

Proceedings of the

1999

Georgia Water Resources Conference

*March 30 and 31, 1999
The University of Georgia
Athens, Georgia U.S.A.*

**Edited by
Kathryn J. Hatcher**

Sponsored and Organized By

U.S. Geological Survey
Georgia Department of Natural Resources
The University of Georgia
Georgia State University
Georgia Institute of Technology

Proceedings of the

1999

**Georgia Water Resources
Conference**

**March 30 and 31, 1999
Athens, Georgia**

**Sponsored by
U.S. Geological Survey
Georgia Department of Natural Resources
The University of Georgia
Georgia State University
Georgia Institute of Technology**

**Edited by
Kathryn J. Hatcher**

**Institute of Ecology
The University of Georgia
Athens, Georgia U.S.A.**

This book was published by the Institute of Ecology, The University of Georgia, Athens, Georgia 30602-2202 with partial funding provided by the U.S. Department of Interior, Geological Survey, through the Georgia Water Research Institute as authorized by the Water Research Institutes Authorization Act of 1990 (P.L. 101-397). The views and statements advanced in this publication are solely those of the authors and do not represent official views or policies of the University of Georgia or the U.S. Geological Survey or the conference sponsors.

Georgia Water Resources Conference Steering Committee

Robert R. Pierce, Hydrologist, U.S. Geological Survey (conference co-chair)

*Kathryn J. Hatcher, Water Resources Engineer, Institute of Ecology, The University of Georgia
(conference co-chair)*

*Nolton Johnson, Chief of Water Resources Management Branch, Georgia DNR Environmental
Protection Division*

*Jimmy Bramblett, Resource Conservationist, Natural Resources Conservation Service
(Posters and Exhibits coordinator)*

*Zhi-Ying Yin, Associate Professor, Department of Anthropology and Geography, Georgia State
University*

Aris Georgakakos, Professor, School of Civil Engineering, Georgia Institute of Technology

GWRC Co-Sponsors

American Society of Civil Engineers, Georgia Section

American Water Resources Association, Georgia

American Water Works Association, Georgia Chapter

Association County Commissioners of Georgia

Georgia Soil & Water Conservation Commission

Georgia DNR Pollution Prevention Assistance Division

Georgia Water and Pollution Control Association

Georgia Ground Water Association

Georgia Lake Management Society

Georgia Municipal Association

Georgia Rural Water Association

Georgia Water Wise Council

Georgia Environmental Organization

The Georgia Conservancy

Soil and Water Conservation Society, Georgia

Mobile District, Corps of Engineers

Savannah District, Corps of Engineers

South Atlantic Division, Corps of Engineers

Red Clay Conference

Sponsored and Organized by Environmental Law Association, University of Georgia

Scott Hitch, Conference Chair

TABLE OF CONTENTS

Plenary Session and Luncheon Speakers:

Page

Water-related Legislation of the 1997-98 Term of the Georgia General Assembly	1
<i>James E. Kundell, Carl Vinson Institute of Government, University of Georgia</i>	
Federal Interest in the ACF/ACT Interstate Compact	*
<i>Lindsay Thomas, appointed Federal Commissioner for the ACF/ACT Compact</i>	
Initiatives and Priorities for Addressing Environmental Issues	*
<i>Peter Bahouth, Executive Director, Turner Foundation</i>	

TRACK I. RED CLAY CONFERENCE - ENVIRONMENTAL LAW

Sponsored and Organized by: Environmental Law Association, University of Georgia

Using Stakeholder Processes in Environmental Decisionmaking (Ethics)

Dorinda Dallmeyer, J.D., Rusk Center, University of Georgia
Dr. Terry F. Yosie, Executive Vice President, Ruder Finn Washington

Representing the Plaintiff in an Environmental Suit

Don Stack, J.D., Stack and Associates
David Pope, J.D., Carr, Tabb & Pope, PC

River Basin Management Planning

Ann Pickett, J.D., Georgia Environmental Policy Institute

Water Law

Professor Peter Appel, University of Georgia School of Law
Professor Bill Buzbee, Emory University School of Law
Professor Victor Flatt, Georgia State University School of Law

Interstate Water Pollution

Tom Beisswenger, J.D., Georgia Center for Law in the Public Interest

Total Maximum Daily Loads (TMDLs)

Doug Haines, J.D., Georgia Center for Law in the Public Interest

Stormwater Permitting

Steve O'Day, J.D.
Michelle Fried, J.D., Upper Chattahoochee Riverkeeper

Tri-State Water Compact

Bob Kerr, Director, Pollution Prevention Assistance Division, Georgia DNR
Matt Keyes, Georgia Conservancy
TBA, Southern Environmental Law Center

Coastal Growth Management

Jimmy Chandler, South Carolina Environmental Law Project, Pawleys Island, SC
Wesley Woolf, Southern Environmental Law Center

Part 5 Minimum Standards

Jim Frederick, Georgia Department of Community Affairs
Lee Carmon, J.D., Georgia Department of Community Affairs

TRACK II: WATER SUPPLY MANAGEMENT

Water Conservation

Moderator: *Mary Elfner, Metropolitan Planning Commission Water Conservation Planner, Chatham County-Savannah MPC Water Conservation Program*

Water Conservation and Waste Minimization Techniques for Georgia's Food Processing Industry	6
<i>Brian Kiepper, Biological and Agricultural Engineering Department, William Merka, Poultry Science Department, and A. Estes Reynolds, Department of Food Science and Technology, University of Georgia</i>	
A Multi-family Water Conservation Study in Chatham County, Georgia	8
<i>Deatre N. Boyles, and Mary A. Elfner, Chatham County-Savannah Metropolitan Planning Commission</i>	
A Water Supplier's Role in Education	12
<i>Fox McCarthy, Cobb County-Marietta Water Authority</i>	
Water Conservation Regulations and Implementation for the State of Georgia	16
<i>William N. Morris, Georgia DNR Environmental Protection Division, Water Resources Branch</i>	

PANEL: Water Conservation Issues

Moderator: *Mary Elfner, Metropolitan Planning Commission Water Conservation Planner, Chatham County-Savannah MPC Water Conservation Program*

Water Conservation Issues Panel Discussion	19
<i>Jack Dozier, Executive Director, Georgia Water & Pollution Control Association, Mary Elfner, Jeffrey Jordan, University of Georgia, Griffin Experiment Station, Harry Jue, Water and Sewer Bureau Chief, City of Savannah, Fox McCarthy, Cobb County-Marietta Water Authority, David Rutherford, Georgia Regional Development Center, Chris Thomas, U.S. Environmental Protection Agency, and Bennett Weinstein, Water Conservation Specialist, Georgia Environmental Protection Division</i>	

PANEL: Environmental Impact Statements for Water Allocation for the Alabama-Coosa-Tallapoosa (ACT) River Basin and the Apalachicola-Chattahoochee-Flint (ACF) River Basin

Moderator: *Roger A. Burke, Chief of Plan Formulation Branch, U.S. Army Corps of Engineers, Mobile District*

Background and Approach for Preparation of Environmental Impact Statements: A Programmatic Evaluation Approach	21
<i>Joanne Brandt, Planning and Environmental Division, U.S. Army Corps of Engineers, Mobile District</i>	
Using Reservoir System Modeling (HEC-5) as a Basis for a Programmatic Evaluation Framework (ACF River Basin Allocation EIS)	24
<i>James Hathorn Jr., U.S. Army Corps of Engineers, Mobile District</i>	
Water Quality Modeling for the ACT and ACF River Basins Using BASINS and HEC-5Q	27
<i>Michael Eubanks, U.S. Army Corps of Engineers, Mobile District, and Jim Greenfield, Region 4, U.S. Environmental Protection Agency</i>	
Two-Dimensional Water Quality Modeling Using CEQUAL-W2 on Selected Reservoirs	30
<i>James Martin and Craig Hesterlee, AsCI Corporation, and Tom Cole, USACE Waterways Experiment Station</i>	
Assessment of Economic Impacts for the Water Allocation Formula Environmental Impact Statements	32
<i>Ken Claseman, Planning and Environmental Division, U.S. Army Corps of Engineers, Mobile District</i>	
Cultural Resources: Basin-wide Impact Assessment using Probabilistic Modeling and GIS Tools	36
<i>Tom Whitley, Brockington and Associates Inc.</i>	
Summary of the U.S. Fish and Wildlife Service's Contribution to the ACT and ACF Draft Environmental Impact Statements	37
<i>Jerry W. Ziewitz, Ecological Services, U.S. Fish and Wildlife Service</i>	
Impact Assessment for Reservoir Fisheries and Biological Assessments Underway for Programmatic Endangered Species Consultation	41
<i>Steven R. Layman, and E.B. Jones, CH2M HILL, Jerry W. Ziewitz, U.S. Fish and Wildlife Service, and Doug Baughman, CH2M HILL</i>	

Water Allocation for the ACF River Basin; Potential Impacts of Reduced Freshwater Inflow on Apalachicola Bay, FL, Oyster Populations: Coupling Hydrologic and Biological Models	45
<i>Mark Monaco and C.J. Klein, National Oceanic and Atmospheric Administration, National Ocean Service</i>	

ACF Reservoir Storage Use and Allocation

Moderator: *Gary Mauldin, U.S. Army Corps of Engineers, South Atlantic Division*

The Marginalization of Federal Hydropower	48
<i>George McMahon, Camp, Dresser & McKee Inc.</i>	
Storage Reallocation Issues in Federal Multipurpose Reservoirs	51
<i>Michael C. Farmer, School of Public Policy, Georgia Institute of Technology, and George F. McMahon, Camp, Dresser & McKee</i>	
Reservoir Storage-Yield for the Non-Hydrologist	*
<i>Edmund B. Burkett, U.S. Army Corps of Engineers, Mobile District</i>	

ACF Water Allocation Issues

Moderator: *Pat Stevens, Chief, Environmental Planning, Atlanta Regional Commission*

Georgia's Water Allocation Proposal: The Motivation for Adopting the Inevitable Drought Ideology	56
<i>Ethan William Armentrout, University of Georgia</i>	
Teaching Water Resource Economics: The ACF Case Study	62
<i>Jeffrey L. Jordan, Agricultural and Applied Economics Department, University of Georgia</i>	
A Planning Model for the ACF River Basin	*
<i>Aris Georgakakos, Georgia Water Resources Institute</i>	
Integrating Community Values into Scientific Models	64
<i>Brian Fath and M.B. Beck, School of Forest Resources, University of Georgia, Sarah Coffin, College of Architecture, City Planning Program, Bryan Norton, School of Public Policy, Georgia Institute of Technology, and Anne Steinemann, College of Architecture, City Planning Program</i>	
Analysis of Stakeholder Involvement in Georgia Water Issues	*
<i>Ann Pickett, Georgia Environmental Policy Institute</i>	

Wastewater Treatment

Moderator: *Jack Dozier, Georgia Water and Pollution Control Association*

Treatment of Process Wastewaters for Recycling Using an Advanced Oxidation Process	68
<i>Michael E. Diaz and Edward Law, Biological and Agricultural Engineering Department, University of Georgia</i>	
On-line Monitoring and Dynamic Modeling of Wastewater Treatment	73
<i>Rong Liu and M.B. Beck, Warnell School of Forest Resources, University of Georgia</i>	
Demonstration of Water Conservation Through Automated Dyebath Reuse	77
<i>Beth White, Georgia Institute of Technology</i>	
Improved Management Practices for a Georgia Landfill	80
<i>Matt C. Smith and David K. Gattie, Biological & Agricultural Engineering Department, University of Georgia</i>	

Drinking Water Quality

Moderator: *Stallings Howell, U.S. Environmental Protection Agency, Region 4*

Guidelines for Potable Water Reuse: Is Georgia Ready to Address What is Already Happening?	84
<i>Ken Hall, CH2M HILL, and Frank Stephens, Gwinnett County Department of Public Utilities</i>	
Identification of Polar Drinking Water Disinfection By-products With LC/MS	88
<i>Susan Richardson, Tashia V. Caughran, Thomas Poiger, Yingbo Guo, and F. Gene Crumley, U.S. Environmental Protection Agency</i>	
Preparing Your Consumer Confidence Report: What Every Utility Should Know	91
<i>Heather Kunz, CH2M HILL</i>	

Source Water Assessment and Protection

Moderator: *Nolton Johnson, Georgia Environmental Protection Division*

Source-Water Assessments and the Kentucky Long-Range County Water Supply Planning Program	95
<i>David Morgan, Environmental Control Supervisor, Frankfort, Kentucky</i>	
Methods for Segmentation of Source-water Protection Areas and Susceptibility Assessment to Contamination for Public Surface-water Systems, and Their Application to an Intake, Aiken, South Carolina	97
<i>Timothy H. Lanier and W. Fred Falls, U.S. Geological Survey</i>	
Enlisting Local Governments in Protection of Water Resources: The Environmental Planning Criteria	102
<i>Michael Gleaton, Georgia Department of Community Affairs</i>	
Georgia's Source Water Assessment and Protection Program for Public Drinking Water Sources	103
<i>Barbara Stitt-Allen, Georgia Environmental Protection Division</i>	

TRACK III. WATERSHED PROTECTION

Watershed Assessment and Management

Moderator: *Mark Landers, U.S. Geological Survey*

The Use of In-house Resources by a Municipality to Conduct a Detailed Watershed Assessment	106
<i>Robert Bourne and Judy Bowers, Cobb County Water System, Marietta</i>	
Watershed Monitoring and Modeling Techniques	110
<i>Billy G. Turner and Clifford J. Arnett, Columbus Water Works, and Mark Boner, Wet Weather Engineering and Technology</i>	
Application of EPA's BASINS Model for a Watershed Assessment Project in Fulton County, Georgia	115
<i>Avinash S. Patwardhan, CH2M HILL</i>	
Developing Stream Corridor Protection Policies	119
<i>Seth J. Wenger and Laurie Fowler, Institute of Ecology, University of Georgia</i>	
Developing Practical Guidelines for Watershed Improvement	122
<i>Ken Hall, CH2M HILL, and Jim Scarbrough, Gwinnett County Department of Public Utilities</i>	

NonPoint Pollution - Best Management Practices

Moderator: *Anwer Ahmed, ARCADIS Geraghty & Miller*

Effectiveness of Forestry Best Management Practices: Evaluating Water Quality from Intensely Managed Watersheds	126
<i>Melanie B. Ruhlman, International Paper Company</i>	
Georgia's Revised Best Management Practices for Forestry	130
<i>Frank Green, Georgia Forestry Commission</i>	
How Programs can Motivate Developers to Implement Effective Construction Site Erosion Controls: A Comparison between Two Southeastern Metropolitan Regions	132
<i>Diana Weber, Georgia Institute of Technology</i>	

Stormwater Management

Moderator: *Ross King, Association of County Commissioners of Georgia*

Athens-Clarke County Stormwater Management Program	136
<i>Robert S. Brown, Athens-Clarke County Department of Transportation and Public Works, and Anwer Ahmed, ARCADIS Geraghty & Miller</i>	
Survey of Current Stormwater Design Practices	140
<i>Melissa Lilburn, ARCADIS Geraghty & Miller</i>	
Griffin, Georgia's Stormwater Utility "A Non-structural Best Management Practice" (BMP)	144
<i>Brant D. Keller, City of Griffin Public Works and Stormwater Department</i>	
Wastewater Pricing and Facilities in Georgia	148
<i>Jeffery L. Jordan, Agricultural Economics Department, University of Georgia</i>	

Land Development Provisions to Protect Water Quality

Moderator: *Ted Mikalsen, Georgia DNR Environmental Protection Division*

- Townpark Planning Concepts and Practice and Water Quality Protection 150
Stephen Macauley, Macauley Homes and Neighborhoods
- Development Ordinances to Protect Streams 151
David B. Nichols, Bruce K. Ferguson, Scott Weinberg, and Mary Anne Alabanza Akers, School of Environmental Design, University of Georgia

Urbanization Effects on Streams

Moderator: *Chris Crow*

- Evaluation of the Long-term Impacts of Urbanization on the Physical Characteristics of Piedmont Headwater Streams 155
Robert L. Bourne, Cobb Water System Central Laboratory, and Ted Mikalsen, Georgia Environmental Protection Division
- Mitigation of Urban Runoff Impacts on Atlanta Streams 158
Thomas Brosnan, ILSI Risk Science Institute, Bruce K. Ferguson, School of Environmental Design, University of Georgia, Robert Iosco, Virginia Department of Transportation, Gary Moll, American Forests, Thomas Schueler, Center for Watershed Protection, Robbin B. Sotir, Robbin B. Sotir & Associates, Inc., and Rick Watson, Bellevue Utilities Department
- The Effect of Urbanization on Water Runoff in the Big Creek Watershed 162
Betsy Herrmann, Geography and Anthropology Department, Georgia State University
- Potential Leaching and Runoff of Nutrients from Golf Greens and Fairways 166
Larry M. Shuman, Crop and Soil Sciences Department, University of Georgia, Griffin Experiment Station

Water Quality and Land Use Effects

Moderator: *Tom Stanko, Atlanta Regional Commission*

- Relation of Land Use to Nutrient and Suspended-Sediment Concentrations, Loads, and Yields in the Upper Chattahoochee River Basin, Georgia, 1993-98 170
Elizabeth A. Frick and Gary R. Buell, U.S. Geological Survey
- Can Land-use Patterns Serve as a Predictor of Pesticide Occurrence Within an Urban Landscape? 180
Evelyn H. Hopkins and Daniel J. Hippe, U.S. Geological Survey
- Development of a Scientific Understanding of the Effects of Changing Land Use on Stream Ecosystems 187
Amy D. Rosemond, Institute of Ecology, David S. Leigh, Dept. of Geography, Byron J. Freeman, Mary C. Freeman, Elizabeth A. Kramer, Michael J. Paul, and Catherine M. Pringle, University of Georgia
- Assessing Water Quality in the Mobile River Basin 190
J. Brian Atkins, U.S. Geological Survey
- Assessment of Nutrient Trends and Loads for the Mobile River Basin 191
Douglas A. Harned and J. Brian Atkins, U.S. Geological Survey

Stream Channel Morphology

Moderator: *David Leigh, Geography Department, University of Georgia*

- The Impact of Past and Present Land Use on Two Georgia Piedmont Streams 192
Leslie Edwards, Christopher Sturm, Joseph Charles, and Candace Stoughton, Geography Dept., Univ. Georgia
- Regional Curves for Urban Channel Geometry in Atlanta 196
Soley B. Snyder and Bruce K. Ferguson, School of Environmental Design, University of Georgia
- Fluvial Restoration in the Chattahoochee Headwaters 199
Katherine Baer, Upper Chattahoochee Riverkeeper, Jennifer Derby, Tony Able, Morris Flexner, Bruce Pruitt, and Pete Kalla, Region 4, U.S. Environmental Protection Agency
- Hydrologic and Geomorphic Controls on Particulate Concentrations in Ichawaynochaway Creek, a Blackwater Coastal Plain Stream 203
Stephen W. Golladay, Kevin Watt, Sally Entrekin, and Juliann Battle, J.W. Jones Ecological Research Center

Riparian Buffer Zones I

Moderator: *Richard Lowrance, USDA Agricultural Research Service*

Water Quality Function of Riparian Ecosystems in Georgia	207
<i>George Vellidis, Biological and Agricultural Engineering, University of Georgia</i>	
Enhancing Understanding of Effects of Riparian Buffers on Aquatic Ecosystems Through Development of Environmental Outreach Tools	211
<i>Catherine Pringle and Ron Bjorkland, Institute of Ecology, University of Georgia, and Bruce Newton, Natural Resources Conservation Service, National Weather and Climate Center, Oregon</i>	
An Assessment of the Need for Protection and Restoration of Riparian Habitats in Georgia	215
<i>Jonathan Ambrose, Georgia Natural Heritage Program, Wildlife Resources Division, Georgia DNR</i>	
State and Local Efforts in Managing Riparian Buffer Zones	219
<i>Jim Frederick, Georgia Department of Community Affairs</i>	

Riparian Buffer Zones II

Moderator: *Mark Risse, Biological and Agricultural Engineering Dept., University of Georgia*

Buffering Georgia with Creativity and Federal Programs	223
<i>Andrew P. Johnson, USDA Natural Resources Conservation Service</i>	
The Riparian Forest Buffer Initiative of the Chesapeake Bay Program	227
<i>Albert H. Todd, USDA Forest Service</i>	

PANEL: Implementing Riparian Buffer Programs in Georgia

Moderator: *Susan Crow, Fanning Institute, University of Georgia*

Panel Discussion: Implementing Riparian Buffer Programs in Georgia	*
<i>Judy Meyer, University of Georgia, Institute of Ecology, Jim Kundell, University of Georgia, Institute of Government, Bob Kerr, Georgia DNR Pollution Prevention Assistance Division, Becky Shortland, NOAA National Ocean Survey</i>	

TRACK IV. WATER QUALITY

Animal Waste Management

Moderator: *David Radcliffe, Crop and Soil Sciences Dept., University of Georgia*

Water Quality of Runoff and Leachate from an Improved Dairy Loafing Area	230
<i>K. A. McVay and D. E. Radcliffe, Crop and Soil Sciences Department, University of Georgia</i>	
Impact of Poultry Mortality Pits on Farm Groundwater Quality	234
<i>Lee M. Myers, Georgia Dept. of Agriculture, Parshall B. Bush and W.I. Segars, The University of Georgia Cooperative Extension Service, and David E. Radcliffe, Crop and Soil Science Dept., University of Georgia</i>	
Anaerobic Codigestion of Hog and Poultry Waste	240
<i>Benjamin S. Magbanua Jr. and Thomas T. Adams, Biological and Agricultural Engineering Department, University of Georgia, and Phillip Johnston, Alternative Fuels, Inc.</i>	

Animal Waste Management - CAFO Issues

Moderator: *Jimmy Bramblett, Natural Resources Conservation Service*

AWARE Team Activities in Georgia	244
<i>Mark Risse, Biological and Agricultural Engineering Department, David Radcliffe, Glen Harris, and Miguel Cabrera, Crop and Soil Sciences Department, Larry Newton, Department of Animal and Dairy Sciences, and John Worley, Biological and Agricultural Engineering Department, University of Georgia</i>	

Role of a Stakeholder Advisory Group in Developing C.A.F.O. Regulations in Georgia 248
David Radcliffe, Crop and Soil Sciences Department, Mark Risse, Biological and Agricultural Engineering Department, University of Georgia, and Justine Thompson, Southern Environmental Law Center

Threats to Georgia's Water Quality: An Analysis of E.P.D.'s Proposed C.A.F.O. Rules 252
Justine Thompson, Southern Environmental Law Center

The Siting of Concentrated Animal Feeding Operations (CAFOs): Information Gaps for Achieving Environmental Justice 257
Ellen Sutherland, Institute of Ecology, University of Georgia

Animal Waste Management 2 - AWARE

Moderator: *Mark Risse, Biological and Agricultural Engineering Dept., University of Georgia*

Grazing Management Effects on Surface Runoff from Pastures Fertilized with Broiler Litter 260
Holli Kuykendall, USDA Natural Resources Conservation Service, Miguel Cabrera, Carl Hoveland, Crop and Soil Science Department, Mark McCann, Extension Animal Science, and Larry West, Crop and Soil Science Department, University of Georgia

Evolution of Phosphorus Concentration in Surface Runoff from Pastures Fertilized with Broiler Litter 264
Miguel L. Cabrera, Crop and Soil Sciences Department, University of Georgia, Holli Kuykendall, USDA Natural Resources Conservation Service, Carl Hoveland, Crop and Soil Sciences Department, University of Georgia, and Mark McCann, Animal and Dairy Science Cooperative Extension Service

Field Trials of Alum Amendment of Broiler Litter to Reduce Soluble Phosphorus 268
John W. Worley, Biological and Agricultural Engineering Department, and Miguel L. Cabrera, Crop and Soil Science Department, University of Georgia

Watershed Stewardship Seminar 273
Lisa Ann Kelley and Mark Risse, Biological and Agricultural Engineering Department, University of Georgia, Jose Pagan, USDA Natural Resources Conservation Service, and Michele Droszcz, Georgia Department of Natural Resources

Animal Waste Management 3 - AWARE

Moderator: *John Worley, Biological and Agricultural Engineering Dept., University of Georgia*

Evaluation of a Small, In-field Runoff Collector 275
Dorcas Franklin, USDA Agricultural Research Service, Miguel Cabrera, Crop and Soil Science Department, University of Georgia, Jean Steiner, Dinku Endale, USDA Agricultural Research Service, and William Miller, Crop and Soil Science Department, University of Georgia

Nutrient Balance for Triple-crop Forage Production Systems Fertilized with Dairy Manure or Commercial Fertilizer 279
G.L. Newton, Animal & Dairy Science Dept., G.J. Gascho, Crop and Soil Science Dept., G. Vellidis, Biological and Agricultural Engineering, Univ. of Georgia, R.N. Gates, R.K. Hubbard, R. Lowrance, and A.W. Johnson, USDA ARS, W.G. Hudson, Rural Development Center, H.R. Sumner, USDA ARS, R.G. Williams, and J.R. Allison, College of Agricultural and Environmental Sciences, Univ. of Georgia

Total Coliform, E. Coli, and Enterococci Bacteria in Grazed and Wooded Watersheds of the Southern Piedmont 283
Dwight S. Fisher and Dinku Endale, USDA Agricultural Research Service

Biological Indicators of Water Quality

Moderator: *Carol Couch, U.S. Geological Survey*

Development of a Standardized Index of Biotic Integrity for the Piedmont Region of Georgia 287
Brian L. Shaner, Georgia Department of Natural Resources

Assessing Biological Effects of Animal Production on Intermittent Coastal Plain Streams 291
Stephanie Davis and Stephen Golladay, J.W. Jones Ecological Research Center, George Vellidis, Biological and Agric. Engineering Dept., and Catherine Pringle, Institute of Ecology, Univ. of Georgia

Unique Steephead Stream Segments in Southwest Georgia: Invertebrate Diversity and Biomonitoring 295
Sally Entrekin and Stephen Golladay, J.W. Jones Ecological Research Center, and Melanie Ruhlman and Craig Hedman, International Paper, Southlands Experiment Forest

Invertebrates Associated with Coarse Woody Debris in Streams, Upland Forests, and Wetlands: A Review 299
Amy Braccia and D.P. Batzer, Department of Entomology, University of Georgia

Sediment in Streams

Moderator: *Terry Sturm, Civil Engineering, Georgia Institute of Technology*

In-Situ Monitoring of Suspended Sediments: Development of a Densimetric Monitoring Instrument	303
<i>Daniel L. Calhoun and Todd C. Rasmussen, Warnell School of Forest Resources, University of Georgia</i>	
Daily Sediment Loads in the North Oconee River	307
<i>Bobbie Cox and Todd C. Rasmussen, Warnell School of Forest Resources, University of Georgia</i>	
Stream Sediment Transport and Associated Water Quality Modeling	310
<i>Wei Zeng and M.B. Beck, Warnell School of Forest Resources, University of Georgia</i>	
Experimental Evaluation of HELPQ Leachate Generation and Quality	314
<i>Jennifer N. Patty, ARCADIS Geraghty & Miller</i>	

Sediment Effects on Stream Biota

Effects of Land-use Change on Sediment Transport and Fish Assemblage Structure in Southern Appalachian Streams	318
<i>Andrew Sutherland, Judy L. Meyer, and Ned Gardiner, Institute of Ecology, University of Georgia</i>	
A Scientific Basis for Erosion and Sedimentation Standards in the Blue Ridge Physiographic Province	321
<i>Judy Meyer, Andrew Sutherland, Kevin Barnes, David Walters, and Byron Freeman, Institute of Ecology, University of Georgia</i>	
Effects of Sand Dredging on Channel Morphology, Invertebrate Communities, and Fish Communities in Urban DeKalb County Streams	325
<i>Chris Decker, Jennifer Keyes, C. Rhett Jackson, Jay Shelton, and Ben Jackson, Warnell School of Forest Resources, University of Georgia</i>	
Evaluating Water Quality of Navigable Waters in Georgia Using a Geographic Information System	329
<i>Diane C. Burgoon and Keith W. McFadden, U.S. Geological Survey</i>	

Reservoir Water Quality

Sponsor: *Georgia Lake Society*

Moderator: *Bill Tietjen, Georgia Southwestern University*

Identification of Effective and Cost Efficient Tailrace Water Quality Enhancement Techniques at Buford Dam, Gwinnett County, Georgia	*
<i>Jerry D. Jones, U.S. Army Corps of Engineers, Mobile District</i>	
Conasauga River Discharge and Thermal Behavior as Demonstrated by Temperature Monitoring of a Pumped Storage Reservoir Water Release	330
<i>Barry G.H. Browne, and James F. Renner, Golder Associates Inc.</i>	
Erosional Process and Its Potential Control at Thurmond Lake	334
<i>Bruce K. Ferguson, School of Environmental Design, University of Georgia</i>	
A Critique of New Water Quality Criteria in Georgia: Policy and Ecological Implications	338
<i>Emma J. Rosi, Institute of Ecology, University of Georgia</i>	

Lake Water Quality Management

Sponsor: *Georgia Lake Society*

Moderator: *Ron King, Law Engineering*

Identifying Key Model Parameters in Matching Observed Past and Possible Future Behaviors for Lake Oglethorpe, Georgia	341
<i>F. Osidele and M.B. Beck, Warnell School of Forest Resources, University of Georgia</i>	
Comparison of Lake Sinclair Cove and Main Channel Water Quality, 1998	346
<i>Tom Broadwell, Georgia Power Company</i>	
Water Quality Dynamics in Lake Lanier	350
<i>Zeng Xiao-Qing and Todd C. Rasmussen, Warnell School of Forest Resources, University of Georgia</i>	
Volunteer Monitoring with Georgia Lakes Society Inc.'s Adopt-A-Lake Program	354
<i>Cindy Stokes, Department of Biological and Physical Sciences, Kennesaw State University</i>	

ANNUAL MEETING OF THE GEORGIA LAKE SOCIETY: March 31, 5:15 PM
 Contact: *Ron King, President, Georgia Lake Society <RKING@kennesaw.Lawco.com>*

TRACK V. RIVER BASIN MANAGEMENT

"Real-Time River Forecasting, Advantages and Limitations"

Moderator: *Reggina Garza, NOAA Southeast River Forecast Center*

The National Weather Service River Forecast System 356
Todd Hamill, National Weather Service Southeast River Forecast Center

Lumped and Semi-distributed Modeling using NEXRAD Stage-III Data: Results from Continuous Multi-year Simulations 359
Michael Smith, Victor Koren, Ziya Zhang, and David Wang, National Weather Service Hydrologic Research Lab

Utilizing Radar Data to Improve Streamflow Forecasts 363
Keith Stellman, Henry Fuelberg, Florida State University, and Reggina Garza, National Weather Service Southeast River Forecast Center

Quantitative Precipitation Forecast: Its Generation and Verification at the Southeast River Forecast Center 366
Jack Bushong, National Weather Service Southeast River Forecast Center

Georges over Puerto Rico 374
Reggina Garza and Jonathan Atwell, National Weather Service Southeast River Forecast Center

PANEL: Coordination and Response Efforts During the El Nino Floods of 1998

Moderator: *John Feldt, NWS Southeast River Forecast Center*

Introduction and Overview of Event/Role of SERFC *
John Feldt, Hydrologist in Charge, National Weather Service Southeast River Forecast Center

Role of USGS *
Tim Stamey, Surface Water Specialist, U.S. Geological Survey

Role of GEMA *
Charlie English, Acting Director of Operations, Georgia Emergency Management Agency

Role of USACE *
Ed Burkett, Chief, Water Management Section, U.S. Army Corps of Engineers, Mobile District

Role of Municipality *
Ann Zimmer, Assistant Engineering Director, City of Albany

Wetlands Mitigation Issues

Moderator: *Keith Parsons, Georgia DNR Environmental Protection Division*

The Georgia Wetlands Trust Fund: An In-lieu Fee Program for Wetlands Mitigation 381
Hans Neuhauser, Georgia Land Trust Service Center, and Rebecca Rowden, Office of Counsel, Savannah District, U.S. Army Corps of Engineers

Wetland Mitigation Banking in Georgia, Trends and Projections *
Keith A. Parsons, Georgia Department of Natural Resources, Environmental Protection Division

PANEL: Wetlands Mitigation Banking

Moderator: *Keith Parsons, Georgia DNR Environmental Protection Division*

Panel Discussion: Wetlands Mitigation Banking *
Art Berger, Wet, Inc., Robert J. Holbrook, Wet, Inc., Steve Jones, Environmental Services, Inc., Walter Stevens, Marshlands Plantation, Inc., Richard Morgan, U.S. Army Corps of Engineers, Bob Lord, U.S. EPA Region 4, Kathy Chapman, U.S. Fish And Wildlife Service, David Rackley, NOAA, National Marine Fisheries Service, Keith Parsons, Georgia DNR Environmental Protection Division

TMDLs: Past, Present, and Future

Moderator: *Ron Mikulak, Chief, Technical Support Section, U.S. Environmental Protection Agency, Region 4*

Overview and Status of Recent Activities in the TMDL Program	*
<i>Ron Mikulak, Chief, Technical Support Section, U.S. Environmental Protection Agency, Region 4</i>	
Total Maximum Daily Load (TMDL) Development and Georgia Agriculture	384
<i>Jimmy Bramblett, USDA Natural Resources Conservation Service</i>	
State of Georgia's TMDL Program	*
<i>Mork Winn, Georgia Department of Natural Resources Environmental Protection Division</i>	
TMDL Development: Cheap, Fast, Accurate (Pick Two)	389
<i>Jim Greenfield, U.S. Environmental Protection Agency, Region 4</i>	

River Basin Management Plans

Moderator: *Sally Bethea, Upper Chattahoochee Riverkeeper*

South Carolina Water Plan	392
<i>Rodney Cherry and A.W. Badr, South Carolina Department of Natural Resources</i>	
Oconee River Basin Plan: A Focus on the Law and Process	394
<i>Ann Pickett, Georgia Environmental Policy Institute</i>	
Sustainability Criteria for Water Resource Systems	396
<i>George McMahon, Camp, Dresser & McKee Inc.</i>	
SPIECES: Stepwise Procedure for Incorporating Environmental Consideration into Engineering Solutions	399
<i>Tim Foutz, Brahm Verma, Sid Thompson and Alireza Esteghlalian, Biological and Agricultural Engineering Department, University of Georgia</i>	

Citizen Participation in Basin Planning

Moderator: *Tom Nessmith, U.S. Environmental Protection Agency, Region 4*

Participation in Watershed Management: Are All Things Created Equal?	*
<i>Gail Cowie, Fanning Institute, University of Georgia</i>	
Valuing Ecosystem Quality through Environmental Indicators	402
<i>Nanette Nelson and Andrew G. Keeler, Agric. and Applied Economics Department, University of Georgia</i>	
Designing Management Strategies that Integrate Stakeholder Beliefs and Scientific Models: A Case Study of Lake Lanier	405
<i>Sarah Coffin, College of Architecture, City Planning Program, Georgia Tech, Brian Fath and M.B. Beck, Warnell School of Forest Resources, Univ. of Georgia, Bryan Norton, School of Public Policy, Georgia Tech, and Anne Steinemann, College of Architecture, City Planning Program, Georgia Institute of Technology</i>	
A Decision Support System for Shared-Vision Planning and Management of Lake Victoria in East Africa	*
<i>Aris Georgakakos, Georgia Water Resources Institute</i>	

Water Agency Directors' Program Summaries

Moderator: *Tim Hale, U.S. Geological Survey*

Nolton Johnson, Georgia Department of Natural Resources, Environmental Protection Division
Leroy Crosby, Planning Division, U.S. Army Corps of Engineers, Savannah District
Michael Gleaton, Georgia Department of Community Affairs
Shirley Merritt, Deputy State Conservationist, Natural Resources Conservation Service

State and Federal Responsibilities in Water Management

Moderator: *Doug Mundrick, U.S. Environmental Protection Agency, Atlanta*

Federal-State Environmental Agency Relationships: A Weak Confederacy	409
<i>Douglas P. Haines, Georgia Center for Law in the Public Interest</i>	
Insight into State and Local Government Responsibilities for Effective Watershed Management in Georgia	413
<i>Alice E. Miller, Institute of Ecology, and James E. Kundell, Carl Vinson Institute of Government and Institute of Ecology, University of Georgia</i>	
Public Participation and Environmental Justice in Selected Watershed Projects in Georgia and Alabama	417
<i>Sandra Crismon, Department of Anthropology, University of Georgia</i>	

TRACK VI. GROUNDWATER AND COASTAL ISSUES

Agricultural Water Use

- Agricultural Irrigation Trends in Georgia 421
Kerry A. Harrison and Anthony Tyson, Biological and Agricultural Engineering Department, College of Agriculture and Environmental Sciences, University of Georgia
- Crop Water Use as a Function of Climate Variability in Georgia 425
Vesselin Alexandrov and Gerrit Hoogenboom, Biological and Agricultural Engineering Department, University of Georgia, Griffin Experiment Station
- Agricultural Water Consumption in the ACF River Basin: Current Approaches for Quantifying Irrigation in Georgia 429
James E. Hook, National Environmentally Sound Production Agriculture Lab and Crop and Soil Sciences Department, University of Georgia, Elizabeth R. Blood, J.W. Jones Ecological Research Center, Daniel L. Thomas, and Kerry A. Harrison, Biological and Agricultural Engineering Department, University of Georgia, and Ralph Powell, Georgia Power
- Agricultural Water Consumption in the ACT/ACF River Basins: Approaches for Projecting Irrigated Acreage and Amounts 433
Elizabeth R. Blood, J. W. Jones Ecological Center, James E. Hook, NESPAL and Crop and Soil Sciences Department, University of Georgia, Tifton, and Kerry A. Harrison, Biological and Agricultural Engineering Department, University of Georgia

Wetlands

Moderator: *Ronnie Haynes, U.S Fish and Wildlife Service*

- Water Quality and Aquatic Macroinvertebrates in Three Types of Reference Limesink Wetlands in Southwest Georgia 439
Juliann Battle and Stephen Golladay, J.W. Jones Ecological Research Center
- Sediment and Nutrient Accumulation in Floodplain and Depressional Cypress-gum Forest Soils of Southwestern Georgia 443
Christopher B. Craft and William P. Casey, J.W. Jones Ecological Research Center
- Relationships Among Soil Lithology, Timber Harvest and the Hydrology of Coastal Plain Depressional Wetlands 447
Melinda Mosner and C. Rhett Jackson, Warnell School of Forest Resources, and Darold P. Batzer, Department of Entomolgy, University of Georgia
- Atlantic White Cedar Wetlands in West-Central Georgia 451
Scott Lamb, Department of Geography, Georgia State University

Coastal Groundwater

Moderator: *Rick Krause, U.S. Geological Survey*

- Aquifer Interconnection in Eastern Chatham County, Georgia, as Indicated by Hydraulic and Water Chemistry Data 455
John S. Clarke, Cardwell H. Smith and James B. McConnell, U.S. Geological Survey
- Groundwater and Salt Water Modeling in Coastal Areas 457
Mark Maimone, Camp, Dresser & McKee
- Cumberland Island National Seashore: Linking Offshore Impacts to Mainland Withdrawals from a Regional Karst Aquifer 463
Sydney T. Bacchus, Institute of Ecology, University of Georgia

Coastal Water Supply

Moderator: *Rick Krause, U.S. Geological Survey*

- The Local Comprehensive Water Supply Management Plan Development Process: A Review of Bulloch, Liberty and McIntosh Counties 473
Richard A. Douglas, Coastal Georgia Regional Development Center

Water Supply Planning as a Growth Management Tool in Coastal Georgia	477
<i>David Rutherford, Coastal Georgia Regional Development Center</i>	
The Glynn County Water Resources Management Plan	479
<i>David M. Ashley, Jordan, Jones & Goulding Inc.</i>	
Public-private Partnerships in the Delivery of Water Supply	*
<i>Mary Carole Cooney, TSG Holdings, Inc.</i>	
Surface Water Withdrawal and Coastal Economic Issues	484
<i>David Kyler, Coastal Georgia Center for Sustainable Development</i>	

Savannah River Basin

Moderator: *Leroy Crosby and Terry Stratton, Planning Division, U.S. Army Corps of Engineers, Savannah District*

Savannah River Basin Water Budget and Reservoir Operation Model	486
<i>A.W. Badr, South Carolina Department of Natural Resources</i>	
Savannah River Basin Comprehensive Water Resources Management Study	488
<i>Leroy G. Crosby, Planning Division, U.S. Army Corps of Engineers, Savannah District</i>	
Effects of a Turbo Scouring on Striped Bass Eggs in the Savannah River	491
<i>Alexander J. Wyss, E. Aylin Ozmelek, Robert R. Burks, and James F. Renner, Golder Associates Inc., and David R. Harmon, CITGO Asphalt Refining Company</i>	
Back River Section 1135 Environmental Restoration Study, Savannah River, Georgia/South Carolina	495
<i>Terry Stratton, Planning Division, U.S. Army Corps of Engineers, Savannah District</i>	

PANEL: Savannah Harbor Deepening Project

Moderator: *Judy Jennings, Coastal Georgia Chapter, Sierra Club*

Panel Discussion: Savannah Harbor Deepening Project	500
<i>Judy Jennings, Coastal Georgia Chapter, Sierra Club, Sam Drake, Savannah Coastal Refuges, Keith Parsons, Georgia Department of Natural Resources, Environmental Protection Division, David Kyler, Coastal Georgia Center for Sustainable Development, and Tom Meronek, Georgia Department of Natural Resources, Fisheries Section</i>	
Proposal to Deepen Savannah Harbor from 42' to 48': <i>Representative, Georgia Ports Authority</i>	
FWS Views on the Harbor Project's Effects: <i>Sam Drake, Savannah Coastal Refuges</i>	
Striped Bass Fishery in the Lower Savannah River: <i>Tom Meronek, Georgia DNR, Fisheries Section</i>	
Georgia EPD's Section 401 Evaluation of the Harbor Deepening Proposal: <i>Keith Parsons, Georgia DNR Environmental Protection Division</i>	
Economic Impacts of the Project on Commercial and Recreational Fisheries and Tourism in Chatham County: <i>David Kyler, Coastal Georgia Center for Sustainable Development</i>	

Groundwater Contamination

Moderator: *John Clarke, U.S. Geological Survey, Doraville*

Demonstrating Natural Attenuation with the Electric Power Research Institute's Multi-chemical Groundwater Transport Model ROAM	502
<i>Steve Bearce, Southern Company Services</i>	
Occurrence of Nitrates in Georgia's Groundwater	*
<i>William I. Segars, Crop and Soil Sciences Department, University of Georgia</i>	
Investigation of the Source of Nitrate Contamination in the Upper Floridian Aquifer Near Albany, Georgia	507
<i>David Wenner, Dept. of Geology, Univ. of Georgia, and Susan M. Reyher, Dougherty County Health Dept.</i>	
Evaluation of a BTEX Plume in Fractured Crystalline Rock in the Georgia Piedmont	511
<i>James B. Feild and John F. Dowd, Department of Geology, University of Georgia</i>	

Ground and Surface Water Hydrology

Moderator: *John Clarke, U.S. Geological Survey, Doraville*

Krypton Tracer Test to Characterize the Recharge of a Highly Fractured Aquifer in Lawrenceville, Georgia	516
<i>Momin K. Uddin, John F. Dowd, and David B. Wenner, Department of Geology, University of Georgia</i>	

Estimating Flood Frequency in Gaged and Ungaged Watersheds	520
<i>Bruce A. Pruitt, Institute of Ecology, Wade L. Nutter, School of Forest Resources, University of Georgia, and William B. Ainslie, U.S. Environmental Protection Agency, Region 4</i>	
The Effects of Antecedent Rainfall Upon Stream Runoff in the Coastal Plain of Georgia	524
<i>Seth Rose, Department of Geology, Georgia State University</i>	
Trends in Salinities and Flushing Times of Georgia Estuaries	528
<i>Merryl Alber and Joan E. Sheldon, Marine Sciences Department, University of Georgia</i>	

POSTERS

A Georgia Watershed Atlas Directory	532
<i>Olin M. Ivey, Georgia Environmental Organization, Inc., E. Lynn Usery, and W. Wayne Boone, Department of Geography, University of Georgia</i>	
Athens Community Watershed Project	544
<i>Margaret Barfield, Interdisciplinary Program in Toxicology, University of Georgia, and Douglas P. Haines, Georgia Center for Law in the Public Interest</i>	
The Environmentors Program: An Outreach Program for High School Students	548
<i>Erin Clark, U.S. Fish and Wildlife Service</i>	
Farm*A*Syst/Home*A*Syst	550
<i>Lisa Ann Kelley and Mark Risse, Agricultural Pollution Prevention, Biological and Agricultural Engineering, University of Georgia</i>	
Summary of Selected U.S. Geological Survey Programs in Georgia, with Emphasis on Water Resources Investigations	552
<i>Steven D. Craigg and John S. Clarke, U.S. Geological Survey</i>	
Water Use in Coastal Georgia by County and Source for 1997 and Trends, 1980-97	556
<i>Julia L. Fanning, U.S. Geological Survey</i>	
Ag. Water Pumping: A New Program to Evaluate Agricultural Water Use in Georgia	560
<i>Daniel L. Thomas, Cathy Myers-Roche, and Kerry A. Harrison, Biological and Agricultural Engineering Department, University of Georgia, Coastal Plan Experiment Station, Tifton, James E. Hook, NESPAL, Anthony W. Tyson, BAE, Gerrit Hoogenboom, BAE, and William I. Segars, Crop and Soil Sciences Department, University of Georgia</i>	
Water Levels in the Upper Floridian Aquifer in the Coastal Area of Georgia, 1990-98	563
<i>Michel F. Peck, U.S. Geological Survey</i>	
Hydrogeology of the Lawrenceville Area, Georgia	566
<i>Melinda J. Chapman, U.S. Geological Survey, Thomas J. Crawford, State University of West Georgia, and W. Todd Tharpe, U.S. Geological Survey</i>	
Differences of Soil Water Use, Lint and Biomass Yield in No-till and Conventionally Tilled Cotton in the Southern Piedmont	570
<i>D.M. Endale, USDA Agricultural Research Service, D.E. Radcliffe, Crop and Soil Science Department, University of Georgia, J.L. Steiner, USDA Agricultural Research Service, Miguel L. Cabrera, Crop and Soil Science Department, University of Georgia, D.V. McCracken, Consultant, B.V. Vencill and L. Lhor, Crop and Soil Science Department, University of Georgia, and H.H. Schomberg, USDA Agricultural Research Service</i>	
Land Model: A Simulation Tool for Estimating the Nutrient Dynamics from Land-applied Animal Manure	574
<i>Daniel R. Hitchcock, Biological and Agricultural Engineering Department, Miguel L. Cabrera, Crop and Soil Science Department, and Matt C. Smith, Biological and Agricultural Engineering Department, University of Georgia</i>	
Nitrate Adsorption Model for Georgia Variable Charge Subsoils	578
<i>Nikolla P. Qafoku and Malcolm E. Sumner, Crop and Soil Sciences Department, University of Georgia</i>	
Modeling the Effect of Slope and Precipitation on Lateral Flow in a Piedmont Soil	582
<i>Elizabeth Crisfield and David E. Radcliffe, Crop and Soil Sciences Department, University of Georgia</i>	
The Missing Component in Forest Hydrology Models	586
<i>Sydney T. Bacchus, Institute of Ecology, University of Georgia</i>	

Tracing the Mixing and Movement of Groundwater into Florida Bay with Four Naturally Occurring Radium Isotopes	590
<i>Peter Swarzenski, Charles W. Holmes, and Eugene A. Shinn, U.S. Geological Survey, and Willard S. Moore, Department of Geological Sciences, University of South Carolina</i>	
Tritium Concentrations in Northeast Georgia Rainwater	593
<i>Richard Jakiel, Georgia Department of Natural Resources, Marie Weber-Goeke, School of Mechanical Engineering, Georgia Institute of Technology, Robert Rosson and Bernd Kahn, Environmental Resources Center, Georgia Institute of Technology</i>	
Lead Accumulation in Soft Tissues and Shells of Asiatic Clams (<i>Corbicula fluminea</i>)	597
<i>Deanna E. Conners, Stacy M. Westerfield, Anna Feyko, and Marsha C. Black, Department of Environmental Health Science, University of Georgia</i>	
Advantages of a Multidisciplinary Approach to <i>In Situ</i> and On-site Phytoremediation of Contaminated Surface and Ground Waters	601
<i>Sydney T. Bacchus, Institute of Ecology, University of Georgia, Sridhar Susarla and Steve C. McCutcheon, U.S. Environmental Protection Agency</i>	
GIS Database of the Conservation Lands of Georgia	*
<i>John Paul Schmidt, Institute of Ecology, University of Georgia</i>	
Research and Education Garden: Disseminating Pollution Prevention Information for Urban Landscapes	602
<i>Susan M. Varlamoff and Joyce G. Latimer, Georgia Station Research and Education Garden, University of Georgia, Griffin</i>	
AUTHOR INDEX	604

EXHIBITS

Agricultural Pollution Prevention

Mark Risse, Biological and Agricultural Engineering Department, University of Georgia

Engineering at UGA: Impacts on Water Resources

George Vellidis, Biological and Agricultural Engineering Department, University of Georgia
Southeast Watershed Research Laboratory, USDA-ARS, Tifton, GA,

Richard Lowrance, USDA-Agricultural Research Service, Tifton, Georgia

Research and Education Garden: Pollution Prevention for the Landscape

Susan Varlamoff, University of Georgia, Georgia Station Research and Education Garden

Programs of the Savannah District Corps of Engineers

Robert Wilson, U.S. Army Corps of Engineers

Coastal Fisheries and Water Resources Permitting Issues

David Kyler, Coastal Georgia Center for Sustainable Development

Georgia Pollution Prevention Assistance Division, *Jancie Hatcher*

National Park Service, Rivers, Trails, and Conservation Assistance, *Mary Rountree*

Griffin's Stormwater Utility, *Leslie Beaur, Griffin Power Co.*

The Nature Conservancy, *Christi Lambert*

American Water Resources Association, *Mark Landers*

Association of County commissioners of Georgia, *Ross King*

American Water Works Association, Georgia Section, *Jack Dozier*

Georgia Groundwater Association, *Debbie Warner*

American Society of Civil Engineers, Georgia Section, *Hal Wiedeman*

Georgia Water and Pollution Control Association, Inc., *Jack Dozier*

Georgia Lake Society, *Ross King*

Georgia Soil and Water Conservation Commission, *Bill White*

Georgia Water Wise Council, Inc., *Fox McCarthy*

Georgia Rural Water Association, *Jimmy Mathews*

Mobile District, U.S. Army Corps of Engineers, *Bruce Thorton*

National Resource Conservation Service, *Jimmy Bramblett*

National Weather Service, *Mark Fuchs*

Savannah District, U.S. Army Corps of Engineers, Planning, *Leroy Crosby*

Soil and Water Conservation Society, *Jean Steiner*

The Georgia Conservancy, *John Sibley*

U.S. Environmental Protection Agency, *Jennifer Gardner*

U.S. Fish and Wildlife Service - Georgia Office, *Greg Masson*

Upper Chattahoochee River Keeper, *Sally Bathea*

AWARE (Animal Waste), *David Radcliffe, University of Georgia*

Gray's Reef National Marine Sanctuary, *Becky Shortland*

National Wildlife Federation, *Andrew Schock/Carolyn Wald*

Adopt-A-Stream, Georgia Environmental Protection Division, *Peter Giroux*

Environmental Protection Division, Drinking Water (Water Resource Branch), *Charles Hoefler*

Georgia Environmental Partnership, *Tina Williams*

University of Georgia and P²AD, *Lisa Kelly*
