Ten Student Council Members Protest Blue Print Business Manager Election

ODK LISTS REQUIREMENTS; ELECTION TO BE NEXT WEEK

Yellow Jacket Club and Cheerleaders To Receive Larger Number Of Activity Points

Omicron Delta Kappa, the highest national honorary academic fraternity on the Tech campus, announces the revision in the number of points offered in several activities, among which are: Membership in the Yellow Jacket Club, Editor of the Naval Bulletin, and cheerleading. Although the number of points in each case has not yet been decided upon, the number of points in no case has been reduced.

Billy Glenn, president of the Tech Circle, requests that all Juniors and Seniors who have the required 30 points, fill in their application blanks in Dean Field's office this week, as the election of new members will be conducted next week. Men filling in these blanks are urged to list all campus activities, as additional points may be decided upon this week.

The list of requirements, to date, is published below:

To qualify a student must have a minimum of 30 points of which not more than 20 can be in any one of the five main groups.

I. Publications

| | Points |
|---|--------|
| Editor of Technique | 10 |
| Business Manager of Technique | 10 |
| Editor of Blue Print | 10 |
| Business Manager of Blue Print | 10 |
| Editor of Yellow Jacket | 10 |
| Bus. Mgr. of Yellow Jacket | 10 |
| Each of the above publications shall have four associates, divided between the editorial and business staffs as the respective editors and business managers agree. | |
| Such associates | 4 |
| Other workers on staffs, per yr. | 1 |
| Editor of "T" Book | 2 |

II. Athletics—Major Sports

Football: Captain 10; Alt. Capt. 5; Sen. Mgr. 6; Jr. Mgr. 1.
Basketball: Captain 8; Alt. Capt. 4; Sen. Mgr. 6; Jr. Mgr. 1.
Baseball: Captain 8; Alt. Capt. 4; Sen. Mgr. 6; Jr. Mgr. 1.
Track: Captain 8; Alt. Capt. 4; Sen. Mgr. 6; Jr. Mgr. 1.

A total of ten points is the maximum to be allotted for letters in any one sport. These points shall be distributed as follows:

FOUR PUBLICATION MEN RECEIVE UNANIMOUS VOTE

Petition is Signed Requesting Reconsideration of Election By Student Council

In one of the most highly contested elections for several years, six men were elected last Tuesday night to head The Technique, Blue Print, and Yellow Jacket through the next school year.

The men elected were Allen Morris, Technique editor; Culver Kidd, manager; Harvey Fell, Blue Print editor; Phil Harr, manager; Joe Atkinson, Yellow Jacket editor; Henry Swift, manager.

All but Swift and Harr were elected unanimously, and it was generally conceded that Swift, by virtue of his outstanding work during the past year, was the most deserving man.

The highlights of the evening came with the election of Phil Harr over DeWitt Worrell for the managership of the Blue Print. Charles Sumner, the retiring manager, nominated Worrell for the position. This was followed by nominations from the floor of Phil Harr and George Smith.

Since it was customary to elect managers according to the amount of advertising sold, the following report was submitted to the Council: Harr, old ads, \$120, new ads, \$85, and last year's ads, \$85; Worrell, old ads, \$160, new ads, \$190, and last year's ads, \$65; Smith, old ads, \$75, new ads, \$105, and last year's ads, \$75.

The main objection to the proceedings came with a motion to the effect that one man of the three be eliminated by a primary election, thus leaving but two men on the final ballot. In this proceeding, Worrell, the leading man, was eliminated. In the final vote Harr was elected. Immediately following the election numerous members of the council expressed their disapproval. This was followed on Wednesday with a petition being drawn up for a reconsideration of the Blue Print manager election. It was signed by the following members of the council: Shorty Roberts, D. Kalkhurst, Jerry Perkerson, Jay Cannon, John Wilcox, Russell Nauman, Jack Nixon, Dan Holsenbeck, Harry Appleby, and Charlie Yates.

The petition was addressed to Billy (Continued on Page 3)

Newman Clubs Meet In Atlanta

Newman Clubs of the Southeast Province of the Federation of College Catholic Clubs held its annual convention at the Ansley Hotel on April 26, 27, 28, 1935. The Tech Club acted as sponsors.

The member clubs represented were: University of Florida, University of Georgia, Florida State College for Women, City College of Charleston, University of South Carolina, and the Georgia School of Technology.

Registration and reception of delegates took place Friday. Saturday was spent in business meetings.

Saturday night a dinner, followed by a dance, was held in the Ansley Roof Garden. The speakers at the dinner were Hon. Mayor James L. Key of Atlanta; Rev. Father P. H. Dagneau, of Marist College, and Mr. J. R. Reid, of Augusta, President of the Georgia Layman's Association. Mr. Lew Gordon acted as toastmaster.

Sunday morning the delegates received communion in a body at the 8:00 o'clock mass at Sacred Heart Church.

ARMY, NAVY HONOR EXERCISES, DANCE TONIGHT

The annual Military Honor Exercises will be held tonight on Grant Field at 7:00 o'clock.

All students having sponsors will escort them to the President's box, where they will be met by some of the officers' wives, who will look after them during the drill.

The organizations will form at their usual places at 7:00 P. M., with the exception of the Headquarters Company, which will fall in without arms. After roll call the regiment will be formed on Grant Field. The Navy R.O.T.C. will constitute the 4th Battalion.

After the Adjutant has been directed to publish his orders he will command, "Captains and Majors, Front and Center." Only those officers having sponsors will come forward at this time. The sponsors will be formed in the reviewing line and each officer will take his sponsor and return to his organization by the most direct route. Each organization will be presented to its sponsor independently.

(Continued on Page 3)

Architectural Student Wins Medal

H. S. Long, a senior in architecture, was announced as the winner of first medal, offered by the Beaux Arts Institute of Design. This is a signal honor in that this is the second time in five years that such an honor has fallen to a Tech man. The problem, "A Research Hospital," was submitted to the architectural students of more than 40 schools over a month ago, and each entrant was allowed one month in which to complete it. One hundred and twenty designs were considered for the final award, Long's being adjudged outstanding by a group of judges. The judges were made up of architects from Boston, New York, and Philadelphia.

While working up the problem, Long worked under the supervision of Professor J. J. Rowland, of the Tech Architectural Department.

A photograph of the winning design will appear in the next issue of the "Bulletin of the Beaux Arts Institute of Design."

Added Feature Attraction to be Offered in 1935-36 Technique

Do you know any odd fact about an American college? If you do, and can prove it, the Technique will pay you for the information.

Beginning with the first issue next fall, a brand new feature, "College Oddities" will be a new attraction in this publication. It will appear on the editorial page in the form of a 2-column informative cartoon. And \$5.00 will be paid for each odd fact about an American college or university accepted for publication provided

satisfactory proof is forwarded to the Technique with the fact.

Here are some of the oddities which will be illustrated and proven in this newspaper as a new feature during the 1935-36 session issues:

Harvard graduates once ruled an European country.

At a number of American colleges, girls must swim for their degrees.

The first educational endowment in America included the gift of three

(Continued on Page 6)

NOTICE

The "T" Club and the Yellow Jacket Club will sponsor the Anak dance tomorrow night in the Armory. This is the last dance of the year.

BULL DOG INITIATION

All members and initiates of Bull Dog Club meet at the Phi Delta Theta house at 10:15 A.M. Sunday, May 5.

'35 Blue Print Presents Many New and Interesting Features

As this issue of The Technique goes to press the 1935 Volume of the Blue Print is fastly approaching completion. Editor Jay Cannon and Business Manager Charles Sumner are to be commended upon the splendid volume they are producing this year. Thornton Deas, with his excellent art work, aided by Hal Greer with a series of splendid cartoons, are likewise to be commended.

The Blue Print this year gets back in the All-American class again without a doubt. The theme of the book

is "Student Life," and is handled in a very unusual and interesting manner. Snapshots on the Senior panels of outstanding seniors, snapshots of the various activities this year, together with pages devoted to the dances, are only a few of the new and very worth while features of this year's book.

From cover to cover this year's book will stack up with the best in the country. The feature section this year is a take-off on the popular men's magazine Esquire, using the original cuts from the magazine itself, many of them in color.

More Dirty Pool!

It is indeed regrettable that the Student Council of Georgia Tech has included in its membership some members who place personal gain above their conscience in the election of a publication head.

The election of the business manager of the Blue Print last Tuesday night is most certainly an outstanding proof of this statement.

The general view on the matter is expressed by the following comments by members of the Student Council:

Shorty Roberts, treasurer of the council, states:

"When a man on one publication is elected because he has led his competitors in the amount of advertising sold, and then the leading man nominated for a similar position on another publication to be railroaded out of the election, shows such gross inconsistency in the election of the business manager of the Blue Print that I am led to believe that a corrupt political lineup was in operation."

E. D. Kalkhurst, editor of The Technique, states:

"This is the first time during my two-year connection with the Student Council that such an obvious attempt has been made to eliminate a candidate for a publication position without giving him a fair trial. I believe that the Student Council should reconsider the election and correct a wrong."

"To me one fact is obvious. A man has worked two years for a job, and has not been given a fair trial as his reward. Everyone makes mistakes, and it is the manly thing for the Student Council to meet in special session and determine by a re-election whether they have or have not erred from the straight and narrow path. If a wrong has been done—let it be corrected. If no wrong has been done, a re-election will but prove to the present manager-elect that he has received his just deserts."

Charles Yates says, "I want to see the right thing done."

Other council members expressed similar opinions and the majority let action follow their words and signed the petition for a reconsideration of the election.

Charles Sumner, the retiring business manager of the Blue Print, has submitted the following statement upon being interviewed by the press:

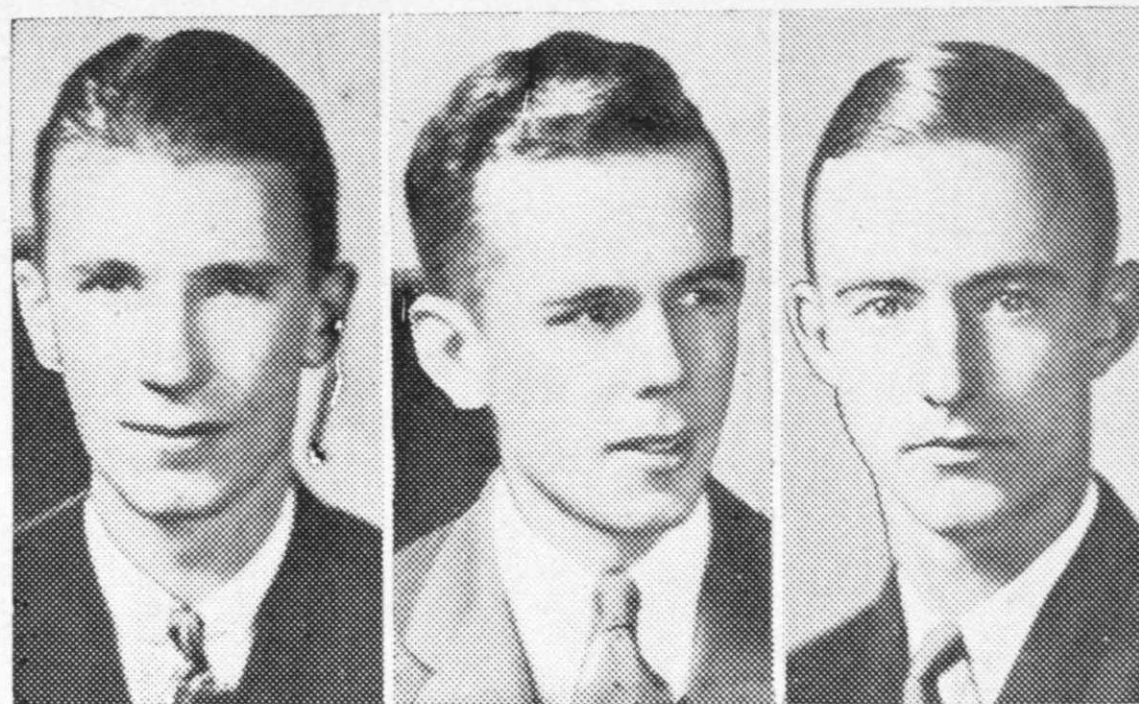

"Complete disregard for the principles of honesty and justice by the Student Council of Georgia Tech in the election of the business manager of the Blue Print rightly deserves the condemnation of the entire student body."

"I have never before been associated with a group of men, supposedly of the finest character, and representatives of the student body of Georgia Tech, who evidently show such little regard for honesty and fair play."

"The few members of the council who were conscientious in their actions deserve commendation, but the others are hardly deserving of being recognized as members of the student body of Georgia Tech, much less as members of the Student Council thereof!"

Naturally, condemnation of the Student Council's actions might be taken by some as a reflection against Billy Glenn, its president. This absolutely is not the case, and protesting members of the council wish this point to be well established. Glenn conducted the election quite properly, according to election rules, and was commended for his handling of matters when the meeting tended to turn into a session of the Georgia Legislature.

HENRY SWIFT
The Yellow Jacket

THIS WEEK—We present one of the better known SYT's and her views of the activities socially, from the content of her findings needless to say, her HLB is a member of a certain fraternity. Which speaks well for the dame and the gent in question, after all an Inter-Fraternity girl might give us better views. However this being an age of specialization we are all for dames of this type.

WE CAN'T HELP BUT COMMENT—On the fact that although the invitation to the Chi Omega dance at East Lake last Monday read Formal, there were every kind of dress represented from linen suits to tuxedos. Possibly it is too much trouble to dress as the persons giving the dance request in that case why not go to a show or study and not bother at all? Maybe we are all wet, if so that is one of the reasons that the coming Derby gets so much publicity. Which reminds us of the annual kid dance of the Betas next Friday, we agree with you it seems that we will seem very conspicuous in short pants, however its as much a part of this dance as is the orchestra or anything else that goes to make up these swell affairs. The dance committee states that they have plenty of pinafores, or whatever you call em, with the necessary first pins the Betas wore for attaching for those that don't come in costume.

YOURS TRULY—Takes the opportunity to congratulate the men that have been elected to edit and the publications next year at Tech. May they realize the importance that goes with their position as well as the honor. The publications, all of them, play an important part in the student life at Tech, all of the men are capable and we are hoping that Publications will keep up the good work that

they have in years past, even improve on them.

WE NOW PRESENT THE—Views of said SYT, hope you like 'em.

What with Honor Day over and all of the laurels having been distributed, may we pay homage to F.A.L. Holloway, a true scholar and gentleman, before turning to the social affairs of the current time.

In the form of a review, we wish to remind you of the fine times had by all at the Civil Crew, Phi Kappa Sigma, Chi Psi, Newman Club and Anak dances of the past week-end. Orchids for the week, however, go to the Tau Ep's—those gents have a certain way of throwing a dance that lingers in the minds of all for a long time.

And speaking of dances—we noticed one young man—it just didn't seem right, but when you touched him he was real—we wonder if you know who we mean—Anyway, it was none other than "Got Rocks" Sweet from the Pi Kappa Phi lodge, whom we've heard say over and over again, "Dance? No, not me." Incidentally, if the new nickname puzzles you, any Pi Kappa will clear you on the subject.

Charlie Holder, the dark and handsome soldier, didn't look so good as a wrestler last Saturday night on the Ansley Roof—you had better ask Charlie for the details of the bout.

The Boots Williams-Charlie Duncan affair seems to be getting more serious every day—the big question now seems to be a matter of time—congrats Charlie.

This week-end we have the K.A. nautical party on Saturday afternoon, and the Anak's usual dance at the Armory Saturday night with the Ramblers returning. However, the biggest event promises to be the Army-Navy Ball tonight. All of the local lassies will be present with a

COLLEGE COMMENTS

By JACK McKINNON

About this time last year an English prof gave a little pop quiz on Chaucer's works. One question was, "Who laughed and sang all day?"

One student, after a good bit of squirming and struggling, gave up and wrote, "The second little pig."

When his paper came back it was marked, "Triple credit is taken off because your answer is wrong, your attitude is too supercilious and besides, it was the first little pig."

If you think politics is easy, just try standing on a fence while keeping one ear to the ground.—Auburn.

When a U. of Minnesota sorority house complained that the men in the next-door frat house weren't pulling down the shades of their shower room, the Dean of Women investigated. Calling at the sorority abode, she was shown the window from which the shower room could be seen.

"Why," she said, "this window is too high to see out of."

"Oh," chorused the young ladies, "you have to stand on a chair."

Don't you believe the SYT is all sugar and spice. This is part of her, chemically:

1. Enough glycerine to make a bursting charge for one naval shell.

2. Enough lime to whitewash a chicken coop.
3. Gluten sufficient to make five pounds of glue.
4. Enough sulphur to rid a dog of fleas.
5. Thirty teaspoons of salt.
6. Thirty-five pounds of carbon.
7. Ten gallons of water.

I see the riders in the park
And wonder what remorse
Has driven them to spank themselves
In public with a horse.

—Purdue.

A new survey—at Rennselaer—reveals that:

Only 50% smoke
While 99% own gloves, only 85% possess a hat.

Collier's is the favorite magazine.
30% prefer corn flakes to any other breakfast cereal.

A co-ed at Duke advertised in the school paper for a man of "pleasing countenance and unquestionable experience."

It may be hard for a rich man to get to heaven when he dies, but it's easy for him to keep from going thru hell while he's alive.

Four Publication Men Receive Unanimous Vote

(Continued from Page 1)
Glenn, president of the council. These men expressly stated that they were not complaining against Glenn since in their opinion he conducted the election according to parliamentary law. They further stated they thought a reconsideration should be made with the faculty advisor of the Blue Print present. (See editorial, page 2, for more dynamic details.)

The Technique
Allen Morris, editor-in-chief elect of the 1935-36 Technique, has been outstanding in publication work since entering Tech. In addition to his work on The Technique, he has shown active interest in the Blue Print, Yellow Jacket, Naval R.O.T.C. annual Bulletin, and the Georgia Tech Alumnus; he was recently appointed editor of next year's Bulletin and Student Editor of the Alumnus.

Morris is vice-president of Pi Delta Epsilon, secretary of Scabbard and Blade, and the Georgia Collegiate Press Association, a member of Scientia Club, Bull Dog Club and the Inter-fraternity Council. He has been co-captain of the Naval rifle team for the past two years.

By virtue of his position as editor of The Technique, he will be a member of the 1935-36 Student Council and the Georgia Tech Athletic Board.

Culver Kidd, business manager-elect of The Technique, has been active in athletics, having played freshman football and baseball, and varsity basketball, in addition to three years' work on the business staff of The Technique. Kidd is an honor roll student and a member of Pi Delta Epsilon, Scientia Club, Bull Dog Club, the Inter-fraternity Council and the Student Council. He is vice-president of the Junior Class.

The Blue Print
Harvey Fell, editor-elect for the 1935-36 Blue Print, has been active in publication work on both The Technique and The Blue Print for the past three years. Fell is treasurer of Pi Delta Epsilon, and a member of Alpha Chi Sigma, American Institute of Chemical Engineers, and the Inter-fraternity Council.

Phil Harr, business manager-elect of the Blue Print, has worked on that publication for the past three years. He is an honor roll student, a member of Pi Delta Epsilon, Phi Eta Sigma and the Aero Club.

The Yellow Jacket
Joe Atkinson, editor-elect of the Yellow Jacket, has distinguished himself in campus activities in membership of several honor and social societies. Atkinson is a member of Pi Delta Epsilon and other campus honoraries.

Henry Swift, business manager-elect of the Yellow Jacket, has shown outstanding ability in his publication business work. He is a member of

Military Honor Exercises Tonight

(Continued from Page 1)
dently. As soon as all Company sponsors of any battalion have been presented, all Companies of the battalion will be presented to the battalion sponsors. When all battalion sponsors have been presented the entire regiment will be presented to the Regimental sponsor. Immediately after this has taken place all sponsors will be returned to the reviewing line without further command.

When the officers have returned to their places, the regiment will "stack arms," excepting those who are to take place in the Exhibition Drills. All not to be in the Exhibition Drill will fall out and enter the east or south stands.

Exhibition drills by Company, Platoon and Squad and the Individual Competition.

The Regiment will be reformed and the Adjutant commands, "Persons to be decorated—Front and Center"—whereupon all such persons (previously notified) will come forward and receive their decorations.

As soon as these have returned to the regiment the Adjutant will command, "Officers—Front and Center," when all officers will come forward as usual. They will be directed to fall out with the staff when the Captains and Majors will join their sponsors in the front rank of the reviewing line, while the Lieutenants will form a second rank.

The previously designated Juniors will take over the places vacated by the Seniors and the Regiment will pass in review.

The Headquarters Company will fall in and call the roll at 7:00 P. M. They will then fall out and report under Cadet Captain Eley as Ushers and M.P.'s.

The members of the Junior Class will wear their blue uniforms for the ceremony, but may change to the officers' uniform for the dance.

This drill will be the final drill for the seniors. Following the exercises the annual Army and Navy Ball will be held in the Armory. The dance will be from 10:00 to 2:00. Kirk Devore and his orchestra will play. The dance will feature the Navy dance and the Army Regimental lead-out. The dance has attracted a great deal of attention and as a result there will be many out-of-town visitors.

Phi Psi, Skull and Key, and the Inter-fraternity Council, and has been prominent in tennis, having played on both the freshman and varsity teams.

NOTICE

The 1935 Blue Print will soon be off the press. The book will be withheld from members of those campus organizations which have not paid for their page in the book. See Charlie Sumner at once.

Ramblers Return For Anak Dances

Last Saturday the Anak Armory dance was "sans ante" and as a result the crowd was the largest yet. The Ramblers were elsewhere, so the music was "rendered" by Jay Goldman's colored band in a somewhat different manner from our Ramblers. Tomorrow night the Ramblers will return—come down and give them a royal welcome.

The dances have been well attended thus far and the good times had by the regular attendants speak well enough for the dances.

The second section Co-ops should be glad to learn that a most enjoyable Saturday evening may be had right at their own front door for only forty cents.

For those who have never heard the "Ramblers," a treat is in store in the person of beautiful Louise Wilmot, blues singer. Her lovely voice blends with the smooth strains of the orchestra in unusual interpretations of current song hits in a manner not easy to forget.

The crowd has been undergoing a

gradual change the past few weeks, and each Saturday it seems that a better group of young people are in attendance. The Tech men are beginning to realize the importance of these affairs and the number of Tech men

attending these dances is increasing regularly.

Bring your date down and enjoy a dance sponsored by a Tech organization, in a Tech building, for the benefit of the Tech Spring Sports Fund.

TWO GEORGIA SERIES OPEN

Tech Places Second in Intercollegiates

After shooting unbelievable sub-par golf in the qualifying round of the Southern Intercollegiate Tournament, Charley Yates was catapulted before the onslaught of Paul Leslie, 19 year old freshman of the Louisiana State University. Yates, who had met Leslie before in the western amateur and defeated him soundly, was unable to emulate his drives, approaches, and putts, seemed to be far from that of the previous days during which he shot a 138 in the qualifying round, eight under par, and eight strokes ahead of his nearest competitor, Freddie Hass, southern amateur champion and a student of L. S. U. This qualifying round of Charley's by the way, broke the course record for medal play. In this round Yates shot two eagles and nine birdies; his shots were perfect and his putting superb.

Final scores in the qualifying round found Yates first with a 138; Freddie Hass, second with a 146; and Erwin Laxton, former North Carolina champion, of the University of North Carolina and Bootsie Stafford, Augusta Junior College, tied for third with 150.

The first sixteen low scores in the qualifying round were taken to participate in the tournament. Of these sixteen only one Tech man was able to qualify as the dividing line was 156; Barrien Moore shooting a score

(Continued on Page 6)

Frosh Tennis Team Loses to Tech Hi

The Freshman tennis team entertained Tech High's outfit on April 25. It was their first contact with outside competition, and incidentally the first time the boys had played together as a unit.

Fresh from decisive victory over the Emory frosh, the Tech High netmen invaded the Yellow Jacket courts to carry off another victory. Billy Moore, number one man for the Jackets, defeated his adversary in fine style. The much tooted Tech High ace was set down by Bill in fine order. However, the succeeding players on the freshman team did not fare so well. Guy Wells fell after a splendid battle before the stroking of the Tech High man. Aldridge, of track fame, lost his match by a narrow margin, while Calley assuming the number four position lost after a saw-saw battle.

The doubles contest was going in favor of the Baby Jackets when darkness shrouded the fields, cutting the match short.

The varsity has been turning out daily for practice under the watchful eye and tutelage of Coach Bortel. Fur flies when the varsity play each other. Keen tennis, quick thinking, fast footwork, the constituents of fine tennis are here displayed. The lure of the courts should draw you out, but certainly when masters are displaying their skill you will not remain away!

Jacket Nine Meets Ga. At Rose Bowl This Afternoon

The Tech baseball nine showed the fans top-notch playing to win two out of a three-game series with the Clemson Tigers last week-end. They dropped the first game on Friday, but came back to take both chapters of a double-header on Saturday. They left the Tigers holding the small end of a 6-0 score in the first game, and fought their way out of a 1-1 tie to take the second, 2-1.

Carl Waits, Tech's super-moundsman, was the outstanding star of the series. He held the Tigers to a blank score and only six hits in the first game Saturday, and, in addition, took the honors in the slugging department with two tripples out of four trips to the plate. He started the tallying in the second inning when the bases were loaded and one man was out. He clouted the first ball out into deep center, and tagged three bags, bringing in Gibson, Grossi, and Appleby. Shorty Roberts then brought him home with a hot grounder into right field. One more counter was made in the fifth, and another in the ninth, to wind up an interesting game.

In the seven inning affair that followed, it was Louis Carpenter who pitched a three-hit game against the aroused Tigers. This game furnished the most excitement of the series, both teams fighting their hardest to take the deciding game. The score was tied

(Continued on Page 5)

Sigma Chis Defeat Ga. Bowling Team Here

The Sigma Chi duckpin team, winners of the Georgia Tech Inter-Fraternity Duckpin League championship, displayed great skill and marksmanship in trouncing the Sigma Nu Team, winners of the University of Georgia Inter-Fraternity League, in a three-game match that was so exciting that it brought the large crowd of spectators to their feet many times as bowlers made spares or strikes to have one team take the lead from the other, but in the final analysis having the Sigma Chi, Atlanta team win over their challengers by a score of 1,444 to 1,397.

The contest was staged to determine the inter-fraternity championship for the state of Georgia and the Sigma Chis bowled the same type of brilliant pin-spilling that won them the title in the Georgia Tech league.

George Hightower, of Sigma Chi, had the high three-game score of 311 to lead the individual bowling, Harwell, of Sigma Nu, topped the scoring for the invaders with a 303 series.

Members of the winning team include Bill Street, who contributed 211 for the two games that he bowled; George Hightower, Ray James, Fred Coward, Culver Kidd, John Guerry. The Sigma Nus used Jenkins, Yeomans, Morrell, Harwell, Lovejoy, Coffin. It is possible that a return match may be played in Athens at a later date.

Dean Stars as Jackets Win

Tomorrow the Yellow Jackets meet the Georgia Bulldogs at Grant Field in a dual track meet. This meet should develop into even more than the usual rivalry between the two schools because of the near equalness of the teams. Although Clemson defeated Georgia and Tech later defeated the Tigers, as things now stand the Bulldogs seem to have a slight edge on the Jackets.

Last Saturday Tech overwhelmed Vanderbilt 96½ to 37½ in Nashville. The Jackets took twelve of the fifteen first places and proved themselves vastly superior to the Commodore in the running events, finishing one-two in six of the eight.

The high spot of Tech's victory was the establishment of a new Tech shot put record by Norris Dean. His throw of 45 ft. 8 inches bettered Walker's former record of 44 ft. 10½ inches by almost one foot. Besides setting the shot put record Dean also was high point man, scoring 21 points.

The Jackets again showed their weakness in the high jump, taking only a tie for third place; but their ability to take almost everything else gave them a big margin over the Commodores.

The summary:

100—McKinley (T), Black (V), Moore (T), 10.8.
220—Dean (T), McKinley (T), Phelps (V), 23.3.
440—Davenport (T), Stuart (V), Jones (T), 53.5.
880—West (T), Bailey (T), Noell (V), 2:03.3.
1 Mile—McLain (T), Rankin (T), Lambeth (V), 4:49.
Two-Mile—Batson (T), Kodel (T), Hancock (V), 10:46.5.
120-High—Dean (T), Tufts (T), Happel (V), 16.
220-Low—Tufts (T), Dean (T), Harvey (V), 26.5.
Pole—Campbell (V), Smith (T), Wallis (T), 11 feet 6 inches.
Shot—Dean (T), Fitzsimmons (T), Suhrheinrich (V), 45 feet 8 inches.
Broad—Moore (T), Ryan (V), Hays (T), 20 feet 10 inches.
High—Lynn (V), Mayson (V), Breyer (V) and Hays (T) tied for third, 5 feet 10½ inches.
Javelin—Korf (T), Pearson (V), Moore (T), 170 feet.
Discus—Beck (V), Dean (T), Fitzsimmons (T), 121 feet 11 inches.
1 Mile Relay—Tech (West, Seay, Jones, Davenport), 3:33.4.

Glass an Important Factor In Civilization's Progress

By W. HARRY VAUGHAN

Department of Ceramic Engineering
Georgia School of Technology

Since the days of the early recorded civilizations, glass has played as important a role in man's progress as any other product of his inventive genius. It is a long history of travail from the primitive discovery, that heating sand and wood ashes would produce a transparent mass, to the recent perfection of a two-hundred-inch astronomical telescope mirror. The progress appears dramatic when we realize that the light by which we view distant planets through this telescope started earthward many millions of light years before glass was invented.

What is glass? As ordinarily interpreted, it means a vitreous, transparent to translucent solid or super-cooled liquid resulting from fusing together two or more oxides, of which we see that glass is transparent, hard, chemically resistant, and physically stable over a normal span of years. What do these properties mean when interpreted in terms of useful characteristics? Light will pass through glass, and so we may see through it. Glass will withstand considerable strain and impact. It is not easily corroded; hence it is sanitary. It will take a high polish. Ware made of glass will not change shape appreciably at ordinary and slightly elevated temperatures. Indeed, it was through the perfection of quartz, Pyrex, and simi-

lar low expanding glasses that we obtained satisfactory telescope mirrors, laboratory beakers, and lenses for camera uses. The portion of glass present in all ceramic products is largely responsible for their desirable properties.

How is glass made? Silica, the most abundant compound of the earth's crust, is the predominant component. As quartz sand, it is melted with salt cake and limestone to form the base "metal" of glass. The melting temperature will vary between 2200 and 2700 degrees Fahrenheit. The fluid glass is drawn from the tank, shaped to the desired form, cooled until it is rigid, and annealed to remove internal strains. Plate and other glass is polished. Bottles receive their finish in the mold.

What articles made of glass are part of our everyday lives? Windows, mirrors, light bulbs, watch and clock faces; telescope, microscope, camera, movie projector, and eyeglass lenses; bottles, cooking utensils, drinking glasses and dishes; thermometers, beakers and chemical vessels; headlights, windshields, skylights and special types of transparent paving are all made of glass. Did you know that a Coca-Cola bottle would withstand pressures of more than 700 pounds per square inch; that more than 80 per cent of all retail fluids are contained in bottles? Due to the transparent property of glass, a glance will tell you if there is any foreign matter present.

College Inn Displays Senior Rings

A Senior Class Ring is the time mark of a Tech graduate and all Seniors should have one. The rings are all of standard, official design with prices contracted for by the Student Council and made beautifully by Huff Jones Co., who guarantees them for life.

The price of Tech Class Rings is now approximately \$23.00 including postage and C.O.D. fee. Three dollars is required as a deposit and the ring may be delivered at any later date you specify. The minimum time being 18 days. If you are not able to order now, be sure to leave your ring specifications on file at the College Inn for later reference.

See the samples on display at the Tech College Inn and place your order now with Bill Herrin, who acts as agent.

JUNIORS SPECIAL NOTICE

All regular Juniors are now eligible to buy senior rings. Place your orders now as the price of gold will likely advance next year.

To see is to eventually grasp. If we understand that seeing is the first in analyzing and believing, we understand the manifold contributions to modern life and science which may be attributable to glass, man's window.

Twelve Selected By Skull and Key

At the last meeting, the Skull and Key club elected twelve prominent members of the Freshman Class. The newly elected members are: John Raine, Billy Caldwell, Jack Nixon, Lester Hubbard, Boots Halman, Bob Smith, Stanley Holditch, Morley Hudson, Charles Shepherd, Charles Bickstaff, Ben Jones, and John Boy. At this same meeting plans for the annual Skull and Key "get together" were discussed.

ODK REQUIREMENTS

(Continued from Page 1)

| tributed as follows: | Points |
|----------------------|--------|
| 1st letter | 5 |
| 2nd letter | 3 |
| 3rd letter | 2 |

Members of squads not receiving letters—1 point per year.

Minor Sports

Minor sports shall include tennis, golf, swimming, lacrosse, and cross-country.

| | Points |
|-------------------|--------|
| Captains of teams | 2 |
| Managers of teams | 1 |

In sports where there is no coach, neither captain nor manager shall receive points.

A total of six points is the maximum to be allotted for letters in any one sport. These shall be distributed as follows:

| | Points |
|------------|--------|
| 1st letter | 3 |
| 2nd letter | 2 |
| 3rd letter | 1 |

Freshman Numerals

For all sports—1 point.

New Feature to Be Offered in '35-36 Technique

(Continued from Page 1)

milch cows.

At one time college professors in Virginia were not allowed to marry.

It would take over 500 years to complete every course at Yale.

The second oldest college in America was endowed by three pirates.

New England school teachers were also grave diggers.

The youngest college student was eleven years old.

There is a college which has one faculty member for every four students.

A southern college still pays its land rent in Latin verses written by its students.

Whether you believe these statements or not, they will be proven and illustrated in the Technique on the editorial page beginning with the first issue next fall. Watch for them and submit to the contest. It may net you \$5.00.

"Y" Cabinet to Hold Annual Retreat

The Tech "Y" Cabinet will hold its annual Retreat Sunday afternoon and evening at Mr. Roy Chandler's country home. The afternoon will be taken up with athletic entertainment, followed by a steak fry, and the evening will be given over to the formal installation of the new "Y" officers, and a talk made by Professor C. D. Gibson.

Jacket Nine Meets Georgia at Rose Bowl

(Continued from Page 4)

1-1 in the sixth round, and every man was straining and sweating. Harry Appleby then brought in the winning run, batting out a tripple, and chasing Matthews in from first.

The Jackets have played a fine brand of baseball, and are in excellent condition to continue their winning habit the rest of the season. They will play the first half of a four-game series with Georgia this week-end. The first encounter is here Friday, and the second in Athens on Saturday. The final two will take place next week.

Tech Places Second in Inter-Collegiats

(Continued from Page 4)

of 160; Billy Ginn, 160; and Charles Dannals, 165.

From the qualifying round was also taken the team winners, each team being composed of four men. In this, the University of North Carolina team finished first with a total score of 615. Tech, with the aid of Yate's brilliant round, came in second with a 621 and the delegation from Duke took third place with 628.

The competition of the quarter finals on the second day found Yates, Fred Hass, Paul Leslie, and Walter Pijanowski still in the running; Yates having eliminated Dick Harris of North Carolina, 7 and 6, and Dave Ewell, 3 and 2, in the quarter finals.

On the following day Leslie defeated Yates 5 and 3 and Hass took Pijanowski for 5 and 3. In the afternoon the two members from L. S. U. met

Fourteen Initiated in Kappa Eta Kappa

Kappa Eta Kappa, senior honorary professional electrical engineering society, initiated fourteen new members last Tuesday night. These new men are John Oster, J. J. Powell, W. E. Edwards, John Morrissey, W. M. Castleberry, F. D. Avery, W. B. Owens, Harry Simmons, Audrey Phillips, C. T. Coffee, A. S. Spalding, Thomas Bond, Jr., G. V. Hufford, L. B. Redmond, and H. Jimfelt.

The present officers of this fraternity are: Charles L. Smith, Jr., president; E. L. Pearson, vice-president; A. F. Perkins, secretary; J. G. Cummings, Treasurer, and T. F. Treadway, corresponding secretary.

In the finals, Leslie defeating his team mate by the narrow margin of one hole.

8,271 men and women visited the Chesterfield factories during the past year...

A man who visited a Chesterfield factory recently, said: "Now that I have seen Chesterfields made, I understand better than ever why people say Chesterfields are milder and have a better taste."

If you too could visit our factories you could see the clean, airy surroundings; the employees in their spotless uniforms, and the modern cigarette making machinery.

You could notice how carefully each Chesterfield cigarette is inspected and see also how Chesterfields are practically untouched by human hands.

Whenever you happen to be in Richmond, Va., Durham, N. C., or San Francisco, California, we invite you to stop at the Liggett & Myers plants and see how Chesterfields are made.
