

## Publication Board Will Offer New Constitution

By Homer Pittman

The Publication Board will present a new constitution which will set forth the board's duties, organization, responsibilities, and authority in specific form to the Student Council for its action next Tuesday. In the proposed constitution steps have been taken to standardize elections and put them on what is considered by the board to be a fair basis, to set up an executive committee that will handle important matters for each publication, and to make the publications pecuniarily responsible to the Publication Board.

The Publication Board is defined in the proposed constitution as "the board of control for student publications at the Georgia Institute of Technology, student publications being those publications supported directly by monies apportioned from the student activity fees."

### Past Disadvantages

According to Dean J. J. Pershing, the Publication Board has functioned in the past under the disadvantage of not having its authority and activities plainly understood. The consensus has also been that the board has been handicapped by misunderstandings within it concerning its method of functioning. Dean Pershing also said that the Publication Board is now in a position to assume greater authority and responsibility under the new Student Council constitution and the proposed constitution of the board.

The membership of the Publication Board is to be composed of:

1. A representative of the Office of the Dean of Students, who shall serve as chairman and treasurer.
2. The faculty advisor of The Technique, Blue Print, Yellow Jacket, and Engineer.
3. The editor and business manager of each student publication.
4. A representative of Pi Delta Epsilon, elected by that group.
5. The faculty advisor, editor, and business manager of all student publications that may be established.
6. A representative of the Student Council, elected by that group.

In order to give each publication its right of self-government in a consistent and practical manner, the new constitution provides that each publication shall govern its policies in accordance with a statement of standards which shall be set forth in the by-laws of the Publication Board constitution. It also provides for periodic reports of the editors of the various publications to the board.

The welfare and week-by-week problems of each publication will be under the supervision of an executive committee for each publication which will be composed of the editor, business manager, managing editor, faculty advisor, and one other staff member elected by the regular members. The proposed constitution also gives automatic supervision of any new student publication established at Georgia Tech to the Publication Board.

Financial control will be exerted by the board in that it shall be required to approve annually a budget and salary scale for each publication. The treasurer of the Publication Board will be required to supervise the fulfillment of each budget and each business manager will be required to submit periodic statements to the board. The constitution also makes provision for bonding business managers and other personnel as deemed advisable.

At least three bids for the printing, engraving and photography of the Blue Print; the printing and typesetting of The Technique; and the printing of the Engineer and the Yellow

Jacket must be submitted to the board by the executive committee for the final letting of contracts. Inability of the executive committee of a publication to submit three bids shall be left to the discretion of the Publication Board as to whether consideration should be given to bids secured, according to the constitution. Mr. J. B. Haman, present secretary of the board, pointed out that this point was subject to the state laws concerning letting of contracts by state institutions.

Primary among the aims of the new constitution, said representatives of the board, is the streamlining of the election procedure for the election of heads of the publications. While

## Ramblin' Reck Club Selects 24 Members From Three Classes

At a recent special meeting, the Ramblin' Reck Club elected twenty-four men to membership. The basis of election was interest in furthering school spirit as evidenced by the applicants' statement and his record in extracurricular activities.

After careful consideration of more than 130 applications, the Recks narrowed the field to 24 men including the head cheerleader, a band representative, a Latin American Club representative, and men from each of the three rising classes.

The new initiates are:

Clemons, A. L.; Daughtry, B. A.; Dunwoody, W. E.; Farmer, K. F.; Floyd, M. H.; Frieden, L. S.; Glover, J. B.; Griffin, J. S.; Griffith, R. E.; Johnson, R.; Lacy, D. C.; Langstaff, Witt; Lee, R. E.; Lowi, D. L.; Martine, O. A.; McGregor, D. A.; Pope, E. G.; Paden, C. N.; Schlosser, H. G.; Sermersheim, M. F.; Sweets, C. A.; Umstead, C. N.; Usher, D. W.; Young, W. T.

## ISO Invites Tech Students To Attend Barn Dance on May 14

The Independent Students' Organization will co-sponsor with the Foot and Fiddle Club of Atlanta a barn dance which will be held at the Crenshaw Field House this Saturday evening, May 14, from 9 'til 12. All Tech students are invited, and admission has been set at fifty cents—with or without.

The dance will begin immediately after the Greater Atlanta Music Festival, which will be held at Grant Field under the sponsorship of the Atlanta Constitution. At this festival the Foot and Fiddle Club, a well-known local square dance group, will put on a huge square dance under the calling of Ray Smith, the champion square dance caller of the United States. Mr. Smith, after coaching high school football for a number of years and calling dances as a hobby, discovered that one year he earned \$26,000 with this "hobby." Quitting coaching altogether, he be-

## 'Spring Frolics' Dance Planned By Student Council for June 4; Jesse Duckworth Band Signed

### ANAK Society Will Tap Outstanding Members of Senior Class at Dance

By Bill Shepherd

The Student Council's semi-formal "Spring Frolics" will be held on Saturday, June 4, from 8 'til 12 p. m. in the Tech gym, featuring the music of Jesse Duckworth and his orchestra. Tickets, which are one dollar stag or drag, will be on sale at the Information desk.

### ANAK Tapping

Highlighting the events of the evening will be the tapping rites for ANAK Society, which selects for membership seniors of outstanding ability, who have demonstrated exceptional leadership and interest in school affairs. A local society, ANAK is one of the highest honors which a Tech student can achieve. At the homecoming dance last fall, four men were tapped: John Cox, Tom Crossley, Jimmy Castleberry, and Bill Mann. All have since graduated, and at present the society has only four members: George Brodnax, Rusty Watson, Jim Nolan, and Jack Holliday. Membership is limited to twelve men.

### Well Remembered

The Duckworth orchestra, a 14-piece outfit hailing from Macon, has played engagements at schools and colleges throughout the state, and will be well remembered by Tech students as the band which played for the ISO dance, as well as for the "Winter Frolics" of last quarter. Featured will be the vocal quintet, "The Moonmisters," whose renditions in close harmony have been widely acclaimed in previous appearances here.

The gym will be decked out for the occasion in appropriate spring colors, with the legend "Spring Frolics" emblazoned across the backdrop. Intermission will be from ten to ten-thirty, and soft drinks will be served during the dance.

### Admission Is A Dollar

Commenting on the function, council social committee chairman "BB" Brown stated that the dance will be the last of the school year, taking the place of the previously scheduled IFC, for which arrangements were unsuccessful. "Plans are underway," said he, "to provide a fence at the front of the building, which will permit dancing on the terrace, and also materially increase the comfort of dancers inside, as it would permit leaving all the doors open." Brown stated that, to his knowledge, the ticket price of one dollar was as low a price for a college dance as could be found anywhere.

## Pi D E Initiation May 19; Themes Due

All new pledges of Pi Delta Epsilon are reminded that today, Friday, May 13, is the deadline for all pledge themes. They must be given to Austin West, Box 2283. Initiation for all eligible pledges will be held 6 p. m. Thursday evening in Room 1 of the YMCA. Following the ceremony the new initiates will attend the Publications Banquet as guests of Pi DE.

## May 14 Deadline For Preregistration In Summer Nite School

Students who desire to take courses in night school during the summer quarter should preregister by Saturday, May 14. Preregistration is being conducted in the Evening School office, first floor, Swann building.

This announcement is being made especially for those regular day students who will be working in Atlanta or otherwise spending the summer in the city but will not be in day school. Several students have expressed the desire to take one or two courses but not enroll as regular students.

Courses in the following subjects are tentatively offered: architecture, chemistry, chemical engineering, civil engineering, drawing, economics, electrical engineering, English, geology, industrial management, math, mechanical engineering, mechanics, physics, psychology, and one modern language.

It is possible that other courses may be added if enough students request them. A minimum of ten students must agree to take a course before it is conducted.

## Losing Candidates Remove All Posters As Soon as Possible

All candidates who were defeated in the primaries for class officer and Student Council are honor bound to remove all of their posters immediately. The results of the primary elections are posted on the council's bulletin board, first floor of the Administration building, and in the post office.

## Georgia Tech's 'Letter Week' Begins May 16

The period May 16-25 has been announced by school officials as "Letter Week" at Georgia Tech. Under the sponsorship of the Information Desk students and the Department of Public Relations, every one of the 4,800 students on the campus is asked to come to the Information Desk and address one or more attractively illustrated brochures to friends in high schools and other colleges. Postage will be paid and the addressed brochures mailed by Georgia Tech.

The four-page brochure, entitled, "Georgia Tech Educates Engineers—Executives—Architects," tells in words and pictures about the educational opportunities available at the largest engineering school in the South. After describing the increased facilities, entrance requirements, tuition fees, and the cooperative plan, the brochure concludes with a paragraph on the Georgia Tech Placement Service and the salaries now being offered to graduates.

The brochure also marks another milestone in the growth of Georgia Tech facilities in that it was planned, set-up and printed on the campus with printing equipment installed in the college's Photographic Laboratory. The idea originated with a faculty committee appointed by President Blake R. Van Leer, consisting of Dean Phil B. Narmore, Registrar W. L. Carmichael, Alumni Secretary A. J. Thiesen and Public Relations Director Leslie F. Zsuffa.

## Dormitory Priorities Assigned for Next Fall

The following priority will be used in assigning dormitory rooms for the 1949 Fall Quarter:

- 1st Priority—Freshmen, Co-ops, Foreign, 27 Graduate Students.
- 2nd Priority—Senior Veterans.
- 3rd Priority—Junior Veterans.
- 4th Priority—Sophomore Veterans.
- 5th Priority—Senior Non-veterans.
- 6th Priority—Junior Non-veterans.
- 7th Priority—Sophomore Non-veterans.
- 8th Priority—Transfer Students.

## Student Council Minutes

May 10, 1949.  
The meeting was called to order at 8:15 p. m. by President Roy Barnes with 24 members present, and George Kirk, Estes Mann, Otto Morris, Ewell Pope, John Rogers, Jim Williford, Gardner Wright, John Ziegler, and Howard Johnston absent. Also present were candidate Bob Linnenkohl and the staff of the literary magazine.

The minutes of the previous meeting were read and approved.

Paul Liberman appeared before the Council to state that the estimated cost of publishing the first issue of the literary magazine has gone up by about \$150 to the sum of \$650. He also announced that it would not be published until next fall. Travis Brannon read a letter from John Rogers urging that the literary magazine not be started because it would not be of a permanent nature. Gene Damon read the original recommendations of the Finance Committee and the letter from Pi Delta Epsilon.

After considerable discussion the tabled motion to appropriate \$300 as a loan to the new literary magazine was passed.

Bruce Sams presented the financial statement of the Freshman-Sophomore Dance and moved that \$159 be appropriated to cover the loss on the dance. The motion was tabled.

Don Gray announced that the Publications Board has revised and passed on a new constitution for the body. It will be presented to the Council for approval next week.

Gene Damon, for the Welfare Committee, reported that no way has been found to

excuse off campus married students without a doctor's excuse. It was pointed out that the individual instructors MAY excuse a student from class, lab, or a quiz at his own discretion. Damon also reported on a recent inspection of the Robbery by Dr. Blumburg and that Robbery inspections are held about every three weeks, and Dining Hall inspections every week. Bill Kennedy reported further for the Welfare Committee, that complaints and examples of poor photographic work done through the College Inn, should be reported to a Student Council member or the Manager of the College Inn.

Kennedy reported that transcripts must be typed individually, thus the charge of \$1.00 for each transcript over two. Under the new I.B.M. system transcripts will be photostatic copies and the price for additional copies may be reduced.

Brian Brown reported for the Social Committee that Jesse Duckworth will play for the Council Dance on June 4th. He also announced that Council Banquet could not be held that day and Sunday, May 29th was selected for the banquet.

Brian Brown reported that the idea of a permanent cyclone fence across the front of the gym has been vetoed by the Administration. The possibility of a temporary fence is being studied.

Gene Damon withdrew his motion to appropriate \$500.00 to go toward construction of the permanent fence.

Ken Farmer reported for the Campus Government Committee that letters are being

## ATO Elects Officers For Coming Quarters

At a formal meeting Wednesday night, Beta Iota chapter of Alpha Tau Omega chose its new officers to serve through the next two quarters.

Paul Felker, former treasurer was elected president, Ed Forward is the new vice-president, and Jim Pitman becomes the secretary.

Jim Shore will replace Felker as treasurer, and Dallas Ryle was made house manager.

written to ANAK and ODK concerning an Activities Day. He also reported on costs of having revised constitutions printed. The motion by Travis Brannon to appropriate \$150 for the printing of 3000 copies of the Constitution was amended by Doby Kraft to appropriate \$99.50 for 2000 copies. Motion tabled.

Buddy Shields reported for the Rules Committee that all candidates for the coming election have been checked and none are exceeding their point load limit.

Bill Carasik announced for the Election Committee that I.D. cards will be used for the election. Lost I.D. cards will be replaced by the Registrar's Office.

Gene Damon reported for the Stuttgart Committee that plans are being made to canvas the dormitories and fraternity houses for clothes to go to Stuttgart Tech. Each donor will receive a chance on a new set of drawing instruments to be given away.

The motion to appropriate \$22.00 for stamps and ink pads was taken from the table and passed.

The motion to appropriate \$5.00 to the Class Roster Committee was taken up and passed.

Travis Brannon announced that the \$50.00

## Other Colleges Say—

### \$50 Charge to Shoot Bear If It's Not Chasing Hunter

By Henry Oakley

An interesting article was found in the Michigan State News about bear hunting. It seems that on Kodiak Island, Alaska, there is a fee of \$50 to hunt the largest carnivorous animal in North America plus the cost of a guide and special equipment. No fee is charged if the bear is killed while pursuing the hunter, however, so the \$50 doesn't count. It was pointed out that the only use of the guide is to avoid the bears. The only equipment needed is a stout heart and a high-powered elephant gun.

The Daily Reveille says that university students are getting healthier all of the time. This deduction was made from the records of the campus hospital. There were 863 patients in 1947 and 575 in 1948—a drop of 37 percent in a year. There has been 8 to 10 percent drop in admissions to the hospital for the last 3 or 4 years. No matter what the reason may be,

loaned to the Senior Class has been repaid. With no further business, the meeting adjourned at 9:35 p. m.

Respectfully submitted,  
Doby Kraft, Secretary.

the students are improving in health, year by year.

There was good news in the Cavalier Daily for all wretched girls. A professor stated that Hollywood frustration can be cured. The professor said that "Hollywood's ridiculous standards of value—surface pulchritude and physical perfection—make unhappy wretches out of thousands of American girls" because they "just don't happen to be beautiful." Hollywood's "ideal woman" gives thousands of women a tragic sense of inferiority. A suggestion made to remedy this was to tell the women to what lengths Hollywood goes to accentuate the physical attributes of its stars—the falsies, false eyelashes, the abdominal armor, the hair dyeings, and flattered profiles.

The Notre Dame Scholastic reports an amusing incident. Among the decorations at an Air ROTC dance was a hot-rock pilot, a war veteran of many missions over Germany and Japan. A mannequin, dressed in a Colonel's uniform, had to be carried home between two comrades. Before they got it home a black sedan rolled up and stopped short of the curb. "What's this student's name?" came a voice from the sedan. "What hall does he live in? Is he over 21? Does he . . . ?" "Let me talk to him," said the other man. "Turn him around, Sergeant." The Sergeant gave his friend's head a 180-degree twist and struck a match on his tinted face. The black sedan swung around and cruised away, getting smaller all the while.

According to the Cavalier Daily, George Washington's feat of tossing a silver dollar across the Potomac has been equalled. It was pointed out, however, that the river isn't what it used to be. The throw made by Charles Harding, 17, bettered the pitch made by baseball pitcher Walter Johnson in 1936. Johnson threw 317 and Harding threw 370 feet.

## ISO Holds Elections For New Officers

The Independent Students' Organization today held its second annual election of officers for the Central Council in the lobby of the Administration building.

The officers elected will serve during the coming school year in the main governing body of the dormitory clubs. The ballots will not be tabulated until this week-end, so the results will be published in the Tuesday issue.

The men running for president were Joe Lane, Techwood Club; Paul Wheeler, Glenn Club, and Emory Breedlove, Smith Club. The candidates for secretary were John Askew and Jim Daniels. The men seeking the office of treasurer were Louis Gordon and Gene Franklin.

The victorious Delta Tau Delta quartet poses after winning the Inter-Fraternity Council cup in the singing contest last Sunday. The Deltas are the first fraternity to win the new floating cup which will be presented when the engraving is completed. Pictured from left to right are Art Gregory, Garner Hallman, Morris Hallman, Mrs. Ken Morrow and Ken Morrow.

## Delta Tau Delta Awarded Cup In Inter Frat Singing Contest

By G. Bruce Kidd

Last Sunday Delta Tau Delta became the first winner of the new Inter-Fraternity Council floating cup for singing by out-harmonizing the Beta's, SAE's, and Kappa Sig's. The two songs that won the honor for the Deltas were Old Gang of Mine and Sentimental Journey.

A small but enthusiastic audience agreed with the judges' choices. Kappa Sigma copped second honors and Beta Theta Pi took third. The judges for the contest were Mr. Milton R. McClure, chairman; Mr. Bill Hoover, and Mr. Vincent Neisius. McClure reports that their decisions were unanimous and that they have received no complaints.

The program started at 3:00 Sunday afternoon with a few introductory remarks by Allen Fine, who handled the contest arrangements.

During the program he acted as master of ceremonies and introduced each quartet. As a finale all the groups combined to sing All Through the Night under the direction of Walter Herbert, director of music at Tech.

The new floating cup that is to be awarded each year has been donated by the IFC. About thirty dollars has been appropriated for purchase of the cup. It will be presented to the Deltas as soon as it is ready.

## AAF to Give Tests at Tech For Cadet and OCS Schools

Pilot training for men and non-pilot officer candidate training for both men and women, is now available to qualified college students and graduates Lt. Col. R. E. Keyes revealed this week during his visit to our campus. Col Keyes was here to make the necessary arrangements for the arrival of the interviewing team on Monday, May 24.

The team, headed by Maj. "Les" McLaurin, will establish headquarters in the A.E. building for a two day visit and will be set up to interview and test interested students that possess the following qualifications:

- Aviation Cadet Training**
- Be a male citizen between 20 and 26½ years of age.
  - Have at least 2 years of college or be able to pass an equivalent examination.
  - Ability to pass the Aviation Cadet qualifying examination; the physical and moral examinations.
- Officers Candidate School**
- Citizens—male or female—between the age of 20½ to 26½.
  - Have at least two years of college or be able to pass the equivalent examination.
  - Ability to pass the physical and moral examinations.
- A college degree is highly desirable.

The complex problems with which a modern Air Force must cope call for executives with high intelligence. Thus an adequate academic background is vital.

The O.C.S. course lasts 6 months and begins July 7. Upon graduation students receive commissions as second lieutenants in the Air Force and are assigned to three years of active duty in administrative and technical fields.

Aviation Cadet classes of 600 per class begin every 6 weeks and for those qualified young men who are selected there is a years intensive training followed by graduation as a second lieutenant and active duty in the Air Force. For college seniors that qualify now places are being reserved in the summer and fall classes.

All interested students are invited to come in and talk with the team during their visit.

**WIN  
YOUR  
WINGS!**

Become an officer and pilot with the U. S. Air Force. A special team is coming to tell you how.

## TKE Gives Banquet At Fraternity House To Honor Initiates

A banquet Saturday night April 30, 1949, in honor of new initiates concluded the second half of Tau Kappa Epsilon's two day initiation ceremony. The banquet was held at the chapter house and Edward Gentch, newly elected president, presided over the ceremonies. Col. John P. Edgerly, chapter advisor, gave a short welcoming address. The new initiates include William Bradbury, John E. Diehl, Carl Eubanks, Richard D. Hessling, George W. Meitzler, Arthur Pahno, John W. Peterson, Edward Tucker and William Wilson.

The banquet served the dual purpose of honoring the newly elected officers as well as the ex-pledges. The officers were installed on May 20. The following men are now at the helm of the relatively new chapter: Edward F. Gentch, pres.; Lee Harold, vice pres.; William Morrow, secy.; Robert L. Blythe, treas.; James Wilcox hegamon; Robert Libby, histor; Alvah L. Phillips, pylortes.

The Beta Pi chapter here at Tech has made commendable progress since its inception in January, 1948. Previous to that date there were no TKE's on the campus. The initial groundwork for establishing the chapter was done by a small group of students with the help of some local TKE alumni of other schools. Last week the chapter was voted full membership in the Tech Inter Fraternity Council. After this their second initiation of the year, the chapter is composed of about thirty actives and has ambitious plans for further progress and expansion.

## Tech Alumni Awarded Fellowship at M. I. T.

A Sloan Fellowship Grant of \$4000 for one year's study at the Massachusetts Institute of Technology has been awarded to Joseph Hutchinson, a native of LaGrange, Georgia, and an honor graduate in mechanical engineering in 1938 from Georgia Tech.

In making the announcement, Dr. Gerald B. Tallman, director of the fellowship program at M.I.T., stated that each fellowship will cover twelve months of study and investigation in business administration and economics as a means for preparing each recipient for higher executive responsibility.

This special one-year program, initiated in 1931 but discontinued during World War II until this year, has already a distinguished list of previous recipients, including two other Georgia Tech men, Walter K. Graham, M.E. 1933, Birmingham, Ala., and Wayne J. Holman, Jr., E.E. 1928, Paris, Tenn.

## Student Group Travel Abroad Now Aided by Youth Argosy

Many students who want to go abroad will be glad to learn of some good news for a change. The log jam preventing economical transportation has been broken at long last and accommodations for this summer can still be had.

Student members of Youth Argosy and affiliated organizations will go abroad this summer on a larger scale than ever before. This will be the top year for the student movement since the war and probably will establish an all-time record. The student organizations affiliated with Youth Argosy that will make these trips have sprung up independently on many campuses. Some are student cooperatives; some are led by professors; a few of these have engaged the services of travel agents to plan itineraries and secure foreign accommodations for them. The part that Youth Argosy plays in this, aside from its own programs, is to secure in sufficient quantity the transoceanic transportation which is needed.

The size of this transportation problem is tremendous for there are more than 12,000 students who would like to travel abroad this summer. Many of the have found nothing but disappointment in their search for transportation accommodation. What ships there are, are already filled, booked to capacity for accommodations at all price levels. Most students have considered air transportation to be out of the question in view of the ticket cost and their limited funds. The war and current world conditions are responsible for a shortage in shipping space and this has been aggravated by a greater demand than ever from the American public to travel abroad.

Monroe Smith founded Youth Argosy many months ago in the hope that this cooperative, non-profit or-

ganization would benefit student travelers of all ages with limited funds to secure at least a share of the limited transportation available. The success of this new organization was very limited at first and Youth Argosy now, with the more than 4,000 accommodations secured, still feels it has accomplished only part of the job it set out to do.

The many difficulties that lay in their path were not overcome quickly or easily. Their success resulted from unrelenting work on the part of many people, and was finally brought about by an entirely new approach to the travel problem. The way it worked out was like this. Youth Argosy has arranged for air transport in Douglas 4-engined Skymasters, big roomy planes equipped with comfortable, reclining seats, to take students to Europe in June and July. The same planes will bring back Displaced Persons from the crowded camps of Europe to be admitted to the United States. In the fall, the student groups

## THE QUESTION OF 'HONOR'

*Dr. Walker suggests a self-inventing quiz on the subject.*

In the past few weeks there hearteningly has been an increase in the eternal conversation of "honor" at Tech. As more and more students and faculty members become interested we come closer and closer to a practical solution of our problem. It is quite obvious that nothing appreciable can be accomplished until the majority moves.

An item of interest is a quiz on honor that Dr. A. J. Walker, head of the English Department, has made out. We take the liberty to print it here.

1. If the teacher does not cover the work in class, should I (A) learn it myself (B) cheat?

2. If I desperately need to pass a course to stay in school or to be eligible for a fraternity or an honor society, should I (A) study harder (B) cheat?

3. If certain other people do something that is dishonest, should I (A) do as dishonorable people do (B) be honest myself?

4. If formulas are hard to learn, should I (A) make an extra effort to learn them (B) cheat by carrying them to the examination with me?

5. If I don't like my teacher, should I (A) learn my lessons anyway (B) cheat my fellow students by cheating on the examination?

6. Is cheating for a higher grade or cheating to get an earlier time card than I deserve (A) an action of an honorable man (B) a mean and contemptible trick played on my fellow students?

7. What sort of man do I want to be and to be known as by my fellow students? (A) an honest, trustworthy man (B) a shrewd and

clever fellow who will take every advantage and justify it by lots of excuses and reasons.

The "correct" answers are quite obvious and only our more audacious "revolutionists" would choose the wrong points. Indubitably, the few persons who are suffering from the mental quirk of pure dishonesty would even give the right answers. So, as a quiz in itself it is of no value, and of course Dr. Walker doesn't suggest that it is. What he hopes is that it will make a few more students think.

There is admittedly more cheating going on at Tech than is committed by the natural born thieves. No cheating is justified. But there is an explanation and fortunately so, because if there is an explanation it is possible to find a solution.

The explanation is simply this: up until now those students who are cheating have not stopped to think that they are stealing from their classmates who don't cheat, and those students who don't cheat haven't realized that they are actually being robbed. Or, at any rate, those who have known they were being robbed hardly ever protested.

The cure is as simple as the explanation. When those who cheat realize they are not beating the villainous faculty at their own game but merely stealing from their own friends, most will quit. When the remainder realize they are being played for the "original sucker from back East" or when they realize they can protest without revealing names, they will defend themselves.

Frankly, we've been had once too often and so have a number of other students. How about you? —HCJ.

## THE GOAT MAN SPEAKS

*If one reads carefully he will note the vanquished hero is upset.*

Editor, the Technique:

"One who lives in a glass house should not throw bricks" is an old and well known proverb. So it would be desecrable if the man attaining the position of Editor of the Technique could have the competency in his job to present in editorials true facts rather than bull headed lies that he might like to imagine. Briefly, there was absolutely no offense connected in any way with my campaign in the last election.

For one short two week period, Georgia Tech had what other campuses know as school spirit. Tech engineers, imagine!, smiled and occasionally chuckled with an active political campaign in contrast to the boredom shown at the present election. So disgusted were the students with the handling of last years elections by the bureaucratic politician, that it was necessary for Student Council to print posters soliciting candidates and to delay the closing of registration for this years election.

What better indication is there of rottenness? I suggested that a competent man be appointed by Student Council to run the elections, and a change of policy by the top management of the Technique.

—John Reeves.

Editor's note—The above letter has been reprinted exactly, as is required by ethics. We hesitate to use the word "exactly" because there were certain words such as "lives" that are printed that way only because we presume that a college senior can spell words of this nature correctly. Therefore, if we have made

any mistakes it was purely because we were trying to be accurate and helpful.

We stand corrected. Mr. Reeves did not receive an offense during his campaign. The information we received was obviously wrong. Our apologies. Mr. Reeves chose poor words to say this, however, for there was an offense connected with his campaign and that was the offense to the dignity and intelligence of many of his fellow students.

Though we have never before heard the proverb as quoted by Mr. Reeves, we are familiar enough with it to know its meaning. It, in effect, states that we accused Mr. Reeves of lying. We did not. In fact, we had continuously felt that Mr. Reeves was perfectly honest and possessed integrity and intelligence.

We must ask Mr. Reeves to clarify his sentences on the elections of this year and last. First, it is stated that Tech engineers smiled and chuckled with the campaign in which he ran but are bored with the present election. Then, he adds that the students were so disgusted with last year's election that the council is having trouble getting men to run in this year's race. Are amusement and disgust synonymous? Who is bored?

Mr. Reeves is correct in his implication that there is rottenness. The point is that it isn't where he says it is. In fact, we wish to congratulate the election committee for their excellent job. These men are credits to Tech. It is too bad that Mr. Reeves isn't stupid. A stupid person is to be pitied. An ignorant person has no excuse.

### TECHNIQUE PLATFORM:

1. Student voice in matters of student interest.
2. An appropriate honor system for Ga. Tech.
3. Better orientation and vocational guidance.
4. Greater intramural sports program.
5. Promotion of active campus organizations.

6. Encouragement of school spirit.
7. Erection of a Student Union Building.

The Technique will at all times attempt to represent the best interests of the students in current discussions and controversies.

## Industry's Stake in Education

**Our educational system is the foundation for our nation's greatness.**

If business and industry could not draw upon a large reservoir of educated manpower, they would be handicapped in every phase of their operations. American Foundation does a job for business and industry. If our hope of an advancing American economy involves reducing costs, increasing individual productivity, and devising better ways of doing things, we must consider that we have a major interest in helping American Education and educators in their work.

Men without formal education have made spectacular records in America—in business and industry. That is always possible in a democracy. But the man who does that is a man who has succeeded in spite of handicaps. Certainly we cannot argue that business and industry generally can get along on the exceptional situation.

### Don't Overlook The Value

Most of you would probably agree that business and industry today have some of their principal problems and greatest opportunities in the field of human relations. We should not overlook the special value of education in this field. Analyses of public opinion surveys, for example, clearly show that the more education an individual has, the more likely he is to have an opinion. A recent study of the answers to more than 150 questions showed that only 7 per cent of those men and women who had demonstrated that they had information failed to express an opinion, whereas 28 per cent of the people who had little or no information on a subject said they had no opinion.

I pass over the fact that only 28 per cent of the people who had little or no information said that they had no opinion.

I believe, however, that the experts in this field are convinced that education produces not only a difference in the volume of opinion, but also a difference in the kind of opinion. People with information are inclined to more moderate opinions, whereas those without information are apt to be extremists.

### There Is Nothing Healthier

Business and industry have an ever increasing interest in an educated population—an enlightened electorate. I cannot think of a healthier climate for any private enterprise.

The intelligence and initiative of people is a tremendous "natural resource" of any nation. All other natural resources are meaningless without it. Our position in the world today is not primarily a result of our other natural resources—although we have been fortunate in this respect—but to the ability which we as a people have developed. In this development, our educational system has been a vital factor.

If we let our educational system decay, we will gravely injure the foundations of our greatness as a nation. By the same token, if we develop our educational system—expanding it and making it stronger—we will be cultivating the greatest of our natural resources, the people of America. And no one has a greater stake in the future of America than American businessmen.

Now, what can we do about it?

The most obvious answer is that business can give money to aid the cause of education. Of course, many corporations already underwrite the expense of research projects in college and university laboratories which they

feel will be valuable to their operations. Others grant scholarships. These activities are excellent so far as they go, but they do not meet the basic situation which this meeting has been called to consider. Also, there are limitations on this route, such as restrictions imposed by law upon the uses to which directors can put stockholders' money. I think we should recognize, however, that endowed educational institutions are no longer able to find so many large private donors. There is a gap here which needs to be filled. Precisely how it is to be filled I do not know at this time. But it is a problem which is clearly of concern to business and industry.

I think the matter goes deeper than grants and scholarships. A basic trouble with American education is public indifference. Something has got to be done to educate ourselves regarding the problem. All of us have got to understand it better, because the job which must be done will not be done by me or you or all of us in this room, but by the American people.

### Their Job Is Done

The situation which we as Americans should act upon has been ably stated in a variety of forms to reach the American people by the millions. The Advertising Council has done its job. It is ready for presentation either in magazine and newspaper space or on the radio. One service that business can perform for American Education is to give this story the nation-wide distribution which it deserves.

There is another thing that we as businessmen can do. We can give not only our money and our advertising facilities, but ourselves. If we hope to see this country grow and develop under the democratic system let us devote ourselves personally to this task as one of our duties as citizens. Let us take part in educational affairs both in our home communities and at the national level. Let us urge our associates to do the same. This is a very important and very difficult problem. It deserves the best in all of us.

—Address by F. W. Abrams.

## Bring on the Gals

**Farley says 'Amen, Brother'**

Atlanta, Ga.  
May 11, 1949

Editor, the Technique:

Ordinarily I shy violently at the thought of writing a letter to the Editor, but the editorial in the last Technique advocating girl cheerleaders expressed my feelings on the subject so completely, that I'm compelled to add an "Amen, brother".

I think that everybody in this female-less institution will concur heartily with the statement that the addition of a few girls on those little green stands would raise school spirit plum out of sight—and maybe we wouldn't have to sit there with a wistful look while the Tennessee or Auburn females parade by.

Why don't you run a Surveyor poll on the subject and see what happens? No matter what the result, I still scream hoarsely "bring on the gals—and soon."

H. P. Farley, Jr.  
Box No. 4287.

## Small Crowd Fails to Dampen Fresh-Soph Dance Merriment

The Fresh-Soph Dance, held last Saturday at the gym, was "Aces High" in entertainment but ranked below par in attendance.

A talented group of Tech students, the Technicians, led by Bob Pickett, rendered some of the finest dance music heard from a local orchestra in recent years. Old favorites in the Glenn Miller style were featured along with the latest hit tunes. Vocalist, Ben Cunningham was lauded for his excellent renditions as was Bob Pickett, who serenaded the dancers from the floor with his tenor sax.

The prizes, provided by local business houses, were distributed before intermission. Ken Farmer, president of the freshman class, selected one of

the student's dates to draw the lucky tickets. The prizes were described to the onlookers as the tickets were being drawn and then distributed by the dance committee.

The circulation system in the gym was in good working order and provided a pleasant atmosphere for the dancers and guests.

Due to the unfortunate scheduling of the dance on the Saturday preceding Mother's Day, attendance was lighter than could have ordinarily been expected. A deficit was incurred from the dance; but from the viewpoint of those attending, the dance was a success highlighted by good planning and by the excellent music provided by the Technicians.

## Faculty Bulletin

(Issued by Department of Public Relations)

**FACULTY MEETING** — The regular monthly meeting of the faculty will be held on Tuesday, May 17, 11 a.m., in the Chemistry Lecture Room. All faculty members are expected to be present.

**FOOTBALL TICKETS** — Applications for football tickets for the coming season were distributed this week by the Athletic Office to faculty and staff members. Mr. Charles Griffin has requested that these forms be filled in and routed through the proper authorities in time to reach the Athletic Office not later than June 1.

**FACULTY DINNER** — Tickets for the annual Faculty Dinner, May 21, 7:30 p.m. in Brittain Dining Hall are still available and may be obtained through your departmental secretary. All faculty members desiring to attend this function are urged to purchase their tickets by Wednesday, May 18, so that the committee may know just how many to prepare for.

**SHORT COURSES AND CONFERENCES** — The Engineering Extension Division, is holding a number of short courses and conferences during May and June, which should prove of interest to faculty members. These courses are under the direction of Mr. Charles H. Taylor and are scheduled as follows:

May 18—

Seminar "What Inventions Mean to You" to be held at the Atlanta Biltmore Hotel, 12:15 p.m. - 4:00 p.m. Sponsors—Associated Industries of Georgia, National Association of Manufacturers, Cotton Manufacturers Association of Georgia and Georgia Tech Engineering Extension Division.

May 23-24—

"Broadcast Engineers Conference" at the Atlanta Biltmore Hotel. Sponsors—Georgia Association of Broadcasters, Atlanta Section of the Institute of Radio Engineers, and Georgia Institute of Technology.

May 27-28—

"Electrical Application for the Textile Industry" at the Georgia Tech YMCA. Sponsored by the A. French Textile School, the School of Electrical Engineering and the A.I.E.E.

June 13, 14, 15—

"Second Annual Personnel Testing Institute", to be held in Room 204 of the Mechanical Engineering Building. Sponsored by the Psychology Department, Cotton Manufacturers Association, Associated Industries of Georgia and Division of General Extension—University System of Georgia.

June 16-17—

"Protective Relaying" to be held on Georgia Tech campus (probably new Textile Engineering Building)—Sponsored by the Engineering Experiment Station and the School of Electrical Engineering.

**FACULTY NOTES** — Colonel Blake R. Van Leer, President, represented Georgia Tech on May 12 at the inauguration of Auburn's new president Dr. Ralph B. Draughon . . . Mrs. J. H. Crosland, Librarian, was recently elected president of the Georgia Library Association . . . Mr. J. R. Anthony, Comptroller, has been elected to serve as first vice president of the Southern Association of College and University Business Officers . . . Dr. W. A. Edson, E.E. School, and Mr. Glen P. Robinson, Engineering Experiment Station, attended a meeting of the Association for Computing Machinery held at Oak Ridge, Tenn. on April 18-20 . . . Congratulations to Dr. W. H. Eberhardt, Chemistry, on the birth of a daughter, March 17.

## Youth Argosy Plans Tours

(Continued from page 3)

will return by ship, Cunard Line vessels, outfitted in "austerity" fashion. There will be nothing luxurious about these ships but there will be plenty of shipmates, members of other student groups, with whom to swap yarns and experiences concerning their momentous summer. This is plain down-to-earth transportation, no frills. Hot meals and snacks will be served by the airlines and catereria-style buffets on the ships. Just prior to flight take-off, Youth Argosy will give all travelers a series of orientation talks so that even these novices will know what to expect and how to conduct themselves while abroad. On the ship's voyage home, discussions evaluating their summer's experiences will be led by educational leaders and a recreational program has been planned. The cost per passenger for all of this is at the low figure of \$340 per individual for the round trip.

### A Select Few

For those select few who will accompany Monroe and Isabel Smith on the pioneer Round-the-World good-will flights, there will be two months of adventure, friendship and study of the places visited. Two Douglas Skymasters will be devoted to these flights. These flights will originate from Bradley Field, Windsor Locks, Conn. They will travel west to Denver, San Francisco, Honolulu, Midway, Manila, Tokyo, Shanghai, Hong Kong, Bangkok, Rangoon, Calcutta, Bombay and Karachi; then into the Middle East for landings and tours at Teheran, Bagdad, Israel, Cairo and Athens. From there, at a more leisurely pace, the trip will be continued to cover the cities of Europe; Rome, Geneva, Paris, Munich, Copenhagen and others will be visited.

Monroe Smith, founder of American Youth Hostels some sixteen years ago, feels that these Round-the-World flights will be a new and exciting experience for everyone. "This is the first round-the-world student flight that I know of."

## Israel Tour Planned By Zionist Students

On July 6, 1949 a group of students will leave New York for a nine-week tour of Israel, under the sponsorship of the Intercollegiate Zionist Federation of America. En route the group will stop over in Italy for sight-seeing in Rome and the Vatican.

The first few weeks in Israel will be spent traveling through the country, visiting cities and settlements, factories and refineries, seaports, laboratories and points of historic and archaeological interest.

The cost for the project has been estimated at \$1050. However, students accepted under the IZFA quota will receive a subsidy to bring the cost down to \$950.

For detailed information write: Israel Tour Committee, IZFA, 131 West 14th Street, New York, N. Y.

Top hopes for the Yellow Jacket tennis squad in the SEC tournament are number one and two stars, Ed Adams (left) and Frank Owens. The tournament began yesterday and will continue through Saturday in New Orleans.

## Campus Track Tourney Opens Next Saturday

The Bulldog Club announced the schedule for the intramural track meet to be held at 1:00 p. m., Saturday, May 21, on Grant Field. All team and individual entries must be turned in to Mrs. Moseley in the AA office by noon Monday the 16th of May to qualify.

### No Preliminaries

There will be no preliminaries in any event. The best times will be taken in each of the track events and distances in the field events. Two entries per team will be allowed in each event and only one in the relays.

Below are the events with the scoring for each.

- |   |         |
|---|---------|
| 1. 100 Yd. Dash                                   | 5-3-2-1 |
| 2. 220 Yd. Dash                                   | 5-3-2-1 |
| 3. 440 Yd. Dash                                   | 5-3-2-1 |
| 4. 880 Yd. Dash                                   | 5-3-2-1 |
| 5. Mile Run                                       | 5-3-2-1 |
| 6. High Jump                                      | 5-3-2-1 |
| 7. Broad Jump                                     | 5-3-2-1 |
| 8. 12 lb. Shot                                    | 5-3-2-1 |
| 9. 880 Yd. Relay (4 men)                          | 7-5-3-1 |
| 10. Shuttle low hurdle relay (4 men—120 yd. each) | 7-5-3-1 |
| 11. 440 Yd. Relay                                 | 7-5-3-1 |

### More Information

More information concerning the meet will be issued from the AA after Monday when entries will be closed.

Individual medals will be awarded to the winners in each event. A team trophy will be presented to the winning team. **NO ENTRIES WILL BE ACCEPTED AFTER MONDAY, MAY 16.**

## Beware, You Bulldogs

Coach Joe Pittard will look to this quintet of star hurlers to bring about victory in the four game series with Georgia which opens today in Athens.

Left to right are Jimmy Fritch, Joe Brown, Herb Bradshaw, Sunset Thompson, and Buddy Thompson.

## Jacket Diamonders Open Georgia Series in Athens

Squads Shift to Atlanta Tomorrow For Second Game of Year's Finale

By Bob Kimzey

This afternoon the Yellow Jacket baseball squad will meet the Bulldogs of the University of Georgia for the first time this season. The game, to be played in Athens, will be the opener of a four game series. The second game will be played here at Rose Bowl Field tomorrow afternoon.

### Long Series

Next Friday the teams play in Atlanta again and then in Athens the following afternoon. Next Saturday's game will wind up the season for the Jacket diamonders.

Georgia's squad is one of the leading clubs in the Eastern Division of the Southeastern Conference and is still very much in the race for the Eastern Division championship.

### Jackets Vengeful

Naturally the Bulldogs will out to cinch the championship in these four games. The Jackets will be trying just as hard to sink the hopes of their arch rivals.

Last week-end in Lexington the Jackets split a pair of tilts with the powerful Kentucky nine. Tech took the first game 18-13, blasting four triples and a home run in the 16 hit slugfest.

### Schoening Stars

Kentucky was never ahead although they did tie the score 6-6 in the third. In the fourth, heavy hitting Red Schoening tripled after three walks to put the Jackets ahead for good.

Buddy Thompson started on the mound for Tech, relieved by Sunset Thompson in the third and Joe Brown in the ninth. Sunset got credit for the win.

### Cats Come Back

Kentucky came back in the second game behind the hurling of Lefty Walt Hirsch to blast Tech 9-1. Hirsch allowed only six hits while striking out 14.

Tech's lone run came in the third

on singles by Sermersheim, Bossons, and McCoy. Herb Bradshaw was the starting hurler for the Jackets, relieved by Jim Fritch in the seventh. Tech made four errors and Kentucky one.

### Vanderbilt Games Cancelled

The two games with Vanderbilt scheduled for last Monday and Tuesday were cancelled. To date the Jackets have won 7 and lost 9 in conference play.

## Ball Games on Into The Night

With the conclusion of spring football practice on Rose Bowl Field, the many teams engaging in Tech's intramural softball program have forged into a schedule of almost daily action throughout the week. Every afternoon, one may find no less than eight games in play, and on Saturday and Sunday, a card of 16 contests guarantees an afternoon of full play.

We of The Technique do everything within our power to support the activities and aims of the Athletic Association, and we go along with them in every way possible. We would, however, like to discuss the question of the scheduling of these softball games during the week, which we are sure has been the topic of more than just a few conversations now that the first big week of play has been concluded.

The games are scheduled for 4:15 and 5:15 p.m. each afternoon which actually only allows one hour for the initial battle and theoretically only one hour for the concluding contest. Who, we would like to know, ever conceived the idea that seven innings of intramural softball could be played in a lone sixty minute period? Many times the pitching and fielding of some of the teams tends to be somewhat erratic with the ultimate result that the games are usually characterized by high scoring and almost always last between an hour and a half and two hours.

With almost all the teams possessing more than a normal share of that good old "never-say-die" spirit, the games, both fraternity and independent, usually extend on into darkness. Many of the 5:15 battles have lasted on until 7:00 and even 7:30 and consequently suppers get cold, meetings are missed, studying is neglected, those students who rely on the dining hall and meal books for their meals are forced to eat in local beaneries, and all in all many students are dissatisfied, and we feel that they have a right to feel as such.

If the AA could have worked out some other type of schedule where only one game an afternoon would be played, we feel that the results would have been much better in the way of player attitude. In addition, it was not the most logical plan to schedule late games on Wednesday evening in particular because that is the night when ALL of the fraternities and many of the independent organizations hold their meetings. Wednesday is one day we feel should have been a one game afternoon.

## The AA Has Troubles, Too

Surveying the situation, let us consider the plight of the AA. We lost four playing fields this year when the two diamonds on the drill field and also the two on Heisman Field fell prey to the superhighway construction which is giving headaches to many of us with all its detours and closed streets. Then football lasted throughout the month of April, and the four North Rose Bowl diamonds were not available. As a result, games had to be scheduled for only Sundays until the gridders hung up their equipment until the fall, and now that Rose Bowl is available, the schedule has piled up, and games must be played on this daily basis.

As the matter stands now, any comments anyone could offer would actually be only "sour grapes" as the die has been cast, and the schedules could not possibly be made over. We only hope that the AA will dream up a solution in the years to come so that these ball games will not continue to extend on into the night. Perhaps next season, new diamonds will be constructed, and the outfielders will not have to rely on the flashing of the batters' teeth for their lone source of illumination.

## Trackmen Prepare for Tournaments

Over on Grant Field the past few days, Coach Norris Dean has been taking advantage of the summerlike weather to prepare his Yellow Jacket thinclads for the hardest portion of their gruelling journey on to the ultimate goal of the SEC championship. This weekend, the trackmen are the guests of the Auburn Tigers out on the plains of Auburn. This battle should be a good indication of just exactly how the Jackets will fare in the three big tournaments which lie ahead on successive weekends. Auburn has a powerhouse this season featuring such stars as Olympic ace Whitey Overton in the distance races and wrestler John Brnilovich in the weight events.

Following this Auburn meet, the Techmen will roll on to Birmingham for the annual SEC tournament next Friday and Saturday, May 20-21. The following Saturday night, don't forget that all roads lead to Atlanta for the first Southern-Southeastern Interconference Meet. This tourney will be held right here at the Flats, pitting the finest performers of the neighboring Southern conference with the cream of our own SEC.

## Powerful Auburn Track Squad Tests Unbeaten Yellow Jackets

## Red Smith Faces Top Competition In Two Mile Classic Against Overton

By Hub Daniell

After a well earned week off, Coach Norris Dean's track squad will battle the Plainsmen from Auburn in Auburn tomorrow afternoon. The Tigers are expected to furnish the Yellow Jackets the competition that has been absent in previous meets this season.

Auburn has already been tagged as the team to push Tech and LSU in the SEC meet in Birmingham on May 20-21.

## Olympic Star

Of special interest will be the distance runs in which former GIAA star Red Smith will meet Whitey Overton, Olympic distance runner last year.

Overton has the best seasonal conference marks in dual competition this year. He has run the two miles in 9:36.7 and the mile in 4:21.7.

## Smith Ready

Red, however, has been improving constantly from the beginning of the season. He ran the mile in 4:29.4 against Georgia and the two mile in 9:47.5 against Tennessee. In both

races he was without competition.

Also on hand for the Tigers will be Joe Pennington to test the Georgia Engineers' high hurdle combination, Coons and Forward. Pennington has sped through the obstacle race in 14.6, which is the best time so far this season.

## Javelin Ace

Another outstanding Plainsman is John Brnilovich, who has tossed the javelin 193'4" in a previous meet this season. Jim Nolan, who works best under pressure, will be in there for the Jackets.

Tech's constant point collectors: Fowlkes, Stowers, and Renshaw, should give the Jackets a slight edge over the Tigers.

## Frosh Meet Georgia

On Monday afternoon, May 16, the Baby Yellow Jacket diamonders of Coach Whack Hyder will play host to the Bullpups of the University of Georgia.

This freshman battle will get underway at 4:00 and will be the first meeting of the two squads.

The Jacket freshmen have had a successful season and are certain to give the Athens lads a hard fight.

## Contests as Softballers Pass Halfway Point Newman Club, SPE, Pi KA Win Intramural

By John Huskisson

The first full week of softball play found Rose Bowl Field crowded with thirteen games on Monday and Tuesday.

### SPE Tops Phi EP

Sigma Phi Epsilon couldn't miss as they rolled over Phi Epsilon Pi 23-1 in a five inning game Monday. Dave Spriggs slammed out a four bagger for the winners, and Dave Albury was credited with the win.

### PiKA's Victorious

C. E. McKee led the Pi KA nine to a 9-7 win over Phi Kappa Sigma, counting four safe blows in as many trips. Sam Young limited the Phi Kappa Sigs to seven hits while Pi KA collected ten.

### Newmans Excel

The Newman Club's powerhouse squad swamped the Geechees 22-9 to register their second straight de-

stimated a homer for the losers.

### SPE's Roll On

The SPE's won their second game in two days at the expense of the TKE aggregation 15-4. Gordon Albury and Frank Zeigler combined to limit the TKE batters to six hits, one of which was a circuit blow by Tucker. Barrett and Sellars led the SPE 22 hit barrage with homers.

### PiKA's Win Again

PiKA teed off with four tallies in first frame against Pi Kappa Phi to win going away 12-4. Pi Kappa could muster only three hits.

### Other Battles

Callaway Apartments preserved their Tornado League lead in a 12-7 win over the Towers Dorm team.

Bill Haynes pitched and batted the Kappa Sig nine to a 9-7 decision from Sigma Chi.

The lone Blue League contest saw the hot and cold Deacons eke out a 7-6 victory over the Wesley Foundation squad.

The Wesley Foundation vs. Glenn Basement, Navy vs. Latin-American Club, and Smith Dorm vs. Burge Apts. games were not reported in time for this edition.

cision. NROTC No. 1 and the Emanons clashed in another Red League game with Emanons scoring a 10-2 victory.

### ISO Battle

In a high scoring contest, Glenn ISO edged Techwood ISO 14-13, Dan Humphries hurling the win. Oiken took batting honors with two homers and two singles in five trips. Glenn tallied ten runs in the top of the seventh to gain the nod.

The last game scheduled Monday, KA vs. Sigma Nu, was rained out. Tuesday's results were more complete with seven games reported.

Phi Kappa Sigma, behind the pitching of Sid Johnston, took the Betas 16-6, scoring five markers in a big second frame.

### Phi Eps Rally

Phi Epsilon Pi pushed six runs across in the sixth inning of their contest with Theta Chi to gain a 10-9 win. Phil Rothholz, the winning hurler, had good support as Frank Pollio poled a home run and Bob Hecht connected for a triple. Cooper

## Publication Board

(Continued from page 1)

two-thirds of the membership with a representative from each publication is the quorum for a regular meeting, full membership is the quorum when the group meets to choose editors, business managers, and managing editors. Staff positions for the publications are chosen by the various executive committees and approved by the Publication Board.

Each editor and business manager, according to the proposed constitution, will have one-half vote except when only one is present at a meeting at which time the member present may exercise the full vote. Also in a general election, the business manager and editor of the publication concerned will have one vote. All other members have one vote.

To assure selection of qualified men the constitution specifies that each man must show proof of adequate experience and work with the particular publication. Point average requirements are set at a minimum of 2.000 for all offices except the editor of the Engineer which requires a 2.500 or better and the business manager of the Engineer which requires an overall average of at least 2.300. Provision is made for necessary exceptions.

The constitution will be first considered by the Student Council and if approved will be set to the Student Activities Committee for action.

## EE Seniors Conquer Profs in Final Inning

Scoring three runs in the ninth inning, the E.E. seniors edged out the E.E. Profs 10-9 in a softball game last Saturday at Piedmont Park.

Going into the first of the ninth, the profs, under the leadership of Chuck Durkee, maintained a 9-7 advantage to everyone's amazement. After two men had been retired and all looked lost for the seniors, Mickey Fivel drove a hard single to center.

An error by Fisher and an intentional pass to Azark Proctor loaded the bases. Successive hits by Hocking and Panagos forced in the tying and winning runs.

Durkee's Demons went to work early in the game scoring three runs in the first and four runs in the third.

Proctor relieved Hocking in the fourth and limited the profs to two runs. Sakote went the distance for the profs and took credit for the loss.

Batting honors for the day went to Charley Greer, catcher for the Demons, who banged out three hits in five trips to the plate.
