

Members of the Yellow Jacket staff discuss with Professor John Nugent their plans for continuing the publication.

Yellow Jacket Becomes Permanent Publication

Vote of Approval Given By Overwhelming Margin

The faculty, in its meeting yesterday, approved by an overwhelming vote a motion by Dean of Students George C. Griffin that the Yellow Jacket be placed on a permanent basis. The motion received an affirmative vote of more than three-to-one. The meeting was held at one o'clock yesterday afternoon in the auditorium of the Harrison Hightower Textile building, with President Blake R. Van Leer presiding.

Before the motion was placed on the floor, Mr. Horace W. Sturgis, associate registrar, who is acting secretary of the faculty, read communications from Pi Delta Epsilon, honorary journalistic fraternity; the Student Council; ANAK; and Omicron Delta Kappa in favor of removing the Yellow Jacket from its probational status.

Editor Speaks

After Dean Griffin's motion, Yellow Jacket editor Wayne Coloney was granted the floor to speak to the motion. Coloney and his staff had previously sent letters and old issues of the humor magazine to all professors. Dr. A. J. Walker, head of the Department of English, obtained the floor to speak against the motion. He summed up carefully his concept of the meaning of the affirmative or negative vote and urged that the latter course of action be taken.

Professor Wilbur B. Ratteree of the Department of Engineering Drawing and Mechanics spoke quite strongly against the motion. "It's not a question of what they think is best," he said, concerning the recent poll which indicated that 96.5 per cent of the students favor the continuation of the Yellow Jacket. "I can see no excuse for the type of publication it has become."

Strongly In Favor

Dr. Paul K. Calaway, director of the School of Chemistry, spoke in an equally strong manner in favor of the motion, saying, "I go along with the students. I don't think the Yellow Jacket has hurt anyone. I don't see why the faculty should jump up every six months with fly swatters to bat down the Yellow Jacket. Let's put up the fly swatters."

Dr. Walker then moved that the vote be a written one. The motion was made on the request of Editor Coloney to allow the faculty members more freedom of expression. The motion was defeated and the vote was an aye-nay one. Approval of Dean Griffin's motion places the Yellow Jacket on an equal status with The Technique, the Blue Print, and the Engineer; it is no longer subject to faculty approval each May.

Ten Reasons

In the letters sent each faculty member by Editor Coloney and his staff, ten reasons were listed for continuance of the publication. It was pointed out that nearly every important educational institution of college level in the United States publishes a humor magazine. It was further stated that the Yellow Jacket is rated among the top thirty in this group by the National Association of College Editors.

According to Coloney, the magazine is sixty per cent self-supporting, income being obtained through advertising, subscriptions, and cash sales.

TE Graduate Student Is Injured Seriously

Sing-Wu Chu, a graduate student in the School of Textiles, was seriously injured Tuesday morning when his right hand became caught in a card machine in the Spinning and Weaving lab on the second floor of Hightower Textile building. The accident occurred about nine o'clock in the morning, when Chu was working alone in the lab. According to Dr. J. L. Taylor, who heard Chu's cries for assistance and rushed to his aid, the student began working on the machine without authorization after the lab supervisor, Mr. David E. Philpott, left the room. After removing a cover plate from the machine, he pushed the stop button and thrust his hand into the machine before it coasted to a stop. His fingers were caught by rotating rolls, and his hand was drawn into the machine, making it necessary to partially dismantle it before he could be removed.

He was rushed to Grady Hospital in an ambulance, where he was given first aid, and then transferred to Crawford Long Hospital, where he was placed under the care of Dr. H. W. Bondurant. It was reported that his index finger was severed in the accident, and that the three remaining fingers were severely mutilated.

Attention Veterans

All veteran students, both PL 346 and PL 16, who expect to change their type of course for the summer term starting June 26, 1950, should come to the Coordinator of Veterans Affairs Office, room 102, Knowles building, for the official change of course papers. Since a change of course involves the approval of Georgia Tech and the Veterans Guidance Center, all veteran students planning to change their present course—such as a change from Electrical Engineering to Mechanical Engineering for the summer term—are urged to complete the necessary papers now, so that they will be cleared by both the Veterans Administration and Georgia Tech before registration time.

Fred W. Ajax,
Coordinator of Veterans
Affairs.

Spring Issue of Swivet To Hit Campus Monday

The second issue of the Swivet, Tech's youngest publication, is scheduled to appear on the campus on Monday, April 24. Three thousand copies of the twenty-four page magazine, which contains a variety of stories, poems, illustrations, and a photo study of spring football training will be distributed during the day on a first come, first serve basis.

Publication of the second issue at this time was made possible by a gift of four hundred dollars from the Alumni Association. The money was secured through the help of Vice-President Cherry L. Emerson, according to Paul Liberman, the editor and organizer of the student publication. Beginning in the fall quarter the Swivet will be financed by a share of the student activities fee as one of the permanent school publications.

Seeks Salesman

Featured in the spring issue is a story and ballad by J. E. Dennis, illustrated by John Reid, about a husband who goes hunting for the salesman who tried to sell his wife "a bill of goods." Another story, "Womananity," is a satire giving the views a person in the year 2000 might have upon looking back upon "early America" and the domination of woman over man characteristic of the period. The writer is Bill Hardeman, a married veteran.

One of the poems, written by Thomas Brown, is an ultra-modern dissertation on a country-fried steak.

Senior Ring Specimen Lost in College Inn

On Thursday of last week, while students were ordering senior rings in the College Inn from the representative of Josten's, one of the ring samples disappeared. It is described as having a red ruby facet top and is distinctive by the fact that both sides of the ring are just alike.

Since the salesman, Mr. John Franklin, a 1947 graduate of Tech, will have to pay for the ring if it is not located, any student who has information concerning the ring is asked to contact one of the members of the Student Council or write to the Ring Committee, Box 584.

Mr. Franklin, who covers the Georgia territory for his company, said it was the first time in his experience that a ring sample disappeared while he was showing rings to the students of any school.

Other poems are of a more orthodox nature.

Modern Work

Among the modern stories is one called "Steel Strings of Expectancy," which is said to be a serious and deep consideration of the thoughts passing through somebody's mind. It was written by Vann Collier, who also wrote "It All Depends Upon Your Point of View," which contrasts two scenes of Southern life.

Other stories include "Last Chance," by Bob Swaney, about an incident that can happen to almost anyone; and "No Story," by Frank Maloney, about a cynical city reporter on a big-town newspaper.

Spring Training Featured

The photographic study, similar to the DramaTech rehearsal pictures which appeared in the first issue of the Swivet, this time features the spring training of the Yellow Jacket football squad. The photos were taken by Bill Cheely, and the write-up was done by Joe Salome.

In making up the issue, Liberman stated, a variety of material was chosen in order to appeal to the greatest number of students. For the students who like the deep stories and the abstract modern effects in writing and illustrating, the magazine includes a number of examples of student composition. And for those who prefer more orthodox selections, this issue contains a larger offering through the use of shorter stories than were featured in the fall issue.

Chosen Impartially

Selections for the Swivet are chosen from the material submitted with no regard for who the writer is, giving students who are not connected with the publication an opportunity to express themselves. The choice of the items to be used in each issue is made by the nine-man editorial board. The manuscripts are read by the board with the names of the writers covered in order to consider each selection purely on the basis of its excellence and interest to students.

The staff of the Swivet now numbers about thirty, all of whom work entirely for the pleasure they get

(Continued on Page 2)

Free Health Exams Scheduled For Tech by Screening Group

By Wally Gambill

Beginning on Thursday, May 4, and continuing until Wednesday, May 10, the Greater Atlanta Multi-Screening Survey will conduct free physical examinations for the faculty, students, and other employees of Georgia Tech. Dr. Phil B. Narmore has announced that examinations for faculty members and secretaries will take place on May 4; for other employees on May 5; and for students on May 6 through May 10, excluding Sunday.

All interested students should sign up as soon as possible at the information desk in the Administration building beginning today. All findings are strictly confidential, with notification of all results made by mail. During processing students will be identified only by a serial number assigned at the time of the examination.

Community Program

This is a part of a community-wide program to promote better health through a series of voluntary health tests to be made available to every citizen of Greater Atlanta during April, May, and June, 1950.

The purpose is to find thousands of unknown or neglected cases of anemia, diabetes, syphilis, overweight, dental

defects, tuberculosis, and other defects discovered by chest X-ray.

Jointly Sponsored

The project is jointly sponsored by all local medical societies, all major labor unions, chambers of commerce, and many other civic organizations. It is cooperatively conducted by the City of Atlanta Health Department, the Fulton and DeKalb County Health Departments, and the United States Public Health Service.

Atlanta is a test or "check" city, the advisability of similar tests in other places being determined by the results here.

Goal Is Named

It is hoped that over 300,000 people in all walks of life in Atlanta will be examined and that the half-million dollar investment in this survey will prevent many millions of dollars of economic liability at Georgia State Hospitals in the years ahead.

The unit will make examinations at the rate of about eighty an hour. X-ray pictures will be taken through clothing without any undressing.

It is pointed out by the leaders of this survey that everyone benefits when preventable diseases are discovered in early stages and controlled and that the survey will doubtless find many otherwise apparently healthy individuals who have a disease or defect in its early stages when it can be effectually treated.

Graduating Seniors

All graduating seniors are requested by Lamar Jordan, senior class president, to check their post office boxes very closely for a notice to check their names in the graduation invitations at the Information Desk. Some seniors have not yet filed a petition for graduation, and it is imperative that this matter be attended to.

Fast Way to Marry For Money Taught By California Man

According to The Trojan Owl, school newspaper of the University of Southern California, no one need be worried about struggling along on a paltry pittance after graduation. Ted Peckham, a former Southern Cal student is offering a ten hour course on "How to Marry a Millionaire." All that is required is a five hundred dollar fee for the course. The question that puzzles nearly everyone is where the initial five hundred dollars is coming from and are the results guaranteed?

Obtains Results

Peckham claimed at a recent press conference that he had married off twenty-eight personal friends and two other men "whom I took on for the five hundred dollar fee to get rid of them." Three of his own romances have failed, he admitted, and then went on to say that if he marries it will be only for love.

Peckham's first engagement flopped when "mother-in-law tried to tell me how to spend her daughter's money." The second engagement collapsed because "she wanted to go riding instead of seeing me off on the boat to Europe." His third try was equally disappointed "because she wanted to stay out all night dancing."

IE Frat Sponsors Smoker

The Georgia Tech chapter of Alpha Pi Mu, national industrial engineering honorary fraternity, will hold its spring smoker for prospective members on Monday, April 24, at 7 p. m. in the IE Lounge, Room 106, A. French building.

All industrial engineering seniors who are in the upper third of their class and all juniors in the upper fifth of their class are invited to attend.

Sigma Nu White Rose Formal Scheduled For Saturday Night

By Charles Dulaney

The Tech chapter of the Sigma Nu fraternity will hold its yearly White Rose Formal Dance on Saturday evening, April 22, from eight till twelve in the Dinkler Room of the Ansley Hotel. The Auburn Knights, well known on the Tech campus, will handle the musical end of the program.

Each year a young lady is selected by the members of the fraternity to reign as the sponsor for the occasion; this year Mrs. Ginnie Bowers, wife of past president D. E. Bowers, has been chosen for the honor. She will be recognized during the lead-out by President Harry Harris, who will present her with a sweetheart pin and a bouquet of white roses.

Annual Affair

The dance is an annual spring-time affair, having the spring as its motif. The official flowers for the evening will be white roses. The bandstand will be adorned with trellises covered with roses, and the floor will be circled with a picket fence, also decorated with roses. The White Rose Formal is the main social event of the spring quarter for the Sigma Nus; the fraternity also plans a house party later in the quarter.

After the dance the members of the fraternity and their dates will be served a breakfast at the Sigma Nu house on Fowler Street. Several prominent alumni are expected to attend the affair.

Swivet—

(Continued from page 1)

from the job. Nobody on the Swivet receives pay, including the business staff and the editor. Additional staff members are desired, and openings still exist for good writers, according to Liberman.

Editorial Board

The editorial board of the Swivet, as set up in the constitution approved recently by the Publications Board, consists of nine people. Presently serving on the board are Editor Paul Liberman, Faculty Advisor James B. Haman, Thomas Brown, Vann Collier, Joe Daidone, J. E. Dennis, and Joe Ford, with the remaining two positions vacant. Each member of the board has one vote, with Professor Haman voting in case of a tie. The members of the board are elected on the basis of their ability and willingness to write.

Business Staff

Other members of the staff include Business Manager Bill Weiller, Circulation Manager Inman Leff, and Advertising Manager George Puca. Beginning with the fall issue next year, the Swivet will be published once each quarter. Students who have written anything which they would like to see published are invited to submit their compositions to the Swivet, Box 858, Georgia Tech, for consideration by the editorial board. Items do not have to be typewritten, though it is recommended. Each article submitted should have the writer's name on it.

Student Council Minutes

April 18, 1950.

The meeting was called to order at 6:45 p. m. by President Estes Mann. Those absent were Brian Brown, Dunbar Jewell, Claude Pety, Ray Rast, Bill Horsey, Dan Blitch, and John Hammond.

Estes Mann read a letter of resignation from Herbert Bradshaw.

It was decided not to hold a meeting next Tuesday night due to the Engineers' Week program.

Bruce Sams announced for the Welfare Committee that a test will be run on towel use in the near future.

Ed Gothard asked the Welfare Committee to see about having big clinkers removed from walk to parking lot, west of Cherry Street. John Hicks asked the Welfare Committee to investigate the possibility of having a light placed at steps East of Chemistry building. Jim Pruitt announced that the car washing point is open every day. It is located between Harris and Brown dormitories.

George Nalesnik announced that the balance for the year was seven hundred dollars to date.

Ben Bishop reported for the Athletic Committee on the number of hours necessary to be a senior in the various departments.

Bill Jett was elected chairman of the Dining Hall Advisory Committee.

Austin West moved that John Lay investigate further the possibility of an efficiency audit of Brittain Dining Hall and give the council his findings for consideration. Motion carried.

Estes Mann announced that yearly reports of officers and committee chairman are due the middle of May.

The keys were discussed and Ashley Vincent moved the type key used in 1948 be accepted. Motion carried.

Ed Gothard announced that elections' schedules for Student Council and class officers will be as follows: petitions due, May 2; primary elections, May 9; finals, May 16.

Ben Bishop moved that \$6.50 be appropriated for posters for freshman class meeting on April 22. Motion tabled.

Bill Kennedy's motion that two dollars be appropriated to pay registration fees of Tech delegates to N.S.A. convention at Emory on April 1 was taken from the table and passed.

Elam Anderson reported on the Publications Board meeting.

The meeting adjourned at 8:12 p. m. Respectfully submitted, Bruce Sams, Secretary.

Notice

Students who plan to run for election to Student Council or for positions as class officers for the 1950-51 school year are reminded that signed petitions must be submitted to the Student Elections Committee of the Student Council not later than Tuesday, May 2. The application forms can be obtained in the Student Council lounge.

Faculty Bulletin

Issued by Department of Public Relations

VICE-PRESIDENT EMERSON—The current issue of the Atlanta Athletic Club "Clue Times" carries an article about Georgia Tech's vice-president. Abstracts follow:

"Cherry Logan Emerson is listed in the 'Who's Who of Engineering' and the 'Who's Who in America,' and if there were such compilations, he would rank high in the Who's Who of Georgia, Atlanta, and the Atlanta Athletic Club!

"Emerson is a rare engineering and civic leader in that he retired in the midst of a successful, profitable business career to help youth at his alma mater, the Georgia Institute of Technology. In 1945 he resigned as president of Robert and Company, Inc., to become dean of engineering at Georgia Tech. In July, 1948, he was elected vice-president of that outstanding engineering college.

"Emerson is a fellow of the American Institute of Electrical Engineers and served as chairman of the Georgia Section. He is also active in the American Society of Mechanical Engineers and the American Society of Civil Engineers.

"He has been chairman of Region VI of the Boy Scouts of America, chairman of the Social Welfare Council of Atlanta, and a leader of the Community Chest, Chamber of Commerce, and Rotary Club.

"Cherry Emerson joined the Atlanta Athletic Club in 1925. This month he completes a three-year term as a member of the Board of Directors. This year he is serving as first vice-president of AAC, chairman of the Executive Committee, a member of the City Club Committee. He also is chairman of the Building Committee which is supervising plans for the East Lake Clubhouse addition."

GEORGIA SCIENCE MEETING—At the 27th annual meeting of the Georgia Academy of Science being held at Oglethorpe University, April 21-22, scientific papers are being presented by Georgia Tech professors and research scientists.

The Georgia Tech representation includes: Dr. R. S. Ingols (who just returned from Leeds, England) "Water Resources of Georgia"; Dr. W. M. Spicer, "Vapor-Liquid Equilibria Studies"; Prof. H. W. Straley, III, "Geophysical Work of W. R. Johnson, Jr." and "Features of Atlantic Coastal Plain"; Mr. S. L. Johnston, "Intelligence Transmission by Radio"; Prof. Walter W. Wright, "Recent Trends in Information on Communication Theory"; Dr. Frank O. Nottingham, Jr., "Industrial Electronics Control"; Prof. M. David Prince, "Progress and Trends in Television"; and Prof. Donald W. Fraser, "Unusual Applications of Electron Art."

Also Dr. J. Elmer Rhodes, "Lack of Equilibrium in Sound Waves"; Prof. Edward T. Prosser, "An Aid in Teaching of Transverse Standing Waves"; and Prof. W. H. Burrows, "Properties of Hyperbolic Coordinate Systems."

Professors H. L. Edwards and I. E. Perlin will preside at some of the sessions. Dr. H. B. Friedman, formerly on the Georgia Tech faculty, is president of the Academy, and Dr. Blake R. Van Leer is a member of the Executive Council.

FACULTY NOTES—Among those attending the meeting of the Southeastern Section of the American Society for Engineering Education in Roanoke, Virginia this week are Dean J. W. MASON, Dean R. L. SWEIGERT, Director FRANK F. GROSECLOSE and Professor BORIS W. BOGUSLAVSKY . . . CLEMENT F. KENT, physics, recently gave a paper entitled "Resultant of Two and More Random Vibrations" before the Southeastern Section of the American Physical Society, which met at Louisiana State University . . . J. F. CURRIE, mathematics, presented a paper on "Unitary-Canonical Matrices" at a meeting of the American Mathematical Society at Oak Ridge, Tenn., April 21 . . . H. A. DICKERT, director of the A. French Textile School, and Professor C. A. JONES attended the semi-annual meeting of the National Association of Textile School Deans at Princeton University, April 14-19, and inspected the new Philadelphia Textile Institute . . . Dean RALPH A. HEFNER served as a member of the Evaluation Committee for the Jordan Vocational High School in Columbus, Ga., April 17-20 . . . J. R. ANTHONY, comptroller, was elected president of the Southern Association of College and University Business Officers at their recent annual meeting held at Miami Beach, Florida . . . Dean LLOYD W. CHAPIN is in Monterrey, Mexico, making a preliminary study of the Monterrey Technological Institute, as a member of a committee of the Commission on Institutions of Higher Education of the Southeastern Association of Colleges and Secondary Schools. . . JOHN M. AVENT, industrial engineering, is in New York City this week attending the fifth annual Time Study and Methods Conference of the Society for the Advancement of Management . . . FRED B. WENN, industrial management, is a participant on the program of the Georgia Home Economics Association, April 21-22, at Jekyll Island . . . HARWELL L. BOYD, JR., industrial engineering, attended a conference on "Statistical Quality Control" at the University of Tennessee, April 13-14.

Tutoring Service Announced

Pi Tau Sigma, honorary mechanical engineering fraternity, has announced that its tutoring committee will make arrangements for hourly instruction by qualified student members of the ME School in all courses required for a degree in mechanical engineering, including all freshman and sophomore courses.

This service is offered to assist the students and to promote school inter-

est and cooperation. Application may be made by filling out the tutoring forms available at the post office and addressing them to Box 4723.

Ceramic Engineering Honor Fraternity Installed on Campus

The Keramos Society, national honorary ceramic engineering fraternity, held installation ceremonies for the Tech chapter of the society last Friday evening. In the ceremony sixteen men were initiated by an installation team of several outstanding men in the field of ceramics, including Dr. Arthur F. Greaves-Walker, one of the original founders of the society and a national officer, from the University of Florida; Dr. Worth Krieger and Dr. William Bell of North Carolina State; and Dr. Lane Mitchell, director of the Tech School of Ceramic Engineering.

New Initiates

Those initiated were two alumni of the Tech ceramic school, David Young, and William Hansard, faculty member; one honorary member, Mr. J. H. Varner, district superintendent of the Harbison-Walker Refractories Corporation, of Birmingham; and 13 enrolled students in the ceramic engineering school, Robert H. Dubler, John O. Tinius, James G. Breedlove, William Brusse, Jr., Daniel Gates, Cecil M. Jones, Donald M. Judd, Kent B. Morris, Manville J. Mayfield, Taylor E. Nance, Hayne Palmour, III, Joseph L. Pentecost, J. D. Walton, and LeRoy L. Williams, making a total of 16 charter members for the Tech chapter.

Banquet Is Held

Following the initiation ceremonies was a banquet in the ODK banquet room, at which Dean Chapin spoke and introduced the first honorary member, Mr. Varner.

The Keramos society, of which Dr. Lane Mitchell is the national president-elect, is the oldest national professional engineering fraternity in the nation. The society was founded in 1902 on the campus of Ohio State University, Columbus, Ohio, and now has chapters in the leading engineering schools in the nation.

Lambda Chi Alphas Elect Spring Officers

The installation of the new officers of Beta Kappa Chapter of Lambda Chi Alpha was held at the Chapter house last Wednesday. Mr. Bill Wainwright, alumni advisor of the chapter, was in charge of the ceremony.

The officers, who will serve until December, are as follows: Al Mills, president; Bill Burke, vice-president; Bill Hanauer, secretary; Cliff Roberts, treasurer; Bill Gordon, social chairman; Earl Kendrick, rush chairman, and Howard Raley, pledge trainer.

Retiring officers are: Marvin Floyd, president; Bill Broughton, vice-president; Bill Burke, secretary; Howard Raley, treasurer; Tom Griffin, social chairman; Don Napoli, rush chairman, and Kelly Day, pledge trainer.

Tech Delegate Presents Paper At Annual Psychology Parley

By Tom Jenkins

Dr. Joseph Moore and Norman Sturm, of the Psychology Department, attended the forty-second annual meeting of the Southern Society for Philosophy and Psychology which was held at the Noel Hotel in Nashville, Tennessee, from Thursday, April 6, to Saturday afternoon, April 8. They attended the convention to present a paper, "The Relation of Hand Strength to Certain Personality Measures"; the data for this study was obtained using a number of Tech students as subjects. Dr. Moore and Mr. Sturm also exchanged ideas and discussed problems and techniques of interest to all who attended the meeting.

Paper Presented

At a symposium concerning motivation, Dr. Sigmund Koch from Duke University presented a paper stressing the significant fact that the majority of the psychology tests are not valid enough for the psychologist to say, "This test shows that you will have false teeth in two years"; but, instead, the psychologist must say, "This test indicates that you may have false teeth in two years." The final "conclusions" were that psychological testing methods are being improved all the time; the tests being used at present are in many instances good indicators; there should be more experimentation to put testing on a sound empirical basis.

Approximately four hundred Tech psychology students were tested by Dr. Moore in preparing the paper, "The Relation of Hand Strength to Certain Personality Measures." It was the purpose of this study to get significant correlation between strength of handgrip as measured by a Smedley Hand Dynamometer and certain personality traits as measured by the Guilford-Martin GAMIN test, especially G-general overt activity.

The problem was to determine if there were a statistically significant relationship between hand-grip of the

preferred hand and personality factors as measured by the Guilford-Martin GAMIN test.

Students Tested

The number of subjects finally used in the completed study consisted of 139 men drawn primarily from the junior and senior classes at Tech. The GAMIN Personality Inventory was given to students in groups by classes. The number of students in each class ranged from twenty-two to twenty-nine; then the Smedley Hand Dynamometer Test was given under what might be called a group situation. One man tried his hand strength, both left hand and right hand, while two of his classmates looked on. The specific method of gripping the instrument was that of placing the palm down on the adjusted stirrups. The subject was directed to pull to the number called by the experimenter. A number was called at each five seconds starting at 10Kg and going up by stages of 10Kgs. An information blank was used to standardize hand tests; the subjects who had had an injury to their hand or had taken special exercises were not used in the final analysis.

Conclusions Reached

Dr. Moore and Mr. Sturm drew the following conclusions: first, that handgrip, as measured by a Smedley Hand Dynamometer, under their procedures, had no statistically significant relationship to any one of five personality factors on the Guilford-Martin Inventory of Factors GAMIN. Second, if hand-grip might measure that elusive personality trait called "drive," this investigation could be thought of as a testimony to its undiminished elusiveness.

Some of the other representatives who presented papers were Orrin H. Cross and Mildred B. Cross, Univ. of Ala., on "Insight of College Students into the Personality of their Instructor"; Robert Glaser, Univ. of Kentucky, on "Relationships Between Test Score and the Consistency of Response Pattern on Certain Psychological Tests"; and Philip H. DuBois, Wash. Univ., "Differential Prediction of Grades in a School of Engineering."

COME ONE, COME ALL

... to the many attractions offered during Engineers' Week, 1950.

With engineering and technological science still playing a vital role in the future development of the nation, the students and faculty of Georgia Tech will once again play host to the citizens of Atlanta as well as all of Georgia with the presentation of the 1950 Engineers' Week festivities. The lengthy and well-rounded program will open Tuesday night, April 25 and will continue through Sunday, April 30.

Under the able direction of Tau Beta Pi and general chairman Wayne Coloney, it is expected that this year's approaching presentation will be one of the finest exhibitions presented during the sixty-five years that Tech has been in existence. Judging from the proposed plans and observing the zeal of all the honorary and professional societies which are entering exhibits in the Hall of Engineering at Crenshaw Field House, we feel confident that the program will truly be an outstanding one.

The average freshman or outsider might well ask why such a program is presented each year. They might say that everyone knows that Tech is here in Atlanta training students to be engineers and technical men so what is the purpose of these activities? The answer is very simple—we are attempting to show the general public just what is going on behind the closed doors of our classrooms and laboratories. We are attempting to show both industry and the public that despite the cramped conditions existing in many of the schools on the campus, Tech is producing some of the finest technically trained men in the nation.

In the Hall of Engineering every school and department will attempt to outdo each of its competitors in vying for the prize of the outstanding exhibition. The various booths and demonstrations will not only depict present activities and achievements but many will also attempt to present predictions for the future as offered by the various fields of science. A visit to the Hall of Engineering is certainly a must for each and every student, and we hope a great majority of the citizens of greater Atlanta will be able to attend.

Although the Hall of Engineering exhibits will be the highlight of Engineers' Week, 1950, an outstanding program of varied activities has been arranged to provide a full calendar of events throughout the week. The Ramblin' Reck Club will

jump the gun on the other campus organizations with the presentation of the annual Stunt Night competitions Tuesday night in the "Y" auditorium. Here members of the various fraternal and independent groups will compete for top honors in an attempt to take home the attractive first place cup. Stunt Night is rapidly becoming a banner event on the campus and this year many organizations have been rehearsing since mid-January with skits, comedy, and song and dance routines. With the "Y's" limited seating capacity, we urge one and all to come and come early, for a gala evening of fun and frolic is truly in store.

On Wednesday, activity will begin in earnest with the annual Honors Day exercises slated to begin at ten a.m. in the gym. At these exercises, the various schools and honorary and professional societies will present awards to their most outstanding students. Medals, cups, citations, and scholarships will be presented to the deserving students of the Institute who have proven by their abilities and performances to be worthy of these honors.

To the sports-minded, Engineers' Week, 1950, offers on Friday night the annual T-day battle on Grant Field between two picked squads of Coach Robert E. Lee Dodd's 1950 gridiron juggernaut. Thus all of Tech will be offered a preview of what to expect next fall when pigskins are again flying through the air.

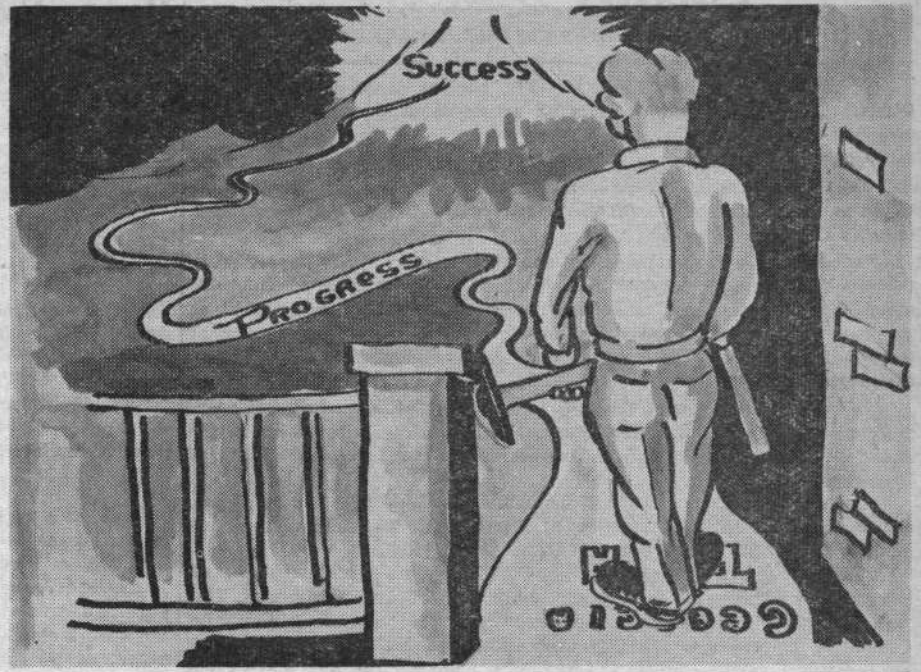

The social highlight of the week will of course be the annual Engineers' Ball to be held in the gym next Saturday night. At this affair, one of thirteen lovely beauties will be chosen as queen of the 1950 Engineers' Week beauty court. In addition, chairman Coloney will officially turn over the sponsorship of the entire Engineers' Week program to Gene Franklin, president of the newly organized St. Patrick's council. In future years, this group will have charge of the presentation of the activities which have formerly been sponsored by Tau Beta Pi. Climaxing the festivities will be a concert by the Tech Glee Club on Sunday.

All in all, the outlook for the coming events is one of extreme brightness. The week's activities combine to present a spectacle seldom before achieved on the campus. Tell your friends, tell your relatives, tell everyone you see to visit the campus to observe and enjoy the gala Engineers' Week of 1950.

Engineers' Week, 1950

The Truth of the Matter

Dr. Walker reveals his feelings on the current YJ controversy.

Editor, The Technique

Dear Sir:

I thank you for the friendly and fair treatment accorded me and my position in your editorial on the controversy over the Yellow Jacket.

You have made me sound more important than I am, since I know of no organized movement to abolish the Yellow Jacket and am not aware of being the leader of any element of the faculty, but I am not offended that you overrate my influence.

What I have done is to object to the inclusion in the Yellow Jacket of material that seemed to me vulgar and stupid and low, and which left the impression with readers that we at Tech are likewise vulgar and stupid and low. Since I eventually came to the conclusion that a creditable humor magazine could not be produced at Tech, however well-intentioned the editor and however diligent and conscientious the faculty adviser, I voted against the resumption of the magazine. Subsequent issues, though not uniformly bad, have not changed my mind.

I trust I am not simply a nose Parker objecting to innocent fun. If I am, I do not deserve the kindly treatment you have given me. But I do know that I am deeply concerned with the reputation of the school in whose service I am spending my working life and with the character of the students whose lives will determine whether my own has been well spent. If you are not men of integrity and good manners and high character, dedicated to the service of decency and right, no amount of technical skill or knowledge you may have gained will justify the existence of Georgia Tech or justify my life spent in teaching here. That is my belief.

I object to the Yellow Jacket because it presents to the world a picture of us as unable to find humor except in sex and drunkenness, and as rough, tough, and

uncouth in manners and morals: the language of the stevedore, the manners of the village boor, the attitude toward woman of the gangster toward his moll. Because I believe that Tech men are gentlemen, I object to subsidizing at your expense a publication that presents the other picture. I believe you should too.

I object to the influence that the attitude toward life expressed in the Yellow Jacket has on the students who come to Tech. It is possible that what we read does not affect us. But I would be an unusual teacher of literature if I did not believe our inner lives are built by what we put into our minds just as surely as our bodies are built by what we put in our mouths. If this is true, then the deliberate placing before students of filthy jokes (even when spelled fealty) with the sanction of the school is a reprehensible act for which the faculty is responsible.

The student who wishes to read dirty jokes can find them elsewhere; few originate in the Yellow Jacket. The student who wishes pornographic literature or erotic art can find it. It does not seem to me the duty or right of a college faculty to force its students to pay for it or to subsidize students who produce it. That is why, as a member of the faculty, I shall vote to abolish the Yellow Jacket.

By the time this letter is published, the fight will be over. The Yellow Jacket will still be with us or once more suspended. If the Yellow Jacket is suspended, I know its supporters will take defeat with good grace. If it is permitted to continue, I hope the editors will sextuple (no pun intended) their efforts to produce a magazine that presents us fairly to its readers and opens our eyes to the humor that lies all about us. And if the Yellow Jacket continues, I promise to continue its conscientious reader and severest critic and, if the editors will permit, its friend.

—Andrew J. Walker.

Jacket Thinclads Travel North To Meet the Tennessee Vols

By Bert Edleson

Saturday afternoon in Knoxville, the Yellow Jacket track squad will attempt to get back into the win column as they take to the cinders against the Volunteers. Last Saturday the Engineers went down before the Greenies of Tulane 70-61. This will be the third conference start for the Jackets this season.

In last week's encounter, the Jackets were victims of strategy on the part of the Tulane coach. The Jackets held back their fast sprinters for the final relay, but the Greenies put their top efforts out in every event and forfeited the relay. By the time for the relay however, the Tulane squad had garnered enough points for the victory.

Jackets Win From Gators

Two weeks ago it was a different story here in Atlanta when the Jackets were hosts to the University of Florida thinclads. In a thrilling fight-to-the-finish battle, the White and Gold runners emerged victorious by one slim point, coming out on the long end of a 63½-62½ score. Bob Renshaw's second place in the final event of the afternoon, the broad jump, gave the Jackets the needed score.

The Vols in the meantime have an even closer win to their credit as they eked out a 65-2/3-65-1/3 win from their state rivals, the Commodores from Vanderbilt.

Boasting one of the top one and two-milers in the country in Bob Scott, the Vols will give the Engineers plenty of trouble in both of these events. Another standout for the Orange and White will be their pole vaulter, Martin Korick, who is also known throughout the collegiate ranks as a top notch performer.

Vol Captain Is Footballer

Captain Norman Messerole, of football fame, tops the ranks from Knoxville in the discus event, and should be right up near the winning throw Saturday afternoon. The Vols have another star in their high jumping hope, John Neff.

On the Tech side of the ledger, Coach Norris Dean is very much pleased with the performances of James B. "Bobo" Glover in the intermediate distances. Glover, a junior who hails from Marietta, Georgia, is, in the words of Coach Dean, the most improved runner on the squad.

Red Smith Coaches

With Red Smith sidelined for the season due to a fractured foot, Coach Dean has assigned the distance men on the squad to Smith's coaching. So although "The Redhead" can't give the Jackets support on the cinders, he is rendering valuable assistance to the track coaches with his instructions.

When asked how he thought the chances were for this week-end, Coach Dean replied rather skeptically that he thought Tech would win the meet.

Yellow Jacket Netters Swarm Over Bulldogs

The Georgia Tech netmen were hosts to the Georgia Bulldogs last Tuesday and defeated them for the second time this year. Both times the Jackets have swarmed over the 'Dogs by the score of 8 to 1.

The Jackets swept all of the doubles matches and lost only one match in the singles but had to encounter some very stiff opposition from their opponents.

In the number one match, Tech's Louis King, had quite a bit of trouble in downing Burt of Georgia. King lost the first set 5-7 but finished strong to win the next two sets by 7-5 and 6-0 margins.

Georgia's lone point was garnered in the number two match when Tech's Statham lost to Hill in two straight sets. In the top doubles match, King and Statham teamed up to defeat Burt and Hill by taking two of the three sets.

Ferguson, Graham, Van Winkle, and Thiesen won their respective matches with Gimma, Krumbain, Smoot, and Brail.

Softball Scores

All softball team managers are requested to call Jim Matthews at the ATO house following their league games in order to record the scores. This is the only way in which the scores can be recorded. Matthews can be reached at either At. 4360 or At. 7026.

Spring Grid Practice Enters Final Stage As Fourth Week Ends

The fourth week of spring football practice will end in a game scrimmage at Grant field Saturday, April 22, at about three o'clock.

The spring session has been marked by many afternoon scrimmages at Rose Bowl field. Bobby North and Buster Humphries, Tech backfield stars, were excused from football duties by Coach Bobby Dodd in order to bolster the Tech baseball squad.

Freshman Don Booth and sophomore Art Ross have shown exceptionally well at the fullback slot.

Good quarterbacks are plentiful. Darrell Crawford, Joe Salome, Robbie Robinson, Jimmy Brown, and Fred Davis have all shown well under fire. Jimmy Brown has completed many long passes in scrimmage encounters while Robbie Robinson has connected well with his short accurate bullets.

To round out the backfield, halfbacks Roy Thompson, Joe Cobb, Powell Schaeffer, Red Patton, and Harry Wright have all performed well.

Pete Brown, Rossville, Georgia, product, has been sensational at the linebacker position. George Morris, freshman standout of last year, has been playing well at the center position while Hal Miller at tackle and Butch Bethea at guard have shown well at their respective positions.

On the injured list are Ray Beck, with a shoulder injury; Lum Snyder, with a rebreak of his hand, and George Maloof, with a reinjured leg.

Golf, Tennis Entries

All teams or individuals interested in entering either the intramural golf or tennis tournaments are reminded to get their entries in to Miss Tinsley in the Athletic building by noon Saturday, April 22. To be eligible for the team trophy, the team must be composed of not less than six men.

Tech Nine In Nashville For Two Game Series

By Paul Berg

This afternoon the Tech baseball team will open a two-game series with the Vanderbilt Commodores at Nashville. This will be the second series between these two teams this season.

The Jackets and Commodores split two games in their first meeting, Vandy taking the first 5-3, and the Techsters the second 13-9. In the first game Buddy Thompson, Tech ace, lost his only game of the season in a tight pitchers' duel with John Jewell of the Commodores.

Herb Bradshaw, playing his third season as a starting hurler, pitched the Jackets to victory in the second game. Jimmy Fritch led the Jackets at bat with a double and three singles out of five trips at the plate.

The probable lineup for the Jackets will be Bob Bossons behind the plate; veteran Henry Shoening at first base; Pete Leonard at the keystone sack; Sophomore Buster Crabbe at shortstop; Bobby North at third base; Bob McCoy in left field; Red Childress in centerfield; and Jim Fritch in right-field.

Previously this season the Jackets have a record of three victories against five defeats. Besides the split with Vandy, the Techsters lost two games to the Wildcats of Kentucky, split two with the Tennessee Volunteers, and have gained an even split in two games with the Auburn Tigers.

The Techsters have been strengthened by the recent release of Bobby North from spring football drills. In three games, of which Tech has won two, North has exhibited considerable skill at bat as well as on the bases and in the field.

The rapidly improving Jackets are to begin a climb up the ladder of the Southeastern Conference of which Tech's ace rivals, the University of Georgia, are now at the helm. The Jackets are now resting in the fifth spot of the standings.

Next week the Jackets of Coach Joe Pittard meet the Tennessee Volunteers for the second time in a two game series at Knoxville. Having split the first series, this will be the last meeting of the two teams this season.

GEORGIA TECH COLLEGE INN

(Owned and Operated by Georgia Institute of Technology)

Golfers Meet Bulldogs Today; Entertain Kentucky on Monday

This afternoon, the Jacket linksmen will go out in quest of their fifth consecutive win when they take on the University of Georgia Bulldogs over in Athens. This will be the first meeting of the two squads this year. On Monday the Techsters return to Atlanta to meet the Kentucky Wildcats.

If comparative scores are any indication as to the probable outcome, the linksmen of Coaches H. E. Dennison and Max Hibbs hold the edge. The Bulldogs bowed to the University of Florida, but the Jackets toppled the Gators here in Atlanta.

The major trouble Coach Dennison has to cope with at the present time is just which six of his nine golfers to play. The situation appears that all nine candidates on the golf squad are capable of good golf.

Of these men: Pat LeClair, Ed Barnes, Charlie Harrison, Scott Howell, William C. Jones, Tom Bachman, Noble Arnold, Jay Milam, and Campbell Smith, Coach Dennison is trying to choose his number one man. This has been a difficult task. LeClair, Barnes, Harrison, Howell, Bachman and Arnold have all shown possibilities of holding the top slot, but to date, that key position is still open.

The Jacket freshmen are engaging in their first match this season. They are meeting North Fulton High School over the North Fulton course. Frosh linksmen are Sonny McKelvey,

Harry Matthews, Sonny Marks, and Ben Bishop. According to Coach Hibbs, this year's frosh squad is one of the best in many years and will be a great boost to the varsity next season.

Monday the Jackets will get their final test before the Southern intercollegiate matches which are scheduled in Athens on Thursday, Friday, and Saturday.

New VA Regulations Discourage Changes

The official V.A. regulation on the veterans program in colleges and universities after July 25, 1951, was announced this week. This regulation is as follows:

Any veteran not actually enrolled in college during the spring quarter of the 1950-1951 school year or in the summer quarter for 1951 starting before July 25, will lose all further rights to educational benefits under the GI Bill.

All veterans who drop out of college after July 25, 1951, (that is, fails to enroll for the fall quarter or any subsequent quarter except a summer session) will lose his right to further educational benefits unless his failure to enroll is due to "reasons beyond his control."

Any veteran who wishes to change

ROTC Rifle Squad Wins Many Honors In Season's Matches

By Frank Redfield

The Tech Army ROTC rifle team wound up another successful season of competition last week with the firing of the National Army Intercollegiate match.

This year's team boasts a record unequalled in recent years. For the first time since 1945 the team placed in the famed William Randolph Hearst matches.

It was Tech's sharp-shooting team of Tom Hagler, Sid Williams, Sidney Raynes, Tom Davenport and Warren Lind that copped the third place position in the nation-wide competition.

Place in Third Army Match
In the Third Army Intercollegiate match, the Engineer marksmen again distinguished themselves. Of the twenty-two colleges in the southeastern area entered in the match, the Tech "A" team placed third.

In addition to the laurels garnered in post season competition, the rifle team compiled an enviable record of postal matches during the regular season. Of the sixty-two postal matches fired, only the University of Tennessee and the Kansas University teams were able to outscore the Jackets.

National Results to Be Announced
Although the results of the National Army Intercollegiate match have yet to be announced, the Tech team should place high among the many squads entered in this competition.

a course for reasons other than those listed in the regulation probably will lose all further educational benefits if he changes course. (The reasons listed for which changes will be permitted are fairly broad, however.)

There is nothing in the regulation to indicate that faculty members who normally take their educational programs during summer sessions will be allowed to continue under the GI Bill after the summer of 1951. The only exceptions to the requirement for continuous attendance are for "normal interruptions for summer vacations" and for "other reasons beyond the control of the veteran."

Many High Scoring Games Highlight Softball Activity

Many Teams Display Good Form In First Full Week of Competition

By Lew Levenson

Starting the intramural week off with a 13-1 victory over the SAE's, the ATO's set the style for a number of runaway ball games. Alpha Tau Omega's Bob Sharp pitched a one-hitter ball game and struck out ten men. Luther Lewis banked a powerful round-trip ticket to score three men in the fifth inning.

Theta Xi swamped Tau Kappa Epsilon late Monday afternoon by bringing in nineteen runs and holding the Tekes to a five-run score. Jack Webb had fine control of the ball once the game started as the TKE's got only two runs after the first inning. Theta Xi had a batter's field day in the third inning when eight men scored, three of which were brought in by Jack Dover's home run.

Last Inning Rally Wins
The bleacher's favorite, a last inning rally, was staged by the Sigma Nu's Tuesday afternoon as they galloped eight men across home plate in the top half of the seventh inning. Score until that time had been in favor of Theta Chi, 10-8. Kirkwood was the big gun for the Sigma Nu's as he let loose with a four-bagger with the bases loaded. Taylor, pitching for the Sigma Nu's was credited with the win.

Delta Tau Delta eked out a 7-6 win over Kappa Sigma in a close, hard-fought game. Although out-hit by the Kappa Sigs, who got fourteen hits, the Delts made everyone of their seven hits count to win the game. Vanderbleek turned in a steady game of pitching for the Delts, while teammate Lockwood Seegar took batting honors.

Beta's Win Close One
Beta Theta Pi breathed easier after a close game with Phi Delta Theta, winning by a score of 8-5 after going into an extra inning. As the game went into the seventh inning, the Betas were trailing with the score at 5-4. VanSant reversed the lead, however, as he poled a long hit to make the circuit of the bases, pushing one of his teammates ahead of him. The Phi Delts brought in a run in their half of the inning to force the game on. Worked up to fever pitch by sideline support, the Betas clinched the game in the eighth to win 8-5.

Starting off in the first inning with a three run entree, the Delta Sigs found themselves on the short end of an 11-4 score at the end of the second inning of play. Sigma Phi Epsilon opened up their assault in full force from there on out, scoring in every inning. Slaughter and Barrett took home run honors for the Sig Eps. Backing up their pitcher, Albury,

with some fine fielding, Sigma Phi Epsilon won the game 22-9.

Many Runs

Chi Psi unleashed a barrel of energy as they led off in the first inning against Phi Epsilon Pi. Chi Psi piled up a substantial lead of eleven runs in the first inning, a lead hard to overcome in any game. The battle turned into a pitcher's duel after the first inning however with John Brown giving up as many hits as Marvin Stuart did for the Phi Eps. The final score was 20-10, in favor of Chi Psi.

Calling the game at the end of six innings of play, the AEPi's claimed a win over Phi Kappa Sigma, 9-4. Horowitz pitched a steady game for Alpha Epsilon Pi, while Dutton turned in a good performance for Phi Kappa Sigma. The only high spot of the game was a long drive over the center fielder's head resulting in a home run for Ross of Alpha Epsilon Pi.

Wesley Tops Co-Op

Wesley Foundation was barely downed by the Co-op club in a game that was fairly close most of the time. The final score was 17-13, in favor of the Co-ops. Phi Delta Theta was defeated by the KA's in the only shut-out of the first half of the week. Robert E. Lee looked kindly upon them as the Kappa Alpha's won 10-0.

Phi Gamma Delta eked out a bare win over Phi Epsilon Pi in another one of those last inning rallies. Youmans, pitching for the Phi Gams, and Stuart for the Phi Eps, traded pitches evenly throughout the game. Trailing 7-6 in the bottom half of the seventh, the Phi Gams put a man on base, then put their dependable slugger up to bat. Pryor hit a long drive deep into right field to bring in the winning run. The final score was 8-7 for Phi Gamma Delta.

High Scorer

Donald Barnes spiked the Kappa Sigma's to victory with his aggressive batting Wednesday afternoon. Barnes accounted for two home runs, a double and a single for four trips to the plate. The Kappa Sigs scored eighteen runs on twenty-three hits off Theta Chi's Lifsey, while their own Schroeder gave up thirteen hits that brought in eleven runs for Theta Chi. Final Score was 18-11, Kappa Sig over Theta Chi.

Accounting for the second shutout of the week, Alpha Tau Omega pushed twelve men across home plate while holding the Betas scoreless. ATO's Bob Sharp allowed only three hits while striking out ten men. Beta Theta Pi couldn't seem to get their eye on the ball to connect for any substantial hits.
