

Reorganized "T" Club Holds Banquet For Tech Athletes

The "T" Club of Georgia Tech has at a banquet held and shown some of life. Under a newly elected Glenn Coughlins, President; Sheby, Vice President; and Gary Secretary and Treasurer—the Club is sponsoring an event which is a great interest to all Georgia Tech fans. The function, which is to be held tomorrow, March 18, 7 P.M. at the Brittain Dining Hall, will consist of a buffet supper, followed by the two-week trip itself.

The pictures of the trip were taken in color by Coach Roy Mundorf will provide entertainment like such has never been seen before on Georgia Tech campus.

Tech athletes who are participating in spring sports, or who have participated in a major sport, are heartily invited. Popular prices are seventy-five cents for stages and one dollar per person, which are payable in meal tickets.

The program will be over in less than two hours.

Crew Elects First Co-op Members

At the end of the season, the Civil Crew held an election Saturday night, March 4, to elect its Co-op members for the year ending March 11th. This is the first in the history of the Society that students of this Co-op section have initiated. Nine Co-op and two regular students were given first-hand information on the practical aspects of Crew Construction and usage by members of the Crew. They were given a chance to show their knowledge of surviving the end of a short ride into the water. It is hoped that they will be able to get back in time for their next trip.

The following Co-ops were nominated: H. Ballenger, J. H. Cain, F. O. Minner, H. Quillian, J. W. Quillian, J. Peoples, H. J. Frank, G. W. Weaver, and A. F. McCarty. In addition to these Co-ops, two more were nominated: W. O. Carmichael, and M. O. ...

"Y" Brings Picture On Syphilis

On Monday, March 20th, the Georgia School of Technology presented a program depicting the combined efforts of the State Board and the United States Department of Health in the control of southeastern Georgia, Georgia syphilis. Two of the counties Chatham and Glenn. The film shows how both doctors and nurses combat superstition and stigma attached to treat syphilis. After the film, Dr. S. Ross Brown will speak on "Venereal Disease Control in Georgia."

Jack McMichael "Y" Official To Visit Tech

Jack McMichael, one time President of the "Y" at Emory, later Co-Chairman of the Blue Ridge Conference and also Co-Chairman of the National Student Assembly, was recently the traveling Secretary for the "Y" in China, will spend two days at Georgia Tech, next week. He will give interviews and will be the principal speaker at the Cabinet Meeting, Wednesday. McMichael attended the World Missionary Conference in Madras, India, last December. He should have many interesting things to say concerning this conference. The many important offices he has held are a fair indication of his personality and ability.

Last night, in a hotly contested basketball game between the Pi K.A.'s and the Delta Sig, the Pi K.A.'s were victorious by the score of 19-15. The Delta Sig led most of the game, but Pi K.A.'s came from behind to win the game and the inter-fraternity tournament. The playing of Perry and Lawrence were outstanding for the Pi K.A.'s as was that of Hutchinson and Gray for the Delta Sig.

Co-op Club Elects Officers

Last Tuesday night the Co-op Club held its annual election of officers for the coming year in the Club Room of Clowman Hall. Those elected were: H.E. Broad, President; G.L. Gunn, Vice President; R. Gale, Secretary; and H.H. Perry, Treasurer. The outgoing officers are: C.H. Williams, President; F.S. Oberlin, Jr., Vice President; and C.S. Perry, Treasurer.

The club honored the Senior members with a panel, which will be hung on the Club Room wall.

Plans for the coming year are a soft ball tournament, swimming meet, Freshman cake race, field day, and Freshman-Sophomore tug-of-war. The club is also interested in establishing a student loan fund, whereby upper classmen may receive help and repay the same with interest after graduation.

Fresh "Y" Council To Meet 21st

The Freshman "Y" Council will hold its regular meeting, Tuesday, March 21st, at six thirty-five o'clock. Professor Count Gibson, who will act on the Board of Directors, will speak. His subject is "The Simplest Things in Life are the Greatest."

A. I. Ch. E. Elects Officers For Coming Year

At the regular meeting of the Tech student chapter of the A.I.C.H.E. last week the following officers were elected to serve for the year 1939-40: President, J.H. LaRoche; Vice-president, R.H. Breh; Secretary, A.B. Barkover; Treasurer, W.R. Dusenbury and Chairman of program committee, G.W. Phillips. These officers will take office in May.

Plans are being made for the members of the Senior class in chemical engineering to attend the southern region convention of the A.I.C.H.E. in Blacksburg, Va. in the latter part of April. In addition to the seniors, the newly elected officers for next year will make the trip.

The final plant tour of the year is being arranged with the Atlantic Brewing Company, and will take place some time in the near future.

The senior booklet, which has a page for each member of the Ch.E. graduating class, with his picture and history, was released last week. Copies of this booklet will be sent to major companies that employ chemical engineers in order to acquaint them with the seniors. Robert Oomabay was the chairman of the committee on the booklet.

Hutchinson Wins Co-op Council Berth

During the past week the election for the representative to the Student Council was held by the First Section Co-ops. The candidates were F. M. Brannan, R. C. Cheek, and J. A. Hutchinson. All three of the candidates nominated by the Pre-Junior class are outstanding in their respective courses and any of the three is well equipped for the job. The present representatives are O. F. Crumley and John Drew, who are Senior and Junior representatives, respectively.

The student nominated by the Pre-Junior class and elected by the entire Section, takes office the following term, which is his junior year. Although election to the Student Council is one of the highest honors that can be gained as a fellow-classman, George P. Burdell showed up in the election returns with one vote.

"Mumps" Still Fill Hospital

If the boys keep reducing their attendance in the hospital as well as they have been, it won't be long before the place will be empty. The following boys with their names may not have visitors, and those without the stars are anxious to see any and everybody: E. J. Roberts, W. H. Hayman, H. C. Harrison, A. N. Chesney, Rex Wilson, J. E. Connors, R. O. Brinkman, S. J. Adams, H. L. Burpo, O. H. Cowan, S. V. Bocerri, R. S. Hagart, R. B. Bridges, H. M. Abelson, Wm. A. Marstellat, C. K. Reese.

Tech Chemical Department Approved By Engineering Council

Tech Y. M. C. A. Begins Cooperation With Atlanta Churches

With a Young People's Meeting on Sunday, March 26th, in the Y. M. C. A., the Georgia Tech Religious Council will begin its activity of cooperation among the churches of Atlanta and the Tech Y. M. C. A.

The interest and eagerness aroused for the success of the Council are a challenge to the Council, not only to talk about awakening and increasing religious interest, but to make some definite plans to help young people realize for themselves the importance of God in their daily lives.

The Religious Council accepts this challenge, and in a meeting held Saturday, March 4, drew up definite plans for this Young People's Meeting, on the 26th of this month and more general plans for a "Religious Emphasis Week" to be held probably the second week in April.

The Young People's Meeting at the "Y" will be a city-wide affair, and promises to be a real step forward in religious cooperation. The program committee has planned an interesting evening which will be vital to young people; those of Tech and of Atlanta. Student speakers will follow Sunday night refreshments at the meeting to which every young person of Tech and Atlanta is invited, regardless whether he is now affiliated with any of the church groups.

It was just several months ago that the Engineering Council for Professional Development, after a long period of critical inspection, finally put its stamp of approval on the chemical engineering division of Georgia Tech. This recognition, a sincere compliment to the tireless efforts of Dr. H. A. Bunge, made Georgia Tech the only college in the Southeast whose chemical engineering school has been so approved by the E. O. P. D.

Last Monday, however, this recognition was duly vindicated when Philip H. Groggins, Senior Chemist of the Bureau of Chemistry and Soils of the U. S. Dept. of Agriculture, made a protracted tour of the chemical engineering department of Georgia Tech. Mr. Groggins, who is the author of a book on organic technology which is unique in its field, was highly complimentary of the chemical engineering school at Tech. He expressed the belief that the South was on its way to assuming leadership in the fields of industrial chemistry once again when it has such schools as Georgia Tech to provide a training ground for the oncoming generation of chemical engineers.

Upon the completion of his tour about the campus, Mr. Groggins was induced to address the chemical engineering students in an informal talk. Mr. Groggins spoke quite unreservedly, and he laid particular stress on the problems which the chemical engineering student of today would meet upon his entry into industry. He emphasized the need of cooperation with one's fellow workers and the necessity of teamwork in industry. Mr. Groggins also discussed, at length, the three fields into which the graduating chemical engineer may enter—research, operation, or technical sales.

Wo-Woo . . . Stephens College Girls Visit Tech Campus

By Maxwell L. Shatzen, Jr.

Last Tuesday, a body of pretty ladies from Stevens College in Columbia, Missouri, descended upon Tech's campus. They were not wandering about at will. They were not playing "hooky". They were traveling with members of their faculty and learning by actual observation, about many things of which they had heard. Travel, as an important educational factor, has long been appreciated but these inquisitive little palpitators were from Missouri, and therefore THEY had to be shown.

You may have heard that terrifying explosion which rattled the foundation of the Chemistry building. That gentle reader, was the result of the distracting influence of a blond party who entered the chemistry laboratory at a moment when a student in quantitative analysis was about to alkalize a tempting mixture of acidified ferric. The sophomore picked himself up off the floor and in a daze, he rushed to this "Miss America's" side expecting to remove glass splinters from her lovely features. "Gee,—that was it. Do it again!", said this 22 karat Venus.

In the physics department, the studied effects of personal magnetism. One of the embryo physicists was making unique contributions to

with his observations on the effect of reducing the "sparkling" gap to zero and allowing the "cosstatic" electricity to flow. From the sentimental look in his eyes, he was willing to be electrocuted by the charmingest brunet since Helen of Troy. No one was shocked but the visiting teachers from Stevens College.

That Junior Architectural student who mutters terrible threats as he paces the campus is NOT crazy. You see,—the little girls from Stevens visited the Drawing lab. He was completing a six-week's plate. Bummer has that for her collar of an over-coat carried by the most angsty little siren of the lot, accidentally brushed against his little of Higgins' "eternal" ink. Well—the battle of black tottered, quivered and rolled across that carefully executed drawing, and poured forth its black liquid from margin to margin. "Architects should never marry!", said the draftsman.

It's little things like these that give students their earliest gray hairs; but it is also incidents like these that add a spark of amuse-ment to otherwise tedious laboratories.

Tech hopes that these charming people will return soon again for another and longer visit.

Briaerean Formal Opens Week-End

Foremost in a week of interest to the college contingent will be the annual formal dance at which the Briaerean society will be hosts this evening at the Georgian Ballroom of the Biltmore Hotel.

The ballroom will be decorated to carry out the society's colors. At 10 o'clock the members and their dates will be joined by a large group of the college contingent, who have been invited for dancing. Music will be furnished by Bill Manley and his orchestra.

Officers and their dates are: F. S. Osborne, President, Edna Lewis; W. F. Hunter, Vice-Pres., Jewell Jones; P. E. Everett, Treasurer, No. G. B. H. Duncan, Secretary, No. date. H. C. Cauble, Pat Wells; R. C. Cheek,

Frances Ellis; H. J. Crumly, Mrs. H. J. Crumly; C. F. Crumley, Bryant Holsenbeck; R. C. Fordham, Frances Harris; G. E. Murray, Irene Phillips; H. R. Perry, Margaret Lawrence; H. B. Plummer, Leone Stewart; J.

Itzack, Martha Campbell; C. H. Williams, Mrs. C. H. Williams; J. G. Wohlford, Virginia Clover. Other members attending: R. E. Arnold, F. M. Brantman, John Drew, I. O. Dreyer, M. V. Gelders, E. B.

FRATERNITY HIGHLIGHTS

By Hal Curtis Felsher

As a choice week-end that was based—a week-end that saw two Georgia Tech's prime fraternities series of dances that were the pride and glory of the campus. On last night the Phi K. A.'s had the hands with their formal at the Shrine—a formal that was ably aided by Bob Sylvester and his band. Miss Olga Vernon, the blues singer, on the succeeding night—Sigma Beta gave a formal dance that was big and small—all the countryside. Yes, they were fine dances indeed, and "his" success this week end will surpass those of the past week. The dance takes place to-night at 10:30. The Theta dance will hold the spotlight on night at the Biltmore—and the men will swing to that music from (Continued on page 6)

Pi K. A.'s Win Interfraternity Basketball Tourney

Defeat Delta Sigs To Take Trophy For Third Time

The Pi K. A.'s won the Interfraternity Basketball cup by defeating the Delta Sigs 20-19 last Monday night. It was a very exciting game, both teams being well guarded. The score was 19-18 in favor of the Delta Sigs in the last minute of play but Pevs shot from midcourt and gave the Pias a one point lead which they held until the final whistle. In the first half, J. B. Lawrence could not find the basket, but in the last half he made up for it, and was high point man with ten points. Monk was outstanding man for the Delta Sigs.

For the last four years the Pi K. A.'s have won the cup three times. The Betas won it last year. The Pi K. A.'s will have practically the same team next year and they will be hard to beat.

Line Up

Pi K. A. Delta Sigma Phi

- F—Kell. D—D'Zamba.
- F—Pewee. F—Hutchinson.
- C—Lawrence. C—Strang.
- G—Frank. G—Graf.
- C—Richardson. G—Monck.

Score at half—Delta Sigs 10—Pi K. A. 5
Scorekeeper—Eddie Pittman.
Referee—Flynn.

Freshman Swimmers Lose to Darlington By Score of 40-25

On Monday, March 6, the Yellow Jacket Fresh swimming squad lost their second consecutive meeting by losing to the Darlington School. The meet, which was held at the downtown Y. M. C. A., ended with the score 40-25.

The events were as follows:

- 40 yds. F. S.—First, Wages of Darlington—Second, Luce of Darlington—Time 20.5
- 100 yd. Br. Stroke—First, Dykes of Darlington—Second, Wannamaker of Tech—Time 1:13.7
- 200 yd. F. S.—First, Hutchins of Tech—Second, Gumsley of Darlington—Time 2:44.5
- 100 yd. Back S.—First, Hammond of Darlington—Second, Speed of Tech—Time 1:34.7
- 100 yd. F. S.—First, Denison of Darlington—Second, Monspert of Tech—Time 1:34.8
- Diving—First, Routouree of Darlington—Second, Andrews of Tech.
- 180 yd. Medley—First, Davidson, Manlin, and Hammond of Darlington—Time 2:30
- 100 yd. Relay—First, Adrian, Shaw, Monspert, and Hutchins of Tech—Time 1:28.6

Track Squad Faces Los Of Belcher

The chances of Captain Charlie Belcher to run for Tech this year are doubtful. The star quarter-mile is having trouble with his left foot, to such an extent that he may be out for this season, resting up for next year.

Inquiring as to the possibilities of the Freshman track team for this year, we found that they will have a fair team with exceptionally fine sprint men. Their first meet will be with Bora High School, of Atlanta, on April 4; to be followed by meets with University of Georgia, Auburn, and three Prep schools.

Some of the Freshmen ones want to keep his eye on are the following—Pair, 100 and 200 has run the 100 in 9.9; Almand, quarter-mile (best time, 51 sec.); Boor, shot and discus; Sanders; McManus, high and low hurdles; Rutherford, pole vault; Rabin, sprints, who comes to Tech with a good reputation in the 100 yard dash; Cash, mile and two mile; and Sear, mile and two mile. Cash, who was Captain of the Freshman Cross-Country team, and Sear, another fine distance runner; both will be remembered for their fine work on the successful Freshman Cross-Country team of this year.

Softball Season Gets Under Way

Simultaneous with appearance of signs of an early spring, came the start of the big softballs from every vacant lot and fraternity backyard on the campus as the various fraternities and non-fraternity groups warmed up for coming competition later in the spring.

The Sigma Chi's, up Spring Street, have jumped off to an early start, and have been practicing for several days. Clinton Knight, Sig hotshot, has issued a challenge to any team desiring a little pre-season practice. Meanwhile, up on Fraterrita row, the Beta's, Chi Psi's, and the

Tech Riflemen Win Tenth Consecutive Match This Year

Coach Morenus Leads Fencing Club Against Tech Squad

In a hard fought match, the Jacket fencers lost a 5-3 decision to the Atlanta Fencing Club. The A.F.C. aggregation, composed entirely of former Tech varsity swordsmen, included Bobby Hutchinson and Bob Feagin, captains of the 1934 and 1937 teams; Professor R. T. Morenus, coach of the Tech squad, and Jack Carran and Rex White, both members of the 1938 Tech team.

O. C. Ripberger paced the Tech team by winning three of his five matches, and Morenus and Feagin led the A.F.C. by winning four and three matches respectively. Two of the Tech victories were scored by Davis, and Talley, Wright, and Bartha accounted for one each. Hutchinson and White each won a bout for the A.F.C.

In preliminary to the varsity match, the Baby Jackets defeated Savannah High by 9-0 score. Cheney, Sturrock, and Wade won two bouts apiece, and Oershen, Price, and DeBeauchamp accounted for the other three. In spite of the large score, the Savannah squad fenced a nice match, and showed some very promising material.

Tech will meet the University of Alabama in a return match tomorrow night in the Naval Armory at seven o'clock. The Jacket team defeated the Alabama swordsmen in their first meeting this season, and hope to repeat the victory.

Chi Psi's show some signs of activity, but have not begun any actual practice. "Stud" Forrest, Bill Phillips, and Ben People will undoubtedly start things moving over at the Beta house, probably inaugurating festivities with a beer party. Over at the S. F. E. house, Selman, Ledbetter, Shorty Van Arsdale, and Jim Hiepel will soon be out limbering up the old bat. These boys have always been active in all competition.

Up at the big rock, the S. A. E. doodlers have shown no sign of interest, but it is believed that Alvin "toddy" Barge, and his cohorts will wake up soon.

Squad to Face Unbeaten N. C. Team Saturday

Firing their poorest match of season, Georgia Tech's rifle team, defeated in shoulder-to-shoulder competition this year, won a decision over G. M. A.'s cadets Saturday, March 11th. The match took place at College Park, proved that much surprising to the college. The cadets fired better than expected and this fact combined with Techsters, poor shooting, made match much closer than it had figured. "Tech" scored 900 x 300 G. M. A.'s 928 x 300, a margin of 72 of 30 points.

Five men from each team fired shots in each of four positions—sitting, kneeling and standing, all scores counting.

Sanderson, led the Tech squad with a score of 184 x 200, but he had passed by Lee, captain of Tech team, who fired 183 x 200. In place went to Hagarty with 179 while Dye followed close behind fourth place with 178 x 200.

For G. M. A., Clem, with 193, passed his team mates, and Capt. G. M. A. took second honors with 177 x 200. Immediately after the completion of the varsity match, the "B" team of the two schools fired, and Tech won this contest by a greater margin than the varsity. Tech's "B" team with a total of 860 x 1000 points, defeated G. M. A.'s "B" team garnered 808 points.

When the Library search failed

...the telephone succeeded!

FIVE sophomores at a New England university had been assigned to report on the residential districts of a southern city, its principal products and the location of its plantations.

Hour after hour they thumbed through book after book in the library—all to no avail. Then one of them had a happy idea—why not telephone the city's Mayor? They did—and in a few minutes had all the information they needed.

No matter what the question—in college, in social life, in business—you'll find the telephone is often the quickest, most economical way to get the answer.

How about a telephone call to Dad?
Rates to most points are lowest any time after 7 P. M., and all day Sunday.

GEORGIA TECH COLLEGE INN

Serves Every Student Need

SPORTS Review

By Julian Arthur Altobellis

comes from Athens of the devastating attack of the Bulldog varsity. Local sports observers would be enthusiastic over the bright prospects of all-powerful Georgia team next season equipped with a backfield of a creative ability that will spill over for their opponents of next season.

Next, Tech. Despite the glowing reports of our perhaps over-enthusiastic press, it is logical to assume that the potentially invincible Bulldog will encounter some little difficulties they face the Yellow Jacket team that is to be next season.

The reason this is true is Buckley, a blocking back, who ran 50 yards against the reserves in the regular season scrimmage, thus proving his class as a runner from scrimmage, as well as a great defensive back. Equally important was the action of Bobby Pair, Tech. High so, who flashed over 100 line-two times during the year and well executed reverse plays. Like his teammate Bosch, Pair is small of build, but elusive and clever in his play. Most gratifying was the running of four great ends, Ison, Bartlett, Berry, and Webb, a versatile find from the front. The blue ribbon continues to show promise in both ends and defense.

Tech. This year continued their victory march when they defeated the A. I. cadets recently. Led by Sargent, former Boys High star, they will soon be in the National Tourney. "B" team, also from Boys High, has a consistent high score this year and is expected to make his usual fine showing in the tourney. Tech has received the bronze plaque indicated second place in national rating of proficiency.

Although two of their best performers absent, the Bulldog tankmen defeated the crippled Techsters. Believed that the loss of Dumont, Ison, who was consistently high last year, is the greatest factor in the weakness of the Jackets. Meanwhile, Lanky Anderson is continuing his creditable performance in the above events. It is said that Lanky

Tech Sharpshooters Take G. M. A.

(Continued from page 4)

Reattig was high for the "B" team with 178 x 200, while Parker led the G. M. A. "B" team with 177 x 200.

The Tech Varsity will get its most severe test of the season on Saturday, when North Carolina State's unbeston mountaineers come to Atlanta with the avowed purpose of adding another scalp to their long string.

The North Carolina Statesters have a decision over Tech in the Corps Area R. O. T. D. Fostals, having scored 3761 x 4000, while Tech was scoring 3706 x 4000, a margin of only twenty five points.

Two five-men R. O. T. C. teams will compete for Tech in the William Randolph Hearst trophy matches this week. It is expected that both teams will make a creditable showing. Tech's first team won second place in this competition in the Corps Area last year.

Saturday afternoon, Coach Morneau's fencing charges will meet the University of Alabama swordsmen in the new gym. This will be their second match of the season, the Jackets having defeated "Bama" previously. Although the Crimson have a large team, it does not approach the organization and skill of the Techsters. As usual, the Jackets will be led by Hippewonger, Wright, Haggert, Talow, Bartha, Craig Davis, and several others of equal ability. The erstwhile fierce Bulldog fencers were nipped in the bud recently by the crack Boys High team, and have been scratched from the Tech schedule.

Varsity Swimmers Defeated By Miami In Close Match

Tech Held Lead Until Last Event, 440 Record Broken

In a swimming meet which was determined by the final relay, Miami outswam Tech, 44-31, last Monday night, at the "Y" pool.

Miami won four freests to three for Tech. Also Miami nosed out Tech in both the relays. Slater, Miami's ace breaststroke man won that event easily, as did Collins the distance. Collins broke the pool record for the 440 yard distance.

Collins was high point man for the meet. Results were as follows:

- 300 Yd. Medley—Miami—Huguélet, Slater, Iba. 2:53.5
- 230 Yd. Freestyle—First—Collins,

- Miami; Second—Jones, Tech; Third—Allorn, Tech. 2:32.6
- 60 Yd. Freestyle—First—Iba, Miami; Second—Berry, Tech; Third—Reynolds, Miami. 33.3
- Diving—First—Villagelieu, Tech; Second—Slater, Miami; Third—Brooks, Tech.
- 100 Yd. Freestyle—First—Anderson, Tech; Second—Reynolds, Miami; Third—Abbe, Tech. 61.3
- 150 Yd. Backstroke—First—Stuntz, Tech; Second—Huguélet, Miami; Third—Dimmig, Miami. 1:26.3
- 200 Yd. Breaststroke—First—Slater, Miami; Second—Dunn, Tech; Third—Kaplan, Miami. 2:51.4
- 440 Yd. Freestyle—First—Collins, Miami; Second—Allorn, Tech; Third—Jones, Tech. 5:31.5

Factory in a Meadow

With one foot on the land, and one in industry, America is safe.
—HENRY FORD

A DOZEN small Ford plants dot the fields and meadows within fifty miles of Dearborn. We call them the "village industries." Their windows are bright in the sun, and their wheels turn to the harness energy of once lazy streams.

Many of their workers are farmers who love fine machinery. After harvest and before green-up, these farmer-workmen park their cars in neat rows beside the plants. Inside, with the newest, most modern machines, they build Ford parts.

With the money earned, they buy that fertile forty just east of the pasture lot—families go to school—houses grow wings—barns are filled with provender and sheds with back-saving machinery.

These Ford families have one foot on the land and one in industry. They raise food for themselves and feel secure. They know that if slack times come, farm and garden will still provide employment.

Life is pleasant in the villages. Working conditions are almost ideal. Men do better work and are proud of their contribution to Ford quality. It shows up in the fine performance and all-around dependability of the 1939 Ford cars.

poor old Adam in the back. But you know the old saying, "There's one born every minute."

Dear Miss Heart,

I am a young lady of 14 years. There have been several Tech boys coming to see me. One of them is very nice, his name is L. Lawrence and I like him quite a bit. Do you think I am too young to go with him?

Miss Jale Bate.

Dear Jale Bate,

Give him a nicker, as I know he hasn't got one, and tell him to call you back in five years.

Dear Miss Heart,

My problem is the acme of frustration. For 39 years I have been courting a bitthe maiden seven nights a week and enjoying myself very much. During the last two years her parents have persistently intimated that they would like to know my intentions. Last night I found, to my horror, that she is 20 years older than I. Knowing that, I don't believe we would be happy growing old together.

I am 47, healthy, poor but honest, and a Tech faculty member. Please, please tell me what I can do.

Shot A. Lottabul.

Dear Mr. Lottabul;

Your problem is indeed the acme of frustration. There is nothing some parents won't do to get their daughters married off these days. Although I do not believe in long courtships, I don't believe in rushing into things. If I were you I would look into the matter a little longer in order to be sure that there isn't anything wrong with this burom lass. By the way, did you say you were a member of the Tech faculty? If so, the best solution to your problem would be a nice dose of strychnine taken before retiring.

(Continued next week)

Fraternity Highlights

(Continued from page 3)

9 o'clock until 12.

But even with all these gala affairs, the campus fraternities are keeping plenty busy what with initiations, buffet dinners, house dances and date dinners. And speaking of date dinners--well, the brothers from that lodge "way up on the hill off Peachtree Street, went in for a date supper in a big way last Sunday. Those partaking of the ten course supper included Caroline Yundt and Frank Allcorn, Peggy Crosswell and Spencer Crowley, Dotts Groom and Ben Simms, Louise Jones and Rogers Toy, Anna Lane and Jimmie Wilkins, Helen Tautman and Billy Chromer, Julia Felt and Fred Murphy.

The Kappa Alpha engineers went the way of all good Technes and sponsored a skating party that had 'em coming and going. It was a cheery affair and merry were the paces of

laughter that swung the skaters around the skating rink. There were good skaters present, too--as witness Dave Tillman and Sarah Dent, Jack Gaston and Lillian Broward, Marshall Grooner and Eleanor Clay.

Last Friday night the Sigma Chi's entertained at a tea dance and buffet supper at their caetera on Spring Street. Also present were the brothers and their dates from the Beta Chi chapter at Emory.

The Sigs danced to the music of the newly augmented Tech Ramblers, who turned in a creditable performance. The festivities were presided over by Alex "Geechee" Ormond, aided and abetted by Jack Sherertz and "Doodle" Dusenbury, high steppers extraordinary.

Theta Chi Dance at Biltmore

(Continued from page 3)

Taylor, Miss Lillian Sibles; F. E. Todd, Miss Margo Ried; J. A. Webb, Miss Harriet Flishe.

Pledges and their dates will be: L. Adrain, Miss Norma Dunbar; H. E. Broward, Miss Carolyn Hughes; F. W. Magill, Miss Allie Malone; W. R. Reeves, Miss Elizabeth Harris.

Other members attending will be: J. W. Curry, C. I. Brooker, J. W. Pafford and W. G. Smith.

Other pledges attending will be: J. Dargan, Warren Hansen, J. C. Hunt, T. Neal Kenyon, Pat Murphy, Hugo Quillian, James Quillian, and A. L. Uhlir.

Answers To Traversing Tech

(Continued from page 2)

1. Thirty-four.
2. There have been four selected by different sports experts. They are as follows: J. T. Harlan, Everett Strupper, G. M. Phillips, Oscar Davis.
3. It was given to Tech in 1923, by the class of 1928.
4. It ordinarily seats 28,000, but 44,000 have been seated by the use of temporary stands.
