

Deadline Is Announced For ODK Applications

By James Hewell Jr.

The Georgia Tech chapter of Omicron Delta Kappa has announced a deadline for submitting applications for election to membership. The completed forms should be turned in to Prof. F. B. Wenn, 320 Swann Hall, no later than noon Thursday, May 24.

ODK is a national leadership honor society founded in 1914 at Washington and Lee University. The Tech chapter was established in 1932. The purpose of the organization is three-fold: to recognize men who have attained a high standard of efficiency in collegiate activities; to bring together the most representative men in all phases of collegiate life and to mold the sentiment of the institution on questions of local and intercollegiate interest; and last, to bring together members of the faculty and student body of the institution on a basis of mutual interest and understanding.

In order to be eligible for election to membership in ODK a candidate must meet three different qualifications. First, he must have acquired a certain number of activity points. The 'A', 'B' and 'C' groups of these points are outlined below. There are three different combinations of points and honors under which a candidate may make application. They are as follows: an 'A' and a 'B' honor plus twelve points; three 'B' honors plus twelve points; or two 'B' honors and four 'C' honors plus sixteen points.

The second requirement states that a candidate must prove interests in at least three of the following fields of endeavor: scholarship; publications; athletics; social and religious affairs; speech, music and dramatic arts; and campus government.

Scholarship is the third requisite for application. A candidate must rank in the highest thirty-five percent in his class of the college or school in the institution in which he is registered. This standing is to be based upon the record of the immediately preceding full academic year or upon the whole preceding academic record.

The honors and point schedule is as follows:

'A' Honors

Receiving 8 points—

President of Student Council
Editor of *Technique*

Receiving 7 points—

President of Senior Class
Editor of Blue Print
Editor of Engineer
Editor of Yellow Jacket
Business Manager of *Technique*
Vice-President of Student Council

Receiving 6 points—

Captain of Varsity Football
Business Manager of Blue Print
Business Manager of Engineer
Business Manager of Yellow Jacket

'B' Honors

Receiving 6 points—

Secretary of Student Council
Treasurer of Student Council

Receiving 5 points—

Member of Tau Beta Pi or Phi Kappa Phi
President of IFC
President of ISO
Managing Editor of *Technique*
Other Officers of Senior Class

Chairman of St. Patricks Council

Receiving 4 points—

President of Junior Class
President of YMCA
Managing Editor of Blue Print
Managing Editor of Engineer
Managing Editor of Yellow Jacket
Captain of Varsity Baseball
Captain of Varsity Basketball
Captain of Varsity Track
Cadet Colonel of Army or Air ROTC

Captain of Navy ROTC

Elected Member of Student Council (initial election)

Co-Captain of Varsity Football

'C' Honors

Receiving 3 points—

President of Sophomore Class
Other Officers of IFC
Captains of Minor Sports
President of Social Fraternity (for more than one quarter)
Honor Roll (3.2) two or more years (sophomore and above)
Letter for Varsity Major Sport (maximum 6 points)

Receiving 2 points—

Re-election to Student Council
Second in Command of Army, Navy or Air ROTC
Other Officers of Junior Class
President of Freshman Class

Other Officers of Sophomore Class
Member of Phi Eta Sigma

Letter for Varsity Minor Sport (maximum 4 points)

President of Social Fraternity (for one quarter)

(Continued on page 3)

Awards to Be Made At Annual Banquet Of Publication Staffs

Pi Delta Epsilon, the honorary journalism fraternity, will hold its annual publications banquet Friday night, May 18, at 7 p. m. As usual, the banquet will be held in the "T" Room which is in the east side of Brittain Dinning Hall. The sponsor of the banquet is Pi Delta Epsilon.

The banquet is given every year to make various awards and presentations pertaining to the four publications at Tech. There will be eight staff awards presented to the man on each staff of each publication who has contributed the most to his respective staff. These awards will be presented by Dean George C. Griffin. There will also be an award presented by Pi Delta Epsilon to the man who has made the most outstanding contribution to publications. This award will also be presented by Dean Griffin. The eight staff awards are certificates commending the recipients, and the outstanding contribution award is an inscribed plaque. The editors and business managers of the four publications are not eligible for the staff awards.

One of the highlights of the banquet is the dedication of the Blue Print. The person to whom the year book is dedicated will receive the first copy. Publications keys will be presented to those students who have served six quarters on a publications staff.

Preceding the banquet, at 6 p. m., the Pi Delta Epsilon pledges will be initiated. These men will also be recognized at the banquet.

Colonel Van Leer Calls Student Mass Meeting

Building Program and Draft To Be Discussed Tuesday

By Doug Bryan

President Van Leer has called for a mass meeting of all Georgia Tech students to be held in the school gymnasium Tuesday morning, May 22, at 11:00 o'clock. The meeting should be of extreme interest to every student on the campus, and since it will take place during the free hour when no classes are scheduled, all will have the opportunity to attend.

Three major items are responsible for the meeting being called, including the approaching examinations for draft deferments, the present status of the Alexander Memorial Building Fund, and other construction that is or will soon be underway on the campus.

Col. Van Leer feels that it is the students privilege to know what is happening with regard to the progress of Georgia Tech, and consequently, the meeting will be presented in the form of a report on future plans. He will personally address the student body and bring them up-to-date on this information. In addition, Col. Crawford and Col. Hendricks of the selective service board will be present to help clear up the questions that anyone may have concerning the draft status of college students.

Many students are wondering when construction is to begin on the Alexander Memorial Building, when the buildings currently in progress are to be completed, and what other developments are to be undertaken here at Tech. These and other questions should be answered.

Of primary importance and concern to all draft eligible men at Tech is the selective service college qualification examinations which will be given May 26, June 16, and June 30 here at school. Many students are uncertain of the significance of these tests and do not know whether they can or should take them. Col. Hendricks and Col. Crawford will answer any questions these students may have with the latest available information.

The opportunity to take the college deferment exams is most likely to be offered only once this year, therefore, all who plan to take them should not put off finding out the details involved. Many questions have been raised as a result of the present deferment system, such as whether taking the examination and failing it would go against the student in keeping a deferment; whether a student in the upper half of his class should take the test; how long a deferment can be kept as a result of the test; and many others. Also there is a general belief that due to the controversy being raised by certain groups concerning deferment policy for college men, that the present system will be abolished; and as a result, many have shown no interest in the tests. These in particular should attend the meeting Tuesday morning to find out the validity of such reports. The selective service board is anxious to assist students in any way possible to know what they have to expect so that they may plan for the future. Col. Hendricks and Col. Crawford are demonstrating this by consenting to appear Tuesday.

The meeting will begin promptly at 11:00 o'clock and will be dismissed on time. It is to the advantage of each student that he attend and arrive promptly.

Immediately after the school mass meeting, which will take place at 11:00 a. m. on May 22, there will be a meeting of the freshmen and sophomore classes. The purpose of this meeting is to explain to the men of these classes the new freshmen code.

1951 Blue Prints To Be Distributed Beginning Tomorrow

By Jerry Lavinsky

Distribution of the 1951 Blue Print will take place Saturday, May 19, through Thursday, May 24, in the concession booths in Grant Field, it was announced by John Huskinson, editor of the publication. Hours for the distribution of the Blue Print are nine to twelve on Saturday morning, and nine to four from Monday to Thursday.

Blue Prints will be given to graduates and seniors on Saturday, graduates, seniors, and juniors on Monday, graduates, seniors, juniors, and sophomores on Tuesday, and to all classes on Wednesday and Thursday.

All students must show their ID cards to receive their copies of the book. No student can pick up a book for another student who is in school this quarter. In other words, all students must pick up their own books. Those students who have not attended Georgia Tech during three of the past four quarters will be required to pay an extra charge of \$1.75 for each quarter less than three.

This year's Blue Print will include full sections on classes, faculty, beauties and sponsors, organization, fraternities, military, and sports. Throughout the publication will be found six four-color photographs, against seven that were in last year's Blue Print. There are also many black and white pictures taken around the campus. This year's Blue Print also features a completely new layout of sections and pages, which show a new departure in design. A student index will be found in the advertisement section of this year's annual.

The book contains 430 pages not including the advertisements. The cover is of a more modern design than ever before. It is mostly dark blue and grey with a light blue border and gold lettering. Four thousand copies have been printed.

J. Koehler To Speak At ROTC Ceremony

Mr. John T. Koehler, Assistant Secretary of the Navy, will address the assembled ROTC students of the Georgia Tech Army, Navy and Air Force units at a ceremony to be held on Saturday, May 19, 1951 at 10:00 a. m. on Grant Field. The ceremony, which will include a review of the corps of cadets and midshipmen, is held annually for the purpose of presenting awards to outstanding members of the ROTC units.

Colonel Blake R. Van Leer, president of Georgia Tech, and Dean Lloyd W. Chapin, dean of facilities, Georgia Tech, will be joined in the reviewing stand by many distinguished personages from all three of the Armed Services, including as well, other distinguished guests of reserve organizations and civic groups of the greater Atlanta area.

Faculty and students are invited to witness the ceremony. Gates entering the east stands of Grant Field will be opened for use by spectators.

Holt, Randolph and McAllister Are Elected Class Presidents

In the final general elections held last Tuesday, Roland Holt was elected president of the Senior Class of 1952. Gus Randolph outran his opponents to become president of the Junior Class, while Mack McAllister was chosen by his classmates to lead the Sophomore Class next year.

The official tabulations in the three class officer elections are listed below.

Senior

Roland Holt, President; Chico McGregor, Vice-President; Tom Brown, Secretary-Treasurer.

Junior

Gus Randolph, President; Ralph Dover, Vice-President; Jim Fiveash, Secretary-Treasurer.

Sophomore

Mac McAllister, President; Fred Quintar, Vice-President; John Harwell, Secretary-Treasurer.

The official results of the Student Council elections are as follows:

Senior

EE: John McGlosson, Clyde Brown.
IE: Randy Seckman; Bob Templeton.

IM: Ed Dyer, Fuller Callaway.
Arch.: Elliott Dunwoody, Paul Liberman.

ChE: Don Hartman.

AE: John Young.

Cer-Phy-Chem: Ross Burrus.

Election of Don Ramsbottom, TE;

INEFFICIENCY

... in class officers is illustrated by Frosh Class President.

This week a matter came to our attention which we feel should be passed on to the student body as a whole and the sophomore class in particular. Although it is not our policy to publicly criticize individuals, we feel that Fred Quintar, Freshman Class President, deserves a severe reprimand for his handling of the publicity for the new program for freshmen. Furthermore, we believe that the freshmen should be criticized for electing to office a man who exhibits the carelessness Quintar has shown in his handling of this matter.

The whole thing came up when we received a note from Quintar instructing us that The Technique should publish the information enclosed in its issue of May eleventh. We do not object too strenuously to being told what to print, although we feel it is far more courteous to request publicity, but we do object to the manner in which the information was delivered to us.

Student Council approved the recommendations of the Campus Government and School Spirit Committee at its meeting of April twenty-fourth, but the information was not submitted to The Technique until last Thursday—exactly twenty-four hours after the copy deadline for the Friday paper. The material was quite well publicized in an editorial in the paper of April twenty-seventh, but the committee does require aid in promoting the program. The Technique is always willing to publish any information of interest to the students, but we do not feel bound to break deadline rules except when absolutely necessary. We feel that it is an imposition on the part of any organization to request such a concession when there is no good reason for the request.

A second item about the submission of copy is that the manner in which it was submitted to us for publication was hazardous to say the last. Technique reporters

do not submit copy on three by five cards, nor does any organization on the campus, yet that was how this notice was received. We feel that if it is important enough to be published, it is important enough to insure against inaccuracy by submission of legible copy.

Actually, the carelessness with which the copy was prepared did not bother us half so much as the obvious misinformation included in the copy. Quintar referred to "the new hazing program"—this program is definitely not to be construed as hazing. It was designed by the committee of Student Council to imbue into freshmen a respect for Tech by establishing traditions. In no way is the program meant to embitter anyone against the institution—a frequent result of hazing. Furthermore, we do not believe anyone on the campus wants to see a practice of hazing established. The Technique is very much in favor of the establishment of traditions for freshman behavior, but we do not advocate humiliation or physical torture of anyone.

Since this program was a joint effort on the part of the School Spirit Committee and the Student Executive Committee, we believe Quintar should have been aware of its intent. As we understand it, the speech to be recited by next year's frosh is to be some kind of monologue extolling the virtues of Tech—definitely not any statement of the lowly position of freshmen among the upper classmen. This is the spirit in which the recommendations were adopted, and, since Quintar is a member of the executive committee, we feel that he should be aware of these intentions.

Our purpose in levelling these criticisms at Quintar is not simply to embarrass him. We feel that it is the duty of every student to assure himself of the ability and conscientiousness of his elected officers. This matter amply illustrates the fact that Quintar

Deferment System

... indicates the trust of our nation in its college students.

This nation has placed a great trust in its college students in the new deferment system which grants students time to continue in school if they maintain a good grade average or pass a general intelligence test.

The apparent effect of the new program will be to allow more than one-half of the students now in college to continue their education, instead of going into the army this summer.

Probably our successes in Korea made possible such a wholesale deferment, more liberal than had been prophesied. There is also little doubt that pressure from the nation's universities and particularly from small colleges influenced the government to set up a broad deferment scale.

However, the major factor certainly was a faith in college education as an agent in

developing good citizens and, in the long run, more valuable soldiers. The government acted in good faith to allow every student with a good record or with good intelligence to finish out the education he had planned.

It is necessary, though, for students also to act in good faith. Abuse of the privilege of continuing in college will certainly bring the whole measure into disrepute.

We refer, of course, to a possible rush by 18-year-olds to find some inexpensive college to attend and have a good time while keeping out of the army. Nor is it unlikely to suppose that some students will linger in school longer than they normally would have, in order to postpone or perhaps even escape entirely their term of service.

It goes without saying that these are cheap and contemptible actions. Students have been allowed to go to college because the nation believes their education is important. They are on duty for their country on the campus.

A wave of polite draft-dodging in the form of unnecessary and otherwise unplanned college attendance would make a travesty of the new draft regulations—and would give a strong basis to the view that no college students should be deferred.

—SMU Campus.

—DMJ

TECHNIQUE PLATFORM:

1. Student voice in matters of student interest.
2. Encouragement of school spirit.
3. Better orientation and vocational guidance.
4. More participation in the intramural sports program.

5. Promotion of active campus organizations.
6. Erection of an adequate library.
7. Erection of a Student Union building.

The Technique will at all times attempt to represent the best interest of the students in current discussions and controversies.

Jackets Close Season With Kentucky Series; Harvin Homers Twice

Georgia Tech wound up its season by splitting a two-game series with Kentucky. Monday Tech took the opener 16-11. Kentucky surged back Tuesday and won 9-8. These two games gave Tech a standing of .470 percentage. The Jackets have now won 11 and lost 12.

Monday's game featured several hits and several errors by both teams. Tech led early in the game but the Wildcats came from behind and went ahead in the seventh, 11-9. The Jackets then surged ahead 12-11 in their half of the seventh. In the bottom of the eighth the Engineers scored four more runs to put the game on ice. This was done with the help of three singles and four walks.

Chappell Rhino led the hitting for Tech with four hits in five times at bat. Bob Lusk cracked a home run with two on base. Lusk collected three for five.

In Saturday's tilt Dick Harvin played the best game of his career. This was also his last game with the Yellow Jackets. Dick slammed two successive home runs over the left-centerfield fence, cracked two singles and batted in five runs. He also stole one base to round out the day's play. Along with Dick, Bobby North, Bob Lusk, Tubby Walton, Bob McCoy, "Red" Childress and Herbert Bradshaw are graduating.

The Jackets outlit the Wildcats 9-8 but were beaten by the same margin. Clyde Young was the starting pitcher but was lifted for Chappell Rhino in the seventh. Clyde gave up eight hits in the seven innings that he was in the ball game. Young's defense behind him was very poor, committing seven errors.

Harvin was the big stick with his

Delt Protest Denied: ATO Retains Victory

A protest by Phi Delta Theta was denied and ATO retained first place in the annual intramural cross country race. The winners took first, second, and third places to win easily over second place Phi Delta Theta. ATO also took 18 places for a winning score of 24 points. Phi Delta Theta had a score of 39 points followed by SAE, 43 points; Chi Phi, 71 points; SPE, 98 points, and Beta Theta Pi with a total of 105 points.

Jackson, Fowlkes and Little finished first, second and third respectively for ATO.

Phi Delta Theta scored an overwhelming victory in the intramural gymnastic meet by scoring 66.0 points. ATO was second with 20.2 points and SAE third with 9.5 points. The Phi Deltas took first, second and third places in three of the five events.

Carter and Harp, Phi Delta Theta, tied for the best all around participants.

ATO completely dominated all intramural swimming events and took a unanimous victory by scoring 68 points. Phi Delta Theta finished second with 34 points as the Latin American Club took third with 30 points.

The intramural track meet has been changed from Saturday, May 19 to Saturday, May 26 at 2:00 p. m.

four for five but was again followed closely by Bob Lusk who got three for five. Bob McCoy, Jacket captain, playing his last game for Tech, made a sensational catch of Walt Hirsch's pop fly in the eighth. He came in at full speed and made a shoe string snag.

Lusk led the Techsters for the year by hitting near .500. Several players hit well over .300. They are North, Andrews, Harvin, Rhino and Sheffer.

Cindermen Journey to 'Bama For Annual Conference Meet

By Ray Savage

"The Ramblin' Wreck from Georgia Tech" will make a bid for South-eastern Conference honors Friday and Saturday afternoons in Birmingham, Alabama. Tech will be at full strength providing no last minute injuries occur.

The entire team seems to be in marvelous shape. Joe Ward has almost recovered from his injury. He will run in the 880-yard qualifications on Friday afternoon. If he qualifies, he will run in the finals on Saturday. Qualification heats are held in all running events from the 880 on down. Six places are chosen from each heat. This is done to keep the track from being so overcrowded.

This will be the nineteenth Conference meet. The first was held in Birmingham, on May 19 and 20, 1933. This meet was won by LSU, Tech placing eighth. Tech won their first SEC honors in 1944 scoring 90 points with LSU placing second with 65 points. (In the SEC meet, five places count). Tech won again in 1945 and 1949. Last year Alabama won. It was their first SEC track championship. Of the eighteen annual meets LSU has 13 wins, with Tech running second.

LSU is highly favored this year, but one can never forecast the outcome of a SEC meet. Auburn, Alabama, Tech, and Tennessee all will be

major contenders.

This meet will probably see many records smashed. Tech's Red Smith carries potential record smashing power for the two mile run. The SEC record, 9:36, was set in 1941 by Chick Aldridge of Georgia Tech. Smith will really have to run to top that record.

Buddy Fowlkes will be out for points in the 100 yard dash, the 220, the low hurdles, and the broad jump. The record for the 100 is 9.5, the 220 is 20.6, the low hurdles 23.1, and the broad jump 25 ft. 6 1/2 in.

Jim Shiver will also be a contender in the high hurdles.

Others that will aid Tech greatly are: Bailey, Dixon, Shelton, Bob Glover, Roy Ford, Jeff Knox, Will Paul, and Ed Baskin.

SPE's Present Annual Golden Hearts Ball, Pin Queen to Reign at Saturday Informal

Tonight the SPE's will hold their annual Golden Hearts Ball at the Harold Byrd American Legion Home in Avondale beginning at nine with music by Walt Cunningham and his orchestra. During the evening the Queen of Hearts will be pinned by the

president, L. G. Bryant. The queen is selected by chapter vote with the value of the girl to the chapter in mind. The queen will be chosen from the following group of entrants: Miss Sue Jackson, Atlanta, sponsored by John Stetina; Miss Vivian Richardson,

Atlanta, sponsored by Claude Reip; Miss Faye Adair, sponsored by Roy Simon; and Miss Gwenn Martin, sponsored by Bill Draper. She will reign over the social functions for the next year. Last year's queen was Miss Elloise Booker of Crawford Long.

Following the formal the members and visiting alumni will meet at the house for breakfast.

Saturday night will find the queen governing her first social function at the informal dance to be held on the newly installed SPE patio-terrace. This will be the party given the actives by the pledges to christen the patio. A local combo will furnish the entertainment.

Debating Team Closes Season; Phi Eta Sigma Elects Officers

By Bill Ross

On Thursday, May 10, the Georgia Tech Debating Society journeyed to Mississippi to debate at Millsaps College in Jackson, Mississippi, on Friday, May 11, and at the University of Mississippi on Saturday, May 12. Making the trip were Robert De Marcellus, president of the debating teams, James White, and James and John Hester.

The debate concerned whether or not college students should be deferred, and although no decision was announced and we still do not know whether or not we should be deferred, the debate was hard fought and of great benefit to both teams.

This debate closed the intercollegiate activities of the debating team for this quarter. During this quarter, in addition to the debates in Mississippi, the Tech debating team debated with the West Point team here at Tech, and attended the West Georgia and the Agnes Scott debating tournaments.

The Tech debating society not only

represents Georgia Tech in intercollegiate debate, but serves as an informal discussion group as well. The debating team has done well this year under the guidance of Professor E. H. Folk, and hopes to further extend its activities when it meets again next fall.

On Tuesday, May 15, Phi Eta Sigma, the freshman honorary society, met to elect officers for the coming year. In addition to the freshmen members of the society, there were present Professor A. H. Bailey, who is faculty advisor to the society, and Ed Ward and Clarence LeCroy, vice-president and secretary, respectively, of Phi Eta Sigma.

William E. Perrine, this year's winner of the Phi Eta Sigma cup for scholastic achievement, was elected president for next year. Other elected officers are: vice-president, John W. Gay; secretary, Robert L. Swain; treasurer, Bobby P. Elder; historian, Thomas C. Mayes.

Upon conclusion of the election proceedings, retiring vice-president Ed Ward closed the meeting with his best wishes for the coming year.

Fit your injector razor perfectly

J. Paul Sheedy* Switched to Wildroot Cream-Oil
Because He Flunked The Finger-Nail Test

SHEEDY had a bone to pick because gals treated him like a dog. "Wire they giving me the cold nose?" he howled. "Terrier self away from your books," advised his paw, "and get yourself some Wildroot Cream-Oil. It's non-alcoholic, and contains soothing Lanolin. Grooms hair neatly and naturally. Removes loose, ugly dandruff. Helps you pass the finger-nail test." Now Sheedy's a real dog catcher: he collars a new gal every day! Doggone it, you better get Wildroot Cream-Oil at your nearest drug or toilet goods counter, quick! And ask your barber for professional applications. Remember: "An ounce of prevention is worth a pound of cures!"
