runner, led the pack over the 2½-mile course, and came home in the remarkable time of 12 minutes, 53 seconds. Close on his heels finished Hopkins of Tech and Lassetter of the Smithies. The next seven finishing in order were Williamson, Archer and Hearn of Tech, Whitfield of Tech High, Walker of Tech, and Swift and Lozier of Tech High.

This was the first meet for Coach Griffin's "Baby Jackets," and they showed surprisingly good form. Other meets will be held before the season closes.

Jacket forward wall was off-side and the ball was shoved to within a little more than one foot of the zero line. On the next play, Collins, instead of ramming center for the score, as all expected, tore out around left end behind a wall of interference and made the six points.

The last tally was the result of a long run by Munger on a fourth down with twelve to go. He put the oval in scoring position and it was run over a few minutes later to make the final count 34-7.

Hobby Law suffered a broken arm during the scrap. It is said that the bone was broken just above his right elbow. If this is the case, Coach Alex will have to dig up another reserve guard and it won't be an easy job to find a man that will fill his shoes in the same manner Hobby did. Tom Cain got his face bruised and cut up a bit, but this will not hurt his looks to any great extent. Tom can take a lot of punishment.

Vance Maree, who has done outstanding work for the past three games, kept up his stella performing throughout the game. Ed Herron played well, turning in perhaps his best game of the season. Bob Strickland showed power and strength. He was largely responsible for the Jackets' lone touchdown. Ben Cherry and Jap Hart were outstanding, the former driving furiously and the latter doing some neat dodging and twisting, and scoring six of Tech's seven points. Sam Colvin's generalship was creditable. He was the boy that was running the works when they made their comeback during the third period. Sam knows his football.

It's awfully hard to take it on the chin week after week as the Jackets have been doing without weakening completely, but don't ever think they will do that. There are a lot of inexperienced men on that football team. Every game played gives them just that much more experience and brightens next year's chances. Coach Alex has drilled into them what to do, but it takes time and experience to learn exactly how to do it under fire.

With plenty of time to prepare for the 'Gators, the Tornado should be at its peak by Thanksgiving day. Florida has played rather erratic football this season, looking mighty good one week as that Saturday in Savannah against Georgia, and rather weak a couple Saturdays later against the Crimson Tide. However, it is certain that they will play their best against the Tornado as they have always done in the past.

"Father" Lumpkin and his Portsmouth, Ohio, Spartans, made a great stand to tie Ken Strong's Stapleton eleven at 13-13 in a National league football game last Sunday.

Alabama Defeats L.S.U.  
To Retain Conference  
Lead

## Duke Wins Seventh

## Tenn. Wins Over Vandy

Football — O Fickle Goddess, Get thee hence. And send us lots of wins next year. Last Saturday wins the premium for bad days by three lengths. Georgia, Tech, and even Oglethorpe were all snowed under in one, two, three order.

Georgia certainly received the biggest drubbing, when they met Tulane, that they have experienced in a long time. Or should it be said more properly, when they met Zimmerman? The powerful Mehre team went to New Orleans in high spirits, confident of a victory, but the same experience they felt at Tech's hands in '27 was undergone. The elements clogged up against them, and paved the way to a 25-0 defeat. The Green Wave, championed by three Green Ghosts, Zimmerman, Whatley and Glover, rode rough-shod over Georgia, and out-played the Bulldogs in every quarter. It is very probable that Georgia experienced a letdown from the N. Y. U. game, upon which they had concentrated all their strength, because the Greenies scored more points against its team than Yale, N. Y. U., North Carolina, and Auburn combined. But Tulane must not be denied. That team is a winner, and Zimmerman is a team by himself, scoring the first touchdown by a wonderful run after being boxed on a pass, close to the end of the half. He was injured somehow on this run, and a substitute, Whatley, carried on for him in grand style.

Alabama is still going along in a big way; if they can keep their heads up under the splendid Georgia team, they will very probably attend the Tournament of Roses. Last week they added to their string of victories, L. S. U., winning by a big 33-0 score. The scoring, except for Monk Campbell's brilliant eighty yard return run of a kick-off, for a touchdown, was confined to the first half shock troops, and then a reserve line with a pony backfield taking the place of the first string. Louisiana was unable to solve the Crimson offense problem in the opening periods, but they stopped the varsity and pony backs very satisfactorily in the second half. Alabama ran up seventeen first downs, L. S. U., two.

Old Dan McGugin received a severe setback when the clever Bobby Dodd, and the line smashing Hackman, with the aid of a severe, hard-playing, bunch of teammates took Vanderbilt for a ride good for a 13-0 score. The Vols without a shadow of doubt were outplayed through the game, but who cares about any out-playing tales. It was the old Touchdown play that always won the game anyhow. And Dodd and Hackman are that without a signal. It is Tennessee's ball on its own twenty-eight stripe, Dodd passes to Hackman for ten yards. Then, standing ten yards back, Dodd punts out of bounds on the Commodores' four yard line, he aimed the ball as if he had willed it to the spot. Schwartz punts poorly to his own twenty-two. On the first play, Dodd falls back to pass. Two ends and two backs are in or headed for the end zone. But Hackman is not. Hackman, who has gone for a drink of water or a chew, or something, suddenly appears about at the center of where the scrimmage began. Bobby, calmly and casually comes out of the fog and flips him the leather. Hackman calmly and casually walks over for a touchdown. Without Dodd, the Tennessee boys would very probably have done a lot of scrapping and lost by three touchdowns. But Dodd isn't made that way. Vanderbilt made one march, sponsored by Mouse Leonard netting seventy-one yards, but they were nailed on the nine yard line. Davidson did a bit of dope spilling (Continued on page 5, column 3)

Cross Country Runners  
Of Georgia Defeat  
TechBernhardt Breaks Course  
Record

The Jacket Harriers were defeated last Saturday in their annual Cross Country match with the University of Georgia. The course record was broken by Bernhardt of Georgia with the time of 29 minutes, 59 seconds, which is remarkable for this particular grind.

Bernhardt was closely followed by one of his cohorts, Bennett, who took second honors. Captain Harold Asbury of Georgia Tech placed third. He did not finish in the beautiful form that he showed against Clemson. Morlon of Georgia was fourth and Gegenheimer of Tech crossed the line for fifth place. The remainder of the entries in the order of their placements were: Young, Georgia; Tillman, Tech; Johnson, Tech; Von Herrmann, Tech; Chapman, Georgia; Davis, Georgia; and Read, Tech.

Bernhardt's record run was all the more remarkable since it shadowed the old record set by Bob Young of Georgia, who is one of the most outstanding distance men in Southern Conference track history. Bernhardt was considerably handicapped by the inclement weather which produced a moist atmosphere and poor footing.

The University of North Carolina will be hosts next week to the hill and dale stars of the Southern Conference. Cross country teams have been listed from V. P. I., N. C. State, Virginia, South Carolina, Duke, Auburn, Kentucky, Alabama, and Georgia.

Coach George Griffin is sending only two men to the meet. They are Asbury and Gegenheimer who seem to be the only two potential winners on the green Jacket squad.

If Bernhardt runs for Georgia he should certainly bring honors to the Red and Black.

Jackets Face Tough Foe in  
Florida

(Continued from page 1, column 1)

the game he received a tremendous ovation from the Maroon fans.

Georgia and Furman stopped the "redhead" for naught. Against Clemson he rose to his old heights again—snared a Clemson punt and galloped 54 yards to the Tiger 16 yard line.

Ed Sauls, halfback, will, no doubt, share honors with Bethea, for he, too, has been a menace to opposing teams. His spinning and perfect passing has added color to the 'Gators string of victories.

The Gator line needs no comment for a review of the games played will give anyone an idea of its strength. In Steele, left guard, and Clemons, center, Florida has two of the best linemen in Dixie.

The Jackets made a poor showing against Pennsylvania last Saturday, and will have to make a big improvement, if they expect to stop the Gator from Florida. Strickland showed plenty of flash against the Quakers and put the ball in position for the only touchdown Tech made. "Little Jap" Hart and Ben Cherry, also, shared honors with Strickland.

The tackling was pitifully weak as two, three, four and sometimes as many as a half-dozen players tried desperately to bring down their prey.

The following lineups will start the game:

Tech	Position	Florida
Jones	L.E.	Parnell
Maree	L.T.	Waters
McKee	L.G.	Steele
Neblett	C.	Clemons
Ezell	R.G.	Forsythe
Speer	R.T.	Procter
Goldsmith	R.E.	Hall
McArthur	Q.B.	Dorsett
Flowers	H.B.	Bethea
Barron	H.B.	Sauls
Cain	F.B.	Jenkins

## SPORT GLANCES

Saturday saw two of the countries undefeated elevens pass from the select circle. Georgia and Fordham, in going down to defeat, showed effects of the very strenuous schedules that they have gone through so far. The Bulldogs dipped their colors before the onslaught of Tulane's Green Wave, while the Rams were humbled by the St. Mary's eleven who came all the way from California.

The defeat of these two teams narrows the select circle down to Notre Dame, Northwestern, Alabama, Washington State, and Utah. Of these either Notre Dame or Northwestern will be eliminated this week end, and we sort of believe that the boys from Evanston will be the victims.

Washington State looks like a sure shot to be one half of the Rose Bowl game on New Year's Day at Pasadena. The Cougars have run over everything in their path and last week they crossed the last barrier to the Pacific Coast championship when they defeated the strong University of Washington eleven 3-0.

The boys from the Northwest have defeated California, Stanford, and the University of Southern California, three of the strongest elevens in the country.

Tulane showed lots of power in defeating the Georgia Bulldogs last week, but somehow it just got under our skin to see a team which hadn't played but one really hard game go in there and beat a team that takes them as they come. The Greenies had played only

two first class elevens, Northwestern, and Georgia Tech, if you want to call Tech first class. They went down to defeat before Northwestern and ran roughshod over Tech. They had nothing to think about for three whole weeks but Georgia and consequently they were primed just right for the Bulldogs.

In the meantime Georgia was playing Florida and New York University. When the Bulldogs took the field at New Orleans, they were worn out, or you might say football drunk. This was the margin of Tulane's victory.

Our only hope now is that Alabama will beat Georgia Thanksgiving day so that the conference championship will at least go to a team that takes on a few hard opponents now and then.

Word comes from Athens that the Georgia Bulldogs, tired and defeated, arrived in Athens last Monday morning to receive one of the greatest welcomes ever accorded a Bulldog team. Those Georgia boys certainly have the spirit.

At nearly the same time the Tech team, battered and defeated, was arriving at the Peachtree Station in Atlanta. The only welcoming committee that greeted them was the host of Red Caps and taxi drivers.

That's the old Tech spirit. Say, what's the matter with the Yellow Jacket club that was formed recently to promote Tech spirit? If they would spend a little more time promoting spirit meetings and a little less time wearing those new uniforms and making "T," I think they could accomplish their purpose a little better.

## NOTES OF SPORTDOM

Halfbacks are born, says Christian Keener Cagle, head coach of Mississippi A. & M's. Maroons.

"Talk about coaches developing halfbacks," says Cagle. "It's all the bunk. Do you know when halfbacks are made? When they are crawling around on the floor.

"A man is either a halfback or he isn't. No coach can do more than polish one up a little bit.

"Halfbacks get that way when they are babies. You can't teach a born bond salesman how to play halfback."

Tulane University, 1929 champions of the southern conference, boasts one of the heaviest lines in Dixie. The Green Wave forward wall averages 195 pounds per man, and all but two are veterans of at least one season of play.

Last year it was estimated that more than 30,000,000 attended college and school football games in the United States. This season the total is expected to reach 40,000,000.

Nollie Felts, sophomore fullbacking sensation at Tulane University, is married and has a 2-year-old son. Felts is a triple-threat back and weighs 180 pounds.

Amos Stagg has been coach of Chicago for 37 years.

Among the odd football trophies are the "Little Brown Jug," for which Minnesota and Michigan have been battling since 1903, and the beer keg battled for by Tennessee and Kentucky.

Cy Leland, Texas Christian University's football star, hasn't lost the ball on a fumble in two seasons of play.

In 1926, the Haskell Institute Indian team rolled up 518 points against 56 by their opponents, winning eleven games and suffering one tie.

Notre Dame football teams are expected to do everything well. But the point-after-touchdown record of the Irish to date, merits mention.

Notre Dame has scored fifteen touchdowns this season. Frank Carideo has accounted for 10 extra points out of twelve attempts, and Jasfich, his un-

derstudy, has booted 2 out of three, for an .800 percentage.

Prior to this season, Eddie Baker, Pittsburgh's star quarterback, never had scored a touchdown, confining himself to blocking and tackling.

Another scoring two of Brooklyn's touchdowns in their 34-0 triumph over Minneapolis today, Stumpy Thomason had the additional honor of drawing the only burst of applause from the apathetic crowd of 12,000. Stumpy got a big ovation when he left the field in the final period.

Thomason was the all-around star while he remained in the game. He scored Brooklyn's first touchdown on a short buck through the line to climax a 45-yard march down the field in the first quarter.

In the second period, with Brooklyn leading, 13-0, Thomason made a fine catch of a 20-yard pass from Kelly and stepped across for the third Brooklyn counter.

## Alabama Defeats L. S. U.

(Continued from page 4, column 4) on her own hook, by going against all odds to defeat North Carolina, 7-6, Fraley's toe turning the tide. Carolina worked forty-five yards down the field, in the first quarter, to a score, Nash and Magner being the big guns of the attack. Branch, however, failed to make the point. McQueen, by a brilliant run in the second quarter, placed Davidson in scoring distance, Fraley and McCall taking it over in two plays from the seventeen yard line. The game was played in a steady drizzle.

The Kentucky Wildcats, after successive defeats by Alabama, Duke, and the University of Kentucky, staged a splendid come-back by defeating the V. M. I. Flying Cadets on a muddy field in Lexington. Carey Spicer scored three touchdowns, and one extra point, and "Shipwreck" Kelley dashed forty-four yards, shaking off successive tacklers, for the fourth in a 26-0 walk-away. Few fumbles were made in spite of the mud, and Ole Kentucky made sixteen first downs to the cadets' eight.

The Florida 'Gators have sharpened their teeth; anyhow they made Clemson's Tigers feel them to the extent of 27-0. Rated at very slightly better odds, the Saurians scored three touchdowns for their first three times with the ball. Long spirals floating from 'Gator backs to the arms of waiting mates formed the basis of the scoring, Florida, exhibiting the best power it has shown this season. Between passes, Sauls took test smashes into the C Tiger line, and such smashes. He made one hundred twelve of the one hundred, sixty-one Florida yards from scrimmage. The game on Thanksgiving Day will, no doubt, provide plenty of excitement.

Duke University's Blue Devils registered their seventh consecutive victory by defeating North Carolina State 18-0. Wolfpack bingles led to two of the touchdowns, but the third came as a result of superior power. In the first period, when the Blues were held within a shadow of scoring, the story looked different from the way it ended, but the second quarter speedily put all such thoughts aside. The Blue started early in the second, and marched forty-seven yards to score, with ease, Brewer scoring. The second marker

came from a recovered fumble, and the third by a splendid display of power, after the recovery of a Wolf-pack fumble. The final score read, Duke 18, N. C. S. C. 0, none of the points after being good.

"Red" Cagle, the sensational Army

star now playing professional football, put his Mississippi A. & M. team over Auburn for a 7-6 victory, in their last game under his tutelage. The Maroons were out-played for the first three quarters, but the unerring toe of Vandervere spelled disaster for the (Continued on page 6, column 3)

## TECH IT OR LEAVE IT

At last some real football  
At Georgia Tech, by gosh!  
The firstlings of Florida  
Are playing our Frosh.

Famous last words: "Say, Mr.  
Sparks, have you heard this one?"

Ima Goof, statistician for The Georgia School of Technology, has just completed an important survey of the sleep lost at Tech.

Her first startling discovery is that loss of sleep by college students is caused by the following in the order of the amount of sleep caused to be lost:

1. Studying at night—many, many, many hours.
2. Forgetting to study at night—many, many hours.
3. Not studying at night—many hours.
4. Why study?—hours.

If each of the above items is studied very conscientiously by anyone being guilty of losing sleep, he will readily admit that Ima Goof is not far from being right.

Ima has even gone so far as to say that if all the sleep lost by Tech students since 1920 were put into one big pile, that pile would be big enough to be completely submerged in the Atlantic ocean.

So much for Ima Student Sleep Statistics. May we never hear of them again.

You've heard of this type  
Who in class always sets\*,  
Fawning on the teacher,  
Earning nothing he gets.

He laughs at the Prof's jokes  
And stays after the hour,  
Doing nothing but bootlicking  
Those who are in power.

So—turn your back  
On Z. Z. McCutcheon;  
He thinks life is made  
Of nothing but suction!

(\*Used for the sake of rhyme, if you please.)

Startling Statements:—The essential of any football team is cooperation within the team, or team work.

## Football Player Loses Tooth

It seems that one of Tech's fighting Yellow Jackets had the great misfortune to be parted from one of his front teeth during a battle. It was an awful catastrophe and everyone is still in doubt as to whether the unfortunate one swallowed the tusk or not. Well, everything went well for a while. The hero had the tusk replaced by a brand new one and everybody was happy. So far, so good. Our Yellow Jacket with the new tusk was so pleased with it that he would smile at everyone in order to show it. That was all fine and dandy until another catastrophe happened.

One day not so long ago, the hero, as was his usual custom, smiled at everyone in order to show the new tusk. Well sir, just after finishing a very enjoyable meal at the Tech Dining Hall, he walked out of the building smiling at the world. At first all seemed well, but soon he noticed that when he smiled at someone, the person became intensely interested in his face and would stare. He couldn't figure this out, so he dashed to his domicile to take a look in the mirror. At the first few glances, he noticed nothing,

but then he smiled and saw the cause of it all. The tooth was gone. The tooth was gone. He became hysteric. He did not know what to do. He looked everywhere, but it was not to be found. At last he became quite somewhat and sat down to think. He came to the conclusion that there was only one place that he had not looked. He decided to go to the dining hall and inquire. He did. He was told that all scraps of food were placed in cans and set to one side. So with much vim and vigor, the mournful one started in to search the scrap cans.

Well, sir, a miracle happened. As our hero searched faithfully and became more and more disheartened, he espied an object that made him distrust his eyes. He saw his beloved tusk. With much love and affection he seized the tusk and held it to his breast. The lost had been found.

Our happy hero duly thanked the dining hall management and went at once to have his regained tooth cleaned. So once more he is smiling at everyone and showing the world his beloved tusk. All's well that ends well.

## Visitors' Day Bears Fruit

### Favorable Press Comment

The efforts of students and faculty to make Visitors Day a success have borne fruits in the favorable press comment which the school has received as a result of many outsiders inspecting the campus.

The following quotation is an example:

"The Georgia School of Technology, located in Atlanta, is an institution of which the people of Georgia and the south are proud. It is one of the best schools of its kind in the United States, and has a plant that is a credit to the state.

Last Saturday was visitors' day and it was the good fortune of many members of the legislature, the Georgia Press association, and educators in general, to be the guests of Dr. M. L. Brittain and the faculty, at luncheon and the Tech-Vanderbilt football game.

To many of those present it was a revelation when they realized what a fine educational institution the state has in Tech. Its buildings, equipment and grounds are a monument to the foresight of those Georgians who have built so well, and who will continue to support it. It is a state college, and as such is dependent on the support of the legislature. Its work is of the highest character, as is attested by the students who go out from it to make their

way in the world. When one has finished at Georgia Tech it is axiomatic that he will make good, since he has already made good at the school. That within itself is the best recommendation one can have.

We have thought that too much emphasis is placed on sports at our major colleges, and yet we feel sure that without these the fine college spirit would be at a low ebb, and with this gone most of the pupils would be soon. There must be some play where good work is done, and with the sports eliminated college life would be a drab affair of blighting routine.

Those students who do not actually engage in the sports are quickened and enlivened by the games of those who do, and thus are bound in fraternal ties to the institution of which they are a part. Without this spirit of fraternity no worthy accomplishments can be made. This is an indisputable fact, verified by the experience of the various colleges the world over, both male and female.

Tech is a well-balanced college, and those in charge of it are doing a great work, and are entitled to the support and commendation of the people who recognize that education is the backbone of a well-ordered civilization. —

TECH Y.M.C.A.

## Campus Chatter

(Continued from page 2, column 2)  
GAMATED SOCIETY FOR PREVENTION OF ALL SOCIETIES.

And still they pledge 'em, as last week's Technique will show you. Times seem to be hard with the various chapters, financially speaking.

We notice that Koseme, Skull and Key, and Phi Psi announce election of new men whose pictures will appear in those organizations' places in the Blue Print.

And what's more the Pi K. A.'s actually had a burglar who was caught and thoroughly manhandled by outstanding members of that chapter. Result: Pictures placed in chapter scrap book (if they have one) and two or more dumb freshmen pledged from the account of it during the Rush Week of '31. By that time the intruder should be none less than a reincarnation of Gerald Chapman.

## N. A. P. S. Present Play

(Continued from page 1, column 4)  
Evelyn Fluker, Louise Brown, Elbridge Groves, Catherine Hartrampf, Jenny Champion, Rebecca Young, St. John Barnwell, Mary Malone, and Lillian Starr.

Since the play is being put on for the especial benefit of Tech boys, it is expected that a great many will be present. Admission price is to be fifty cents, and if present rehearsals are any indication of the final performance, each boy is assured full "value received."

## Alabama Defeats L. S. U.

(Continued from page 5, column 5)  
fast little Auburn eleven. The Aggies have, up to this time, had a very poor season, Cagle having had little material, but they rose up on their hind legs to give their coach a good send-off.

The University of Maryland, and the Virginia Polytechnic Institute football teams splashed around in the mud at Norfolk last Saturday, and the Maryland aggregation took advantage of the breaks to win, 13-7. The flashy Berger, who has played such a showy part in the Old Liner's defeat of the other three Virginia Conference teams, was considerably slowed by the mud, but was able, by one thirty yard run, to score a touchdown. Bad judgment by one of the V. P. I. halves played a part in the second touchdown. He let a punt roll, and instead of going out of the corner of the goal line, it went out at the one yard line; this, followed by a poor punt, put the ball in scoring position for Maryland. Hooper passed to Seamon for the V. P. I. score late in the last quarter, and Hooper kicked the point.

A slightly slippery field, costly fumbling, and penalties marred the game considerably, when the Virginia Cavaliers streamed all over a weak W. & L. eleven at University, Virginia. A 27-7 tally for Virginia was the result.

## Novel University Will Open in 1934

The World Peace Movement which has attained such popularity during the past year is to find practical expression in education in the Abraham Lincoln University which is expected to open in the fall of 1934. The plans for the university are being made by the Abraham Lincoln Foundation, which is intended to establish and finance the university, and the whole project represents the vision of Roy Curtiss of New York and his desire to work for greater understanding and co-operation between nations.

The detailed plans, which should be of great interest to all who are watching the progress and development of

new ideas in education have not been made generally known yet, but in the June issue of *Progressive Education* Dr. Eugene R. Smith tells some of the ideas which the organizers are seeking to incorporate in the university. The students are to come from all countries, and the total enrollment is to be 1,200, because there are to be six classes of 200 in the university at once, four undergraduate classes and two graduate ones. Each class is to include 80 students from the United States, one from each state and the remainder from the country at large, and 120 students from the other countries of the world. —  
*Willesley College News.*

IN this age when everyone seems to work and play at top speed it is no easy matter to be "most energetic man" of the senior class. But good health will go a long way toward helping you carry off the title.

Shredded Wheat is a natural energy builder. These crisp delicious biscuits include all the food elements needed for

the untiring stamina that campus activities demand. They promote the clear active mind, too, that makes hard work count for something. Eat two biscuits with plenty of rich milk every morning. It will help make you a "go-getter" in no time.

# SHREDDED WHEAT

## Georgia School of Technology

"A Technical School With a National Reputation"

THE GEORGIA SCHOOL OF TECHNOLOGY offers to young men of ability and ambition a training which will fit them for positions of responsibility and power.

The national reputation of this institution is based not on claims, but on results. Its greatest assets is the record which its alumni are making in the productive work of the world. Georgia Tech graduates succeed because they have been trained both to think scientifically and to work efficiently.

Courses in Civil, Electrical, Mechanical, Textile, General, Ceramic, Chemical, and Aeronautical Engineering, Architecture, Commerce and General Science

Coast Artillery, Signal Corps, Navy, Infantry, and Ordnance Units of the R. O. T. C.

For Further Information Address

THE REGISTRAR GEORGIA SCHOOL OF TECHNOLOGY ATLANTA, GA.

## Notes On Other Colleges

### INDIANS PARTICIPATE IN DANCE OF FOREFATHERS

The beat of tom-toms and chanting of braves echoed over the campus of Haskell Institute, Lawrence, Kansas, as more than 1,000 Indians, attending a nation-wide pow-wow incident to the game between Haskell and the University of Kansas last week participated in the war-dances of their fathers.

The spectacle was held in the athletic stadium of the government's Indian school. The braves tramped across the chalk-lines of the institution's football field, the modern battle-ground of Indian youth.

### FRATERNITY BUTLERS ORGANIZE

At the University of Georgia, negro butlers have organized a fraternity to be known as the Silver Kings. Requirements for initiation are: Butler-ship at a Greek letter fraternity, wearing of clothes acquired only from fraternity men, and the attending of every football game.

### BOSTON UNIVERSITY ABOLISHES HAZING

After a reign of thirty years at the College of Liberal Arts of Boston, the traditional freshman hazing has been

abolished this fall, to be known only as history in the future. The action was initiated entirely by the students of the sophomore class. The sophomores have begun a new policy of dealing with the freshmen, planning to help them organize as a class unit, and to assist them in every possible way to adapt themselves to college.

### OKLAHOMA A. & M. STUDENTS ATTEMPT TO ESTABLISH CHURCH

Pennsylvania, Princeton and the University of California at Los Angeles, have made experiments with student churches. And lately, students of Oklahoma A. & M. have made persistent efforts to establish a student church. "Critics noted for their ill opinion of college youth should be softened by such demonstrations," says the Oklahoma editor. The proposed A. & M. church would be devoid of dogma or creed and would provide a channel through which the student could express his views. The fact that the project is meeting with bitter verbal attacks from the local ministerial alliance seem to be spurring on the leaders.

## HERE WE ARE

Dear Ma:

Gee, but the Quakers must have been plenty mad at the drubbing handed them by Notre Dame and they waxed their anguish on us plenty Saturday. Well, that's that. The team lost even tho they were fighting every minute of the game. Let's forget this defeat and point to a victory in our own back yard over Florida Thanksgiving. It has been said that Florida was Georgia's jinx and this is quite true of Tech over Florida. Here's hoping that Turkey day is made pleasant at the expense of the 'Gators.

We hear that it rained at New Orleans Saturday. Wonder if the Greenies watered the playing field with a fire hose (?) Remember when Grant Field was in a similar condition and the accusations? We do know that Zimmerman, Whatley and Co. reigned supreme for the day. Congrats, Tulane!

From the way that the different frats answer the phone it seems that the fraternity house is disappearing and any number of names are being used over the phone to designate the different frats.

Ye Olde Publicity Manager of the Debutante's club surely did a good job this week. The Debbies hogged a lot of space and a flock of pictures too. Even Mr. Debutante had a center picture in one of the papers. The Deb clubs come, and the Deb clubs go, but Mr. Debutante goes on forever. Wonder when they will get wise to his girl a year racket? Another Debbie is introduced, a lot of hands are shaken and a dance follows. Gee, but the same-ness makes us long for an old barn dance or old time husking party—anything just so it isn't the old set introduction to society that it seems can't be deviated from.

The SYT's have surely been planning a somewhat strenuous campaign. It seems the old and ancient game of archery being dragged in the mire isn't enough to satisfy them—they are now calling on the once manly art of bowling for their publicity. There is no end to the excuses that they can get up for a picture in the paper. After all one can't be popular and RATE without her share of publicity, and such popularity must be deserved. We wonder? It won't be long now before they are all set and the publicity can be discontinued and the fish for three more years will have bitten and be dragged shore, then no more work until next year and another freshman class.

We note another of the beauties in last year's Blue Print is going to enter the great institution known as marriage. Congrats, Beaut. We wonder why the Petrel, and not the engineer.

Well, lots can happen in a year. Who knows? In fact, who cares?

Socially speaking, Tech wasn't this week-end, unless the engineer cared to imbibe in the art at one of the various dances of the script type. Well, such is life and the SYT's were there in an abundance, and strange enough, they are working wonders this year. They are not satisfied in the old concentrated type of attack but like football are playing a more loose game and are not satisfied with one but desire many. Remember, little girls, you can't fool all of the boys all of the time.

The Ramblin' Wreck will again have a chance at the social whirl of things next week. The Phi Gams are going all the way to Marietta to entertain the frosh. An excellent way to keep the crowd down. It should be a good struggle—more about this next week.

The hard working men, the Co-ops, are stepping forth in the first social event for the club of the year, a dance at Druid Hills or as they say, Drooid Hills. There is something about the Co-Op dances in the past that has made them quite different. Maybe it is because the Co-Ops haven't enough time to waste on the so-called society of the city and have to concentrate on the real girls of the city. Then, too, there is an abundance of Scott girls every year, which adds to any dance. You know the girl that says thanks and really means it, not the one that says thanks as does the parrot or phonograph record. It's a relief to see a different crowd at any dance. If this is the type that Charlie Chatter calls Buttermilks we cast all our votes for bigger and better dances of this sort with more B.M.'s. Congratulations on the past, Co-Ops—may you keep up the good work in the future. We shall see what we shall see Saturday.

We really did miss the weekly tea dance of the Chi Phi's this week. It seems to be one of those things that you don't realize means so much until it is taken away.

Aha! The Strange Interlude has wended its way to Atlanta. The Tech Box was filled to a capacity through acts and acts of the Interluding. After all, why use language that everybody can't understand? Maybe it's the modernism of the stage that is in this play at any rate there is something decidedly different.

Well, the class elections are over. Some are satisfied and some aren't, but regardless, they are over and that's that. Maybe they weren't conducted as you would have them, and then maybe you aren't interested enough in your class to delve in the mire of dirty politics. At any rate if you aren't satisfied being quite and not making your thoughts known will make very little

## Corey Ford on Football

"It may come as something of a shock to modern devotees of the grid-iron sport," reveals Corey Ford in the December College Humor in his reminiscences, *And That's How I Met Your Grandmother*, "to learn that in my time football was played on bicycles. The entire team would line up along the tape on their high-wheeled 'bikes' and at the referee's whistle they would pedal down the field like mad, the thumb-piece of their bicycle bells clanging briskly and their auburn sideburns floating behind them on the breeze as they raced toward the goal.

"An innovation which proved highly successful was the passing of the famous rule in 1869 that a man who made a touchdown was allowed to keep the ball as a souvenir. Inasmuch as leather was extremely valuable, owing to the high protective tariff, we found that this rule practically did away with the fumble entirely. Once a man had the ball in my day, he kept it. On the other hand, it handicapped our forward passing considerably, inasmuch as the first action of a player upon catching the ball in his arms would be to deflate it, tuck it under his jersey, walk off the field, go back to his room, pack his suitcase, buy a ticket to the big city and set up in the

progress towards righting matters. Say what you think. Maybe your idea is a good one. Air it.

Why the headline, "Popular Juniors Make Koseme?" A good heading for the society page, but why not Juniors, with the reader as the judge of the popularity?

Well, here's hoping that the gait of the 'Gators is slowed up lots by the sting of the Yellow Jacket next week.

Your son,  
PETER.

## Jupe Pluvius Reigned on Campus

For over a week now, old Jupe Pluvius has effectually thwarted the best efforts of old Sol to come out and give the Atlanta folks a treat. And at Tech everything has been carried to the accompaniment of a steady down-pour, or at least a downpour. The football team which has a hard enough schedule without taking on the weather, found a gallant comeback attempt stopped as the heavens broke loose and turned Grant field into a quagmire. Then the boys went to Philadelphia, without benefit of scrimmage, and there greeted by even a more torrential rain than they had encountered at home. And now they arrive in the rain. The dismal dripping of rain

leather business for himself. It was in this manner that Otto H. Kahn got his start.

"But the most interesting custom in the good old days was the rule which we adopted regarding spectators. Today the spectator at a football game merely sits in the stands and calls out advice to the teams, such as 'Try a forward!' or 'Take it through the line!' or 'Kill that man!' but in my day they actually went out there and *did* these things."

heard all about the campus, was a fitting background to the first victory of the faculty—the six weak grades which were posted with malevolent chuckles. Even the Dean's team has had no time to practice, and has had to be content with a light workout at the Fox theatre. But be patient—the weather man has promised clear weather for Thursday. So when you read this edition of the Technique, it should be to the tune of bright sunshine and the hoarse shouts of the devotees of Garber's and Baby Golf. This Festival of the Big Water is becoming a yearly event, it would appear. Those who were here last year will remember clearly that wet spell which clung to the vicinity of North Avenue even longer than the existing aquatic state of affairs. Perhaps the name of the football squad should be the "Golden Deluge". At any rate, time will tell what the weather man can't.

The world's first anti-friction bearing locomotive—completely Timken-equipped—in leading truck wheels, driving wheels, trailer wheels, tender wheels, booster, speed driver of valve pilot and train control governor.

## MODERN TRANSPORTATION ROLLS ON TIMKENS

Swiftly... smoothly... silently... the modern train gathers speed or slows to a stop without a jar or jerk. Looking for the reason, student engineers find Timken—the same bearing that has licked the toughest jobs throughout all Industry—the most powerful weapon available to them in their future war against mechanical waste and inefficiency.

In railroad cars Timkens have justified their use and proved their supremacy in one hundred million car miles of travel on one railroad alone.

And why not? For thirty years and more, Timken Bearings have reigned supreme over friction; have carried not one type of load, but *all* loads—radial and thrust—measured in pounds or thousands of tons.

In the air and on the water, by road and rail, Timken tapered construction and Timken-made steel roll on to new triumphs—saving power and lubricant... promoting dependability... assuring extreme economy of maintenance with supreme defiance of depreciation.

In train service they afford the luxury of smooth, silent travel, with starting resistance reduced 88%.

One hundred and thirty-four railroads are now using or testing Timken Bearings, so it does not seem a far cry to the time when *all* transportation—passenger cars, freight cars, mine cars, motor trucks, buses and motor cars will be traveling totally Timken Bearing Equipped. They will not be *modern* unless they are. The Timken Roller Bearing Company, Canton, Ohio.

### FOX

#### "MIN AND BILL"

Marie Dressler and Wallace Beery play together in a riotous comedy of laughs. They are supported by Dorothy Jordan and Marjorie Rambeau.

Fanchon & Marco's "Busy Bee" idea and Mel Ruick are featured on the stage.

The Fox is to have a midnite show Sunday night, Nov. 23, starting at 12 o'clock.

\* \* \*

### PARAMOUNT

#### "SUNNY"

Featuring Marilyn Miller, is the third of four big hits that are outstanding at the Paramount. This is Miss Miller's second big picture and in it she is supported by such well-known performers as Lawrence Gray, Joe Donahue, and Barbara Bedford. The picture was directed by William A. Seiter. Short subjects and Paramount Sound News complete the program.

\* \* \*

### CAPITAL

#### "THE SILVER HORDE"

This is a romantic melodrama of a woman thrown into a northern salmon fishing camp in the rough atmosphere of men without souls. The characters of importance are Evelyn Brent, Jean Arthur, and Louis Wolheim.

Graham McNamee's News and short subjects are also on the program.

\* \* \*

### GEORGIA

#### "DERELICT"

George Bancroft in a sea drama fighting with almost superhuman tempests and a love that tears him apart. William Boyd is the co-star.

Bob Murphy is master of ceremonies this week on the stage. Other entertainers are:

Josephine Chappelle and Harry Carlton in an athletic oddity "On the Stairway."

### Co-Op Club Entertains Saturday Night

The Co-Op Club of Georgia Tech are giving their Fall dance on Saturday evening, the twenty-second of November. Every Fall at the end of the first semester when the Co-Ops are changing sections, a dance is given by the club in order that students of both sections may attend. The club is planning to make this dance one of the best ever given by them.

The dance is to be held at the Druid Hills Golf Club and will last from nine till twelve. Instead of being just a regular dance, it is to be a costume dance. It is to be in the form of a Mechanic's Ball and everyone is expected to wear overalls. This will be quite odd and is expected to be quite an enjoyable affair. The Golf Club will be decorated according to a Mechanic's idea, therefore one may expect to find monkey wrenches hanging around. Music will be furnished by the well known Georgia Tech Ramblers and music *de luxe* is expected.

The Co-Op Club was formed about fifteen years ago and has been growing steadily since that time. This year there were about twenty new members taken into the club and great things are expected of them. At present, Randy Whitfield is president of the Co-Op Club.

In order to distinguish the club members, they will wear white caps with a green visor. A grand and glorious time is expected by all, so all those having bids to the dance will certainly miss something if they are not present.

**HAVE  
BLUE PRINT  
PICTURES  
MADE AT  
Y.M.C.A.  
NOW**

Mills and Bobbie in English comedy characterizations.

Fantastic reveries "Light and Shadows."

\* \* \*

### GRAND

#### Monday, Tuesday, Wednesday "SOUP TO NUTS"

Rube Goldberg's picture, with Ted Healy, Francis McCoy, Stanley Smith, and Charles Winninger, is a comedy that holds true to its title, the gurgling of soup to the working man's cracking of nuts.

#### Thursday, Friday, Saturday "LAST OF THE DUANES"

George O'Brien's role in this western romance is an outlaw in love with a beautiful girl. The picture is one thriving on athletic and outdoor fare. Myrna Loy and Lucile Brown portray other featured parts.

### RIALTO

#### "BIG MONEY"

Eddie Quillian and Tom Gleason wise crack their way through the picture. The hero is a typical born-lucky type, and the story is a sensible but riotous comedy.

## Thanksgiving Holiday Anticipated

Thanksgiving day is being looked forward to with much interest. Everyone is planning to put the turkey away in great style. We all know what Thanksgiving means—It means that Tech has a holiday! And a holiday certainly means something at our school. However, this is only going to be a one day affair. The committee on holidays has decided that instead of giving us the Friday and Saturday following Turkeyday, they are going to give us the same days preceeding Easter. In other words, we are going to have Spring holidays. That will mean much more since it usually seems a long time between Christmas and the summer vacation. Then, too, the Christmas Holidays come only three weeks after Thanksgiving, so we see that it will be much better to have a Spring rest than to have all our holidays so close together.

Another point of interest is the Tech-Florida game that is to be played on Thanksgiving. Everyone should want to stay and see it since it will be one of the best of the season. Just think what a big time you can have here in Atlanta on a holiday and especially when Tech has a game scheduled for that day.

## Rifle Teams Active

In addition to the regular Tech rifle team, there are three other rifle teams in the school now. These are the battalion rifle teams which are shooting for the championship of the unit.

So far the Coast Artillery has a very slight lead over the Infantry and the Signal Corps. The shooting is not completed yet, since only seven C.A.C. men, eight Infantry men, and only five Signal Corp men have fired. The matches have been held up recently due to the bad weather. Captain Chambers, who is in charge of these teams, says that the matches can be completed, however, in two days if the weather permits.

The highest individual score made so far was won by Joe Veal, the former captain of the Tech High School rifle team. His score was 374 out of a possible 400.

## School Without Athletics

A new university, to be known as "The Institute of Advanced Study" and to begin its existence with a \$5,000,000 endowment from Louis Bamberger and his sister, Mrs. Felix Fuld, will be organized as a college virtually without rules, according to Dr. Abraham Flexner, director.

Extra-curricular activities, athletics, and similar elements of college life will be barred from the campus of the new university, and every effort will be turned toward establishing a school of the highest rank. Only professors of ability and reputation will be employed, but all teachers will receive remuneration more than commensurate with the importance of their positions. Faculty members are to co-operate in the management of the school and occupy positions on the board of trustees.—N. S. F. A. News.
