PHI KAPPA PHI AND TAU BETA PI ELECT SENIORS TO MEMBERSHIP

Nineteen Selected By Honorary Frat

Various Departments Represented

Phi Kappa Phi, national honorary fraternity, is symbol of the highest honor that the student can win in a scholastic way. This fraternity has chapters in all of the large colleges of liberal arts, science and state schools in general. A chapter was established at Tech 14 years ago and has been the honor fraternity of the campus since then.

The aim and purpose of the fraternity is to promote scholasticism, fidelity to the school and the development of character. Election to the chapter is most jealously guarded as to the type and standing of the student elected. He must have had an average of 80 or above for the first three years of school and have been deficient in no subject for the entire time. Not only must the student have qualified in a scholastic way but must have shown unusual work and interest in the school work in general and proven his ability to honor the fraternity.

If a large number of men have high averages the highest seven per cent from each department are chosen.

This year the following men have been elected:

Arch.—Mylius, C. R.
Chem.—Sims, H. D.
C. E.—Ezell, E. E.; Henry, R.; Hitchcock, I. C.

Commerce—Baggerly, J. H.; Foote, W. E.

Co-op.—Casselman, A. L.; House, S. F.; Murray, I. L.

E. E.—Bush, F. W.; Clever, O. P.; Hart, J. A.; Trosdale, E. S.

Gen. Science—Humphries, C. L.

M. E.—Dunkin, W. T.; Moore, J. W.

T. E.—Bickers, H. F.; Pund, H. R.

Professor Lloyd W. Chapin was elected from the faculty.

Officers of the coming year are: President, Prof. J. L. Daniel (Chem.); Vice-President, N. F. Beardsley (Phys.); Secretary, J. E. McDaniel (Co-op.); Treasurer, R. S. Howell (E. E.).

Nashville Furnishes Gay Times for Students

School Well Represented

Putting it in plain every day English the trip to Nashville wasn't so hot. It was probably due to the weather, and to the game. We just weren't satisfied with the game, that's all. Of course there was plenty of action, and excitement galore. We couldn't ask for more. But then it is the score that really counts and a tie never satisfies anybody, especially us poor nuts who bet on the game.

The weather put a cramp in us the first thing, it was cold and it was rainy. How could you expect us to take the town on such a dismal day. We didn't want it anyway. Nashville doesn't come up to our idea of a college town. Neither do the cops strike us as being efficient on the day of a football game.

We should say a word or two about the number of Tech supporters at the game, but more can be said about the way these fans got there. Cars, trains, and old Fords took the majority of the people up, but a goodly number tried bumming and with good results in most cases. The idea of hiding under the berths was very good but it didn't work. On one train they dug us out with a stick, on the other they used a flashlight. But the sad part was, after they caught us

(Continued on Page 8, Column 2)

Nine Men Chosen by Engineers

Elect Juniors at Close of Term

Tau Beta Pi, national engineering fraternity, recently held its fall election of seniors. At this time of the year only seniors are elected, juniors being elected at the close of the first term.

The scholarship requirements for membership in Tau Beta Pi are very strict, only those whose grades are highest, attain this coveted honor. To be eligible for election, a senior must be in the upper fourth of his class and not have more than two deficiencies.

The seniors who were elected at this time were as follows: T. M. Williams, Co-op.; I. C. Hitchcock, C. E.; S. W. Kittredge, E. E.; J. A. Hart, E. E.; F. W. Bush, E. E.; J. C. Jett, Arch.; C. N. Hughs, E. E.; Carl Mylius, Arch.; Peter Pund, T. E.

The officers who have been elected for the coming year, are: Walter James, president; A. J. Law, vice-president; W. J. Holman, treasurer, and Reuben Hood, secretary.

It is announced that the initiation of the newly elected men will take place in about three weeks.

G.S.T.

TECH BRANCH A. I. E. E. TO BE REORGANIZED

J. A. Hart Elected Chairman

The seniors of the Electrical Engineering Department met with Prof. Hannaford, counselor, on Oct. 14 and voted to completely reorganize the Ga. Tech branch of the A. I. E. E. At this meeting, Prof. Hannaford spoke on the advantages of the A. I. E. E. and of its importance to the student as a future engineer.

On Oct. 28 the election of officers was held and the ballot showed that J. A. Hart was elected chairman; F. W. Bush, vice-chairman, and O. P. Cleaver was appointed secretary-treasurer. At this meeting Mr. C. E. Bennett, head of the Electrical Engineering Department of the Georgia Power Company and past chairman of the Atlanta section of the A. I. E. E., spoke on the "Three Wire Railway System." His talk helped to stimulate interest in the society and to start it on the way to a successful year.

The program for the year includes many local speakers of note and noted men from other sections of the U. S., together with other entertainment features. Under this stimulus the branch will soon take its place among the worthy organizations of the campus, as well as its proper rank among the branches of other universities and colleges.

G.S.T.

Bemis President of Civil Crew

Elect New Members Next Week

The Civil Crew, the honorary society for students in the Civil Engineering department, will elect its new members next week. About fifteen boys from the junior and senior classes are selected each year.

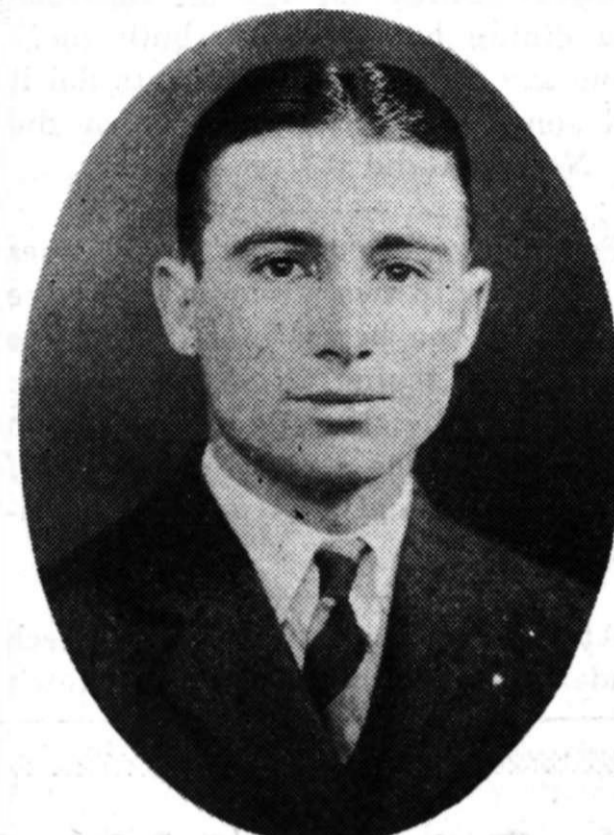

The officers for this year, elected at the last meeting are:

Henry Bemis, president; Ralph Bullard, vice-president; Bill Cabaniss, secretary and treasurer.

Ed White Attends P. D. E. Convention In Columbus, Ohio

May Bring Convention Here Next Year

Ed White, of the Georgia Tech chapter of Pi Delta Epsilon, is now in Columbus, Ohio, attending the convention of this leading fraternity of college journalists. Leaving Atlanta Wednesday evening White reached Columbus in time to take part in the opening session of the meeting, and he will remain in the Capital City of

ED WHITE

Ohio as a guest of the Ohio State, Cincinnati, and Ohio Wesleyan chapters of Pi Delta Epsilon through the final banquet tomorrow evening.

Pi Delta Epsilon is an honorary fraternity which rewards those men whom it selects from the staffs of the various publications on the campus, as having been outstanding in their first two or three years of service. Its object is to promote the college journalistic endeavors in an active way, and it is an important factor in elevating the policies of the campus publications, having as it does the membership and interest of all the outstanding leaders of these journals.

The convention last year was held at Berkeley, California, and at that time the chapter at Georgia Tech was designated as one of the half dozen most active and representative groups in the national fraternity.

As he left, White was confident that he could obtain for the Tech chapter the honor of entertaining the convention in Atlanta in 1929. It was thought that Emory University chapter and the men on this campus would co-operate in bringing the convention this far South for the first time.

G.S.T.

ANNOUNCEMENT

A notice of importance to all those who have put in application for football tickets at the Tech Athletic Association office was issued in a statement Monday afternoon. All tickets must be redeemed by Monday afternoon at 5 o'clock, November 21, as after that time they will be sold. This includes both Auburn and Georgia tickets.

The distribution of tickets to Tech students will be made at the Athletic Association office beginning November 21 at 8:30 o'clock. Pass book tickets will be redeemed on and after that date as no pass book will be accepted at the gate. The senior distribution of tickets will be made through the senior class officers. Juniors, sophomores and freshmen will get their pass books redeemed at the association office. This applies only to the Georgia game December 3.

There will be no reserved section for the underclassmen so the slogan of first come first served will hold full sway.

Members of the band will get their tickets from Director Frank Roman, workers on the field will NOT exchange their pass books.

Georgia tickets are precious and cannot be duplicated, so hold on to your tickets if you want to see the Tech-Georgia game.

LOUISIANA STATE TIGERS BRING STRONG TEAM TO GRANT FIELD

Ten Men Elected to Skull and Key

Society to Entertain Visiting Teams

The Skull and Key held a meeting on November 1st at which the new officers were installed. These are: Warner Mizell, president; Andrew Hutchinson, vice-president, and Bob Austin, secretary and treasurer.

The club in the future will try to make the visiting athletic teams feel at home in Atlanta. They will be told about the Tech dances at Garbers and about their invitation to the Capitol Theatre.

The new members of the Skull and Key are: John Lambert, Jimmy Frink, Harold Oltz, Harold Faisst, Bill Tate, Ward Grantham, Tommy Becknell, George Coffee, Wallace Pierpont, and Coker.

G.S.T.

IMPORTANT

There will be a meeting of the Senior Class next Tuesday at 11 o'clock in the Y. M. C. A. Chapel. There are important matters to be discussed. Every Senior be there!

G.S.T.

YELLOW JACKET ADDS THEATER REVIEWS

Gives Highlights of Local Shows

Again the Yellow Jacket comes forth with something new at Tech. This time it is in the nature of a Theatre "Preview". This is going to be a regular monthly attraction and should be a great boon to the students in that they can tell a month ahead what the attractions will be at the local show houses.

It is only necessary to look at this page and the student can see what the high-lights will be and something about the theme, or plot of the story.

While other college humor magazines use this feature very few of them have a write-up of the coming attractions a month ahead. The Yellow Jacket write-ups are interesting and are well worth the time.

The editor in charge of this section is Al Hudson.

G.S.T.

New Course Installed in C. E. Department

Shops Well Equipped for Welding Course

A new sophomore course in the heat treatment of steel has been installed in the department of civil engineering.

The purpose of this course is not primarily to produce expert welders but to enable every engineer to know how welds are made and tested, and to know from the appearance of a weld whether it is good or bad and the load it will carry. The course is very important on account of the modern tendency to change from riveted to welded joints.

Ox-acetylene and arc welding are under the instruction of Mr. Luter, while forge welding is directed by Mr. Thompson. The shops are well equipped for this course, having a Westinghouse, a General Electric, and a Lincoln arc welder, and also four ox-acetylene outfits.

The students first learn to do simple exercises and are later assigned to projects.

Tiger Line Heavier Than Jacket Wall

Tinsley and Nesom are Stars

After being upset by Ole Miss last Saturday, the L. S. U. Tigers invade the flats of Tech tomorrow with an idea of throwing several stumbling blocks in front of Tech's advance toward the Southern Conference Championship.

With a line that outweighs the Jackets, L. S. U. will be another Alabama to Tech in this sense. It will be line against line. Tech boasts of one of the best lines it has had in several years, so do the invading Tigers.

A certain Mr. Tinsley who plays tackle for the Junglers forms the main bulwark of defense. He takes plays into camp with uncanniness, and has proven to be a hard man to take out. Another man of note for the invaders is Guy Nesom. This boy is the running mate of Tinsley. He presents a very ready toe for a chance drop kick. These are the two outstanding men of the L. S. U. team, but Mike Donahue has plenty of scrap built into his other men; they're all dangerous.

Tech can well boast of one of the best lines in the conference. Such men as Crowley, Watkins, Spear, Hood, Pund, Drennan and others present a well balanced forward wall. Coached by Bill Fincher of all-American caliber, they will give the men of Donohue much to think about during the afternoon.

Durant will be at the helm for the locals, while opposing him will be Mason, quarter for the invaders. Durant's running mates will be Thomason, Mizell and Randolph. Thomason and Mizell can usually be depended on in running the ball for good yardage, Randolph is the line plunger de luxe.

L. S. U. will depend on its line plunging strength mostly, occasionally helped by the willing toe of Nesom.

With L. S. U. depending on smashing the line of Tech, and with Tech's ever-charging forward wall, a real battle of lines is chalked up for the week-end.

It will be the first home game for Tech in three weeks, losing to Notre Dame, and tying the much vaunted Vanderbilt team, Tech is all primed to take toll from the Tigers of L. S. U. tomorrow.

G.S.T.

Plans Made for Year by Ceramic Society

Wiener Roast Enjoyed at Monthly Meeting

The student branch of the American Ceramic Society held its regular monthly meeting on Thursday, November 3rd. The entertainment committee struttled its stuff and had a fine feed ready for the members. Wieners were roasted over a hot kiln and the buns were toasted and with all the other cuisine accessories they were devoured amid merriment and jollity. Down in the little ceramic building, a spirit of friendship thrives and such manifestations as this wiener roast are not at all uncommon.

The regular meeting followed the social hour and many plans were made for future meetings, neither the educational nor recreational side being neglected.

Dick McKinstry gave a talk on the process of manufacturing of white ware, which was enjoyed immensely.

Is the group which you are considering one that you would care to associate with for four years in college?

Would you be proud to have it known when you are an alumnus that you are a member of that fraternity?

Don't let the last minute arguments make you blind to others which you have heard earlier in the week. Consider them all thoughtfully and well, and let logic, not emotion, guide you in your decision.

Has the group been honest with you and with the other chapters on the campus? Have they been fair? If they have not, if they have not waited until the proper time they must have some doubts as to their ability to compare with other chapters.

It is better, infinitely better, never to have joined a fraternity than to go through college with the feeling that the group is not your kind.

Membership in a fraternity will develop you in many sides of life, and if you get in the right sort of chapter the development will be for the best, but if you make a mistake it may damage your whole career.

Suppose your uncle is a member of the chapter. He is not you. The members of the chapter are the ones which you should consider.

Versely Bray

By M & M

EVE

Eve, with her basket, was
Deep in the bells and grass,
Wading in bells and grass
Up to her knees,
Picking a dish of sweet
Berries and plums to eat,
Down in the bells and grass
Under the trees.

Mute as a mouse in a
Corner the cobra lay,
Curled round a bough of the
Cinnamon tall . . .
Now to get even and
Humble proud heaven and
Now was the moment or
Never at all.

"Eva!" Each syllable
Light as a flower fell,
"Eva!" he whispered the
Wondering maid,
Soft as a bubble sung
"Eva!" he said.

Picture that orchard sprite,
Eve, with her body white,
Supple and smooth to her
Slim fingers tips,
Wondering, listening,
Listening, wondering,
Eve with a berry
Half-way to her lips.

Oh, had our simple Eve
Seen through the make-believe!
Had she but known the
Pretender he was.

Out of the boughs he came,
Whispering still her name,
Tumbling in twenty rings
Into the grass.
Here was the strongest pair
In the world anywhere,
Eve in the bells and grass
Kneeling, and he
Telling his story low. . . .
Singing birds saw them go
Down the dark path to
The Blasphemous Tree.

Oh what a clatter when
Titmouse and Jenny Wren
Saw him successful and
Taking his leave!
How the birds rated him,
How they all hated him!
How they all pitied
Poor motherless Eve!
Picture her crying
Outside in the lane,
Eve, with no dish of sweet
Berries and plums to eat,
Haunting the gate of the
Orchard in vain
Picture the lewd delight
Under the hill tonight—
"Eva!" the toast goes round,
"Eva!" again.

—Ralph Hodgson.
(From Today's Poetry).

By N. D. P. Jr.

Oh but it is terrible to have to write about something, concentrate on it when your mind is in a condition, capably described by the phrase, "In a fog." Although the best we could get out of Vandy was a tie, but as far as I am and a lot of others are concerned the week-end was a huge success.

Oh my, somebody told me that rush week is on. Can you imagine such a barbarous thing taking place at this great college, the leading college of the South. The thing that seems so funny about the whole affair is that the students have a word and their word is final, caused by nothing more than keeping up with the pace set by this modern age allowing a man to select his friends for the next four years.

Question of the time, "Who made the grid survey for the lot that the new dining hall is to be built on?" Some say the C. E. '21 students did it and some say that the professor did it. Now who did it?

Practice makes perfect in all lines so it goes with two students who were setting on the bench in front of the commissary trying to see which one could come the closest to a quarter in the middle of the street by the use of their mouths and a large cut of Climax.

Atlanta girls chew their gum, Tech students chew their Climax. How's

that for proving a man is superior to a woman? You know that might be the reason why Hal Williams likes his gum so well.

Now if any of the above mentioned want to prove their equal to the he men of the campus, see Mr. Sheppard and he will see to it that you get a fair deal and your name placed among the immortals by giving you a true and false quiz.

I hope the Frat that intended to build a miniature of their future house on the campus got it done in time to do them some good during the open season on the freshmen. But if the freshmen are wise they will say to themselves, if I join up with this gang I'll have to help pay for that darn thing and I'll not even get to voice my opinions as to the good and bad qualities that it may have.

Rumor: After the first of the year the faculty are going to give a certain Frat that at present from all outside appearance is suffering from a penalty imposed on them by the council but on the inside doing very nicely for this time of the year, permission to initiate after all other fraternities have. What will the council do now?

Believe it or not in less than a month the great classic of the football season will be played leaving either Tech or Georgia the champions of the conference, at least that is what all fans are hoping for.

News From Other Colleges

Dartmouth College already begins to notice an effect of its selective plan for admitting freshmen. In order to maintain the college limit of two thousand each year the number of freshmen will be smaller until that limit is reached.

The five hundred freshmen must be exceptionally good in order to gain admittance from approximately fifteen hundred students, the usual number of applicants.

President Mary Wooley, for twenty-seven years head of Mount Holyoke College, says that the creed proclaimed by the student today is the right of the individual to do as she pleases.

She has firm faith in the college age and scorns as superficial any adverse criticism of the morality of the students of the present day as compared with those of the past years.

Her statement is upheld by the president of Vassar College who says that less students are dropped from the rolls due to moral infringements than were dropped ten years ago.

In a recent study by the Bureau of Education it was found that a total of over twenty-five million dollars was earned by students in 408 col-

leges of the U. S. Of the entire enrollment of these schools thirty-nine per cent of the students were partially or wholly self-supporting.

Of students in co-educational institutions forty-four per cent are working their way through. Of the 600 colleges embraced in the study only twenty-seven reported no earnings during the year.

The desire of followers of William Jennings Bryan, that a permanent memorial might rise on the spot where he appeared in his last public contest, has taken form.

Ground has been broken for the Bryan Memorial University at Dayton, Tenn. This school is so situated that it will command a broad view of the rugged foothills of eastern Tennessee where Bryan performed another public act that added fame to his name.

Girls at William and Mary College who do not make an average of eighty or more in all work are not allowed dates or other social privileges. This is done to keep up the scholastic standings of those who would otherwise have their minds on things outside of their classwork.

Freshman Mob Scene in Dormitories

Prof. Armstrong Quells Disturbance

Two incidents happened in the past week to disturb the monotony of dormitory routine. Thursday night about ten o'clock the dormitories were plunged without warning into darkness. Some of the rats banded together and, under the corridors' inky influence, started an impromptu glee club. Whereupon Prof. Armstrong appeared on the scene and sent them to bed with the information that lightless nights were to be observed in the same manner as were the other kind. The trouble was caused by a blown fuse at the power plant and was repaired in about an hour's time.

Then someone in Brown cut loose on the fire alarm, unintentionally of course. Possibly some inadvertent elbow broke the glass and pressed the button. Anyway no harm done.

Let us add that we were certainly glad to note the large number of empty dormitory rooms on the eve of the Vandy game.

G.S.T.

Blood Thirsty Profs Indulge in 'Possum Hunt

Two Victims Bagged

Professors of the Commerce department and their wives endeavored to solve the movements of 'Possum on Prof. Noel's farm last Tuesday—yes, the single ones were there too.

Bloodthirsty, with glittering eyes, and armed with menacing poles, the professors slunk, slid, slipped, and ran through the woods. Shriek, whistles, meows, cat-calls, false-sets, and bow-wows, joined in to locate the animal's whereabouts. Grunts, squeals, laughter, and shouts of triumph filled the air. And in the midst of all, Prof. Jefferies in a long flowing Chemistry Apron, was the "hit" of the chase. He stills maintains his apron is briar-proof.

We understand that some new and expressive language was introduced. Finally—Accounting, Finance, Typewriting, Salesmanship, Law, and Journalism—succeeded in capturing two 'possums.

With Prof. Duggan as chef, a huge barbecue was made ready, as tribute for the returning victors. Judge Merriwether, who stoutly maintained he would not eat 'possum, and who praised what he thought was lamb, found out later in the evening his meat had been changed.

G.S.T.

Football at Night Proves Success

Illumination Is Practical

For a number of years the idea of playing scheduled athletic games at night, with the aid of artificial illumination has been contemplated. The first baseball game at night was played some months ago, and according to several of the sports writers who covered the game, it was a complete success. All the high balls could easily be followed, and only two errors were made. Both could be made at an afternoon game.

Several football games have been played at night, and all proved to be extremely successful and highly practical. Each high punt could be seen and no trouble was experienced in following the plays. The giant stadium at Philadelphia, Soldiers' Field at Chicago have been lighted for boxing matches, and the Los Angeles Coliseum, with a seating capacity of 84,000 people, was illuminated for an open-air rodeo.

The lighting of large open spaces is attended with a great deal of ability. The requirements for football and baseball are entirely different, each case calling for the light to be projected in a special way.

Recently, the first football game at night in the South was played between two high school teams in Alabama, with 5,000 people attending. The game was pronounced a success, and it is only a question of a few years until many of the important intercollegiate as well as professional teams will practice and play at night.

RUSHEES!

With a little over a day left before you make your decision as to which of the fraternities you wish to join, take plenty of opportunity to consider all the phases of the situation.

**W. D. Stewart Jr., 25, Out of College 3 Years,
To Pay \$270,000 for Stock Exchange Seat**

William D. Stewart, Jr., 25 years old, who was graduated from the University of Pennsylvania in 1924, has arranged to purchase the New York Stock Exchange membership of Walter L. Ross, of Philadelphia for \$270,000, the highest price ever paid. Mr. Stewart has been a telephone clerk for the Stock Exchange firm of De Coppet & Doremus. Before going with that firm he was with the Chase National Bank for two years. If his transaction with Mr. Ross is arranged he will be one of the youngest members of the Exchange. Mr. Stewart is the fourth person to make a deal for the purchase of the seat of Mr. Ross, a brother of Charlie Ross, who was kidnapped many years ago. Each time that it has been necessary for Mr. Ross to negotiate a new deal he has been of-

fered a higher price for his seat. He first arranged to sell it to Malcolm Falk for \$224,000. That deal fell through for unannounced reasons and he made a deal with T. Hall Keyes for \$236,000. More recently he arranged to sell the seat to A. E. Fitkin, retired public utility operator, for \$255,000. When the Committee on Admissions a week ago yesterday failed to ratify that transaction he began negotiations which resulted in the deal with Mr. Stewart. If the latest sale is approved Mr. Ross will receive \$46,000 more than he would have received had the original transaction gone through.

—News item on front page of New York Times, Friday, Nov. 4.

Q This is the day of the young man in big things. Stewart's success is an example of what college men can do—early! You can imagine how Stewart has watched every opening — you can picture him only as being well groomed through college and straight on to now—making the right impression every step! How that does count!

Throughout the East in Univ. and the financial circles the young men are wearing the type of clothes you find in Muse's College dept.—(Third Floor)

At the Eastern Universities, and on the successful young men in the big financial centers the two outstanding models are the Correct 3-button and the Executive 2-button—

In patterns of a new type—H-pace tans and triple-lines and keen solids—

Stick to this—you get it in

"Greater Georgia" Yellow Jacket off Press Soon

COMPLETE STAFF TO BE ANNOUNCED

Appeal Made for Material

The "Greater Georgia Number" of Tech's Yellow Jacket will soon go to press. This issue, it is believed, will reach the peak of the Yellow Jacket successes, and certainly it will be the best issue before Christmas. Plans are being laid for this stupendous number to make it an issue that the student will want to send home.

Albert Armor, wishes that every student that knows some crack, quip and so on would turn it in to the Jacket. The Jacket wants to have a Tech issue again if it is possible. The last issue, the Kick-Off was made up of material entirely by Tech students. This is a very uncommon occurrence in any college magazine and the students of Tech should feel proud that Tech is one of the few schools that can do something of this nature.

Anything will be accepted—make 'em funny. Georgia, the schools of this state, and anything pertaining to this great Southland will be used—of course with reservations.

Many things are in store for the Jacket reader in this new issue coming out for the Georgia game, December 3rd. Much interest is being shown by the aspirants for the various staffs and they, with the Board of Editors are working hand in hand.

The complete staffs will be announced in this next issue. This selection will be very hard to make owing to the fact that all have shown such an active interest in the work.

Whether you wish to try out for the staff or not give your material to the Jacket. A good many boys write stuff and then file it away or keep it in a note book. This is particularly true of poems and themes for short stories. Give the Jacket this material. You will be given credit for it, or will give your fraternity credit for it.

Help make this next issue Tech's greatest. This is a student publication and every student should contribute something to it. Turn it in—it's your magazine.

—G.S.T.—

Uncle Heinie Celebrates Birthday

Past History With Tech Reviewed

Uncle Heinie, foreman of the woodshop and not nearly so well known as J. H. Henika, celebrated his seventy-second birthday yesterday.

Uncle Heinie began work at Tech in 1892 and after several years went to Florida.

He stayed away from Tech for two years and during his absence worked for the Atlanta Machine Works, building the patterns for the dome and stairways of the Piedmont hotel. This was very intricate work and most of the patterns had to be built out of cardboard.

In 1900 he returned to Tech as instructor and about 1905 he was promoted to foreman, holding this position ever since.

Uncle Heinie greatly resembled one of the leaders in the Boer war and was known for a time as Um. Paul.

Several years ago he devised a way of making a furniture veneer out of palmetto wood and has become noted throughout the South for his researches in wood and woodworking.

Dean Nelson Visits Textile Department

New Machine Received

The Knitting department of the Textile School has been the recipient of a machine from the Singer Sewing Machine Company. The process involved is used to finish knit goods and is a valuable asset to the school.

Dean Nelson, of North Carolina State, was a visitor to the Textile school last week. He was vitally interested in the course and equipment.

Peter Pund, Pres. of Phi Si, is making arrangements for the clubs first meeting.

Rushing Discussed at Inter-Frat Meeting

Dean Field Presents Cup

At the last meeting of the Interfraternity Council, various subjects were discussed but most of the discussion was devoted to the coming rush week.

The fact was emphasized that from 2 P. M. Saturday until 12 noon Sunday is a quiet period and it was pointed out that any Fraternity man seen with a Freshman during this period, would be violating the rushing rules.

At the close of the meeting, Dean Fields presented the Phi Kappa Sigma's with the scholarship cup for 1926-27, and the Pi Kappa Alpha's with the 1927 baseball cup. He gave impressive talks with each presentation.

The next meeting of the council will be held as soon after rush week as possible.

—G.S.T.—

INFANTRY BATTALION PRESENTS SPONSORS

The Sponsors of the Infantry Battalion of the R. O. T. C. were presented to their respective companies at a simple ceremony on last Monday afternoon at the regular drill period.

Major S. J. Heidner had charge of the ceremonies and the Infantry Unit made a good showing before the young ladies who are to furnish the inspiration for their drills this year. Each sponsor made a short talk expressing her appreciation and made a hurried inspection of "her" company.

The following young ladies are the sponsors of the Infantry Battalion for the year 1927-28: Miss Harriette Durham, Battalion Sponsor; Miss Christine Wolfe, Sponsor of Company "A"; Miss Harriette Wynne, Sponsor of Company "B"; Miss Virginia Risk, Sponsor of Company "C"; and Miss Julia Gardner, Sponsor of Company "D".

—G.S.T.—

Domestic Philosophy

"That was an excellent paper your daughter read on The Influence of Science as Applied to Practical Government."

"Yes, Helen is the pride of her class, and now that she has mastered the Influence of Science as Applied to Practical Government I hope she will be willing to find out something concerning the Influence of the Vacuum Cleaner as Applied to the Parlor Rug."—Boston Transcript.

SUNDAY MARKS END OF RUSH SEASON

Sunday morning at exactly noon-time, some four hundred Freshmen will place upon the left lapels of their coats the pledge button of the Fraternity of their choice.

After a hectic week of "rushing," Sunday will mark the climax of the season and will determine the efforts of the members of the Frats to pick the cream of the Freshman Class.

This is the first "Rush Week" under the new Pan-Hellenic rules and of course there are still some irregularities in the rules and their successful operation and the penalties for failure to obey the rules. But the consensus of opinion seems to be that they are much superior to the old rules and that they have accomplished their purpose.

JACKETS AND VANDY FIGHT TO TIE, 0-0

Stumpy and Spears Are Constant Threats

Pund and Mizell Star

Witnessed by 16,000 shivering and rain-dampened spectators, the Georgia Tech Golden Tornado and the University of Vanderbilt Commodores battled to a scoreless tie on Dudley Field here, last Saturday.

Both teams lost several opportunities to score, the most threatening one coming just as the last whistle blew. Tech, in the last quarter, marched down the field from her own 42-yard line to Vandy's 27-yard line. Here Warner Mizell, on a line play, dropped the low pass, Vanderbilt recovered, and the Jackets chance had come and gone. Vanderbilt, a few minutes later, passed for a long gain, but the ball was called back because of off-side. Then Bill Spears, on his famous cutback run, got into the open, and dashed to Tech's 9-yard line, where Stumpy forced him out of bounds. The Commodores failed to advance the ball and on the attempted drop-kick, the ball went wide, just as the whistle blew.

Both teams showed surprisingly strong defenses, Vanderbilt against the Tech line plays and Tech against

(Continued on Page 6, Column 1)

JUNIOR JACKETS TAKE ON BABY TIGERS

Cross-Country Team Freshmen Invade Tigers' Den for Annual Battle

Harriers Lose to Georgia

The University of Georgia's Cross-Country Team, led by Robert Young, a sophomore, repulsed the Yellow Jackets' invasion of Athens last Friday, by a final count of 23 to 32. This was the Jackets' first meet of the year while the Bulldogs defeated Auburn in a preceding meet.

Close behind the heels of Young came the Jacket charges Brewer and Wright. They were followed by four Georgia men, Crisfield, Jones, Adams, sophomores; and Beckton, senior. This was certainly a sophomore victory for the Bulldogs, as four out of five men were sophomores.

The Jackets invade Auburn today for a dual meet with the Auburn Tigers. Two weeks ago the Tigers lost a decision to the University of Georgia track men. The Jackets intend to register a defeat over the Auburn Tigers before the Southern Conference Cross-Country meet which will be held in Chapel Hill, North

(Continued on Page 8, Column 1)

Great Game Promised

Kid Clay's freshman squad, which has ridden rough-shod over all opposition thus far this year, seems to be on its way to another victory this afternoon, when they journey to Auburn to take on the Baby Tigers. The entire team is in first-class shape; these fighting Junior Jackets should have little trouble in getting another scalp to add to their string.

The boys of '31 are going to contribute plenty of future stars for Coach Alex to work with next year. A line from end to end, and at least one full back-field will be out on the varsity field in the Spring. Tom Jones, who made the All-Southern Prep eleven under Red Barron's tutelage last season, and Herron, Chattanooga's contribution, will fill any vacancies at the end positions. Jones should make a real name for himself. Hope, who hails from Little Rock the home of Wycoff, Williams, and Faist, and Maree, a husky lad from Savannah, will give the tackle candidates something to worry about. Guard positions for the next few seasons will be the not-vain aspirations of McKee, a big lad from Worcester Academy in Massachusetts, and Brook who came up from Columbus. Murray, one of U. S. B.'s ex-stars, and Kane, another Savannah lad are two of the most promising centers to perform under Kid Clay in recent years. The outstanding backfield men who will be eligible varsity material are: Lumpkin, a hard-hitting fullback; Dunlop, a fast, heady half; Strickland, another half, and Flowers, a quarter back.

The game this afternoon, with Auburn, is the last until November 26th, when the Bullpups of Georgia come to Grant Field to close the season.

Navy Receives Modern Gun

The Naval R. O. T. C. has just received a four inch, fifty calibre Navy gun of the type mounted upon destroyers. The gun is a new one, coming direct from the Naval Supply Base at Norfolk, Virginia. The cost of this gun, which is complete with mount, sights and telescopes, is about \$11,500. The gun will be mounted upon a concrete base in the corner of the assembly ground of the unit overlooking the campus and North Avenue.

The gun was issued to this unit in order that the student sailors might have an opportunity to study sighting and range finding with a big gun.

Tennessee Meets Vanderbilt in Feature

Alabama Plays Florida

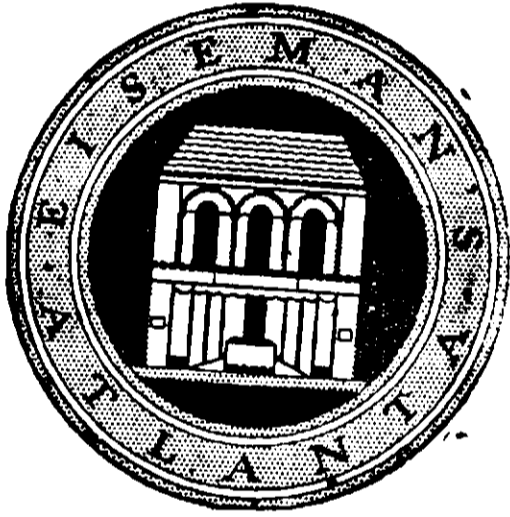

The University of Tennessee meets the Vanderbilt Commodores tomorrow afternoon at Knoxville. This game is probably a running-mate with the Tech-L. S. U. game, in Atlanta, as the two main games of the South to be played Saturday. Tennessee and Vandy have both powerful teams and it would be hard to say, until the last whistle has blown, which has the stronger team. Tech's game with the Tigers from Louisiana should prove to be most interesting. The Tigers have a strong defense. If you doubt this, ask any 'Bama man. This game will go a long way toward deciding Tech's standing in the Conference.

The Georgia Bulldogs hope to take it easy for a week or so playing the Clemson Tigers tomorrow afternoon and the following week meeting the Mercer Bears. Although the Tigers have not shown a very strong offense so far, they should give the Bulldogs a busy afternoon.

The Florida Gators will attempt to swim the Alabama Crimon Tide at Cramton Bowl in Montgomery, Saturday. The Alabamians will see the Tech-beaten Tide in action, and should fill the stadium. Tulane meets Sewanee at New Orleans.

The Eastern feature is the Princeton-Yale battle, which looms as the main tussle of the gridiron for Saturday's contests. The Notre Dame-Army is a headliner also. Ann Arbor will be in quite a stir when the Navy sails in the Michigan eleven in the West. The Illinois-Chicago game and the Minnesota-Drake contest will also be big numbers in the Western program.

Bulldogs Crush 'Gators As Irish Tie Minnesota

Notre Dame's victorious march towards national championship honors was almost stopped when Herb Joesting led the Minnesota team to a 7 and 7 tie with the South Bend Irishmen. Rockne, as usual, sent in his second team men who promptly proceeded to put a touchdown over as the result of a blocked punt. The game continued with the score 7 to 0 until the last few minutes of play when Minnesota recovered the ball on Notre Dame's 15-yard line. Three plays at the line failed but on fourth down, Joesting hurled a pass to Walsh for a counter. Pharmer, a substitute sent in to kick goal, did that thing and Notre Dame was given its closest call of this year.

Georgia added another Conference victory to its percentage Saturday when it slaughtered Florida 28 to 0. During the first quarter Georgia employed her second string backfield who

did not fare so well against the 'Gators. In the second quarter the first stringers went in and started the fireworks going. A pass, Johnson to McCrary soon put the opening score across. Florida made a desperate effort to score when they carried the ball to Georgia's six inch line. However, the Red and Black line held twice and the big danger was over. In the third quarter McCrary, the stellar Georgia fullback, was injured and had to be carried off the field.

Oglethorpe snapped off its losing streak and turned in a brilliant win over Presbyterian. Doped to lose by a large score the Petrels came back so strongly that they did not look like the same team of a week previous. Taliaferro, one of Oglethorpe's halfbacks took the opening kickoff and ran 95 yards to a touchdown. Not at all daunted, Jimmy Stamps, the P. C. (Continued on Page 8, Column 2)

Soundings From The Flats

F. L. M.

Georgia Tech's Yellow Jackets and Vanderbilt's Commodores, neither having been defeated previously to their engagement have temporarily relinquished their lead in the Southern Conference. Georgia, Tech's opponent in their last clash, Tennessee, and North Carolina State are the only undefeated and untied teams in the Conference.

The Jacket line demonstrated its superiority in the final minutes of play in the Vanderbilt game when on the nine yard line for first down they allowed "Spears & Co." only four yards in as many tries. Vanderbilt's aerial attack, though somewhat handicapped by the wet weather, was absolutely smothered by the Jackets.

Peter Pund, Jacket Center, played one of the greatest games of his career. He was in the middle of nearly every play and was responsible for

many of Vandy's losses. Tech's four tackles Hood, Spear, Thrash, and Watkins played a brilliant game of ball. Watkins, hero of the Alabama game, was most effective in the stopping of Bill Spears, Vanderbilt flash, and one of the greatest backs in the country.

One of Georgia Tech's football mainstays, and hero of the Vanderbilt contest has been highly honored by the school on account of his scholarship record and his fine character. Peter Pund, Jacket center, has been so honored with election to the jealously-guarded membership of the Phi Kappa Phi, National Honorary Scholarship Fraternity.

The Jackets distance men invaded Athens Friday for a dual meet with the University of Georgia cross-country team, but were repulsed by a 23 to 32 count. Led by Robert Young, a sophomore, the Georgia team registered their second victory, having defeated Auburn the week preceding. Brewer and Wright were the Jackets' bids for the meet and registered second and third place respectively.

Enthusiasm was extremely great in the fair city of Nashville but the weather was not that to which the Tech men are accustomed. The weather was cold and raining, and did not afford those who "bummed" their way up a great deal of comfort. It seemed that there were more Tech supporters in the cheering section than there were in the Vandy section.

An interesting feature of the game was the parade between the halves by the bands from both schools. Vandy's band, dressed in costumes of Black and Gold with a flowing cape, paraded around the field and formed a large "V". The Tech band, although their uniforms were not as gay as Vandy's, marched around and formed a large "T" playing the Jacket Battle Song, "Ramblin' Wreck."

Quite a bit of cheering in the Vanderbilt stands was created when a flock of white ducks, flying in "V" formation, on their way southward flew over the stadium.

The characteristic "night shirt parade" was lacking after the game but this did not alter the spirit of the situation to a great extent. The problem to most of the Tech men after the game was to find a way to get back to Atlanta, Grant Field, and better weather.

Ought to Stop Traffic
Grover C. Darrow, commissioner of public safety, today issued an order for the members of the traffic division of the police bureau to don their summer apparel while on duty, comprising a large straw hat, white shirt and black tie.—Schenectady paper.

JACKETS AND VANDY FIGHT TO TIE, 0-0

(Continued from Page 4)

the forward passes of the redoubtable Spears. Out of 13 passes attempted, Vandy completed only 2, one of these being called back, and the other being good for eleven yards.

For Georgia Tech, Peter Pund, Warner Mizell, and Stumpy Thomason starred. For Vanderbilt, Bill Spears, Armistead, and the two ends, Abernathy and Creson featured. The last two mentioned spoiled several of

Stumpy's nicest efforts, and contributed much worry for the Jackets during the afternoon.

Vandy opened the game, after taking the ball from Tech, by two pretty runs by Armistead and Spears. Here, however the Jackets got together and repulsed another Vandy rush. The Commodores were as dangerous, if not more so, than at the end of the game. Things rocked along until the end of the quarter, with nothing especially happening, except Spears attempting more passes which were duly knocked down by Tech's side-backs. At the

beginning of the second quarter the only completed pass of the game was made. It was good for eleven yards, Spears to McIlwain. A real Tech threat was stopped in the third quarter when a microscopic examination proved that the ball went over to Vandy on her own 35-yard line.

The third quarter was also uneventful, with Thomason out, and Spears failing to show any spectacular runs. He was always a threat though, and was covered during the whole game. The last quarter saw Tech's biggest marsh. From Tech's 42-yard line to Vandy's 27-yard line the ball went. Here, Mizell fumbled and the Sea-Captains recovered. Vanderbilt took a new lease on life at this point, and rooted out her most serious advance. When Shulman fumbled Spears' punt in midfield, Creson recovered on Tech's 42-yard line. Tech held, and Vandy punted to Tech's 18-yard line. Smith, replacing Shulman, called a pass. Owen intercepted it and the ball rested on Tech's 38-yard line. At this juncture, Bill Spears got away for the first time during the game and raced to Tech's nine yard line, where he was forced out of bounds. The drop-kick, just at the end of the game, failed and the score was still 0-0.

The Jacket's made twelve first downs to Vandy's six; Mizell outpunted Spears by 40 to 34 yards average, and only one Vanderbilt pass was completed. Tech gained 175 yards to Vandy's 144, with Stumpy doing the better part of the gaining.

ALONG THE AVENUE

Well, "Rush Week" has rushed out upon us like a demon and all the good Fratres are rushing hither and yon and having very promiscuous chapter meetings and trying to weed out those men to whom they do not seem to take a particular fancy. But we all have a large time and brag about how we bopped so and so and how sorry we are that we got this boy after all. Wonder who the female population of the fair city is helping in the grand rush? Each year it seems that they pick a different lodge upon which to show their attention and to lend their charms(?) in the attempt to ensnare some guileless Frosh into putting on a pledge button in the hope that he will be "Pops" or "Father." And it is really surprising how many of the gullible goofs fall for that line. Some day after they have tried the ways of the world in Atlanta and have trotted the Proms and teas and traveled the long road of "love" with some Snub-Deb, they will be sadder, poorer and wiser men, Maybe. But next week will see many a new suit with a shiny button on the coat lapel and many of the Frosh who were not so fortunate as to have friends in lodges will be the admiring herd to that one godlike man who did make a "Frat".

The Nashville week-end has begun to tell on the boys according to the talés which they have told to Profs

Armistead.....f.b.....	Randolph

during the day as to the reasons for their lack of preparation for classes. But they must have had some wonderful times up there and they do say that Nashville has the best looking bunch of femmes that has strutted to a Southern football game in many a moon. Well, power to 'em. Atlanta still has her few (?). "Wop" Roman found out that he had a lot more men in his band than he thought that he had. Many new faces were found who did not know exactly what instrument they played when they were confronted by the conductors or detectives approached him but they got to Nashville and back and saw the game amid the drizzling rain which bit to the skin and chilled to the marrow. Yet a good time was had by all and the Tech Tornado continues on its way to a Southern Championship amid the plaudits and support of its students.

Some few of the Tech students migrated to other climes. Some of the love-sick swains took the long, long trail that leads to that Girl of My Dreams. The home sick Frosh turned their weary steps toward home and another diet than grits and gravy. It is indeed hard luck on these boys who get terribly love sick or home sick. There is really no use in their trying to study or do anything but mope around and try to do and they know that they can't.

"Bye, Bye, Pretty Baby"—the little sororities of the Seminary have sung their swan songs and in the future, we won't hear all about the virtues of the thirteen year olds and how they are so cute when they are not. But after all's said and done, the girls got a big kick out of it and they thought as much of their lodge as Cecil Puffton thought of the old Mu Mu Mu. It was indeed a shame that the noble Puffton was not here to help the young ladies defend themselves against the Tyrants of the faculty of the Peachtree Road Institute for the Feeble Minded.

DIANA—On Her Way to New York University

FORMER college generations remember the old Madison Square Garden (the creation of the late Stanford White) which housed Moody and Sankey Revivals, Barnum Circus, Six-Day Bicycle Races, Tex Rickard's Prize Fights, Horse Shows, Democratic Conventions, etc. Gracefully and serenely poised on top, the St. Gaudens statue of Diana was for years an outstanding figure in the New York skyline.

Diana is experiencing discomforts of detours but is on her way to an appropriate spot on the New York University Campus. Illustration shows Diana about to step off on her way to college—in splendid physical condition and destined to rank high among the college immortals.

The old Otis Elevator that bore many famous people to the White Studio in the

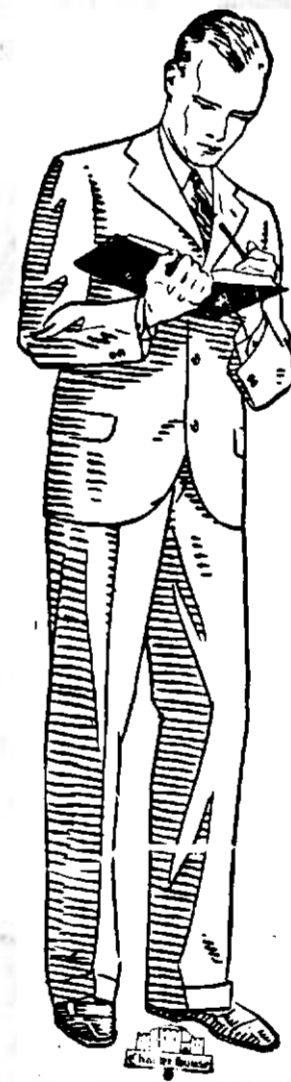

Tower has been junked. The New York Life Insurance Company is erecting a huge office building on the site of Madison Square Garden, as shown above.

The elevator equipment of the new building for the New York Life Insurance Company, Cass Gilbert, Architect, consists of 33 Otis Automatic Signal Control Elevators, operating at high speed, and equipped with the Micro-Drive or self-leveling feature; in addition to some few smaller and less important machines.

Signal control is automatic and the elevators are operated by pressure of buttons in the car or on the floors, all stopping and starting of the car being done automatically and in response to the calls registered on the controller by the pressing of such buttons.

**FROM THE
THIRD FLOOR**
BY JULES GRAY.

EACH KISS shortens human life three minutes, is the decree given by Western State College psychologists. Four hundred and eighty kisses would eliminate one day from natural existence and two thousand, three hundred and sixty encounters would shorten life a week.

From this it is learned that a large number of people are going to die early. One should heed this and restrict one's indulgence, remembering always, whether or not one has an 8 o'clock class.

EMORY UNIVERSITY reporters for the *Wheel* interview their Oriental student.

"It was five years ago, soon after he had started teaching at Kwansai Gakuin, that Jun Akutagawa of Kobe, Japan, first heard of Emory."

Iesnawok niukag nuj awagatuka ebok napaj or something worse, is all that it means to an untrained Caucasian.

A THEATRE SECTION in the *Yellow Jacket*, humorous monthly, is one of its new ideas. The work of the staff shows a decided improvement over that of previous years in both ability and interest.

"One Minute to Play," by Elinor Glyn was their best line in the November (Kick Off) issue.

THE SEX APPEAL authority, Elinor Glyn, has developed a wide circulation of readers of her passion chatter. Aside being author of "It", now a national expression of sex appeal, she has explored other sensuous fields. In the latest of which she indicates that "mental affinity binds a man and woman more than the physical", and that "a kiss or two stolen outside the home would not matter if the woman was not the mental equal of the errant husband."

The question really is whether or not the errant husband could explain to the innocent husband that it really didn't matter.

A NEW SHOP, one of the latest business endeavors for Atlanta is an ice cream shop in which only ice cream may be purchased. One may drive by, receive curb service, order what is called a "box" and continue one's driving. A metal spoon for eating is provided. The more fashionable people of the town have begun the practice.

They call the soup that is fed prisoner's "Canned Soup" and if someone finds a piece of steel in his chicken soup they call it a "spring chicken."

THE DIXIE KENNEL CLUB has sprung its trap and released its greyhounds for Atlanta's first adventure in the dog sport.

Henry McLemore, dog expert for the Georgian, describes the races as being colorful, "The rabbit has taken his trial turn around the track, he reaches the starting box and the straining dogs are cut loose in hot pursuit. Just as a horse comes down the stretch with only a scant margin between them so do the greyhounds approach the finish in such a manner that a topcoat would cover them. It always brings a thrill."

INFANTRY CONTINUES TO LEAD BATTALION BASKETBALL

(Continued from Page 4)

end. The Navy also humbled the Signal Corps; the final count being 16 to 12. The Air Corps "caught air" and forfeited to the Coast Artillery.

Revenge was sweet for the Ordnance this week when they put crepe on the Coast Artillery's hopes with a 20 to 15 setback. For some reason the Coast Artillery team couldn't get to working together, and as the game progressed they simply resigned themselves to their fate and took their defeat for granted.

The highly touted Ordnance quintet had their hands full in defeating that fighting bunch from the Navy. It was easy to see that the Ordnance had the superior team, but the "Ancient Mariners" made them fight for every point and the Ordnance was able to win by going at top speed throughout the game. It was not until the last 30 seconds of play, when the Ordnance made two field goals and a foul shot in rapid succession, that the outcome of the game was decided.

Team	Won	Lost	Pct.
Infantry	6	1	.857
Coast Artillery	6	2	.750
Ordnance	6	2	.728
Navy	3	4	.428
Signal Corps	1	5	.166
Air Corps	0	6	.000

Lieut. Glenn Visitor to Maxwell Field

New Books Received for Aviation Course

Students of Avation will be interested to know that the department has been receiver of 150 modern up to the minute books, text and otherwise. This makes the library one of the most complete of Southern schools.

Lieutenant Glenn was a visitor to Maxwell Field last week. The lieutenant has made the statement that the enrollment is now complete with 90 students.

TENNESSEE MEETS VANDERBILT IN FEATURE

(Continued from Page 4)

The only three undefeated and untied elevens of great calibre left now, are Princeton, Tennessee, and Georgia. If Yale, playing Princeton, does the trick, which would be no great shock, and Georgia plays par—then the Bulldogs and the Vols will be the only remaining undefeated and untied teams in the country.

Emerson Chemical Society Active

Emerson Chemical Society is getting away to a flying start. The last meeting dealt on the subject of Liquid Air, and the experiments were of special interest. A moving picture from General Electric Co. will be shown Nov. 15.

A good many of the professors this year are doing research work along various lines.

BULLDOGS CRUSH 'GATORS AS IRISH TIE MINNESOTA

(Continued from Page 5)

triple-threat-back rushed his heels to the Petrels and raced 65 yards around right end to a touchdown. The deciding score came when Garlington crashed through tackle for 17 yards and a touchdown.

Auburn journeyed down to New Orleans where they tied Tulane 6-6. The game was featured by the way in which the scores were made. Banker of Tulane ran a punt back from his 32 yard line to his three yard where he was forced out of bounds. Two line plunges took the ball over, but the try for the extra point was blocked. A few minutes later Callahan of Auburn took a punt on his own 15 yard line and ran 85 yards for a touchdown. The Tiger's try for extra point went wide.

Ole Miss subdued L. S. U. 12 to 7. This makes the second game in succession that the Donahue boys have lost. With the Georgia Tech game looming up in the near future, the Louisiana boys were taking no chances on getting hurt and this caution showed in their game.

Alabama won another game when they pounded out another win over Kentucky. The Crimson Tide showed excellent team work in running up the large score of 21 to 7. Holm, full-back for the Tide, was the star in this game. He showed up especially well in the march to the last touchdown when he bucked the ball the length of the field, doing almost all of the work and ripping off gains of five to seven yards at each attempt.

NASHVILLE FURNISHES GAY TIMES FOR STUDENTS

(Continued from Page 1)
they made us pay. That was what hurt. But then we found plenty of chances to win it back. Some of us tried it too.

In Nashville with over half a day on our hands, we had to run out to Vandy and look up our dear fraternity brothers and let them feed us and entertain us. Or else we took a ride to Ward-Belmont to see our dear girl friends from the old home town.

Well about 2 o'clock the crowd began to move in the direction of the stadium. By game time there was

quite a colorful crowd there, along with a few co-eds in red, green and purple slickers. And then we must not forget the spiritualists, although they didn't seem as numerous as they do at our games. To us Tech was better represented than was Vandy. What with Wop Romans' band and the cheerleaders, not counting the one who took off his coat and tried to lead a yell of his own. Anyways we didn't let the cop throw him out.

Speaking of the game, it was really worth seeing. Aren't you sorry you didn't go now? It was really thrilling and filled with action all the way through, but as I said before, it didn't satisfy us.

Saturday night some of us went to

the tea dance, while some of us went to an early show. The majority of us just walked around town waiting for train time.

The trip back was not very eventful, everybody was tired out and wanted to sleep. Those that bummed back on the train had it easy, they didn't check up very close.

Students came in all day Sunday and Monday and no doubt some of

them are not back yet. A favorite saying these days seems to be, "Did you get back all right?" Yes, we did, thanks.

No doubt in future years we will look back on this trip and be proud that we made it. While those that didn't make it will be sorry. But right now we are saying "Nashville ain't what she's cracked up to be." Neither was Spears.

Georgia School of Technology

"A TECHNICAL SCHOOL WITH A NATIONAL REPUTATION"

THE GEORGIA SCHOOL OF TECHNOLOGY offers to young men of ability and ambition a training which will fit them for positions of responsibility and power.

The national reputation of this institution is based not on claims, but on results. Its greatest asset is the record which its alumni are making in the productive work of the world. Georgia Tech graduates succeed because they have been trained both to think scientifically and to work efficiently.

Courses in CIVIL, ELECTRICAL, MECHANICAL, TEXTILE, GENERAL, AND CERAMIC ENGINEERING, ENGINEERING CHEMISTRY, ARCHITECTURE, COMMERCE, AND GENERAL SCIENCE.

Coast Artillery, Signal Corps, Air Service, Infantry, and Ordnance Units of the R. O. T. C.

Some call it mellowness . . .

SOME say that Camel is the mellowest cigarette ever made. Some that it's mild and smooth. It's really all good things in one, and that is why it is supreme upon the pinnacle of modern favor. Camel's popularity today is the largest that any cigarette ever had.

And, it costs something to make this kind of a smoke. It costs the choicest tobaccos

that money can buy, and a blending that spares neither time nor expense. Each Camel cigarette is as full of value as the world of tobacco can give.

You can be sure of smoking pleasure, serene and full, in these quality cigarettes. Smoke all of them you want; they simply never tire the taste.

"Have a Camel!"
